President’s Message

Welcome to San Diego City College – A Smoke Free Campus!

The excitement is building at San Diego City College as we prepare for our 100th Anniversary celebration in 2014. We look forward to your participation in our year-long event and encourage all current and former City College students, staff and faculty to sign our City 100 Roll Call at www.sdcity.edu/centennial.

Since 1914, more than one million students, faculty and staff have been a part of the rich history of San Diego City College. At City College, lives are changed every day. You follow in the footsteps of those making a difference in all fields from biology to shipbuilding, and computer technology to the theatre.

Wherever you are in San Diego, you will meet a City College graduate. Our nursing students are in every major health facility, our Radio/TV students are our local news broadcasters, a former journalism student recently earned a Pulitzer Prize, and one of our graphic design students was the official designer for President Obama’s 2012 Re-election campaign.

On campus, we continue to see the transformation of our beautiful 60-acre campus, especially along the east campus gateway and the 16th Street corridor.

This past spring, we opened the five-story Math and Social Sciences building. By 2014, the Science building and the Arts and Humanities and Business Technology building will both be completed.

At the completion of our 99th commencement in May, City College awarded more than 1,000 associate degrees and certificates. Nearly a third of our students graduated with Honors and several received multiple degrees.

Helping our students succeed, our San Diego City College Foundation awarded 424 scholarships totaling $380,000 to 341 students. Thirty-five students earned multiple awards.

Additionally, Angel Moreno was one of the 73 scholars in the nation to receive the Jack Kent Cooke Foundation Undergraduate Transfer Scholarship. This transfer award provides up to $30,000 annually to the nation’s top community college students to complete their bachelor’s degrees.

As most of our students work while attending college, we know it is critical to accommodate your job and busy family schedules. We offer more than 250 degree and certificate programs and 1,500 classes each semester, many online. With the Western Association of Schools and Colleges accreditation, your degree or certificate from City College certifies to transfer universities and employers that you have met the highest national standards.

Our highest priority is to help our students achieve their academic and career goals. Our First Year Experience (FYE) program connects students with counselors, professors and fellow students to provide you with the tools to help you graduate. Our Financial Aid Office is at the ready to answer your questions regarding potential funds for college expenses. Please learn more about the many student support services available.

We are pleased you have chosen to join our college community to pursue your academic and career dreams. Good luck to you. We look forward to seeing you on campus.

Accreditation

San Diego City College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, an institutional accrediting body recognized by the Council on Postsecondary Accreditation and the U.S. Department of Education. The college is accredited by the Office of Private Postsecondary Education for the training of veterans as well as by the U.S. Department of State and the U.S. Immigration Service for international student education. Courses paralleling university level work are accepted by the University of California, California State University, and by other universities and colleges.

Persons interested in the institution’s accreditation and program approvals may review documents describing these activities in the President’s Office. These documents will be available for such review at a mutually convenient time during regular business hours, and an appropriate interpretation of their contents will be provided if requested.

Disclaimer

The San Diego Community College District is governed by its Board of Trustees. No oral or written representation by any employee of the college is binding on the San Diego Community College District without the express approval of the Board of Trustees.

History
San Diego City College is a public, two-year community college administered by the San Diego Community College District. Serving as the educational cornerstone of downtown San Diego, the college offers more than 100 majors, 100 certificate programs and 1,500 classes each semester to more than 18,000 students. City College will celebrate its 100th Anniversary in 2014.

Chronology
1914
City College established as the first community college in San Diego (San Diego Junior College) with 35 students and 4 instructors. City College was the third community college established in California.

1921
City College moved from the high school to share facilities with the State Normal School, the four-year teachers' college which became San Diego State University.

1939
San Diego Evening Junior College was created by splitting the institution into two entities, day and evening. With the industrial growth in San Diego, the Evening College was needed to meet the demand for college courses for daytime working people.

1946
City College moved back to San Diego High School and reorganized into three branches: San Diego Vocational High School, San Diego College Arts and Sciences, and San Diego Evening Junior College.

1953–54
The first parcel of land, a single city block between Russ Boulevard and A Street, from 14th to 15th Streets, was purchased for the permanent home of what is now San Diego City College. The first buildings constructed were the A and T buildings.

1972
San Diego Voters authorized a separate Community College District.

1988
A facilities Master Plan was developed to recommend modifications to the existing facility, to meet current and future needs.

1989
City College celebrated its 75th Anniversary.

1992
The new 3,000 sq ft Fitness Center opens with full fitness and exercise facilities.

1998
City College leased to San Diego Unified School District, property on which Garfield High School and a 420-space parking structure is built. City students have shared use of the parking and the College can offer classes in the facility.

2000
Construction completed on the 8,000 sq ft Educational Technology Center. The ETC is fully equipped with state-of-the-art media and teleconferencing equipment.

2002
The Learning Resource Center (LRC), occupying 67,000 sq ft of the R Building, replaced the 30-year-old library. The three-level LRC houses not only the library but also the Office of Classroom Technology Management, The Independent Learning Center and CitySITE: a center for faculty and staff. The LRC provides City College students with research resources and services such as hundreds of computers with access to the internet, office software, specialized databases and software, and thousands of paper and electronic articles and books. WiFi and continuously broadcast news is also provided.

2005
A new Facilities Master Plan was approved by the Board of Trustees and projects a 20-year build-out to accommodate 25,000 students.

2005
The 2,000-seat, 55,000 sq ft Harry West Gymnasium opened. Dedicated to beloved Coach West, students enjoy three regulation basketball courts, six badminton courts, three volleyball courts, intercollegiate team rooms, workout facilities and new classrooms.
2007
Eight high-tech classrooms added to the R Building lower level, with additional offices and meeting space.

2009
The 27,800 sq ft Academic Success Center opened to provide a one-stop service area for students, including: Tutorial, Math and English Centers, and the EOPS, MESA (Math, Engineering, Science Achievement), New Horizons, Puente, Umoja, and CalWORKs Programs.

2010
The new 88,000 sq ft Career Technology Center (CTC) opens. This five-level building at 16th & C Streets houses Cosmetology, Photography and Digital Arts, Nursing, a Student Gallery, the College Police and an 11-story 700-car parking structure.

2011
Groundbreakings were held for the new 128,000 sq ft Arts and Humanities and 62,000 sq ft Business Technology buildings in February, and the five-story 85,000 sq ft Mathematics, Social and Behavioral Sciences in May. These buildings will provide new classrooms, computer labs, lecture halls, and parking for more than 400 cars.

2012
Life Sciences and Physical Sciences celebrated the start of its new 98,000 sq ft Science Building. The four-story building will include new classrooms, labs and state-of-the-art technology, a teaching garden and greenhouses, a rooftop observation deck and a planetarium.

Statement of General Education Philosophy
The general education program at the colleges in the San Diego Community College District is designed to broaden students’ knowledge and their understanding of methods of gaining knowledge in a variety of disciplines and to develop students’ abilities in critical thinking, in oral and written communication, and in mathematics.

The awarding of an Associate Degree symbolizes an attempt on the part of the college to lead students through patterns of learning experiences designed to develop an awareness of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, students should possess sufficient depth in some field of knowledge to contribute to lifetime interest.

Institutional Learning Outcomes (also referred to as Institutional Competencies)
• Communication/Interpersonal Skills
• Critical Thinking
• Analyses/Computation
• Cultural Sensitivity/Global Awareness
• Information Management/Information Literacy
• Personal Responsibility
• Civic and Environmental Responsibility

Mission
The mission of City College has as its highest priority student learning and achievement.

San Diego City College is a multicultural institution committed to providing open access to all who can benefit from instruction and to meeting the diverse and ever changing educational, cultural, and economic needs of the urban core and surrounding communities of San Diego. As City College prepares world citizens in the twenty-first century, we recognize that the aim of education is the development of the whole person, who is prepared to be an active citizen and to participate in a global community. We are committed to the tradition of academic freedom and responsibility and to maintaining a climate that promotes learning, understanding and respect for students, faculty, staff, community, and the environment.

San Diego City College provides:
• Lower division and general education courses that lead to Certificates, Associate Degrees, or transfer to a four-year college or university;
• Career technical education programs that meet specific industry needs, upgrade the employment skills of students and fulfill licensing requirements of the state of California as well as contribute to the economic development of our region;
• Basic skills instruction to assist all students in meeting their educational goals; and
• Essential student support services for all students.
Additionally, San Diego City College is committed to:
• The development of informed, active citizens who will be engaged in the global community, lifelong learners, and literate in information technology;
• Institutional community involvement, community development and community service;
• Equity, inclusiveness and diversity in all of its manifestations;
• High quality instructional programs and essential student support services, including co-curricular and cultural activities;
• Incorporating environmental sustainability into student learning outcomes, as well as implementing a campus culture of conservation; and
• A continuous campus-wide cycle of program review and assessment with integrated planning and resource allocation.

Institutional Priorities
San Diego City College’s Mission Statement is central to planning and decision-making. Derived from the mission statement, there exists more specific college goals, our Institutional Priorities. All ongoing and new initiatives are linked to these priorities. There currently are eight institutional priorities:
• Student success
• Collaborative and outreach ventures
• Fiscal adequacy and efficiency
• Accountability
• Equity, inclusiveness and diversity
• Environmental stewardship
• Innovative approaches
• Long-range strategic planning

Student Learning Outcomes
Student learning outcomes are defined for each program. Students should be aware that course outcomes link to the larger institution via program outcomes which map to institutional learning outcomes, institutional priorities and San Diego City College’s mission.

Disclaimer
While every reasonable effort has been made to ensure that statements in this catalog are accurate, it must be understood that the information contained herein is subject to change or elimination without notice by the administration of the San Diego Community College District. Students should consult the appropriate campus or department for current information, as well as for any special rules or requirements imposed.

The College Matriculation Program

Steps to Student Success

The college matriculation program is designed to help students succeed in their academic program. To “matriculate” means to enroll and to commit oneself to an educational goal. The matriculation process requires a commitment on the part of the college as well as the student.

The steps in the matriculation process are:

Step 1 - Admission
Step 2 - Assessment
Step 3 - Orientation
Step 4 - Educational planning with a counselor
Step 5 - Follow-up on student progress

The matriculation program has been designed especially for students who intend to earn a certificate or degree at the college or to transfer to a four-year college or university. However, the services are available to all students admitted to the college. All students are encouraged to participate in the various components of the matriculation program.

1. Admission

Admission is open to anyone who meets one of the following criteria:

• Persons who possess a high school diploma or California high school proficiency exam certification or General Education Development (GED) with an average score of 450 or higher.

• Persons 18 years of age or older or emancipated minors who do not possess a high school diploma or equivalent may be admitted by the college under provisional admission status.

• High school students requesting concurrent enrollment may be admitted as “special part-time” students subject to the following criteria:
  a. Students must have completed the 10th grade.
  b. Enrollment may be limited due to budget reductions and extraordinary demand.
  c. High school students must satisfy course prerequisites and eligibility requirements.
  d. Enrollment in Physical Education classes will not be permitted.
  e. The course is advanced scholastic or technical (college degree applicable).
  f. The course is not available at the school of attendance.
  g. Students will be given college credit for all courses. Grades will be part of the student’s permanent college record.
  h. Students must maintain a 2.0 grade point average (GPA) each semester in all college work.
  i. If the number of units of W, I and NP exceed 40%, in any semester or session, the student will be academically disqualified. Students whose grade point average falls below a 2.0, or who do not complete 60% of all units attempted, will not be permitted to re-enroll without approval from a college counselor.

• Persons who are under 18 years of age who do not have a high school diploma and are not enrolled in a high school may be admitted as a special full-time student pursuant to Education Code §48800.5 subject to approval of the high school governing board and the college President where the student is planning to attend. Special full-time students will be admitted under provisional admission status.

• Persons who do not meet one of the admission criteria stated above will not be admitted under any circumstances.

In accordance with §76038 of the California Education Code, students seeking admission who have been previously expelled from a California community college within the past five years, or who are currently in the process of a formal expulsion hearing for any offense listed in AP 3000.2, Student Admission Status, 2.a.1-7, are required to inform the District. Admission eligibility shall be determined in accordance with AP 3000.2, Student Admission Status.

All new students must file an application for admission. Students who have previously attended, but have not been in continuous attendance for one year must file a new application for admission.
Apply Online
Applications for admission to San Diego City, Mesa and Miramar Colleges are available online. Students access the online application at: http://studentweb.sdccd.edu.

Important Reminder
Every male citizen of the U.S. and male immigrant residing in the U.S., ages 18 through 25, must register with the Selective Service.

2. Assessment
Assessment is a tool used to assist students in selecting courses best suited to their abilities and educational goals. Specifically, assessments help students identify their skill levels in English and mathematics, and ESOL.

Assessment is a process that includes tests and other measures and is intended to assist students in meeting course prerequisites. Students may also meet course prerequisites based on other factors such as past educational achievements in mathematics or English or course completion, and other standardized tests.

In order to ensure proper course selection, all new students should go through assessment and orientation unless they already possess an associate degree or higher.

Assessment-Placement Alternative Measures
The San Diego Community College district accepts select standardized test as an alternative measure for assessment skill levels. Students should bring or send official copies of their SAT, ACT, EAP, EPT and/or ELM report directly to District Student Services to determine readiness for English 101 or 105 and for courses with a Math 096 prerequisite. All tests must have been completed within the past 2 years.

IMPORTANT: Only original document will be accepted. Copies are not valid.

Testing accommodations are available to students with disabilities. For assistance contact the Disability Support Programs and Services (DSPS) office on campus.

3. Orientation
The orientation provides important information to students about the programs and services available at the college as well as strategies for student success. Orientation includes assessment and program planning. Matriculating students who have been admitted to the college are expected to attend an assessment/orientation session before registering for classes.

4. Educational Planning with a Counselor
The Student Education Plan (SEP) is an important tool to assist students in successfully attaining their goals without wasted time and effort. Counseling and career planning services are available to help students make informed choices concerning the programs and courses available.

The Education Plan is an agreement which contains the official requirements for graduation and/or transfer. All transcripts of prior college work must be on file and evaluated before an official education plan can be prepared. See the Graduation section on page 91 for graduation filing requirements.

A SEP typically lays out a program of study for a four or six semester period. These plans allow students to determine how long it will take to complete a program of study and to be sure that all program requirements can be met within a particular period of time. Education plans may be changed. The student should review plans periodically with a counselor. They are revised as a student’s goals or objectives change.

Assessment of interests and aptitudes is also available to those students who want more information or assistance in order to choose the “right” programs or courses.

5. Follow-up on Student Progress
Follow-up services are available to all students as part of the college’s commitment to student success.
These services include a periodic review of student progress and education plans to assist students in reaching their educational goal. Students who need additional support services will be referred to those services.

**Exemptions**

Students who meet the following criteria are exempt from components of the matriculation process:

1. **Admission**
   - No exemptions

2. **Assessment**
   - Students with the following educational goals:
     - Preparation for a new career, advancement in their current job/career, maintenance of a certificate or license, educational development, or completion of credits for high school diploma
     - Students enrolled in an apprenticeship program
     - Students who have an associate degree or higher
     - Students concurrently enrolled at a four-year college
     - Students who have taken the placement tests in the last three years

3. **Orientation**
   - Students with the following educational goals:
     - Preparation for a new career, advancement in their current job/career, maintenance of a certificate or license, educational development, or completion of credits for high school diploma
     - Students enrolled in an apprenticeship program
     - Students who have an associate degree or higher
     - Students concurrently enrolled at a four-year college
     - Students who have taken the placement tests in the last three years

4. **Educational Planning with a Counselor**
   - Students with the following educational goals:
     - Preparation for a new career, advancement in their current job/career, maintenance of a certificate or license, educational development, or completion of credits for high school diploma

5. **Follow-up on Student Progress**
   - No exemptions

**Registration**

With the exception of Special-Admit High School students, all students receive an appointment to register online using Reg-e. Special-Admit High School students must enroll in person at the time of their registration appointment.

By using the combined schedule of classes and Reg-e, a student can enroll in any available course offered at ECC, City, Mesa, or Miramar Colleges. The class schedule is also available on the web at: [http://schedule.sdccd.edu/](http://schedule.sdccd.edu/).

Reg-e is easy to use. Instructions for using Reg-e are on the registration site.

The following information and services are available through Reg-e:

- registration
- a record of the student’s class schedule, fees, and payment deadlines
- cancellation of registration
- adding and dropping classes
- academic deadlines and calendar
- grade information
- academic history
- purchase of parking permits
- purchase of an Associated Students college membership
Online Registration (Reg-e)
Students can register for classes using Reg-e, the San Diego Community College District’s online registration system. Students can visit the Student Web Services at: http://studentweb.sdccd.edu and click on the Reg-e icon. Full instructions will lead students through the process.

Responsibility for Maintaining Accurate Registration
It is the student’s obligation to add, drop, or withdraw from classes before the deadlines stated in the schedule of classes. This applies even if the student has never attended class. Any student who anticipates difficulty in paying fees should check with the Financial Aid Office about eligibility and sources of assistance. Registration will be canceled for nonpayment of fees.

Time/Schedule Conflicts
• Students may not register for classes with times that overlap (includes 10 minute passing period).
• Students may not enroll in two classes of the same subject and course number if the start and/or end date of one class overlaps with the other class.

Class Schedules on Internet
Up-to-date class schedule information and course descriptions for each campus is available online at http://schedule.sdccd.edu. This website displays new classes, cancellations, and changes after the printed schedule has been distributed. A search engine allows students to search for classes by academic subject, by time and day, or by key words.

Wait List
Students who attempt to register in a class that is closed may select the option to have his/her name placed on a Wait List.

IMPORTANT NOTE: Wait Listing is not a guaranteed priority for enrollment.

Criteria:
• Students may place their name on only one Wait List for a specific subject and course number.
• Students must meet course prerequisites to be placed on the Wait List.

• Students who are on a Wait List and later enroll in another section of the same subject and course number will be automatically removed from the Wait List.
• Students will be told their priority number on the Wait List.
• Students can check their priority number on Reg-e.
• Students have the option to remove themselves from the Wait List at any time.
• There is a limit to the number of students allowed on each Wait List.
• Wait listed students will be given first priority to add their wait listed class if a space becomes available before the semester begins.
• The college will attempt to notify students that a space is available via e-mail and telephone according to their priority number; however, it is the students’ responsibility to check the status of their wait listed classes on Reg-e daily.
• Upon notification, students will be given five (5) business days, including the day of notification, to add the wait listed class. (An add code is not required.)
• If students do not add their wait listed class within the 5-day period, they will be removed from the Wait List and lose their priority.
• It is the Student’s responsibility to check his/her e-mail and/or Reg-e, weekly for the status of their wait listed class(es).
• Students remaining on the Wait List after classes begin, MUST attend the first class meeting (and be on time) to have their Wait List priority considered.

Adding Classes
Students may add classes online until the deadline date published in the schedule of classes. Students will not be allowed to add classes beyond the published deadline.

To add a class once the semester has begun, students must obtain an add code from the
instructor, then must process and pay for the added class through Reg-e. A student may also pay at the Accounting Office, Room A-114.

Students are not officially enrolled until the add code is processed through Reg-e and fees are paid in full. Add codes for Special-Admit part-time high school and Joint Diploma students must be processed in person in the college Admissions Office prior to the add deadline.

If an instructor finds that a student has given his or her add code to another student, the instructor should administratively drop the student who was not issued the add code.

Drop/Withdrawal from Classes
Students may drop or withdraw from classes online until the published deadline dates. Deadline dates are available in the Admissions Office or in the online schedule of classes at: http://schedule.sdcdd.edu and by clicking on the “details” box next to the class they are interested in viewing.

- It is the student’s responsibility to drop all classes in which he/she is no longer participating.
- Students, who remain enrolled in a class beyond the published withdrawal deadline, as stated in the online class schedule, will receive an evaluative letter grade.
- Final grades may be affected by attendance as described in the class syllabus.

DROP—ending enrollment in a class prior to about 20% point of class meetings. A drop is not recorded on the student’s academic record.

WITHDRAWAL—ending enrollment in a class between about the 20% point and up to about 60% point of class meetings. A withdrawal is a permanent symbol on the student’s academic record and is included in progress probation and disqualification determination.

Administrative Drop
Registration may be administratively cancelled for the following reasons:

1. failure to pay all mandatory fees in accordance with the fee payment schedule;
2. using an add code issued to another student;
3. failure to meet the terms and conditions of a fee deferment;
4. failure to meet academic or progress standards;
5. denial of a “Petition to Challenge a Prerequisite.”

Study Load Limit
The maximum study load for a semester is 20 academic units including physical education activity units.

Students are reminded that each unit of credit is calculated to involve a total of at least three hours of classroom and outside time per week. Thus, a 20-unit study load represents a 60-hour work load each week. Students working full-time are advised NOT to attempt a full-time college program.

Twelve units of credit is considered a minimum full-time program during a semester; nine units is three-quarters time and six units, half-time.

The maximum study load for summer session is 12 academic units including physical education activity units.

Six units of credit is considered a minimum full-time during the summer session; four units is three-quarters time, and 3 units, half time.

Note: Study load requirements may vary at each college for financial aid purposes. Inquire at your college Financial Aid Office for detailed information.

Basic Skills Unit Limit
Title 5, 55035 states: “...no student shall receive more than 30 semester units of credit for basic skills coursework.” Registration will be blocked prior to students reaching this limit so that students can meet with a counselor to ensure that they are successful when this unit limit is met. Students with a verified learning disability are exempt from this limitation (contact the DSPS office for more information).

Priority Enrollment System
Consistent with state law and the goal of providing a fair and equitable registration system for all students, the San Diego Community College District has established the following priority system for assigning registration appointments.
Priority Groups

Group 1
- Active Duty Military & Veterans who meet the eligibility criteria*, EOPS/DSPS, and Foster Youth students.

Group 2
- Continuing Students

Group 3
- New matriculating students

Group 4
- Fully matriculated CE Advantage students

Group 5
- New and returning students

Group 6
- Students possessing a baccalaureate or higher degree who are not matriculating.

Within each priority group above, students are prioritized according to cumulative units, including transfer units and work in progress. Students who have completed an education plan will receive priority within each range. New students are assigned an appointment on a first-come, first-served basis.

Range
- 50.0–72.0 units
- 30.0–49.9 units
- 15.0–29.9 units
- 00.0–14.9 units
- 72.1–89.9 units
- 90+ units

* Students who are Active Duty Military, or Veterans discharged within the past fifteen years, may be eligible for up to 4 years priority registration. Students should contact the Admissions Office for additional information. A military ID card or DD214 will be required for verification.

New Changes to Priority Registration – Effective Fall 2014

To ensure priority, students must have an education plan on file. For additional information students should meet with a counselor to develop an education plan prior to the Fall 2014 semester.

Change of Name, Mailing or E-mail Address

All students must report immediately any change of address to the college Admissions Office or online at http://studentweb.sdccd.edu. Failure to provide this information will result in delays in registration, and other important information sent by the college. Name changes must be supported with legal documentation and a picture ID and reported in person at the Admissions Office.

Prerequisites, Corequisites, Limitations on Enrollment and Advisories

PLAN AHEAD! All prerequisites, corequisites, and limitations on enrollment stated in the course descriptions listed in this catalog will be strictly enforced at the time of registration. Students who do not meet the prerequisite requirements according to college records will not be permitted to register for the course. Students who believe they have met the prerequisite at another institution are strongly advised to have all transcripts of prior college work evaluated and on file well in advance of registration to minimize registration delays.

Note: Unofficial transcripts are accepted for prerequisite clearance.

Students should plan their schedules early and see a counselor for assistance.

PREREQUISITES are courses that must be completed with a “C” or better prior to registration in a specific course.

COREQUISITES are courses that are required to be taken the same semester as another course.

LIMITATIONS ON ENROLLMENT are other restrictions that are stated in the course description such as “not open to students with credit in...”
ADVISORIES are departmental recommendations to be completed prior to enrolling in the course. Advisories do not prevent a student from enrolling, but are strongly encouraged by the department for a student’s academic success.

**Challenge Procedures**

Students who believe they have sufficient grounds may challenge a prerequisite, corequisite, or limitation on enrollment in a specific course (the student does not get units for a challenged class). A student may obtain a Petition to Challenge in the Admissions Office. The completed petition with supporting documentation must be filed in the Admissions Office AT LEAST 10 working days prior to the start of the primary term/semester. Contact the Admissions Office for additional information. For credit by examination, please refer to page 70.

**Residency**

Residency is determined when a student applies for admission to the College. The following paragraphs summarize the rules and regulations related to student residency for tuition purposes. Details are found in the CA Education Code, section 68000 and Title 5, sections 54000-54072.

**Residency Status**

Every person who is married or is age 18 or older and under no legal restriction may establish residence. Certain minors may also establish residence. A California “resident” is a person who has resided in the state for more than one year prior to the residence determination date and shows “intent” to make the State of California their permanent residence.

An undocumented student is precluded from establishing residency. Restrictions also apply to some visas, please see the Admissions Office.

The residence determination date is the day immediately preceding the first day of classes for each semester.

**Factors Considered to Determine Residency**

No one factor determines residency. The following factors are called “indices of intent.” They, along with a person’s presence in California, are among the factors considered in determining California residency:

- Filing California state and federal tax returns with W-2 form (required)
- Possessing a California driver’s license and a vehicle registered in California
- Voting in California
- Owning residential property in California for personal use
- Being licensed to practice a profession in California
- Having an active checking and/or savings account in a California bank
- Showing California on military records (Leave and Earnings Statement)
- Possessing a marriage license or a divorce decree issued in California
- Having paid nonresident tuition in another state

**Exceptions to Residency Requirements**

Several exceptions to the residency rules apply. They include, but are not limited, to the following:

- Active duty military personnel stationed in California
- Active military and dependents previously stationed in California, who are currently enrolled, and subsequently receive orders to change their duty station to out-of-state
- Dependents of active duty military personnel stationed in California
- Certain minors who remained in California when their parents moved
- Self-supporting minors
- Full-time employees of the college or a state agency, or a child or spouse of the full-time employee

**Nonresident Students**

A student’s residency status is determined at the time of application. Nonresident students must pay nonresident tuition in addition to the enrollment fee and other fees for credit classes. Tuition must be paid in full at the time of registration.
Assembly Bill (AB) 540

Assembly Bill 540 exempts nonresident students who meet the following criteria, from paying nonresident tuition:

- have attended high school in California for three or more years;
- have received a high school diploma or equivalent, including certification of graduation from a California high school;
- have registered as an entering student at, or concurrent enrollment at an accredited institution of higher education in California;

Students who meet the criteria must file an affidavit with the college stating that he or she has filed an application to legalize his or her immigration status.

Incorrect Classification

A student incorrectly classified as a California resident is subject to recategorization as a nonresident and payment of all nonresident tuition. If incorrect classification results from false or misleading facts, a student may be excluded from classes or the college upon notification.

Reclassification

Reclassification to resident status must be requested by the student. Financial independence during the current year and preceding two years will be considered at the time the student requests recategorization. Information regarding requirements for recategorization is available in the Admissions Office.

Tuition will not be refunded to a student classified as a nonresident due to lack of documentation if, at a later date, documentation is presented for a previous semester.

Appeals

To appeal a residency determination decision, a student may file a Residency Determination Appeal form with the college Admissions and Records Supervisor.

Limitation of Residency Rules

Students are cautioned that this summary of rules regarding residency determination is by no means a complete explanation of their meaning or content.

For further information, contact the residency clerk in the Admissions Office. Changes may have been made in the statutes and in the regulations since this catalog was published.

False Information

Providing false information necessary for establishing residency will result in disciplinary action up to and including dismissal from the college.

Contact the Admissions Office for more details.

International Students

(F-1 Visa Students)

San Diego City College welcomes applications from nonimmigrant F-1 visa students. Acceptance into a program at the college is necessary before U.S. Citizenship and Immigration Services Form I-20 (certificate of eligibility) is issued by the college Admissions Office. The decision to grant an acceptance will be based on all evidence received prior to the deadlines. The application forms are available at: www.sdcity.edu.

General Information

1. An international student must register for and maintain a minimum of 12 units each semester while at City College. Part-time F-1 status will not be approved. The registration status and academic performance of all international students will be monitored by the college.

2. A recent photograph must be submitted with an application (passport size is acceptable).

3. Prospective international students are advised that they must comply with all requirements of the U.S. Citizenship and Immigration Services and of San Diego City College to be admitted as international students.

4. Restriction on Aviation Program. The Federal government prohibits all F-visa (F-1, F-2 and F-3) students from enrolling in any Aviation Maintenance Technology (AVIM) and/or Aviation Operations (AVIA) classes and programs. No exceptions will be made. Student enrollment is monitored and students will be administratively dropped.
5. A transfer student from another accredited United States college or university must:
   a. follow set transfer procedures of the U.S. Citizenship and Immigration Services; and
   b. have pursued a full-time course of study with a minimum GPA of 2.0 (“C”) at the college the student was last authorized to attend. (An official transcript must be filed.)

Admission Requirements

Application Fee: All international students are required to pay a $100.00 non-refundable application fee. Upon admission to the college, the fee will be applied toward the first semester nonresident tuition. The fee is valid for up to one year from the date processed.

Admission for Fall Semester: Students must complete all admissions requirements no later than May 1 to be admitted for the fall semester. Since the processing of an application normally requires a minimum of three to five months, students are strongly encouraged to file an application by May 1 of the current year. Students who meet the May 1 deadline will be notified as soon as possible of their admission status.

Admission for Spring Semester: Students must complete all admissions requirements no later than October 1 to be admitted for the Spring semester. Students who meet the October 1 deadline will be notified as soon as possible of their admission status.

Academic Achievement

1. An international student must have graduated from high school (or its equivalent) with a GPA of 2.0 (“C”) or better, or have obtained a GED certificate (General Education Development).

2. Official transcripts of all previous secondary and college/university education must be submitted, including an English translation of the transcript, before an application will be considered.

English Proficiency Requirements

To be considered for admission, an international student whose native language is not English must take an International Test of English as a Foreign Language (TOEFL) and score a minimum of 500 on the paper-based test, or 61 on the internet-based test. For questions regarding the TOFEL test, please visit the Educational Testing Service website at: www.ets.org/toefl/. Institutional reports or photocopies will not be accepted. Students may petition to waive the TOEFL requirement under one of the following conditions:

1. completion of a transfer level college English composition course at an accredited United States institution with a grade of “C” or higher;

2. completion of ESL assessment and placement at a level of English 40 (formerly English 62) or higher; in addition, the student must take the prescribed course work at the level of assessment; or

3. a minimum ACT English score of 19 or SAT verbal score of 450.

Advanced Degrees: An international student in possession of an associate degree or its equivalent (completion of about 60 semester units) may be determined to be beyond the course offerings of City College and is encouraged to apply to a four-year college or university.

Financial Resources

1. Each international student must submit verification of sufficient financial resources. The verification must indicate the ability of the student to finance each year’s education and living expenses. Minimum of $18,000 required for one school year (two semesters).

2. An international student attending the college must pay all mandatory fees, including nonresident tuition, enrollment fees, and health services fees.

3. Financial aid is not available to international students.

4. An international student may not accept off-campus employment while attending college unless approval is granted by the U.S. Citizenship and Immigration Services.

Health Clearance

1. Students must be in good health and free of communicable diseases. The “Report of Health Examination” form or a medical examination report by a physician must be submitted prior to admission. The medical examination must certify immunization against polio, diphtheria, measles, rubella, and tetanus, and must provide tuberculosis clearance.
2. **Mandatory Health Insurance:** Each student is required to provide a notarized letter (in English) certifying that he/she has secured a health insurance coverage in the United States for the duration of their studies.

**Housing**

The college is located near public transportation and housing. The college does not provide or assist with housing. Housing is the responsibility of the student.

**Visa Students (other than F-1)**

All other visa categories or immigrant classifications, other than F-1, must see the Admissions Office.

Students who are residing in the United States on other than F-1 student visas must comply with all restrictions on total units enrolled as specified by the U.S. Citizenship and Immigration Services. Students who have additional questions may contact the International Student Admissions Office at the following address:

**International Student Admissions Office A-112**
619-388-3476 - Office
San Diego City College
1313 Park Blvd.
San Diego, CA 92101

**Fees**

**Community College Enrollment Fee**

The enrollment fee is assessed of all students, including nonresidents. The fee is currently $46.00 per unit. Enrollment fees subject to change.

- Waiver of the enrollment fee is available to students who petition and qualify as recipients of benefits under the Temporary Assistance to Needy Families (TANF) program, the Supplemental Security Income/State Supplementary (SSI) program, or the General Assistance program.
- Indentured apprentices are exempt from enrollment fees for Apprenticeship Program classes only.
- Financial Aid may be available to students who qualify for assistance.

**Health Services Fee**

**All students** are assessed a mandatory fee for health services and accident insurance, whether or not they choose to use the health services available to them. The health services fee is currently $19.00 per semester for Fall and Spring semesters, and $16.00 for the Summer session. The following students are exempt from the health fee:

- Students who meet the income standards for the Board of Governor’s Waiver (BOGW-A Only). Contact the Financial Aid Office for eligibility determination.
- Students attending under an approved apprenticeship program.
- Students who depend on prayer for healing, in accordance with the teachings of a bona fide religious sect, denomination, or organization, may petition to have the fees waived.

To apply for an exemption contact the Admissions Office.

For more information, contact the Admissions Office.

**Nonresident Tuition**

In addition to the enrollment fee and health fee, tuition is charged to students who are not legal residents of California for tuition purposes. The 2013-2014 non-resident tuition fee is $190.00 per unit.

**Library**

Overdue fines and fees apply to late and lost library materials.

**Additional Fees**

Parking fees are currently under review and subject to change.

Automobile permits per semester (hanger included) ...........................................$35.00
Carpool permits per semester ........................................$30.00
Motorcycle permits per semester ................................$17.50
Transcript of Record .................................................. $5.00
               (after two have been issued free of charge)
Loss or damage of equipment and books ................. cost
A.S. College Membership (per academic year) ... $8.00
Credit by Examination ............................................... $46.00/unit
Student Representation Fee ........................................ $1.00
Note: Students receiving public assistance, or who are determined eligible for financial aid, may purchase a single car permit for $20.

All fees are subject to change.

Students are expected to buy all books and supplies needed for their courses. Certain occupational programs may require additional expenditures for tools, uniforms.

Student Representation Fee: All students attending college classes are required to pay a $1.00 student representation fee. This fee is expended by the college solely for the purpose of student advocacy efforts to Federal, State and local governments. Students have the right to refuse to pay the fee for religious, moral, political or financial reasons.

Note: A $25.00 fee will be assessed for any returned checks.

Refunds

1. Fees will be refunded to students who reduce their program in accordance with the following schedule:
   - **Primary Session (16 Weeks)**
     Friday of the second week
   - **Non-Primary Sessions (16 weeks or more)**
     Monday of the third week
   - **Short-Term Sessions (Less than 16 weeks)**
     Monday of the second week
   - **Classes 1 week or shorter**
     See Admissions Office for deadline dates

2. Students who are administratively dropped when a Petition to Challenge is denied will receive a full refund of the class(es) petitioned.

3. Students who are academically disqualified and administratively dropped will receive a full refund.

No refund is given for classes dropped after the deadline.

Students with a valid address on file and who do not have an outstanding financial obligation to the district will receive a refund in the mail or credit to their credit card. Refunds will be sent to students after the add/drop deadline. For payments by check or e-check, there is a five week waiting period for checks to clear the bank before refunds will be processed. For more information contact the Accounting Office on campus.

**NOTE:** Students who drop all classes and wish to receive a refund must also submit their parking permit before the refund will be granted. If the permit is not returned within the two-week refund period, the student will not receive a refund for the permit.

Counseling Services

Counseling Department
Room A-110 619-388-3540

Counselors offer a variety of counseling services, both online and in-person, to students in order to assist and facilitate both personal, career, and academic student growth. The following services are provided to new, continuing, transfer, and returning students. www.eCounselSDCity.net

Academic Counseling—Students are encouraged to speak with counselors regarding any academic planning issues which may arise during their time at San Diego City College. Counselors will assist with identifying academic goals and developing computer generated student education plans through a scheduled appointment.

Career Counseling—Counselors offer guidance to those students who are uncertain of their career path. Students are encouraged to explore career possibilities through the guidance of career counselors, use of research materials and career assessment inventories.

Personal Counseling—Students can also receive personal counseling from the Counseling Office. Counselors will provide support to those students with issues arising from managing the stress of school life and personal life. Personal counseling sessions will be kept confidential.

Walk-in Counseling—A 5–15 minute walk-in session is available through the academic year to students with short questions. Students may walk into the Counseling Office and speak with a walk-in counselor on a first come, first-serve basis.

Counseling Appointments—One hour counseling appointments are available to help students with career, educational, transfer planning, and to discuss personal issues related to academic goals.

Counseling Blog—A student resource for up-to-date information from the counseling department: www.citycounseling.blogspot.com.

Transfer Counseling—Through scheduled appointments students will learn how to successfully transfer to a four-year university. They will receive assistance in researching and choosing the right university based on their individual needs.

Math/English Skills Assessment—Students can sign up for the academic skills assessment which includes the Math and English Placement Tests. Students who have taken Math and English courses or placement tests from another college or university may not need to take a placement test at San Diego City College.

College Success/Career Planning—Courses are offered in Personal Growth listed in the schedule of classes.

Note: If the student’s educational objective is to receive an Associate Degree, a Certificate of Achievement, or to satisfy transfer requirements to a four-year college or university, the student must send all their official transcripts to the District.

Student Transition Services
A-111 619-388-3722

The Student Transition Services department provides programs, services, and information resources that enable students to prepare for their future after City College. The department includes the Transfer/Career Center and the Work Experience Program.

University Transfer/Career Services

The Transfer/Career Center is a resource center that assists students in planning their transition to a new career, new job, or transfer to a four-year university. The Center also administers guaranteed transfer admission programs to selected universities. The Transfer/Career Center offers assistance in the following areas:

Transfer Resources

- Learn about transfer
- Choose a major
- Choose a transfer university
- Transfer guarantee programs
- Transfer dates & deadlines
Contact a transfer university
Transfer coursework requirements
Apply for admission
Apply for financial aid
Apply for scholarships

Career/Employment Prep Resources
• Career assessment/exploration
• Research occupations
• Learn about training programs
• Research potential employers
• Find an internship
• Search for jobs
• Create a resume
• Create a cover letter
• Prepare to interview

Visit the Transfer/Career Center website: www.sdcity.edu/transfer.

Work Experience Program
The Work Experience Program awards college credit for learning experiences that take place on a job or internship. The goals and assignments for completion of work experience courses are formulated with the student’s workplace supervisor under the direction of the course instructor. More information on Work Experience courses is available in the Programs of Instruction section of the catalog under courses numbered 270 or 272. Course enrollment is limited and may not be available to all students.

To learn more about Work Experience or to apply for enrollment in a Work Experience course, visit room A-1J, or call 619-388-3495.

English for Speakers of Other Languages (ESOL)
The English as a Second Language Program is designed to prepare students to read, write, speak and listen at a level that enables them to succeed in college courses. The program consists of four levels and the student is assigned a level based on the result of his/her placement test. Students interested in enrolling in ESOL courses should schedule an assessment test for placement into the appropriate skill level.

For more information on the English as a Second Language Program, students should contact the college Counseling Office.

Puente Project
L-114 619-388-3668
The Puente Project, co-sponsored by the University of California and the Community Colleges, is an academic preparation, retention and transfer program. Puente is a program in which students participate in three components:

• Writing - students enroll in English 49 for the Fall, English 101 for the Spring and English 205 the following Fall semester. Course materials focus on Latino/Chicano literature & experience to enhance writing skills.

• Counseling - academic, personal, transfer and career counseling is offered. Students enroll in Personal Growth courses for the Fall/Spring semesters.

• Mentoring - students are exposed to various career options through their close involvement with mentors.

Materials utilized in the Puente Project come from the Latino/Chicano perspective. Classes are open to all students. If interested in participating, please stop by the Academic Success Center and speak to the Puente counselor or visit our website: www.sdcity.edu/puente.

Umoja
L-114 619-388-3796
The Umoja Community is a learning community that seeks to engage, connect, educate, support, and encourage students through a program of math, English, and personal growth courses to prepare students for transfer to four-year colleges and universities. Course materials, discussions, and activities focus on African-American culture, literature, and experiences.
Program Components:
• Orientation
• Counseling
• Academic/Cultural Enrichment Activities
• Mentoring
• Supplemental Instruction/Tutoring
• Umoja Village

If you are interested in joining the Umoja Community, please visit Erin Charlens in the Academic Success Center.

First Year Experience (FYE) Program
L-206 619-388-3998

The First Year Experience (FYE) program is a success program for students transitioning from high school or for any student just starting college. The “experience” is designed as a learning community to provide academic, personal, and career support to each student. The FYE program at San Diego City College ensures that first-year students have the tools and support necessary to succeed the first year and beyond. With the support of counselors, faculty, and student peers, FYE students will find their first year to be welcoming and successful. To apply or for more information, please stop by the FYE Office or visit our website: www.sdcity.edu/fye.

MESA Program
L-115 619-388-3156

The Mathematics, Engineering, Science Achievement (MESA) Program enables educationally disadvantaged students to prepare for and graduate from a four-year college or university with a math-based degree in areas such as engineering, life and physical sciences, computer science, and mathematics. Through MESA, students develop academic and leadership skills, increase educational performance, and gain confidence in their ability to compete professionally.

MESA has particular interest in and focus on students from those groups who historically have had the lowest levels of attainment to four-year and graduate level programs. By closing this achievement gap, MESA students and graduates will be better able to make significant contributions to the socioeconomic well-being of their families and their communities.

In MESA you will find:
• A place to study with other students in your major
• Walk-in tutoring in math and science
• Easy access to computers and printing
• MESA advantage program to develop your skills and your resume
• Scientific calculators and textbooks available for short- or long-term loan
• Current scholarship, internship, and research opportunities
• Activities and competitions sponsored by the San Diego MESA Alliance.

If you are interested in joining the MESA program, please visit the new Academic Success Center.

Disability Support Programs and Services (DSPS)
A-115 619-388-3513 tty 619-388-3313

City College provides programs and services for students with disabilities in compliance with State and Federal legislation including Section 504 and 508 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act Amendments Act (ADAAA). Student participation in the program is voluntary.

Eligible students who have a verified disability qualify for support services through the Disability Support Programs and Services (DSPS) department. The programs and services are designed to support students in the achievement of their academic and vocational goals. Specialized classes for students with disabilities may be available to support the college academic and vocational programs through DSPS and the High Tech Center. Services provided may include, but are not limited to: priority enrollment, assistive technology and alternate
media, interpreters and captioning for deaf students, note taking materials, test taking accommodations, audio recorders, use of specialized equipment and adaptive devices, and disability related counseling and referral. Liaison with community agencies is also an important component of the program. The campus is physically accessible. Students are encouraged to apply early for timely services.

Animals on Campus
Animals are not permitted on campus with the exception of authorized service animals for persons with disabilities. Refer to Administrative Procedure (AP 3105.2) Service Animals.

Service Animals
The San Diego Community College District will permit qualified students with disabilities to use service animals in district facilities and on district campuses (Procedure 3105.2) in compliance with state and federal law. Please contact the DSPS Office at the enrolled college for review and approval for the issuance of SDCCD identification to access non-public facilities.

Extended Opportunity Programs and Services (EOPS)
L-117  619-388-3209

What is EOPS?
EOPS is a state-funded student support services program. Its purpose is to provide special recruitment, retention, and transition services to eligible students. The services offered are “above and beyond” those offered by the college’s Student Services division. The primary services include assistance in the following areas: priority enrollment, counseling/advisement, and preparation for transition to four-year colleges and universities. For detailed information on all services offered and application procedures, please contact the EOPS Office in the Academic Success Center or visit our website: www.sdcity.edu/EOPS.

You may be eligible if you are enrolled full-time (at least 12 units). At least 6 of these units must be taken at City College. In addition, you must meet all of the following criteria:

1. You are a resident of the state of California, as determined by the Admissions Office (AB 540 Students are eligible).
2. You are (or plan to be) a full-time student.
3. You qualify to receive a Board of Governors Waiver A or B.
4. You have not completed 70 (or more) units of degree-applicable college course work. This includes courses taken at other colleges.
5. You are determined to be educationally disadvantaged by meeting any one of the following criteria:
   a. You do not qualify to enroll for the minimum level English or mathematics courses required for your degree objective.
   b. You have not fulfilled the requirements for a high school diploma or General Educational Development (GED).
   c. Upon graduation from high school your grade point average (GPA) was 2.5 or less on a 4.0 scale.
   d. You have been enrolled in an English or Math course, or program that is considered to be developmental or remedial.
   e. You have been enrolled in an English as a Second Language (ESL) class or program.
   f. In the judgment of the EOPS director, using state guidelines, you are determined to be educationally challenged.

Cooperative Agencies Resources for Education (CARE)
EOPS students who are single parents, have a child less than 14 years of age, and receive CalWORKs Cash Aid are encouraged to apply for the program’s Cooperative Agencies Resources for Education (CARE) component. CARE provides additional support services to address those needs that are unique to single parents.
How to Apply

Students interested in applying for the EOPS program must complete an EOPS application and the Free Application for Federal Student Aid (FAFSA). These applications are available in the EOPS Office and the FAFSA is available online at: www.fafsa.ed.gov. Students should apply early to ensure that they receive consideration for all services. It is recommended that students complete the FAFSA by the priority filing date published by the Financial Aid Office.

Summer Readiness Program (SRP)

SRP is a summer orientation for first-time college students. Participating students attend classes four days each week for eight weeks. The course work includes material designed to develop and enhance college survival skills. In addition to the course work, a full compliment of EOPS services is provided.

Applications are usually available in early January and accepted until the end of the first week of May. Interested applicants should contact the EOPS Office for details.

The Price Scholarship Program

The Price Scholarship Program is funded by Price Charities and is a Learning Community whose mission is to raise the self-confidence, increase the competence and ultimately strengthen the character of deserving students by assisting them in furthering their educational and professional development.

The Price Scholarship Program is a two year program. City College Price Scholars provide mentoring to our incoming Price Scholars, are required to be full time students, are interested in service learning, and are recent high school graduates. To determine if you qualify please call 619-388-3244 or 619-388-3119.

Financial Aid

The Financial Aid Office is committed to assisting students who might otherwise be unable to continue their education because of financial disadvantage.

Financial Aid funds are administered in accordance with a nationally established policy of financial assistance for education. The basis of this policy is the belief that students and their parents have the primary responsibility for meeting educational costs. The amount of the contribution expected from students and their family is determined by careful analysis of family financial strength taking into consideration net income, number of dependents, allowable expenses, indebtedness, and assets.

The U.S. Department of Education, in cooperation with congress and educational agencies, has established procedures which are used in making an evaluation of the amount families can be expected to contribute.

Application

On a yearly basis, all financial aid applicants must complete the Free Application for Federal Student Aid (FAFSA). Application materials are available on January 1st for the following academic year. The FAFSA can be filled online at: www.fafsa.gov. The priority filing deadline for aid is April 15th. Students filing their application by this date will be considered first in the award process. Deadline to apply: The Central Processing System (CPS) must receive your application by your last day of classes for the term or June 30, 2014 whichever comes first.

A current Admission’s Application to the College must be on file before we can process your FAFSA application. Complete the application using your personal information as it appears on your Social Security Number.
Security number in the application or our office will not be able to process your financial aid.

Academic transcripts from prior colleges attended must be submitted before the processing of a financial aid application can be completed. Academic transcripts must be submitted directly to the District Records Office.

**Eligibility**

In order to be eligible to apply for financial aid, a student must be a citizen or permanent resident of the United States or be in the country for other than a temporary purpose with the intention of becoming a permanent resident.

Eligible non-citizens must provide proof of permanent residency for Federal Aid (Alien Registration Cards, I-94, I-155, I-688, or U.S. Immigration and Naturalization letter granting asylum, etc.). F-1 Visa students are not eligible for financial aid at City College. For further information regarding other eligible immigration status, contact the Financial Aid Office.

Students who do not have a high school diploma or equivalent are required to demonstrate “Ability to Benefit” from instruction. Information is available in the Financial Aid Office.

**Awards**

Awards take the form of a “package” of financial aid, usually consisting of grant money and work-study, depending on the financial need of the applicant and availability of funds. Awards may be adjusted at any time upon notice of receipt of resources not previously reported or a change in enrollment status. Revisions to awards may be possible because personal financial circumstances are so unpredictable. If funding is available, aid for valid educational expenses not already covered in the student cost budget may be increased.

Financial aid checks are usually ready for disbursement approximately four or five weeks after the start of classes. Pell Grant and Cal Grant disbursements are based on enrollment levels at the time of payment and will not be adjusted. However, SEOG and loan payments will be adjusted according to enrollment status. If you withdraw from classes after aid has been disbursed to you, you may be required to repay all or part of this aid. (see “Return of Title IV Funds” below)

An automated system is available in the college bookstores to allow California resident students, who are enrolled in at least six units, to use a portion of their estimated Pell Grant to purchase books and supplies one week prior, and two weeks after, the start of the semester. Funds will be set aside from each eligible student’s Pell Grant and placed in a special account in the bookstore. This account may be used for the purchase of books and supplies until the funds are exhausted. The account is valid at the City, Mesa, and Miramar College and ECC bookstores, regardless of where students are taking classes.

The student will be responsible for paying back the Bookstore Pell grant used if student does not attend classes.

Students who elect not to purchase books from the college bookstore, or have any funds remaining on account, will receive the funds in the mail or by direct deposit with the remainder of their Pell Grant award according to the Pell Grant payment schedule for the semester.

Students must be making satisfactory academic progress as determined by the Standards of Satisfactory Academic Progress for Financial Aid Recipients. Copies are available in the Financial Aid Office.

**Return of Title IV Funds**

Federal law requires that if a student receives a Federal grant and then drops/withdraws from all his/her classes, he/she may owe money back to the Federal Government.

Note that the earlier a student drops/withdraws, the more money he/she may have to pay back.

- If a student receives LOAN money and withdraws, he/she may pay back the money according to the normal rules of the loan program.
- If a student receives WORK STUDY money and withdraws, he/she does not owe anything back and may keep the salary earned, but must stop working immediately.

For more detailed information, contact the Financial Aid Office.

**Financial Aid Programs Available**

Following is a basic description of the programs available. Contact the Financial Aid Office for detailed descriptions and eligibility requirements, or visit our website.
Enrollment Fee Assistance: Board of Governors Waiver (BOGW)

State law requires that students attending the college pay an enrollment fee. Students enrolled in credit classes are currently required to pay $46.00 per unit.

The college offers the Board of Governors Waiver (BOGW), a state-funded program which will waive the enrollment fee for all eligible applicants.

Students who are eligible for a Board of Governors Waiver will be required to pay the health fee. The health fee will no longer be waived for students who are eligible for a BOGW other than students who are eligible for a BOGWA (TANF/CalWorks, SSI/SSP, or General Assistance).

If you are a California resident or have been designated an AB-540 student, you may qualify for a BOGW if any one of the following statements applies to your current status:

- You have already qualified for financial aid, such as a Federal Pell Grant or a Cal Grant, which demonstrates that you have need as determined by Federal Methodology or California DREAM Act application. You must have at least $1,104 on "unmet" need to qualify.
- You, or your parents in the case of a dependent student, are receiving TANF (Temporary Aid for Needy Families, SSI (Supplemental Security Income), or General Assistance/General Relief as main source of income at the time of enrollment.
- You have a letter from the Department of Veterans Affairs certifying that you meet the eligibility requirements of "certain disabled veterans, dependents of certain deceased or disabled veterans."
- You are a dependent of a deceased or disabled veteran of the California National Guard. You must submit a letter of certification from the California National Guard Adjutant General’s Office.
- You meet the following income standards:

<table>
<thead>
<tr>
<th>Number In Household (including yourself)</th>
<th>Total Family Income for 2012 (adjusted gross income and/or untaxed income)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>$16,755 or less</td>
</tr>
<tr>
<td>2</td>
<td>$22,695 or less</td>
</tr>
<tr>
<td>3</td>
<td>$28,635 or less</td>
</tr>
<tr>
<td>4</td>
<td>$34,575 or less</td>
</tr>
<tr>
<td>5</td>
<td>$40,515 or less</td>
</tr>
<tr>
<td>6</td>
<td>$46,455 or less</td>
</tr>
<tr>
<td>7</td>
<td>$52,395 or less</td>
</tr>
<tr>
<td>8</td>
<td>$58,335 or less</td>
</tr>
</tbody>
</table>

Add $5,940 for each additional family member.

To determine your eligibility for the Board of Governor’s Waiver based on the above income standards, you will be considered independent if:

- You do not live with your parents or your parent’s registered domestic partner.
- You were not claimed as an exemption on any federal income tax filed by your parents or your parent’s registered domestic partner in 2012.

Federal Pell Grant

The Federal Pell Grant is the largest federal grant program and is the foundation of a student’s total “aid package.” Eligibility is determined by the federal government using a standard formula for all applicants.

Enrollment status will be frozen after the add/drop period and will be the basis for Pell disbursement. Once the Pell Grant award has been processed it will not be adjusted for additional units added during the semester.

Federal Supplemental Educational Opportunity Grant (FSEOG)

FSEOG is a federal grant program designed to assist students who have the greatest demonstrated financial need. Awarding of FSEOG funds is determined by the Financial Aid Office based on available resources.

Cal Grants

The Cal Grant program is administered by the California Student Aid Commission to help low-income students attend college. Students at the college may receive Cal Grant B or C.
To be eligible for Cal Grant B a student must be a California resident, eligible AB-540 designated student and pursuing an undergraduate academic program of not less than one academic year.

Cal Grant C is designed for students enrolled in a vocational program who are California residents or eligible AB-540 designated students from a low or middle-income family.

See the Financial Aid Bulletin for important dates and deadlines.

**Chafee Grant Program**

The Chafee Grant is a federal program that is administered by the California Student Aid Commission to provide financial assistance to prior Foster Youth. The applicant must be certified by the State Department of Social Services of their Foster Youth status prior to reaching age 16. The grant has no citizenship requirement; however, non-citizens without a valid Social Security Number must call the CSAC for additional steps and information. The program awards a maximum of $5,000 per academic year. Renewal applicants must maintain satisfactory academic progress as defined by the school.

**Federal Work Study**

Federal Work Study (FWS) allows students the opportunity to earn part of their financial aid by working in assigned jobs, both on and off campus. The salary received is at least equal to the current minimum wage, but many Federal Work Study jobs pay more than minimum wage. Federal Work Study differs from the other financial aid programs in that a student is allocated a certain amount of money to earn. As work on the job is completed, a time card is submitted for the hours worked just as at a regular job. Once a month the student receives a paycheck for the hours worked. Once the amount allocated in the financial aid package is earned, the job ends.

**Scholarships**

Students are encouraged to apply for scholarships, which are available for students who meet the qualifications. These awards are donated by individual contributors, clubs and organizations both on campus and in the community. Amounts are determined by the donors and vary. Qualifying criteria may include that the student meet financial need, a designated grade point average or other requirements to be eligible for consideration. Scholarship applications may be obtained from the City College Office of Student Affairs, Room D-106 or at the website: www.sdcity.edu/scholarships.

**Student Loans**

Applicants for student loans will be subject to college policy requirements regarding enrollment status, length of attendance, number of units completed, and total amount of previous loans. Contact the Financial Aid Office for other requirements.

**William D. Ford Federal Direct Loan Program**

The Federal Direct Loan is a federal loan program where you borrow directly from the Federal Government. The interest rate for new loans is a fixed rate which is currently 6.8% for loans disbursed from July 1, 2013 to June 30, 2014. New Federal regulations require schools to disburse loans only after the signed Promissory Note has been accepted. You are required to pay the Department of Education loan processing fees that are currently 1.51%. The fees are deducted from the proceeds of your loan.

To qualify, a student must be enrolled in at least six units, demonstrate Satisfactory Academic Progress for aid recipients and must demonstrate financial need through the federal methodology using the FAFSA Application. To apply for a Federal Direct Loan, students must complete a mandatory loan entrance counseling session. The counseling session is required even if a student has attended a Stafford loan workshop in the past. If a student has attended a Direct Loan workshop at San Diego City, or Miramar Colleges in the past, it will not be necessary to conduct another entrance counseling session. Students must contact the Financial Aid Office or visit the College website for application procedures. You may complete the entrance counseling session online at: www.studentloans.gov.

The Financial Aid Office will be notified when the session has successfully been completed. In addition, you must fill out a Loan Request Form form your Financial Aid Office. You must complete an online multi-year Master Promissory Note at: www.studentloans.gov.

You may also be required to submit an Educational Plan and be enrolled at the campus of your declared major. Please ask your Financial Aid Office for more
information. The actual loan amount for which you are eligible will be determined by the Financial Aid Office. Checks will be disbursed twice per loan period. If you are a first-time student or borrower, your check will not be disbursed until at least 30 days after the start of the semester. If you have "Late Start" classes, you must be actively attending classes in at least six units, before your loan can be disbursed.

For additional information, contact the Financial Aid Office.

Federal Direct Plus Loan

Parents of dependent undergraduate students may borrow from the PLUS loan program. The amount borrowed may be up to the cost of attendance minus any financial aid. Checks will be payable to the parent. Parents must begin repayment within 60 days of receiving full disbursement of the loan. The interest rate is a fixed rate. Student and borrower must meet all other financial aid eligibility requirements, including completing the FAFSA.

National Student Clearinghouse

All current SDCCD student’s enrollment levels are automatically sent to the National Student Clearinghouse. Submission and disclosure of enrollment levels is a federal requirement for students with current and past student loans according to regulations. Enrollment information for students with no prior or current student loan history is protected from disclosure by the contractual agreement between the National Student Clearinghouse and the San Diego Community College District. For more information, please contact your campus Financial Aid Office.

Veterans and Service Members

A-109 619-388-3504

Veterans Center Military Service Connected Benefit Programs

The San Diego Community Colleges have been approved to offer military service connected benefit programs leading to a certificate, an Associate Degree or transfer to a four-year institution. The Veterans Affairs Office staff provides guidance to veterans and assists them in the selection of educational programs which qualify for veterans benefits. The final responsibility for monitoring the process of qualification for educational benefits resides with the individual. Each veteran must read, understand, and comply with the many rules, regulations, and procedures that influence the benefit process.

Students on active duty and veterans who have been discharged within the past 15 years may be eligible for up to 4 years priority registration. Check with the college Admissions Office for eligibility. An Active Duty Military ID card or DD214 are required for verification.

Failure to take the proper classes can result in an overpayment and the reduction or termination of benefits.

Disabled Veterans

Veterans who qualify for educational benefits as disabled veterans may be entitled to special educational benefits. Veterans should visit the Veterans Administration Regional Office, 8810 Rio San Diego Drive, San Diego, CA, 92108, to determine their eligibility for disabled status (Telephone: 1-800-827-1000).

Veterans with disabilities are encouraged to pursue services offered through Disability Support Programs and Services, A-115.

Veteran Dependent Exemption

Children and spouses of U.S. Veterans with service connected disabilities may be eligible for waiver of college fees and/or for a small monthly payment. For more information see the Veterans Affairs Office.

Liability

The veteran assumes full liability for any overpayment of veterans benefits.

All persons receiving educational benefits must report to the Veterans Affairs Office after enrollment every semester to continue their benefits. In addition, a Student Education Plan (SEP) must be on file by the end of the first semester; otherwise, certification of VA benefits will be delayed for the second semester. This plan must be developed and reviewed by a counselor.
Number of Units Required

For students enrolled in a degree program under CH: 30, 31, 34, 35, 1606/1607, the following number of units are required each semester to qualify for educational and training allowance:

- 12 units or more: full allowance
- 9–11.5 units: three-fourths allowance
- 6–8.5 units: one-half allowance
- 2–5.5 units: one-quarter allowance*

* Chapters 32 and 1606 only. All other chapters, tuition and fees only.

Short-term and summer session courses are computed proportionately for payment purposes.

Rate of Pursuit (Chapter 33)

The Chapter 33 housing allowance is paid if the rate of pursuit is more than 50%. The Department of Veterans Affairs calculates the rate of pursuit by dividing the credit hours/units (or credit hour equivalent) enrolled by the number of credit hours/units considered to be full-time by the school. The resulting percentage is the student’s rate of pursuit.

Please visit www.gibill.va.gov for additional information and updates.

Withdrawal/Change of Classes

Veterans are required to notify the campus Veterans Affairs Office when they stop attending class, withdraw from the college, or add or drop a class. Such changes should be reported immediately after completing the add/drop procedure through Reg-e. Failure to comply with this regulation will be grounds for decertification of VA benefits.

Veterans Academic Progress

A veteran student on Academic or Lack of Progress probation status will be disqualified when his/her grade point average (GPA) falls below 2.0 the subsequent semesters. The College Veterans Affairs Office is required to notify the Department of Veterans Affairs (DVA) of this status. The DVA will terminate benefits unless it can be shown that the student is pursuing an appropriate objective and has a reasonable chance for success in the chosen program. Please contact the Veterans Affairs Office for more information.

Readmission After Termination Status

Students who wish to be considered for readmissions after the VA termination will be required to meet with a counselor and develop a Student Success Plan prior to being readmitted.

Repeated Classes

Veterans may not receive benefits for a repeat of a course in which a grade of “A,” “B,” “C,” “D,” or “P” has already been earned. Although District policy allows a student to repeat a course in which a “D” grade has been received, the course may be certified for benefits only if this catalog states that a grade of “C” or better in that course is required to earn a degree or meet a prerequisite.

Work Experience

Veterans may be approved for Work Experience classes only if it is required for their major or electives are available according to their education plan.

Transcripts

All official transcripts of prior college work and military schools, including copies of form DD214 or DD295 covering all periods of military service, must be on file in the Records Office by the end of the first semester of attendance at this college. Certification for benefits for the second semester will be withheld if transcripts are not received.

Veterans Service Center

The Veterans Service Center (VSC) in A220 is open during Fall and Spring semesters. The mission of the VSC is to provide a welcoming environment for all veterans. The VSC is designed to serve both men and women, from military transition to the completion of their academic goals. The VSC provides services in three primary areas: academics, community and wellness.

Learning Resource Center (LRC)

Offering far more than the best views on campus, the San Diego City College’s Learning Resource Center (LRC) continues to evolve and mature as the college’s
information hub. Located in the R building on the southeast corner of campus at Park Boulevard and B Street, the LRC is comprised of the Library on the second (main) and third floors, and the Independent Learning Center, the Office of Classroom Technology Management and Multimedia, a videoconference room, and CitySITE (faculty/staff development) on the first floor. Televisions on each floor are set to broadcast cable news and campus information. San Diego City College students will find that the LRC provides a multitude of services and scholarly research resources specifically selected to support their academic success. Below is a brief overview of our resources and services. Please see our website http://www.sdcity.edu/lrc/ for more details and updated information.

LRC / Library
619-388-3421

The Library offers an extensive collection of scholarly books, e-books, periodicals, and a robust selection of reference and periodical databases available onsite, via wireless and remotely to currently enrolled students. San Diego City College students find help with their research and information needs at the Library’s Information Center (reference desk), by phone, email, or 24/7 online chat. Students may enroll in a transferable one-unit course, Information Literacy and Research Skills (LIBS 101). Scheduled tours, instructor requested research sessions, access to reserves, circulation services, group study rooms and inter-library loan services between district colleges are also offered.

LRC / Independent Learning Center
619-388-3265

The Independent Learning Center (ILC) creates a welcoming environment for students pursuing independent learning experiences to augment their in-class activities and improve their academic skills. Beyond maintaining a media collection and the supporting equipment, the ILC provides access to the Internet, a wide array of specialized software required for a variety of classes, adaptive software, and Microsoft Office Suite.

LRC / Office of Classroom Technology Management
619-388-3418

The Office of Classroom Technology Management and Multimedia (OCTM) offers the campus the educational technology required for a college in the 21st Century by providing maintenance and support for smart classrooms and all campus-wide audiovisual equipment. Students have access to current technologies and the hands-on training needed to create successful classroom presentations. Through the Student Affairs Office, the OCTM fills the requests for technical assistance for campus-wide student events. Through the OCTM’s digital signage service, campus information is distributed via campus television.

Tutorial/Learning Center

The Tutorial/Learning Center is located in the Academic Success Center (L-205). The Center is dedicated to providing high quality academic support to students in art, science, vocational, and technological courses. The goal is for each student to become an independent learner, who will succeed in the collegiate setting.

Peer tutors are carefully selected and professionally trained for most college subjects. Many are bilingual to help with language barriers. They provide FREE walk-in and small group tutoring in most subject areas. Supplemental Instruction (SI) and Online tutoring are available on limited subjects.

The Tutorial/Learning Center also offers FREE one-hour academic skill workshops such as note-taking, test-taking, memory enhancement and time management to strengthen student learning skills.

All City and ECC students must sign up to receive tutoring services.

The Tutorial/Learning Center’s hours of operation are Monday through Thursday 9:00 am–6:00 pm, Friday 9:00 am–1:00 pm.

Center for Reading, Writing, English as a Second Language (ESOL), and Critical Thinking

The Center for Reading, Writing, ESOL, and Critical Thinking is located in the Academic Success Center (L-209). The Center offers peer tutoring in reading, writing, and critical thinking assignments in classes.
across the curriculum. Tutors can provide assistance on a wide variety of assignments at any stage of the writing process. No appointments are taken; tutors see students on a walk-in basis. The Center is a free service to City College students. Hours, which may vary from semester to semester, are posted outside the Center.

Mathematics Center

The Mathematics Center provides two services to students: walk-in tutoring and self-paced math courses. The Center, located in the Academic Success Center (L-Building), is open both day and evening hours. Tutoring is available to all City College students. The tutors include trained student tutors and Math Department faculty.

Tutoring is on a first-come, first-served basis.

The self-paced mathematics courses provide students with a flexible alternative to the traditional lecture courses for Math 038, 046, and 096. The courses are open-entry/open-exit and self-paced. A variety of learning resources are available including video lectures and computer tutorials keyed to the student’s textbook, live and videotape workshops, online testing for immediate feedback, tutors and an on-site counselor.

For additional information, come to the Academic Success Center (L-208), or call 619-388-3583.

Computer Services

The use of District computer equipment is limited to District staff and students.

Student Health Services

Medical and Nursing Services
A-116 619-388-3450

Mental Health Counseling Center
A-221 619-388-3539

The City College Student Health Services program consists of medical, nursing and mental health care. Mental health care and support is provided by the Mental Health Counseling Center. The medical/nursing program provides preventive and primary health care with referrals to community resources as needed. Students are welcome to walk-in to see a nurse or to call the office to schedule an appointment with the Student Health Services physician or nurse practitioners. Our services for students are confidential and free/low cost.

Ambulatory medical care is provided by the physician or nurse practitioners. This includes history and physical assessment of skin, muscle, joint, respiratory, gastrointestinal, endocrine and/or other system problems. Medical referrals are made to the community as indicated. Laboratory tests and prescription medications are provided at low cost, as ordered by the physician or nurse practitioner. First aid is provided for minor problems. For severe or life-threatening issues, emergency care is accessed through the Emergency Medical Transport System of San Diego. All students are strongly encouraged to obtain immunizations against communicable diseases as recommended by the California and San Diego Public Health Departments.

Student Accident Insurance/Claims

The Student Health Fee provides coverage for on-campus accidents or college-related injuries. All student campus injuries are processed through Student Health Services in A-116 as soon as possible after the accident/injury has occurred.

For additional information on Mental Health Counseling, please refer to the Mental Health Counseling Center section.

Mental Health Counseling Center
A-221 619-388-3539

The Mental Health Counseling Center supports student success through focus on personal, social, and emotional well-being. Our services for students are confidential and free. Mental health counseling is designed to support mental health in a proactive, relaxed and caring atmosphere.

Mental health and personal counseling services are provided by a licensed Clinical Social Worker, Masters level staff and graduate interns/trainees and include:

- Individual short and long term strengths-based therapy
- Couples and family therapy
- Crisis intervention and referral
- Group therapy services
Student Services

• Workshops and Psycho-educational seminars
• Cognitive behavioral based therapy and relaxation training targeted at addressing specific school related problems such as test taking anxiety, math anxiety, panic disorder, etc.
• Faculty/Staff consultations
• Disciplinary evaluations/behavioral contract compliance
• Working closely with Student Health Services for wrap around care

Students can walk in or call the office to schedule a confidential appointment. For additional information, please see Student Health Services.

Child Development Center

The Child Development Center is a State funded program that offers an educational program for children six weeks to five years old. Priority enrollment is offered to children of parents attending day classes at City College. Parents whose children are enrolled in the Center must take Child Development 160 and 161 the first year of enrollment. These classes require a one hour per week lecture and three hours per week of participation at the Center. Applications for the waiting list are accepted the first two weeks in May for the Fall semester and the first two weeks in December for the Spring semester.

The Center also serves as an instructional lab for Child Development majors and other students requiring practicum experiences with young children.

The Center is located at 16th and B Streets. For additional information, call 619-388-3205 (License Numbers 370805154 and 370806172).

Student Affairs/ Campus Life

D-106  619-388-3498

The Office of Student Affairs provides a variety of services designed to provide students with a well-balanced academic and extra-curricular college experience.

Student leadership, clubs and organizations, cultural events, graduation and other support services are offered through the Office of Student Affairs.

For scholarship information and information about other support services, contact the Office of Student Affairs. Fee deferments are available on a limited basis. Some restrictions may apply.

Associated Students (AS) Student Government

The Associated Students is the governing body that finances, organizes, and directs many student-sponsored programs and activities at City College. Elections are held annually for Associated Student President and other officers. Any student with a current City College ID card may vote in the elections.

Current district policy allows the elected Associated Student President to share the responsibility of the Student Trustee. The Student Trustee is a non-voting member of the Board of Trustees of the San Diego Community College District and represents the student voice on the Board.

Any student who participates in student government may not have any Policy 3100 violations of suspension or greater, as stated on their official student record.

Associated Students Membership

Support your student body by purchasing an AS membership. The membership entitles you to special benefits and privileges. The revenues go back to support various campus events and activities. See the Associated Students office, D-105A for a list of current benefits.

Student Organizations

There are over 20 active student organizations on campus reflecting the diversity of interest of the student body. Students wishing to charter or register new organizations should contact the Student Affairs Office in D-106.
San Diego City College is a member of the Pacific Coast Athletic Conference for the following sports: men's and women's soccer, men's and women's cross country, men's and women's basketball, softball, men's and women's tennis, baseball, men's and women's volleyball, and women's badminton.

The Pacific Coast Athletic Conference includes the following colleges: Cuyamaca, Grossmont, Imperial Valley, MiraCosta, Mt. San Jacinto, Palomar, San Diego Miramar, San Diego Mesa, and Southwestern.

Students must meet academic requirements established by the California Community College Athletic Association and pass a physical examination before they are determined to be eligible to participate in Intercollegiate Athletics. Academic eligibility includes enrollment as a full-time student during the season of the sport, an educational plan on file in the first semester of competition and a minimum 2.0 grade point average by their sophomore season of play. For more information, contact the Athletic Office.

Physical Education Classes/Intercollegiate Sports Disclaimer

Participation in all sports and physical education activities involves certain inherent risks. Risks may include, but are not limited to, neck and spinal injuries that may result in paralysis or brain injury, injury to bones, joints, ligaments, muscles, tendons and other aspects of the muscular skeleton system; and serious injury, or impairment, to other aspects of the body and general health, including death. The San Diego Community College District, its officers, agents and employees are not responsible for the inherent risks associated with participation in physical education classes/intercollegiate sports.

Students are strongly advised to consult a physician prior to participating in any physical education activity.

Performing Arts

The City College Department of Visual and Performing Arts offers students the opportunity to present plays several times a year and sponsors student performances in music and dance which are open to the public as well as the college community.

Journalism

College Newspaper

The college newspaper, City Times, provides students the opportunity for class workshops and actual experience in writing, editing, and producing a newspaper.

CityWorks

CityWorks is San Diego City College's creative arts annual anthology which features artwork, poetry and prose from students and the community. Each October, the staff seek artists, writers, poets, journalists, editors, graphic designers, photographers, and other creative people to seek submissions for the issue, which is published each spring. For more information, call 619-388-3522.

Support Services

Campus Bookstore

A-12 619-388-3548

San Diego City College Bookstore stocks textbooks and supplies required for classes. Rental books are also available. The Bookstore provides study aids, snacks, school supplies, clothing, backpacks, gift items, greeting cards, emblematic items and general books. The bookstore also buys back textbooks for cash.

Extended hours are offered at the beginning of each semester. Textbooks can also be purchased online at: www.bookstore.sdccd.edu/city. For additional information or special Bookstore hours, please contact the bookstore or visit our website listed above.

Cafeteria

The cafeteria is located in D-123 and serves both day and evening students.

College Police Department

The College Police Department is responsible for providing public safety, law enforcement and crime
Student Services

prevention services. Its mission is to maintain peace and order and a safe learning environment throughout our District. It is also responsible for administering the campus parking program, lost and found and the building security program.

The police business office is located in V-118. For information and general assistance, call 619-388-3461. For police assistance, call 619-388-6405. Emergency services are provided 24 hours a day 7 days a week. Learn more about College Police at: http://police.sdccd.edu.

Police Escort and Related Services

The college police are available to provide escort, vehicle battery jumps, and vehicle lockout services during regular hours of operation. Students who wish to use these services should call College Police Dispatch at 619-388-6405 or go any of the College Police Offices at the following locations for assistance:

City College (V-118) ......................................619-388-3461
Mesa College (Q-100) ...................................619-388-2749
Miramar College (T-100) ............................. 619-388-7353
or 858-536-7353
College Police Dispatch ............................... 619-388-6405

Emergency Calls

The college will not interrupt classroom instruction to deliver messages, except in extreme emergencies. All calls/inquiries should be referred to the College Police Dispatch at 619-388-6405.

Parking

Student parking permits are available for purchase during registration through “Reg-e” or at the campus accounting office. Permits paid for before classes begin are mailed and those purchased after classes begin must be picked up. Parking permits are required the first day of each semester. Check in College Police for parking permits not received before the grace period ends. Parking permits are not required on Saturdays, Sundays or college holidays including winter break and spring break. Students may not utilize visitor parking. All meters require deposit of coins. Permits are not valid at meters. All campuses have pay and display machines for visitor and student use. Pay and display permits are only valid in student parking lots.

Parking permits are required Monday through Friday, 7:00 am to 10:00 pm. Parking between the hours of 11:00 pm and 6:00 am requires an overnight permit issued through College Police.

Motorcycles must display a motorcycle permit and be parked in designated motorcycle parking.

Bicycles must be parked only in designated bicycle racks. Students are not allowed to ride bicycles or motorized bikes on campus. Violators are subject to disciplinary action.

For additional information on parking visit your campus police office or call parking services at 619-388-6415.

Transportation for Students with Disabilities

Paratransit (curb-to-curb) service is available for a fee to persons with disabilities who cannot use public transportation. ADA certification is required. Please contact DSPS for additional information or forms for certification. Students may also contact MTS (Metropolitan Transit System) at 888-517-9627.

Vehicle Immobilization/Booting/Towing/Hold

Vehicles that accumulate five (5) or more unpaid parking citations are subject to immobilization (booting) of their vehicle and/or impound (towing) at owners expense. In addition, a hold may be placed on the vehicle registration. If a vehicle accumulates $100 or more in outstanding fines a hold may be placed on student records/grades.

Emergency Cell Phone Numbers

The College encourages students to provide cell phone numbers to communicate with them in the event of a college or district-wide emergency. Students can log-on to Reg-e at: http://studentweb.sdccd.edu to provide this important information.

SDCCD Online Learning Pathways
San Diego City, Mesa, and Miramar Colleges

QUALITY ONLINE LEARNING
Learn anytime, anywhere with our convenient, flexible online courses that fit your busy schedule. Enjoy interactive communication with your classmates and instructor as you complete your coursework in an engaging, supportive learning environment. Our quality online courses are developed and taught by experienced instructors from our three colleges—City College, Mesa College, and Miramar College.

Want to get started? Find out if online learning is for you at: www.sdccdonline.net/newstudents.htm.

Get ready for online learning success! Visit www.sdccdonline.net/students/training/.

Online students receive 24/7 Technical Support at https://www.sdccdonline.net/help or by calling toll free 866-271-8794. For login instructions visit www.sdccdonline.net/login.

Honors
The Honors Program is open to any student who meets appropriate general and departmental criteria. Honors classes are designed to provide strongly motivated students with a more in-depth or cross-disciplinary curriculum and a highly interactive classroom experience.

The Honors core curriculum, “A World of Ideas,” is intended for prospective transfer students who are interested in a multicultural, multinational perspective in their courses. The goal of the program is to facilitate and increase transfer to the University of California, California State University, and distinguished private universities, as well as to enhance employability for vocational students.

Special transfer agreements also exist for City College Honors students at the following four-year colleges and universities: UCLA, UC Santa Cruz, UC Irvine, UC Riverside, USC, Pomona College, Occidental College, SDSU, Pepperdine University, Chapman University, Whitman College and Pitzer College. For information on eligibility requirements and course offerings, see the schedule of classes or call (619) 388-3512.

The Honors Program is open to all students (part-time or full-time, day or evening) and can be found in all disciplines (vocational, liberal arts, fine arts, sciences, business, etc.). For specific criteria and other information, please consult the schedule of classes or contact the campus Honors Coordinator.

Students enrolled in an Honors section (including an honors contract), may not transfer to a regular section after the deadline to make a schedule adjustment for the class. Petition for Honors Credit after the course has been completed will not be permitted.

Off-Campus Programs
City College offers credit courses at various locations throughout San Diego such as the Educational Cultural Complex (ECC), military bases, and other educational and social service agency sites. These classes are open to all City College students and are designed to provide an opportunity for students to attend classes in the community that are short term, easily accessible, and have convenient parking. Off-Campus courses are listed in the class schedule each semester under the subject in which they are offered. Classes held at the ECC location are also listed in the ECC section of the class schedule. If you have questions about enrolling in off-campus classes, call the Off-Campus Programs office at 619-388-3924 or 619-388-4883.

Study Abroad Programs
San Diego City College has offered students the opportunity to study in different countries around the world in order to develop global competencies and to increase cultural awareness while making progress towards completion of academic goals.

Classes are held at educational institutions in the host country. Field trips, excursions, and visits to sites of cultural and historical interest are components of the program. Housing arrangements include family homestays, student apartments, and/or residence halls. Costs are in the $7,000 range for semester programs and significantly less for summer programs. Financial aid and scholarships are available for students who qualify.

Semester Abroad Programs: These enhanced learning opportunities have been offered in countries such as Argentina, Australia, Costa Rica, France, Italy, Spain, and the United Kingdom. Courses are taught by faculty from California community colleges. Classes offered abroad meet general education requirements, are CSU and mostly
UC transferable, and are selected to take advantage of the host country’s history, environment, and culture.

**Summer Abroad Programs:** Programs from 10 days to 4 weeks have been available during the summer. Spanish immersion in Mexico and Costa Rica has been offered; as well as, photography in Italy and the United Kingdom, and graphic design and dance in Mexico.

**Contact Information:** Additional information can be obtained from the International Education Office at (619) 388-3652.

**Dean’s List**
A Dean’s Honor List is compiled at the close of each academic year (Fall and Spring). To be eligible for the Dean’s Honor List, a student must complete 12 units or more during the academic year and have earned a grade point average of 3.5 or better.

**Work Experience**
Through Work Experience courses students can receive academic credit for their current employment or volunteer service. For registration information, call 619-388-3475 or contact the Work Experience Office in A-111 at the beginning of each semester.

**Distance Education**
For those students who need (because of child care, health, or scheduling problems) an alternative way to attend college, City College offers a broad range of courses online. The majority of instructional time will be spent viewing the programs and completing assigned readings in the text and/or workbook, however, these courses also meet on campus several times during the semester.

Check the current schedule of classes for a listing of Distance Education courses. For more information, please contact the Distance Education Office at 619-388-3534.

**Class Attendance**
Students who do not attend the first class meeting may be dropped by the instructor. Students, who cannot attend because of illness, religious observation, or a serious problem, should notify the instructor. Students who miss the first class meeting and do not plan to attend must log-on to Reg-e to drop the class to avoid receiving an “F” grade.

It is the student’s responsibility to drop by the published deadlines.

**Grading System**

**Unit of Credit:** A unit of credit represents one hour of lecture or recitation and two hours of preparation per week, or three hours of laboratory per week for one semester.

**Academic Grades**

<table>

<td>No Pass</td>
<td>Units not counted in GPA</td>
</tr>
</tbody>
</table>

The grade point average (GPA) is determined by dividing the total grade points earned by the total grade point units completed as listed in the chart above.

**Administrative symbols:** P/NP—Pass/No Pass; I—Incomplete; W—Withdrawal; IP—In Progress; RD—Report Delayed. Administrative symbols are not used in the computation of GPA. See below for further explanation.

**Pass/No Pass** (P/NP) is a non-punitive grading system where such units earned will be counted in satisfaction of curricular requirements but will be disregarded in determining a student’s grade point average. For more specific information, refer to the discussion of the “Pass/No Pass Grading Policy” on page 46.

**Incomplete:** A symbol of “I,” Incomplete, may be assigned by an instructor when a student has been unable to complete academic work for unforeseeable emergency and/or justifiable reason at the end of term. A copy of the “Assignment of Incomplete” form will be mailed to the student and the original retained in the District Records Office. A final grade will be assigned when the work stipulated has been completed and evaluated by the instructor or when the time limit for completion of the work has passed. An “I” must be made up no later than one year following the end of the term.
in which it was assigned. In the event of unusual, verifiable circumstances beyond the student’s control, a petition may be filed in the Office of the Vice President, Student Services for extension of the one-year time limit. Course repetition is not permitted to remove an Incomplete.

Withdrawal: An official withdrawal from classes may be requested by the student or initiated on his/her behalf by the instructor or Vice President, Student Services.

The following conditions apply to official withdrawal:

1. No record of the class will be entered on the student’s permanent record if the official withdrawal is made by the deadline to drop without a “W” being recorded as published in the schedule of classes.

2. If the withdrawal is made after the deadline for withdrawing without a “W” and prior to the deadline for withdrawal published in the class schedule for that session, a “W” will be recorded on the student’s permanent record. No exceptions to this policy will be made. Petitions will not be accepted for exception to policy.

3. A student attending a session after the deadline for withdrawal will not be eligible to receive a “W” and must be assigned an academic grade or other administrative symbol by the instructor. Exceptions to this policy will be made only upon verification of extreme circumstances beyond the control of the student. Petitions requesting exception must be filed in the Admissions Office.

4. Withdrawal (W) symbols will be used in the calculation of lack of progress probation and disqualification status.

5. Students on active duty or reserve duty may petition for a “military” withdrawal. This withdrawal is not calculated in the determination of academic progress and is noted on the student’s academic record.

6. Students will be allowed a maximum of three withdrawals in any course.

In Progress: A symbol of “IP,” In Progress, will be assigned when a class extends beyond the normal end of a semester or summer session, that is, when the class “carries over” from one term to the next. The appropriate grade, however, shall be assigned and appear on a student’s record for the term during which the course is completed. The “IP” shall not be used in the calculation of a student’s grade point average.

Grade Challenge
Final grades will be issued at the end of each semester. In the absence of mistake, fraud, incompetence, or bad faith, the determination of the student’s grade by the instructor shall be final once it has been recorded by the Registrar’s Office.

A student may challenge a grade or request a change to his/her academic record within two years from the date of issuance. Requests beyond two years will not be accepted. Students wishing to challenge a grade should first attempt to resolve the challenge informally with the instructor. Grade challenges must be processed under District Procedure 3001.2, Grade Challenge Procedure. Copies of Procedure 3001.2 are available in the Office of the Vice President, Instruction.

Pass/No Pass Grading Policy
Consistent with District policy, a student in good standing may elect to be graded on a Pass/No Pass basis in a course. A grade of “Pass” (P) shall be awarded only for work which otherwise would have received a grade of “C” or better. Work that would have received a “D” or “F” will be graded “No Pass” (NP). The units earned will be counted in satisfaction of program requirements, but will be disregarded in determining a student’s grade point average.

IMPORTANT: Students who plan to transfer to a four-year institution should review the Pass/No Pass acceptance policy of the transfer institution prior to petitioning for this grading option. Restrictions in the San Diego Community College District also apply.

Limitations:
1. No more than 12 units of a student’s coursework completed in the San Diego Community College District graded on a Pass/No Pass basis will be used to meet Associate Degree requirements.

2. No classes graded on a Pass/No Pass basis may be applied to courses required in the major for graduation.

Conditions:
1. Students who wish to be graded on a Pass/No Pass basis must submit a petition to the Admissions Office or select the Pass/No Pass option online via Reg-e by the deadline date.
listed in the schedule of classes. **No exceptions to the deadline will be made.**

2. An evaluation on a Pass/No Pass basis may not later be changed to a letter grade nor may the reverse occur. **No exceptions to this condition will be made. Petitions will not be accepted for exception to policy.**

There are courses in which Pass/No Pass grades are used exclusively; these are designated in the catalog course description by the statement “Pass/No Pass Only.” In addition, there are courses which cannot be taken on a Pass/No Pass basis; these are designated in the course description by the statement “Letter Grade Only.”

Effective Fall 2009, the Credit/No Credit (CR/NC) grading option changed to Pass/No Pass (P/NP).

### Standards of Academic Progress

Students are in good academic standing when they have a 2.0 grade point average or higher and have completed at least 61% of units they have attempted. There are two kinds of probation and disqualification, one based upon GPA (Academic Performance) and the other based upon the number of units completed (Progress Performance).

Certain programs may have more stringent standards for academic progress. Consult the program director for more information.

Students enrolled in the core curriculum of medically-related programs will be governed by the probation and disqualification policies as outlined in the program policy manuals that reflect the tenets of safe medical practice and respond to program accreditation guidelines.

#### Academic Probation*

A student whose cumulative grade point average falls below a 2.0. A student on academic probation will return to good standing when his/her cumulative grade point average reaches or exceeds 2.0.

#### Academic Disqualification

A student on academic probation status will be disqualified when his/her semester GPA falls below 2.0 in a subsequent semester. An enrollment hold will be placed on the student’s record. Students who are disqualified after registering for the subsequent semester will be administratively dropped from all classes.

### Lack of Progress Probation*

A student shall be placed on lack of progress probation when the percentage of all (cumulative) units for which entries of “W,” “I,” and “NP” are recorded reaches or exceeds 40%.

### Lack of Progress Disqualification

A student who has been placed on lack of progress probation shall be disqualified and an enrollment hold placed on the student’s record when the percentage of units for which entries of “W,” “I,” and “NP” are recorded in a subsequent semester (not-cumulative), reaches or exceeds 40%. Students who are disqualified after registering for the subsequent semester will be administratively dropped from all classes.

* **EXCEPTIONS:**

  Provisional, Joint Diploma and Special Admit High School students who do not maintain good academic standing will be automatically disqualified. **Probationary Status will not apply!**

If Disqualified:

- Special Admit High School students will not be permitted to re-enroll without approval from a high school counselor.
- Joint Diploma students must see a JD counselor for readmission.

### Readmission After Disqualification

**Note:** Disqualification status is determined based upon Progress Performance, Academic Performance, or a combination of both.

#### First Disqualification

- Students who wish to be considered for readmission after the first disqualification will be required to meet with a counselor and develop a Student Success Plan prior to being readmitted. Students who are disqualified after registering for the next semester will be administratively dropped from all classes.

#### Second Disqualification

- Students who are disqualified a second time will be required to sit out for one full year. Students
who are disqualified after registering for the next semester will be administratively dropped from all classes.

**Third Disqualification**

- Students who are disqualified a third time (and each disqualification thereafter) will be required to sit out for one year. Students who are disqualified after registering for the next semester will be administratively dropped from all classes.

**Readmission after disqualification**

- Students who have been disqualified three or more times may file a Petition for Readmission after the one year sit out period. Students must provide supporting documentation of how circumstances have changed to allow for academic success. If the Petition is accepted for consideration, the student will be invited to present his/her case to a hearing panel. Information as well as deadline dates for filing a Petition for Readmission are available in Student Web Services under Standards of Academic Progress at: [http://studentweb.sdccd.edu/index.cfm?action=keyresources](http://studentweb.sdccd.edu/index.cfm?action=keyresources).

**Academic Regulations**

**Honest Academic Conduct**

Honesty and integrity are integral components of the academic process. Students are expected to be honest and ethical at all times in their pursuit of academic goals in accordance with Policy 3100, Student Rights, Responsibilities and Administrative Due Process. Procedure 3100.3 describes the Academic and Administrative Sanctions for Students who are found to be cheating. A copy of Procedure 3100.3 can be obtained in the Office of the Vice President of Student Services.

**Course Repetition Policy**

- No course in which a "C" or better grade has been earned may be repeated.
- Students will not be allowed more than four enrollments in similar active participatory courses in Physical Education and Visual and Performing Arts, regardless of grade or symbol earned.
- Academic renewal is not allowed for work experience courses.
- Each course in which an unsatisfactory grade ("D," "F," or "NP") has been earned may be repeated twice without a petition. The course being repeated must be the same as the original course, not its equivalent. Only the newly-earned units and grades will be used in computing the grade point average.
- Students will not be allowed more than three enrollments in any course, regardless of grade or symbol earned.

**Academic Renewal Without Course Repetition**

A student with substandard academic performance (GPA below 2.0) that is not reflective of present demonstrated ability may petition to have a maximum of 12 units or one full semester, whichever is greater, of substandard performance disregarded in computation of grade point average.

The following conditions apply:

1. To be eligible for academic renewal without course repetition a student must:
   a. have transcripts from all institutions attended officially on file;
   b. successfully complete, in an accredited college or university, 15 units with a grade point average of at least 2.0 subsequent to the work to be disregarded. All courses taken during the semester/session in which the student reaches or exceeds the 15 unit minimum will be used in computing the 2.0 grade point average;
   c. have one year elapsed since the coursework to be disregarded was completed.

2. **Students with degrees or certificates earned at City, Mesa or Miramar:** Coursework prior to earning a degree or certificate are not eligible for academic renewal.

3. A maximum of 12 units or one semester or summer sessions, may be disregarded, whichever is greater. For purposes of academic renewal for summer session work, a summer session will be defined as all courses which commence after the termination of the Spring semester and end prior to the commencement of the Fall semester. Intersession work will be...
included in the Spring semester. Short-term or carry-over classes will be considered to be part of the semester or session in which credit is awarded or a grade is posted to the student’s permanent academic record.

4. If grade alleviation has already been applied two times for a course included in the semester to be disregarded, the course will not be eligible for academic renewal without repetition and will remain on the academic record.

5. If previous action for academic renewal has been applied to coursework included in the semester to be disregarded, the course will not be eligible for academic renewal without repetition and will remain on the academic record.

6. Academic renewal without course repetition may be applied to substandard semester(s) from another accredited institution.

7. The permanent academic record will be annotated in such a manner that the record of all work remains legible, ensuring a true and complete academic record.

8. Recalculation of the grade point average will be used toward qualification for graduation with honors.

9. Academic standing for the semester/session(s) will not be adjusted.

10. Once the petition is approved, the action is not reversible.

**Course Repetition—Lapse of Time**

Academic departments may require that courses for the major be completed within a specified number of years prior to the granting of the Associate Degree, Certificate of Achievement, or Certificate of Performance. Students may be required to repeat a course in which a satisfactory grade (A, B, C, or P) has already been earned. Students with questions about the applicability of previous coursework are advised to consult the department as early as possible.

**Disability Support Programs and Services (DSPS) Repeat**

Additional repetitions of a DSPS course to accommodate a student’s disability-related needs may be permitted. For students with disabilities, course repetition is determined on an individual student basis. Contact the DSPS Office on campus for more information.

**Mandated Training**

Students who are required to meet a legally mandated training requirement as a condition of continued paid or volunteer employment may repeat a credit course any number of times. Students should complete the Mandated Training Course Repetition form.

For more information on course repetition, consult the Counseling Office at your college.

**Transcripts of Record**

A student may order an official transcript of record online, in person, by mail or via fax. To order an official transcript online, visit: https://studentweb.sdcccd.edu/transcript/. Transcripts ordered online will be mailed within 1-2 business days.

To order a transcript in person, a student may complete a request at the Accounting Office at the college, or in person at the District Office of the Registrar, San Diego Community College District, Administrative Office, 3375 Camino del Rio South, San Diego, CA 92108.

Payment of fees must be made prior to processing a request for transcripts.

The following policy has been adopted by the San Diego Community College District Board of Trustees regarding the issuance of transcripts of record:

1. The first two transcripts will be issued without charge.

2. There will be a charge of $5.00 for each additional transcript.

3. All transcript requests are processed within 10 working days except “RUSH” orders.

4. A $10.00 special handling fee will be charged for all “RUSH” order transcript requests, including hand carried transcript requests ordered at the District Office. Rushed transcripts are processed immediately upon receipt. The special handling fee will be charged per request.

Requests will not be processed if students have outstanding holds preventing the release of the official transcript.

All official copies of the student’s permanent record are in the Office of the Registrar. The Office of the Registrar will certify only to the accuracy of the
records prepared by and issued directly from that office to another institution.

More information on ordering transcripts is available at: http://studentweb.sdccd.edu/docs/transcript.pdf.

Transcripts of Prior Academic Credit
Students with credit from other colleges and universities must have official transcripts on file with the college.

- Official transcripts are those sent directly from one institution to another.
- Transcripts will only be accepted for one year after issuance.
- Transcripts brought in by students not in an official, sealed envelope will be considered unofficial.
- Transcripts are required even if prior credits do not appear relevant or if units were taken years ago.
- Students receiving veterans benefits must have transcripts on file within one semester.
- Certain programs require transcripts before admission to the program.
- Official transcripts from other institutions become the property of the college and will not be duplicated or returned.
- Official transcripts should be sent to the following address:
  
  San Diego Community College District
  3375 Camino del Rio South, Rm. 100
  San Diego, CA 92108-3883

Foreign Transcripts
- Foreign transcripts are not required.
- Students who elect to waive the requirement of a foreign transcript must submit a Foreign Transcript Waiver Agreement form available at the campus Evaluations Office.
- Students who elect to submit a foreign transcript must provide a foreign transcript evaluation from an approved agency.

For additional information contact the Evaluations Office on campus.

Transferability of Credits
Credits from other regionally accredited institutions may be accepted for transfer credit after evaluation by District evaluators. San Diego City College will not accept the transfer credits from another institution if the evaluation by the District and college evaluators determines that the credits received from another accredited institution do not meet the equivalent standards for a similar course taken at San Diego City College.

Academic Credit for Nontraditional Education
Academic credit may also be available to currently enrolled SDCCD students for skills or knowledge not obtained by formal scholastic experience or for prior course work with content determined equivalent to district courses.

Credit is available through the following:

- College-Level Examination Program (CLEP)
- Defense Activity for Non-Traditional Education Support (DANTES)
- Advanced Placement Examinations (AP)
- International Baccalaureate (IB)

To obtain credit, students must request the evaluation of tests and meet the following criteria:

- All official transcripts must be on file.
- Official copies of test scores must be submitted.
- Students must be currently enrolled.

Limitations on credit by standardized examination:

- AP and CLEP examinations may be used to partially clear the American Institutions requirement. See following charts regarding nontraditional education for details.
- The English composition requirement can be met by the AP exam.
- Credit will not be granted for equivalent courses completed.
- Grades are not assigned, nor is the credit used in calculating grade point average.
- Credit granted by SDCCD does not necessarily transfer to other institutions. Transferability of credit is determined by the receiving college or university.
- Credit awarded through non-traditional education may not be used for grade alleviation.
- A maximum of 30 cumulative units may be granted for acceptable scores on any combination of AP, CLEP, DANTES, or IB.
- Duplicate credit will not be awarded for nontraditional education sources and completed coursework.

The tables below indicate the score necessary, the credit allowed, and the area(s) satisfied for each of the examinations accepted for credit.

* Credit may not be awarded for exams which duplicate credit for the same content earned through other means.

1. If a student passes more than one exam in calculus or computer science, only one exam may be applied to UC / CSU baccalaureate or SDCCD associate degree / certificate requirements.
2. Students passing both English AP exams will receive a maximum of 8 quarter units / 5.3 semester units toward UC baccalaureate degree requirements.
3. Students passing more than one AP exam in physics will receive a maximum of 6 units of credit toward CSU baccalaureate or SDCCD associate degree / certificate requirements and a maximum of 4 units of credit toward CSU GE certification or SDCCD associate degree GE requirements.
4. Students passing either of the Physics C exams will be required to complete at least 4 additional semester units in IGETC Area 5 coursework to meet the IGETC Area 5 unit requirement.
5. Students passing more than one physics AP exam will receive a maximum of 8 quarter units / 5.3 semester units toward UC baccalaureate degree requirements.
6. Students passing more than one AP exam in studio art will receive a maximum of 8 quarter units / 5.3 semester units of credit toward UC baccalaureate degree requirements.
7. Students who have completed the American Institutions requirement except for the California government portion must complete one course approved in Area US-3.

* Credit may not be awarded for exams which duplicate credit for the same content earned through other means.

To request an official DANTES transcript, write to:
PROMETRIC ATTN: DSST Program, 1260 Energy Lane, St. Paul, MN 55108  
Phone: 877-471-9860 (toll free) or 651-603-3011 or request transcripts at [http://getcollegecredit.com/resources](http://getcollegecredit.com/resources)
Credit by Examination designed and approved by individual disciplines
The term “examination” means any written, oral or performance standards determined by the individual departments. Students must meet specific criteria to be eligible for credit by examination. The approved list of courses and forms are available in the College Evaluations Office.

Credit for non-college credit vocational courses
Students who complete non-college credit articulated courses (SDUSD/SDCCD) that are equivalent in subject matter, content, educational objectives, length of course, and performance standards and pass a college faculty approved examination for the course offered by the college may have these courses converted to college credit. Additional information is available in the Evaluations Office.

Academic Information For Veterans And Military Servicemembers
Acceptance and Application of Military Credit
San Diego City, Mesa, and Miramar Colleges apply credit for educational experience completed during military service toward the associate degree in accordance with the associate/baccalaureate credit recommendations contained in “A Guide to the Evaluation of Educational Experiences in the Armed Services” published by the American Council on Education (ACE). Students must submit documentation of educational experiences during military service. Acceptable documents include:

- AARTS or SMART Transcript
- DD-214
- DD-295
- NAV/PERS 1070/604
- DD-2586
- National Guard Bureau (NGB) Form 22E
- Coast Guard Institute
- Community College of the Air Force (CCAF)

Military service credit may be granted upon verification of six (6) months of continuous active duty, or completion of basic training for National Guard/Reservists. Four (4) units of credit may be awarded to meet the district graduation requirements in Health and PE. Three (3) of those units may also be used to satisfy Area E of the CSU General Education Breadth pattern.

Other educational experiences during military service may also fulfill additional major, general education, or elective degree requirements. More specific information is available in the San Diego Community College District Evaluations Office.

Service Members Opportunity Colleges System (SOC)
San Diego City, Mesa, and Miramar Colleges are members of the Service Members Opportunity Colleges (SOC) Consortium. As members, the colleges provide educational assistance to active duty service members and agree to accept credit for educational experiences during military service as recommended by the American Council on Education (ACE). In addition, the colleges accept credit from other non-traditional sources such as DANTES and CLEP examinations. The San Diego Community College District is committed to military personnel who may choose to participate in the SOCNAV/SOCMAR Program network through the campuses of San Diego City and San Diego Miramar Colleges. SOCNAV/SOCMAR was established to better serve highly mobile service members and their families. For more information on these programs, contact the Military Education advisor at the following locations:

- Naval Base San Diego (32nd St.) 619-233-5617
- Marine Corps Recruit Depot (MCRD) 619-295-9974
- Marine Corps Air Station Miramar (MCAS) 858-536-4329

U.S. Air Force and U.S. Army ROTC Programs
Under the provisions of a special agreement, students may participate in the Army or Air Force Reserve Officers Training Program (ROTC) at SDSU. San Diego City, Mesa and Miramar College students may enroll and attend ROTC classes at SDSU by contacting the SDSU Military Science Department 619-594-5545. Financial assistance may also be available. The credits earned in these classes may be transferred as electives to meet the degree requirements of City, Mesa and Miramar Colleges.
Responsibility for Meeting Requirements
Each student must assume responsibility for compliance with the regulations of the college set forth in this catalog, for satisfying prerequisites for any course, and for selecting courses which will facilitate attainment of educational objectives.

The college does not assume responsibility for misinterpretation of policies and procedures as presented in this catalog. Counselors and advisors are available to assist in planning students’ programs. Any questions or doubts concerning this catalog material should be referred to the Office of the Vice President, Student Services.

Petition for Exceptions
Petitions for exceptions to graduation requirements, substitutions, or waiver of requirements are filed with the Evaluations Office. All petitions are acted upon by the appropriate college committees/offices.

Statement of Open Courses
It is the policy of the San Diego Community College District that, unless specifically exempted by statute, every course, section, or class offered by the District and reported for state aid shall be fully open to enrollment and participation by any person who has been admitted to the college and who meets course prerequisites.

Academic Accommodations for Students with Disabilities
(Board of Trustees Policy - BP 3105)
The San Diego Community College District (SDCCD) is committed to all provisions of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 and Section 508 of the Rehabilitation Act of 1973.[1] The fundamental principles of nondiscrimination and accommodation in academic programs provide that:

1. No student with a qualified disability shall, on the basis of the disability, be excluded from participation in, be denied the benefit of, or otherwise be subjected to discrimination under any post-secondary education activity or program[2]; and

2. Reasonable accommodations to academic activities or requirements shall be made as are necessary to ensure that such requirements do not discriminate or have the effect of discrimination on a student with a qualified disability; and

3. The institution shall create an educational environment where students with disabilities have equal access to instruction without compromising the essential components of the course, educational program or degree.

The intent of this policy is to insure compliance with state and federal laws. SDCCD Procedure 3105.1 is intended to provide consistent and fair review of all academic adjustments requests and dispute resolution.

Students with verified disabilities who may require academic accommodations or auxiliary aids are strongly recommended to contact the Disability Support Programs and Services (DSPS) Department, Room A-115, and complete orientation procedures well before classes begin. Students are encouraged to identify themselves to the appropriate instructors to discuss the details and timelines necessary to provide appropriate accommodations. Students enrolled in Online courses are encouraged to contact the college DSPS to request academic accommodation. Questions regarding academic accommodations may also be directed to the college 504 Officer, Star Rivera at 619-388-3209 in room L-117C.

Debt Owed to the College
California Education Code Section 72237 and Title 5 Section 54640 state that grades, transcripts, diplomas, and registration privileges, or any combination thereof, shall be withheld from any student or former student who has been provided with written notice that he or she has failed to pay a proper financial obligation. Any item(s) withheld shall be released when the student satisfactorily meets the financial obligation. A service fee may be charged for all delinquent loans; any service fee would be determined by the total cost required to collect the delinquent loans.

Audit Policy
Auditing courses is not permitted under any circumstances. Students must be officially enrolled in all classes which they attend.

Exclusion from Classes
A student may be excluded from class or the college whenever the student:
• Exhibits behavior which interferes with the educational process. An instructor may remove a student from two class sessions for disruptive behavior. (Refer to Policy 3100: Student Rights, Responsibilities and Administrative Due Process); or
• Is found to have a communicable disease which requires isolation pursuant to a directive from the County Department of Public Health.

Minor Children on Campus
Minor children who are not enrolled are not permitted in any classroom at any time.

Minor children who are not enrolled are not to be left unattended at any time while on the campus.

Student Right to Know
In compliance with the Student-Right-to-Know and Campus Security Act of 1990, it is the policy of the college district to make available completion and transfer rates for all certificate, degree and transfer seeking first-time, full-time students who began in Fall 2009. These rates do not represent the success rates of the entire student population at the college, nor do they account for student outcomes occurring after this three-year tracking period.

The completion and transfer rates are listed below:

<table>

Nondiscrimination Policy
(Board of Trustees Policy-BP 3410)
San Diego Community College District Board of Trustees Policy BP 3410 prohibits discrimination in accordance with state and federal laws. Students wishing to file complaints based upon discrimination should contact the campus Site Compliance Officer (SCO), Edwin Heil at 619-388-3036. Appeals may be made to the District EEO Compliance Manager at the District Administrative Office, 3375 Camino del Rio South, San Diego, CA 92108.

Students with disabilities who want to file a grievance under Section 504 of the 1973 Federal Rehabilitation Act should contact Disability Support Programs and Services in room A-115 or call 619-388-3464. Students who want to file a grievance under the Americans with Disabilities Act (ADA) should contact the campus Site Compliance Officer.

Free Speech
Free speech areas have been designated on the college campuses to maximize the opportunity for free discussion and expression, while minimizing the potential for disruption of classroom and college activities.

Information concerning free speech areas is available in the office of the Vice President of Student Services, or the Dean of Student Affairs office on campus.

Gender Equity
The Gender Equity Coordinator facilitates the development or updating of the campus Gender Equity Plan in cooperation with committees that are responsible for equity concerns. The Gender Equity Coordinator can be reached at 619-388-3940 at San Diego City College, Building E, President’s Office.

Title IX. Prohibiting Sex Discrimination in Education
San Diego City College is committed to support all regulations under Title IX. “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.”

For further directions or inquiries, please contact the Title IX Coordinator, Edwin Heil, eheil@sdccd.edu.

Policy Prohibiting Sexual Harassment
It is the policy of the San Diego Community College District to provide an educational environment that is free of sexual advances, requests for sexual favors, and other verbal or physical conduct or communications that constitute sexual harassment as defined and prohibited by federal and state statutes. Anyone with questions about this policy or anyone who wishes to file a complaint should contact the College EEO Site Compliance Officer, or the District Diversity and EEO Compliance Officer.

Procedures for filing a formal complaint of sexual harassment are described in District Procedure 3435. Copies of this procedure may be obtained from the Site Compliance Officer at 619-388-2440.
Drug and Alcohol Use
The San Diego Community College District is committed to providing a drug free environment. Any type of drug use, including alcohol, is dangerous and potentially life threatening. Drugs and alcohol adversely affect the body, mind and behavior. The effects vary from person to person and from usage to usage. Even low doses of drugs and alcohol can impair judgment and coordination. If you use drugs or alcohol, you risk overdose, accidents, dependence, ill health, as well as legal, financial and personal problems. The federal laws against drugs are divided into two categories: possession and distribution. The penalties are severe depending upon the type of drug, quantity of the drug, and any prior offenses. Possession will earn up to one year in prison and a $5,000 fine. Distribution will earn up to life in prison and an $8 million fine. State laws vary and may be more severe. BP 3100 – Code of Conduct states that use, possession, or distribution of narcotics or other controlled substances is prohibited while on the college premises or at college sponsored events. A student may be suspended or expelled for violation of this policy. A complete list of legal sanctions is available in the Vice President, Student Services Office. The colleges provide information on drug and alcohol treatment and prevention through seminars, courses, and the Student Health Services. Contact Student Health Services for additional information.

Smoking Regulation
CITY COLLEGE IS A SMOKE AND TOBACCO-FREE CAMPUS
(Board Policy – BP 0505)
All campuses and facilities of the San Diego Community College District, City College, Mesa College, Miramar College, and Continuing Education operate in compliance with the provisions of Government Code 7597 and San Diego Municipal Code section 43.1003(a) regulating smoking in a public place or place of employment. In accordance with Board Policy (BP 0505) Smoke and Tobacco Free District Property smoking and the use of any tobacco product are prohibited on all properties owned or controlled by the District.

City College is committed to creating a clean, healthy working and learning environment for students, faculty, staff and visitors. All students, employees and visitors on the City College property are subject to BP 0505 regulations, which will be strictly enforced at all times. Student Health Services at City College offers Cessation Program Referrals to educate the college community about the risks of tobacco and the availability of Smoking Control Programs. Visit or call the Student Health Services on campus for additional information at 619-388-3450.

Additional information is available in the Campus Police Office. For complete SDCCD Policy 0505 and Procedure 0505.2 information, please visit: http://www.sdccd.edu/public/district/policies/

Crime Awareness and Campus Security
The San Diego Community College District Annual Security Report, titled “Safe and Sound, A Guide to Safety and Security in the San Diego Community College District”, includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by the San Diego Community College District; and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies concerning campus security, such as policies on drug use, crime prevention, the reporting of crimes, sexual assault and other matters. You can obtain a copy of this report by contacting any campus admissions office, Vice President of Student Services office or college police business office. At anytime you may view a full copy by accessing the following website: http://police.sdccd.edu/crimestats.htm.

Pursuant to State and Federal Law information concerning registered sex offenders enrolled or employed by the college may be obtained through the College Police Office.

Elder and Dependent Adult Abuse
An elder is defined as a resident of the State of California which is 65 years of age or older; or a dependent adult, defined as a resident of the State of California between the ages of 18 and 64 years, who has a physical or mental limitation that restrict his or her ability to carry out normal activities or to protect his/her rights.

Post-secondary educational institutions serving dependent adults are designated as mandated reporters with an individual, personal responsibility to comply with the reporting requirements.

Any mandated reporter, who, in his or her professional capacity, or within the scope of his or her employment, has observed or had knowledge of an incident that reasonably appears to be physical
abuse, abandonment, isolation, financial abuse, or neglect, or is told by an elder or dependent adult that he or she has experienced behavior constituting physical abuse, abandonment, isolation, financial abuse, or neglect, or reasonably suspects abuse shall report the known or suspected instance of abuse immediately to Adult Protective Services at 1-800-510-2020.

Copyright Responsibility
Any duplication request of copyrighted materials for use in the college’s instructional programs must be accompanied by written permission from the copyright owner. Any duplication of copyrighted materials by student, staff, or faculty is to be for the sole purpose of private scholarly study. Since the liability for infringement of statutory or common-law copyright occurs during misuse of duplicated materials, the duplicated copies cannot be sold or distributed. A designated portion of the duplicated copy cannot be included in another’s work without the written permission of the copyright owner. All copyright responsibility is assumed by the individual requesting the duplication. San Diego City College, its agents, representatives, and employees are held harmless against all claims, suits, damage costs, and expenses of charges of statutory or common-law infringement resulting from the college’s efforts to provide services, materials, and equipment to the requestor.

Student Rights, Responsibilities, and Privacy of Student Records (Board of Trustees Policy BP 3100)
This policy enumerates the rights and responsibilities of all San Diego Community College District students. All students are subject to adhering to the policies and procedures of the San Diego Community College District, as well as all federal, state, and local laws. Students are subject to charges of misconduct concerning acts committed on District-owned or controlled property or the District-sponsored activities as specified in the policy.

You may view a full copy of the policy by accessing the following website: http://www.sdccd.edu/public/district/policies/.

Student Grievance Procedure
The purpose of this procedure is to provide a prompt and equitable means for resolving student grievances. The procedures enumerated in Student Grievance Procedures 3100.1 shall be available to any student who believes a district decision or action has adversely affected his/her rights as a student as specified in Student Rights and Responsibilities, BP 3100, Section a through i. Note that grades are not grievable under this policy. Refer to the Grade Challenge section, page 46, of this catalog.

Academic Freedom & Freedom of Expression
(Board of Trustees Policy—BP4030)
The San Diego Community College District is committed to an academic environment that embraces the principles of academic freedom and freedom of expression. This commitment is based upon the value that free expression is essential to excellence in teaching, learning, critical inquiry and service to the community.

1. ACADEMIC FREEDOM
   a. Academic freedom affords the faculty the right to speak freely and write, without unreasonable restrictions or prejudices.
   b. In accordance with the doctrine of academic freedom, faculty have the following fundamental rights:
      1. Collective primacy in designing and approving curriculum and instructional methods;
      2. Individual faculty determination of instructional materials, course content, and student evaluation methods, in concert with colleagues, so as to assure coherence in instruction and the maintenance of academic standards;
      3. Individual faculty freedom to discuss subject matter of the course, as appropriate to the standards of the discipline and academic community, even when that material is controversial;
      4. Individual faculty authority to evaluate enrolled students on the basis of the academic merit of the students’ performance;
5. Individual faculty choice of research topics and methods of investigation—subject to professional and peer-determined standards—as well as unconditional freedom to publish results; and

6. Faculty participation in shared governance, curriculum review, and accreditation processes.

2. FREEDOM OF EXPRESSION

a. Freedom of expression affords the faculty, staff and students the right to speak and write freely in accordance with the constitutional protections of free speech.

b. Faculty, staff and students have the following responsibilities:

1. The District shall protect the rights of faculty to express their views in the classroom that pertain to class content. While it is understood that controversy is often at the core of inquiry, such controversy should be addressed in a mutually respectful manner.

2. The District shall protect the rights of faculty, staff and students to speak freely on matters of public concern.

3. Faculty, staff and students are free to explore a wide range of views and judge on matters of public concern.

4. As outlined in District policies and procedures, faculty, staff and students have responsibilities which are based upon principles of fairness, integrity, confidentiality, safety, professionalism, and respect for others.

5. Members of the academic community have the right to participate in governance and to join or form organizations without fear of retaliation.

Volunteer/
Visitor Conduct
Expectations

In accordance with Procedure 3100.4, all visitors and volunteers are expected to adhere to the policies and procedures of the San Diego Community College District, as well as all federal, state and local laws. Visitors and volunteers will be subject to removal from classrooms, service areas, and activities of the campus for any of the following acts (but not limited to) while on campus. Any violation may be subject to permanent removal from campus. Violations of state, federal, or local laws or ordinances, while on district premises, will be addressed by college police in accordance with the California Penal Code.

- Act or threat of damage to or theft of property belonging to or located on District-controlled property or facilities.

- The physical or verbal intimidation or harassment of such severity or pervasiveness as to have the purpose or effect of unreasonably interfering with a student’s academic performance, or a District employee’s work performance, or of creating an intimidating, hostile, or offensive educational or work environment.

- Physical or verbal disruption that is incompatible with instructional or student services activities, administrative procedures, public service functions, authorized curricular or co-curricular activities or prevention of authorized guests from carrying out the purpose for which they are on campus when such a disruption occurs inside of any classroom or facility or in such proximity as to appear reasonably likely to interfere with activities inside of the classroom or facility, or the substantial and material disruption of any other regular campus activity which occurs in any other portion of District-controlled property.

- Disorderly, lewd, indecent or obscene conduct or expression or habitual profanity or vulgarity; any expression which is obscene, libelous or slanderous according to current legal standards or which so incites students as to create a clear and present danger of the commission of unlawful acts, or the substantial disruption of the orderly operation of the community college. (Ed. Code 76120)

- Assault, or battery upon a student or district personnel on district premises or at any time or place while under the authority of District personnel.

- Possession of weapons, explosives, unlicensed dangerous chemicals or objects which may be used as weapons or to threaten bodily harm, as specified in the California Penal Code or other applicable laws.
Failure to comply with the reasonable directions of staff members of the district who are acting within the scope of their employment. Continued and willful disobedience or open and persistent defiance of the authority of district personnel, provided such authority is related to district activities or college/center attendance.

Student Records, Release, Correction and Challenge

(Administrative Procedure - AP 3001.1)

San Diego Community College District strictly adheres to the Family Education Rights and Privacy Act (FERPA). This procedure specifies limitations on federal and state law, and ensures that appropriate record maintenance and destruction systems are in place.

Pursuant to the “Family Rights and Privacy Act of 1974” (Public Law 93-380) and the California Education Code, a student may request to inspect all official school records, files, and related data that are classified as Student Records. The records will be available for review at a mutually convenient time during regular working hours. Contact the Vice President, Student Services. If information in the file is inaccurate, misleading, or inappropriate, a student may request removal of the information or include a statement disputing the material that is challenged. The law provides that no individual, agency, or organization shall have access to a student’s records without the written consent of the student.

You may view a full copy of the procedure by accessing the following website:
http://www.sdccd.edu/public/district/policies/

Complaint Process

San Diego City, Mesa, and Miramar Colleges are committed to an educational environment that is free from interference and disruption, and that fosters equity and mutual respect.

The following administrative processes are available to individuals who believe that they have been treated unfairly or that their rights have been violated:

1. Student Rights, Responsibilities and Administrative Due Process: Policy 3100
2. Student Grievance: Procedure 3100.1
3. Student Discipline: Procedure 3100.2
4. Honest Academic Conduct: Procedure 3100.3
5. Prohibition of Harassment: Policy 3430
6. Nondiscrimination: Policy 3410
7. Fraud/Whistle Blower: Policy 6125
8. Grade Challenge: Procedure 3001.2

Most complaints, grievances or disciplinary matters should be resolved at the campus/district level. If a complaint does not fall into one of the categories above, the complaint should be addressed in writing to the college President.

Individuals are strongly encouraged to make every attempt to resolve matters through the appropriate administrative processes. Matters that are not resolved internally may be processed by using the following agencies in the order described below.

The Accrediting Commission for Community and Junior Colleges (ACCJC) at http://www.accjc.org/complaint-process if your complaint is associated with the institution’s compliance with academic program quality and accrediting standards. ACCJC is the agency that accredits the academic programs of the California Community Colleges.

If your complaint does not concern the California Community College’s compliance with academic program quality and accrediting standards, you may contact the California Community College Chancellor’s Office by completing the web form found at:
http://californiacommunitycolleges.cccco.edu/ComplaintsForm.aspx#complaintForm

The Associate Degree

On the recommendation of the faculty, the colleges of the San Diego Community College District award the Associate in Arts degree or the Associate in Science degree.

The Associate in Arts degree is awarded in the social sciences, humanities, the arts, and similar disciplines. The Associate in Science degree is awarded in engineering, physical and biological sciences, and occupational curricula.

Proactive Award Degree

Students who have an official education plan on file and meet degree requirements may be awarded an associate degree.

All Degrees Have the Following Requirements in Common

Minimum Units in Residence

A minimum of 12 degree applicable units must be completed in residence at the college granting the degree.

The 12-unit in residence requirement is effective for all degrees awarded regardless of catalog year.

Major/Area of Emphasis Requirements

- Eighteen semester units or more are required.
- Six semester units must be completed at City, Mesa, or Miramar College. Refer to the Degree Curricula and Certificate Programs section of this catalog for specific requirements for each major.
- Only one course in a student’s major discipline may be used to meet the San Diego Community College District’s general education requirements with the exception of Liberal Arts and Sciences and AA-T and AS-T degrees.

Reency of Coursework Limitation:

Academic departments may require that courses for the major be completed within a specified period of time prior to the granting of the Associate Degree, Certificate of Achievement, or Certificate of Performance. Students with questions about the applicability of previous coursework are advised to consult the Department as early as possible.

Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T) for California State University (CSU)

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Each AA-T or AS-T is accepted by some but not all CSU campuses. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree in that major. Please see a counselor and www.cccco.edu/1440 for more information.

Students intending to transfer to a CSU should consult a counselor and visit www.assist.org for guidance on appropriate transfer coursework.

AA-T/AS-T Majors

- Communication Studies for Transfer (page 213)
- History for Transfer (page 334)
- Mathematics for Transfer (page 365)
- Physics for Transfer (page 394)
- Political Science for Transfer (page 420)
- Psychology for Transfer (page 143)
- Theatre Arts for Transfer (page 455)

Degree Requirements

The following is required for all AA-T or AS-T degrees:

1. Completion of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some CSU campuses and majors may require a higher GPA. Please see a counselor for more information.

3. Completion of a minimum of 18 semester units in an “AA-T” or “AS-T” major (see list above). All courses in the major must be completed with a grade of C or better.

4. Certified completion of the California State University General Education-Breadth pattern (CSU GE; see page 109 for more information); OR the Intersegmental General Education Transfer Curriculum pattern (IGETC; see page 102 for more information).

Associate in Arts and Associate in Science Degree Requirements

Minimum 60 Units Required
All degrees require a minimum of 60 degree applicable semester units. See course descriptions.

Grade Point Average (GPA) and Minimum Grade Requirements
- Effective 2009-2010 catalog year (and each year thereafter), students must earn a grade of “C” or better in courses required for the major.
- A grade point average of at least 2.0 (a “C” average) is required in the curriculum upon which the degree is based.

District Competencies
District competencies in reading, written expression, and mathematics (See City College Catalog page 80).

Select One of the Following Four General Education Options:
- **Option 1**–San Diego Community College District General Education AND District Requirements. (See City College Catalog page 80).
- **Option 2**–CSU General Education Breadth (CSU GE Pattern). (See City College Catalog page 109)
- **Option 3**–Intersegmental General Education Transfer Curriculum (IGETC) pattern. (See City College Catalog page 101)
- **Option 4**–San Diego Community College District General Education Requirements. (See City College Catalog page 84). Students selecting this option should meet with a counselor to determine the appropriate General Education courses for their individual transfer goals. **NOTE:** Option 4 is only available for the following City College Liberal Arts and Sciences degrees designed for transfer students. Available emphases include:
  - Visual and Performing Arts
  - Language Arts and Humanities
  - Scientific Studies:  
    - Biological Science Specialization
    - Mathematics and Pre-Engineering Specialization
    - Physical and Earth Sciences Specialization
• Elementary (Multiple Subject) Teaching Preparation
• Social and Behavioral Sciences

Students should plan programs with long range goals in mind. Students who plan to transfer to a four-year institution should review the Transfer Requirements section of this catalog.

**District Requirements (Option 1)**

( ) Colleges in parenthesis indicate where the course is approved for District Requirements.
  C—City College
  M—Mesa College
  MMR—Miramar College

^ Courses with carets fulfill District multicultural studies graduation requirement.

The following information is effective for students graduating under the 2009-2010 catalog year or each term thereafter and is subject to change. Please contact the Counseling Department for updates.

1. **Competence in Reading and Written Expression**

   Complete one course with a grade of “C” or better from General Education Requirements Area A.1 Language and Rationality, English Composition.

   **Note:** The course selected to meet this requirement may also be used to meet the general education requirement for English Composition.

2. **Competence in Mathematics**

   Competence is demonstrated by:
   a. SDCCD Assessment skill level M45 or higher
   OR
   b. Completing one of the following courses with a grade of “C” or better:
      - MATH 84* Practical Geometry (M)
      - MATH 85* Practical Career Mathematics (C,M)
      - MATH 92** Applied Beginning and Intermediate Algebra (M)
      - MATH 96 Intermediate Algebra and Geometry (C,M,MMR)
      - MATH 98* Technical Intermediate Algebra and Geometry (C)
      OR
   c. Completing, with a grade of “C” or better, any other course for which one of the above listed courses is a prerequisite or any math course with a number higher than 100.

   * These courses cannot be used to meet the prerequisite for any transfer-level mathematics course.

   ** This course may only be used to meet the prerequisite for MATH 119; it cannot be used to meet the prerequisite for any other transfer-level mathematics course.

   **Note:** The course selected to meet these requirements may also be used to meet the general education requirement for Communications and Analytical Thinking.

3. **American Institutions/California Government**

   Students are required to complete the United States History, Constitution and American Ideals before being awarded an associate degree. This requirement may be fulfilled by completing any combination of two classes that, when combined, fulfill areas: US-1, US-2, and US-3. A course may be used to fulfill more than one area.

   **A check mark [✓] indicates course has been approved to meet the requirement for the area.**

**NOTES:**

- Three units of coursework used to fulfill the American Institutions/California Government requirement may also be used to fulfill a general education requirement. However, if a six-unit sequence or combination is selected to fulfill the American Institutions requirement, only three (3) units may be used for general education credit.
- Courses designated with a carat (^) may also be used to fulfill the District Multicultural studies requirement.
- Completion of the Advanced Placement examination in U.S. History with a score of 3 or higher will satisfy the requirement for the CSU American Institutions Area US-1 only.
- Completion of the Advanced Placement examination in U.S. Government & Politics with a score of 3 or higher will satisfy the requirement for Area US-2.
- Students who have completed the American Institutions requirement except for the California government portion must complete one course approved in Area US-3.

#### Health Education

This requirement is met by completing Health Education 101: Health and Lifestyle, three units.

**Note:** This requirement is waived for students who earn degrees in Nursing Education and Physical Therapist Assistant. U.S. Veterans and active duty U.S. military personnel may be granted two units of college credit to fulfill the Health Education Requirement if service has been continuous for at least six months. Copies of form DD-214 or DD-295 or Joint Services Transcript (JST) or CCAF Transcript covering all periods of military service must be on file in the Records Office.

#### Physical Education

Students must complete two activity courses. Physical Education courses numbered below 240 are acceptable, except for Physical Education 150. Dance courses are also
acceptable, except for DANC 127, 181, 183 and 253. Administration of Justice 147, 148, 323, 381 and 382 are also acceptable. Fire Protection Technology 100D 150A, 160, 360, 380W, 381F are also acceptable. Students with physical conditions which prevent participation in regular physical education activity classes must file a physician's statement with the College Evaluations Office. Adapted Physical Education classes are available. A Physician's medical release form is required.

Note: U.S. Veterans and active duty U.S. military personnel may be granted two units of college credit to fulfill the Physical Education requirement if service has been continuous for at least six months. Copies of form DD-214 or DD-295 or Joint Services Transcript (JST) or CCAF Transcript covering all periods of military service must be on file in the Records Office.

6. Multicultural Studies

Students may satisfy the District multicultural studies graduation requirement by satisfactorily completing a course related to the culture of one or more of the ethnic groups which are represented in American society. The course shall include a focus on the role of men and women in the origin, development, and current status of these cultures.

Note: Each student seeking the Associate Degree must complete a three-unit multicultural studies course selected from the general education courses marked with a ^ indicating that it meets the Multicultural Requirement. The three units may be applied to the 18 units required in general education.

This requirement is met by completing one of the following courses (these courses are also on the District General Education list).

^ ADJU 106 Diversity and Community Relations (MMR)
^ AMSL 150 Introduction to Deaf Culture (M)
^ ANTH 103 Introduction to Cultural Anthropology (C,M,MMR)
^ ANTH 200 Introduction to North American Indians (M)
^ ANTH 210 Introduction to California Indians (C,M)
^ ARTF 113 Arts of Africa, Oceania, and the Americas (M,MMR)
^ ARTF 115 African Art (C,M)
^ ARTF 120 Native American Art (M)
^ BLAS 104 Black Psychology (C,M)
^ BLAS 110 African American Art (C,M)
^ BLAS 111 Cultural Influences on African Art (M)
^ BLAS 115 Sociology from a Black Perspective (C)
^ BLAS 116 Contemporary Social Problems from a Black Perspective (C,M)
^ BLAS 120 Black Music (C,M)

^ HIST 115B History of the Americas II (C,M)
^ HIST 120 Introduction to Asian Civilizations (C,M,MMR)
^ HIST 121 Asian Civilizations in Modern Times (C,M,MMR)
^ HIST 123 U.S. History from the Asian Pacific American Perspective (C,M)
^ HIST 130 The Modern Middle East (M)
Academic Requirements

General Education Outcomes Defined

General Education courses should contribute to the broad education of career technical and transfer students in the areas of critical thinking, writing, and oral communication skills, understanding of and the ability to use quantitative analysis, and awareness of the arts and humanities; and of the physical, social and behavioral sciences as they affect one's interaction with the diverse local and global communities. General Education Requirements Title 5: Section 55806:

a. Natural Sciences. Courses in the natural sciences are those that examine the physical universe, its life forms, and its natural phenomena. To satisfy the General Education Requirement in natural sciences, a course shall be designed to help the student develop an appreciation and understanding of the scientific method, and encourage an understanding of the relationships between science and other human activities. This category would include introductory or integrative courses in astronomy, biology, chemistry, general physical science, geology, meteorology, oceanography, physical geography, physical anthropology, physics and other scientific disciplines.

Students who complete natural sciences general education courses will be able to:

• demonstrate an understanding and appreciation of the scientific method
• express an understanding of the relationships between science and other human activities
• examine the natural physical world and its life forms in a variety of courses
• utilize critical thinking skills in a variety of scientific applications

b. Social and Behavioral Sciences. Courses in the social and behavioral sciences are those which focus on people as members of society. To satisfy the general education requirement in social and behavioral sciences, a course shall be designed to develop an awareness of the method of inquiry used by the social and behavioral sciences. It shall be designed to stimulate critical thinking about the ways people act and have acted in response to their societies and should promote appreciation of how societies and social subgroups operate. This category would include introductory or integrative survey courses in cultural anthropology, cultural geography, economics, history, political science, psychology, sociology and related disciplines.

Students who complete social and behavioral sciences general education courses will be able to:

• express understanding of how people act and have acted in response to their societies and the natural environment
• articulate how societies and social subgroups operate in specific historical and contemporary contexts
• use methods of inquiry and measurement appropriate to the particular discipline being studied

c. Humanities. Courses in the humanities are those which study the cultural activities and artistic expressions of human beings. To satisfy the general education requirement in the humanities, a course shall be designed to help the student develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves, help the student
develop aesthetic understanding and an ability to make value judgments. Such courses could include introductory or integrative courses in the arts, foreign languages, literature, philosophy, and religion.

Students who complete humanities general education courses will be able to:

- express understanding and appreciation of varieties of cultural and artistic expression
- articulate an understanding of the complex relationships between the arts and their cultural, historical, and economic contexts
- evaluate the various elements of artistic works

**d. Language and Rationality.** Courses in language and rationality are those which develop for the student the principles and applications of language toward logical thought, clear and precise expression and critical evaluation of communication in whatever symbol system the student uses.

1. **English Composition.** Courses fulfilling the written composition requirement shall be designed to include both expository and argumentative writing.

2. **Communication and Analytical Thinking.** Courses fulfilling the communication and analytical thinking requirement include oral communication, mathematics, logic, statistics, computer languages and programming, and related disciplines.

Students who complete language and rationality general education courses will be able to:

- demonstrate an understanding of the principles of clear and coherent communication
- use verbal and non-verbal languages in a clear and precise manner
- develop logical and rational thinking skills while analyzing and communicating processes
- evaluate different quantitative and qualitative symbol expressions and systems

Ethnic Studies will be offered in at least one of the required areas.

**General Education Requirements (Option 4)**

(C) Colleges in parenthesis indicate where the course is approved for General Education Requirements.

- C—City College
- M—Mesa College
- MMR—Miramar College

^ Courses with carets fulfill District multicultural studies graduation requirement.

* Courses with asterisks may satisfy more than one area and/or general education requirement but may not be counted more than once for this.

Only one course in a student's major discipline may be used to meet the San Diego Community College District General Education Requirements. Liberal Arts and Sciences, and AA-T and AS-T degrees allow for double counting of courses in the major discipline.

The following information is based on 2013-2014 course offerings and is subject to change. Please contact the Counseling Department for updates.

The State of California requires the completion of a minimum of 18 units of general education with at least a 2.0 grade point average. One course must be selected from each of the following areas: English Composition; Communication/Analytical Thinking; the Sciences (Life or Physical, not both); Humanities; Social Sciences; and a sixth course chosen from any area.

**A. Language and Rationality**

A minimum of three semester units, or four quarter units, must be completed. Choose one course from the following:

1. **English Composition**

   ENGL 101 Reading and Composition (C,M,MMR)
   ENGL 105 Composition and Literature (C,M,MMR)
   ENGL 205 Critical Thinking and Intermediate Composition (C,M,MMR)
A minimum of three semester units, or four quarter units, must be completed. Choose one course from the following:

### 2. Communication and Analytical Thinking

**Certificate of Achievement**

Programs in which a Certificate of Achievement may be awarded are described in the Degree Curricula and Certificate Programs section of this catalog. Certificate programs are designed for students with specific personal or occupational goals. To qualify for the Certificate of Achievement, students must satisfy the following requirements:

1. meet all standards for admission to the desired certificate program;
2. earn a grade of “C” or higher in each course;
3. complete a minimum of three courses in residence;
4. and a minimum of six semester units of the required courses for the major must be completed at City, Mesa or Miramar College.

**Certificate of Performance**

Programs in which a Certificate of Performance may be awarded are described in the Degree Curricula and Certificate Programs section of this catalog. A Certificate of Performance recognizes the attainment of knowledge and/or skill through the successful completion of two or more courses as specified by a department. Certificates of Performance are designed to prepare students for employment, job enhancement and/or job advancement. To qualify for the Certificate of Performance, students must satisfy the following requirements:

1. Achieve a grade of “C” or better in each of the required courses.
2. Complete all required course work in the San Diego Community College District.
3. Course substitutions or course equivalencies from other colleges may not be used to satisfy Certificate of Performance requirements.

For additional information, contact the campus Evaluations Office or subject-area department.
Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. The purpose of a C-ID designation is to identify comparable courses within the California community college system and participating four-year institutions. When a C-ID number is listed in the catalog in association with a course, students can be assured that it will be accepted in lieu of a course bearing the same C-ID designation at another California community college. Many universities, including the University of California (UC) do not participate in the C-ID system. Therefore, students should always reference www.assist.org to confirm how each community college's course will be accepted at a specific four-year college or university for transfer credit.

Graduation

Petition for Graduation

Students who expect to receive an Associate Degree or a Certificate of Achievement should file a Petition for Graduation. The Petition may be completed online at: https://studentweb.sdccd.edu, or obtained in the Counseling Office. See Academic Calendar section for important filing dates.

Official college transcripts from all colleges attended must be on file before submitting the petition for Associate Degree or Certificate of Achievement.

An evaluation is a summary of college work completed and of requirements to be completed for the associate degree or the certificate of achievement. Only evaluations completed by one of the Evaluators are official.

A petition for an associate degree evaluation should be submitted one year before the student plans to graduate.

Students who are working toward a certificate of achievement should file the Petition for Graduation prior to the beginning of the semester in which they plan to complete the requirements of their certificate program.

Students who have petitioned for graduation should notify the evaluator immediately of any name or address change.

Catalog Rights

Students who maintain continuous enrollment may choose to graduate under the (City College, Mesa College, and Miramar College) catalog in effect at the time they began their studies in a California Community College, California State University, or University of California campus, or under the catalog in effect at the time of graduation.

Certification of a student’s completion of CSU general education requirements or the Intersegmental General Education Transfer Curriculum (IGETC) is not a graduation requirement. Therefore, students do not have catalog rights to a certification pattern used by a certifying institution or a CSU or UC campus.

Continuous Enrollment

Continuous enrollment is defined as attendance in one semester or two quarters within a calendar year in either the CSU, UC, or California Community College System.

Awarding of Degrees or Certificates

Associate Degrees/Certificates of Achievement will be awarded at the end of the semester in which the requirements are completed.

The graduation ceremony is held once a year. Candidates for Fall, Spring and Summer graduation may participate in the ceremony which is held at the end of the Spring semester.

Diplomas

Diplomas are issued only after completion of all graduation requirements has been verified. Diplomas will be issued in the name and to the address of record at the time the diploma is awarded. For information on obtaining your diploma or certificate of achievement, or a duplicate copy, please contact the Evaluations Office on campus.

Graduation with Distinction

Graduation with honors distinction will be based upon all coursework that is associate degree and lower division baccalaureate degree applicable.
Graduation with Honors is granted to students who achieve an overall 3.5 GPA, High Honors is granted to students who achieve an overall 3.75 GPA, and Highest Honors is granted to students who achieve an overall 4.0 GPA for coursework for the degree or certificate.

Students will be notified that this distinction is pending at the time of the graduation ceremony, when the GPA will be calculated based upon degree or certificate applicable coursework completed for the degree or certificate through the Fall semester of the year of the ceremony. The final distinction will be determined upon completion of all coursework completed through the Fall semester for fall graduates, the Spring semester for spring graduates or the summer term for summer graduates.

**Additional College Degree**

A student having received an associate or baccalaureate degree may qualify for an additional Associate in Arts or Associate in Science degree in a new major or concentration.

An additional degree:

1. Permits upgrading or preparation for upgrading current employment.
2. Prepares for employment in an area different from that provided by previous training.
3. Provides general knowledge leading to fulfillment of personal goals.

The following requirements are applicable:

1. The degree to be earned must represent a change in major or concentration from the degree or degrees previously earned.
2. A student must earn a minimum of 18 required semester units in the new major or concentration beyond the minimum 60 units required for the Associate Degree, bringing the total units required for the second degree to a minimum of 78 units, a minimum of 96 units for the third degree, and so on. Twelve (12) semester units of the new major or concentration must be completed in residence at City, Mesa and/or Miramar.
3. A student must fulfill current catalog associate degree requirements.
4. In order to receive an additional college degree, the student must file a Petition for Graduation in the Evaluations Office. The evaluator will review all previous college work to determine the student’s eligibility for a second degree.

University Transfer

What is Transfer?
Transfer is the process of continuing your education at a baccalaureate-degree granting college or university, usually after completing your major preparation and general education at a community college. If planned correctly, the courses that you pass at community college will count towards requirements for your Bachelor degree just as if they had been taken at the four-year institution. Websites such as www.californiacolleges.edu, www.universityofcalifornia.edu and www.csumentor.edu provide transfer planners and additional resources to provide you with pertinent information. City College students transfer to a wide variety of universities within California and throughout the world. There are four basic areas that students will focus on prior to transfer:

- General Education
- Preparation for Major
- Minimum Required Transferable Units (usually 60 semester units for public universities)
- Minimum Required GPA (usually 2.0 or higher)

Specific requirements vary depending on the college/university and major

Transfer Services
Students are advised to plan transfer programs as early as possible and enroll in transferable courses in both general education and in courses that prepare for the specific university major. Questions related to transfer programs should be discussed with counselors or the Transfer/Career Center staff. Students interested in transfer should meet a counselor in the Counseling Department, room A-110 to develop a Transfer Educational Plan which will identify the courses needed to transfer. The Transfer/Career Center is located Room A-111. For information, call 619-388-3722.

The College Transfer Center is designed to help you during each step of your transfer experience to ensure a smooth and positive transition. A variety of resources are available, including:

- Academic/Career Counseling
- Guidance in researching and selecting a transfer institution
- Individual appointments with representatives from UC, CSU, and independent colleges and universities
- Transfer Workshops
- Transfer Admissions Agreements and Guarantees with selected universities
- A library of catalogs & college publications
- Information on important dates and deadlines
- Computer software for college research
- Transfer Fairs
- Field Trips

For additional information regarding specific services, contact the San Diego City College Transfer/Career Center in Room A-111 at 619-388-3722 or the Counseling Department in Room A-110 at 619-388-3540, or visit: www.sdcity.edu/transfer.

Steps to Transfer

STEP 1: Career Exploration

Career Objective: Your career objective will determine the type of degree you need and your choices for selecting a major. See a counselor for more assistance.

STEP 2: Choosing Your University Major

A major is a field of study that you emphasize in your college education. It is what you “specialize” in with your degree. It’s important to remember that your major is what you will study at the university you transfer to. At City College, you can prepare to transfer into virtually any major at any university—there are literally thousands to choose from. To narrow down the options, students often begin to select their major by one of the following techniques:

- If you have an idea of the career field you want to enter, you can find majors that are related to, or prepare for, that career field. Majors and career fields are not always “perfectly matched.” However, knowing your intended career field can help narrow your options. You can visit the Counseling Office or Transfer/Career Center for assistance in researching career fields.
If you know what university you want to attend, you can select from the list of majors at that university. Lists of majors at California public universities are available at www.assist.org (click on “Explore Majors”).

If you think you might be interested in a particular major but are not sure, try taking a general education class in the major and see how you like it. Students often select their major based simply on the courses that are the most interesting to them.

For descriptions of the 75 most popular majors, visit: www.petersons.com/majordecision/

STEP 3: Choosing Your Transfer University

Each university may have different transfer requirements, so choosing a transfer university is important to ensure you complete the right courses. Universities in the United States are organized into different systems and categories. Choosing a transfer university is also important because:

• The majors offered at each university are different.

• Each university has unique features, including factors like its student body, its location, and its extracurricular activities.

• You are more likely to do well academically in a university environment that you enjoy.

The most common universities that City students transfer to include:

University of California (UC)

Combines undergraduate education (leading to a Bachelor’s degree) with emphasis on graduate program (Master and Doctorate degrees) and research. Relatively inexpensive for California residents. UC San Diego (UCSD) is one of the 10 universities in the University of California system. See universityofcalifornia.edu for details.

UC Minimum Admission Requirements

Transfer students will be eligible for admission if they meet the following requirements:

1. Complete a minimum of 60 UC-transferable semester units or 90 transferable quarter units.

2. Obtain a minimum 2.4 GPA (2.8 for California non-residents). The GPA for admission can be significantly higher due to the applicant pool.

3. Complete two UC-transferable college courses in English composition (3 semester or 4-5 quarter units each) and one transferable college course in mathematical concepts and quantitative reasoning (3 semester or 4-5 quarter units).

4. Complete four UC-transferable college courses chosen from at least two of the following subject areas: arts and humanities, social and behavioral sciences, physical and biological sciences.

The UC gives high priority to students who complete major preparation coursework early in their academic career.

Students who complete the Intersegmental General Education Transfer Curriculum (IGETC) pattern prior to transferring to the UC system will meet the transfer eligibility coursework requirement listed above (for details on IGETC, see appropriate section of this guide for details). Students are strongly recommended to meet with a counselor to discuss additional requirements for competitive admissions based on major and campus choice.

UC Transfer and Physical Education Activity Courses

The University of California grants a maximum of four semester units of credit for appropriate Physical Education activity courses. Courses that are subject to this limit are listed as such on the college’s UC Transfer Agreement, available on web ASSIST at www.assist.org under the UC Transferable Courses link. Physical Education Theory courses or courses that do not fit either the Theory or Activity category are not included in the four semester credit limit.

UC Transfer and Variable Topics Courses

These courses are also called “Independent Studies”, “Special Studies”, “Special Topics”, “Internships”, “Field Work”, etc. Credit for variable topics courses is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. UC does not grant credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice (Criminology) or Library Departments because of credit restrictions in these areas.

California State University (CSU)

Emphasizes undergraduate education (leading to a Bachelor’s degree) but also offers Master degrees. Professors spend more time in the classroom and
less time on research than those in the University of California system. Emphasizes preparation for specific careers. Relatively inexpensive for California residents. San Diego State University (SDSU) and CSU San Marcos are two local universities in the 23-campus California State University system. See www.csumentor.edu for details.

CSU Minimum Admission Requirements
Transfer students will be eligible for admission if they meet the following requirements:

1. Complete a minimum of 60 CSU-transferable semester units or 90 transferable quarter units.
2. Obtain a minimum 2.0 GPA (2.4 for California non-residents). Impacted majors may have higher GPA Requirements.
3. Complete “The Golden Four” (Oral Communications, Written Communication, Critical Thinking, and Mathematics/Quantitative Reasoning) with a grade of “C” or better. Pass/No-Pass grades are not recommended in these areas.

Students are urged to complete a General Education pattern such as CSU GE or IGETC (see appropriate section of this guide for details).

Students are strongly recommended to meet with a counselor to discuss additional requirements for competitive admissions based on major and campus choice.

Associate Degrees for Transfer are another option to transfer to the CSU system. See your counselor or Transfer/Career Center for details.

Private Colleges and Universities
Colleges and universities that are not funded by public taxes, sometimes also called “independent.” Each university is unique with its own programs, majors, and degrees. Some offer academic programs grounded in a specific religion or philosophy. Others offer programs in only one discipline, such as the arts or technical degrees. Others specialize in providing continuing education to working adults. Usually smaller and more focused in academic emphasis than public universities.

Historically Black Colleges and Universities (HBCU’s)
Usually have a majority African-American student body, although students of all races attend them. May be private or out-of-state public schools. Most are located in the southern United States. See www.hbcumentor.org for details.

Hispanic Serving Institutions
The Hispanic Association of Colleges and Universities (HACU) is a national educational association that represents colleges and universities committed to Hispanic Higher education success in the United States (including Puerto Rico), Latin America, and Spain. HACU has 193 member Hispanic-Serving Institutions (HSIs) located in 11 U.S. states and Puerto Rico. To be considered a Hispanic-Serving Institution, the Hispanic enrollment at a college or university must be at least 25 percent of the total student enrollment. California is home to 54 Hispanic Serving Institutions. See www.hacu.net for details.

Tribal Colleges and Universities
There are 35 federally recognized Tribal Colleges and Universities in the United States. Located mainly in the Midwest and Southwest, Tribal Colleges and Universities service approximately 30,000 full- and part-time students. They offer two-year associate degrees in over 200 disciplines with some providing a bachelor’s and master’s degree. They also offer 200 vocational certificate programs. See www.aihec.org for details.

Out-of-State Colleges and Universities
Colleges and universities that are not in California. May be public or private. Useful websites:
- www.wiche.edu
- www.regionaladmissions.com
- www.collegesource.org

STEP 4: Application
Major Preparation
Some majors require specific lower-division courses to be admitted to a major upon transfer. For public universities in California, visit www.assist.org for this articulation information. Articulation is the process whereby a course (or set of courses) offered at one institution is accepted as equivalent to or in lieu of a comparable course (or set of courses) at another institution. For current City College articulation agreements with private/independent universities, visit the Transfer Center website at www.sdcity.edu/transfer.
General Education Requirements:
General Education requirements are courses required of everyone regardless of major. Each university has different general education patterns. City students can choose from the following:

a. Complete specific general education requirements for an individual university, or

b. Complete the approved Intersegmental General Education Transfer Curriculum (IGETC) pattern of courses acceptable at all campuses of the CSU, most campuses of the UC, and some private institutions, or

c. Complete the approved CSU GE Breath pattern of lower-division courses acceptable at all campuses of the CSU system.

It is strongly advised that you work closely with a counselor before making a decision. For a list of transfer GE options for the IGETC coursework patterns see page 102.

General Education Certification
General Education Certification is a legal agreement between the UC or CSU systems and the California Community Colleges that permits a student to transfer from a community college to a UC or CSU campus without the need to complete additional lower division general education courses to satisfy university GE requirements after transfer. City College will provide an IGETC or CSU GE certification to one university campus when specifically requested by the student. This certification may include courses taken from other colleges, or credit earned through other means, such as Advanced Placement (AP) test credit. Students do not have “catalog rights” to a certification pattern. Additional information on certification rules that are specific to the IGETC and CSU GE patterns are discussed later in those sections.

Students who transfer without certification may have to meet additional GE requirements at the university. This often means taking additional courses after transfer.

Completion of the IGETC or CSU GE pattern also fulfills the requirements for a Certificate of Achievement in General Education (see “General Education” on page 316). Students who complete one of these patterns and additional transfer coursework may also qualify to complete the City College associate degree in Liberal Arts & Sciences (see page 340). The following Areas of Emphasis or Specialization are available:

- Area of Emphasis in Visual and Performing Arts
- Area of Emphasis in Language Arts and Humanities
- Area of Emphasis in Scientific Studies:
  - Biological Science Specialization
  - Mathematics and Pre-Engineering Specialization
  - Physical and Earth Sciences Specialization
- Area of Emphasis in Elementary (Multiple Subject) Teaching Preparation
- Area of Emphasis in Social and Behavioral Sciences

Electives
Electives are additional courses taken to meet the number of required units or to meet additional lower-division graduation requirements. Make sure the courses you select are transferable courses by referring to the course descriptions in this catalog.

Other Transfer General Education Options
Some transfer students are best served by following a general education pattern other than the IGETC or CSU GE patterns. These typically include students who fall into one of the following three categories:

1. Students entering high unit majors such as an engineering or science discipline. Major preparation for the engineering and science fields typically consists of a high number of units. Most universities prefer (and some require) that these preparation for major courses be completed prior to transfer. Therefore, it may be more beneficial for students entering these majors to complete relatively fewer GE courses and more major preparation courses at the community college, while still meeting the minimum admission requirements of the university. Students should review the catalog or other published advising materials of the university and major to which they intend to transfer and then consult a City counselor for assistance in selecting appropriate courses.

2. Students transferring to a private/independent or out-of-state university. Some private/independent and out-of-state universities accept IGETC or CSU GE, but most do not. Instead, each university has its own unique GE pattern. City College has established articulation agreements with many of these
institutions. These agreements specify the courses students can complete at City to fulfill the university’s GE requirements. They are available at [www.sdcity.edu/transfer/articulation](http://www.sdcity.edu/transfer/articulation). For more information on transferring to a private/independent or out-of-state university, visit the Transfer Center (A-111) or see a counselor.

3. Students who wish to complete the general education requirements of one specific university. Some students decide to complete the GE requirements for one specific university, rather than the more universally applicable IGETC or CSU GE patterns, for several reasons:

- Some universities and/or majors do not accept IGETC and instead suggest following the university’s own GE pattern.
- Some students know that they will attend only one university (such as those with a guarantee of transfer admission) and so plan to complete the specific GE pattern for that institution only.
- Some university-specific GE patterns require fewer total units than IGETC or CSU GE.

Each university’s unique GE pattern can be found in the university catalog. In addition, some UC and CSU campuses have posted their unique general education patterns to the ASSIST website at [www.assist.org](http://www.assist.org).

### Transfer Admission Guarantee (TAG)

City College offers a number of Guaranteed Admission Programs with several schools including: UCSD and SDSU as well as National University, UC Davis, UC Irvine, UC Riverside, UC Santa Barbara, and UC Santa Cruz. Students can also participate in the UCLA Transfer Alliance Program offering priority admission to City students. Come to the Transfer Center for program requirements. Plan early as some agreements must be signed at least a year in advance of the transfer semester/quarter. Interested students are strongly urged to meet with a Counselor for program details as requirements and eligibility often change.

### STEP 5: Applying to a University

#### About applying for admission

Universities require you to apply and be admitted before you start attending school there. All students who apply must meet the minimum requirements (usually certain coursework requirements and a minimum transferable GPA). Some schools accept all transfer students who meet the minimum requirements, while others go through a selection process to determine which students will be offered admission.

#### Application dates and deadlines

Different systems have different dates and deadlines to apply. If you plan to attend a private/independent or out-of-state university, you should check with that school to find their application deadline and procedures. The following dates and deadlines apply to California public universities only:

### California State University

<table>
<thead>
<tr>
<th>Term of Transfer</th>
<th>Initial Filing Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer</td>
<td>February 1–28/29 of current year</td>
</tr>
<tr>
<td>Fall</td>
<td>October 1–November 30 of preceding year</td>
</tr>
<tr>
<td>Winter</td>
<td>June 1–30 of preceding year</td>
</tr>
<tr>
<td>Spring</td>
<td>August 1–31 of preceding year</td>
</tr>
</tbody>
</table>

### University of California

<table>
<thead>
<tr>
<th>Term of Transfer</th>
<th>Initial Filing Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester or Quarter</td>
<td>November 1–30 of preceding year</td>
</tr>
<tr>
<td>Winter Quarter</td>
<td>July 1–31 of preceding year</td>
</tr>
<tr>
<td>Spring Quarter</td>
<td>October 1–31 of preceding year</td>
</tr>
</tbody>
</table>

All campuses are open for any given Fall term. For Winter/Spring terms, students should verify that the specific campus accepts transfers for that specific term. Check [www.csumentor.edu](http://www.csumentor.edu) for CSU campuses and [www.universityofcalifornia.edu](http://www.universityofcalifornia.edu) for UC campuses.

Each campus accepts applications until the end of the filing period or until capacities are reached. If applying after the initial filing period check the campus websites to verify if the campus is still open.

#### How to apply

The UC and CSU systems strongly encourage all students to apply using the online application
process. Not only does it make it easier to read and evaluate your application, but the websites also “check your work” to make sure you are not missing any required information before you submit your final application.

The UC application is available at:
www.universityofcalifornia.edu/apply

The CSU application is available at:
www.csumentor.edu/admissionapp/undergrad_apply.asp

STEP 6: Final Steps to Transfer
Many universities require you to submit documents, take assessment exams, attend orientations, or meet other requirements before you enroll. It’s also a good idea to apply for your degree and General Education certification from City College prior to transfer. You should do as much as you can now to make the transition to your university as smooth as possible.

Petition to Graduate from City
Graduation from City College is not automatic. You must petition at the Records Office in A-109 to receive your degree or certificate. We recommend you petition to graduate even if you are only completing transfer coursework. Most transfer students are eligible to receive a General Education Certificate (see page 179) and/or an Associate degree in a transfer-related subject area (see page 70). You should petition to graduate during your second to last semester at City.

Attend Graduation
You don’t have to attend City College graduation to transfer or to receive a degree, but it’s a great way to celebrate and be publicly recognized for your achievement. You earned it! Information about the graduation ceremony is available on the City College website at http://sdcity.edu/graduation.

Find Out How to Get There
Are you using public transportation to commute to your new university? It’s a good idea to figure out your best route to the university now, before you start attending.

Submit Intent to Register and Transcripts
After offering you admission, most universities require you to send a statement of intent to register (SIR), official transcripts, a deposit, and sometimes additional materials. Review your university admission paperwork for details.

Information on ordering transcripts from the San Diego Community College District is available at www.sdccd.edu/alumni/transcripts.

Attend New Student Orientation
Most universities offer a new student orientation day, where you learn about university services and requirements, get academic advising, tour the campus, etc. Review your university admission paperwork for details.

Complete Assessment Tests
Some universities require transfer students to complete assessment tests either prior to enrollment or during their first year of attendance. Review your university admission paperwork for details.

Find Housing
Are you going to live on campus? If so, you will need to apply for campus housing. See your university admission paperwork or the university website for more information. If you are living off campus you may need to start searching for housing in the local community. Most universities have housing assistance offices to help you.

Send Your Final Transcripts
You are usually required to send your university a final official transcript after the end of your last regular semester prior to transfer. Information on ordering transcripts from the San Diego Community College District is available at: www.sdccd.edu/alumni/transcripts.

Meet Immunization Requirements
Most universities require you to provide documentation of immunizations against certain communicable diseases, like measles or rubella. Review your university admission paperwork for more information.
CSU U.S. History, Constitution, and American Ideals Certification

The California State University, before awarding a degree, requires students to complete courses or examinations that address:

1. The historical development of American institutions and ideals (Area US-1), and
2. The Constitution of the United States and the operation of representative democratic government under that Constitution (Area US-2), and
3. The process of California state and local government (Area US-3).

This requirement may be fulfilled at a California Community College prior to transfer by completing a combination of courses that satisfies all three areas of the requirement. The requirement may also be completed at a CSU campus after transfer. Courses approved in two US areas may be used to satisfy both areas.

Although this requirement is not part of the General Education requirements for CSU, all students must complete course work in U.S. History, Constitution and Government before graduation from a CSU campus. The courses may also be used to partially fulfill Area D of the CSU General Education Breadth Requirements.

A check mark [ □ ] indicates course has been approved to meet the requirement for the area.

Note: Not required for Certification.

NOTES:

- Completion of the Advanced Placement examination in U.S. History with a score of 3 or higher will satisfy the requirement for Area US-1.
- Completion of the Advanced Placement examination in U.S. Government & Politics with a score of 3 or higher will satisfy the requirement for Area US-2.
- Students who have completed this requirement except for the California government portion must complete one course approved in Area US-3.
University of California and California State University

Intersegmental General Education Transfer Curriculum (IGETC)
(Option 3)

() Colleges in parenthesis indicate where the course is approved for IGETC Requirements.
  C—City College
  M—Mesa College
  MMR—Miramar College

* Courses with asterisks are listed in more than one area but shall not be certified in more than one area.
+
Courses with pluses indicate transfer credit may be limited by either UC or CSU, or both. Please consult a counselor for additional information.

@ Courses with @ symbols indicate CSU-only requirements.

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education pattern that will fulfill all lower-division general education requirements at all California State University (CSU) campuses and most University of California (UC) campuses/majors. It is also accepted by some private/independent or out of state universities.

IGETC is usually recommended for students who intend to transfer to a UC campus, or who are not yet sure of their intended transfer university. Completion of the IGETC pattern is not an admission requirement for transfer to most UC or CSU campuses, nor is it the only way to fulfill the lower division GE requirements of a UC or CSU campus prior to transfer.

It is strongly recommended that students consult with a counselor to determine which general education pattern is most appropriate for their individual educational goals.

Rules for using the IGETC pattern:
• Each course must have been IGETC approved at the time it was taken. See www.assist.org for a list of certified courses and approval dates.
• Courses may be approved for more than one IGETC area. However, each course may be used to certify only one of the areas it is approved for.
• Students should apply for IGETC certification at the last community college attended prior to transfer. Forms are available from the Counseling or Evaluations office.
• IGETC certification requests will be processed if City, Mesa or Miramar college was not the last college of attendance. However, student must have completed at least one course within the district.
• AP credit and coursework completed at accredited U.S. colleges and universities may be used to fulfill some IGETC requirements. All such credit must be evaluated through the Evaluations office. Foreign coursework is not acceptable.
• All courses must be passed with a “C” or higher. Pass (P) grades are also acceptable. “C-” is not acceptable.
• Students transferring to UC need not complete the Oral Communication requirement (Area 1C).
• Students transferring to CSU need not complete the Languages Other than English requirement.
• Some UC campuses do not allow use of IGETC for students who were previously enrolled at a UC campus.
• Some community college courses have limitations on the amount of credit awarded by the receiving university. See a counselor, the course description in the college catalog, or www.assist.org for more information.

IGETC is not recommended for the following transfer destinations:
• UC San Diego Revelle and Eleanor Roosevelt Colleges
• UC Berkeley Colleges of Business, Chemistry, Environmental Design (Architecture), Engineering, Natural Resources, Optometry
• UC Davis College of Engineering
• UC Irvine Schools of Engineering, Biological Sciences, Physical Sciences
• UC Riverside Colleges of Engineering, Natural and Agricultural Sciences
• UC Santa Barbara Colleges of Engineering, Creative Studies
• UC Los Angeles Schools of Engineering and Applied Science, Nursing

The IGETC Pattern

Area 1—English Communication
2-3 courses, 6-9 semester/8-12 quarter units

Group A: English Composition
1 course, 3 semester/4-5 quarter units
ENGL 101 Reading and Composition (C,M,MMR)
OR
ENGL 105 Composition and Literature (C,M,MMR)

Group B: Critical Thinking - English Composition
1 course, 3 semester/4-5 quarter units
Courses must have English Composition as a prerequisite
ENGL 205 Critical Thinking and Intermediate Composition (C,M,MMR)
PHIL 205 Critical Thinking and Writing in Philosophy (C,M,MMR)

Group C: Oral Communication
1 course, 3 semester/4-5 quarter units
@ COMS 103 Oral Communication (C,M,MMR)
@ * COMS 135 Interpersonal Communication (C,M,MMR)
@ COMS 160 Argumentation (C,M,MMR)
@ COMS 170 Small Group Communication (C,M)

Area 2—Mathematical Concepts and Quantitative Reasoning
1 course, 3 semester/4-5 quarter units
Courses must have Intermediate Algebra as a prerequisite.
+ BIOL 200 Biological Statistics (C,M)
+ MATH 116 College and Matrix Algebra (C,M,MMR)
+ MATH 119 Elementary Statistics (C,M,MMR)
+ MATH 121 Basic Techniques of Applied Calculus I (C,M,MMR)
+ MATH 122 Basic Techniques of Calculus II (C,M,MMR)
+ MATH 141 Precalculus (C,M,MMR)
+ MATH 150 Calculus with Analytic Geometry I (C,M,MMR)
+ MATH 151 Calculus with Analytic Geometry II (C,M,MMR)
+ MATH 245 Discrete Mathematics (C,M,MMR)
+ MATH 252 Calculus with Analytic Geometry III (C,M,MMR)
+ MATH 254 Introduction to Linear Algebra (C,M,MMR)
+ MATH 255 Differential Equations (C,M,MMR)
+ PSYC 258 Behavioral Science Statistics (C,M,MMR)

Area 3—Arts and Humanities
3 courses, 9 semester/12-15 quarter units
At least one course from the Arts and one from the Humanities.

3A: Arts Courses
ARTF 100 Art Orientation (C,M,MMR)
ARTF 107 Contemporary Art (M,MMR)
ARTF 109 History of Modern Art (C,M,MMR)
ARTF 110 Art History: Prehistoric to Gothic (C,M,MMR)
ARTF 111 Art History: Renaissance to Modern (C,M,MMR)
+ ARTF 113 Arts of Africa, Oceania, and the Americas (M,MMR)
+ ARTF 115 African Art (C,M)
+ ARTF 120 Native American Art (M)
ARTF 125 Art History: Arts of the Asian Continent (M,MMR)
ARTF 130 Pre-Columbian Art (M)
* ARTF 191 Cultural Influences on Photography (M)
ARTF 194 Critical Photography (M)
ARTG 118 Graphic Design History (C,MMR)
BLAS 110 African American Art (C,M)
+ BLAS 111 Cultural Influences on African Art (M)
BLAS 120 Black Music (C,M)
CHIC 230 Chicano Art (M)

Area 5—Physical and Biological Sciences  
At least 2 courses required, 7-9 semester/9-12  
quarter units.  
One Physical Science course and one Biological  
Science course; at least one must include a  
laboratory.  
• One course in 5A (underlined courses include a  
  lab component)  
• One course in 5B (underlined courses include a  
  lab component)  
• One of the courses selected to fulfill the  
  requirement for 5A or 5B must include a  
  laboratory component or a separate course  
  must be taken from 5C. If a separate laboratory  
  course is taken from 5C, it must match one of  
  the two lecture courses taken from 5A or 5B.

2. Completion of a course or courses at a college or university, with a grade of “C” or better in each course. Usually, one semester of college work in a language other than English is equivalent to two years of high school work.

Any one of the following course or courses completed with a grade of “C” or better, will fulfill the requirement.

Area 6—Languages other than English

UC Requirement Only. In order to complete IGETC for the University of California system, students are required to demonstrate competence/proficiency in a language other than English equal to two years of high school study. Competence may be demonstrated through the following mechanisms:

1. Completion of two years of the same foreign language of high school level work with grades of “C” or better.
3. Achieve a satisfactory score on the SAT Subject Test in languages other than English, as listed below. If the test was taken before May 1995, the first score is the minimum; if the test was taken after May 1995, the second score is the minimum:
   - Chinese With Listening: not offered before 1995/520
   - French/French With Listening: 500/540
   - German/German With Listening: 500/510
   - Hebrew (Modern): 500/470
   - Italian: 500/520
   - Japanese With Listening: 500/510
   - Korean/Korean With Listening: not offered before 1995/500
   - Latin: 500/530
   - Spanish/Spanish With Listening: 500/520
4. Achieve a score of 3, 4 or 5 on a College Board Advanced Placement (AP) Examination in a language other than English.
5. Achieve a score of 5 or higher on an International Baccalaureate (IB) Higher Level Examination in a language other than English.
6. Satisfactorily complete a proficiency test administered by a community college, university or other college in a language other than English. The test must assess the student proficiency at a level equivalent to at least two years of high school language. The San Diego Community College District does not administer this test.
7. Complete, with grades of “C” or better, two years of formal schooling at the sixth-grade level or higher in an institution where the language of instruction is not English. If secondary school was completed in a non-English-speaking country and the language of instruction of the secondary school was not English, language other than English proficiency can be certified for IGETC without further evaluation. The student must present appropriate documentation of attendance at the secondary school.
8. Earn a passing grade on the international A level or O level exam in a language other than English.
9. If an appropriate achievement test is not available to assert proficiency, have competency verified by a faculty member associated with a California community college. Such verification requires that the college provide a document on letterhead asserting that the student’s proficiency in the language is equivalent to two years of high school study. See a counselor for more information. Only students who have no other means to verify foreign language proficiency may pursue this option. Students must petition for faculty member verification through the Evaluations Office.

Completion of courses above proficiency level, with grades of “C” or better, may also be used to meet the requirement. Special Topics and Civilization courses DO NOT meet this requirement. See a Counselor.

California State University General Education Breadth (CSU GE)

The California State University General Education-Breadth (CSU GE) pattern is one option that allows California community college transfer students to fulfill the lower-division general education requirements of any California State University (CSU) campus. The curriculum consists of a 39-unit pattern with five areas of concentration.

For assistance in determining the most appropriate general education program, consult a counselor.

Certification of CSU GE Requirements

Official notification from a California community college that a transfer student has completed courses fulfilling lower-division general education requirements occurs through a process of “certification”. Certification is a legal agreement between the CSU and California Community Colleges.

It is the policy of the San Diego Community College District to provide certification of general education breadth requirements when such service
is requested by the student. Certification of general education courses is generally requested when the CSU GE pattern has been completed.

**Additional CSU GE Information and Restrictions**

- Completion of the CSU GE pattern is not an admission requirement nor does completion guarantee admission to any CSU campus or program.
- Certification is based on approved courses listed in the CSU GE pattern that are completed in the San Diego Community College District or from other regionally accredited institutions.
- Courses completed at a foreign college or university cannot be used to satisfy requirements for certification.
- Catalog rights do not apply to the CSU GE pattern.
- Prior to certification, students must complete a minimum of 3 units of general education within the CSU GE pattern or 12 units in residence at the San Diego Community College District.
- Official transcripts from all colleges and universities attended must be on file before submitting an application for certification. The application is available in the Evaluations Office and/or Counseling Office.
- The CSU GE pattern is accepted by some California private and independent colleges and universities in satisfying lower division general education requirements. *For additional information, consult a counselor.*

**The CSU GE Pattern (Option 2)**

The following information is based on the 2013-2014 agreement and is distributed as follows:

- Colleges in parenthesis indicate where the course is approved for CSU GE Requirements.
  
  - C—City College
  - M—Mesa College
  - MMR—Miramar College

- Courses with asterisks are listed in more than one area but shall not be certified in more than one area.

- Courses with the number sign are listed more than once in the same area, but will only be used for certification once.

**Please note:** Courses required in Oral Communication (Area A1), Written Communication (Area A2), Critical Thinking (Area A3), and Mathematics and Quantitative Reasoning (Area B4) must be completed with grades of “C” or better for admission to most CSU campuses. *For additional information, consult a counselor.*

**Area A. English Language Communication and Critical Thinking:**

No fewer than nine semester units (12-15 quarter units) including one course in A1, one course in A2, and one course in A3.

**A1: Oral Communication**

*For additional information, consult a counselor.*
Area B. Scientific Inquiry and Quantitative Reasoning:

No fewer than nine semester units (12-15 quarter units) Including:

- One course in B1 (underlined courses include a lab component)
- One course in B2 (underlined courses include a lab component)
- One of the courses selected to fulfill the requirement for B1 or B2 must include a laboratory component or a separate course must be taken from B3. If a separate laboratory course is taken from B3, it must match one of the two lecture courses taken from B1 or B2.
- One course in B4

Note: Students who have completed at least 6 months of continuous active US military service have satisfied Area E. DD214 or military transcript must be on file.

Other Transfer General Education Options

Some transfer students are best served by following a general education pattern other than the IGETC or CSU GE patterns. These typically include students who fall into one of the following three categories:

1. Students entering high unit majors such as an engineering or science discipline. Major preparation for the engineering and science fields typically consists of a high number of units. Most universities prefer (and some require) that these preparation for major courses be completed prior to transfer. Therefore, it may be more beneficial for students entering these majors to complete relatively fewer GE courses and more major preparation courses at the community college, while still meeting the minimum admission requirements of the university. Students should review the catalog or other published advising materials of the university and major to which they intend to transfer and then consult a City counselor for assistance in selecting appropriate courses.

2. Students transferring to a private/independent or out-of-state university. Some private/independent and out-of-state universities accept IGETC or CSU GE, but most do not. Instead, each university has its own unique GE pattern. City College has established articulation agreements with many of these institutions. These agreements specify the courses students can complete at City to fulfill the university’s GE requirements. They are available at www.sdcity.edu/transfer/articulation. For more information on transferring to a private/independent or out-of-state university, visit the Transfer Center (A-111) or see a counselor.

3. Students who wish to complete the general education requirements of one specific university. Some students decide to complete the GE requirements for one specific university, rather than the more universally applicable IGETC or CSU GE patterns, for several reasons:

   • Some universities and/or majors do not accept IGETC and instead suggest following the university’s own GE pattern.

   • Some students know that they will attend only one university (such as those with a guarantee of transfer admission) and so plan to complete the specific GE pattern for that institution only.

   • Some university-specific GE patterns require fewer total units than IGETC or CSU GE.

Each university’s unique GE pattern can be found in the university catalog. In addition, some UC and CSU campuses have posted their unique general education patterns to the ASSIST website at www.assist.org.
High School Courses for College Credit (Credit by Exam)

As part of an early college program called CTE Transitions (formerly known as Tech Prep), high school students may earn college credit equivalent to the courses in the table below. To receive credit, students must: 1) demonstrate acquisition of the college student learning outcomes by earning a grade of ‘B’ or better in the approved course and on the college approved examination 2) successfully complete the SDCCD online college application and CTE Transitions certification process. The high school instructor must verify grades, ensure successful completion of enrollment process and assists students with submitting requests for grades to the CTE Transitions Office. Approved requests are processed annually each July. Students may request an SDCCD transcript after July 31st. For questions and more information, contact the CTE Transitions Program at 619-388-6572.

Programs of Instruction
General Course Information

Not all courses listed will be offered each semester, and San Diego City College reserves the right to cancel any course if enrollment in such course is below a minimum number as set by the San Diego Community College District Board of Trustees. The hours indicated at the beginning of each course description, except where otherwise specified, denote the total number of clock hours the class meets each week.

Effective 2009-2010 catalog year (and each year thereafter), students must earn a grade of “C” or better in courses required for the major.

Students enrolled in occupational and health occupation programs must earn a grade of “C” or better in courses required for the major.

Only one course in a student’s major discipline may be used to meet the San Diego Community College district general education requirement.

Course Numbering System

The course numbering system has meaning with regard to level and transfer. See the description below:

- **1-49** Basic Skills or college preparatory courses. Credit does not apply toward the associate degree and is not intended for transfer to a four-year college or university. Final determination regarding the transfer of credit rests with the receiving institution.

- **50-99** Course credit applies toward the associate degree and is not intended for transfer to a four-year college or university. Final determination regarding the transfer of credit rests with the receiving institution.

- **100-299** Course credit applies toward the associate degree and is intended for transfer to a four-year college or university. (Some courses may be identified as associate degree applicable only. See catalog course description.) Final determination regarding the transfer of credit rests with the receiving institution.

- **300-391** Apprenticeship and in-service courses. See Catalog course description to determine credit for Associate Degree or Transfer.

- **392-399** Special Topics courses that employ a consistent disciplinary framework as described by a complete course outline of record, but utilize a specific focus area that may change from term to term may be offered in some disciplines. See the class schedule for specific titles and course details. (See catalog course description to determine credit for Associate Degree or Transfer.)

Prerequisites, Corequisites, Limitations on Enrollment, Advisories

All prerequisites, corequisites, and limitations on enrollment stated in the course descriptions listed in this catalog will be strictly enforced by Reg-e at the time of registration. Students who do not meet the prerequisite, corequisite, or other limitation according to the college's records, will not be permitted to register for the course. Students are strongly advised to have all transcripts of prior college work and other documentation on file well in advance of registration. This will minimize registration delays. Students should plan their schedule early and see a counselor for assistance. For more information see page 21.

Challenge Procedures

Students may challenge a prerequisite, corequisite or limitation on enrollment. Contact the Admissions Office to obtain a Petition to Challenge AT LEAST 10 working days prior to the start of the primary term/semester.

Generic Course Information

Any discipline or department may offer the courses listed below which do not appear individually in the catalog. If applicable to a particular subject area, it will be listed under the appropriate departmental heading (subject indicator) in the college class schedule. For further information, please check with the instructor or department chair.
**Supervised Tutoring (044)**

Supervised tutoring courses are available in each discipline. To enroll in a supervised tutoring course, a student must be enrolled in a college or basic skills course in the respective discipline. The courses are designed to prepare the student to succeed in the corequisite or subsequent courses. Supervised tutoring may be taken four times, each time with a different corequisite. Not applicable to the Associate Degree.

**Experimental Topics (265)**

Experimental topics courses that examine an immediate specialized need or focused academic inquiry may be offered in some disciplines. See the class schedule for specific titles and course details.

**Special Topics Courses (392–399)**

Special topics courses that employ a consistent disciplinary framework as described by a complete course outline of record, but utilize a specific focus area that may change from term to term may be offered in some disciplines. See the class schedule for specific titles and course details. (See catalog course description to determine credit for Associate Degree or Transfer.)

**Work Experience (270)**

Program of on-the-job learning experiences for students employed in a job related to the major. Students may enroll in a maximum of 16 units of work experience in a lifetime, including a maximum of 6 units from General Work experience. Students may enroll in a maximum of 8 units per semester of Occupational Work experience. AA/AS; CSU.

**Service Learning**

Students gain hands-on experience in project planning, development, implementation and evaluation. Students meet weekly to receive support training and development opportunities regarding best practices in Service Learning. The service-learning options are as follows:

**Service Learning—High School Projects (277A)**

Students in this course develop and implement service-learning projects to help high school students under the supervision of college faculty and in cooperation with high school teachers, counselors and resource teachers. Projects may include collaboration with high school classes, educational projects for high school students, mentoring and shadowing. This course is intended for students from any discipline who are interested in project development, development of teaching skills or enhancement of communication and planning skills. Course segments may be taken in any order. The combined credit for all 277A discipline courses may not exceed three units. AA/AS; CSU.

**Service Learning—Elementary and Junior High School Projects (277B)**

Students in this course develop and implement service learning projects to help elementary and junior high school students under the supervision of college faculty and in cooperation with elementary and junior high school teachers, counselors and resource teachers. Projects may include collaboration with elementary and junior high school classes, educational projects for elementary and junior high school students, mentoring, and shadowing. This course is intended for students from any discipline who are interested in project development, development of teaching skills, or enhancement of communication and planning skills. Course segments may be taken in any order. The combined credit for all 277B discipline courses may not exceed three units. AA/AS; CSU.

**Service Learning—Community (277C)**

Students in this course develop and implement service-learning projects to help the college’s community under the supervision of college faculty and in cooperation with the staff of community organizations and agencies. Projects may include collaboration with off-campus community organizations and educational service oriented projects for the college’s community. This course is intended for students from any discipline who are interested in project development, development of teaching skills, or enhancement of communication and planning skills. Course segments may be taken in any order. The combined credit for all 277C discipline courses may not exceed three units. AA/AS; CSU.

**AA/AS = Associate Degree Applicable**  
**CSU = California State University Applicable**  
**UC = University of California Applicable**
in any order. The combined credit for all 277C discipline courses may not exceed three units. AA/AS; CSU.

**Service Learning—On Campus (277D)**

Students in this course develop and implement service-learning projects to help the college's students under the supervision of college faculty and in cooperation with college counselors and staff. Projects may include collaboration with college classes, educational projects for college students, mentoring, and shadowing. This course is intended for students from any discipline who are interested in project development, development of teaching skills, or enhancement of communication and planning skills. Course segments may be taken in any order. The combined credit for all 277D discipline courses may not exceed three units. AA/AS; CSU.

**Independent Study (290)**

This course is for students who wish to conduct additional research, a special project, or learning activities in a specific discipline/subject area and is not intended to replace an existing course in the discipline. In this course students will have a written contract with their instructor for activities such as: preparing problem analysis, engaging in primary research, preparing reports, and meeting with the instructor at specific intervals. AA/AS; CSU.

**Individualized Instruction (296)**

This course provides supplemental instruction to reinforce achievement of the learning objectives of a course in the same discipline under the supervision of the instructor of the designated course. Learning activities may employ a variety of self-paced multimedia learning systems, language labs, print and electronic resources, laboratory, or field research arrangements, to assist student in reaching specific learning objectives. This open entry/open exit course is offered concurrently with designated courses. AA/AS; CSU.

**Explanation of Terms**

Courses in the San Diego Community College District that are associate degree applicable and/or transfer to public four-year universities in California are identified at the end of each course description with the following statements:

**AA/AS:** Associate Degree Applicable. The course will apply toward the units required for the associate degree at San Diego Community College District colleges. The course is not intended for transfer to a four-year college or university. However, final determination of transfer credit rests with the receiving institution.

**CSU:** California State University Applicable. The course will apply toward the units required for the baccalaureate degree at the California State University system.

**UC:** University of California Applicable. The course will apply toward the units required for the baccalaureate degree at the University of California system.

**UC Transfer Limitation. See a counselor:** There may be limitations on the number of units that are applied from this course toward the total number of lower division units required for the baccalaureate degree at the University of California. Students should see a counselor concerning these limitations. The University of California limits the maximum amount of lower division credit that can be applied toward the baccalaureate degree in a variety of disciplines, including Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice (Criminology) and Library Science.

**Field Trip: (FT)** A field trip may be required for this course. Detailed information concerning costs incurred will be provided by the instructor.

**Private Colleges/Independent/Out-of-State:**

*Note regarding Private / Independent / Out-of-state institutions: San Diego Community College District courses that are designated as CSU or UC transferable may apply toward the total number of lower division units required for the baccalaureate degree at private, independent, and/or out-of-state colleges and universities; however, the final evaluation of course credit will be determined by the individual private, independent, or out-of-state institution.*

**Physical Education Classes/ Intercollegiate Sports-disclaimer**

Participation in all sports and physical education activities involves certain inherent risks. Risks may include, but are not limited to, neck and spinal injuries that may result in paralysis or brain injury,
injury to bones, joints, ligaments, muscles, tendons and other aspects of the muscular skeleton system; and serious injury, or impairment, to other aspects of the body and general health, including death. The San Diego Community College District, its officers, agents and employees are not responsible for the inherent risks associated with participation in physical education classes/intercollegiate sports. Students are strongly advised to consult a physician prior to participating in any physical education activity.

**UC Transfer and Physical Education Courses**

The University of California divides physical education courses into three categories: 1) Activity; 2) Theory, and 3) Academic/Scholarly. Credit for Activity courses is limited to four (4) units. Credit for Theory courses is limited to eight (8) units. No credit limitation is established for Academic/Scholarly courses. All UC-transferable physical education courses and their associated unit limitations are listed on Web ASSIST at: www.assist.org.

**UC Transfer and Variable Topics Courses**

These courses are also called “Independent Studies”, “Special Studies”, “Experimental Topics”, “Field Work”, etc. Credit for variable topics courses is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC. UC does not grant credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice (Criminology) or Library Departments because of credit restrictions in these areas.

**Accounting**

See “Business Studies” on page 161

**Administration of Justice**

There is currently no program in Administration of Justice. The following courses are offered and may be used as associate degree electives.

---

**Courses**

**Administration of Justice (ADJU)**

101 *Introduction to Administration of Justice*  
3 hours lecture, 3 units  
Grade Only

**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  
**Limitation on Enrollment:** This course is not open to students with previous credit for Administration of Justice 101A and/or 101B and/or 101C. This course introduces students to the philosophy and history of administration of justice. It provides an overview of crime, police problems, and the organization and jurisdiction of law enforcement agencies. Students survey professional career opportunities and qualifications. This course is intended for students majoring in Administration of Justice. (FT) AA/AS; CSU; UC Transfer Limitation: Administration of Justice (ADJU) 101 and 101A, 101B, 101C combined: maximum credit, 3 units. 101A, 101B, 101C must all be taken for transfer credit to be granted. C-ID AJ 110.

102 *Criminal Law I*  
3 hours lecture, 3 units  
Grade Only

**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. This course introduces students to the scope and source of criminal law and classification of crimes against persons, property, morals, and public welfare. Topics include classification and general elements of crime, the definitions of common and statutory law, acceptable evidence, types of intent, capacity to commit crimes, legal defenses, criminal culpability, parties to crime, laws of arrest, and Constitutional background. This course is intended for students majoring in Administration of Justice or anyone interested in criminal law. (FT) AA/AS; CSU. C-ID AJ 120.

**AA/AS = Associate Degree Applicable**  
**CSU = California State University Applicable**  
**UC = University of California Applicable**
Allied Health

There is currently no program in Allied Health. The following courses are offered.

### Courses

<table>
<thead>
<tr>
<th>Allied Health (ALLH)</th>
</tr>
</thead>
</table>

#### 49 Introduction to Health Careers

**1.5 hours lecture, 1.5 units**

**Letter Grade or Pass/No Pass Option**

Advisory: English 48, English 49 and Mathematics 43, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5, W5 and M40.

This introductory course is designed for students interested in entering the human or veterinary health care industry. This course explores the history and key aspects of the practice of health care in the United States. The content provides ways to identify general aptitudes and skills required in health careers and provide students with an opportunity to match individual aptitudes, interests and abilities to specific health careers. (FT) Not applicable to the Associate Degree.

gardening and problem solving without chemicals, including use of compost, low volume irrigation, and integrated pest management.

**Faculty Office Telephone**
Erin Rempala A-227 619-388-3712

**Career Options:**
These certificates prepare students to enter into professional and educational fields related to sustainable urban landscaping and agriculture. Career options include home gardeners, new and experienced horticulture professionals, plant nursery industry professionals, and small to large institutional gardeners.

**Student Learning Outcomes:**
Students who complete this program should be able to:

- Understand and explain the three facets of sustainability (economic, environmental and social) both in general and as they apply specifically to landscaping, practices.
- Understand and explain the components of a landscape system, including plant varieties for the Southern California region, soil fertility design, organic pest control and high efficiency-low volume irrigation.
- Design a landscape layout that accounts for biological pest control, natural habitat, water conservation usability by residents as/or visitor and compatibility with surrounding land uses.
- Develop proper irrigation based on the knowledge of the relationships between plants, soil water and climate.
- Solve environmental issues as they arise at existing landscaping sites (e.g. pest damage, nutrient depletion, water deficiency, etc.) using organic techniques.
- Obtain employment in a field related to landscaping.

**Certificate of Performance: Intro to Ecological Landscaping**
This certificate prepares students to utilize organic methods for landscape design and maintenance.

**Sustainable Urban Agriculture**

**Program Description:**
Sustainable Urban Agriculture offers a hands-on approach for students to enter into the academic and/or professional fields related to sustainable agriculture. Students gain skills to critically analyze historical and current food systems in order to offer alternative solutions to create more sustainable food system models. Students gain practical experience working alongside professional urban farmers and farm educators in the Seeds at City Urban Farm on the City College campus.

**Program Goals:**
This program provides students the opportunity to analyze issues and implement solutions related to small-scale urban agriculture and to apply their

**AA/AS = Associate Degree Applicable**
**CSU = California State University Applicable**
**UC = University of California Applicable**
knowledge in hands-on learning at the Seeds at City Urban Farm. The primary aim is to train a diverse group of skilled organic practitioners who actively participate in improving the health of their environment, food, and communities through small-scale organic food production, education, advocacy, and social service programs.

Program Emphasis:
This program provides a foundation in plant and soil science, integrated pest management, and crop production while focusing on ecological principles of sustainable agriculture. Courses emphasize the how-to aspects of organic gardening and farming, including compost production, greenhouse propagation, crop planning and production.

Career Options:
San Diego City College offers certificates, degrees and transfer options in the Sustainable Urban Agriculture program. The Certificate of Performance, Organic Gardening for the Culinary Arts, compliments educational programs in the culinary arts. The Urban Gardener Certificate of Achievement provides skills and knowledge for careers at an organic farm, nursery, commercial greenhouse or to manage a community garden. The Certificate of Achievement in Urban Farming prepares students and professionals to establish and operate an organic urban farm business. The Sustainable Urban Agriculture, Associate in Science Degree, prepares students to transfer to a four-year college to study agriculture, sustainable agriculture, plant science, crop science, agricultural business, or ecology.

Student Learning Outcomes:
Students who complete this program should be able to:

• Understand and explain the three facets of sustainability (economic, environmental and social) both in general and as they apply specifically to landscaping, practices.

• Understand and explain the components of a food system.

• Design an organic urban farm that support natural ecosystems, human health, and water conservation.

• Evaluate the soil food web.

• Create a crop plan that is appropriate for the southwest region.

• Identify plant disease and pests and incorporate integrated pest management and other organic strategies for a resilient food system.

• Demonstrate basic propagation techniques.

Certificate of Performance:
Organic Gardening for the Culinary Arts*

This certificate is designed for students who want to learn or improve their organic gardening knowledge and skills. The program provides the skills and knowledge to implement a healthier, sustainable food system that emphasizes small-scale urban food production.

Courses: Units
AGRI 102 Sustainable Urban Agricultural Practice 3
AGRI 128 Food Preservation Skills 1
AGRI 104 Cool Season Organic Production or 3
AGRI 106 Warm Season Organic Production 3

Total Units = 7

*A Certificate of Performance is a departmental award that does not appear on the student's transcript. All courses must be completed within the San Diego Community College District.

Certificate of Achievement:
Urban Farming

This certificate prepares students and professionals to establish and operate an organic urban farm business.

Courses: Units
AGRI 100 Principles of Sustainable Agriculture 3
AGRI 102 Sustainable Urban Agricultural Practice 3
AGRI 104 Cool Season Organic Production 3
AGRI 106 Warm Season Organic Production 3
AGRI 108 Building Fertile Soil Organically 3
AGRI 110 Organic Fruit Tree Care 3
AGRI 116 Drip Irrigation Basics 2
BUSE 157 Starting a Small Business or 3
BUSE 155 Managing the Small Business 3
BUSE 245F Small Business Internship - Operations 1

Total Units = 26

Recommended Electives: Agriculture 126, 128, 270; Architecture 155; Biology 101; Marketing 100.
Certificate of Achievement:
Urban Gardening

This certificate prepares students for careers at an organic farm, nursery, commercial greenhouse or to manage a community garden.

---

**Courses**

**Agriculture (AGRI)**

100 Principles of Sustainable Agriculture

3 hours lecture, 3 units

Letter Grade or Pass/No Pass Option

**Advisory:** English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6. This course is an overview of the historical, social and ecological foundations for a sustainable agriculture. Students gain an understanding of the origins of agriculture, the rise of industrial agriculture, the rise of sustainable agriculture, and the context in which we find ourselves today. This course is intended for students interested in agriculture, environmental science and sustainability. (FT) AA/AS; CSU; UC.

102 Sustainable Urban Agricultural Practice

1.5 hours lecture, 4.5 hours lab, 3 units

Letter Grade or Pass/No Pass Option

**Advisory:** English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Level R6 and W6. This course integrates theoretical and practical aspects of small-scale organic urban farming. It includes hands-on instruction and an introduction to a range of farm-related topics, including composting and vermicomposting, irrigation systems, propagation and greenhouse management, soil fertility, integrated pest management, plant pathology and disease management, permaculture techniques, and small fruit orchard management. Students explore personal agricultural interests through research projects, visit local farms and gardens and attend key sustainable garden and farm events throughout the semester. This course is intended for students interested in Agriculture, Environmental Science and Sustainability. (FT) AA/AS; CSU.

---

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
104 Cool Season Organic Production
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a hands-on study of cultural practices, varieties, and economics of production of major cool season vegetable crops in San Diego County. Topics include strategies for starting and maintaining cool season crops, innovative irrigation methods, essential weed and pest control measures, and marketing. Organic methods are emphasized. This course is intended for students interested in agriculture, environmental science, agricultural education and sustainability. (FT) AA/AS; CSU; UC.

106 Warm Season Organic Production
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6. This course is a hands-on study of cultural practices, varieties, and economics of production of major warm season vegetable crops in San Diego County. Topics include strategies for starting and maintaining crops, innovative irrigation methods, essential weed and pest control measures, and marketing. Organic methods are emphasized. This course is intended for students interested in agriculture, environmental science, agricultural education and sustainability. (FT) AA/AS; CSU; UC.

108 Building Fertile Soil Organically
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6. This course demonstrates the vital connection between soil and the food chain that sustains life on this planet. Topics include current trends in soil erosion and degradation, the many roles that soil plays in our environment, symbiotic relationships between beneficial microorganisms and plants, and disease and pest suppression through proper soil management practices. Students participate in creating and maintaining enhanced soil fertility. This course is intended for students interested in the theory and practice of organic soil conservation and management. (FT) AA/AS; CSU.

110 Organic Fruit Tree Care
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6. This course introduces students to fruit tree selection, planting and care for small-scale orchards or home gardens. The course includes knowledge about desirable varieties, hands-on pruning and training methods, and details on pest management. The emphasis is on organic production methods. This course is intended for students interested in agricultural production, agronomic education and sustainability. (FT) AA/AS; CSU.

112 Organic Greenhouse Management and Plant Propagation
1 hour lecture, 3 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6. This course introduces skills and concepts associated with the propagation of crop plants. Beginning with seed and seedling biology, the course introduces the cultural requirements and management practices involved in seed germination and seedling development, propagation media, soil mixes, greenhouse structures, greenhouse pest and pathogen management, and general skills in getting plants off to a healthy start, which is critical to successful crop production. Organic methods are emphasized. This course is intended for students interested in agricultural production, management and education and ecology. (FT) AA/AS; CSU.

116 Drip Irrigation Basics
2 hours lecture, 2 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6. This course integrates theoretical and practical aspects of modern high efficiency, low volume irrigation design, installation and maintenance. Topics include water use in California’s Southwestern desert climate, site analysis, soil/water relationships, and transformation of existing wasteful irrigation systems to efficient low volume systems. Students troubleshoot and solve irrigation system problems and prepare a cost estimate for an irrigation system. This course is intended for students interested in agriculture, water conservation, or landscape technology. (FT) AA/AS; CSU.
118 Sustainable Landscaping Using Organic Methods
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course integrates theoretical and practical aspects of chemical-free environmentally friendly landscape design, installation and maintenance. The course provides tried and true alternative horticultural practices that work with, rather than control, nature. This course is intended for students interested in landscaping, agriculture, water conservation, green landscape architecture, landscape technology, environmental design and sustainability. (FT) AA/AS; CSU; UC.

126 Introduction to Permaculture Design
2 hours lecture, 2 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. This course introduces students to the strategies and techniques of applied permaculture design for creating resilient and livable human communities. Through observation of natural patterns and understanding mutually beneficial relationships in gardens as well as other permaculture principles, students learn how to grow food and plants in harmony with nature. This course is intended for students pursuing careers in agriculture, environmental studies, landscaping and urban planning. (FT) AA/AS; CSU.

128 Food Preservation Skills
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. This course introduces students to the practice of Food Preservation in a time of energy descent. Topics include canning, dehydrating, fermenting, food preservation history and philosophical approaches associated with insuring food security. This course is intended for students interested in agricultural production, culinary arts and food science. (FT) AA/AS; CSU.

130 Agriculture Direct Marketing Internship
3 hours lab, 1 unit
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course provides theory and practice in the direct marketing of fresh produce by way of community supported agriculture (CSA) and farmers’ markets. Classroom time provides an introduction to the marketing options available to small urban farmers and to the business planning process. Students learn to harvest and prepare produce for sale, and gain hands-on experience managing the campus’ weekly farm stand and CSA program. This course is intended for students who plan to complete the Urban Farming Certificate of Achievement. It is also intended for urban agriculture students interested in learning direct marketing of farm products or running a related business. (FT) AA/AS; CSU.

270 Work Experience in Sustainable Urban Agriculture
60 - 300 hours other, 1-4 units
Grade Only
A program of on-the-job learning experiences for students employed in a job related to an occupationally oriented major for which no work experience course is offered. This course may be taken for a maximum of 16 units. However, the combined maximum credit for all Work Experience courses from all disciplines may not exceed 16 units. (FT) AA/AS; CSU.

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Career Options

Upon completion of the certificate of achievement or associate degree, students may be eligible for entry level employment as alcohol and/or drug counselors. However, most students find that further credentialing is required. The California Association of Alcohol and Drug Abuse Counselors (CAADAC) offers the Certified Alcohol and Drug Counselor (CADC) Credential. The Alcohol and Other Drug Studies program satisfies academic requirements for all ten California Alcohol and Drug Counseling credentialing agencies. This includes opportunities for continuing education and/or credentialing in nursing, drunk driver education programs, American Indian Certification and others.

Student Learning Outcomes

Students who complete the Alcohol and Other Drug Studies Program will:

- Recognize, describe, and explain a variety of models and theories of substance use, abuse, and dependence.
- Identify diagnostic criteria and apply assessment skills for substance abuse and dependence.
- Describe and explain the social, political, economic, and cultural contexts within which substance use, abuse, and dependence exist, including the risk and resilience factors that characterize individuals and groups and their environments.
- Identify the behavioral, psychological, physical health, and social effects of psychoactive substances on the person and their significant others.
- Recognize the potential for substance use disorders to mimic a variety of medical and mental health conditions.
- Explain the potential for medical and mental health conditions to coexist with substance use, abuse, and dependence.
- Assess and evaluate the philosophies, practices, policies, and outcomes of the most accepted and scientifically validated models of treatment, recovery, relapse prevention, and continuing care for addiction and other substance-related problems, and value an interdisciplinary approach to addiction treatment.
- Explain the importance of family, social networks, and community systems in the treatment and recovery process.

Behavioral Sciences: Alcohol and Other Drug Studies

Description

This program prepares students for certification as Alcohol and/or Drug Abuse Counselors. The Certificate of Achievement is designed to prepare students for entry level alcohol and drug counselor employment. The associate degree provides academic preparation for baccalaureate study in psychology, social work and related disciplines.

Program Emphasis

This program is both vocational and academic. It trains students in the core functions of an alcohol and drug counselor while providing a theoretical foundation in the behavioral sciences and human service professions.

Total Units = 34-37

1AODS 270 must be substituted for AODS 163 if student has a paid internship.

Recommended Electives: Alcohol and other Drug Studies 270.

Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Transfer Information
Common university majors related to the field of Alcohol and Other Drug Studies include: Human Development, Psychology, Human Services.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
San Diego City College • 2013-2014

Behavioral Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Alcohol and Other Drug Studies (AODS)

150 Introduction to Chemical Dependency
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; and completion of or concurrent enrollment in Psychology 101 or Sociology 101 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Behavioral Sciences 150 or Psychology 265: Introduction to Chemical Dependency.

This course is a study of the basic concepts of chemical dependence. Emphasis is placed on understanding chemical dependency from an interdisciplinary level and on examining the socio-cultural patterns of dependency. Individual student’s potential as a chemical dependency counselor will also be addressed. Students beginning the certificate program should start with this course. This course is also appropriate for any student wishing to learn more about alcohol and other drug use, abuse and dependency. (FT) AA/AS; CSU.

152 Physiology and Pharmacology of Psychoactive Drugs
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; and completion of or concurrent enrollment in Psychology 101 or Sociology 101 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Behavioral Sciences 150 or Psychology 265: Introduction to Chemical Dependency.

This course is a study of the neurochemical, physical and mental effects of commonly used addictive psychoactive substances on the human biological system. Emphasis is placed on the basic pharmacology of psychoactive drugs, the medical consequences of abuse and addiction, and therapeutic approaches for managing chemical dependency. (FT) AA/AS; CSU.

154 Prevention, Intervention, Legal & Ethical Issues of Psychoactive Drug Use
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; and completion of or concurrent enrollment in Psychology 101 or Sociology 101 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Behavioral Sciences 154 or Psychology 265: Prevention, Intervention, Legal and Ethical Issues of Psychoactive Drug Use.

This course is a study of ethical and legal components of the chemical dependency field. Emphasis is placed on professional responsibility and patients’ rights as they relate to various models of primary prevention and intervention. Topics also include community needs and resources and the influence of the media on prevention and intervention. This course is intended for students majoring in Alcohol and Other Drug Studies or those interested in how to keep individuals from developing alcohol and other drug problems. This course is also intended for students wanting to learn the ethical and legal responsibilities of a helping professional. (FT) AA/AS; CSU.

156 Chemical Dependency Case Management
3 hours lecture, 3 units
Grade Only

Advisory: Alcohol and Other Drug Studies 150, 152, and 154 and Psychology 161 and Sociology 101, each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with credit in Behavioral Sciences 156 or Psychology 265: Chemical Dependency Case Management.
This course is a study of the theory and practical application of the twelve core functions of chemical dependency counseling as they apply to case management. Emphasis is placed on preparing students to work effectively in the field of chemical dependency. Extensive knowledge of the DSM IV diagnostic criteria for Substance-Related Disorders and the Federal Confidentiality Regulations for Alcohol/Drug Records is required to achieve in this course. (FT) AA/AS; CSU.

158 Chemical Dependency Family Counseling Techniques

3 hours lecture, 3 units
Grade Only

Advisory: Alcohol and Other Drug Studies 150, 152 and 154, each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Behavioral Sciences 158 or Psychology 265: Chemical Dependency Family Counseling Techniques.

This course is a study of the theory and techniques involved in treating the family as well as the chemically dependent person as the client. Emphasis is placed on diagnosing family codependency, treatment strategies, prevention and intervention with an interdisciplinary perspective. This course should be taken after a student’s first semester in the Alcohol and Other Drug Studies program. (FT) AA/AS; CSU.

160 Group Dynamics in Chemical Dependency Counseling

3 hours lecture, 3 units
Grade Only

Advisory: Alcohol and Other Drug Studies 150, 152, and 154, and Psychology 161 and Sociology 101, each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Behavioral Sciences 160.

This course is a study of the theory and application of group counseling approaches, methods and techniques with an emphasis on chemical dependency problems. Course content includes the dynamics of small group interaction and allows students to develop effective communication, interpersonal and leadership skills from an interdisciplinary perspective. This course is designed for students majoring in Behavioral Sciences. (FT) AA/AS; CSU.

162 Chemical Dependency Internship Seminar

3 hours lecture, 3 units
Grade Only

Prerequisite: Alcohol and Other Drug Studies 156 with a grade of “C” or better, or equivalent.

Corequisite: Alcohol and Other Drug Studies 163 or 270.

Advisory: Alcohol and Other Drug Studies 158 and 160 each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Behavioral Science 162.

This course is a study of the nature of chemical dependency treatment with an emphasis on developing the skills and abilities of the student-as-intern. Emphasis is placed on supporting students enrolled in the Chemical Dependency Internship. Throughout this course, students engage in critical analysis of their strengths and weaknesses as interns and as potential professionals in the field. This is a restricted class. This course is open to students only in their final semester within the Alcohol and Other Drug Studies Certificate Program. Students taking this class must be doing an internship (Alcohol and Other Drug Studies 163 or 270) in the same semester. (FT) AA/AS; CSU.

163 Chemical Dependency Internship

Hours by Arrangement, 3.5 units
Grade Only

Corequisite: Alcohol and Other Drug Studies 162.

Advisory: Alcohol and Other Drug Studies 156, 158, and 160, each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Behavioral Sciences 163.

This course provides students with a hands-on learning experience via a directed field study resulting from the cooperative effort of a provider agency, the instructor and the student. Emphasis is placed on enabling the student intern to learn and experience the work of a chemical dependency professional while receiving college credit. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
270 Work Experience in Chemical Dependency
Hours by Arrangement (One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.), 1-4 units
Grade Only
Corequisite: Alcohol and Other Drug Studies 162.
Limitation on Enrollment: Must obtain an Add Code from Work Experience Coordinator for registration. A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Behavioral Sciences:
Anthropology

Description
Anthropology is a scientific discipline that studies humans and human behavior. The subject is divided into five broad fields: physical and cultural anthropology, linguistics and archaeology, and applied anthropology. Physical anthropology is concerned with hominid evolution and the biological features of human populations. Cultural anthropology deals with cross-cultural studies of learned behavior, such as language, kinship, religion, economics, technology, values and personality. Linguistics is the study of the origin and evolution of languages and how they reflect the behavioral patterns of people. Archaeology is involved in the recovery of material remains of past peoples with the objective of reconstructing the past. Applied Anthropology applies what we have learned from the other four fields to promote change. As both a biological and social science, anthropology seeks to understand and describe humankind.

Program Emphasis
The anthropology program has been developed to provide the student with a broad perspective of human biological and cultural origins and change which prepares the student for transfer to a four-year institution. It also offers a limited course curriculum in archaeology. A certificate of performance is available for the student who has an interest in the recovery, identification, and analysis of prehistoric and early historic artifacts related to archaeological research projects.

Career Options
Most careers related to anthropology require education beyond the associate degree, however, an understanding of broad anthropological and archaeological concepts provides some preparation for work in museums and local excavations. A partial list of possible career options follows: archaeologist, cultural anthropologist, ethnic relations specialist, ethnologist, exhibit designer, expedition guide, film ethnographer, health researcher, linguist, medical anthropologist, museum curator, physical anthropologist, primatologist, paleoanthropologist, population analyst, public health analyst, social gerontologist, transcultural nurse specialist, travel consultant, urban planner, international business consultant, international law development specialist, environmentalist, conflict resolution, and peace studies.

Student Learning Outcomes
Students who complete the program will be able to:

• Define Anthropology, identify and discuss its various subfields including: Cultural Anthropology, Physical Anthropology, Comparative Linguistics, Archaeology, and Applied Anthropology;

• Identify and discuss Anthropological methods of inquiry;

• Identify, discuss, compare, contrast and critically analyze the various theoretical orientations used in the different subfields of Anthropology;

• Discuss and critically evaluate the Anthropological Perspective including its global emphasis and cross-cultural and comparative approach to understanding the various ways in which people organize themselves, meet their various needs, and have adapted to their environments;

• Identify, describe and discuss different cultural systems ranging from band societies to the state;

• Identify, critically evaluate, and discuss the contributions Anthropology has made to describing and understanding the human
condition including human physical and cultural diversity;

• Identify and critically evaluate Anthropology’s contributions to other disciplines of study in the Social Sciences, Behavioral Sciences and the Humanities.

Certificate of Performance: Archaeology*

Courses: Units
ANTH 103 Introduction to Cultural Anthropology 3
ANTH 107 Introduction to Archaeology 3
ANTH 210 Introduction to California Indians 3
ANTH 115 Introduction to Archaeological Field Work 4
ANTH 120 Archaeological Artifact Analysis 3
Total Units = 16

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Associate in Arts Degree: Behavioral Sciences

Anthropology

The associate degree in anthropology requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Courses Required for the Major: Units
ANTH 102 Introduction to Physical Anthropology 3
ANTH 103 Introduction to Cultural Anthropology 3
ANTH 107 Introduction to Archaeology 3
**PSYC 258 Behavioral Science Statistics or MATH 119 Elementary Statistics 3
Electives, transferable, lower division 6
Total Units = 18

Recommended electives: Anthropology 215, 290.

**Note: Check University Statistics course requirement.

Transfer Information

Common university majors related to the field of Anthropology include: Anthropology, Archaeology, Biological Anthropology, Global Studies, Conflict Resolution Studies and Peace Studies.

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Anthropology (ANTH)

Faculty Office Telephone
Stephen Bouscaren MS-538 619-388-3260

102 Introduction to Physical Anthropology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a survey of human evolution, variation and adaptation. Emphasis is placed on the study of primates, human heredity, variability of modern populations and fossil records of early hominids/hominins and hominoids. This course is intended for anthropology majors and all students interested in life and/or behavioral sciences. (FT) AA/AS; CSU; UC.

103 Introduction to Cultural Anthropology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a survey of cultural anthropology using

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
a comparative, cross-cultural approach. Emphasis is placed on the study of how various peoples around the world have adapted to their environments and developed behaviors to meet their biological, economic, psychological, social and political needs. This course is intended for anthropology majors and all students interested in life and/or behavioral sciences. (FT) AA/AS; CSU; UC.

104 Laboratory in Physical Anthropology
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Anthropology 102 with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a practical study of biological anthropology. Students perform field and laboratory studies in genetics, human variation, human osteology, anthropometry, hominin/hominid evolution, comparative primate anatomy, primate behavior, and forensic anthropology. This course is intended for anthropology majors and all students interested in life and/or behavioral sciences. (FT) AA/AS; CSU; UC.

107 Introduction to Archaeology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is an introductory study of the history, methods and theory of archaeology. Emphasis is placed on the techniques of archaeological data collection and analysis, cultural innovations, reconstruction and interpretation of the past and Cultural Resource Management (CRM) work. This course is intended for students who are majoring in Anthropology. (FT) AA/AS; CSU; UC.

115 Introduction to Archaeological Field Work
2 hours lecture, 6 hours lab, 4 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. Limitation on Enrollment: This course is not open to students with previous credit for Anthropology 265: Introduction to Archaeological Field Work. This course is an introduction to the basic techniques of archaeological field work. Emphasis is placed on site survey, site layout, excavation, artifact identification, laboratory analysis and report writing.

Topics also include use of compass and transit, Global Positioning Systems (GPS) and Geographic Information Systems (GIS). This course is designed for Anthropology and Archaeology majors as well as students interested in prehistoric and/or historic research. (FT) AA/AS; CSU.

120 Archaeological Artifact Analysis
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6. Limitation on Enrollment: This course is not open to students with previous credit for Anthropology 265: Archaeological Artifacts Analysis or Laboratory Analysis of Archaeological Materials. This course is a practical study of archaeological artifact analysis. Emphasis is placed on artifact typology and seriation methods used in the preparation of archaeological reports. Students learn the most current techniques for describing, classifying, cataloging and documenting archaeological materials. This course is designed for students majoring in anthropology with an emphasis in archaeology and for anyone interested in a career in the field of archaeology or employment in Cultural Resource Management (CRM). (FT) AA/AS; CSU.

210 Introduction to California Indians
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a comparative study of Native Peoples who lived within the culture area known as California. Emphasis is placed on precontact cultures and the influence of European contact. This course is intended for anthropology students and all students interested in the Native Peoples of California. (FT) AA/AS; CSU; UC.

215 Cultures of Latin America
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a study of the cultural history of Latin America from precolombian to colonial and contemporary civilizations. Emphasis is placed on the Mesoamerican and Andean civilizations. Students use contemporary anthropological research, ethnohistoric and archaeological data to assess and compare the rich cultural experiences of
Behavioral Sciences

past and present peoples. This course is intended for anthropology majors and all students interested in Latin American civilization and culture. AA/AS; CSU; UC.

392 Cross-Cultural Studies--Study Abroad
1-3 hours lecture, 1-3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a study of the contemporary life and culture of a study abroad destination. Emphasis is placed on providing the student with the opportunity to observe and participate in a variety of areas, including the arts, sciences, sports, contemporary history, politics, economics, humanities, philosophy, sociology and anthropology. (FT) AA/AS; CSU.

Courses

Conflict Resolution (CRES)

101 Conflict Resolution and Mediation
3 hours lecture, 3 units
Grade Only

Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6.
This course explores conflict resolution and mediation in an interdisciplinary manner by an analysis of how conflict is generated, escalated, resolved and transformed in various settings. Students explore theories of conflict resolution and mediation and apply these fundamental concepts in interpersonal and intergroup conflicts. Emphasis is placed upon allowing the students to assess and improve their own ways of responding to conflict by the study and practice of various processes of conflict intervention. This course is intended for students interested in Conflict Resolution and Mediation, Communication Studies, Anthropology, Counseling, Human Services, Peace Studies, Psychology, Business, Sociology and other related fields. (FT) AA/AS; CSU.

102 Mediation Skills
3 hours lecture, 3 units
Grade Only

Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6.
This introductory course is designed to provide students with the framework and analytical skills needed to conduct mediation. Mediation is a process by which parties submit their dispute to a neutral third party who works with them to reach a mutually agreeable settlement. Emphasis is placed on the mediation process, the role of the mediator, communication and listening skills, and the human dynamics of conflict. The role of the mediator is to assist disputing parties in reaching a peaceful, just and equitable resolution to a conflict. This course is intended for students interested in Conflict Resolution and Mediation, Communication Studies, Anthropology, Counseling, Peace Studies, Psychology, Business, Sociology and other related fields. (FT) AA/AS; CSU.

276 Field Work in Conflict Resolution and Mediation
2 hours lecture, 3 hours other, 3 units
Grade Only

Corequisite: Completion of or concurrent enrollment in Conflict Resolution 101 and 102, each with a grade of "C" or better, or equivalent.
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6.
This supervised field work course enables students to gain first hand experience in Conflict Resolution and Mediation. Students develop professional skills while contributing their time and talents to a local organization thus enhancing the students’ resume and work experience. Emphasis is placed on providing students with the chance to explore the various career choices through placement in a professional setting working in the field of Conflict Resolution and Mediation. Students meet regularly with faculty and peers to receive feedback, support and guidance in their community projects. This course is intended for students interested in Conflict Resolution and Mediation. (FT) AA/AS; CSU.

Gender Studies (GEND)

Faculty Office Telephone
Sarah M. Pitcher MS-540k 619-388-3606

101 Introduction to Gender Studies
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
This course is an interdisciplinary study of gender. Emphasis is placed on the theoretical approaches to studying gender. These approaches include examining the impact of race/ethnicity in gender roles, socialization of men and women, and the role of gender in major institutions (for example, the family, media, and education). This course is designed for developing critical thinking skills in exploring issues of gender through feminist analysis of structures of privilege and oppression. This course will be useful for those considering careers in the social sciences, social work, teaching, counseling, and nursing. (FT) AA/AS; CSU; UC.

Certificate of Performance: Behavioral Sciences*

Community Health Work

The Community Health Work Certificate Program provides students who work in, or plan to work in, the field of Community Health Work with a fundamental academic and practical base for success in the field.

Behavioral Sciences

Youth Development Work

Description
The Youth Development Work Certificate Program is designed to offer certification to current and potential frontline community youth development workers working in a variety of settings, including public and private after school programs, service related agencies, recreational programs and
job development centers. This program is both vocational and academic, offering courses in theoretical and practical topics related to youth development.

**Program Emphasis**
Emphasis is placed on providing students with a balance of vocational training and academic instruction in the area of Youth Development.

**Career Options**
Career options include employment in public and private after school programs, service related agencies, recreational programs and job development centers. In addition, the coursework provides the foundation for pursuing more advanced work in behavioral science, human service, social work or public health.

**Course Requirements for Transfer Students**
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

**Courses**

**Human Services (HUMS)**

**Student Learning Outcomes:**
- Differentiate the major areas of professional practice that are contained within the field of human services.
- Describe core theoretical perspectives for a give major area of emphasis within the field of human services.
- Explain who the practice of human services contribute to community health and well-being.
- Describe how the practice of human services addresses cultural diversity.

**95 Public Assistance and Benefits Program**
1 hour lecture, 1 unit

*Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.*

*Limitation on Enrollment: This course is not open to students with previous credit for HUMS 100. This course is a practical study of current public assistance and benefits programs at the local, state and federal levels. Emphasis is placed on assistance program structures, eligibility requirements and scope and duration of benefits. This course is designed for Human Services students and anyone interested in public assistance and benefits programs. (FT) AA/AS.*

**AA/AS = Associate Degree Applicable**
**CSU = California State University Applicable**
**UC = University of California Applicable**
101 Introduction to Human Aging
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introduction to the field of social gerontology. A multidisciplinary approach is utilized to examine the basic biological, psychological and social theories of aging. Emphasis is placed on the special needs and problems impacting the aged population. Historical, social and cross-cultural issues in aging are examined. (FT) AA/AS; CSU.

103 Introduction to Community Health Work
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Personal Growth 120 with a grade of “C” or better, or equivalent.
This course is an introduction to Community Health Work (CHW). Emphasis is placed on the role of the Community Health Worker as a promoter of health and healthy living within the health care and public health systems. Topics include the fundamentals of public and preventive health in global and community perspective, community health challenges, and the role of education and advocacy in creating and maintaining healthy communities. This course is designed for Human Services students and anyone interested in Community and Public Health. (FT) AA/AS; CSU.

105 Family Support Model
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a practical study of the family support model as it applies to mental health challenges. Emphasis is placed on the various support programs available to individuals and families, how to access those resources, how to advocate for care and how to implement care to promote health and wellbeing. This course is designed for human services students and individuals currently working in the mental health field or interested in entry-level positions in the field. (FT) AA/AS; CSU.

106 Introduction to Youth Development Work
3 hours lecture, 3 units
Grade Only
This course is a theoretical and practical study of youth development work. Emphasis is placed on preparing youth workers to assist and mentor young people through youth development and workforce readiness programs. This course is designed for students interested in the field of youth development. (FT) AA/AS; CSU.

110 Social Work Fields of Service
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introduction to the major fields of social work practice in institutions, public and private agencies and other community settings. Students examine and differentiate between the predominant settings in which social work is practiced and the role of social work in contemporary society in relation to social injustice, diversity, cross-cultural issues and economic factors. (FT) AA/AS; CSU.

112 Community Service Practicum
3 hours lecture, 3 units
Grade Only
Prerequisite: Human Services 103 with a grade of “C” or better, or equivalent or Human Services 106 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Human Services 113 or Human Services 116.
This course is a practical application of the skills and tools required to work in the community. Emphasis is placed on creating needs assessments and focus groups in order to define an issue to be addressed through a community organization project. Students may develop and execute an individual project, take part in a group project or complete an internship at a community organization. This course is designed for Human Services students and anyone interested in community organizing. (FT) AA/AS; CSU.

118 Diversity and Cultural Competency
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a practical study of the concepts of diversity, cultural competency and inclusion as they relate to human services organizations and delivery systems. Emphasis is placed on the identification of institutional racism and the application of the principles of organizational inclusion to facilitate increased organizational effectiveness in serving diverse communities. This course is for students majoring in human services and those working in the field. (FT) AA/AS; CSU.

120 Introduction to Social Work  
3 hours lecture, 3 units  
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introduction to the field of social work. It covers the historical development of social work as a profession. The core knowledge base, including theoretical perspectives underpinning the profession are introduced. Emphasis is placed on social work roles, training, and methods on intervention and core social work values and ethics. (FT) This course offered during the fall semester. AA/AS; CSU.

125 Health Services Fields of Practice  
3 hours lecture, 3 units  
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introduction to and overview of private, public and clinical community health settings and the health services field. Students gain a working knowledge of public and private community health care systems and delivery, with emphasis on services provided by public and social agencies. Issues relating to access to health care, vulnerable populations, ethical issues and policy development are examined. This course helps prepare for beginning positions and/or retraining in public and private agencies and for community volunteer work in health and human service settings. (FT) AA/AS; CSU.

270 Work Experience  
Hours by Arrangement (One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.), 1-4 units  
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; and Human Services 110 and 120, each with a grade of “C” or better, or equivalent.
A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

Behavioral Sciences: Psychology

Description
Psychology is a behavioral science that emphasizes the understanding of behavior (feelings, actions, and thoughts) of individuals. It should be noted that psychology typically focuses on the study of humans though psychologists have interests in other species. Psychology as a science is most closely related to the biological sciences, although its application often involves personal and/or cultural philosophical beliefs or values. Students who major in psychology are expected to be able to think critically and scientifically about behavior, and be able to apply the principles of psychology to the understanding of behavior.

Program Emphasis
The psychology program has two primary goals. The first is to provide the basic science courses that are foundations for further understanding of other courses in psychology and related fields as well as preparation for transfer to other institutions for further study. The second goal is to provide courses that may include additional information regarding psychology that are of general interest to community college students or are applications of psychological principles.

AA/AS = Associate Degree Applicable  
CSU = California State University Applicable  
UC = University of California Applicable
Career Options
Most career options directly related to psychology require graduate level degrees. However, there are several applied and paraprofessional occupations that may not require education beyond the associate degree. The following is a sample of the many career options available with preparation in this major beyond the associate degree: advertising researcher, clinical psychologist, community college instructor, school counselor, counseling psychologist, drug abuse counselor, employment counselor, engineering psychologist, industrial psychologist, manager, marriage and family counselor, mental health worker, organizational psychologist, personnel analyst, probation officer, psychometrist, and research psychologist.

Student Learning Outcomes
Students who complete the program will be able to:

- Describe the field of psychology including its philosophical, theoretical, and scientific roots and the multitude of professional options.
- Explain how the scientific method lends itself to the goals of psychological research and statistical analysis of research data.
- Distinguish between various components of the nervous system, and explain how they work together to influence behavior and mental health processes.
- Analyze the influence of biological and environmental factors in the development of psychological processes such as sensation & perception, learning, memory, intelligence, personality, emotion, motivation, sexuality, mental health and social behavior.

Academic Programs
The associate degree in Behavioral Sciences with an emphasis in Psychology requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Certificate of Performance: Mental Health Work
This certificate program is designed to prepare entry-level mental health workers for the workforce and to serve as a stepping stone toward higher academic degrees in the field of mental health.

Potential entry-level mental health work positions include: mental health technician, social services assistant, residential home counselor, child care worker assistant, counselor aid, gerontology aid, research assistant, youth counselor, foster care worker, behavior analyst, case management aid, family services aid, patient care specialist, and patient advocate assistant.

- PSYC 137 Human Sexual Behavior
- PSYC 166 Introduction to Social Psychology
- PSYC 230 Psychology of Lifespan Development
- PSYC 245 Abnormal Psychology
- PSYC 255 Introduction to Psychological Research

**Total Units = 18**

**Recommended electives:** Psychology 137, 155, 161, 165, 230, 245, 255, 276; transferable science, computer, mathematics, and other general education courses in biology and philosophy.

**SDSU Note:** Current lower division psychology course requirements for San Diego State University psychology majors are met by the City College Associate in Arts degree, Psychology Emphasis. Consult with a counselor for other District requirements.

**Transfer Information**

**Course Requirements for Transfer Students**

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

**Associate in Arts Degree:**

**Behavioral Sciences**

**Psychology for Transfer**

The Associate in Arts in Psychology for Transfer is intended for students who plan to complete a bachelor’s degree in Psychology or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree. Students who plan to complete this degree should consult a counselor for additional information about participating CSU campuses as well as university admission, degree and transfer requirements.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

**Student Learning Outcomes:**

Students who complete the program will be able to:

ENGL 205 Critical Thinking and Intermediate Composition*
MATH 104 Trigonometry*
MATH 116 College and Matrix Algebra*
MATH 118 A Survey of Modern Math*
MATH 121 Basic Techniques of Applied Calculus I*
MATH 141 Precalculus*
PHYS 125 General Physics*
PHYS 126 General Physics II*
PHYS 180A/180B, General Physics I/Laboratory I*
PHYS 181A/181B, General Physics II/Laboratory II*
PSYC 155 Introduction to Personality*
PSYC 166 Introduction to Social Psychology*
PSYC 211 Learning*
PSYC 230 Psychology of Lifespan Development*
PSYC 260 Introduction to Physiological Psychology*
SOCO 101 Principles of Sociology*
SOCO 110 Contemporary Social Problems*

3-5

If needed to total 18 units, select one of the following courses (not completed above) to meet the lower division preparation for the major to your transfer university:
BIOL 210A Introduction to the Biological Sciences I*
BIOL 230 Human Anatomy*
CHEM 100 Fundamentals of Chemistry*
CHEM 100L Fundamentals of Chemistry Laboratory*
CHEM 130 Introduction to Organic and Biological Chemistry*
CHEM 130L Introduction to Organic and Biological Chemistry Laboratory*
CHIL 101 Human Growth and Development*
CISC 192 C/C++ Programming
ENGL 105 Composition and Literature*
ENGL 205 Critical Thinking*
MATH 104 Trigonometry*
MATH 116 College and Matrix Algebra*
MATH 118 A Survey of Modern Math*
MATH 121 Basic Techniques of Applied Calculus I*
MATH 141 Precalculus*
MATH 150 Calculus with Analytic Geometry I*
MATH 151 Calculus with Analytic Geometry II*
PHIL 100 Logic and Critical Thinking*
PHIL 205 Critical Thinking and Writing in Philosophy*
PHYS 125 General Physics*
PHYS 126 General Physics II*
PHYS 180A/180B, General Physics I/Laboratory I*
PHYS 181A/181B, General Physics II/Laboratory II*
PSYC 111 Psychological/Social Aspects of Aging, Death and Dying*
PSYC 135 Marriage and Family Relations*
Courses

Psychology (PSYC)

101 General Psychology 3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a survey of the concepts, principles and terminology of psychology as a science. Emphasis is placed on introducing students to the diverse areas that make up the field of psychology, preparing students for further study in the behavioral sciences and providing students with greater insight into human behavior. This course is designed for students planning to take advanced courses in the Social and Behavioral Sciences and/or students majoring in Psychology. (FT) AA/AS; CSU.

111 Psychological/Social Aspects of Aging, Death and Dying 3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a study of the psychological, physiological and social factors influencing behavior throughout the aging process, including the aspects of death and dying. This course is intended for students majoring in psychology and for all students interested in the psychology of aging. (FT) AA/AS; CSU.

130 Introduction to Community Psychology 3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a study of community psychology.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable

PSYC 137 Human Sexual Behavior*
PSYC 155 Introduction to Personality*
PSYC 161 Introduction to Counseling*
PSYC 165 Theories of Consciousness*
PSYC 166 Introduction to Social Psychology*
PSYC 211 Learning*
PSYC 230 Psychology of Lifespan Development*
PSYC 245 Abnormal Psychology*
PSYC 260 Introduction to Physiological Psychology *
SOCO 101 Principles of Sociology*
SOCO 110 Contemporary Social Problems*

3-5
Total Units = 18-21

* Course also fulfills general education requirements for the CSU GE or IGETC pattern.

General Education: In addition to the courses listed above, students must complete one of the following general education options:

- The IGETC pattern (page 102) is accepted by all CSU campuses and most UC campuses and majors. It is also accepted by some private/independent or out of state universities.
- The CSU GE pattern (page 109) is accepted by all CSU campuses and some private/independent or out of state universities. It is not accepted by the UC system.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

Electives as needed to meet maximum of 60 CSU-transferable units required for the degree.
Emphasis is placed on the history and role of community psychology in the broader field of psychology. Students apply the key perspectives and fundamentals of the field to case studies and current issues in the community. This course is designed for psychology majors and students pursuing career paths in counseling, public mental health and human services. (FT) AA/AS; CSU.

135 Marriage and Family Relations
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a study of the behaviors related to courtship, engagement, marriage, and family life. Emphasis is placed on the historical, cross-cultural, and social perspectives of families. Topics include interpersonal communication, economic management, and sexuality as they relate to the family. This course is intended for psychology and child development majors and all students interested in the psychology of interpersonal communication. (FT) AA/AS; CSU; UC.

137 Human Sexual Behavior
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a study of the psychological, social, and physiological dimensions of human sexual behavior. Emphasis is placed on the diversity of human sexual development and current research. This course is designed for psychology majors and all students interested in human sexual behavior and related issues. (FT) AA/AS; CSU; UC Transfer Limitation: Psychology (PSYC) 137 and Black Studies (BLAS) 165 combined: maximum credit, one course.

155 Introduction to Personality
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a survey of the fundamental personality theories within the field of psychology. Emphasis is placed on the personal life experiences of each of the major personality theorists, their research methods and approaches to the study and understanding of personality, and clinical applications of their theories. This course is designed for psychology majors and anyone seeking a stronger understanding of psychological theory. (FT) AA/AS; CSU; UC.

161 Introduction to Counseling
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Levels R6 and W6. This course is an introductory study of the history and complexity of the counseling relationship. Emphasis is placed on the skills required to be an effective counselor. Topics include various counseling approaches and settings as well as related legal and ethical issues. This course is intended for psychology majors and anyone interested in the therapeutic aspects of psychology/counseling. (FT) AA/AS; CSU.

165 Theories of Consciousness
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. This course explores various theoretical approaches to the mind-body problem, as well as a broad range of different states of consciousness, including normal waking consciousness, daydreaming, sleeping, dreaming, hypnosis, meditation, and psychedelic drug states. States of consciousness are considered by examining both behavioral experiences as well as neural correlates of those states, including case studies of brain-injured patients and neuroimaging of normal participants in different states of consciousness. This course is intended for all students interested in psychology and/or theories of consciousness. (FT) AA/AS; CSU.

166 Introduction to Social Psychology
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. Social psychology examines how individuals are influenced by their social environment. Special attention is given to social cognition and perception, self-justification, conformity, group dynamics, prejudice, aggression, prosocial behavior and applied social psychology. Emphasis will be placed on developing critical and integrative ways of thinking about theory and research in social psychology. This course is for anyone who is interested in the subject of social psychology. (FT) AA/AS; CSU; UC.
201 Academic and Career Opportunities in Psychology
1 hour lecture, 1 unit
Pass/No Pass
Prerequisite: Psychology 101 with a grade of “C” or better, or equivalent.
Advisory: 30 units of college course work.
This course is a study of career options in the field of Psychology. Emphasis is placed on the identification of career-related strengths and interests and information on post-baccalaureate options in psychology and related fields. This course is designed for students interested in majoring in psychology. (FT) AA/AS; CSU; UC.

211 Learning
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Psychology 101 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Psychology 210.
This course is a study of the basic principles and research in animal and human learning. Topics include scientific versus nonscientific approaches to behavior studies, operant and respondent conditioning, observational and cognitive learning, and motivation as related to self-control. This course is designed for students majoring in psychology or interested in the field. AA/AS; CSU; UC.

230 Psychology of Lifespan Development
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Psychology 101 with a grade of “C” or better, or equivalent.
This course is a study of the psychological development of humans in all their sociocultural diversity from conception to death. Emphasis is placed on the major theoretical paradigms related to growth and change and the variety of factors that shape similarities and differences in life. This course is intended for students majoring in psychology. (FT) AA/AS; CSU; UC.

245 Abnormal Psychology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a comprehensive survey of the troubled patterns of abnormal behavior. Emphasis is placed on the theoretical models as they relate to assessment, diagnoses, etiology, treatment, and prognosis of psychopathologies. Topics also include legal and ethical issues related to abnormal psychology. This course is designed for psychology majors and all students interested in abnormal psychology. (FT) AA/AS; CSU; UC.

255 Introduction to Psychological Research
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Psychology 101 with a grade of “C” or better, or equivalent.
This course is an introduction to scientific methodology in psychology. Emphasis is placed on descriptive, experimental, and applied research. Students learn the American Psychological Association writing style for empirical report writing. This course is intended for psychology majors and behavioral science students interested in the processes of research. AA/AS; CSU; UC.

258 Behavioral Science Statistics
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is an introductory study of statistics for the Behavioral Sciences. Emphasis is placed on acquainting students with the concepts underlying statistical methods and research approaches, basic statistical analyses, and principles. Topics include data collection; descriptive and inferential statistics; measures of central tendency, dispersion, relative standing, and relationship; probability; hypothesis evaluation; and tests for treatment effects. This course is intended for students majoring in the behavioral/social sciences or those interested in applied statistics. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 119, Biology (BIOL) 200 or Psychology (PSYC) 258 combined: maximum credit, one course.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
259 Behavioral Science Statistics Laboratory
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Corequisite: Psychology 258.
This laboratory course offers students practice in using statistical analysis software for the behavioral sciences. Emphasis is placed on data entry, graphing, hypothesis testing and statistical analyses. This course is intended for psychology and other behavioral science majors and anyone interested in using statistical analysis software for research purposes. (FT) AA/AS; CSU.

260 Introduction to Physiological Psychology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Psychology 101 with a grade of “C” or better, or equivalent.
Students learn about the physiological determinants of behavior. Subjects include behavior evolution, the nervous system, and endocrine glands as well as their relationship to perception, learning, motivation, emotion, and personality. AA/AS; CSU; UC.

276 Field Work in Psychological Services
2 hours lecture, 3 hours other, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This supervised field experience course enables the student to be of service to the community while learning about the function of human care services. Emphasis is placed on providing students with the chance to explore the varied career choices in the field of psychology as well as on practical experience with basic helping skills in current social service situations. This course is intended for students who want to work with people in human care services. (FT) AA/AS; CSU.

Behavioral Sciences: Social Work

Description
Social Work is an applied behavioral science that emphasizes the application of behavioral science principles in a variety of cultural contexts. Social Work students are expected to think critically and scientifically about behavior, to apply the principles of the behavioral sciences, and to understand the role of values in diverse cultural settings. As a profession, social work focuses on methods for helping people from many different social groups to improve the quality of their lives.

Program Goals
The Social Work program has two primary goals. The first is to provide students with the basic science and social work courses that prepare them for entry-level work in the field and/or transfer to four-year colleges, universities or other institutions. The second goal is to provide students with general knowledge related to the behavioral sciences that compliments their interests in the field of Social Work.

Career Options
Most career options directly related to professional (licensed) social work require graduate level degrees. However, there are applied and paraprofessional occupations that value the associate degree. Social services departments, hospitals, academic and community mental health facilities, child care programs, services for the aged, alcohol and other drug treatment programs, family services agencies, and other community organizations are all examples of settings which employ both professional and paraprofessional social service providers. Education at each academic level enhances skills, knowledge, and employability.

Academic Programs
The associate degree in social work requires completion of the courses listed for the degree. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Associate in Science Degree: Behavioral Sciences

Emphasis in Social Work

Behavioral Sciences:

Sociology

Description
Sociology is a behavioral science that emphasizes relationships among people from simple face-to-face relationships through formal organizations to whole societies. Sociology’s subject matter ranges from the intimate family to the hostile mob, from crime to religion, from divisions of race and social class to the shared beliefs of a common culture, from the sociology of work to the sociology of sports. Sociologists seek to understand interaction of individuals with institutions and social organizations and the norms, values, beliefs, and traditions that make social life possible and meaningful. It stresses how behavior is influenced by societal structures and how consensus (agreement) and conflict (disagreement) among groups affects society. Sociology students are expected to be able to think critically and scientifically about human behavior, and to be able to apply the principles of sociology to an understanding of behavior.

Program Emphasis
The sociology program has two goals. The first goal is to provide basic sociology courses that are foundations for further understanding of other courses in sociology and related fields and to prepare for transfer to baccalaureate institutions for further study. The second goal is to offer courses that may provide additional information regarding sociology of interest to community college students, or that are applications of sociological principles.

Transfer Information
Common university majors related to the field of Social Work include: Counseling, Social Work.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses
There are no courses specific to the Social Work discipline.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Behavioral Sciences

Academic Programs
The associate degree with a major in Behavioral Sciences with an emphasis in Sociology requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Recommended electives: Sociology 290; transferable computer, mathematics and philosophy courses.

Transfer Information
Common university majors related to the field of Sociology include: Behavioral Science, Community Studies, Gerontology, Law, Policy Analysis, Social Ecology, Social Science, Sociology, Social Work, Counseling.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Sociology (SOCO)

101 Principles of Sociology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
The basic facts, concepts and generalizations of sociology are covered. Content includes the scientific study of social interaction and organization with special reference to present-day America, including cross-cultural and multicultural analysis. This course is useful for those considering careers in counseling, teaching, social work, and nursing. AA/AS; CSU; UC
Transfer Limitation: Sociology (SOCO) 101 and Black Studies (BLAS) 115 combined: maximum credit, one course.

110 Contemporary Social Problems
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course requires students to identify and analyze present day social problems in the United States, with emphasis on sociological factors involved, while including cross-cultural and multicultural analysis. Students will use scientific methods of approaches to and criteria for evaluating proposals for social betterment. This course is useful for students pursuing careers in criminology, counseling, education, law, medicine, and dental hygiene. (FT) AA/AS; CSU; UC.

125 Sociology of the Family
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of the structures and functions of the family as a social, cultural and historical institution in the United States and throughout the world. Emphasis is placed on an analysis of the family’s relationship to economic structures,
political institutions and belief systems. Topics include definitions of family, gender roles and family stability. This course is intended for students majoring in sociology, psychology, social work and counseling as well as any student interested in the study of the family as an institution. (FT) AA/AS; CSU; UC.

150 Sociology of Latinos/Latinas
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6. This course is an in-depth sociological examination of the Latino Culture. Students focus on family structure and gender roles, religion, economics, racism, social movements, border issues and education. Emphasis is placed on social interactions and individual identity formation. This course is designed for sociology majors or any student interested in social sciences. (FT) AA/AS; CSU; UC.

201 Advanced Principles of Sociology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Level R5 and W5.
A course designed to continue the examination of the major ideas that have shaped contemporary sociology. Special attention is given to classical social thinkers and to the origin of sociology as a science. AA/AS; CSU; UC.

223 Globalization and Social Change
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; Sociology 101 with a grade of “C” or better, or equivalent.
This course evaluates the social and political changes brought on by globalization among industrialized, industrializing, and underdeveloped nations. It presents arguments and theories for and against globalization and supplements with empirical examples. The course is useful for those considering careers in law, politics, business, teaching, and non-profit organizations dealing with human rights issues, political advocacy, and international affairs. (FT) AA/AS; CSU; UC.

### Description

Biology is a natural science that focuses on physical and chemical processes of living organisms. This discipline explores how organisms acquire and use energy to maintain homeostasis, how they reproduce, and how they interact with each other and their environment. Scientific processes are emphasized as a means of answering these biological questions. Biologists rely heavily on a chemistry foundation since living organisms are chemical systems.

### Program Emphasis

The biology program serves four areas of study. First, it provides a broad background of studies for the biology major preparing for transfer to a four-year institution. Second, the Applied Biology curriculum provides preparation for entry level employment as a biotechnology technician. The biology program also offers support courses in human anatomy, human physiology and general microbiology which may be used to satisfy prerequisites for nursing programs and other allied health fields. Fourth, the biology program provides courses in natural science to fulfill general education requirements.

### Faculty Office Telephone

- Roya Lahijani A-229 619-388-3289
- Michael J. Leboffe A-208 619-388-3285
- Erin Rempala A-227 619-388-3712
- David Singer A-227 619-388-3277

**AA/AS = Associate Degree Applicable**
**CSU = California State University Applicable**
**UC = University of California Applicable**
Career Options
The following list is a sample of the many career options available for the biology major. A few of these require an associate degree; most require a baccalaureate degree and some require a graduate level degree: agricultural consultant, animal health technician, biotechnology technician, dentist, environmental consultant, field biologist, forester, horticulturist, high school or college teacher, marine biologist, microbiologist, public health technician, physician, pharmaceutical researcher, research biologist and veterinarian. In addition, a background in biology may be required for the following: registered nurse, physical therapist, respiratory therapist, dental hygienist, medical technician, physician's assistant and optometrist.

Academic Programs
The three associate degrees in biology require completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The Associate Degree requires a minimum of 60 units.

Student Learning Outcomes
All Biology students will be able to:

- Apply core biological concept that service as the foundation for higher-level science courses. These include theories of evolution, natural selection, processes of scientific inquiry, and proper laboratory techniques, among others.
- Evaluate the quality of scientific methodology when it is report by the popular media.
- Describe the relationship between the process of science, human culture and the environment.

Students in the Applied Biology track will also be able to:

- Apply the skill sets necessary to work in the biotechnology industry.
- Describe applications, regulations, ethical, legal and social issues related to biotechnology.
- Demonstrate the soft skill sets necessary to acquire employment in the biotechnology field.

Student satisfying prerequisites of nursing programs and other allied health fields will also be able to:

- Demonstrate a working knowledge of microbial systems, their role in Nature and their impact on humans.

Certificate of Performance

Applied Biotechnology*

Students may take the specific biotechnology courses (Biology 206) and receive a Certificate of Completion authorized and issued by the academic department. It is not intended to nor will it be recognized as an official state approved program. It is intended to provide students with intensive laboratory skills development experience to meet entry-level employment requirements in the biotechnology industry.

Total Units = 29

**Recommended electives:** Physics 180A, 180B, 181A, 181B.

**Transfer Information**

Common university majors related to the field of Biology include: Agricultural Science, Biochemistry, Bioengineering, Bioinformatics, Biological Sciences, Biophysics, Botany and Plant Sciences, Cell Biology, Conservation, Developmental Biology, Ecology, Entomology, Exercise Science, Genetics, Kinesiology, Marine Biology, Medical Sciences, Microbiology, Molecular Biology, Natural Sciences, Neuroscience, Nursing, Nutrition and Food Science, Psychobiology, Toxicology, Zoology and Animal Science.

**Course Requirements for Transfer Students**

Students who plan to transfer to a four year college or university and earn a bachelor's degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences. This degree may be individually tailored to each student's specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

**Courses**

**Biology (BIOL)**

**91 Employment Skills In Biotechnology**

3 hours lecture, 3 hours lab, 4 units

*Letter Grade or Pass/No Pass Option*

Advisory: English 48 and English 49 or English 47, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Mathematics 46 with a grade of “C” or better, or equivalent or Assessment Skill Level M40.

Limitation on Enrollment: This course is not open to students with previous credit for Biology 265C.

This course integrates conceptual and technical biotechnology skills with interpersonal and communication skills essential for entry level employment in biotechnology. Emphasis is placed on literature and employment database searching, use of data analysis software, resume writing, interview techniques, seminar presentations, team building, independent learning, time management, collaboration, hands on experience in the field, and service learning. This course requires field trips to area biotechnology companies and research.

**Transferable Courses**

**AA/AS = Associate Degree Applicable**

**CSU = California State University Applicable**

**UC = University of California Applicable**
institutions. This course is intended for students seeking entry level employment in biotechnology. (FT) AA/AS.

101 Issues in Environmental Biology
3 hours lecture, 3 hours lab, 4 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. Limitation on Enrollment: This course is not open to students with previous credit for Biology 100. This is a course in contemporary issues in environmental biology. Topics include basic ecological principles, biodiversity, human population dynamics, human resource management, and pollution. These are viewed within the context of their environmental, economic, cultural, and ethical setting. Issues are examined utilizing the process of scientific inquiry. The laboratory is coordinated with lectures, and emphasizes the environmental issues of Southern California. This course is intended for students majoring in sustainability, business and peace studies, as well as all students interested in environmental science. (FT) AA/AS; CSU; UC.

107 General Biology - Lecture and Laboratory
3 hours lecture, 3 hour lab, 4 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 or English 105 with a grade of “C” or better, or equivalent; Mathematics 46 with a grade of “C” or better, or equivalent or Assessment Skill Level M40. Limitation on Enrollment: This course is not open to students with previous credit for Biology 105, Biology 106, Biology 210A, or Biology 210B. This course is an examination of living organisms and their environment. The lecture and laboratory are intended for students planning on taking more advanced courses in the Life Sciences, or students majoring in Education, Child Development, Physiological Psychology or related areas. Topics include the fundamental chemical and physical processes common to all living organisms, the interactions between organisms and their environment, classical and molecular genetics, metabolism, plant and animal anatomy and physiology, animal behavior, evolution, cellular and molecular biology, and the experimental and cognitive processes used to examine these fields. (FT) AA/AS; CSU; UC Transfer Limitation: No credit for Biology (BIOL) 105, 106 or 107 if taken after 210A, 210B.

109 Preparation for Biotechnology
3 hours lecture, 6 hours lab, 5 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40. Limitation on Enrollment: This course is not open to students with previous credit for Biology 265B. This course is intended as a preparation course for students interested in further studies in biotechnology. The course provides the fundamental knowledge in mathematics, chemistry, biology, and microbiology for additional biotechnology coursework. Topics include the fundamental chemical processes common in prokaryotic and eukaryotic biology, chemistry of biomolecules, cellular and molecular biology, gene expression and genetic engineering. The laboratory experience provides basic skills and techniques essential to advanced biotechnology courses. (FT) AA/AS; CSU.

110 Introduction to Oceanography
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a survey of physical, chemical, geological, and biological oceanography. This course is designed for all students interested in marine science. (FT) AA/AS; CSU; UC.

111 Cancer Biology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Limitation on Enrollment: This course is not open to students with previous credit for Biology 123. This is an introductory course that examines the basic biology of cancer and the approaches currently taken in cancer treatment. Basic principles of cell biology and genetics are explored to unravel the mechanisms of cancer development and the development of effective cancer therapeutics and preventative measures. The course emphasizes the process of scientific inquiry to illustrate how cancer biologists gather and analyze data in order to better understand and treat this disease estimated to be the number two killer in the US. The course is
intended for all that want to learn about the types of cancer, causes of cancer, treatments of cancer, and the social impact of this disease on patients, families and society. (FT) AA/AS; CSU; UC.

115 Marine Biology
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
This course is a study of marine biology. Emphasis is placed on marine organisms, their natural history and special adaptations to the ocean environment. Topics include the marine environment, plankton, marine plants, marine invertebrates, fishes, marine birds, marine reptiles, and marine mammals. Students participate in several field trips to local marine habitats and museums. This course is intended for all students interested in marine biology. (FT) AA/AS; CSU; UC.

130 Human Heredity
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105, with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course introduces students to the concepts and applications of human heredity. It deals with both classical Mendelian genetics and modern molecular genetics. Topics include gamete formation, human karyotypes, genetic crosses, sex-linked inheritance, structure and function of DNA and RNA, gene expression, transcription and translation, genetic engineering, and population genetics. This course is designed for students interested in biology and human heredity. (FT) AA/AS; CSU; UC.

135 Biology of Human Nutrition
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48, English 49 and Mathematics 34A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5, W5 and M20.
This is an introductory course that relates biological principles to human nutrition. This course integrates concepts from biology, biochemistry, microbiology, physiology, and psychology to explain the interaction between nutrients and the human body. The scientific process used to establish nutrient requirements, address dietary fads, and correlate diet and health is explored. Topics include food composition and diet analysis; digestion, absorption and nutrient utilization; psychological and cultural aspects of diet; food value, cost, and sustainable food production; world food and population issues; and nutritional needs at different stages of life. This course is intended for all that want to learn about how diet and nutrition impact their own health, as well as the health of the global population and the environment. (FT) AA/AS; CSU; UC.

180 Plants and People
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This is an introductory course that examines the interdependence of humans and plants. This course is intended for all that want to learn about the uses of plants, especially those students with an interest in biology, anthropology, environmental sciences, and/or agriculture. Emphasis is on plant ecology as well as the basic biology of plant groups that provide us with food, medicine, recreation, decoration, and material goods as well as those that produce stimulating, intoxicating, or harmful effects. Basic principles of taxonomy, cell structure, plant physiology, plant anatomy, ecology and genetics are explored as they relate to these plants. Current environmental and economic issues and the role of molecular genetics in future plant development and the importance of genetic diversity are also examined. (FT) AA/AS; CSU; UC Transfer Limitation: Credit will only be granted for either Biology (BIOL) 180 or 215 and 250 combined. No credit for Biology (BIOL) 180, 215 or 250 if taken after 210A or 210B.

200 Biological Statistics
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Biology 107 or Biology 210A, each with a grade of “C” or better, or equivalent and Mathematics 116 with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 or English 105 with a grade of “C” or better, or equivalent.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Advisory: Biology 107, Biology 210A and Mathematics 116 completed within five years of enrollment in Biology 200.

This is an introductory course in statistics using biological examples and experimental design. Students learn methods and gain experience in defining and solving quantitative problems in biology. Descriptive and inferential statistics, basic probability, binomial and normal distributions are introduced. Students learn to estimate population parameters, test hypotheses, linear regression and correlation using clinical and biological data and experiments. This course is intended for students majoring in biological science. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 119, Biology (BIOL) 200 or Psychology (PSYC) 258 combined: maximum credit, one course.

205 General Microbiology
3 hours lecture, 6 hours lab, 5 units
Grade Only

Prerequisite: Biology 107 and Chemistry 100 and 100L or Chemistry 152 and 152L, each with a grade of “C” or better, or equivalent.

This introductory course covers fundamental aspects of microbiology including taxonomy, structure, physiology, reproduction, genetics, control, immunology, diversity, and host-symbiont relationships. Lab work emphasizes basic techniques for culturing, staining, counting, and identifying microorganisms. This course is intended for students pursuing careers in allied health fields and may meet entry requirements for these allied health fields. (FT) AA/AS; CSU; UC.

206 Biotechnology Instrumentation
3 hours lecture, 9 hours lab, 6 units
Grade Only

Prerequisite: Biology 109 with a grade of “C” or better, or equivalent.

This is an advanced lecture/laboratory course implementing major techniques used in the biotechnology industry. Topics include tissue culture methods, purification and analysis of nucleic acids and proteins, DNA amplification and cloning procedures, protein identification methods, scientific information retrieval, and technical writing. This course is intended for students seeking employment opportunities in biotechnology. (FT) AA/AS; CSU.

210A Introduction to the Biological Sciences I
3 hours lecture, 3 hours lab, 4 units
Grade Only

Prerequisite: Chemistry 152 and Chemistry 152L, each with a grade of “C” or better, or equivalent completed within five years of enrollment in BIOL 210A and Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50 completed within five years of enrollment in BIOL 210A.

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.

Advisory: Concurrent enrollment in Chemistry 200 and Chemistry 200L, each with a grade of “C” or better, or equivalent.

This course covers biological chemistry, cell structure and function, cellular metabolism, classical and molecular genetics, and the molecular basis of evolutionary biology. This is the first semester of a two-semester sequence designed for biological science and pre-professional majors. (FT) AA/AS; CSU.

210B Introduction to the Biological Sciences II
3 hours lecture, 3 hours lab, 4 units
Letter Grade or Pass/No Pass Option

Prerequisite: Biology 210A with a grade of “C” or better, or equivalent; and Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50.

This is an introductory course which is a continuation of Biology 210A. This course emphasizes the developmental and physiological processes of the Five Kingdoms, the phylogenetic relationships of major evolutionary groups of organisms, behavior, and ecological principles including population and community ecology. (FT) AA/AS; CSU.

215 Introduction to Zoology
2 hours lecture, 6 hours lab, 4 units
Letter Grade or Pass/No Pass Option

Prerequisite: Biology 107 with a grade of “C” or better, or equivalent.

Advisory: English 48 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5.

This is an introductory course that surveys the basic principles of animal biology. These principles include morphology, life processes and evolutionary relationships of the invertebrates and vertebrates. Laboratories include the identification of organisms, dissection and recognition of the anatomy of varied animal representatives, embryological development, histology, behavior and physiology. This course is
intended for students majoring in Biological Science, Allied Health and Animal Science. (FT) AA/AS; CSU; UC Transfer Limitation: Credit will only be granted for either Biology (BIOL) 180 or 215 and 250 combined. No credit for Biology (BIOL) 180, 215 or 250 if taken after 210A or 210B.

230 Human Anatomy
2 hours lecture, 6 hours lab, 4 units
Grade Only
Prerequisite: Biology 107, or Biology 160 with a grade of “C” or better, or equivalent.
This course is a systems approach to the study of human body structure from the microscopic level of organization to the gross level. Structure related to function from study of histological slides, photomicrographs, anatomical models and charts, and mammalian (cat) dissection. This course is intended to meet the requirements of students in the fields of nursing, physical therapy, recreational therapy, occupational therapy, athletic training, chiropractic, psychology, physical education, and biology or those who wish to extend their knowledge of the human body beyond the scope of introductory biology. (FT) AA/AS; CSU; UC.

231 Media Experiences in Human Anatomy
1 hour lecture, 1 unit
Pass/No Pass
Corequisite: Biology 230.
This course is self-paced study of anatomy through the use of computer software, microscope slides, anatomical models, and graphics. This course is intended to meet the requirements of students in the fields of nursing, physical therapy, recreational therapy, occupational therapy, athletic training, chiropractic, psychology, physical education, and biology or those who wish to extend their knowledge of the human body beyond the scope of introductory biology. AA/AS; CSU.

232 Experience in Human Dissection
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Biology 230 with a grade of “C” or better, or equivalent.
Advisory: Biology 230 completed within five years of enrollment in Biology 232.
Biology 230 Preregistration counseling with instructor is highly recommended.
This course provides a supervised study and actual experience in human dissection. Topics include dissection techniques and human anatomy. This course is intended for students pursuing careers in nursing, medicine, and other allied health professions. (FT) AA/AS; CSU.

235 Human Physiology
3 hours lecture, 3 hours lab, 4 units
Letter Grade or Pass/No Pass Option
Prerequisite: Biology 107 with a grade of “C” or better, or equivalent.
Advisory: Biology 230, Chemistry 100 and Chemistry 100L, each with a grade of “C” or better, or equivalent.
This course is an introductory study of human body functions. Emphasis is placed on the nervous, endocrine, muscular, cardiovascular, immune, digestive, respiratory, urinary and reproductive systems. This course is intended for students majoring in nursing, allied health, psychology, biology and physical education. (FT) AA/AS; CSU; UC.

290 Independent Study
Hours by Arrangement, 1-3 units
Letter Grade or Pass/No Pass Option
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
The course consists of individualized research problems, conferences with the instructor at prearranged intervals and a final report on the work completed. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.
Black Studies

Award Type
Associate in Arts Degree
Black Studies 21*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
The Black Studies program at City College provides an interdisciplinary and systemic approach to the historical and contemporary study of African people in Africa and in the Americas. The program is designed to provide enrichment in the social sciences and humanities by giving students in these areas the opportunity to link the tools of formal analysis to a specific cultural area in the African experience. The student's career and future alternatives may be increased by adding a specialized dimension at the undergraduate level. Students preparing for transfer to a four-year university may major in a African Studies or humanities, law, social work, or public administration. This will enhance their opportunities in local, national and international organizations, both public and private, through participation in the program.

Program Emphasis
Black Studies courses are taught in English. The curriculum includes transfer courses which help to meet District and baccalaureate general education and multicultural requirements. The program offers courses in African history, as well as art, economics, United States history, literature, music, Psychology, Sociology and politics from a Black perspective.

Faculty
Alazar Tesfamariam MS-440G 619-388-3366
Darius Spearman MS-440L 619-388-3187

Career Options
Most careers related to Black Studies require education beyond the associate degree. A list of some sample careers include: social scientist, counselor, international business person, historian, social worker, teacher and public administrator.

Student Learning Outcomes
Upon successful completion the student will acquire the skills and knowledge for preparation in:

- Evaluating the aesthetics, social, and political significance of Black artistic, musical and literary expression from its African origins to the present.
- Analyzing the underlying causes of such social problems as racism and sexism and class conflict.
- Critically analyzing current social policies and their historical origins, both on the local and national levels, aimed at addressing current social problems that most effect African-Americans.
- Evaluating the role of active citizens who will be engaged in the global community.

Academic Programs
The associate degree in Black Studies requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Associate in Arts Degree: Black Studies

Courses Required for the Major:

Recommended electives: Black Studies 165, 290, 296.
Transfer Information
Common university majors related to the field of Black Studies include: Africana Studies, Afro-American Studies, Black Studies, Ethnic Studies, Liberal Studies.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor's degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student's specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Black Studies (BLAS)

100 Introduction to Black Studies
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is an overview of the Black Studies discipline including its social and academic origins, goals and development. Emphasis is placed on providing students with an understanding of the fundamental areas of study within the field and of the interdisciplinary approach to studying the African experience in America and the world. This course is intended for students majoring in Black Studies and all students interested in general knowledge of the Black experience. AA/AS; CSU; UC.

104 Black Psychology
3 hours lecture, 3 units
Letter Grade or Pass/Pass No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introduction to psychological concepts and principles as they relate to African American behaviors, perspectives and lifestyles. Emphasis is placed on comparing Euro-American theories as they have been traditionally applied to African Americans with contemporary Afri-centric theories and the ways in which they may be applied to create a greater understanding of the behaviors, lifestyles and psychological needs of African Americans. This course is intended for students majoring in Black Studies and all students interested in the multicultural aspects of psychology. (FT) AA/AS; CSU; UC Transfer Limitation: Psychology (101) and Black Studies (BLAS) 104 combined: maximum credit, one course.

110 African American Art
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
This course is a historical survey of African American art from 1650 to present, including the influence of African, European and Native American art styles and traditions. This course is intended for students majoring in Black Studies, Art and those who are interested in history, humanities, teaching, travel, and cultural enrichment. (FT) AA/AS; CSU; UC.

115 Sociology from a Black Perspective
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of African American society and culture. Emphasis is placed on analyzing the origins, nature, structure and dynamics of African American life from a systemic perspective. (FT) AA/AS; CSU; UC Transfer Limitation: Sociology (SOCO) 101 and Black Studies (BLAS) 115 combined: maximum credit, one course.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
116 Contemporary Social Problems from a Black Perspective
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 or English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 or W5.
This course is a sociological analysis of institutional racism, the process of social change and how it affects African Americans. Emphasis is placed on broad contemporary issues as they relate to African Americans, such as the prison industrial complex, gender and health care. This course is intended for Black Studies majors and anyone interested in history, teaching and current events. (FT) AA/AS; CSU; UC.

120 Black Music
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of African American musical forms and styles in historical perspective. Emphasis is placed on providing students with an appreciation for the African roots of a variety of African American music genres. This course is intended for students majoring in Black Studies and anyone interested in the history of African American music. (FT) AA/AS; CSU; UC.

130 The Black Family
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of the African American family. Emphasis is placed on the socio-cultural and psychological issues surrounding the history of the Black family in America and contemporary African American dating, marriage and divorce patterns, gender roles and extended family, kin and community networks. (FT) AA/AS; CSU; UC.

135 Introduction to Black Politics
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 or English 49 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5 or W5.
This course is a survey of African American experiences with the United States political system from the Colonial era to the present. Emphasis is placed on the role of race in American political culture, practices and institutions as well as the ideas, tactics and organizations developed and employed by African Americans in their struggle for political power. This course is intended for students who wish to major in Black Studies and/or who wish to gain general knowledge of the Black experience. (FT) AA/AS; CSU; UC.

140A History of the U.S., Black Perspectives
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a survey of United States History from the Colonial period to 1877 with emphasis on African American experiences and contributions. Course content focuses on political, social, economic, and cultural development of the country. This course is intended for all students interested in the history of the U.S. from an African American perspective. (FT) AA/AS; CSU; UC Transfer Limitation: History (HIST) 109-110, 141-142, 150-151, Black Studies (BLAS) 140A-140B, and/or Chicano Studies (CHIC) 141A-141B combined: maximum credit, one series.

140B History of the U.S., Black Perspectives
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a survey of the history of the United States from Reconstruction to the present with emphasis on African American experience and contributions. Course content focuses on political, social, economic, cultural, and intellectual trends, the persistence of racism, and the struggle for full equality for all Americans. This course is intended for all students interested in the history of the U.S. from an African American perspective. AA/AS; CSU; UC Transfer Limitation: History (HIST) 109-110, 141-142, 150-151, Black Studies (BLAS) 140A-140B, and/or Chicano Studies (CHIC) 141A-141B combined: maximum credit, one series.
145A Introduction to African History  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. This course is a survey of African History from the Stone Age through the beginnings of European colonization in the 1870s. Emphasis is placed on providing students with a broad presentation of the geographical features of the continent and its connections to the rest of the world, local and regional cultural, political, economic and social institutions, slavery, European conquest and colonization, and African resistance to colonization. This course is intended for students majoring in black studies or history and for all students interested in African history. (FT) AA/AS; CSU; UC.

145B Introduction to African History  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. This course is a survey of African History from the late nineteenth century to the present. Emphasis is placed on providing students with a broad presentation of European colonization and colonial rule, African independence movements, nation-building, economic development and the continuing quest for African unity. This course is intended for students majoring in black studies or history and for all students interested in African history. (FT) AA/AS; CSU; UC.

150 Black Women in Literature, Film and the Media  
3 hours lecture, 3 units  
Grade Only  
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course analyzes stereotypical, contemporary and self images of Africana women in literature, film and media. This course is designed for Black Studies majors and all students interested in literature, film and media. (FT) AA/AS; CSU; UC.

155 African American Literature  
3 hours lecture, 3 units  
Letter Grade or Pass/Pass No Pass Option  
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. This course is a survey of African American cultural expression through language and literature in historical perspective. Emphasis is placed on the cultural, ethnic, and political dynamics that influence literary, musical and theoretical texts. Topics include African praise songs, slave narratives, African American folktales, poetry, lyrics, spirituals, raps, short stories, novels, speeches and essays. This course is for students majoring in Black Studies and all students interested in literature from an African American perspective. (FT) AA/AS; CSU; UC.

165 Sexuality and Black Culture  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. Limitation on Enrollment: This course is not open to students with previous credit for Black Studies 265. This course is an in-depth study and analysis of the social and psychological factors that determine the nature of human sexuality in the African-American community. This course is intended for students majoring in Black Studies and all students interested in sexuality and the African-American community. (FT) AA/AS; CSU; UC Transfer Limitation: Psychology (PSYC) 137 and Black Studies (BLAS) 165 combined: maximum credit, one course.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Business Studies

Description  
A wide variety of programs are offered for both transfer and career-focused students. Employment certificates of performance, certificates of achievement and associate degree programs are available to students interested in entry-level employment or in upgrading business skills.

Program Emphasis  
The Business Studies department offers five program areas. These include the Business Studies Transfer area and four areas with entry level vocational coursework: Small Business Accounting, Small Business Management, Retail Management, and
Real Estate. There are many certificates in each area that students may take to prepare them for certain job skills. However only one associate degree can be awarded. A student must choose an associate degree in Transfer or Small Business Accounting or Small Business Management, Retail Management, or Real Estate. See each area for course requirements for specific vocations.

**Careers**

Career opportunities available upon successful completion of each of the Business Studies awards are described in each area section. Most careers listed may require education beyond the associate degree level.

**Student Learning Outcomes**

Students who complete the program will be able to:

- Analyze, organize, and compose various types of written and oral business communications.
- Develop clear, concise, and persuasive letters, memorandum, and reports.
- Understand the legal system and apply laws that govern business in America: including judicial and administrative systems, ethics, contracts, torts, bankruptcy, agency, business organizations, security regulations, regulation of property, and protection of intellectual property interest-to evaluate legal solutions to various business situations.
- Analyze and solve business problems using computers and software packages including data processing systems, decision support systems, and systems analysis.
- Study macro-economic situations and analyze how changes in income levels, employment and output, economic stability and growth, fiscal and monetary policy affect decision-making in business organizations.
- Articulate, analyze, and evaluate their own beliefs/positions in the context of meaningful philosophical inquiry and use these beliefs to successfully manage a business organization.
- Develop entry-level job skill sets in one or more areas-tax preparation, bookkeeping, owning and operating a small business, managing in a retail environment, or real estate sales person.
- Develop critical thinking skills required for transfer in business administration, accounting, economics, finance, or real estate.

**Academic Programs**

The associate degree in Business Studies requires completion of the courses listed in each degree emphasis. Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of the catalog. The Business Studies Transfer area provides lower division transfer preparation for the School of Business Administration at San Diego State University. The associate degree requires a minimum of 60 units.

Small Business Accounting

Certificate of Performance: Small Business Bookkeeper*

The Small Business Bookkeeper’s certificate prepares for entry-level employment as a small business bookkeeper.

Student Learning Outcomes

Students who complete the certificate will be able to:

- Accurately complete an accounting cycle: preparing journal entries; posting to the general ledger; and preparing a worksheet, financial statements, adjusting and closing entries and post closing trial balance.
- Accurately prepare and organize accounting records and produce financial statements for a small business.
- Accurately prepare all the state and federal payroll tax forms required by a small business in California.
- Accurately complete an accounting cycle using a computerized accounting program.

BUSE 100 Introduction to Business 3

Total Units = 7
Real Estate

Description:
The real estate program is designed for those interested in careers in real estate or for professionals wishing to upgrade their skills. The program offers certificates for Real Estate Salesperson, Real Estate Broker, and Real Estate Appraisal, as well as an Associate in Science Degree in Real Estate. The Certificate of Completion: Real Estate Salesperson provides students with the coursework required by the California Department of Real Estate (DRE) for qualification to take the real estate salesperson license examination. Completion of the Certificate of Achievement: Real Estate Broker and the Real Estate Associate in Science Degree provide coursework that meets the DRE's educational requirements for real estate broker licensure in California. Completion of the courses for the Certificate of Completion: Real Estate Appraisal fulfill the educational requirements of the Office of Real Estate Appraisers (OREA) for appraisal licensure.

See individual certificates and degrees for additional information.

Goals:
Give students greater choice of electives in the real estate business.

Emphasis:
Emphasis is placed on preparing students to become real estate brokers in California.

Career Options:
Real estate sales and appraisal; Real estate broker.

Certificate of Performance: Real Estate Salesperson*

This certificate is designed for students interested in exploring a career in real estate sales. Real Estate 101, Real Estate 120, and one additional course from the elective list are required to take the Real Estate Salesperson’s License Examination. For questions about DRE licensure requirements, contact the DRE at 619-525-4192 or www.dre.ca.gov.

Student Learning Outcomes
Students who complete the certificate will be able to:

- **AA/AS = Associate Degree Applicable**
- **CSU = California State University Applicable**
- **UC = University of California Applicable**
• Analyze the fundamentals of the economics of land ownership and use and the responsibility of broker, owner and purchaser; terminology and definitions and the varied vocational opportunities in the field.

• Learn the day-to-day operations in a real estate office including listings, valuations, prospecting, selling, financing, exchanges, taxation and specialized brokerage operations.

Course Requirements:

**Courses:**
- REAL 101 Real Estate Principles 3
- REAL 120 Real Estate Practice 3

**Select three to four units from the following:**
- ACCT 102 Basic Accounting 3
- ACCT 116A Financial Accounting 4
- BUSE 140 Business Law & the Legal Environment 3
- ESCR 101 Escrow Procedures - Beginning 3
- REAL 105 Legal Aspects of Real Estate I 3
- REAL 110 Principles of Real Estate Appraisal I 3
- REAL 115 Real Estate Finance I 3
- REAL 125 Real Estate Economics 3
- REAL 130 Real Property Management 3
- REAL 151 Real Estate Computer Applications 3
- REAL 166 Common Interest Development 3

**Total Units = 9-10**

* A Certificate of Performance is a departmental award that does not appear on the student's transcript. All courses must be completed within the San Diego Community College District.

**Certificate of Achievement: Real Estate Broker**

The Real Estate Broker Certificate of Achievement meets the educational requirements for the Department of Real Estate (DRE) broker's licence in California. An applicant for the broker licence examination must have completed eight college level courses in addition to fulfilling the experience requirement of two years full-time real estate sales work in the last five years or the equivalent outlined in the California DRE "Instructions to License Applicants." For questions about DRE licensure requirements contact the DRE at 619-525-4192 or at www.dre.ca.gov.

**Student Learning Outcomes**

Students who complete the certificate will be able to:

• Analyze the fundamentals of the economics of land ownership and use and the responsibility of broker, owner and purchaser; terminology and definitions and the varied vocational opportunities in the field.

• Learn practical application of the law to legal problems arising from real estate transactions, statutory enactment and case law, legal instruments, zoning ordinances, and city and county planning decisions.

• Learn the Uniform Standards of Professional Appraisal Practice (USPAP), USPAP rules and standards, a general understanding of The Appraisal Foundation (TAF), the Appraisal Standards Board (ASB), the Appraisal Qualifications Board (AQB), and the Appraisal Subcommittee (ASC).

• Learn types of financing sources; loans and loan processing; government loans, methods of financing residential properties; with an overview of financing business, income, commercial and industrial properties; and the property appraisal and taxation.

• Learn the day-to-day operations in a real estate office including listings, valuations, prospecting, selling, financing, exchanges, taxation and specialized brokerage operations.

• Evaluate the trends and factors that affect the value of real estate; the nature and classification of land economics; the development of property, construction and subdivision, economic values and real estate evaluation; real estate cycles and business fluctuations; residential market trends; real property and special purpose property trends.

Accounting (ACCT)

102 Basic Accounting  3 hours lecture, 3 units  Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M40.

This course is a study in the theory and practice of the accounting process. Emphasis is placed on accounting transactions and bookkeeping. Topics include business documents, journals and ledgers, opening, adjusting and closing entries, and payroll. This course is designed for students who want a practical approach to accounting. It can be used as preparation for the Certified Public Accountant (CPA) exam. (FT) AA/AS; CSU.

116A Financial Accounting  4 hours lecture, 4 units  Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M40.

This introductory course shows students what financial accounting is, why it is important, and how it is used by investors and creditors to make decisions. It covers the accounting information system, and the recording and reporting of business transactions with a focus on the accounting cycle, the applications of generally accepted accounting principles, the classified financial statements, and statement analysis. This course also includes issues related to asset, liability, and equity valuation; revenue and expense recognition; cash flows; internal controls; and ethics. (FT) AA/AS; CSU; UC.

116B Managerial Accounting  4 hours lecture, 4 units  Grade Only

Prerequisite: Accounting 116A with a grade of “C” or better, or equivalent.

This course is a study of how managers use accounting information in decision-making, planning, directing operations, and controlling. The course focuses on cost terms and concepts, cost behavior, cost structure, and cost-volume-profit analysis. It examines profit planning, standard costs, operations and capital budgeting, cost control, and accounting for costs in manufacturing organizations. This course is for students who desire to look at accounting from a management perspective. (FT) AA/AS; CSU; UC.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
120 Federal Income Tax

3 hours lecture, 3 units
Grade Only

Advisory: Completion of or concurrent enrollment in Accounting 116A with a grade of "C" or better, or equivalent.

This course introduces the student to tax concepts and tax laws that govern individuals who pay federal income taxes. Emphasis is placed on recognizing the social, economic, and political factors that Congress considers when they create tax laws. This course relates tax codes to the individual and identifies how tax planning skills can determine economic outcomes. Furthermore, it demonstrates and differentiates between tax avoidance and tax evasion. (FT) AA/AS; CSU.

121 California Income Tax

1 hour lecture, 1 unit
Grade Only

Advisory: Concurrent enrollment in: Accounting 120

This course is a study of California personal income taxation and tax planning. Emphasis is placed on tax concepts and related social economic issues rather than tax return preparation. The course distinguishes between California and Federal Income Tax requirements. This course is intended for all students interested in California income tax. AA/AS; CSU.

128A Small Business Accounting - Recordkeeping

1.5 hours lecture, 1.5 units
Grade Only

Limitation on Enrollment: This course is not open to students with previous credit for Accounting 128.

This course is an introductory study of the basic recordkeeping procedures required to manage the accounting documentation related to running a small business. Emphasis is placed on the practical application of recording, summarizing, and reporting business transactions for internal purposes as well as for completing federal, state, and local reporting requirements. This course is for students majoring in business studies, small business owners, and anyone interested in entry-level employment in the field. (FT) AA/AS; CSU.

128B Small Business Accounting - Payroll

1.5 hours lecture, 1.5 units
Grade Only

Prerequisite: Accounting 128A with a grade of “C” or better, or equivalent.

150 Computer Accounting Applications

3 hours lecture, 3 units
Grade Only

Advisory: Completion of or concurrent enrollment in Accounting 116A with a grade of "C" or better, or equivalent.

This course illustrates to the student how to use accounting computer programs in a commercial business enterprise. As a basis for instruction, it demonstrates the use of QuickBooks Pro accounting software on a PC. The full accounting cycle and payroll is evaluated within a typical business environment. Business transactions are identified, labeled, recorded, and processed for both service and merchandise businesses. Financial statements are constructed, evaluated, and reviewed for accuracy and completeness. The main objective is to provide the student with a complete guide to creating and maintaining a proper accounting system while using a popular accounting software program. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.
### Business (BUSE)

#### 90A Learning Skills
**1.5 hours lecture, 1.5 units**  
**Grade Only**

This is a course designed to teach the skills necessary to become a successful learner, both in college and in the years beyond college. Emphasis is placed on time management, organizational skills, and basic thinking, reading and writing techniques. Students will be able to successfully learn, retain and communicate information. This course is intended for the beginning or returning certificate student planning to major in vocational education. (FT) AA/AS.

#### 90B Work Success
**1.5 hours lecture, 1.5 units**  
**Grade Only**

This is a course designed to teach the skills necessary to become a successful employee. Emphasis is placed on understanding and developing the skills necessary to secure and keep a job. Students will be able to look for employment, prepare for an interview, and model the qualities of a successful employee. This course is intended for the beginning or returning student planning to seek gainful employment. (FT) AA/AS.

#### 90C Business Internship Seminars
**1 hour lecture, 1 unit**  
**Grade Only**

*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

The purpose of this course is to introduce students to employment opportunities in the local job market. Each class includes five industry presentations that require students to research the particular business, write a practice resume for that business, and conduct a mock interview for that business. This course is intended for students majoring in the computer technology options of the Business Studies programs. (FT) AA/AS.

#### 90D Workplace Competencies
**1.5 hours lecture, 1.5 units**  
**Grade Only**

This course teaches the necessary SCANS (Secretary’s Commission on Achieving Necessary Skills) skills for a student to become a successful participant in today’s workforce. Emphasis is on time management, organizational skills, and basic thinking, reading, and writing techniques. Students are able to successfully select, learn, retain, analyze, and communicate information. This course is intended for the beginning or returning certificate student planning to major in vocational education. (FT) AA/AS.

#### 92 Introduction to Business Communications
**3 hours lecture, 3 units**  
**Grade Only**

*Advisory:* English 43 with a grade of “C” or better, or equivalent, or Assessment Skill Level W4.

*Limitation on Enrollment:* This course is not open to students with credit for Business 119 or Office Information Systems 115.

Review of principles and mechanics of English grammar as specifically applied to the field of business. Presents business vocabulary, dictionary usage, spelling, sentence structure, punctuation, and the principles and techniques of business writing. Practice in writing various types of business letters, resumes, memos, and informal business reports is emphasized. AA/AS.

#### 100 Introduction to Business
**3 hours lecture, 3 units**  
**Grade Only**

*Advisory:* English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4; or Business 92 with a grade of “C” or better, or equivalent.

This introductory course for both business and non-business majors provides a broad understanding of the business community. Topics include business functions and terminology, occupational choices, and economic role. (FT) AA/AS; CSU; UC.

---

**AA/AS = Associate Degree Applicable**  
**CSU = California State University Applicable**  
**UC = University of California Applicable**
101 Business Mathematics
3 hours lecture, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
This course provides a comprehensive study of business mathematics and reviews basic mathematics, such as decimals, fractions, and percentages. Topics include bank services, payroll, the mathematics of buying and selling, interest and loans, taxes, insurance, depreciation, and other business computations. This course is intended for students majoring in business or others interested in a business setting such as managers, supervisors, and work team members. (FT) AA/AS; CSU.

119 Business Communications
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; or Business 92 with a grade of “C” or better, or equivalent.
This course introduces the principles of effective business communications. Topics include the development, analysis, organization, and composition of various types of written and oral business communications. Students develop clear, concise, and persuasive letters, memoranda, and reports. This course is intended for students majoring in business and for others working in a business environment. (FT) AA/AS; CSU.

140 Business Law and the Legal Environment
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5 or Business 92 with a grade of “C” or better, or equivalent.
This course introduces students to the legal system, the laws that govern business in America, and the principles underlying fundamental legal concepts. Topics include judicial and administrative systems; ethics; contracts; torts; bankruptcy; agency; business organizations and ownership types; government agencies and regulation; protection of intellectual property interest; and the international business environment. This course is intended for students majoring in business and for others interested in business law. (FT) AA/AS; CSU; UC.

150 Human Relations in Business
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course introduces students to human behavior as it relates to business. Topics include leadership, communication, status, decision making, motivation, and personnel problems. This course is intended for students majoring in business and others interested in a business setting such as managers, supervisors, and work team members. (FT) AA/AS; CSU.

155 Managing the Small Business
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 38, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M30; Business 101 with a grade of “C” or better, or equivalent.
This course is a study of the elements involved in successfully operating a small business. Key issues include human resource management, marketing for small business, and legal issues. This course is intended for the student who plans to major in Business Studies or Business Management. This course is also intended for students from any discipline who are interested in owning or operating a small business. (FT) AA/AS; CSU.

157 Starting a Small Business
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 38, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M30; Business 101 with a grade of “C” or better, or equivalent.
This course is a study of the skills required for writing an effective business plan. Emphasis is placed on creating a business plan that identifies key decisions for the entrepreneur, including, financing, marketing, and determining the business location. This course is designed for students planning to major in Business Studies and/or planning on starting their own business. (FT) AA/AS; CSU.
158A Students in Free Enterprise - High School Projects
9 hours lab, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
In this course students develop and implement projects to help them learn and teach free enterprise to high school students. Projects can include collaboration with high school classes, free enterprise educational projects for high school students, mentoring, and shadowing. Students gain hands-on experience in project planning, development, implementation and evaluation. This course is intended for students majoring in Business and for those interested in entrepreneurial and community service. It is also recommended for students from any discipline who are interested in project development, the development of teaching skills, or the enhancement of communication and planning skills. (FT) AA/AS; CSU.

158B Students in Free Enterprise - Elementary and Junior High Projects
9 hours lab, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
In this course students develop and implement projects to help them learn and teach free enterprise to elementary and junior high school students. Projects can include interactive lessons in small business and the free enterprise system and creating curriculum materials to help young children learn about free enterprise. Students gain hands-on experience in project planning, development, implementation and evaluation. This course is intended for students majoring in Business and for those interested in entrepreneurial and community service. It is also recommended for students from any discipline who are interested in project development, the development of teaching skills, or the enhancement of communication and planning skills. (FT) AA/AS; CSU.

158C Students in Free Enterprise - Community Projects
9 hours lab, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
In this course students develop and implement projects to help them learn and teach free enterprise in the community. Projects can include working with community organizations in projects such as trade shows, presentations, and entrepreneurial ventures designed to increase knowledge of free enterprise. Students gain hands-on experience in project planning, development, implementation and evaluation. This course is intended for students majoring in Business and for those interested in entrepreneurial and community service. It is also recommended for students from any discipline who are interested in project development, the development of teaching skills, or the enhancement of communication and planning skills. (FT) AA/AS; CSU.

158D Students in Free Enterprise - On-Campus Educational Projects
9 hours lab, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
In this course students develop and implement projects to help them learn and teach free enterprise on the San Diego City College campus. Projects will include operating the Small Business Resource Center, planning small business workshops, and other projects designed to increase knowledge of free enterprise on campus. Students gain hands-on experience in project planning, development, implementation and evaluation. This course is intended for students majoring in Business and for those interested in entrepreneurial and community Service. It is also recommended for students from any discipline who are interested in project development, the development of teaching skills, or the enhancement of communication and planning skills. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable

the purchasing function of a small business in the computer technology area. (FT) AA/AS; CSU.

290 Independent Study

Hours by Arrangement, 1-4 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
For advanced students in business who wish to pursue special problems and projects relating to their particular subject area. The student meets with the instructor at specific intervals and is expected to do primary research, analyze problems and submit reports. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

120 Principles of Macroeconomics

3 hours lecture, 3 units
Grade Only

Prerequisite: Mathematics 92 or Mathematics 96, each with a grade of “C” or better or equivalent or Assessment Skill Level M45, M50 or higher, or math assessment that verifies Intermediate Algebra competency, or any college level Intermediate Algebra course or higher completed with a grade of “C” or better.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is an introduction to aggregate economic analysis. Topics include market systems, aggregate measures of economic activity, macroeconomic equilibrium, money and financial institutions, monetary and fiscal policy, international economics and economic growth. This course is intended for business majors and all students interested in macroeconomics. (FT) AA/AS; CSU; UC.

121 Principles of Microeconomics

3 hours lecture, 3 units
Grade Only

Prerequisite: Mathematics 92 or Mathematics 96, each with a grade of “C” or better or equivalent or Assessment Skill Level M45, M50 or higher, or math assessment that verifies Intermediate Algebra competency, or any college level Intermediate Algebra course or higher completed with a grade of “C” or better.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is an introduction to economic analysis of specific decision-making sectors in the economy (micro analysis). Sectors include households, firms and government. Topics covered include productivity and costs for individual firms, industry types, the labor market, anti-trust issues, income distribution, and environmental externalities. This course is intended for business majors and all students interested in microeconomics. (FT) AA/AS; CSU; UC.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

101 Escrow Procedures — Beginning

3 hours lecture, 3 units
Grade Only

This course covers methods and techniques of escrow procedure for various types of real estate transactions, including the legal and ethical responsibilities of persons engaged in escrow work. Some of the topics included are types of escrow, preparation of documents, terminology, phraseology, title and escrow procedures, and the method of adjusting taxes, rents, and other charges. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction
Marketing (MARK)

100 Principles of Marketing
3 hours lecture, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
This course is an overview of the foundations, principles, processes, and goals of marketing. Topics include ethics and social responsibility, global marketing and world trade, corporate marketing and strategies. Marketing strategies include product planning, development, pricing, distribution, and promotion. This course is intended for students majoring in business or others interested in a business setting such as managers and supervisors. (FT) AA/AS; CSU.

110 Principles of Retailing
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of the principles and practices of retailing. Topics include retail strategic planning, merchandise management, supply chain management, and retail location and site analysis. This course is designed for students majoring in Marketing and anyone interested in learning more about the different aspects of running a successful retail operation. (FT) AA/AS; CSU.

Real Estate (REAL)

101 Real Estate Principles
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49 or English 47A, with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of the economics and transfer of landownership. Emphasis is placed on the roles and responsibilities of the broker, the owner and the purchaser in the buying and selling of property. This course is designed for students majoring in real estate and anyone interested in the principles of real estate. This course is required to sit for the California Real Estate License. (FT) AA/AS; CSU.

105 Legal Aspects of Real Estate I
3 hours lecture, 3 units
Grade Only
This course is a study of California Real Estate law. Emphasis is placed on the practical application of the law to legal problems arising from real estate transactions, statutory enactment and case law, legal instruments, zoning ordinances, and city and county planning decisions. This course applies toward the State’s educational requirements for the broker’s examination and as an elective for the salesperson’s license. (FT) AA/AS; CSU.

110 Principles of Real Estate Appraisal I
3 hours lecture, 3 units
Grade Only
This course is a study of basic appraisal principles, market analysis and highest and best use. Emphasis is placed on providing students with an overview of real property concepts and characteristics, legal consideration, value influences, real estate finance, types of value, economic principles, real estate markets and analysis, and ethics in appraisal practice. Course content also includes the tools needed to properly collect and analyze market data including market segmentation and disaggregation, supply side analysis, demand analysis and highest and best use. This course applies toward the new 2008

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
This course is a practical approach to the principles and practices of managing income properties. Emphasis is placed on marketing, leasing, and maintenance of real property. This course is designed for students majoring in real estate and anyone interested in real property management. (FT) AA/AS; CSU.

151 Real Estate Computer Applications
3 hours lecture, 3 units
Grade Only

This is an introductory course covering basic computer hardware, functions, software, and Internet resources available to enhance productivity for Real Estate Professionals. The course introduces students to a myriad of general and commercial software products designed or adapted for use in the Real Estate Industry. Emphasis is placed on Internet tools and resources for the California Real Estate Salesperson and Broker. This course applies toward the State’s educational requirements for the California Real Estate Salesperson and Real Estate Broker. (FT) AA/AS; CSU.

166 Common Interest Development
3 hours lecture, 3 units
Grade Only

This course is a study of Common Interest Developments (CID) and the management of related Homeowner’s Associations (HOA). Emphasis is placed on providing students with up-to-date management procedures and the application of California law where appropriate. This course is designed for students pursuing a career in Real Estate and/or those interested in CIDs. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.
Supervision (SUPR)

101 Introduction to Supervision
3 hours lecture, 3 units
Grade Only
Advisory: English 48 or English 49 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 or W5; or Business 92 with a grade of “C” or better, or equivalent.
This course introduces students to the fundamentals of management, the functions and concepts of supervision, and the role of the supervisor in the organization. (FT) AA/AS; CSU.

115 Management and Organization for Supervisors
3 hours lecture, 3 units
Grade Only
Advisory: English 48 or English 49 or Business 92 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 or W5.
An analysis of the managerial functions of organizing, staffing, directing, planning, controlling, and the principles pertaining to those functions. (FT) AA/AS; CSU.

170 Supervisor/Employee Communications
3 hours lecture, 3 units
Grade Only
Advisory: English 48 or English 49 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 or W5; or Business 92 with a grade of “C” or better, or equivalent.
This course is designed to develop communications skills for supervisors, consistent with good human relations principles. The emphasis will be on listening and speaking in a variety of on-the-job situations such as one-to one, small group, and large group communications. (FT) AA/AS; CSU.

Chemistry
See “Physical and Earth Sciences” on page 392.
Chicano Studies

Award Type Units
Associate in Arts Degree: Chicana and Chicano Studies 20*
*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
The Department of Chicana and Chicano Studies offers a dynamic, innovative program that emphasizes an interdisciplinary and comparative approach to understanding the historical experiences, contemporary social status, challenges, and accomplishments of Mexican, Mexican American, and Latino populations in the United States. Critical thinking and effective oral and written communication skills are integrated across the curriculum, which incorporates the arts and literature, cultural studies, history, the social sciences, policy studies, service learning, and active participation for social justice.

Program Emphasis
The department emphasizes the study of the international border between Mexico and the United States. Due to its geographic location, the department also offers a focus on the relationship between the communities of southern California and Baja California.

Career Options
As a multidisciplinary and interdisciplinary field, Chicana/o Studies contributes to all fields in the humanities and social sciences. The curriculum prepares students at the undergraduate level for a multitude of career options. Students earning a degree in Chicana and Chicano Studies may pursue careers in areas such as education, humanities, history, anthropology, ethnology, sociology, psychology, social sciences, political sciences, law, social work, business, the arts, and public administration.

Faculty Office Telephone
Enrique Davalos MS-440M 619-388-3634
Justin Akers Chacon MS-440K 619-388-3181

Student Learning Outcomes
Upon active engagement in course activities and processes the successful student will be able to:

- Attend educational, cultural, or political activities related to the Chicano/a Latino/a community’s social issues.
- Express what the Mexican and Mexican American cultural experience are in a written, oral or artistic way.
- Express in a written, oral or artistic way some of the major obstacles that the Indigenous cultures of Mexico have faced since having contact with European cultures.
- Express in a written, oral or artistic way some of the contributions that women have made to the development of the Mexican and Mexican-American experience.

Academic Programs
The associate degree in Chicano Studies requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Transfer Information

Common university majors related to the field of Chicano Studies include: Chicana-Chicano Studies, Ethnic Studies, Latin American Studies, Mexican-American Studies, Raza Studies.

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor's degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student's specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Chicano Studies (CHIC)

110A Introduction to Chicano Studies
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introductory survey of the field of Chicano Studies and the factors that influence the Chicano culture. Emphasis is placed on the historical development of the Chicano people including their Mesoamerican roots, cultural identification, political activities, and their contemporary roles and influence in United States culture, society and economy. This course is designed for students majoring in Chicano Studies and/or Social Sciences. (FT) AA/AS; CSU; UC.

110B Introduction to Chicano Studies
3 hours lecture, 3 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course is a survey of the field of Chicano Studies and the historical and contemporary factors that influence Chicano society. Emphasis is placed on the Chicana/o experience in the United States through an analysis of the social, political, and economic factors that impact and shape the Chicana/o community. This course is designed all students interested in Chicano Studies. (FT) AA/AS; CSU; UC.

130 Mexican Literature in Translation
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 42 and English 43, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R4 and W4.
A survey of Mexican literature in translation, introducing students to authors of the novel, short story poem, essay, and folklore. (FT) AA/AS; CSU; UC.

135 Chicana/o Literature
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49 each with a grade of "C" or better, or equivalent or Assessment Skill Level R5 and W5.
This course is a survey of Chicano and Chicana culture which examines language, literature and oral expression in historical and thematic context. Emphasis is placed on understanding and interpreting the cultural, ethnic, social and political dynamics that inform and influence literary, theoretical, performance and visual texts as they articulate the Chican/o/a perspective. This course is designed for Chicano Studies majors and anyone interested in literature. (FT) AA/AS; CSU; UC.

138 Literature of La Raza in Latin America in Translation
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 42 and English 43, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R4 and W4.
A survey of the novels, short stories, poetry and major Latin American writers, from the end of the Colonial Period to the present. Emphasis will be given to major contemporary authors reflecting the universality of Mestizo (Raza) masterpieces. This

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
141A United States History from a Chicano Perspective

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a survey of early American history from the Mexican/Chicano perspective. Emphasis is placed on the period of discovery to the period of Reconstruction with emphasis on the evolution, influence, and experience of the Chicano. Students analyze Chicano contributions to the political, social, economic, and cultural development of the United States. This course is intended for all students interested in history, ethnic studies, or other social sciences. (FT) AA/AS; CSU; UC Transfer Limitation: History (HIST) 109-110, 141-142, 150-151, Black Studies (BLAS) 140A-140B, and/or Chicano Studies (CHIC) 141A-141B combined: maximum credit, one series.

141B United States History from a Chicano Perspective

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
This is a survey course in American history that covers the period of the American acquisition in 1848 of Mexico to the present. Emphasis is placed on the role of Chicanos in the development of the United States throughout the nineteenth and twentieth centuries. Topics include slavery in the former Mexican territories, the Native American experience, immigration patterns and constitutional development and government in California. This course is intended for all students interested in history, ethnic studies, or other social issues. (FT) AA/AS; CSU; UC Transfer Limitation: History (HIST) 109-110, 141-142, 150-151, Black Studies (BLAS) 140A-140B, and/or Chicano Studies (CHIC) 141A-141B combined: maximum credit, one series.

150 History of Mexico

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.
This is a survey of Mexican history from the earliest pre-Columbian times to the present. Special emphasis is given to major historical developments from the time of the Spanish Conquest to the Revolution of 1910. In this course special consideration is given to the economic, political, social, and cultural factors which have shaped modern Mexico. This course prepares students for careers dealing with Mexico and/or Mexican culture. (FT) AA/AS; CSU; UC.

170 La Chicana

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is the study of the Chicana in American society in historical and sociological perspective. Emphasis is placed on Chicana feminist scholarship and cultural representations, border issues, resistance to patriarchy, and the search for power. This course is designed for all students interested in Chicana and Chicano studies. (FT) AA/AS; CSU, UC.

190 Chicano Images in Film

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a critical approach to cinematic images of Chicanos as depicted in selected films. Focus is placed on stereotypical and negative portrayals during early cinema with an examination of the more realistic and complex portraits of more recent times. Film genres, such as early Hollywood features, documentaries and the emerging "Chicano film" are examined. This course is designed for students interested in film studies with a special focus on the Chicano experience in film. (FT) AA/AS; CSU; UC.

201 Pre-Columbian Cultures of MesoAmerica

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an examination of the archaeological, economic, social, political, cultural, and religious systems of MesoAmerica. (FT) AA/AS; CSU; UC.

203 Introductory Spanish for Spanish Speakers

5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
A survey of Spanish grammar, understanding and speaking Spanish, with special emphasis on reading and writing Spanish. The Spanish of the Southwest will be studied as an effective and legitimate instrument of communication. Students will read community newspapers as well as Chicano and Mexican writers. (FT) AA/AS; CSU; UC Transfer Limitation: Chicano Studies (CHIC) 203, 204 and Spanish (SPAN) 201, 202 combined: maximum credit, one series.

204 Intermediate Spanish for Spanish Speakers

5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
An advanced review of grammar. Conversational and written Spanish emphasized. Spanish and Chicano literary works will be selected to acquaint the student with the historical background, literature, and culture of the Spanish-speaking people. (FT) AA/AS; CSU; UC Transfer Limitation: Chicano Studies (CHIC) 203, 204 and Spanish (SPAN) 201, 202 combined: maximum credit, one series.

210 Chicano Culture

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of Chicana/o culture in the United States. Emphasis is placed on historical and contemporary representations of Chicana/os through their cultural products, such as music, dance, theatre, literature and film. Students apply Cultural Studies theories to analyze and interpret Chicana/o cultural products. This course is designed for all students interested in Chicana/o culture. (FT) AA/AS; CSU; UC.

290 Independent Study

Hours by Arrangement, 1-3 units
Letter Grade or Pass/No Pass Option
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
For students with advanced background in Chicano Studies who wish to study special problems or work on specialized projects. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Child Development

Award Type | Units
---|---
**Certificate of Performance:**
Assistant Teacher | 10-13
Family Child Care | 9
Infant/Toddler Care | 9
Residential Care Workers | 12
School Age Child Care | 12

**Certificate of Achievement:**
Associate Teacher | 18-19
Teacher | 26-29
Master Teacher | 35-39

**Associate in Science Degree:**
Child Development | 26-29*
Site Supervisor | 35-38*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
Child Development offers programs for career and transfer students. Certificates of Performance, Certificates of Achievement and Associate Degree programs are available to students interested in a range of child development opportunities and in meeting the requirements for the State of California Child Development Permits and the California State Department of Social Services, Title 22, Community Care Licensing.

Program Emphasis
The Child Development program offers course work, training and supervised practicum experiences to meet state licensing requirements for working in centers, schools, child care homes and service related agencies. The skills and knowledge gained in beginning courses provide the framework and foundation for more specialized courses.

Faculty
Susan Fontana | T-323 | 619-388-3205
Berta Harris | T-322 | 619-388-3877

Sue Martin | T-324 | 619-388-3237

Career Options
The San Diego Community College District offers certificates, degrees and transfer options in the field of Child Development/Early Childhood Education.

The Family Child Care Certificate offered at City and Miramar and the Home Day Care Certificate offered at Mesa provides skills and knowledge for child care in family settings. The Infant/Toddler Care Certificate of Performance offers skills for working with children aged birth to three years. The School Age Child Care Certificate of Performance offered at City provides training for working with school age children.

The Assistant Teacher Certificate of Performance prepares an individual to work in public and private child care settings. The Certificate of Achievement options, Associate Teacher, Teacher, and Master Teacher, prepare individuals for higher level instructional and service-oriented positions. The Assistant Teacher, Associate Teacher, Teacher, and Master Teacher certificates meet the requirements for the State of California Child Development Permits. The Child Development Associate in Science Degrees prepare for teacher, master teacher, director, and site supervisory positions.

**Student Learning Outcomes**
Students who complete the program will be able to:
- Interpret the processes of child growth and development.
- Examine practices that respect and support inclusion.
- Plan and demonstrate curriculum based on developmentally appropriate practices.
- Model ethical practices with children, families, colleagues and communities as stated in the NAEYC Code of Ethical Conduct.

**Academic Programs**

Certificates of Performance*

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Certificate of Performance: Assistant Teacher*

This certificate prepares students to assist in the instruction of children under the supervision of an Associate Teacher or higher. Child Development courses must be completed with a grade of “C” or better.

Courses offered by San Diego Community College District that meet experience requirements for Certificates and Degrees:

CHIL 100 Introduction to Child Development 3 hours lecture, 3 units Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course serves as an overview of the field of child development. Emphasis is placed on the analysis of historical and contemporary philosophies and models of early childhood education, exploration of the variety and scope of programs in the community, examination of career options and career preparation in the field of child development, and current issues and trends facing early childhood education. This course is designed for students majoring in child development and anyone interested in a career in child development. This course partially fulfills the Title 22 teacher requirement. (FT) AA/AS; CSU.
101 Human Growth and Development
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course examines the interrelationship among the physical, cognitive, and psychosocial growth and development of individuals from conception through adolescence. It emphasizes positive relationships with family members, peers, and other significant individuals. Topics include theories and philosophies of human development and cross-cultural patterns. Students observe children and educational programs. This course is a core requirement for the State of California Child Development Permit and the State of California Community Care Licensing, Title XXII. (FT) AA/AS; CSU; UC Transfer Limitation: Child Development (CHIL) 101 and 103 combined: maximum credit, one course.

111 Curriculum: Music/Motor Skills
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is a study of the development and significance of music and perceptual motor activities in child development from infancy through kindergarten. Emphasis is placed on basic teaching techniques and selecting suitable materials and equipment for various age and maturity levels among preschool children. This course is designed for students who have an interest in working with children ages 0 - 5 in settings such as preschools, daycares etc. (FT) AA/AS; CSU.

121 Creative Art
3 hours lecture, 3 units
Grade Only

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course introduces the creative process and experience in early childhood education programs. Emphasis is placed on creative development, art curriculum activities, basic teaching skills, guidance techniques, equipment, and materials. Students select appropriate activities for a variety of age and maturity levels based on child development theories and concepts. This course is intended for students majoring in Child Development or others interested in the creative process in early childhood education. (FT) AA/AS; CSU.

131 Curriculum: Language/Science
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Child Development 133 or 135.
This course is an introductory study of the function of language, math and science learning in early childhood educational programs. Emphasis is placed on the development of language and science curriculum activities, basic teaching skills, guidance techniques, equipment and materials. Students select appropriate activities for a variety of age groups and maturity levels based on child development theories and concepts. This course may be used for licensing, child development permits, transfer and general interest for working with children. (FT) AA/AS; CSU.

133 Language and Literature
3 hours lecture, 3 units
Grade Only

Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
Limitation on Enrollment: This course is not open to students with previous credit for Child Development 131.
This course introduces the function of language and literature in early childhood educational programs. It emphasizes the development of language and literature curriculum activities, basic teaching skills, guidance techniques, equipment and materials, and opportunities to assist learning among English Language Learners. Students select appropriate activities for a variety of age groups and maturity levels based on child development theories and concepts. This course may be used for licensing, child development permits, transfer, and general interest for working with children. (FT) AA/AS; CSU.
135 Curriculum: Science and Math
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Child Development 131.
This course examines the development and significance of science and math concepts for young children. Emphasis is placed on the planning and implementation of developmentally appropriate science and math activities, basic teaching skills, guidance techniques, equipment and materials for various age and maturity levels. This course is designed for all students interested in working with children and may be used for licensing and child development permits. (FT) AA/AS; CSU.

141 The Child, Family and Community
3 hours lecture, 3 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a study of the dynamics of human development and socialization in a culturally pluralistic society. Emphasis is placed on the influences of contemporary family living and cultural patterns on the child, school-family relationships, and community resources and services that support and strengthen families. This course is a core requirement for California Child Development teacher/director center permits as well as for the State of California Department of Community Care Title 22 licensing childcare centers requirements. This course is designed for all students interested in child development and multi-cultural and behavioral studies. (FT) AA/AS; CSU.

151 Program Planning
3 hours lecture, 3 units
Grade Only
Prerequisite: Child Development 101 and 111; and either Child Development 121, 131 or 153, each with a grade of “C” or better, or equivalent.
Corequisite: Child Development 275 or 270.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course focuses on planning the preschool learning environment to promote optimal development. Emphasis is placed on curriculum planning, guidance, safety, record keeping, observation techniques, project planning, and classroom management. The course is intended for students seeking teaching positions in early care and education settings and partially fulfills State of California Permit and Title 22 Teacher requirements. (FT) AA/AS; CSU.

152 School Age Program Planning
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.
This course is a practical study of school age program planning. Emphasis is placed on the details of planning a school age child development center, curriculum development, staff training and child guidance, health and safety. This course is designed for students planning to work with school age children in community settings. This course is intended for students majoring in Child Development and may be used to partially fulfill State of California Child Development Permit Requirements and Title 21 teaching requirements. (FT) AA/AS; CSU.

153 Techniques of Teaching Using the Reggio Emilia Approach
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
Limitation on Enrollment: This course is not open to students with previous credit for Child Development 265E.
This course is based on the early childhood philosophy and teaching techniques adopted by the schools from Reggio Emilia, Italy. Emphasis is placed on the overall principles of the Reggio Emilia philosophy of valuing the capabilities of the child, collaborations between the teachers, family and community, strategies of emergent curriculum, project work and the documentation process. Adaptation strategies for the use of Reggio in traditional preschools and childcare programs are addressed. This course is designed for students majoring in child development and for teachers and administrators as partial fulfillment of Title 22 and Child Development Permit requirements. (FT) AA/AS; CSU.
160 Observing and Understanding Children
1 hour lecture, 3 hours lab, 2 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: Health and Safety. TB clearance within the last year is required.
This course focuses on behavioral patterns and growth processes of young children through observations and supervised participation in the campus Child Development Center. The course emphasizes the principles of observing, interpreting, and guiding children’s behavior. Topics include children’s developmental, safety, and nutritional needs. This course is intended for students majoring in child development and parents of children enrolled in the campus child development center. This course partially fulfills the specialization requirements for the State of California Master Teacher Permit. (FT) AA/AS; CSU.

161 Observations and Issues in Child Development
1 hour lecture, 3 hours lab, 2 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: Health and Safety. TB clearance within the last year is required.
This course explores current issues in child development and how these issues influence both the child and family. The course emphasizes effective communication skills, positive guidance techniques, kindergarten readiness skills, and appropriate classroom activities. This course is intended for students majoring in child development and parents of children enrolled in the campus child development center. This course partially fulfills the specialization requirements for the State of California Master Teacher Permit. (FT) AA/AS; CSU.

162 Observing and Guiding Child Behavior
3 hours lecture, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
This course explores various behavior management techniques, interpersonal communication, ideas and suggestions to assist caregivers in guiding children’s behavior. Application of developmental, cultural and communication principles in combination with observation of real situations is the mode of study of this course. The focus will be on children from birth through age 10. The course can be used to meet degree and certificate requirements for Child Development and the Master Teacher Permit requirement if taken with Child Development 160 and 161. (FT) AA/AS; CSU.

165 Children With Special Needs
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a survey of education for children with special needs. Emphasis is placed on the types and characteristics of special needs as well as on the methods for integrating children with special needs into inclusive educational settings. Topics include the history of special education legislation, current educational compliance requirements and community resources available to parents, teachers and other professionals. This course is designed for professionals and parents who work with children with special needs. This course partially fulfills the specialization requirement for the State of California Master Teacher Permit. (FT) AA/AS; CSU.

166 Special Needs Curriculum
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is an in-depth study of curriculum for children with special needs. Emphasis is placed on the concept of full inclusion of children with special needs into school/community settings and on related educational strategies and adaptive equipment. This course is designed for parents, teachers, nurses, social workers, and paraprofessionals employed in schools, day care centers, and child development programs. This course partially meets the specialization requirements for the Master Teacher Permit. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
175 Infant-Toddler Growth and Development
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course examines typical and atypical physical, social, emotional, and intellectual growth of the infant and toddler. The selection and maintenance of appropriate play materials and equipment for indoor and outdoor environments is discussed. Appropriate observations and visitations to the community are required. This course meets State of California Title 22 licensing regulations for teachers in infant toddler settings and fulfills the Infant/Toddler specialization requirement for the State of California Master Teacher Permit when taken in addition to CHIL 176. It is intended for students majoring in child development, parents, or those interested in infant/toddler care. (FT) AA/AS; CSU.

176 Principles of Infant/Toddler Caregiving
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a study of the principles of infant/toddler care, including all aspects of infant and toddler development. Students learn to plan appropriate indoor and outdoor curriculum and environments. Topics include health, nutrition and safety for the very young as well as licensing regulations, staff interactions, parent participation, and program development. This course is intended for students majoring in Child Development or those interested in infant/toddler care. It partially fulfills the California Master Teacher Permit Infant/Toddler specialization requirement. (FT) AA/AS; CSU.

180 Nutrition, Health and Safety for Children
3 hours lecture, 3 units
Grade Only
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R4 and W4.
This course is a survey of the nutritional, health, and safety needs of children from infant/toddlers through preschool age. Topics include but are not limited to the planning and execution of environments and activities that promote safety, balanced diet, and overall health for children. Students also learn the fundamentals of pediatric first aid and cardiopulmonary resuscitation (CPR). This course meets the Title XXII, fifteen hour, Health and Safety Training requirement, including signs and symptoms of child abuse. This course is intended for students majoring in child development and practicing child development professionals. (FT) AA/AS; CSU.

185 Computer Usage with Young Children
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course explores principles of computer application in the Child Development field. Emphasis will be on the use of computers as an educational tool. Through the in-depth exploration of computer software applications, students will learn the functions, integration, and flexibility of computer usage with young children. AA/AS; CSU.

188 Violence in the Lives of Children and Families
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course examines the causes and effects of violence in the lives of children and families. Emphasis is placed on the skills needed for conflict resolution and on the environmental set-ups and curricula that promote peaceful, cooperative and nonviolent play and interactions. Information about the history, current legislation, reporting responsibilities, and identification of abuse is also given. This course is designed for parents, teachers, nurses, and other child care professionals to learn strategies for understanding and responding to the various forms of stress and violence that affect children today. (FT) AA/AS; CSU.

202 Administration of Early Childhood Programs
3 hours lecture, 3 units
Grade Only
Prerequisite: Child Development 101 and 141, each with a grade of “C” or better, or equivalent.
Advisory: English 48, English 49 and Mathematics 38, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5, W5 and M30;
Child Development 111 and 121 or 131, each with a grade of “C” or better, or equivalent. This course is an overview of early childhood education program administration. Topics include theoretical perspectives on early childhood education, licensing regulations, funding sources, budgetary considerations, personnel management, curriculum development, and teacher selection. The course meets State of California Title 22 licensing regulations for site supervisors. It also partially fulfills State of California matrix requirements for Program Director and Site Supervisor Permits. This course is intended for anyone seeking a position as a site supervisor or center director. (FT) AA/AS; CSU.

210 Supervision of Early Childhood Programs

3 hours lecture, 3 units
Grade Only

Prerequisite: Child Development 141 and 151, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Child Development 201 or 201B.
This course examines early childhood supervisory techniques with emphasis on educational philosophy, professional growth, in-service staff training, program and staff evaluation, models of parent education and involvement, and supportive services. It partially fulfills the State of California Child Development Permit Matrix requirement for supervisors and directors and also meets the State of California Title 22 licensing regulations for directors. This course is designed for students who intend to go into supervisory positions in early childhood education. It also introduces students to the tools that help them organize and evaluate quality children’s programs. (FT) AA/AS; CSU.

215 Adult Supervision and Mentoring in Early Childhood Settings

3 hours lecture, 3 units
Grade Only

Prerequisite: Child Development 151 with a grade of “C” or better, or equivalent.
This course emphasizes the methods and principles of supervising adults in early childhood settings. Students study effective models for guidance and evaluation of adults, positive communication skills, and the role of the mentor in a teaching environment. It is designed for students who supervise other adults in the preschool classroom while simultaneously providing an appropriate setting for young children. This is a required course for the levels of Master Teacher, Site Supervisor and Program Director for the Child Development permit issued by the Commission on Teacher Credentialing. AA/AS.

270 Work Experience

Hours by Arrangement (One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.), 1-4 units
Grade Only

A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

275 Supervised Field Study

3-9 hours lab, 1-3 units
Grade Only

Corequisite: Child Development 151.
Advisory: Child Development 160 with a grade of “C” or better, or equivalent.
This directed field study course provides students with an opportunity to apply classroom information in a practical setting with supervision from faculty as well as field-site supervisors. Intended for students who plan to teach or supervise in early childhood settings, this course partially fulfills the State of California requirement for experience. (FT) AA/AS; CSU.

280 Environmental Rating Scale

3 hours lab, 1 unit
Grade Only

Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R4 and W4.
This course provides students with an introduction to the Early Childhood Environmental Rating Scale (ECERS) administration, scoring system, profile, and improvement plan. The course focuses on environmental evaluation and program improvement. Students learn how to evaluate the quality of child care programs and how to increase the quality of care through practical improvements. This course is intended for child development

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
professionals currently working in the field as well as those seeking professional development, child development permits, employment opportunities, or anyone with general interest in working with children. (FT) AA/AS; CSU.

290 Independent Study

**Hours by Arrangement, 1-3 units**

*Grade Only*

**Limitation on Enrollment:** Must obtain an Add Code from instructor for registration.

Investigation of a special area in the field of Child Development. (FT) AA/AS; CSU.

291 Child Development Lab Practicum

**3-12 hours lab, 1-4 units**

*Grade Only*

**Advisory:** English 42 and English 43 each with a grade of “C” or better, or equivalent or Assessment Skill Levels R4 and W4; Child Development 160 or 161 with a grade of “C” or better, or equivalent.

This course provides supervised practical experience at the campus child development lab to supplement child development courses and related curriculum. Through on-site training, students gain practical knowledge in curriculum development, guidance strategies, observation, and child growth and development. This course is designed for students who plan careers in early childhood education and family support agencies or for parents who seek strategies and techniques for guiding children. The course may be used toward the field experience component for the State of California Child Development Permit. (FT) AA/AS; CSU.

291A Child Development Center Practicum

**3 hours lab, 1 unit**

*Grade Only*

**Advisory:** English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.

This course provides directed laboratory experience in the campus Child Development Center. It is designed for students who plan careers in early childhood education and family support programs and for parents who seek practical experience in guiding and teaching children. Students examine appropriate safety, health, and nutritional practices in a preschool setting with an emphasis on implementation with young children. This course may be used toward the experience component for the State of California Child Development Permit and toward the Health and Safety training requirements for Title 22. (FT) AA/AS; CSU.

291B Child Development Center Practicum

**3 hours lab, 1 unit**

*Grade Only*

**Advisory:** English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.

This course provides directed laboratory experience in the campus Child Development Center. It is designed for students who plan careers in early childhood education and family support programs and for parents who seek practical experience in guiding and teaching children. Students examine appropriate safety, health, and nutritional practices in a preschool setting with an emphasis on implementation with young children. This course may be used toward the experience component for the State of California Child Development Permit and toward the Health and Safety training requirements for Title 22. (FT) AA/AS; CSU.

291C Child Development Center Practicum

**3 hours lab, 1 unit**

*Grade Only*

**Advisory:** English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.

This course provides directed laboratory experience in the campus Child Development Center for students who plan careers in early childhood and family support programs and for parents who seek practical experience in guiding and teaching children. Students examine appropriate safety, health, and nutritional practices in a preschool setting with an emphasis on implementation with young children. This course may be used toward the experience component for the State of California Child Development Permit and toward the Health and Safety training requirements for Title 22. (FT) AA/AS; CSU.

291D Child Development Center Practicum

**3 hours lab, 1 unit**

*Grade Only*

**Advisory:** English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.

This course provides directed laboratory experience in the campus Child Development Center for students who plan careers in early childhood and family support programs and for parents who seek practical experience in guiding and teaching children. Students examine the role of routines and transitional activities in the organization and structure of an early child development setting.
The class emphasizes positive guidance and discipline for young children. This course may be used toward the field experience component for the State of California Child Development Permit. (FT) AA/AS; CSU.

Communications: Radio and Television

Description
The Radio and Television program encompasses the fields of broadcasting and cablecasting news, radio, television, film, multimedia, and concert productions, along with the expanding area of industrial video applications. The field includes all aspects of creation and production both behind and in front of cameras and microphones on KSDS-FM and the television production facilities through theoretical and practical applications. The Radio and Television Department seeks to prepare the student for transfer to four-year institutions or employment in the field and facilitates training in television production and performance.

Program Emphasis
The Radio and Television program offers five areas of specialization: Radio; Radio and Television News; Video/Film; Management/Sales; and Multimedia. Certain core courses are central to each of these areas. Prospective students are advised that proficiency in English reading and writing skills is necessary for successful participation in the field. Students pursuing the Radio and Television News specialty should take additional courses in social sciences or political science. Students interested in the Management/Sales specialization are advised to take business courses as electives. The Radio and Television Department offers “hands-on” experience in all areas of the field. Through the use of the San Diego City College radio station, KSDS-FM, 88.3, and related facilities, students may focus on radio, news, management, sales, performance and production. The adjacent television production studio provides state-of-the-art broadcast quality equipment and facilities for training in production and performance.

Faculty
Laura Castaneda  C-122-D  619-388-3043
Roman Koenig   T-319  619-388-3815

Career Options
Examples of employment options available in entry level radio, television, and film production after successful completion of the associate degree program include: on-air-personality, radio news reporter, radio and television program writer/producer, television operations engineer, news photographer, audio engineer, director and videographer, and studio positions. Careers which require four-year degrees in radio and television include: motion picture writer/producer, radio and television salesperson, manager, news writer/reporter and news producer. Careers in multimedia and industrial/instructional video require an associate and often a four-year degree.

Student Learning Outcomes
Upon successful completion of one of the emphasis in Radio/TV the student should be able to:

- Analyze media’s impact on the public.
- Operate audio, video or film equipment.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Communications

• Produce audio, video, film or multimedia projects.
• Direct or perform as voice or acting talent.

Academic Programs
The associate degrees in Radio and Television require completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units. STUDENTS MUST COMPLETE THE CORE AND ONE AREA OF SPECIALIZATION.

Certificate of Performance: Radio*
Courses: Units
RTVF 105 Media Performance 3

Select six units from the following:
RTVF 106 Acting for Radio/Voice-Over 3
RTVF 107 Audio Production 3
RTVF 115 Radio and Television Management Principles 3
RTVF 130 Radio Programming 3
RTVF 132 Radio Remote Concert Production 2
or
RTVF 247A Radio Broadcasting Workshop - Production 1
or
RTVF 247B Radio Broadcasting Workshop - News 1
or
RTVF 247C Radio Broadcasting Workshop - Music 1
or
RTVF 247D Radio Broadcasting Workshop Programming 1

RTVF 140 Radio and TV Newswriting 3
RTVF 141 Radio News Production 4

Total Units = 9

*This is a department award in recognition of information on the transcript and does not imply that a graduation requirement has been met.

Certificate of Performance: Video Production*
Courses: Units
RTVF 124 Electronic Field Production 3

Select six units from the following:
RTVF 115 Radio and Television Management Principles 3
RTVF 118 Television Studio Operations 3
RTVF 122 Television Production or
RTVF 123 Advanced Television Production 3

RTVF 126 Art Direction for Film and Television 3
RTVF 128 Lighting for Television and Film 3
RTVF 146 The TV News Field Report 3
RTVF 175 Radio and Television Sales 3
DMPR 153 Introduction to Nonlinear Editing 3
or
DMPR 155 Advanced Nonlinear Editing 3

Total Units = 9

Certificate of Performance: Broadcast News*
Courses: Units
RTVF 140 Radio and Television Newswriting 3

Select six units from:
RTVF 141 Radio News Production 4
RTVF 145 Television News Production 4
RTVF 146 The TV News Field Report 3
RTVF 249A Television News Workshop- Producing 3
RTVF 249B Television News Workshop- Tape Coordinating 3
RTVF 249C Television News Workshop- Assignment Editing 3
RTVF 249D Television News Workshop- Reporting 3
RTVF 290 Independent Study 1-3

Total Units = 9

*This is a department award in recognition of information on the transcript and does not imply that a graduation requirement has been met.

Certificate of Performance: Performance*
Courses: Units
RTVF 105 Media Performance 3

Select six units from the following:
RTVF 106 Acting for Radio/Voice-Over 3
RTVF 119 Acting for Film and Television 3
RTVF 121 Performance for Television 3
RTVF 290 Independent Study 1-3

Total Units = 9

*This is a department award in recognition of information on the transcript and does not imply that a graduation requirement has been met.

A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.
Certificate of Performance:
Documentary Film*

Courses:  
RTVF 160 Introduction to Cinema  3

Select six units from the following:
RTVF 110 Introduction to Scriptwriting  3
RTVF 111 Producing for On Location Filming  3
RTVF 112 Documentary Film Production  3
RTVF 126 Art Direction for Film and Television  3
RTVF 128 Lighting for Television and Film  3
DMPR 153 Introduction to Nonlinear Editing 3

Total Units = 9

*This is a department award in recognition of information on the transcript and does not imply that a graduation requirement has been met.

Certificate of Performance:
Media, Management & Marketing*

Courses:  
RTVF 115 Radio and Television Management Principles  3

Select six units from the following:
RTVF 174 The Business of Media  3
RTVF 175 Radio and Television Sales  3
RTVF 176 Media Advertising Copy  1
BUSE 140 Business Law and the Legal Environment 3

Total Units = 9

*This is a department award in recognition of information on the transcript and does not imply that a graduation requirement has been met.

Associate in Science Degree:
Radio Area of Specialization

Courses Required for the Major:  
RTVF 100 Introduction To Radio and Television or JOUR 202 Introduction to Mass Communication or DJRN 100 Mass Media in the Digital Age  3
RTVF 107 Audio Production  3
RTVF 118 Television Studio Operations  3
RTVF 140 Radio and TV Newswriting  3
RTVF 160 Introduction to Cinema  3

Complete the following courses for emphasis in radio:
RTVF 105 Media Performance  3
RTVF 106 Acting for Radio/Voice-Over  3
RTVF 115 Radio and Television Management Principles  3
RTVF 130 Radio Programming  3
RTVF 131 Advanced Radio Performance  4
RTVF 141 Radio News Production  4
RTVF 175 Radio and Television Sales  3
RTVF 247A Radio Broadcasting Workshop Production or RTVF 247B Radio Broadcasting Workshop - News or RTVF 247C Radio Broadcasting Workshop - Music or RTVF 247D Radio Broadcasting Workshop - Programming 1

Total Units = 39

Associate in Science Degree:
Video Production Area of Specialization

Courses Required for the Major:  
RTVF 100 Introduction To Radio and Television or JOUR 202 Introduction to Mass Communication or DJRN 100 Mass Media in the Digital Age  3
RTVF 107 Audio Production  3
RTVF 118 Television Studio Operations  3
RTVF 140 Radio and TV Newswriting  3
RTVF 160 Introduction to Cinema  3

Complete the following courses for the video production area of specialization:
RTVF 105 Media Performance  3
RTVF 115 Radio and Television Management Principles  3
RTVF 123 Advanced Television Production  3
RTVF 124 Electronic Field Production  3
RTVF 125 Advanced Television and Video Production or RTVF 146 The TV News Field Report 3
RTVF 126 Art Direction for Film and Television or RTVF 128 Lighting for Television and Film  3

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
RTVF 127 Basic TV Production Switcher Operation 0.5
DMPR 151 Introduction to Multimedia or
DMPR 153 Introduction to Nonlinear Editing 3

Total Units = 36.5

Associate in Science Degree: Broadcast News Area of Specialization

Courses Required for the Major: Units
RTVF 100 Introduction To Radio and Television or 3
JOUR 202 Introduction to Mass Communication or
DJRN 100 Mass Media in the Digital Age 3
RTVF 107 Audio Production 3
RTVF 118 Television Studio Operations 3
RTVF 140 Radio and TV Newswriting 3
RTVF 160 Introduction to Cinema 3

Complete the following courses for emphasis in Broadcast News:
RTVF 105 Media Performance 3
RTVF 121 Performance for Television 3
RTVF 124 Electronic Field Production 3
RTVF 141 Radio News Production 4
RTVF 145 Television News Production 4
RTVF 146 The TV News Field Report 3
DMPR 153 Introduction to Nonlinear Editing 3

Total Units = 38

Associate in Science Degree: Media, Management & Marketing Area of Specialization

Courses Required for the Major: Units
RTVF 100 Introduction To Radio and Television or 3
JOUR 202 Introduction to Mass Communication or
DJRN 100 Mass Media in the Digital Age 3
RTVF 107 Audio Production 3
RTVF 118 Television Studio Operations 3
RTVF 140 Radio and TV Newswriting 3
RTVF 160 Introduction to Cinema 3

Complete the following courses for emphasis in media, management & marketing:
RTVF 115 Radio and Television Management Principles 3
RTVF 130 Radio Programming 3
RTVF 132 Radio Remote Concert Production 2
RTVF 174 The Business of Media 3
RTVF 175 Radio and Television Sales 3
RTVF 176 Media Advertising Copy 1
BUSE 140 Business Law and the Legal Environment 3

Total Units = 33

Recommended electives: Radio, Television and Film 125, 245, 270, 290.

Associate in Science Degree: Digital Media Production Area of Specialization

Courses Required for the Major: Units
RTVF 100 Introduction To Radio and Television or 3
JOUR 202 Introduction to Mass Communication or
DJRN 100 Mass Media in the Digital Age 3
RTVF 107 Audio Production 3
RTVF 118 Television Studio Operations 3
RTVF 140 Radio and TV Newswriting 3
RTVF 160 Introduction to Cinema 3

Complete the following courses digital media production area of specialization:
DMPR 151 Introduction to Multimedia 3
DMPR 152 Sound Design and Digital Audio Post Production 3
DMPR 153 Introduction to Nonlinear Editing 3
DMPR 154 Game Design 3
DMPR 155 Advanced Nonlinear Editing 3
DMPR 156 Video Special Effects 3
DMPR 157 Advanced Multimedia Production 3

Total Units = 36

Transfer Information
Common university majors related to the field of Radio and Television include: Communication, Film and Electronic Arts, Film and Television, Journalism, Mass Communication, Radio and Television, Television, Film and Media.
Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor's degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Radio, Television and Film (RTVF)

100 Introduction To Radio and Television
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 100.
This course is a survey of electronic media including radio, television, film and/or multimedia. Emphasis is placed on the history of broadcasting, new technologies, programming, and the social and cultural aspects of broadcasting in the United States and globally. This course is intended for radio, film and television majors and anyone interested in the broadcast industry. (FT) AA/AS; CSU.

105 Media Performance
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 105, Dramatic Arts 106, Dramatic Arts 265 or Radio and Television 265.
This course is an introductory, practical study of broadcast announcing. Emphasis is placed on interpretation of copy and pronunciation. Topics also include the practical use of audio equipment and ad libbing. This course is designed for radio and television majors and anyone seeking employment in the broadcast industry. (FT) AA/AS; CSU.

106 Acting for Radio/Voice-Over
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Radio, Television and Film 105 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 106, Dramatic Arts 106, Dramatic Arts 265 or Radio and Television 265.
This course is a practical study of the voice-over industry. Emphasis is placed on voice-over acting techniques for radio and television commercials, multimedia and other audio and video presentations. Students are expected to read aloud extensively as well as to record their voice for critique and self-evaluation. Topics also include an overview of the voice-over business, marketing, current technology, and professional work and studio etiquette. This course is intended for students majoring in radio, television and film or drama as well as for anyone interested in the voice-over business. This course is cross listed with Drama (DRAM) 106. (FT) AA/AS; CSU.

107 Audio Production
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 107.
This course is a study of the theory and practice of sound and audio techniques for radio, television, film and multimedia. Emphasis is placed on sound waveform terms, microphones, signal processors and consoles and control surfaces. This course is designed for radio, television, film and multimedia majors and anyone interested in the field of audio production. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
110 Introduction to Scriptwriting
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.

Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 110.

This course is a study of the theory and practice of writing for electronic and film media. Emphasis is placed on the techniques of narrative and documentary writing and scripting. This course is intended for students majoring in radio, television and film and those seeking employment in the field. (FT) AA/AS; CSU.

111 Producing for On Location Filming
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Radio, Television and Film 110 and Radio, Television and Film 124, each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 111.

This course is an introduction to pre-production, planning and the logistics of filming on location. Emphasis is placed on the creative and technical analysis required to transform a movie script into film. Topics include lining a script, script breakdown, production planning, budget, location scouting, permit processes, technical scouting, production meetings, shooting on location, liability, community sensitivities and public relations. This course is designed for students majoring in radio, television and film and anyone interested in location film production. (FT) AA/AS; CSU.

112 Documentary Film Production
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Radio, Television and Film 110, Radio, Television and Film 124 and Digital Media Production 153 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 112.

This course is an introduction to the methods and modes of documentary filmmaking. Emphasis is placed on a combination of theory, history and practice to provide students with hands-on documentary production experience. Students design and execute their own projects individually and in groups as they analyze landmark documentary films to identify the methods and rhetorical aims of these works for application in their own films. This course is designed for communications majors and professionals in the field seeking to hone skills in documentary film production. (FT) AA/AS; CSU.

115 Radio and Television Management Principles
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

Advisory: Completion of or concurrent enrollment in: Radio, Television and Film 100 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 115.

This course is a study of radio and television management. Emphasis is placed on current business practices and the relationships between stations, networks and agencies. Topics include radio, television and cable advertising, merchandising, market research, audience measurement and government regulation. This course is designed for students majoring in radio and television and anyone seeking employment in the broadcast industry. (FT) AA/AS; CSU.

118 Television Studio Operations
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

Advisory: Completion of or concurrent enrollment in: Radio, Television and Film 100 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 118.

This course is a survey of the theory, terminology and operations of a television studio and control room. Emphasis is placed on the role of the director as the leader of a television production team. Students gain hands-on experience in directing as well as in the operation of audio, camera, video switcher, lighting, graphics, and video. This course is designed for students interested in majoring in television and/or film and anyone interested in a
basic understanding of television studio operations. (FT) AA/AS; CSU.

119 Acting for Film and Television
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Dramatic Arts 132 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Dramatic Arts 119, Dramatic Arts 265, Radio and Television 119 or Radio and Television 265.
This course introduces students to the skills required for on-camera performing techniques as used in the motion picture and television industry. Students participate in the selection, rehearsal, and on-camera performance of material from television and motion picture scripts including drama, sitcoms, daytime dramas and commercials. Emphasis is placed on cold-reading taped audition skills, improvisational and interview techniques, and the fundamental acting techniques required for camera, scene, and monologue studies. This course is designed for theatre, television and film majors. This course is cross listed with Drama (DRAM) 119. (FT) AA/AS; CSU.

121 Performance for Television
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Advisory: Completion of or concurrent enrollment in Radio, Television and Film 105 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 121.
This course is a practical study of all phases of television performance. Emphasis is placed on announcing for news, commercials, public service announcements and talk shows. Topics include use of teleprompter, scripts, note cards and ad libbing. This course is designed for students majoring in radio and television and anyone seeking employment in the broadcast industry. (FT) AA/AS; CSU.

122 Television Production
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Radio, Television and Film 118 and 124, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 122.
This course is an intermediate level study of video and television production. Emphasis is placed on providing students with hands-on experience in studio production practices, including techniques for news and documentary segments. Students plan, write, produce, stage and direct interviews, dramatic pieces, multimedia and other program segments. This course is intended for students majoring in radio and television production and anyone seeking employment in the field. (FT) AA/AS; CSU.

123 Advanced Television Production
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: Radio, Television and Film 122 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 123.
This course is an advanced level study of video and television production. Emphasis is placed on providing students with hands-on experience in advanced studio production practices, including techniques for news and documentary segments. Students apply advanced techniques to plan, write, stage and direct interviews, dramatic pieces, multimedia and other program segments. This course is intended for advanced level students majoring in radio, television and film as well as anyone seeking employment in the field. (FT) AA/AS; CSU.

124 Electronic Field Production
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Radio, Television and Film 100 or 160, each with a grade of “C” or better, or equivalent.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 124.

This course is an introduction to the theory, terminology and operation of remote video production. Students work individually and in groups with emphasis on camera operation, production management, audio control, video recorder operation, and portable lighting. Topics include the aesthetics and fundamentals of proposals, production plans, editing theory, camera lenses, and producing and directing on-location video production. This course is intended for advanced level students majoring in radio, television and film as well as anyone seeking employment in the field. (FT) AA/AS; CSU; UC.

125 Advanced Television and Video Production
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: Radio, Television and Film 122 or 124 and 140 and Digital Media Production 153, each with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 125.
This course offers advanced instruction and practical experience in the development, production and editing of long format video projects. Students enhance their skills in all three phases of production, preparing them to compete and bid for local video production projects. This course is designed for communications majors. (FT) AA/AS; CSU.

126 Art Direction for Film and Television
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels RS and WS. Radio, Television and Film 124 with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 126.
This course is a study of the aesthetics and techniques of art direction for film and television. Emphasis is placed on developing the student’s ability to control the look of their films through the use of design techniques. This course is designed for students majoring in radio and television and drama as well as anyone interested in the study of film. (FT) AA/AS; CSU.

127 Basic TV Production Switcher Operation
1.5 hours lab, .5 units
Grade Only
Advisory: Radio, Television and Film 100 and 118, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 127.
This course offers instruction and practice in advanced operation of the Grass Valley video production switcher for television. The course is intended for students majoring in Television and Film/Video in the Radio and Television Program. (FT) AA/AS; CSU.

128 Lighting for Television and Film
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels RS and WS. Radio, Television and Film 124 with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 128.
This course is a study of the theory and practice of lighting for film and television. Emphasis is placed on the essence of various kinds of light and how light works. Students apply lighting techniques to create visual moods for various film and television production projects. This course is designed for students majoring in radio and television and drama as well as anyone interested in the study of film. (FT) AA/AS; CSU.

130 Radio Programming
1 hour lecture, 6 hours lab, 3 units
Grade Only
Advisory: Radio, Television and Film 105 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 130.
This course is a practical study of radio programming. Emphasis is placed on preparing students to operate all aspects of the student radio station, KSDF HD2. Topics include on-air performance skills, music scheduling, the programming formula, the clock, station image, format selection, ratings, and research. This course is designed for students majoring in Radio and for professionals interested in enhancing their skills and knowledge of radio broadcasting. (FT) AA/AS; CSU.
131 Advanced Radio Performance
2 hours lecture, 6 hours lab, 4 units
Grade Only
Advisory: Radio, Television and Film 130 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 131.
This course is an advanced study of radio programming. Emphasis is placed on the practice and critique of radio announcing for KSDS-HD2, advanced radio production (analog and digital), and copy writing for broadcast announcements. Topics also include radio station promotions, music library maintenance and office administration. This course is designed for students majoring in Radio and for professionals interested in enhancing their skills and knowledge of radio broadcasting. (FT) AA/AS; CSU.

132 Radio Remote Concert Production
1 hour lecture, 3 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 132.
This course offers instruction in the theory and practice of concert production, planning and promotion. Students handle all aspects of staging live music concerts and simultaneous radio broadcasts for the KSDS-FM Jazz Live Program. Students also develop and write promotional materials and concert critiques. This course is designed for students majoring in Radio and for professionals interested in enhancing their skills and knowledge of radio broadcasting. (FT) AA/AS; CSU.

140 Radio and TV Newswriting
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 140.
This course offers instruction and practice in writing and editing news for radio and television. Topics covered include writing from wire copy, newspapers, and documents. This course is intended for students majoring in communications and those seeking employment in broadcasting. (FT) AA/AS; CSU.

141 Radio News Production
2 hours lecture, 6 hours lab, 4 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
Radio, Television and Film 105 and 140, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 141.
This course is a hands-on study of the theory and practice of planning, writing and producing radio newscasts. Students select stories and line-up, conduct field interviews, write and edit scripts, and deliver on-air broadcasts for KSDS-FM. This course is designed for students in the radio program. (FT) AA/AS; CSU.

143 Investigative Reporting On-line
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: Digital Media Production 153, Radio, Television and Film 124 and 140, each with a grade of “C” or better, or equivalent.
This course is an introduction to investigative reporting for on-line media. Emphasis is placed on story selection and pitch, research methods and the technical aspects of creating and publishing an investigative piece for the Internet. This course is designed for students majoring in Radio, Television and Film as well as professionals currently working in the field. (FT) AA/AS; CSU.

144 Reporting in the Borderlands
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Radio, Television and Film 124, 140 and 146, each with a grade of “C” or better, or equivalent. Spanish 101 with a grade of “C” or better, or equivalent
This course is an introduction to reporting methods and techniques required to report news stories on the United States (U.S.) Mexico border. Emphasis
Communications

is placed on the cultural, safety and technological aspects of border reporting. This course is designed for students majoring in Radio, Television and Film as well as for working journalists interested in reporting on the border. (FT) AA/AS; CSU.

145 Television News Production
2 hours lecture, 6 hours lab, 4 units
Grade Only
Advisory: Radio, Television and Film 118, 124, 140 and 146, each with a grade of “C” or better, or equivalent. Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 145.
This course is an intermediate to advanced level study in the practice of television news production. Emphasis is placed on television news gathering, writing, field camera operation, and studio production. Students produce, direct and deliver a weekly half-hour news program that airs on the county education channel. This course is designed for students majoring in radio and television. (FT) AA/AS; CSU.

146 The TV News Field Report
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6; Radio, Television and Film 124 and 140, each with a grade of “C” or better, or equivalent. Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 146.
This course is a practical study of the basic components involved in producing the television news package and documentary. Emphasis is placed on providing students with experience in writing, editing, and assembling the television news package from the standpoint of a real working news reporter, camera operator, editor or producer. This course is designed for students majoring in radio and television. (FT) AA/AS; CSU.

148 Introduction to Weather and Traffic Reporting
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: Radio, Television and Film 105, 121, Geography 101L and Geology 104, each with a grade of “C” or better, or equivalent. This course is an introduction to weather and traffic reporting for broadcast or internet news. Emphasis is placed on the performance aspect of delivering traffic and weather reports. This course is designed for radio and television students and professionals in the field of broadcasting. (FT) AA/AS; CSU.

149 Introduction to Sports Broadcasting
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: Radio, Television and Film 124 with a grade of “C” or better, or equivalent. Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 149.
This course is an introduction to sports broadcasting. Emphasis is placed on producing and delivering a sports broadcast for television, radio and internet. Students participate in hands-on practice as part of a television news team, as radio announcers and play-by-play commentators. This course is designed for radio and television students interested in sports broadcasting and/or news production. (FT) AA/AS; CSU.

160 Introduction to Cinema
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 160.
This course provides an introduction to the medium of cinema as a means of expression and communication. Instruction is provided through in-class viewing and analysis of films, lecture, and discussion. Topics include aesthetic and storytelling techniques, history of the industry, key inventors and artistic contributors, technology, international influences, and current developments. This course is designed for film, media, and communication majors. AA/AS; CSU.

167 Motion Picture Production
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Radio, Television and Film 110 and 160, each with a grade of “C” or better, or equivalent. Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 167.
This course is an introduction to basic cinematography for motion pictures and television. Emphasis is placed on script writing, story boards,
composition of shots, editing, sound recording and mixing, animation and special effects. This course is intended for students majoring in radio and television production and anyone interested in film making or seeking employment in the field. (FT) AA/AS; CSU.

174 The Business of Media
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Journalism 202 with a grade of “C” or better, or equivalent.
This course is a study of current issues in the business of media. Emphasis is placed on in-class debates related to corporate media interests and the role of the media in educating and serving the public. This course is intended for radio, television, film and communications majors and anyone interested in the business of media. (FT) AA/AS; CSU.

175 Radio and Television Sales
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Advisory: Completion of or concurrent enrollment in Radio, Television and Film 100 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 175.
This course is a study of the fundamental principles of sales and as they relate to media sales. Emphasis is placed on the personal development required for success as a sales professional in the media industry. This course is designed for radio, television and film students and anyone interested in honing their sales/marketing skills in the media field. (FT) AA/AS; CSU.

176 Media Advertising Copy
1 hour lecture, 1 unit
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Radio, Television and Film 100 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 176.
This course is a hands-on study of copywriting for the media. Emphasis is placed on writing compelling advertising copy for print, radio, television and the internet. This course is designed for students majoring in radio and television or anyone interested in learning to write effective copy for the media. (FT) AA/AS; CSU.

245 Television Workshop
3-9 hours lab, 1-3 units
Grade Only
Advisory: Radio, Television and Film 124 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 245.
This course is a television production workshop designed to provide radio, television, video and film students the opportunity to work on projects in preparation for professional employment. When this course is taken for two or three units, students spend additional time on longer format individualized projects. (FT) AA/AS; CSU.

246A Advanced Television and Video Production Workshop - Production Management
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Radio, Television and Film 125 with a grade of “C” or better, or equivalent.
This course offers instruction and practical experience in the development, production and editing of long and short format video projects. Emphasis is placed on training students in the area of production management. This course is designed for communications majors, preparing them to compete and bid for local video production projects. (FT) AA/AS; CSU.

246B Advanced Television and Video Production Workshop - Production Crew
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Radio, Television and Film 125 with a grade of “C” or better, or equivalent.
This course offers instruction and practical experience in the development, production and editing of long and short format video projects. Emphasis is placed on training students in the area of production management. This course is designed for communications majors, preparing them to compete and bid for local video production projects. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
editing of long and short format video projects. Emphasis is placed on training students in the area of production crew positions. This course is designed for communications majors, preparing them to compete and bid for local video production projects. (FT) AA/AS; CSU.

246C Advanced Television and Video Production Workshop - Post-Production
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Radio, Television and Film 125 with a grade of “C” or better, or equivalent.
This course offers instruction and practical experience in the development, production and editing of long and short format video projects. Emphasis is placed on training students in the area of post-production. This course is designed for communications majors, preparing them to compete and bid for local video production projects. (FT) AA/AS; CSU.

246D Advanced Television and Video Production Workshop - Directing
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Radio, Television and Film 125 with a grade of “C” or better, or equivalent.
This course offers instruction and practical experience in the development, production and editing of long and short format video projects. Emphasis is placed on training students in the area of directing. This course is designed for communications majors, preparing them to compete and bid for local video production projects. (FT) AA/AS; CSU.

247A Radio Broadcasting Workshop - Production
3 hours lab, 1 unit
Grade Only

Advisory: Radio, Television and Film 131 with a grade of “C” or better, or equivalent.
This course is an advanced workshop in radio program production. Emphasis is placed on the development of production skills for live music and spoken word programming on KSDS-HD2 (student station). This course is intended for Radio students. (FT) AA/AS; CSU.

247B Radio Broadcasting Workshop - News
3 hours lab, 1 unit
Grade Only

Advisory: Radio, Television and Film 131 with a grade of “C” or better, or equivalent.
This course is an advanced workshop in radio program production. Emphasis is placed on the development of production skills for news performance on KSDS-HD2 (student station). This course is intended for Radio students. (FT) AA/AS; CSU.

247C Radio Broadcasting Workshop - Music
3 hours lab, 1 unit
Grade Only

Advisory: Radio, Television and Film 131 with a grade of “C” or better, or equivalent.
This course is an advanced workshop in radio program production. Emphasis is placed on the development of production skills for music programming on KSDS-HD2 (student station). This course is intended for Radio students. (FT) AA/AS; CSU.

247D Radio Broadcasting Workshop - Programming
3 hours lab, 1 unit
Grade Only

Advisory: Radio, Television and Film 131 with a grade of “C” or better, or equivalent.
This course is an advanced workshop in radio program production. Emphasis is placed on the development of content for spoken word programming on KSDS-HD2 (student station). This course is intended for Radio students. (FT) AA/AS; CSU.

249A Television News Workshop - Producing
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Radio, Television and Film 145 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 249A.
This advanced course offers instruction and practice in producing television news. Emphasis is placed on the role of the producer in the television news team, especially in the areas of news writing and editing, assignment editing, Cable News Network (CNN) NewsSource compiling, story selection, program timing, studio production and program back timing and pacing. This course is designed for students...
majoring in radio and television as well as anyone interested in gaining additional proficiency in producing for television. (FT) AA/AS; CSU.

249B Television News Workshop - Tape Coordinating
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Radio, Television and Film 249A with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 249B.
This advanced course offers instruction and practice in tape coordinating for television news. Emphasis is placed on the role of the tape coordinator in the television news team, especially in the areas of news editing, locating Cable News Network (CNN) feeds, story selection, program timing, and studio production. This course is designed for students majoring in radio and television as well as anyone interested in gaining additional proficiency in tape coordinating for television. (FT) AA/AS; CSU.

270 Work Experience
60 - 300 hours other, 1-4 units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from Work Experience Coordinator for enrollment. A program of on-the-job learning experiences for students employed in a job related to their major. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

290 Independent Study
3-9 hours other, 1-3 units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment. Theoretical and practical study of a special area in the field of radio and television. This course is not open to students with previous credit for Radio and Television 290. (FT) AA/AS; CSU.

296 Individualized Instruction in Radio & Television
1.5 - 6 hours other, 0.5 - 2 units
Pass/No Pass
Limitation on Enrollment: Concurrent enrollment in an approved course of the same discipline is required. The instructor of the related course will supply Add Code to the student, which permits registration in the course. This course provides supplemental instruction to reinforce achievement of the learning objectives of a course in the same discipline under the supervision of the instructor of the designated course. Learning activities may employ a variety of self-paced

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
multimedia learning systems, language labs, print and electronic resources, laboratory, or field research arrangements, to assist student in reaching specific learning objectives. This open entry/open exit course is offered concurrently with designated courses. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Communication Studies

Description

The Communication Studies programs provide students the opportunity to gain effective communication skills which are essential and highly demanded in educational, professional and social settings. Through critical thinking, observation, and performance, students recognize the importance of messages in an interconnected multicultural community. The Associate in Arts or Certificate of Performance in Communication Studies offer students enhancement of self-development and foundational tools for relational success.

Program Emphasis

The Communication Studies program emphasizes proficiency in public speaking, interpersonal communication, intercultural communication, voice and articulation, small group communication, and argumentation.

Faculty Office Telephone

Erin Engstrom R-117 619-388-3183
Tanya Medina C-225G 619-388-3598
Deanna Shelton R-118 619-388-3182

Career Options

The career opportunities related to Communication Studies are vast and usually require associate or advanced degrees. Some communication career fields include: advertising and public relations, community service, counseling, education, human resources, journalism, management, marketing, performing arts, politics, and radio/television/film.

Student Learning Outcomes

Upon successful completion of the Communication Studies program the student should be able to:

• Evaluate the speaker's backgrounds, motives and attitudes.
• Analyze the audience's backgrounds, motives and attitudes.
• Design effective communication in order to facilitate understanding and cooperation.
• Develop effective verbal and presentational skills for a variety of communication situations.
• Research, organize, and present a developed viewpoint.

Additional general education and graduation requirements for the associate degree are listed in the catalog. **The associate degree requires a minimum of 60 units.**

**Recommended electives:** Anthropology 103 and Communication Studies 111.

**Transfer Information**

Common university majors related to the field of Communication Studies include: Communication, Communicative Disorders, Graphic Communications, Journalism, Marketing, Public Relations.

**Course Requirements for Transfer Students**

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

**Associate in Arts Degree:**

Communication Studies for Transfer

The Associate in Arts in Communication Studies for Transfer is intended for students who plan to complete a bachelor’s degree in Communication Studies or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree. Students who plan to complete this degree should consult a counselor for additional information about participating CSU campuses as well as university admission, degree and transfer requirements.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

**Student Learning Outcomes:**

Upon successful completion of the Communication Studies program the student should be able to:

- Evaluate the speaker’s backgrounds, motives and attitudes.
- Analyze the audience’s backgrounds, motives and attitudes.
- Design effective communication in order to facilitate understanding and cooperation.
- Develop effective verbal and presentational skills for a variety of communication situations.
- Research, organize, and present a developed viewpoint.

**Note:** Students intending to transfer to a CSU should consult a counselor and visit www.assist.org for guidance on appropriate transfer coursework.

- COMS 180 Intercultural Communication*

*Course also fulfills general education requirements for the CSU GE or IGETC pattern.

Electives as needed to meet maximum of 60 CSU-transferable units required for the degree.

**Courses**

**Communication Studies (COMS)**

99 Voice and Diction for Non-Native Speakers of English

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R4 and W4 or English for Speakers of Other Languages 40 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 99.

The course provides instruction and practice in American English vocal standards and communication skills. Topics include American English standards of pronunciation, listening comprehension, ear-training techniques, effective use of vocal variables of voice-rate, pitch force and quality, vocabulary building, conversation with correct use of grammar, sentence structures, common American idioms, pronunciation, and reading. This course is intended for non-native speakers of English who want to learn and practice American English vocal standards. (FT) AA/AS.

101 Voice and Articulation

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 101.

This course is designed to improve vocal production and the articulation, enunciation, and pronunciation of words. Emphasis is placed on sound production,
voice quality, volume, pitch and expressiveness. This course is intended for communications studies majors and anyone involved in theatre, sales, public services or other professions. (FT) AA/AS; CSU; UC.

103 Oral Communication  
3 hours lecture, 3 units  
Grade Only

Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Level R5 and W5.  
Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 103.  
This course is an introduction to speechmaking. Emphasis is placed on the skills required to organize and deliver a variety of types of speeches. Students give several speeches with and without visual aids. This course is designed for Communication Studies majors and for anyone interested in honing their speech skills. (FT) AA/AS; CSU; UC.

104 Advanced Public Communication  
3 hours lecture, 3 units  
Grade Only

Prerequisite: Communication Studies 103 with a grade of "C" or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 104.  
This course covers theory, practice and critical analysis of public communication, including speeches on subjects of current interest both local and global. It includes an introduction to the relationship between rhetorical theory and criticism and rhetorical practice in public communication. Special emphasis is placed on advanced platform speaking and limited preparation speaking. This course is designed for students majoring in communication studies and students interested in advancing fundamental speech skills. (FT) AA/AS; CSU; UC.

111 Oral Interpretation  
3 hours lecture, 3 units  
Grade Only

Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 111.  
This course is a practical study of the art of oral interpretation. Emphasis is placed on developing a foundation for critical analyses of literature in order to enhance spoken interpretation of prose, poetry, dramatic monologue and duo. This course is designed for communication studies and drama majors as well as anyone interested in improving their oratory skills. (FT) AA/AS; CSU.

135 Interpersonal Communication  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option

Advisory: English 48 and 49, each with a grade of "C" or better, or equivalent or Assessment Skill Level R5 and W5.  
Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 135.  
This course is a study of effective interpersonal skill development and practice in oral and written communication. Emphasis is placed on the personal, situational, and cultural influences of interaction. Topics include human perception, interpersonal dynamics, listening, conflict management, and verbal and non verbal symbol systems. The course is intended for students who communicate in one-on-one situations, including communication, fashion, allied health, public service and business majors. This course is also intended for students who are interested in further development of effective interpersonal skills in work, volunteer, and personal environments. (FT) AA/AS; CSU; UC.

160 Argumentation  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option

Prerequisite: Communication Studies 103 with a grade of "C" or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 160.  
This course is a study of argumentation. Emphasis is placed on research, analysis of propositions, testing of evidence, construction of the brief, and preparation for presentation of constructive and refutation cases. This course is designed for communications studies majors and anyone interested in argumentation and debate. (FT) AA/AS; CSU; UC.
170 Small Group Communication  
**3 hours lecture, 3 units**  
**Letter Grade or Pass/No Pass Option**  
*Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5 and Communication Studies 103 with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 170.  
This course is a study of the concepts and theories related to group formation and development, and basic group communication dynamics. Students lead and participate in various forms of group discussion. This course is designed for communication studies and business majors as well as for anyone interested in working effectively in small group settings. (FT) AA/AS; CSU; UC.*

180 Intercultural Communication  
**3 hours lecture, 3 units**  
**Letter Grade or Pass/No Pass Option**  
*Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.  
Limitation on Enrollment: This course is not open to students with previous credit for Speech Communications 180.  
This course is a study of communication between members of differing cultures. Emphasis is placed on the culture and communication, including social psychological variables, verbal and nonverbal language systems, cross-cultural communication breakdowns and conflict resolution. Students apply the principles of intercultural communication to contemporary cross-cultural and global communication issues. This course is designed for students majoring in communication studies, international business, business, education, social sciences, nursing, mass communications, and all fields of study that require cross-cultural contact and/or awareness of cultural distinctions. (FT) AA/AS; CSU; UC.*

290 Independent Study  
**Hours by Arrangement, 1-3 units**  
**Letter Grade or Pass/No Pass Option**  
*Limitation on Enrollment: Must obtain an Add Code from instructor for registration.  
Advanced special work in debate, radio interpretation, public address. AA/AS; CSU.*  
*This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.*

Digital Journalism (DJRN)

Faculty Office Telephone
Roman S. Koenig T-319 619-388-3815

100 Mass Media in the Digital Age
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course offers a new-media approach to studying mass communication in the United States. It covers emerging technologies, history, structure, social impact, and trends in television, cinema, radio, print, and journalism. Discussion focuses on analysis of the impact of current and emerging media forms on society and culture, as well as on ways that media and social institutions shape each other. Problems and issues are examined in light of social and cultural constructs, economics, technology, law and ethics, and social issues. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU, UC Transfer Limitation: DJRN 100 AND JOUR 202 combined: maximum credit, one course.

200 Newswriting for Multimedia
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course offers a new-media approach to introducing the fundamentals of newswriting and reporting for online and print environments. Emphasis is on newsgathering strategies, writing basic news stories, and producing news content on deadline. Topics also include legal and ethical issues in news media, including the unique challenges posed by emerging online formats. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

201 Feature Writing for Multimedia
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better or equivalent or Assessment Skill Levels R6 and W6, English 105, Digital Journalism 200, 210, Radio and Television 140, Journalism 200, 206 or 210A, each with a grade of “C” or better, or equivalent. This course offers a new-media approach to teaching the principles of feature writing for online and print news publications. The course guides students through the process of story development through completion in accepted journalistic style. The course also covers legal and ethical issues in news media, including the unique challenges posed by emerging online formats. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

210 News Reporting and Editing for Publication
9 hours lab, 3 units
Grade Only
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 or Digital Journalism 200, Radio, Television and Film 140 or Journalism 200 with a grade of “C” or better, or equivalent. This course is the first of four production labs in digital journalism. It introduces students to writing and production for online and print news media. Students gain practical experience in a lab environment through producing and editing a variety of news material, and through applying concepts in media ethics, design, and business. The course is taught in a newsroom using a convergence model in which students collaborate with other student media on campus. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

211 Online News Concepts for Publication
9 hours lab, 3 units
Grade Only
Prerequisite: Digital Journalism 210 or Journalism 210A, each with a grade of “C” or better, or equivalent. This course is the second of four production labs in digital journalism. It offers ongoing refinement of concepts for online and print news media production. Students practice every stage of the online and print news production process in a lab.
environment. The course is taught in a newsroom using a convergence model in which students collaborate with other student media on campus. Although newswriting is a key component, the course primarily focuses on online content development and news editing practices. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

212 News Publication Management
9 hours lab, 3 units
Grade Only

Prerequisite: Digital Journalism 211 or Journalism 210B, each with a grade of "C" or better, or equivalent.

This course is the third of four production labs in digital journalism. It offers students the opportunity to manage the production process for an online and print news publication. The course offers instruction in news management responsibilities, newsroom structure, deadline adherence and business practices, and further instruction in the news editing process. The course is taught in a newsroom using a convergence model in which students collaborate with other student media on campus. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

213 Advanced News Publication Management
9 hours lab, 3 units
Grade Only

Prerequisite: Digital Journalism 212 or Journalism 210C, each with a grade of "C" or better, or equivalent.

This course is the final of four production labs in digital journalism. It focuses on developing advanced editorial management skills for online or print news publication. The course is taught in a newsroom using a convergence model in which students collaborate with other student media on campus. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

215 Photo Journalism and Documentary Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only

Prerequisite: Photography 100 or Photography 143, each with a grade of "C" or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Photography 215. This class covers the use of photographs to illustrate news stories, feature stories, and other narrative content. It explores the equipment used by professional photojournalists in this field, and their interaction with the photo editor/buyer. It examines the approaches to the creation of their images from the objective news photo to the persuasive documentary image. The course is designed for intermediate to advanced photo students with an interest in pictorial media. This course is cross listed with Photography 215. (FT) AA/AS; CSU.

220 Reporting and Editing for Specialty Publications
9 hours lab, 3 units
Grade Only

Advisory: English 101 or English 105 with a grade of "C" or better, or equivalent or Assessment Skill Levels W6 and R6 or Digital Journalism 200, Digital Journalism 210, Radio, Television and Film 140, Journalism 200 or Journalism 210A with a grade of "C" or better, or equivalent.

This course introduces students to writing and production for online and print specialty publications such as magazines and niche media. Students gain practical experience in a lab environment through producing feature news material, and through applying concepts in media ethics, design, and business. The course is taught in a newsroom using a convergence model in which students collaborate with other student media on campus. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

290 Independent Study
3-9 hours other, 1-3 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment.

This course is designed for students who wish to pursue special projects or studies in the discipline and is not intended to replace an existing course. A written contract with the instructor is required. This course is designed for students pursuing media-related majors and for those seeking employment in the field. (FT) AA/AS; CSU.
related majors and for those seeking employment in the field. (FT) AA/AS; CSU.

#### 200 Introduction to Newswriting and Reporting

3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.

The course is an introduction to evaluating, gathering, and writing news in accepted journalistic style under newsroom conditions. Topics include the role of the reporter and the legal and ethical issues related to reporting. Students have writing and reporting experiences, including: personal interviews, speech/meeting/event coverage, deadline writing, and use of AP style. This course is designed for journalism majors and is intended for students interested in learning to write for student media and other publications. (FT) AA/AS; CSU.

#### 201 Advanced Newswriting and Reporting

2 hours lecture, 3 hours lab, 3 units  
Letter Grade or Pass/No Pass Option  
Prerequisite: Journalism 200, Journalism 210A or Journalism 206, each with a grade of “C” or better, or equivalent.

This course offers instruction in advanced journalistic practices. Emphasis is placed on feature, magazine and opinion writing, including investigative and multicultural reporting. Topics also include legal and ethical issues related to reporting. Principles learned can apply to print and online journalism. The course serves as preparation for the major for students preparing to transfer, and is also intended to serve as an elective for students interested in learning to write for newspapers and other publications, including the campus newspaper. (FT) AA/AS; CSU.

#### 202 Introduction to Mass Communication

3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.  
Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 200.  
This course is a survey of mass communication in the United States. Emphasis is placed on the historical and contemporary impact of the media on society and culture as well as on the ways that social institutions shape the media. Students examine media related issues as they related to social and cultural constructs, economics, technology, law and ethics, and social issues. This course is designed for journalism majors and all students interested in the relationship between mass media and society. (FT) AA/AS; CSU; UC Transfer Limitation: DJRN 100 and JOUR 202 combined: maximum credit, one course.

#### 205 Editing for Print Journalism

2 hours lecture, 3 hours lab, 3 units  
Letter Grade or Pass/No Pass Option  
Prerequisite: Journalism 200, Journalism 210A or Journalism 206, each with a grade of “C” or better, or equivalent.

This course offers instruction in editing techniques for news publications. Course content covers publication planning, copy editing, headline writing, use of photos and graphics, layout and design, advertising sales and design, news judgment and editorial leadership. Principles learned apply to print and online journalism. The course serves as preparation in the journalism major for students preparing to transfer. It also serves as an elective for students interested in learning to write for newspapers and other publications, including the campus newspaper. (FT) AA/AS; CSU.

#### 206 Online Journalism

2 hours lecture, 3 hours lab, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 or English 105 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6; Computer Business Technology 161 with a grade of “C” or better, or equivalent.  
Prerequisite: Completion of or concurrent enrollment in: Digital Media Production 151 or 157 with a grade of “C” or better, or equivalent.

This course provides a basic examination of current online news trends and multimedia reporting techniques. The course covers skills necessary to
produce basic multimedia reports, audio slide shows, and blogs. The course also provides instruction in ethical, legal and social issues affecting online journalists, as well as an exploration of online audiences. The course is intended for journalism majors or those seeking career development. (FT) AA/AS; CSU.

### 210A Newspaper Production

**6-9 hours lab, 2-3 units**  
**Letter Grade or Pass/No Pass Option**  
**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course is designed to provide experience in the production and publication of a student newspaper. Emphasis is placed on helping beginning students gain experience in the gathering and writing of news and features. Students at this level learn the basic principles of reporting, news writing, copy editing, photography, and newspaper design and layout. Assignments focus on routine stories, and may include editorials or features such as profiles. Copy editing is limited to reading for technical errors. This class is designed for students with an interest in print media and provides instruction in the journalistic process on an entry level. Skills developed in this course include research techniques and the evaluation and analysis of information. Students are guided by ongoing advice, criticism, and evaluation from a faculty adviser. Students enrolled in the course for 2 units are expected to participate in the production of the student newspaper for at least 6 hours per week, while students enrolled for 3 units are expected to participate at least 9 hours per week and contribute more extensively to the layout and/or production of the paper. (FT) AA/AS; CSU.

### 210B Newspaper Production 2

**6-9 hours lab, 2-3 units**  
**Letter Grade or Pass/No Pass Option**  
**Prerequisite:** Journalism 210A with a grade of “C” or better, or equivalent.

This course is designed to provide additional ongoing experience in the production and publication of a student newspaper. Emphasis is placed on helping students progress in the gathering and writing of news and features. This class provides exposure to the journalistic process beyond the entry level and guides students to polish reporting, newswriting, editing, design, and photography skills, tackle more complex subjects, and assume more responsibility for the design of their own pages. Students continue to develop research skills and engage in the evaluation and analysis of information and are guided by ongoing advice, criticism and evaluation from a faculty adviser. Students enrolled in the course for 2 units are expected to participate in the production of the student newspaper for at least 6 hours per week, while students enrolled in the course for 3 units are expected to participate at least 9 hours and contribute more extensively to the layout and/or production of the paper. (FT) AA/AS; CSU.

### 210C Newspaper Production 3

**6-9 hours lab, 2-3 units**  
**Letter Grade or Pass/No Pass Option**  
**Prerequisite:** Journalism 210B with a grade of “C” or better, or equivalent.

This course is designed to provide additional ongoing experience in the production and publication of a student newspaper. Emphasis is placed on helping students progress to an intermediate level in the gathering and writing of news and features. Students conduct in-depth reporting and write more sophisticated news stories and may also serve as section editors or assist editors with copy editing, assignments, photography, the news budget, and design. Additionally students develop skill in setting newspaper policies, mentoring others, working in teams, and uncovering news stories. Students are guided by ongoing advice, criticism, and evaluation from a faculty adviser. Student enrolled in the course for 2 units are expected to participate in the production of the student newspaper for 6 hours per week, while students enrolled in the course for 3 units are expected to participate at least 9 hours per week, and contribute more extensively to the layout and production of the paper. (FT) AA/AS; CSU.

### 210D Newspaper Production 4

**6-9 hours lab, 2-3 units**  
**Letter Grade or Pass/No Pass Option**  
**Prerequisite:** Journalism 210C with a grade of “C” or better, or equivalent.

This course is designed to provide additional ongoing experience in the production and publication of a student newspaper. Emphasis is placed on helping students progress to an advanced
level in the gathering and writing of news and features. In addition to reporting and writing, students at this level, assume responsibility for organizing and managing the newsroom, which includes conducting story conferences, developing the news budget, assigning stories, coaching reporters, and editing and designing the paper in its entirety. Students may also make photo assignments and provide coaching for novice photographers. Students are guided by ongoing advice, criticism and evaluation from a faculty adviser. Students enrolled in the course for 2 units are expected to participate in the production of the student newspaper for 6 hours per week, while students enrolled for 3 units are expected to participate at least 9 hours per week and contribute extensively to the layout and production of the paper. (FT) AA/AS; CSU.

Computer Business Technology

Award Type Units
Certificate of Performance:
Business Presentations 10
Computer Literacy 7
Computer Basics 5
Data Management Basics 8
Desktop Publishing Basics 9
Office Communications 13
Office Software Basics 5
Office Support Basics 11
Presentation Basics 6
Records Management Basics 11
Soft Skills Basics 12
Web Design Basics 8-9
Word Processing Basics 7
Certificate of Achievement:
Administrative Assistant 27
Administrative Office Management 28
Legal Administrative Assistant 30
Records Information Management 19
Associate in Science Degree:
Administrative Assistant 30*
Administrative Office Management 30*
Legal Administrative Assistant 32*
Records Information Management 26*
*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
Computer Business Technology programs are offered for both transfer and career-oriented students. Certificates of Performance, Certificates of Achievement, and Associate in Science Degrees are available to students interested in upgrading computer skills for college success and/or employment in business office environments.

Career Options:
Career/job opportunities available upon completion of each Computer Business Technology option are described in each curriculum section. Some career options may require education beyond the associate degree or certificate.

Faculty Office Telephone
Barbara Riva A16-D 619-388-3107
Theresa Savarese A1-H 619-388-3367

Student Learning Outcomes
Students who complete the program will be able to:

- Identify computer operating systems functions; define key features of different software applications; and demonstrate how to use a Web browser, and conduct an Internet search.
- Create office documents utilizing the Microsoft Office Suite programs (i.e. Word, Excel, Access, PowerPoint, Outlook, and Publisher).
- Analyze work environments, labor force, and organizational types and structures.
- Employ critical thinking as a basis for continual learning and problem solving.
- Demonstrate interpersonal skills (soft skills) such as leadership, delegation of authority, accountability, consensus building, communication, conflict resolution, and teambuilding.

Certificate of Performance: Business Presentations*
The Certificate of Performance in Business Presentations is designed to provide students with business communications skills necessary in the modern office. Instruction will be offered in the production of business letters and graphic presentation of an analytical business report using a computer presentation software package; in the production of a slide computer presentation; and in the utilization of current office telecommunications equipment. Preparation for beginning employment...
is also offered in information processing and communication in clerical or administrative areas.

Courses

**CBTE 95** Keyboarding Skill Development or
CBTE 101 Keyboarding for Computers 1
CBTE 120 Beginning Microsoft Word 2
CBTE 127 Introduction to PowerPoint 2
CBTE 200 Office Telecommunications 2
BUSE 119 Business Communications 3

Total Units = 10

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

**Note: Students may take a departmental keyboarding test to waive keyboarding course requirement.

Certificate of Performance: Computer Literacy*

The Certificate of Performance in Computer Literacy is designed for students needing a basic knowledge of computers for either transfer or employment.

Courses

CBTE 51 Basic Computer Skills 1
**CBTE 95** Keyboarding Skill Development or
CBTE 101 Keyboarding for Computers 1
CBTE 114 Introduction to Microsoft Windows 1
CBTE 161 Learning the Internet 1
CBTE 180 Microsoft Office 3

Total Units = 7

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

**Note: Students may take a departmental keyboarding test to waive keyboarding course requirement.

Certificate of Performance: Office Communications*

Successful completion of the Certificate of Performance in Office Communications offers preparation for beginning positions as a clerk, receptionist or word processor. Instruction is also provided in basic office skills including ability to use telecommunications equipment required for entry-level employment in a business, professional, educational, or industrial office.

Courses

**CBTE 95** Keyboarding Skill Development or
CBTE 101 Keyboarding for Computers 1
CBTE 120 Beginning Microsoft Word 2

For graduation requirements see Requirements for the Associate Degree on page 79.

Electives as needed to meet minimum of 60 units required for the degree:

Recommended Electives: Business 150; Computer Business Technology 161, 170.

**Note: Students may take a departmental keyboarding test to waive keyboarding course requirement.

Courses

Computer Business Technology (CBTE)

Formerly Office Information Systems (OFCE)

Note: CBTE course numbers differ from the OFCE course numbers. For an accurate cross reference, contact the School of Business and Information Technology at 619-388-3488.

51 Basic Computer Skills
0.75 hours lecture, 0.75 hours lab, 1 unit
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

This course provides students with hands-on practice in basic computer skills. Emphasis is placed on computer terminology, the Windows environment, e-mail and internet fundamentals, data organization, file management, word processing software and potential careers in the Information Technology (IT) field. This course is designed for students interested in learning basic computer skills. (FT) AA/AS.

95 Keyboarding Skill Development
3 hours lab, 1 unit
Pass/No Pass Only

Advisory: Computer Business Technology 101 with a grade of “C” or better, or equivalent.

This course is for students and professionals who want to improve keyboarding skills with emphasis on increasing speed and accuracy through timed exercises. (FT) AA/AS.

101 Basic Computer Keyboarding
0.75 hours lecture, 0.75 hours lab, 1 unit
Grade Only

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5. Limitation on Enrollment: This course is not open to students with previous credit for Office Information Systems 102, 164, 100, 101 or Computer Business Technology 102 or 103.

This course is an overview of keyboarding techniques using the alphabetic and numeric keys on the computer. Students use computer software to develop keyboard skills to achieve a speed of 25 words per minute. This course is intended for all students interested in improved keyboarding skills for personal and/or business use. (FT) AA/AS; CSU.

114 Introduction to Microsoft Windows
0.75 hours lecture, 0.75 hours lab, 1 unit
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 101 or Computer Business Technology 103, each with a grade of “C” or better, or equivalent.
This course is an overview of the features of the Microsoft Windows operating system and environment. Students learn to use and customize the start menu; work with Windows accessory programs; manage storage drives; create shortcuts; and customize the desktop. This course is designed for students intending to use Microsoft Windows for academic, professional and/or personal purposes. (FT) AA/AS; CSU.

120 Beginning Microsoft Word
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Computer Business Technology 101 or 103 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Computer Business Technology 120A or 120B.
This course is an introduction to document formatting using Microsoft Word. Students create fliers, letters, memos, reports and office documents. Topics include mail merge and table basics. This course is designed for students intending to use Microsoft Word for academic, professional and/or personal purposes. (FT) AA/AS; CSU.

122 Intermediate Microsoft Word
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Computer Business Technology 101 or Computer Business Technology 103 and Computer Business Technology 120, each with a grade of “C” or better, or equivalent.
This intermediate-level course introduces advanced features and text editing tools of Microsoft Word. Students create reference documents, online forms and newsletters. Topics include the use of macros and collaboration and integration tools. This course is designed for students intending to use Microsoft Word for academic, professional and/or personal purposes. (FT) AA/AS; CSU.

127 Introduction to PowerPoint
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Computer Business Technology 101 with a grade of “C” or better, or equivalent and Computer Business Technology 114, each with a grade of “C” or better, or equivalent.
This course provides students with the basic knowledge of how to create, modify, and present PowerPoint slide shows. Students add and modify both text and graphics; insert and modify information graphics and multimedia; apply, modify, and create master pages; apply, modify, and create templates. Students integrate other Microsoft programs with PowerPoint. This course is designed for students and professionals acquiring or updating basic skills in creating and editing professional presentations. (FT) AA/AS; CSU.

140 Microsoft Excel
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 101, 102 or 103 and 114, each with a grade of “C” or better, or equivalent; Limitation on Enrollment: This course is not open to students with previous credit for Computer Business Technology 140A or 143.
This course is intended for students, office support personnel, and business owners who require a competency in performing tasks in Microsoft Excel. Students receive hand-on instruction on how to create, modify, and enhance workbooks and charts in addition to more advanced features in Excel such as PivotTables; PivotCharts; macros; and statistical, financial, and IF formulas. (FT) AA/AS; CSU.

143 Intermediate Microsoft Excel
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 101 or 103 and 104, each with a grade of “C” or better, or equivalent; Limitation on Enrollment: This course is not open to students with previous credit for Computer Business Technology 143A.
This course is intended for students intending to use Microsoft Excel for academic, professional and/or personal purposes. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Computer Business Technology

Business Technology 103 and 114, each with a grade of “C” or better, or equivalent.
Advisory: Completion of or concurrent enrollment in Computer Business Technology 101 or 102, each with a grade of “C” or better, or equivalent. This course is not open to students with previous credit for Computer Business Technology 140 or 140A. This course is designed for students preparing for a career or job in which a competency in intermediate-to-advanced Excel functions is required to perform daily tasks. Students receive hands-on instruction on charts, PivotTables, PivotCharts, functions, formulas, data validation, autofilters, what-if analyses, templates, macros, Visual Basic for applications, and integration of Excel with other programs. (FT) AA/AS; CSU.

152 Beginning Microsoft Access
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Advisory: Completion of or concurrent enrollment in: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Computer Business Technology 101 and 114, each with a grade of “C” or better, or equivalent. This course introduces students to the fundamentals of Microsoft Access. Topics include creating, modifying, and sorting database tables; creating queries; creating and enhancing custom forms and reports; modifying the database structure; and importing and exporting data to other programs. This course is intended for students majoring in a computer business technology field or anyone interested in learning the fundamental functions of Microsoft Access. (FT) AA/AS; CSU.

161 Learning the Internet
0.75 hours lecture, 0.75 hours lab, 1 unit
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5; Computer Business Technology 103 and 114, each with a grade of “C” or better, or equivalent. This course introduces students to the Internet. Students receive hands-on practice using a web browser to navigate the World Wide Web and link to Internet resources. Topics include creating and sending e-mail, FTP and file downloading, locating newsgroups and other discussion tools, and conducting business on the Internet. This course is intended for students majoring in a variety of applied computer fields. (FT) AA/AS; CSU.

162 Web Page Creation
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 114 and Computer Business Technology 161, each with a grade of “C” or better, or equivalent. This course provides a hands-on approach to creating Web pages for an Intranet or Web site. Students learn to use Hypertext Markup Language (HTML), wizards and templates to create Web pages with links and graphics and Multimedia enhancements. Students will use basic Cascading Style Sheet (CSS). This course is intended for students, majoring in a variety of fields, and professionals who need a basic knowledge of HTML. (FT) AA/AS; CSU.

164 Introduction to Microsoft Outlook
0.75 hours lecture, 0.75 hours lab, 1 unit
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 101 and Computer Business Technology 114; each with a grade of “C” or better, or equivalent. This course is an introduction to the features of Microsoft Outlook. Students learn how to manage messages, schedule appointments, organize and manage tasks and contact lists, and customize Outlook. This course is designed for students intending to use Microsoft Outlook for academic, professional and/or personal purposes. (FT) AA/AS; CSU.

165 Webpage Creation with Dreamweaver
2.5 hours lecture, 1.5 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5; Computer Business Technology 101, Computer Business Technology 114 and Computer Business Technology 161, each with a grade of “C” or better, or equivalent. This course is a hands-on study of webpage creation. Students use a HyperText Markup Language (HTML) editor to create HyperText Markup Language (HTML) and Cascading Style Sheets (CSS). Web development skills include adding behaviors, using templates and library items, and embedding hypertext links, video, graphic, and multimedia files. This course is designed for students and professionals acquiring or updating
skills in creating and editing simple webpages. (FT) AA/AS; CSU.

**167 Webpage Creation Using Microsoft Expression Web**

**2 hours lecture, 3 hours lab, 3 units**

*Grade Only*

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Computer Business Technology 101, 114 and 161, each with a grade of “C” or better, or equivalent.

This course teaches students how to create websites using Microsoft Expression Web. Students use a hands-on approach to design, analyze, create, manage, and publish websites on the Internet for personal or business use. Topics include formatting text using Hypertext Markup Language (HTML) and Extensible Hypertext Markup Language (XHTML) and Cascading Style Sheets (CSS). Other topics include images, hyperlinks, templates, tables, forms, and page layout and design. This course is intended for students majoring in Computer Business Technology or others interested in web design. (FT) AA/AS; CSU.

**170 Desktop Publishing**

**1.5 hours lecture, 1.5 hours lab, 2 units**

*Grade Only*

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5. Computer Business Technology 101 and 114, each with a grade of “C” or better, or equivalent.

This course is designed for students interested in preparing or upgrading skills for a career or job in which desktop publishing competencies are required. Topics include text and table frames, WordArt, images, graphic accents, and Web page functions. (FT) AA/AS; CSU.

**180 Microsoft Office**

**2 hours lecture, 3 hours lab, 3 units**

*Grade Only*

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5. Computer Business Technology 101 or Computer Business Technology 114 and Computer Business Technology 161, each with a grade of “C” or better, or equivalent.

This course is designed for students interested in an overview and basic working knowledge of Microsoft Office Professional suite for personal and/or professional purposes. Emphasis is placed on word processing, spreadsheet, database, and presentations, and the integration of data within and between the programs. (FT) AA/AS; CSU.

**200 Office Telecommunications**

**1.5 hours lecture, 1.5 hours lab, 2 units**

*Grade Only*

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.

This course provides students with a fundamental working knowledge of voice, data, and video telecommunications that can be applied in their business and personal lives. The course introduces telecommunications networks, transmitting, receiving, and satellite technologies. Topics include basic communication theory, fundamentals of telephone systems, and components of data communications systems. This course is intended for students interested in the selection or use of office telecommunications systems. (FT) AA/AS; CSU.

**205 Records Management**

**3 hours lecture, 3 units**

*Grade Only*

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 101 with a grade of “C” or better, or equivalent.

This course covers the fundamentals of traditional and electronic records management. Topics include indexing and the major filing methods; selection of systems, equipment, and supplies; design, control, and maintenance of inactive records; and the role of records management and the records manager in the information industry. This course is designed to prepare students for employment in the field of Records Information Management (RIM) and for students interested in records management. (FT) AA/AS; CSU.

**206 Electronic Records Management**

**3 hours lecture, 3 units**

*Grade Only*

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 114 and Computer Business Technology 161, each with a grade of “C” or better, or equivalent.

This course is designed for students interested in an overview and basic working knowledge of Microsoft Office Professional suite for personal and/or professional purposes. Emphasis is placed on word processing, spreadsheet, database, and presentations, and the integration of data within and between the programs. (FT) AA/AS; CSU.
Technology 151 and 205 or Computer Business Technology 152 or 180, each with a grade of “C” or better, or equivalent.

This course is an introduction to electronic records management. Emphasis is placed on the use of electronic media to create and store documents. This course is designed for students pursuing a career in records management and for those interested in managing electronic files. (FT) AA/AS; CSU.

207 Advanced RIM Applications
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Computer Business Technology 205 and Computer Business Technology 206, each with a grade of “C” or better, or equivalent. This course is a hands-on study of the applications required to create a records management program. Records Information Management (RIM) projects include creating an industry specific file plan, vital records protection plan, disaster recovery program, and the automation of records systems. This course is intended for students who are looking for employment or an associate degree in RIM. (FT) AA/AS; CSU.

210 Computers in Business
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with credit for Office Information Systems 192. This course is designed to prepare students for a computer related career. Computers in Business is an introductory course which covers the latest developments in computer technology, office automation, electronic communication, and the World Wide Web. (FT) AA/AS; CSU.

211 Office Administration
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Computer Business Technology 101, Computer Business Technology 102 or Computer Business Technology 103 and Computer Business Technology 120, each with a grade of “C” or better, or equivalent; English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.

This course is designed to introduce and reinforce the practical use of current office administration procedures, duties, and human relations for office application. Topics also include office etiquette and dress, time management, communications systems and oral and computer presentations. This course is designed for Computer Business Technology majors as a capstone to be taken at the end of their coursework. (FT) AA/AS; CSU.

270 Work Experience
Hours by Arrangement (One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.), 1-4 units
Grade Only

A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
City College offers transfer and certification programs in the Computer Information Systems (Information Technology) field. These programs include computer literacy; application, web, and database programming; database administration; and a variety of vendor specific and vendor neutral industry-standard certification training. The roles of the various information system professionals are to design, implement, operate, and maintain a computer information system. This system can be based on a large central mainframe computer serving hundreds of users or a small personal microcomputer on a desk. These professionals also provide services in the networking areas such as systems engineers, systems administrators, and networks specialists.

Program Goals
The Information Technology department’s goals includes transfer and vocational programs including industry standard certifications.

Program Emphasis
The Information Technology department offers Certificates of Performance, a Certificate of Achievement and an Associate Degree option.

Faculty | Office | Telephone
--- | --- | ---
Larry Forman  | A17-F  | 619-388-3666
Rose La Muraglia  | A16-G  | 619-388-3719
Richard Pelletier  | A17-G  | 619-388-3113

Career Options
Some careers in the Information Technology field require education beyond the associate degree in either Business, Computer Information Systems, Information Technology, Electronics, or Computer and Information Sciences. Careers in the Information Technology field include: computer consultant, help desk technician, instructional lab technician, sales specialist in computer hardware and software, support technician, computer assembler, systems integrator, network administrator, network specialist, systems engineer, systems administrator, database professionals, and web designers. Most careers in the field of Information Decision Systems require education beyond the associate degree. Careers include: applications programmer, computer operator, database administrator, maintenance programmer, programmer/analyst, and systems analyst.

Academic Programs
The programs that follow, Certificates of Performance, Certificate of Achievement and Associate Degree for preparation for transfer, require completion of the courses listed below.

Certificate of Performance
Certified Convergent Network Technologist*

The Certified in Convergent in Network Technologies (CCNT) certificate provides students with competency-based training addressing convergence services. This certificate provides students with the required knowledge to perform the following job roles: Telco/Service Providers, Technical Sales Professionals, Network Administrators and Engineers, and Product Managers.

Student Learning Outcomes
Upon successful completion the student will be able to:

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
• Identify, list and define convergent technologies.
• Apply the principles and practices of convergent technologies to secure the Certified Convergent Network Technologist (CCNT) certification.

**Total Units = 9.5**

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

**Certificate of Performance: Computer Programming***

This Certificate of Performance in computer programming requires completion of the courses listed below and is meant to prepare students who are planning on preparing for entry-level positions in computer programming and/or information technology. The Certificate of Performance also offers students the opportunity to learn or enhance computer programming skills.

**Student Learning Outcomes**

Upon successful completion the student will be able to:

• Explain basic to intermediate programming methodologies and processes.
• Compare and contrast the syntax of Visual Basic, Java, and C++ programming languages.
• Apply object-oriented design and programming to create programs.
• Apply the main phases of dominant software development methodologies to create and troubleshoot business applications.

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

**Certificate of Performance: Internet Fluency***

This Certificate of Performance in Computer Information Systems requires completion of the courses listed below. The certificate is meant to prepare students who are planning for entry-level positions in the field of information technology, as well as for those students who wish to take courses or work in e-commerce.

**Student Learning Outcomes**

Upon successful completion the student will be able to:

• Explain the features of Web Creation Applications.
• Identify, describe, and apply Web Page creation techniques.
• Compare and contrast the features of various Web Browsers.

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

**Certificate of Performance: Desktop Support Technician***

**Student Learning Outcomes**

Upon successful completion the student will be able to:

• Recognize, identify, and assess the features of current Desktop Operating Systems.
• Apply customer service principles to the Help Desk and Desktop Support field.
• Diagnose and repair desktop operating systems problems.
• Apply Desktop and Help Desk principles in Desktop Certification exams.

**AA/AS = Associate Degree Applicable**

**CSU = California State University Applicable**

**UC = University of California Applicable**
• Identify and apply current project management principles to technology projects.

Certificate of Achievement: Computer Information Systems

Courses Required for the Major: Units
ACCT 116A Financial Accounting 4
ACCT 116B Managerial Accounting 4
BUSE 119 Business Communications 3
BUSE 140 Business Law & the Legal Environment 3
CISC 181 Principles of Information Systems 4
CISC 186 Visual Basic Programming 4
ECON 120 Principles of Macroeconomics 3
MATH 119 Elementary Statistics 3
CISC Elective(s)* 3

Total Units = 31

*Choose a minimum of 3 units in CISC. Students should consult with their counselor prior to choosing electives to ensure electives meet program and/or transfer goals.

Note: Only one Computer and Information Sciences (CISC) course from the above list may be used to satisfy SDCCD general education requirements.

Recommended electives: Computer and Information Sciences 114, 150, 190, 192, 210; Economics 121; Mathematics 116, 121.

Certificate of Achievement: Information Technology Management

Courses Required for the Major: Units
INWT 100 Survey of Operating Systems 4
INWT 110 Desktop Support Technician I 3
INWT 120 Network + Training 4
INWT 140 Security+ Certification Training 3
MSFT 130 Configuring Microsoft Windows Client 2.5
MSFT 132 Windows Server Network Infrastructure, Configuring 3
MSFT 137 Windows Server Active Directory, Configuring 2.5
CBTE 180 Microsoft Office 3
BUSE 092 Introduction to Business Communication or
BUSE 119 Business Communications 3

Total Units = 28

Recommended Electives: Business Studies 155.

Associate in Science Degree: Computer Information Systems

Courses Required for the Major: Units
ACCT 116A Financial Accounting 4
ACCT 116B Managerial Accounting 4
BUSE 119 Business Communications 3
BUSE 140 Business Law & the Legal Environment 3
CISC 181 Principles of Information Systems 4
CISC 186 Visual Basic Programming 4
ECON 120 Principles of Macroeconomics 3
MATH 119 Elementary Statistics 3
CISC Elective(s)* 3

Total Units = 31

*Choose a minimum of 3 units in CISC. Students should consult with their counselor prior to choosing electives to ensure electives meet program and/or transfer goals.

Note: Only one Computer and Information Sciences (CISC) course from the above list may be used to satisfy SDCCD general education requirements.

Recommended Electives: Computer and Information Sciences 114, 150, 190, 192, 210; Economics 121; Mathematics 116, 121.

Transfer Information

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also
earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

## Courses

### Computer and Information Sciences (CISC)

**114 Introduction to Computer Graphics and Web Media**

1.5 hours lecture, 1.5 hours lab, 2 units

*Grade Only*

This course offers a hands-on introduction to the fundamental concepts, current applications and state-of-the art hardware and software in computer graphics and computer visualization technology. Students use professional authoring software to design, develop, debug and document computer presentations for use in business and the world wide web. Hands-on introduction to computer graphics. (FT) AA/AS; CSU.

**121 Introduction to Operating Systems**

0.75 hour lecture, 0.75 hour lab, 1 unit

*Grade Only*

This course is an introductory hands-on study of computer operating systems for general users. Emphasis is placed on the commands and utilities necessary for effective use of computer systems. This course may be offered for Disk Operating System (DOS), Macintosh, Microsoft Windows, OS/2, and Unix. (FT) AA/AS; CSU.

**128 Introduction to Computer Presentations**

0.75 hour lecture, 0.75 hour lab, 1 unit

*Grade Only*

This course is an introductory hands-on study of current applications, hardware and software used to prepare effective presentations on desktop computers. Emphasis is placed on planning, designing, developing, presenting, and evaluating slide, overhead, and computer projection presentations using a combination of text and graphics. (FT) AA/AS; CSU.

**130 Introduction to Local Area Networks**

0.75 hour lecture, 0.75 hour lab, 1 unit

*Grade Only*

This is an introductory study of microcomputer local area and wide area network development, use and administration. Emphasis is placed on presenting students with a breadth of knowledge from wiring to applications and including hardware, software, transmission media, packets, frames, network topology, routing, protocols and layering. (FT) AA/AS; CSU.

**132 Intermediate Local Area Networking**

0.75 hour lecture, 0.75 hour lab, 1 unit

*Grade Only*

This course is an introductory study of Internetworking and network applications. Emphasis is placed on presenting students with a breadth of knowledge from wiring to applications and including Internet architecture, protocols, datagrams, routing, the client server model, electronic mail, web document technologies, network management and security. (FT) AA/AS; CSU.

**150 Introduction to Computer and Information Sciences**

3 hours lecture, 3 units

*Grade Only*

This course is a survey of computers, computer systems and information sciences. Emphasis is placed on the use of computers in business and technical fields. Topics include computer equipment and programming systems, systems study, design, development and implementation. This course is intended for all students interested in computers and how to use them. (FT) AA/AS; CSU.

**152 Introduction to the Linux Operating System**

3 hours lecture, 3 hours lab, 4 units

*Pass/No Pass Only*

**Limitation on Enrollment:** This course is not open to students with credit for Computer and Information Sciences 151.

This introductory course to the Linux Operating systems is for new users to learn the programs and services that made the Linux System so increasingly popular, including: the shell, communicating

| AA/AS = Associate Degree Applicable |
| CSU = California State University Applicable |
| UC = University of California Applicable |
to other users, manipulating files using the file structure, setting file access permissions, full-screen text editing, and programming simple shell scripts. The Novell SuSE Linux implementation is used in the course, but other versions of Linux are also appropriate. (FT) AA/AS; CSU.

161 Software Project Management
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: Computer and Information Sciences 181 or 182, 186, 187, 190, 192, 193 or Mathematics 107 with a grade of “C” or better, or equivalent.
This course prepares computer science, information technology, information systems, and software engineering students with a thorough introduction to the tools and techniques associated with managing software development projects. This knowledge is required in any substantive software development project. This course assumes adequate understanding of the process of software development. It also requires access to, and the use of, Microsoft Project, a software tool that is part of the Microsoft Office family. This course is of interest to students majoring in the areas cited above, and to professional development students seeking to expand their knowledge and skills in software development management. (FT) AA/AS; CSU.

181 Principles of Information Systems
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is an introduction to basic principles and theory relating to problem solving and analysis in business organizations using computers and software packages. Emphasis is placed on computer organization, data processing systems, decision support systems, and systems analysis. Business software is reviewed with an emphasis on spreadsheet systems including hands-on spreadsheet applications. This course is intended for the transfer student planning to major in business, economics, or social science. (FT) AA/AS; CSU; UC.

186 Visual Basic Programming
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 49 with a grade of “C” or better, or equivalent, or Assessment Skill Level W5.
This course is an introduction to programming using Visual Basic. The course covers the fundamentals of event oriented programming in a Windows environment. Students learn to use and program a mouse, windows, forms, menus, dialog boxes, icons, buttons, text fields, files, graphics, and other components of a Windows environment in Visual Basic. (FT) AA/AS; CSU; UC.

187 Data Structures and Object-Orientation
3 hours lecture, 3 hours lab, 4 units
Grade Only
This course introduces students to the topic of data structures and object-oriented software engineering. It covers basic data structures such as collections and linked structures (e.g. stacks, queues, lists, arrays, trees, and hashes) from the perspective of object-oriented implementation. It discusses issues of object-oriented analysis, design, and implementation in popular programming languages such as C++, C#, and Java. (FT) AA/AS; CSU; UC.

189A Introduction to Programming I
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels W5 and M40; Computer and Information Sciences 150 or 181, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Computer Information Sciences 190-Java Programming. Using the popular programming language Java, this course introduces students to the process of developing simple software applications to solve typical human problems. This includes language syntax, structure, and semantics as well as the basics of object-oriented software engineering. CISC 189A and B together are a slower-paced version of CISC 190, with more programming practice. CISC 189A is the first of the two-course sequence. (FT) AA/AS; CSU; UC Transfer Limitation: Computer and Information Sciences (CISC) 189A and 189B are equal to 190. No credit for 189A or 189B if taken after 190.

189B Introduction to Programming II
3 hours lecture, 3 hours lab, 4 units
Grade Only
Prerequisite: Computer and Information Sciences 189A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Computer and Information Sciences 190-Java Programming.
Using the popular programming language Java, this course continues the process of students learning how to solve business problems by developing useful software applications. This includes more advanced concepts like abstract data structures, graphics, and data persistence. CISC 189A and B together are a slower-paced version of CISC 190, with more programming practice. CISC 189B is the second of the two-course sequence. (FT) AA/AS; CSU; UC Transfer Limitation: Computer and Information Sciences (CISC) 189A and 189B are equal to 190. No credit for 189A or 189B if taken after 190.

190 Java Programming
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 48, English 49 and Mathematics 34A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5, W5 and M20. Computer and Information Sciences 186 with a grade of “C” or better, or equivalent.
This course is an introduction to programming using Java. The course covers the fundamentals of object-oriented programming utilizing the Java programming language for general purpose business programs and interactive World Wide Web-based Internet programs. This course is intended for students majoring in computer and information sciences or anyone interested in the Java programming language. (FT) AA/AS; CSU; UC.

192 C/C++ Programming
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 49 with a grade of “C” or better, or equivalent, or Assessment Skill Level W5; and Computer and Information Sciences 186 with a grade of “C” or better, or equivalent.
This course presents basic programming concepts using the C++ programming language. The organization of standard I/O classes is emphasized. Structured and object oriented programming techniques are presented and used to design and implement a variety of programming problems. (FT) AA/AS; CSU; UC.

193 Microsoft C# Software Engineering 1
3 hours lecture, 3 hours lab, 4 units
Grade Only
This course applies industry-standard software engineering principles to the study of the object-oriented, general purpose programming language Microsoft C#, a member of the Microsoft Visual Studio.NET software development toolset. Coverage includes the typical topics of an introductory programming course. Extensive hands-on training is included in the laboratory sessions. This course is designed for students pursuing a degree in Computer Science or Information Systems and for vocational/professional students who are updating their programming skills set. (FT) AA/AS; CSU; UC.

205 Object Oriented Programming Using C++
3 hours lecture, 3 hours lab, 4 units
Grade Only
This course introduces students to Object Oriented Programming (OOP) using the C++ programming language and includes the essential concepts related to OOP including use of classes and objects, inheritance, templates, polymorphism, pointers and references, and I/O streams. This course is intended for students majoring in Computer and Information Sciences. (FT) AA/AS; CSU; UC.

210 System Analysis and Design
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.
This course is an introductory, experiential study of the phases of the object-oriented software development life cycle (OOSDLC), including: stakeholder and requirements analysis; use cases development; software architecture; project management; user interface considerations; interactive and prototyping methodology; component construction; quality assurance; and configuration management. This course is intended for students seeking advanced knowledge and applications in Computer and Information Sciences. (FT) AA/AS; CSU; UC.

220 Fundamentals of Computer Game Programming
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: Computer and Information Sciences 187 or 190 or 192 or 193, with a grade of “C” or better, or equivalent.
240

San Diego City College • 2013-2014

This course introduces software programmers to the design and development of simple graphical computer-based games. The course may use Java or C# as the programming language of choice. Emphasis is placed on developing games in a team environment, designing logical games that satisfy player needs, and on ensuring that games are of high quality through use of software engineering best practices and proper testing. This course is for students with some previous software programming experience. (FT) AA/AS; CSU; UC.

290 Independent Study

Hours by Arrangement, 1-3 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
Typically for advanced students in Computer and Information Sciences who wish to pursue special problems and projects related to the area. The student will meet with the instructor at specific intervals and will be expected to accomplish primary research, problem analysis and report preparation relating to an approved project or course of study. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Information, Network, and Web Technology (INWT)

90A Convergent Network Technology: Basic Data Communications

2 hours lecture, 2 units
Pass/No Pass Only

Corequisite: Information, Network, and Web Technologies 90B, 90C, 90D, 90E, and 90F.
Limitation on Enrollment: This course is not open to students with previous credit for Computer & Information Sciences 265C, Convergent Network Technology Basic Data Communications. This course provides students with basic telecommunications knowledge and skills. The student is introduced to the technology of networks, business communications systems, signaling, Internet telephony and switching. This course follows Computer-Prep Official Curriculum and is intended to prepare students to take the Computer-Prep Certified in Convergent Network Technologies (CCNT) Basic Data Communications exam. (FT) AA/AS.

90B Convergent Network Technology: Basic Telecommunications

1.5 hours lecture, 1.5 units
Pass/No Pass Only

Corequisite: Information, Network, and Web Technologies 90A, 90C, 90D, 90E, and 90F.
Limitation on Enrollment: This course is not open to students with previous credit for Computer & Information Sciences 265D, Convergent Network Technology Basic Telecommunications. This course provides students with basic telecommunications knowledge and skills. The student is introduced to the technology of networks, business communications systems, signaling, Internet telephony and switching. This course follows Computer-Prep Official Curriculum and is intended to prepare students to take the Computer-Prep Certified in Convergent Network Technologies (CCNT) Basic Telecommunications exam. (FT) AA/AS.

90C Convergent Network Technology: Broadband Technologies

2 hours lecture, 2 units
Pass/No Pass Only

Corequisite: Information, Network, and Web Technologies 90A, 90B, 90D, 90E, and 90F.
Limitation on Enrollment: This course is not open to students with previous credit for Computer & Information Sciences 265E, Convergent Network Technology: Broadband Technologies. This course provides students with basic broadband technologies knowledge and skills. The student develops an understanding for Convergent Technologies and the need for transmitting more than one type of signal simultaneously by way of divided channel. Emphasis is placed on the exploration of the technology of voice and data integration, frame relay, Synchronous Optical Network (SONET), Asynchronous Transfer Mode (ATM)/cell relay, Switched Multi-megabit Digital Service (SMDS), Broadband Integrated Services Digital Network (BISDN), Digital Subscriber Line (DSL), and Virtual Private Network (VPN). This course follows Computer-Prep Official Curriculum and is intended to prepare students to take the Computer-Prep Certified in Convergent Network Technologies (CCNT) Broadband Technologies exam. (FT) AA/AS.
Technologies (CCNT) Broadband Technologies exam. (FT) AA/AS.

90D Convergent Network Technology: Computer Telephony Integration

1 hour lecture, 1 unit
Pass/No Pass Only

Corequisite: Information, Network, and Web Technologies 90A, 90B, 90C, 90D, and 90F.

Limitation on Enrollment: This course is not open to students with previous credit for Computer & Information Sciences 265F, Convergent Network Technology: Computer Telephony Integration. This course is designed to provide students with instruction in Computer-Telephony Integration (CTI) Essentials that build on Convergent Technologies competencies. The student is introduced to the technology of merging voice, video and data on a single network, and the intersection of telephone, television, cable and Internet networks. This course follows Computer-Prep Official Curriculum and is intended to prepare students to take the Computer-Prep Certified in Convergent Network Technologies (CCNT) Computer-Telephony Integration (CTI) Essentials exam. (FT) AA/AS.

90E Convergent Network Technology: Local Area Networks (LANs)

2 hours lecture, 2 units
Pass/No Pass Only

Corequisite: Information, Network, and Web Technologies 90A, 90B, 90C, 90D, and 90F.

Limitation on Enrollment: This course is not open to students with previous credit for Computer & Information Sciences 265H, Convergent Network Technology: Local Area Networks (LANs). This course provides students with basic training in local area networks (LANs). The student develops a critical understanding of the concepts and technology of LAN topologies, information transfer, transmission techniques, media standards, and network management. This course follows Computer-Prep Official Curriculum and is intended to prepare students to take Computer-Prep Certified in Convergent Network Technologies (CCNT) Local Area Networks (LANs) exam. (FT) AA/AS.

90F Convergent Network Technology: Voice Over IP (VoIP) Essentials

1 hour lecture, 1 unit
Pass/No Pass Only

Corequisite: Information, Network, and Web Technologies 90A, 90B, 90C, 90D, and 90E.

Limitation on Enrollment: This course is not open to students with previous credit for Computer & Information Sciences 265G, Convergent Network Technology: Voice Over IP (VOIP) Essentials. This course is designed to assist students in learning Voice Over IP. This course builds knowledge of Convergent Technologies and focuses on understanding the principles of transmitting voice calls and fax over the Internet. Students analyze VoIP networks, bandwidth compression, the Gateway, packet prioritization, Resource Reservation Protocol (RSVP), H.320 and H.323, and Wide Area Network (WAN) engineering issues. This course follows Computer-Prep Official Curriculum and is intended to prepare students to take the Computer-Prep Certified in Convergent Network Technologies (CCNT) Voice Over IP (VoIP) Essentials exam. (FT) AA/AS.

100 Survey of Operating Systems

3 hours lecture, 3 hours lab, 4 units
Grade Only

This project-based course is a survey of several operating systems (OS) and provides students with the opportunity to gain hands-on experience in the installation and configuration of desktop operating systems. The students work with one legacy, two current Windows, and a current version of a Linux operating systems. This course is intended for students seeking a degree or career in Information Technology and provides students with concepts and practices which includes the installation and configuration of client systems used in the Help Desk, Systems Administration, and support technician fields. (FT) AA/AS; CSU.

110 Desktop Support Technician I

2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Completion of or concurrent enrollment in Information, Network, and Web Technologies 100 with a grade of “C” or better, or equivalent. This course prepares students with the knowledge and skills required to take and pass the first Microsoft Desktop Support Technician exam (Exam 70-685). Students completing this course are prepared for an entry level position in the desktop support industry. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
120 Network + Training
3 hours lecture, 3 hours lab, 4 units
Grade Only

Advisory: English 48 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5.
This is a project-oriented course that provides students with the knowledge and skills to support, maintain, and deploy networking systems and devices. This course follows the official Computing Technology Industry Association (CompTia) curriculum and is intended to prepare students to take the Network + exam and develop the job skills of a network support technician. (FT) AA/AS; CSU.

140 Security+ Certification Training
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option

Advisory: Computer and Information Sciences 130 or Electronic Systems 229 or Microsoft 050 with a grade of “C” or better, or equivalent.
This course provides students with the knowledge and skills needed to plan, implement, and monitor network security policies, procedures, and technologies in any type of network environment. Students learn general security concepts, communications security, infrastructure security, basic principles of cryptography, and operations and organizational security factors affecting network environments. This course prepares students for the Security + exam. (FT) AA/AS; CSU.

130 Configuring Microsoft Windows Client
1 hour lecture, 4.5 hours lab, 2.5 units
Grade Only

Advisory: Information, Network, and Web Technologies 100 with a grade of “C” or better, or equivalent.
This course provides students with the knowledge and skills to install and configure Windows desktops and to configure mobile computers and applications that run on Windows in a network environment. Course content follows the Microsoft Official Academic Course curriculum and is intended to prepare students to take the Microsoft Client component of the Microsoft Certified IT Professional (MCITP) and Microsoft Certified Technology Specialist (MCTS) certification exam. (FT) AA/AS; CSU.

132 Windows Server Network Infrastructure, Configuring
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Microsoft 130 with a grade of “C” or better, or equivalent.
This course provides students with the knowledge and skills to configure and troubleshoot a Windows server network infrastructure. Students learn how to configure secure network access, implement fault tolerant storage technologies, secure servers and maintain update compliance. Course content follows the Microsoft Official Academic Course curriculum and is intended to prepare students to take the Microsoft Client component of the Microsoft Certified IT Professional (MCITP) and Microsoft Certified Technology Specialist (MCTS) certification exam. (FT) AA/AS; CSU.

137 Windows Server Active Directory, Configuring
1 hour lecture, 4.5 hours lab, 2.5 units
Letter Grade or Pass/No Pass Option

Prerequisite: Microsoft 132 with a grade of “C” or better, or equivalent.
This course provides students with the knowledge and skills to configure Active Directory (AD) Domain Services in a distributed environment, implement group policies, perform back and restore, and monitor and troubleshoot AD related issues. Students also learn to configure identity and access solutions with Windows Server 2008 AD. Course content follows the Microsoft Official Academic Course curriculum and is intended to prepare students to take the Microsoft Server 2008 Active Directory Configuring Exam 70-640 required for the Microsoft Certified Technology Specialist (MCTS) and Microsoft Certified IT Professional (MCITP) certifications, Enterprise Administrator and Server Administrator. (FT) AA/AS; CSU.

160 Microsoft Exchange Server, Configuring
1 hour lecture, 4.5 hours lab, 2.5 units
Letter Grade or Pass/No Pass Option

Prerequisite: Microsoft 132 with a grade of “C” or better, or equivalent.
This course provides students with the knowledge and skills necessary to install, configure and administer a Microsoft Exchange Server. Emphasis is placed on managing messaging and connection security, message recovery, and monitoring and troubleshooting the Microsoft Exchange Server. Course content follows the Microsoft Official
Academic Course curriculum and is intended to prepare students to take the Microsoft Server component of the Microsoft Certified Technology Specialist (MCTS) and the Microsoft Certified IT Professional (MCITP) certification exam (70-236). (FT) AA/AS; CSU.

**This discipline may offer specialized instruction in one or more of the following areas:** Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

**Description**
This program is designed for the student who is interested in a construction-related career. The specialized trade options of Electrical, Plumbing, and Sheet Metal are offered parallel to the apprenticeship related instructional programs. Each option provides in-depth information and a working knowledge of tools, materials and techniques used in the industry. These courses are not designed for the handyman, but for the individual pursuing a career in a related field. Program planning should occur with the assistance of a department member. All courses have been designed to be taken sequentially.

**Student Learning Outcomes**
Through the process of engagement with combined lecture, related curriculum on theory and hands-on lab practice, the student will be able to:

- Demonstrate preparedness for successful transition into the construction trade specialty area with a demonstrated understanding of theory and practice required by the workforce professional.

- Duplicate procedures for trade and industry-specific practices in use of tools, techniques and hands-on skills with related competencies for the construction trade specialty area.

- Identify and use equipment and related components of the construction trade specialty area to meet standards for measurement, calibration and best practices.

- Read, comprehend and apply construction trade specialty area instructions and design standards for outcomes as required by construction specialty practices and regulations.

**Certificate of Achievement: Construction Trades**

**Courses**

**Construction Systems (CONS)**

60A Construction Systems - Introduction to HVAC I  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5, W5 and M40.  
Limitation on Enrollment: This course is not open to students with previous credit for Heating, Ventilation, Air Conditioning Apprenticeship (HVAC) 301. In this course, trade mathematics and drawings, the tools of the trade, blueprint terminology and basic rigging equipment and procedures as applicable to HVAC are covered. This course is designed to give the construction HVAC student an understanding of copper and plastic piping practices. (FT) AA/AS.

60B Construction Systems - Introduction to HVAC II  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  
Prerequisite: Construction Systems 60A with a grade of "C" or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Heating, Ventilation, Air Conditioning Apprenticeship (HVAC) 302. This course introduces the construction HVAC trainee to the basic concepts and environmental concerns related to heating, ventilation and air conditioning, including: soldering, brazing, ferrous metal piping practices, basic electricity, heating and cooling. This course also describes the HVAC program and the career opportunities available in the HVAC trade. (FT) AA/AS.

61A Construction Systems - Intermediate HVAC I  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  
Prerequisite: Construction Systems 60B with a grade of "C" or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Heating, Ventilation, Air Conditioning Apprenticeship (HVAC) 303. This course instructs the HVAC trainee in the properties of air, and covers chimneys, flues and vents. Students are introduced to basic mechanical procedures commonly performed in HVAC service work, such as the operation, installation and servicing of electric furnaces. This course also introduces the student to alternating current and electronic components and circuits used in HVAC systems. (FT) AA/AS.

61B Construction Systems - Intermediate HVAC II  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  
Prerequisite: Construction Systems 61A with a grade of "C" or better, or equivalent.

AA/AS = Associate Degree Applicable  
CSU = California State University Applicable  
UC = University of California Applicable
Limitation on Enrollment: This course is not open to students with previous credit for Heating, Ventilation, Air Conditioning Apprenticeship (HVAC) 304. This course instructs the HVAC trainee in HVAC controls and metering devices and introduces the trainee to control circuit analysis. This course also covers compressors and heat pumps and instructs the student in leak detection, evacuation, recovery and charging service procedures used to troubleshoot, repair and/or maintain proper operation of the mechanical refrigeration system. (FT) AA/AS.

62A Construction Systems - Advanced HVAC I
2 hours lecture, 3 hours lab, 3 units
Prerequisite: Construction Systems 61B with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Heating, Ventilation, Air Conditioning Apprenticeship (HVAC) 305. This course instructs the HVAC trainee in preventive maintenance and provides an introduction to troubleshooting applying to all types of HVAC equipment. This course also covers troubleshooting electronic controls, gas heating, electric heating and oil heating. (FT) AA/AS.

62B Construction Systems - Advanced HVAC II
2 hours lecture, 3 hours lab, 3 units
Prerequisite: Construction Systems 62A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Heating, Ventilation, Air Conditioning Apprenticeship (HVAC) 306. This course instructs the HVAC trainee in troubleshooting cooling, accessories, heat pumps and commercial heating and cooling systems. This course also covers water and air balance, steam systems and customer relations. (FT) AA/AS.

63A Construction Systems - HVAC Specialties I
2 hours lecture, 3 hours lab, 3 units
Prerequisite: Construction Systems 62B with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Heating, Ventilation, Air Conditioning Apprenticeship (HVAC) 307. This course covers advanced blueprint reading and specifications as they relate to HVAC, indoor air quality and energy conservation equipment commonly used in HVAC systems. This course also covers energy management systems and the methods of water treatment and water treatment equipment used with HVAC systems. (FT) AA/AS.

63B Construction Systems - HVAC Specialties II
2 hours lecture, 3 hours lab, 3 units
Prerequisite: Construction Systems 63A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Construction Electronic Systems Technician 301A. This course provides the Construction Systems - Low Voltage Building Systems student with instruction in industry standards, and building codes, residential and commercial construction methods, basic

70A Construction Systems - Introduction to Low Voltage Building Systems I
2 hours lecture, 3 hours lab, 3 units
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.
Limitation on Enrollment: This course is not open to students with previous credit for Construction Electronic Systems Technician 301A. This course provides the Construction Systems - Low Voltage Building Systems student with instruction in general construction site safety, measurements and formulas, use of hand and power tools, interpretation of blueprints, basic rigging techniques and methods used to move equipment and materials. AA/AS.

70B Construction Systems - Introduction to Low Voltage Building Systems II
2 hours lecture, 3 hours lab, 3 units
Prerequisite: Construction Systems 70A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Construction Electronic Systems Technician 301B. This course provides the Construction Systems - Low Voltage Building Systems student with instruction in industry standards, and building codes, residential and commercial construction methods, basic
electrical theory, electrical meters, OSHA safety standards, and ladders and rigging. (FT) AA/AS.

71A Construction Systems - Intermediate Low Voltage Building Systems I
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Construction Systems 70B with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Construction Electronic Systems Technician 302A.
This course provides the Construction Systems - Low Voltage Building Systems student with instruction in mathematics related to the trade, electronic theory, electronic measurement tools and techniques, AC and DC electrical systems and grounding, and blueprint reading related to the trade. (FT) AA/AS.

71B Construction Systems - Intermediate Low Voltage Building Systems II
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Construction Systems 71A with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Construction Electronic Systems Technician 302B.
This course provides the Construction Systems - Low Voltage Building Systems student with instruction in types of cabling, switches and relays, terminating conductors, low-voltage codes and standards, and computer cabling applications. (FT) AA/AS.

72A Construction Systems - Advanced Low Voltage Building Systems I
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Construction Systems 72A with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Construction Electronic Systems Technician 303A.
This course provides the Construction Systems - Low Voltage Building Systems student with instruction in wire and cable selection, advanced buses and networks, fiber optic installation, cable and satellite television systems, and wireless communications. (FT) AA/AS.

72B Construction Systems - Advanced Low Voltage Building Systems II
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Construction Systems 72A with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Construction Electronic Systems Technician 303B.
This course provides the Construction Systems - Low Voltage Building Systems student with instruction in site survey, job planning and documentation, maintenance and repair, supervision, and fire and security alarm systems. (FT) AA/AS.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Courses

Electrical (ELEC)

160A Introduction to Electrical Construction I
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5, W5 and M40.
Limitation on Enrollment: This course is not open to students with previous credit for Electrical 60A or 301A.
This course provides the electrical worker with instruction in general construction site safety, measurements and formulas, use of hand and power tools, interpretation of blueprints, basic rigging techniques and methods used to move equipment and materials. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
160B Introduction to Electrical Construction II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Electricity 60A, 160A or 301A, with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Electricity 60B or 301B.

This course provides the electrical student with instruction in basic principles of electrical safety and hazard procedures, including working with toxics and vapors. Students are also provided with instruction in techniques used to hand bend conduits and install anchors and supports. Additional instruction included an introduction to basic electrical theory and test equipment, the use of National Electric Code (NEC) boxes, fittings and conductors, and the interpretation of related electrical blueprints and commercial/industrial/residential symbols, diagrams and schematics used for wiring. (FT) AA/AS; CSU.

165A Intermediate Electrical Construction I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Electricity 60B, 160B or 301B, with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Electricity 65A or 302A.

This course is an intermediate study of electrical techniques. Topics include the principles of alternating currents, the characteristics of circuits, transformers, motor theory applications, grounding purposes and methods, National Electrical Code (NEC) requirements for conduit bending, types of bends, specifications for boxes and fittings, and location considerations. (FT) AA/AS; CSU.

165B Intermediate Electrical Construction II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Electricity 65A, 165A or 302A, with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Electricity 65B or 302B.

This course covers the installation of connections for conductor termination and splices; use of cable pulling instruments and National Electrical Manufacturers Association (NEMA) and National Electrical Code (NEC) standards for cable tray; installation of electrical service and related components and equipment; use of material take-off methods and troubleshooting techniques; identification of ratings for current breakers and fuses and regulations for sizing use, and installation of relay switches, conductors and overrides; electrical lighting principles, types and applications. (FT) AA/AS; CSU.

170A Advanced Electrical Construction I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Electrical 165B (formerly Electrical 65B) or 302B with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Building Construction Technology 212 or Electrical 303A or 70A.

This course is an advanced study of electrical techniques. Topics include branch load calculations for circuits and varied electrical appliances, electrical conductors, devices used for overprotection of loads, currents, circuits and fuses, fill requirements for boxes/raceways, principles of wiring devices, switches and receptacles, requirements for distribution equipment, settings for voltage, switch gear, circuits and components, distribution system transformers, National Electrical Code (NEC) requirements, and troubleshooting. This course is designed for students in the Electrical program. (FT) AA/AS; CSU.

170B Advanced Electrical Construction II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Electrical 170A (formerly Electrical 70A) or 303A with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Building Construction Technology 213 or Electrical 303B or 70B.

This course provides the electrical worker with instruction in basic lighting and National Electrical Code (NEC) requirements for indoor and outdoor lighting. Topics include introductory motor basics, including calculations, transformers, instruments for testing, wiring, protection, maintenance, and troubleshooting for various types of motors and motor controls. This course also covers an introduction to heating, ventilation, and air conditioning (HVAC) systems and refrigeration theory, including compressors, operating systems and system maintenance equipment, and safety
requirements. The principles of combustion, hazardous materials, their reactions in varied locations, and the use of safety equipment is also included in this course. (FT) AA/AS; CSU.

175A Electrical Construction Specialties I
2 hours lecture, 3 hours lab, 3 units
Grade Only

**Prerequisite:** Electrical 170B (formerly Electrical 70B) or 303B with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Building Construction Technology 222 or Electrical 304A or 75A.

This course provides the electrical worker with instruction in calculations for wiring commercial and residential dwellings and National Electrical Code (NEC) requirements for lighting and specialty fixtures. Topics include the standby emergency electrical systems and system applications, disconnect switches, feeder and branch circuits for direct current (DC) systems, theory and operating principles for solid-state devices, operational amplifier circuits, transformers and components of fire alarm and security systems, and installation methods for smoke and heat detectors. (FT) AA/AS; CSU.

175B Electrical Construction Specialties II
2 hours lecture, 3 hours lab, 3 units
Grade Only

**Prerequisite:** Electrical 175A (formerly Electrical 75A) or 304A with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Building Construction Technology 223 or Electrical 304B or 75B.

This course is designed to provide the electrical worker with advanced instruction in controls for motors, starters, relays, switches and transformers as well as in the installation and connection of gas burner controls and commercial and industrial Heating Ventilation and Air Conditioning (HVAC) control systems. Topics also include National Electrical Code (NEC) and Occupational Safety and Health Administration (OSHA) requirements for connecting and grounding varied welding machines, installation and protection of heat-tracing and freeze protection equipment, principles and maintenance of motors, and selection of materials and tools required for high voltage termination/splices according to manufacturer’s specifications. (FT) AA/AS; CSU.

180 Introduction To Pipefitting
2 hours lecture, 4 hours lab, 3 units
Grade Only

**Prerequisite:** Plumbing (Construction Trades) 165B or Plumbing (Construction Trades) 320, with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Pipefitting (Construction Trades) 80 or Pipefitting (Construction Trades) 325.

This course is designed to give the Pipefitting student an introduction to blueprint drawings and detail sheets, piping systems, standards and specifications. The course content includes advanced blueprint reading and trade math as well as motorized equipment and aboveground pipe installation. (FT) AA/AS; CSU.

185 Intermediate Pipefitting
2 hours lecture, 4 hours lab, 3 units
Grade Only

**Prerequisite:** Pipefitting (Construction Trades) 180 or Pipefitting (Construction Trades) 325 with a grade of “C” or better or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Pipefitting (Construction Trades) 330 or Pipefitting (Construction Trades) 85.

This course is designed to give the Pipefitting student instruction in pipe hangers and supports, field routing and vessel trim, spring can supports, and identifying and installing valves. Emphasis is placed on planning work activities and performing non-destructive examination testing. (FT) AA/AS; CSU.

---

**AA/AS = Associate Degree Applicable**  
**CSU = California State University Applicable**  
**UC = University of California Applicable**
190 Advanced Pipefitting
2 hours lecture, 4 hours lab, 3 units
Grade Only

Prerequisite: Pipefitting (Construction Trades) 185 or Pipefitting (Construction Trades) 330 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Pipefitting (Construction Trades) 335 or Pipefitting (Construction Trades) 90.
This course is designed to give the Pipefitting student instruction in advanced pipe fabrication, aligning pipe to rotating equipment, steam traps, in-line specialties, special piping, hot taps and maintaining valves. (FT) AA/AS; CSU.

195 Advanced Pipefitting II
2 hours lecture, 4 hours lab, 3 units
Grade Only

Prerequisite: Pipefitting (Construction Trades) 190 or Pipefitting (Construction Trades) 335 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Pipefitting (Construction Trades) 340.
This course is designed to give the Pipefitting Apprentice student an introduction to aboveground pipe installation, field routing and vessel trim. Topics include pipe hangers and supports, and piping system testing and related equipment. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Plumbing (PLBG)

160A Introduction To Plumbing I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49 and Mathematics 38, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels RS, W5 and M30.

160B Introduction To Plumbing II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Plumbing (Construction Trades) 160A or 305, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Plumbing (Construction Trades) 60B, 110 or 310.
This course is designed to give the plumbing student an introduction to reading and interpreting the International Association of Plumbing & Mechanical Officials (IAMPO) uniform plumbing codes and residential plumbing drawings, identifying various types of pipe and the procedures for working with the pipe. This course also includes identification of various plumbing lines and their components. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

165A Intermediate Plumbing I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Plumbing (Construction Trades) 160B or 310, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Plumbing (Construction Trades) 65A, 115 or 315.
This course is designed to provide the intermediate plumbing student the knowledge of introductory plumbing math, the identification of various commercial drawings, the installation of DWV (Drain, Waste & Vent) piping components and systems for commercial properties utilizing local and National Plumbing Codes. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.
165B Intermediate Plumbing II  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Prerequisite: Plumbing (Construction Trades) 165A or 315, with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Plumbing (Construction Trades) 65B or 120 or 320.  
This course is designed to give the intermediate plumbing student the ability to perform testing of water supply piping and systems, installation of the components of a water supply system, and the ability to read and interpret commercial plumbing drawings for project requirements according to local and national codes. The application of advanced trade math concepts is further developed. (FT) AA/AS; CSU.

170A Advanced Plumbing I  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Prerequisite: Plumbing (Construction Trades) 165B or 320, with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Plumbing (Construction Trades) 70A, 125 or 325.  
This course is designed to provide the advanced plumbing student with the ability to perform applications of advanced math for plumbers and methods of handling waste. This course also provides information relating to water softening measures, methods of locating buried lines, the installation and maintenance of waste pressure booster systems, and the prevention of backflow. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

170B Advanced Plumbing II  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Prerequisite: Plumbing (Construction Trades) 175B or 340, with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Plumbing (Construction Trades) 70B, 130 or 330.  
This course is designed to provide the advanced plumbing student with the ability to organize job tasks, clean and disinfect potable water systems, thaw frozen pipes, install main to meter water services and solar systems. This course also covers the ability to rough-in fixtures for residential, commercial and handicapped settings and install natural gas and storm drainage systems. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

175A Plumbing Construction Specialties  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Prerequisite: Plumbing (Construction Trades) 170B or 330, with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Plumbing (Construction Trades) 75A, 135 or 335.  
This course is designed to introduce the plumbing student to specialty topics such as swimming pool installation, medical gas systems, mobile home and mobile home park plumbing systems, and private water waste and treatment systems. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

175B Plumbing Code  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Prerequisite: Plumbing (Construction Trades) 170A or 325, with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Plumbing (Construction Trades) 75B or 340.  
This course is designed to prepare the advanced plumbing student to apply plumbing codes to correctly design and build plumbing systems. Primary topics include coverage of codes pertaining to plumbing fixtures and fittings, water heaters and fuel piping, drainage, waste and vent systems, sewage and reclaimed water systems, sizing and standards, shielded metal arc welding and alternate plumbing systems. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.
Sheet Metal (SHEE)

60A Level I Sheet Metal/HVAC
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 38, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5, W5 and M30.
Limitation on Enrollment: This course is not open to students with previous credit for Sheet Metal 105 or 301A.
This course is an introduction the Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) trades. Topics include the tools of the trade, safety practices, trade mathematics, blueprints and drawings, and basic rigging. This course is designed for students planning a career in the Sheet Metal and HVAC fields. (FT) AA/AS.

60B Level I Sheet Metal/HVAC
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Sheet Metal 60A or 301A, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Sheet Metal 110 or 301B.
This course is a continuation of Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) trades at the introductory level. Topics include intermediate math, duct and air distribution theory and installation, welding concepts, insulation, and electricity related to the HVAC trade. This course is designed for students planning a career in the Sheet Metal and HVAC fields. (FT) AA/AS.

65A Level II Sheet Metal/HVAC
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Sheet Metal 60B or 301B, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Sheet Metal 115 or 302A.
This course is an intermediate level introduction to the concepts of cooling and sheet metal layout. Topics include layout and line development, mathematics and measurements used in the trade, bend allowances and triangulation. This course is designed for students planning a career in the Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) fields. (FT) AA/AS.

65B Level II Sheet Metal/HVAC
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Sheet Metal 65A or 302A, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Sheet Metal 120 or 302B.
This course is an intermediate study of heating and metering for the Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) trades. Topics include basic electronics, metering devices, compressors, heat pumps, and leak detection, evacuation, recovery and charging. This course is designed for students planning a career in the Sheet Metal/HVAC fields. (FT) AA/AS.

70A Level III Sheet Metal/HVAC
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Sheet Metal 70A or 304A, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Sheet Metal 130 or 304B.
This course is an advanced study of blueprint reading and system design for the sheet metal and Heating, Ventilation and Air Conditioning (HVAC) trades. Topics include indoor air quality, types of duct systems, and field measuring and fitting. This course
is designed for students majoring in the sheet metal and HVAC trades. (FT) AA/AS.

**75A Level IV Sheet Metal/HVAC**  
2 hours lecture, 3 hours lab, 3 units  
**Grade Only**

*Prerequisite:* Sheet Metal 70B or 304B, with a grade of “C” or better, or equivalent.

*Limitation on Enrollment:* This course is not open to students with previous credit for Sheet Metal 135 or 305A.

This course covers advanced Heating, Ventilation and Air Conditioning (HVAC) and Sheet Metal applications. Topics include system start-up and shut-down, commercial and industrial refrigeration systems, hydronic heating and cooling systems, and how to design fume and exhaust systems per Occupational Safety and Health Administration (OSHA) and American Conference of Governmental Industrial Hygienists (ACGIH) standards. This course is designed for students planning a career in the Sheet Metal and HVAC fields. (FT) AA/AS.

**75B Level IV Sheet Metal/HVAC**  
2 hours lecture, 3 hours lab, 3 units  
**Grade Only**

*Prerequisite:* Sheet Metal 75A or 305A, with a grade of “C” or better, or equivalent.

*Limitation on Enrollment:* This course is not open to students with previous credit for Sheet Metal 305B.

This course covers advanced Heating, Ventilation and Air Conditioning (HVAC) troubleshooting and Sheet Metal roofing. Topics include troubleshooting and repair of gas and electric heating systems, cooling systems, heat pumps, and electronic controls, as well as system balancing. Sheet Metal topics include metal roof system applications and installation. This course is designed for students planning a career in the Sheet Metal and HVAC fields. (FT) AA/AS.

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

**Description**

The Cosmetology program is designed to provide entry level skills to students interested in a career in the cosmetology and esthetician professions. California State law requires that persons enrolling in Cosmetology courses must be at least sixteen years of age. Students in the Cosmetology program are required to comply with and maintain standards of dress and grooming. Excessive absences may result in exclusion from the program. All prospective students are required to attend an orientation program.

**Orientation**

Orientation is mandatory prior to registration. Contact Cosmetology Department for schedule of days and times. It is highly recommended that a student complete the placement exams in order to meet the reading and writing advisories. Students should bring a copy of placement test scores to orientation.

**Program Enrollment**

Program add codes are required for continuing students for spring, summer and fall semesters. Course work from other Cosmetology programs will not clear City College course work. New students can start mid semester every fall, spring, summer. Program vacancies are filled by students from a waiting list. Students are required to purchase all textbooks, uniforms, practical kits, tools and small manually handled equipment.

| AA/AS = Associate Degree Applicable |
| CSU = California State University Applicable |
| UC = University of California Applicable |
Program Hours
Cosmetology courses are offered during the day and evening.

Full-Time Program:
The schedule of lecture and lab hours varies per semester.

NOTE: A nine-week summer session is offered.

State Board Verification
Students with previous course hours in Cosmetology from another community college program must provide written State Board documentation. These courses cannot be used for the major. The California State Board of Barbering and Cosmetology requires 1600 hours of instruction for Cosmetology or 600 hours of instruction for Esthetics, both careers require a passing score on the State Board examination to become licensed and eligible for employment. Students participate in practical and theoretical training under the supervision of a State-licensed and community-college-credentialed instructor at all times while enrolled in the program.

Program Emphasis
Students are expected to learn fundamental practices and procedures of cosmetology or esthetician services. This includes laboratory instruction in client cosmetology or esthetician services. Instructional opportunities provide the student with salon site visitation, guest speakers, exposure to the cosmetology industry, small business concepts and current changes in the field of cosmetology which lead to career opportunities and advancement. Students are provided with opportunities to develop skills in sales, community and client relations, care of skin, hair and nails, as well as salon management. A grade of "C" or better must be maintained in order to advance in the course sequence.

Faculty Office Telephone
Constance Calhoun V-223 619-388-3284
Patricia Grooms-Jones V-223 619-388-3296
Kim Shafer V-223 619-388-3283
Sylvia Leon V-223 619-388-3660
Sudabeh Phillips V-223 619-388-3613

Career Options
Some careers in cosmetology require education beyond the associate degree. Examples of careers in cosmetology include: salon owner/manager, cosmetologist (salon services), platform stylist (demonstrates products and techniques for manufacturer), competition stylist, cosmetology instructor, technical writer for trade magazine, seminar/demonstration speaker and education specialist (for a manufacturer).

Examples of careers as an esthetician include: Salon or Spa Esthetician, Spa Esthetic Consultant, cosmetic consultant, makeup artist for theatre, film and/or television, medical esthetic assistant, manufacturer representative for skin care, cosmetics or esthetic equipment.

Student Learning Outcomes
Upon successful completion of the Cosmetology program the student will be able to:

- Apply cosmetology concepts, procedures and practices to successfully pass the State Board Examination.
- Practice safety, health, and sanitation procedures as set forth by the California Bureau of Cosmetology.
- Utilize professional practice terminology and techniques as required by the California Bureau of Cosmetology examination.
- Perform all practical applications required for the state board examination/state licensure.
- Explain basic cosmetology concepts, terms and definitions.
- Compare and contrast cosmetology procedures and practices.
- Apply cosmetology products and procedures in providing services to clients.

Academic Programs
The associate degrees in Cosmetology require completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Certificate of Performance: Teacher Training Program*

After completing three or more years of work experience as a cosmetologist and passing the California State Board exam in Cosmetology, students may continue their education while concurrently working in a salon or industry by enrolling in the following courses to earn a specialized certificate in the Cosmetology Teacher Training Program.
### Courses

**Total Units = 49.5**

### Recommended electives: Cosmetology 92, 290.
better, or equivalent, or Assessment Skill Levels R5 and W5. 

**Limitation on Enrollment:** This course is not open to students with previous credit for Cosmetology 110, 110A and 110B or 50LA and 50LB.

This course is an introduction to the basic fundamentals of Cosmetology. Course content includes basic procedures of draping, shampooing, conditioning, haircutting, wet hairstyling, manicuring, pedicuring, facial, make-up, and removing unwanted hair. This course is intended to prepare students for the California State Board of Barbering and Cosmetology licensure. (FT) AA/AS.

### 50LA Fundamentals of Cosmetology I

**9 hours lab, 3 units**

**Corequisite:** Completion of or concurrent enrollment in Cosmetology 50 with a grade of “C” or better, or equivalent.

**Advisory:** Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

**Limitation on Enrollment:** This course is not open to students with previous credit for Cosmetology 110, 110A or 50L.

This course is an introduction to the basic fundamentals of Cosmetology. Course content includes basic procedures of draping, shampooing, conditioning, haircutting, wet hairstyling, manicuring, pedicuring, facial, make-up, and removing unwanted hair. This course is intended to prepare students for 50LB and the California State Board of Barbering and Cosmetology licensure exam. AA/AS.

### 50LA Fundamentals of Cosmetology II

**9 hours lab, 3 units**

**Prerequisite:** Cosmetology 50LA with a grade of “C” or better, or equivalent.

**Corequisite:** Completion of or concurrent enrollment in Cosmetology 50 or 60 with a grade of “C” or better, or equivalent.

**Advisory:** Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

**Limitation on Enrollment:** This course is not open to students with previous credit for Cosmetology 110 or 110B or 50L.

This course is a continuation of Cosmetology 50LA, an introduction to the basic fundamentals of Cosmetology, at a more advanced level. Course content includes basic procedures of draping, shampooing, conditioning, haircutting, wet hairstyling, manicuring, pedicuring, facial, make-up, and removing unwanted hair. This course is intended to prepare students for 60LA and the California State Board of Barbering and Cosmetology licensure exam. AA/AS.

### 50 Rules, Regulations and Physiology

**2.5 hours lecture, 2.5 units**

**Corequisite:** Cosmetology 50L or 50LA and 50LB or 60L or 60LA and 60LB.

**Advisory:** Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

**Limitation on Enrollment:** This course is not open to students with previous credit for Cosmetology 111, 111A or 111B.

This course is an introduction to the basic principles of hair and nail structure. This course incorporates bacteriology, sanitation, sterilization and Cosmetology rules and regulations as required for licensure in the State of California. Emphasis is placed on consumer protection and health of the community as related to Cosmetology services. This course is for students interested in becoming a cosmetologist. (FT) AA/AS.

### 55 Introductory Esthetician

**2.5 hours lecture, 2.5 units**

**Corequisite:** Cosmetology 55L.

**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course is an introduction to the theoretical knowledge required to enter the field of esthetics as a licensed esthetician. Emphasis is placed on the basic sciences of physiology, chemistry and electricity as they apply to skin science, skin care and professional esthetics. Topics also include career and licensure planning and the fundamentals of the salon business, skin care products and esthetic services. This course is designed for students planning a career as a licensed, professional esthetician. (FT) AA/AS.
55L Introductory Esthetician Lab  
19.5 hours lab, 6.5 units  
Grade Only

Corequisite: Cosmetology 55.
This laboratory course is an introduction to the practical knowledge, skills and techniques required to enter the field of esthetics as a licensed esthetician. Students apply the basic principles of physiology, chemistry, electricity and skin science to practice in client consultations, skin analyses, product assessments, facial treatments and other basic professional esthetic services. Students also prepare basic resumes, business plans and marketing materials. This course is designed for students planning a career as a licensed, professional esthetician. (FT) AA/AS.

60L Intermediate Cosmetology Lab I  
18 hours lab, 6 units  
Grade Only

Prerequisite: Cosmetology 50L; or Cosmetology 50LA and 50LB with a grade of “C” or better, or equivalent.  
Corequisite: Completion of or concurrent enrollment in Cosmetology 50, 60 or 70 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 120 or 120A or 60L.  
This course is designed to cover the first half of Cosmetology 60L. Course content includes basic procedures of hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. A review of Cosmetology 50L is included to develop skill level and subject matter mastery of the following subjects: state board set, manicuring, pedicuring, artificial nails, facials, make up, removing unwanted hair, sanitation safety and client protection. This course together with Cosmetology 60LB is intended to prepare students for 70L or 70LA and 70LB and the California State Bureau of Barbering and Cosmetology examination. This course also prepares students for client services. (FT) AA/AS.

60LA Intermediate Cosmetology Lab IA  
9 hours lab, 3 units  
Grade Only

Prerequisite: Cosmetology 50L; or Cosmetology 50LA and 50LB with a grade of “C” or better, or equivalent.  
Corequisite: Completion of or concurrent enrollment in Cosmetology 50, 60, or 70 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 120 or 120A or 60L.  
This course is a continuation of Cosmetology 60LA. It covers the second half of Cosmetology 60L. Course content includes basic procedures of hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. A review of Cosmetology 50L is included to develop skill level and subject matter mastery of the following subjects: state board set, manicuring, pedicuring, artificial nails, facials, make up, removing unwanted hair, sanitation safety and client protection. This course together with Cosmetology 60LB is intended to prepare students for 70L or 70LA and 70LB and the California State Bureau of Barbering and Cosmetology examination. This course also prepares students for client services. (FT) AA/AS.

60LB Intermediate Cosmetology Lab IB  
9 hours lab, 3 units  
Grade Only

Prerequisite: Cosmetology 60LA or Cosmetology 50L with a grade of “C” or better, or equivalent.  
Corequisite: Completion of or concurrent enrollment in Cosmetology 50, 60, or 70 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 120 or 120B or 60L.  
This course is a continuation of Cosmetology 60LA. It covers the second half of Cosmetology 60L. Course content includes basic procedures of hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. A review of Cosmetology 50L is included to develop skill level and subject matter mastery of the following subjects: state board set, manicuring, pedicuring, artificial nails, facials, make up, removing unwanted hair, sanitation safety and client protection. This course together with Cosmetology 60LA is intended to prepare students for 70L or 70LA and 70LB and the California State Bureau of Barbering and Cosmetology examination. This course also prepares students for client services. (FT) AA/AS.

AA/AS = Associate Degree Applicable  
CSU = California State University Applicable  
UC = University of California Applicable
60 Resolution of Skin Diseases and Disorders
2.5 hours lecture, 2.5 units
Grade Only
Prerequisite: Cosmetology 50 with a grade of “C” or better, or equivalent.
Corequisite: Cosmetology 50L or 50LA and 50LB or 60L or 60LA and 60LB or 70L or 70LA and 70LB.
Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 122.
This course is an introduction to concepts related to anatomy, skin and nail disorders. The course includes the basic principles of histology for the skin, introduces chemistry, products and procedures for the skin and nails. In addition, this course emphasizes communication skills related to client services and professionalism. This course prepares students for additional course work in Cosmetology and the California State Bureau of Barbering and Cosmetology Exam. (FT) AA/AS.

65 Advanced Esthetician
2.5 hours lecture, 2.5 units
Grade Only
Prerequisite: Cosmetology 55 and 55L, each with a grade of “C” or better, or equivalent.
Corequisite: Cosmetology 65L.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an advanced study of the theoretical knowledge required to enter the field of esthetics as a licensed esthetician. Emphasis is placed on an in-depth examination of the body and its systems as they relate to skin health, advanced esthetic techniques and devices, spa and alternative therapies, and medical esthetics. Topics include analyses of skin care products, botanicals and aromatherapy, Ayurveda theory and treatments, and business and marketing skills required in the salon and spa industry. This course is designed for students planning a career as a licensed, professional esthetician. (FT) AA/AS.

65L Advanced Esthetician Lab
19.5 hours lab, 6.5 units
Grade Only
Prerequisite: Cosmetology 55 and 55L, each with a grade of “C” or better, or equivalent.
Corequisite: Cosmetology 65.
This laboratory course is an advanced study of the practical knowledge, skills, tools and techniques required to enter the field of esthetics as a licensed esthetician. Students apply in-depth knowledge of the body and its systems as they relate to skin health to practice in advanced esthetic techniques and devices, spa and alternative therapies, and medical esthetics. Topics include practice with skin care products, botanicals and aromatherapy, Ayurveda theory and treatments, and business and marketing skills required in the salon and spa industry. This course is designed for students planning a career as a licensed, professional esthetician. (FT) AA/AS.

70 Chemistry and Chemical Services
2.5 hours lecture, 2.5 units
Grade Only
Corequisite: Completion of or concurrent enrollment in Cosmetology 60L or 60LA and 60LB or 70L or 70LA and 70LB or 80L or 80LA and 80LB or 90L or 90LA and 90LB, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 131.
Must obtain an Add Code from the instructor for enrollment.
This course is an introduction to the techniques used for hair coloring, permanent waving, relaxing and soft perming. An understanding of chemistry and formulation methods is included for all techniques. In addition, an advanced understanding of the relationship between all types of hair textures and basic chemical types and professional products is taught. Emphasis is placed on the development of consultation skills as related to client services and professionalism. This course is intended to prepare the student for the California State Bureau of Barbering and Cosmetology examination. (FT) AA/AS.

70L Intermediate Cosmetology Lab II
18 hours lab, 6 units
Grade Only
Prerequisite: Cosmetology 60L; or Cosmetology 60LA and 60LB with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Cosmetology 60, 70, or 81 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 130, 130A, 130B, 70LA, or 70LB. Must obtain an Add Code from the instructor for enrollment.
This course is an introduction to the basic laboratory
fundamentals of chemicals and hair design. Course content includes basic procedures of hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. A review of the topics from Cosmetology 60L is included to maintain subject matter mastery and to prepare students for client services. Emphasis is placed on preparing students for 80L, 80LA, and 80LB and the California State Bureau of Barbering and Cosmetology examination. (FT) AA/AS.

70LA Intermediate Cosmetology Lab IIA
9 hours lab, 3 units
Grade Only

Prerequisite: Cosmetology 60L or Cosmetology 60LA and 60LB, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Cosmetology 60, 70, or 81 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 130 or 130A or 70L.
This course is an introduction to the basic laboratory fundamentals of chemicals and hair design and covers the first half of COSM 70L. Course content includes basic procedures of hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. A review of the topics from Cosmetology 60L is included to maintain subject matter mastery and to prepare students for client services. Emphasis is placed on preparing students for 80L or 80LA and 80LB and the California State Bureau of Barbering and Cosmetology examination. (FT) AA/AS.

70LB Intermediate Cosmetology Lab IIB
9 hours lab, 3 units
Grade Only

Prerequisite: Cosmetology 70L; or Cosmetology 70LA and 70LB, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Cosmetology 60, 70, or 81 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 130 or 130B or 70L.
This course is a continuation of Cosmetology 70LA and covers the second half of Cosmetology 70L. The course provides an intermediate-level introduction to the basic laboratory fundamentals of chemicals and hair design. Course content includes basic procedures of hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. A review of the topics from Cosmetology 60L is included to maintain subject matter mastery and to prepare students for client services. Emphasis is placed on preparing students for 80L or 80LA and 80LB and the California State Bureau of Barbering and Cosmetology examination. (FT) AA/AS.

80L Advanced Cosmetology Lab I
18 hours lab, 6 units
Grade Only

Prerequisite: Cosmetology 70L; or Cosmetology 70LA and 70LB with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Cosmetology 60, 70, or 81 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 140, 140A, 140B, 80LA, or 80LB. Must obtain an Add Code from the instructor for enrollment.
This course is an introduction to senior level techniques related to client services in Cosmetology. Course content includes advanced procedures for hair coloring, permanent waving, soft curl permanent waving, chemical straightening, thermal pressing and curling as well as advanced level facials, manicuring, haircutting, and wet hairstyling. This course is intended to prepare the student for 90L, 90LA, and 90LB, the California State Bureau of Barbering and Cosmetology examination as well as to introduce students to marketing strategies and to support their efforts in meeting professional and employment goals. (FT) AA/AS.

80LA Advanced Cosmetology Lab IA
9 hours lab, 3 units
Grade Only

Prerequisite: Cosmetology 70L; or Cosmetology 70LA and 70LB, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Cosmetology 60 or 70 or 81, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 140 or 140A or 80L.

| AA/AS | Associate Degree Applicable |
| CSU   | California State University Applicable |
| UC    | University of California Applicable |
This course is an introduction to senior level techniques related to client services in Cosmetology and covers the first half of Cosmetology 80L. Course content includes advanced procedures for hair coloring, permanent waving, soft curl permanent waving, chemical straightening, thermal pressing and curling as well as advanced level facials, manicuring, haircutting, and wet hairstyling. This course together with Cosmetology 80LB is intended to prepare the student for 90L or 90LA and 90LB, the California State Bureau of Barbering and Cosmetology examination as well as to introduce students to marketing strategies and to support their efforts in meeting professional and employment goals. (FT) AA/AS.

80LB Advanced Lab IB

9 hours lab, 3 units

**Grade Only**

**Prerequisite:** Cosmetology 80LA and Cosmetology 70L; or Cosmetology 70LA and 70LB, each with a grade of “C” or better, or equivalent.

**Corequisite:** Completion of or concurrent enrollment in Cosmetology 60 or 70 or 81 with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Cosmetology 140 or 140B or 80L.

This course is a continuation of Cosmetology 80LA and covers the second half of Cosmetology 80L. It provides increased senior level techniques related to client services in Cosmetology. Course content includes advanced procedures for hair coloring, permanent waving, soft curl permanent waving, chemical straightening, thermal pressing and curling as well as advanced level facials, manicuring, haircutting, and wet hairstyling. This course together with Cosmetology 80LA is intended to prepare the student for 90L or 90LA and 90LB, the California State Bureau of Barbering and Cosmetology examination as well as to introduce students to marketing strategies and to support their efforts in meeting professional and employment goals. (FT) AA/AS.

81 Basic Business Practices

2.5 hours lecture, 2.5 units

**Grade Only**

**Prerequisite:** Cosmetology 50, 60, and 70, each with a grade of “C” or better, or equivalent.

**Corequisite:** Completion of or concurrent enrollment in Cosmetology 50L; or Cosmetology 50LA and 50LB; or Cosmetology 60L; or Cosmetology 60LA and 60LB; or Cosmetology 70L; or Cosmetology 70LA and 70LB; or Cosmetology 80L; or Cosmetology 80LA and 80LB; or Cosmetology 90L; or Cosmetology 90LA and 90LB with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Cosmetology 151. This eight-week course is an introduction to basic business practices as related to the Cosmetology industry. Emphasis is placed on bookkeeping, business law and taxation, insurance, salesmanship, resume writing, interview techniques, business plan writing, and marketing. In addition, this course incorporates interpersonal relationships as they relate to client services and professionalism in the salon. (FT) AA/AS.

90L Advanced Cosmetology Lab II

18 hours lab, 6 units

**Grade Only**

**Prerequisite:** Cosmetology 80L with a grade of “C” or better, or equivalent.

**Corequisite:** Completion of or concurrent enrollment in Cosmetology 60, 70 or 81 with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Cosmetology 150, 150A, 150B, 90LA, or 90LB.

This course focuses on perfecting competence in advanced techniques related to client services in Cosmetology. Course content includes advanced procedures for hair coloring, permanent waving, soft curl permanent waving, chemical straightening and thermal pressing and curling. Emphasis is placed on assignments that focus on advanced techniques for facials, manicures, haircuts and wet hairstyling. A mock board examination and practical drills prepare students for the California State Bureau of Barbering and Cosmetology exam. These proficiencies support students in their efforts to meet their professional and employment goals. (FT) AA/AS.

90LA Advanced Lab IIA

9 hours lab, 3 units

**Grade Only**

**Prerequisite:** Cosmetology 80L; or Cosmetology 80LA and 80LB, each with a grade of “C” or better, or equivalent.

**Corequisite:** Completion of or concurrent enrollment in Cosmetology 60, 70, or 81 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 150 or 150A or 90L. This course covers the first half of Cosmetology 90L and focuses on perfecting competence in advanced techniques related to client services in Cosmetology. Course content includes advanced procedures for hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. Emphasis is placed on assignments that focus on advanced techniques for facials, manicures, haircuts and wet hairstyling. A mock board examination and practical drills prepare students for the California State Bureau of Barbering and Cosmetology exam. These proficiencies support students in their efforts to meet their professional and employment goals. (FT) AA/AS.

90LB Advanced Lab IIB
9 hours lab, 3 units
Grade Only
Prerequisite: Cosmetology 90LA; or Cosmetology 80L; or Cosmetology 80LA and 80LB, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Cosmetology 60, 70, or 81 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 150 or 150B or 90L. This course is a continuation of Cosmetology 90LA and covers the second half of Cosmetology 90L. It provides an increased focus on perfecting competence in advanced techniques related to client services in Cosmetology. Course content includes more advanced procedures for hair coloring, permanent waving, soft curl permanent waving, chemical straightening, and thermal pressing and curling. Emphasis is placed on assignments that focus on advanced techniques for facials, manicures, haircuts and wet hairstyling. A mock board examination and practical drills prepare students for the California State Bureau of Barbering and Cosmetology exam. These proficiencies support students in their efforts to meet their professional and employment goals. (FT) AA/AS.

91A Cosmetology Teacher Training Program I
3 hours lecture, 10 hours lab, 6 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.
Limitation on Enrollment: This course is not open to students with previous credit for Cosmetology 152A and Student must have a valid California Cosmetology License and a minimum of one year of full time salon/industry experience. Trainee must provide proof of valid cosmetology license. This course is offered for the experienced/licensed cosmetologist to become a qualified cosmetology instructor. Training for the course will consist of practical and theoretical principles of effective teaching methods which include lesson planning, oral presentations, evaluations, test construction, and procedures to ensure environmental health and safety. Emphasis is focused on preparation for California Bureau of Barbering and Cosmetology Instructor Licensure and prospective employment in private and public Cosmetology Schools. (FT) AA/AS.

91B Cosmetology Teacher Training Program II
3 hours lecture, 10 hours lab, 6 units
Grade Only
Prerequisite: Cosmetology 91A with a grade of “C” or better, or equivalent.
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
Limitation on Enrollment: This course is not open to students with credit for Cosmetology 152B. A valid California Cosmetology License and a minimum of one year of full time salon/industry experience. Phase II of the Cosmetology Teacher Training program will provide the trainee with an opportunity to acquire additional skills, expand career options, workplace skill competencies, subject mastery skills and California State Board examination strategies necessary for acquiring their State Cosmetology Instructor's license. A total of 300 hours of lecture/demonstration and laboratory training to include technical and practical aspects of cosmetology science. This course is offered as a non-degree/credit for a specialized certificate. AA/AS.

92 Extended Laboratory Practice
6-18 hours lab per week (9 week course), 1-3 unit
Pass/No Pass Only
Prerequisite: Cosmetology 60 and Cosmetology 60L, each with a grade of “C” or better, or equivalent.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment. This course is continued laboratory practice for advanced cosmetology students who need to complete 1600 hours mandated for examination and for licensure by the California State Board of Cosmetology. Emphasis is placed on client services (including chemical and non-chemical services) and an understanding of all types of hair texture. This course teaches communication skills as related to client services and professionalism and is intended to support students in their employment goals. AA/AS.

93 Esthetician Extended Laboratory Practice
3 hours lab, 1 unit
Grade Only

Prerequisite: Cosmetology 65 and 65L, each with a grade of “C” or better, or equivalent. This course is continued laboratory practice for advanced esthetician students who need to complete the number or hours mandated for examination and licensure by the California State Board of Cosmetology. Emphasis is placed on client services and advanced salon and spa treatments. Topics include communication skills, professionalism and support in student employment goals. (FT) AA/AS.

95 State Board Review
2.5 lecture, 2.5 units
Grade Only

Prerequisite: Cosmetology 81 with a grade of “C” or better, or equivalent. Corequisite: Cosmetology 90L. Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment. This course is designed to review information related to and required for successful completion of the State of California Licensure Examination for Cosmetology. (FT) AA/AS.

290 Independent Study in Cosmetology
Hours by Arrangement, 1-3 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from instructor for registration. This course is designed to deal with current problems and topics of special interest in cosmetology. AA/AS.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Disability Support Programs and Services

Description
Disability Support Programs and Services (DSPS) provides services and courses to support students with disabilities in the achievement of their academic and vocational goals. The instructional component promotes equal participation in mainstream academic programs through preparatory and skill maintenance courses, and offers courses for personal growth.

Program Manager:

Career Options
Consult a DSPS counselor.

Academic Programs
The DSPS program is not an academic program designed to prepare professionals in the field of special education or rehabilitation. DSPS courses are designed for the student with a disability. Students consult with a DSPS counselor to develop the Student Education Plan and identify courses appropriate to support the academic or vocational goal. While several courses are recommended for students with any disability, some curricula focus on special skills particular to one disability, i.e., visual impairment or learning disability.

Distinctive Features
The DSPS program integrates adaptive computer technology in the classroom, coordinating instruction and access devices with the Computer Business Technology and Computer Information Sciences departments and the Independent Learning Center. Learning Disability course offerings include strategy programs in sentence, paragraph writing and mathematics based on university research.
Note: DSPS courses are also listed in the Physical Education and Computer Information Sciences sections of the catalog. Additional courses are offered at Mesa and Miramar College campuses. Consult the appropriate semester class schedule.

## Courses

### Disability Support Programs and Services (DSPS)

Courses listed under DSPS have been designed for students with disabilities. DSPS courses are also listed under Physical Education (PHYE) and Computer and Information Sciences (CISC). Additional DSPS classes are offered at Mesa and Miramar campuses. See appropriate catalog.

### 20 Introduction to Accessible Computers

1 hour lecture, 1 unit  
Pass/No Pass Only

This course introduces students with disabilities to accessible computer programs and equipment. The course provides an overview of software and hardware resources that allow disabled students to compete in educational and business settings. Not Applicable to Associate Degree, Occupational/Vocational basic skills.

### 21 Accessible Computing Lab

1.5 - 6 hours lab, 0.5 - 2 units  
Pass/No Pass

Limitation on Enrollment: This course is not open to students with previous credit for Disability Support Programs and Services 76. This course is for students who benefit from adaptive computer access. The course modules teach students how to use the necessary adaptive hardware or software needed to access the computer. Training in all modules is individualized. (FT) Not applicable to the Associate Degree.

### 27 Career Planning for Students with Disabilities

2 hours lecture, 2 units  
Pass/No Pass

This course is designed to assist students with disabilities in acquiring an understanding of the world of work. Emphasis is placed on developing and pursuing goals for employment and on identifying community, state and national assistance resources. Throughout the course, students evaluate their individual career goals, analyze their job skills, research the job market and construct an effective resume and cover letter for prospective employers. Course material also emphasizes preparing students to meet the psychological, social and cognitive demands of employment. (FT) Not applicable to the Associate Degree.

### 34 College Success Skills

1 hour lecture, 1 unit  
Pass/No Pass Only

Limitation on Enrollment: This course is not open to students with credit for Disability Support Programs and Services (DSPS) 29. This course is designed to assist students with disabilities to achieve their educational goals by providing them with an orientation to the college campus, policies, procedures and support services such as financial aid, tutoring, counseling, computer labs, and career and transfer information. Emphasis is placed on time management, mental and physical health, study skills, self-advocacy, accommodations, and interpersonal relationships as they relate to individual disabilities and college success. Throughout the course, students clarify goals, develop an education plan and identify the courses, services and programs that will lead to their success. Not applicable to the Associate Degree.

### 38 Math Strategies for the Learning Disabled

3 hours lecture, 3 units  
Pass/No Pass

Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment. This course is designed for students with verified disabilities related to math. It is taught as a lecture class that can be taken independently or in conjunction with Basic Math or Pre-Algebra. This class utilizes a strategies oriented approach for developing competency with fundamental mathematical operations and pre-algebra concepts. (FT) Not applicable to the Associate Degree.

---

AA/AS = Associate Degree Applicable  
CSU = California State University Applicable  
UC = University of California Applicable
40 Individual Assessment and Educational Planning

0.5 hours lecture, 0.5 units
Pass/No Pass Only

Limitation on Enrollment: This course is not open to students with previous credit for Disabled Students Programs and Services 50.

This course teaches students about their individual learning aptitude as compared to measured academic achievement. Students use standardized achievement and aptitude assessment instruments in accordance with the California Community College Learning Disabilities Eligibility Model to create a learning profile related to community college academic demands. Other topics include individual cognitive processing strengths and weaknesses, compensatory learning strategies, study skills, and disability management. This course is intended for students who believe they may have a learning disability or those interested in exploring issues related to learning aptitudes. (FT) Not applicable to the Associate Degree.

43 Advanced Applied Study Strategies

1.5 - 3 hours lab, 0.5 - 1 unit
Pass/No Pass

Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment. Disability Support

This course is intended primarily for students needing advanced academic disability related support in addition to the campus wide academic support services currently available. The focus of this class is to provide individualized study assistance for students in mainstream degree applicable college classes. Emphasis is placed on the application of study strategies to a specific course. Both study strategies and assistive technology are utilized to meet the demands of a mainstream course content. Computer assisted instruction is used to review related basic skills instruction and to support research skill development. Not applicable to the Associate Degree.

49 Writing Structured Paragraphs

2 hours lecture, 2 units
Pass/No Pass Only

This course is designed for students who demonstrate difficulty with written language. It is intended to prepare students who have a writing related disability to more successfully meet the minimum college requirements for multi-paragraph essay writing. This course is unique for the highly structured and sequential strategies applied to essay writing. Additionally, the course emphasizes the application of assistive computer technology for facilitating organizational pre-writing strategies, document checking, and written language fluency. Not applicable to the Associate Degree.

100 Tutor Training

0.5 hours lecture, 1.5 hours lab, 1 unit
Pass/No Pass Only

Advisory: English 48 and English 49 and Mathematics 34A, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M20.

Limitation on Enrollment: Student must have completed a minimum of 12 units of college credit with an accumulated grade point average of 3.0 or better in subject area he/she will tutor.

This course prepares college-level students for tutoring adult/college students. Student trainees learn about tutoring methods as well as how to use appropriate written and mediated instructional materials. The course includes supervised tutoring practice. (FT) AA/AS; CSU.

150 Advanced Tutor Training

0.5 hours lecture, 1.5 hours lab, 1 unit
Pass/No Pass Only

Advisory: Education 100 and Computer Business Technology 120 each with a grade of “C” or better, or equivalent.

The course is designed to prepare college level persons for tutoring adult/college students in an online environment. Online tutoring methods, use of appropriate written and mediated instructional materials and equipment, and supervised practice tutoring are included in this course. Online tutoring techniques and methodology are emphasized.
Laboratory hours are by arrangement with the tutorial center coordinators. (FT) AA/AS; CSU.

200 Teaching as a Profession
2 hours lecture, 2 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
This course is a study of the foundations and issues related to effective instruction in reading, writing, science and mathematics. Emphasis is placed on both curriculum and pedagogy. Students also explore current educational career options. This course is designed for students considering teaching as a profession as well as for paraprofessionals and tutors. (FT) AA/AS; CSU; UC.

203 Service Learning for Prospective Teachers
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Limitation on Enrollment: Health and Safety. Student must meet safety and health clearance standards for public school volunteer experience placement.
This course is designed for students considering teaching as a profession, and for prospective tutors. The purpose of this class is to provide early, supervised experience to pre-service teachers in the form of service learning. Experiential learning activities include observing and/or tutoring at various educational levels. Through this service learning, students are made aware of skills needed in the teaching profession. Additionally, they are mentored in the application of classroom management techniques and routine teaching skills required in the public schools. (FT) AA/AS; CSU; UC.

270 Teaching as a Profession-Work Experience
Hours by Arrangement (One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.), 1-4 units
Grade Only
Prerequisite: Education 200 with a grade of “C” or better, or equivalent, and approval of Work Experience Coordinator.
This course is directed work study designed to provide the pre-service teacher with an opportunity to apply classroom theory in a public school setting with an assigned Work Experience supervisor. It is the purpose of this course to provide early supervised experience to pre-service teachers in order that they may begin to develop fluency with fundamental skills of literacy development, individual and small group tutoring, classroom management, and other routine teaching skills required in public schools. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
The engineering curriculum is heavily based on mathematics and physical sciences. Students benefit by having access to state-of-the-art CAD/CAM facilities as well as to a high technology center that is at the cutting edge of new technologies, thereby enhancing career choices and rewards. This pre-engineering preparation provides an excellent foundation for transfer to a four-year university as an engineering major.

Program Emphasis
University schools of engineering have similar science and mathematics requirements but may...
differ in preparation for various engineering options. Courses offered in the San Diego City College Engineering program meet basic requirements for lower division preparation for California universities. Some universities may also require engineering courses as preparation for specific engineering majors. The Engineering program is designed to prepare students for transfer to California State University and University of California institutions.

Robert Pruitt A-107E 619-388-3875

Career Options
Most careers in engineering require education beyond the associate degree. A list of career options available to persons with baccalaureate engineering preparation include: aerospace, agricultural, architectural, biomedical, chemical, civil, computer, electrical, environmental, industrial, mechanical and nuclear engineering.

Academic Programs
The associate degree in engineering requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Student Learning Outcomes
Upon successful completion, the student will be able to:

- Demonstrate skill in engineering drawing.
- Demonstrate proficiency in at least one three-dimensional engineering design software.
- Prepare reports using software tools.

Certificate of Achievement:
Engineering
Drafting Option
Courses Required for the Major Units
ENGE 108 Dimensioning and Tolerancing 3
ENGE 111 Introduction to Computer Aided Design 3
ENGE 151 Engineering Drawing 2
ENGE 152 Engineering Design 3
MATH 96 Intermediate Algebra with Geometry 5
Total Units = 19

Student Learning Outcomes
Students who complete the program will be able to:

- Demonstrate proficiency in analytical problem solving skills.
- Describe the engineering field from a general perspective.

Associate in Science Degree:
Engineering
Courses Required for the Major Units
CHEM 200 General Chemistry I 3
CHEM 200L General Chemistry I Laboratory 2
MATH 150 Calculus Analytic Geometry I 5
MATH 151 Calculus Analytic Geometry II 4
MATH 252 Calculus Analytic Geometry III 4
MATH 255 Differential Equations 3
PHYS 195 Mechanics 5
PHYS 196 Electricity and Magnetism 5
PHYS 197 Waves, Optics, and Modern Physics 5
Total Units = 36

Transfer Information

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most
efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

### Courses

#### Engineering (ENGE)

**50A Robotics Team Project Development I**

1 hour lecture, 1.5 hours lab, 1.5 units  
Pass/No Pass

*Limitation on Enrollment:* This course is not open to students with previous credit for Engineering 265A: Building Educational Bridges through Robotics Competitions. This introductory course addresses the knowledge, skills and activities needed to organize, promote and manage the design phase of a robotics competition team. Team building and collaborative learning are stressed. State-of-the-art computer software, employing pedagogically developed graphical command boxes, is used to develop effective, easy to use and understand programs to control the robots. This course is intended for students with an interest in robotics who need to gain experience as members of an engineering design team. (FT) AA/AS.

**50B Robotics Team Project Development II**

1 hour lecture, 1.5 hours lab, 1.5 units  
Pass/No Pass

*Limitation on Enrollment:* This course is not open to students with previous credit for Engineering 265A: Building Educational Bridges through Robotics Competitions. This introductory course addresses the knowledge, skills and activities needed to organize, promote and manage the construction phase of a robotics competition team. Team building and collaborative learning are stressed. State-of-the-art computer software, employing pedagogically developed graphical command boxes, is used to develop effective, easy to use and understand programs to control the robots. This course is intended for students with an interest in robotics who need to gain experience as members of an engineering team constructing a new design. (FT) AA/AS.

**50C Building Educational Bridges Through Robotics Competitions Testing and Competing**

1 hour lecture, 1.5 hours lab, 1.5 units  
Pass/No Pass

*Limitation on Enrollment:* This course is not open to students with previous credit for Engineering 265A: Building Educational Bridges through Robotics Competitions. This introductory course addresses the knowledge, skills and activities needed to organize, promote, and manage the testing and competition phases of a robotics competition team. Team efficiency and collaborative learning are stressed. State-of-the-art computer software, employing pedagogically developed graphical command boxes, is used to develop effective, easy to use and understand programs to control the robots. This course is intended for students with an interest in robotics who need to gain experience as members of an engineering team testing and deploying a new design. (FT) AA/AS.

**101 Introduction to Engineering**

1.5 hours lecture, 1.5 units  
Letter Grade or Pass/No Pass Option

*Limitation on Enrollment:* This course is not open to students with previous credit for Engineering 265B: Introduction to Engineering. This course is an introduction to engineering in the work environment, including familiarization with the different occupations of engineering. Emphasis is placed on engineering requirements, analysis, design, implementation and testing of actual engineering problems. Students learn the proper use of engineering tools including computers, statistics and computer simulations. This course is designed to help students decide whether to embark on an engineering or technical career. (FT) AA/AS; CSU.

**108 Dimensioning and Tolerancing**

3 hours lecture, 3 units  
Grade Only

*Limitation on Enrollment:* This course is not open to students with previous credit for Manufacturing Technology 108 or Manufacturing Engineering 105. This course is an introductory study of dimensioning and tolerancing. The course content emphasizes
symbology, datum reference, tolerances of location and of form and runout, and includes a complete orientation to American National Standard Institute Standard Y14.5. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU.

111 Introduction to Computer-Aided Design
2 hours lecture, 3 hours lab, 3 units
Grade Only

Limitation on Enrollment: This course is not open to students with credit for Drafting 111.
This course is an introductory study of computer-aided design, engineering, and manufacturing. Emphasis is placed on providing the student with a hands-on overview of microcomputer systems and executable features of interactive software programs that are used in industry. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU.

116 Computational Methods in Engineering
2 hours lecture, 3 hours lab, 3 units
Grade Only

Corequisite: Completion of or concurrent enrollment in: Mathematics 151 with a grade of “C” or better, or equivalent.
This course introduces students to computational methods and their applications to computer-based problem solving for engineers. Students formulate and solve engineering problems through modeling and the application of numerical methods, then evaluate and rationalize the results using computational engineering software. Topics include functions and arrays, data and file management, and standard library packages and software. This course is designed for students majoring in Engineering. (FT) AA/AS; CSU; UC.

151 Engineering Drawing
6 hours lab, 2 units
Letter Grade or Pass/No Pass Option

Prerequisite: Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.
This course is a study of engineering design with an emphasis on developing drawing skills and techniques for engineers. Course content includes elementary orthographic and pictorial drawing, sections and dimensioning, instrument and freehand drawing is as an aid to visualization and design, and computer-aided design (CAD). This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU; UC.

152 Engineering Design
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Engineering 151 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with Drafting 120.
This course is a study of engineering design with an emphasis on the presentation and interpretation of engineering drawings. Course content includes tolerance studies, gear and computer-aided manufacturing (CAM) design, as well as fit and function studies relating to manufacturing processes with computer-aided design (CAD) as they influence design decisions. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU.

198 Computer Applications in Engineering
2 hours lecture, 3 hours lab, 3 units
Grade Only

This course is a presentation of computer applications in Engineering through specific software and hardware currently utilized by practicing engineers. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU.

200 Statics
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Physics 195 with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Mathematics 151 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Engineering Technology 150.
This course is a study of applications of the principles of mechanics to rigid bodies in equilibrium. The course content emphasizes areas of friction, centroids, center of gravity, analysis of structures, moments of inertia and methods of virtual work. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU; UC.
210 Properties of Materials
3 hours lecture, 3 units
Grade Only
Prerequisite: Physics 195 with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 200 and Chemistry 200L, each with a grade of “C” or better, or equivalent.
This course is a study of the chemical, physical and mechanical properties of engineering materials including metals, ceramics, polymers and composites. Emphasis is placed on function and structure as they relate to specific design considerations. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU; UC.

240 Digital Systems
3 hours lecture, 3 units
Grade Only
Advisory: Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50.
Limitation on Enrollment: This course is not open to students with previous credit for Physical Science 265.
This course is an introduction to modeling, analysis, and design of digital systems primarily at the Logic Design Level. Students apply the basic theory of switching networks, use Boolean Algebra to analyze and synthesize switching networks, design logic gate networks, use simplification schemes to minimize part count and cost while providing optimum performance, and design and analyze sequential and combinational circuits using flip-flops and logic gate networks. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU; UC.

250 Dynamics
3 hours lecture, 3 units
Grade Only
Prerequisite: Engineering 200 with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Mathematics 252 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Engineering Technology 250.
This course is a study of fundamental principles of bodies in motion with an emphasis on kinematics and kinetics of particles and rigid bodies, moving reference frames, work-energy, linear and angular momentum relationships and their application to engineering problems. Vector notation is used throughout the course. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU; UC.

260 Electric Circuits
3 hours lecture, 3 units
Grade Only
Prerequisite: Physics 196 and Mathematics 151, each with a grade of “C” or better, or equivalent.
This course is an introduction to the study of network analysis, basic network theorems, mesh and nodal analysis with independent and controlled sources. Emphasis is placed on steady state and transient responses of networks, complex frequency transformation, alternating current (AC), circuit analysis, power, reactive apparent power and power factor, and balanced three-phase electric systems. This course is intended for students majoring in Engineering or disciplines included in the physical sciences. (FT) AA/AS; CSU; UC.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Pre-Engineering Technology

**Description**
The Certificate of Performance in Pre-Engineering Technology prepares students for entry level positions in engineering and technology areas. Courses in this certificate provide basic skills in math, technical writing, science for technical applications and drafting used in most engineering and technology related fields. These foundation courses will prepare students for the more academically rigorous engineering technology programs.

**Faculty**
- David Fierro A-107E 619-388-3731
- Farnaz Khoromi A-107C 619-388-3527
- Fred Julian A-107D 619-388-3720
- Robert Pruitt A-107E 619-388-3875

**Career Options**
Entry level engineering drafting and design; Entry level technical writing; Entry level technician.

**Academic Programs**
The Pre-Engineering Technology Certificate of Performance requires completion of the courses listed below.
Certificate of Performance: Pre-Engineering Technology*

Courses: Units
ENGN 110 Science for Technical Applications 4
MATH 096 Intermediate Algebra and Geometry 5
TEHW 101 Introduction to Technical Writing 3

and select one course from:
ENGE 111 Introduction to Computer-Aided Design or
ENGE 151 Engineering Drawing or
TECI 101 Basic Technical Illustration

Total Units = 14-15

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Courses

Engineering Technology (ENGN)

110 Science for Technical Applications
3 hours lecture, 3 hours lab, 4 units
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M40.
This science course presents basic vocabulary, concepts and scientific techniques that are used to analyze and understand technical applications. Students are introduced to the language and tools of chemistry and physics. Students learn to interpret atomic structure, use the periodic table, classify and identify properties of common compounds, analyze chemical bonding and reactions, and relate technical applications to chemical properties. Students also learn to determine the effect of force on linear motion, analyze various physical phenomena, and analyze various forms of energy. This course is intended for beginning students who are enrolling in an engineering technology major. (FT) AA/AS; CSU; UC.

120 Principles of Engineering Technology
2 hours lecture, 3 hours lab, 3 units
Grade Only
This course is an introduction to the field of engineering technology. Emphasis is placed on providing students with a balance of theoretical and practical engineering principles through hands-on projects related to design, thermodynamics, hydraulics, electrical circuits, and materials. This class is designed for students interested in pursuing an academic or vocational career in engineering technology or electronics. (FT) AA/AS; CSU.

122 Digital Electronics
2 hours lecture, 3 hours lab, 3 units
Grade Only
This course is a project-based study of digital electronics for the field of engineering technology. Emphasis is placed on the application of digital electronics to product development for current and future market trends. Topics include Ohm’s and Kirchhoff’s laws as they apply to circuit analysis, capacitance, digital versus analog waveforms, digital circuit design, flip-flops, spec sheet analysis, and microprocessor programming. This class is designed for students interested in pursuing an academic or vocational career in engineering or electronics. (FT) AA/AS; CSU.

124 Engineering Design and Development
2 hours lecture, 3 hours lab, 3 units
Grade Only
This course is a hands-on, project-based study of the field of Engineering Design. Emphasis is placed on providing students with practical knowledge related to the field, including the fundamentals of design, portfolio development, sketching, modeling, dimensioning, presentation, production and marketing. This class is designed for advanced-level high school students interested in engineering or engineering technology. (FT) AA/AS; CSU.

126 Engineering Computer Integrated Technology
2 hours lecture, 3 hours lab, 3 units
Grade Only
This course is a hands-on, project-based study of the integration of computers in the field of

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Engineering Technology

128 Electronics for Technology
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; Engineering Technology 110 with a grade of “C” or better, or equivalent. Electronics for Technology introduces electronics to non-electronics majors. It’s a fast-paced course and progresses through basic electronics to devices and then to digital electronics. Some attention is given to industries and businesses currently using electronics. The course is designed for students with non-electronics majors to gain fundamental electronics knowledge and experience. (FT) AA/AS; CSU.

130 Introduction to Engineering Design
2 hours lecture, 3 hours lab, 3 units
Grade Only
This course is an introductory study of Engineering Design. Emphasis is placed on providing students with an overall perspective on the design process as well as on the details of product development, including computer-aided design (CAD). Topics include the history of design, current career opportunities, portfolio development, geometric relationships, modeling, dimensioning, production and marketing. This class is designed for students interested in pursuing an academic or vocational career in engineering technology or electronics. (FT) AA/AS; CSU.

200 Applied Mechanics
3 hours lecture, 3 units
Grade Only
Prerequisite: Mecomtronics 120A with a grade of “C” or better, or equivalent; Physics 195 with a grade of “C” or better, or equivalent. This course is a study of fundamental principles of bodies at rest and in motion. The course content emphasizes areas of friction, centroids, center of gravity, analysis of structures, moments of inertia and methods of virtual work. In addition, emphasis is also placed on kinematics and kinetics of particles and rigid bodies, moving reference frames, work-energy, linear and angular momentum relationships and their application to engineering problems. This course is intended for students enrolled in Engineering Technology. (FT) AA/AS; CSU.

220 Component Design
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: Engineering 110 or 151, with a grade of “C” or better, or equivalent. This course emphasizes the application of mechanical design for component devices. The lecture material for this course is enhanced by a laboratory experience in design techniques including the creation of drawings using CAD (Computer Aided Design), computer solutions of design problems, component sizing and dimension determinations, mechanisms and design solution of mechanical component problems. This course is intended for students majoring in Engineering Technology. (FT) AA/AS; CSU.

225 Product Development
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Engineering 152 with a grade of “C” or better, or equivalent. Corequisite: Completion of or concurrent enrollment in: Engineering 200 and Technical Writing 101, each with a grade of “C” or better, or equivalent. This is a Capstone course intended for students enrolled in their last semester of an Engineering Technology major. Students combine skills from prior coursework and from this course to take a design from conception to full production (or a portion thereof) using such elements such as Gantt planning, Electronic and Mechanical analysis as necessary. (FT) AA/AS; CSU.

275 Engineering Technology Industrial Internship
1 hour lecture, 9 hours lab, 4 units
Grade Only
Prerequisite: Manufacturing Engineering Technology 101, 105 and 115, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Manufacturing Engineering Technology 110 and 230, each with a grade of “C” or better, or equivalent. This is an industrial internship course for multiple programs under Engineering Technology field. Students apply technical knowledge learned in previous courses in the program to design and conduct experiments; analyze and interpret data; design manufacturing systems, processes and components; and identify, formulate and solve technical problems. Throughout the internship, students have opportunities to acquire new knowledge and sharpen their problem solving, communication and team work skills. The internship experience also helps students with personal growth, professional development and awareness of the impact of engineering solutions on the industry and society. (FT) AA/AS; CSU.

Air Conditioning, Refrigeration, and Environmental Control Technology

Description
The Air Conditioning, Refrigeration, and Environmental Control Technology (AIRE) Program offers a comprehensive study of heating, ventilation, air conditioning and refrigeration (HVACR). The AIRE Program course of study includes the technology of controlled environments for homes, buildings and conditioned spaces, with topics ranging from residential refrigeration to commercial air conditioning and industrial freezing systems. Particular focus is directed toward energy efficiency and integration with Green Technology, including alternative energy systems.

Program Goals
The AIRE Program offers a series of complementary certificates that may be used for job placement and advancement in the field. When combined with the appropriate general education and graduation requirements, an AIRE Program certificate leads to an Associate in Science degree that may be used for advanced job placement and as preparation for a four-year engineering or air conditioning and refrigeration technology program.

Career Options
The AIRE Program trains students in traditional career options that include air conditioning and/or refrigeration contractor, service manager, dispatcher, HVAC or refrigeration service technician, manufacturer service representative, sales engineer, service engineer, facilities or plant operations engineer, HVACR consultant, and control systems designer/commissioner. The AIRE Program also prepares students to enter into Green careers that include solar energy technician or contractor, solar system design engineer and HVAC and solar integration specialist.

Student Learning Outcomes
Students who complete the program will be able to:

- Correctly diagnose and repair HVACR equipment using a minimum of replacement parts.
- Articulate the effects of deficient or excessive sub-cooling, superheat, air flow or water flow through an HVACR system.
- Utilize knowledge of the Refrigeration Cycle to charge a typical AC system.
- Trace power and control voltages in the diagnosis of HVACR equipment.

Academic Programs
The certificates of performance and achievement and associate degree require completion of the courses listed below.

Certificate of Performance: Air Conditioning and Solar Energy*

Description
With a California and U.S. emphasis on energy efficiency and sustainability, there is a need for well trained mechanical technicians with knowledge and skill in the integration of conventional Heating - Ventilation - Air Conditioning & Refrigeration (HVACR) and solar energy technology. This certificate of performance provides a comprehensive study of basic HVACR, solar thermal and photovoltaic systems.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Courses:  
AIRE 100 Basic Refrigeration Theory 4  
AIRE 103 Basic Refrigeration Lab 2  
AIRE 124 Control Systems Theory 3  
AIRE 125 Control Systems Lab 2  
AIRE 160 Solar Energy Utilization Theory 3  
AIRE 161 Solar Energy Utilization Lab 2  

**Total Units = 16**

**Note:** Recommend AIRE 100, AIRE 103, AIRE 124 and AIRE 125 be taken prior to enrolling in AIRE 160 and AIRE 161.

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

**Certificate of Performance:**  
**Basic Refrigeration and Control Systems***

**Description**  
With a California and U.S. emphasis on energy efficiency and sustainability, there is a need for well-trained mechanical technicians. This Certificate of performance prepares students with knowledge and skill in the installation, maintenance and repair of residential and light-commercial Heating - Ventilation - Air Conditioning & Refrigeration (HVACR) systems.

Courses:  
AIRE 100 Basic Refrigeration Theory 4  
AIRE 103 Basic Refrigeration Lab 2  
AIRE 124 Control Systems Theory 3  
AIRE 125 Control Systems Lab 2  

**Total Units = 11**

* A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

**Certificate of Achievement:**  
**Air Conditioning, Refrigeration, and Environmental Control Technology**  
**Advanced Air Conditioning and Direct Digital Control**  
Advanced Air Conditioning and Direct Digital Control focuses on precise, automated control of air conditioning and lighting systems with the goal of providing optimum comfort at minimal operational cost.

Courses Required for the Major:  
AIRE 100 Basic Refrigeration Theory 4  
AIRE 103 Basic Refrigeration Lab 2  
AIRE 124 Control Systems Theory 3  
AIRE 125 Control Systems Lab 2  
AIRE 126 Fluid Flow Dynamics 3  
AIRE 127 Fluid Flow Dynamics Lab 2  
AIRE 128 Comfort Heating Systems Theory 4  
AIRE 129 Comfort Heating Systems Lab 2  
AIRE 138 HVAC/Refrigeration System Design 3  
AIRE 139 HVAC/Refrigeration System Design Lab 2  
AIRE 144 Direct Digital Controls Theory 4  
AIRE 145 Direct Digital Controls Lab 2  

**Total Units = 33**

**Recommended Electives:** Air Conditioning, Refrigeration, and Environmental Control Technology 132 and 133.

**Certificate of Achievement:**  
**Air Conditioning, Refrigeration, and Environmental Control Technology**  
**Air Conditioning, Heating, and Advanced Refrigeration**  
**Description**  
The Air Conditioning, Heating and Advanced Refrigeration certificate focuses on advanced, complex, high efficiency HVACR systems and their components.

Courses Required for the Major:  
AIRE 100 Basic Refrigeration Theory 4  
AIRE 103 Basic Refrigeration Lab 2  
AIRE 122 Construction Drawings & Estimating 3  
AIRE 123 Construction Drawings & Estimating Lab 1  
AIRE 124 Control Systems Theory 3  
AIRE 125 Control Systems Lab 2  
AIRE 126 Fluid Flow Dynamics 3  
AIRE 127 Fluid Flow Dynamics Lab 2  
AIRE 128 Comfort Heating Systems Theory 4  
AIRE 129 Comfort Heating Systems Lab 2  
AIRE 132 Advanced Refrigeration Theory 3  
AIRE 133 Advanced Refrigeration Lab 2  

**Total Units = 31**
Certificate of Achievement: Air Conditioning, Refrigeration, and Environmental Control Technology

Heating, Air Conditioning and Solar Energy

The Certificate of Achievement in Heating, Air Conditioning and Solar Energy focuses on the design and integration of conventional HVAC systems with solar energy sources for sustainable residential and commercial environments.

Courses Required for the Major: Units
AIRE 100 Basic Refrigeration Theory 4
AIRE 103 Basic Refrigeration Lab 2
AIRE 124 Control Systems Theory 3
AIRE 125 Control Systems Lab 2
AIRE 128 Comfort Heating Systems Theory 4
AIRE 122 Construction Drawings & Estimating 3
AIRE 123 Construction Drawings & Estimating Lab 1
AIRE 126 Fluid Flow Dynamics 3
AIRE 127 Fluid Flow Dynamics Lab 2
AIRE 129 Comfort Heating Systems Lab 2
AIRE 138 HVAC/Refrigeration Systems Design 3
AIRE 139 HVAC/Refrigeration Systems Design Lab 2

Total Units = 31

Recommended Electives: Air Conditioning, Refrigeration and Environmental Control Technology 132 and 133, 144 and 145.

Certificate of Achievement: Air Conditioning, Refrigeration, and Environmental Control Technology

Heating, Ventilation, and Air Conditioning Systems Design

Description
The Certificate of Achievement in Heating, Ventilation, and Air Conditioning Systems Design focuses on the integration of HVAC components and equipment into the design of optimally functional and energy efficient building air conditioning systems.

Courses Required for the Major: Units
AIRE 100 Basic Refrigeration Theory 4
AIRE 103 Basic Refrigeration Lab 2
AIRE 122 Construction Drawings & Estimating 3
AIRE 123 Construction Drawings & Estimating Lab 1
AIRE 124 Control Systems Theory 3
AIRE 125 Control Systems Lab 2
AIRE 126 Fluid Flow Dynamics 3
AIRE 127 Fluid Flow Dynamics Lab 2
AIRE 138 HVAC/Refrigeration Systems Design 3
AIRE 139 HVAC/Refrigeration Systems Design Lab 2

Total Units = 31

Recommended Electives: Air Conditioning, Refrigeration, and Environmental Control Technology 138 and 139, 144 and 145.

Certificate of Achievement: Air Conditioning, Refrigeration, and Environmental Control Technology

Stationary Facilities Engineering and General Maintenance Technician

Description
The Certificate of Achievement in Stationary Facilities Engineering and General Maintenance Technician is a practical study of large commercial, high efficiency HVACR systems and central plant operations and maintenance.

Courses Required for the Major: Units
AIRE 100 Basic Refrigeration Theory 4
AIRE 103 Basic Refrigeration Lab 2
AIRE 122 Construction Drawings and Estimating 3
AIRE 123 Construction Drawings and Estimating Lab 1
AIRE 124 Control Systems Theory 3
AIRE 125 Control Systems Lab 2
AIRE 126 Fluid Flow Dynamics 3
AIRE 127 Fluid Flow Dynamics Lab 2

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
AIRE 128 Comfort Heating Systems Theory  4
AIRE 129 Comfort Heating Systems Lab  2
BLDC 070 Building Codes and Zoning  3
BUSE 150 Human Relations in Business  3

Total Units = 32

Recommended Electives: Air Conditioning, Refrigeration and Environmental Control Technology 132 and 133, 144 and 145, 138 and 139.

Associate in Science Degree: Air Conditioning, Refrigeration, and Environmental Control Technology

Description
The Air Conditioning, Refrigeration and Environmental Control Technology A.S. degree focuses on the study of complex, high efficiency HVAC, advanced controls and alternative energy systems.

Total Units = 36

Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Courses

Air Conditioning, Refrigeration, and Environmental Control Technology (AIRE)

100 Basic Refrigeration Theory
4 hours lecture, 4 units
Grade Only

Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 103. This course is a study of elementary thermodynamics as applied to heating, air conditioning and refrigeration (HVACR) systems, including molecular theory of temperature, pressure and heat. Emphasis is placed on the vapor-compression refrigeration cycle, HVACR system components, their thermal performance and applications. Discussions include historical to modern systems, with emphasis placed on new energy-saving technologies and methods being employed in this dynamic industry. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

103 Basic Refrigeration Lab
6 hours lab, 2 units
Grade Only

Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 100. This course is a hands-on, project-oriented study of the tools, materials, methods and equipment used in Heating, Ventilation, Air Conditioning and Refrigeration (HVACR). Emphasis is placed on projects related to heat transfer and the refrigeration cycle, system evacuation, charging, recovery and leak testing as they apply to normal HVACR industry activities. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

122 Construction Drawings and Estimating
3 hours lecture, 3 units
Grade Only

Corequisite: Air Conditioning, Refrigeration, And Environmental Control Technology 123 with a grade of “C” or better, or equivalent. Advisory: Mathematics 38 with a grade of “C” or better, or equivalent or Assessment Skill Level M30. This course is a study of the generation, reading and
interpretation of construction drawings from initial concepts to actual building construction. Emphasis is placed on how the Heating, Ventilation and Air Conditioning (HVAC) systems are integrated into the structure by architects, engineers and ultimately the construction contractors and subcontractors. Course content includes architectural, mechanical, electrical and plumbing drawings, and also covers job planning, sources and use of pricing guidelines, municipal, county, state and federal codes, energy codes and standards, specifications and computer software programs used in the development of construction drawings and used for construction estimating. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

123 Construction Drawings and Estimating Lab

3 hours lab, 1 unit

Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 122 with a grade of “C” or better, or equivalent.

Advisory: Mathematics 38 with a grade of “C” or better, or equivalent or Assessment Skill Level M30. This laboratory course provides practice in the reading of construction drawings and plans for structures and building components. Students use pricing guides for Heating, Ventilating and Air Conditioning (HVAC), computer-aided drafting software, engineering and architectural scales, and elementary sketching and drawing techniques to complete laboratory projects. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. AA/AS; CSU.

124 Control Systems Theory

3 hours lecture, 3 units

Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 125.

Advisory: Completion of or concurrent enrollment in: Air Conditioning, Refrigeration, and Environmental Control Technology 100 and 103, each with a grade of “C” or better, or equivalent.

This course is a study of electricity and electrical controls for Heating, Ventilation and Air Conditioning and refrigeration (HVACR). Subjects include Ohm’s Law and Kirchoff’s Law for direct current (DC) and alternating current (AC) circuits, series and parallel power and control circuits, electrical schematic and wiring diagrams, and motor theory. Emphasis is placed on the operational theory and application of components commonly encountered in modern HVACR systems, electrical control and circuits, compressor, pump and fan circuits. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

125 Control Systems Lab

6 hours lab, 2 units

Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 124.

Advisory: Completion of or concurrent enrollment in: Air Conditioning, Refrigeration, and Environmental Control Technology 100 and 103, each with a grade of “C” or better, or equivalent.

This course utilizes a series of laboratory projects that provide hands-on student training with test and measuring tools, benchtop trainers and actual heating, ventilation, air conditioning and refrigeration (HVACR) systems. Projects include use of digital-volt-ohm-meters (DVOM), in-circuit and clamp-on ammeters, meggers, etc. in analyzing HVACR power and control circuits. Logical troubleshooting and diagnosis methods are demonstrated and utilized with computer simulation software and in the laboratory projects. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

126 Fluid Flow Dynamics

3 hours lecture, 3 units

Corequisite: Completion of or concurrent enrollment in Air Conditioning, Refrigeration, and Environment Control Technology 127 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with credit for Environmental Control Technology 126.

Fundamental laws governing air flow in ducting systems; fans, system curves, fan curves, common methods of air distribution; friction losses in ducts; use of system calculators; laws of hydronics; pipe sizing, pump sizing; pressure losses in hydronic
systems; air psychrometries; water treatment and air filtration fundamentals. AA/AS; CSU.

127 Fluid Flow Dynamics Lab
6 hours lab, 2 units

Corequisite: Air Conditioning, Refrigeration, and Environment Control Technology 126.
Limitation on Enrollment: This course is not open to students with credit for Environment Control Technology 127.
This laboratory course provides practice in fluid measuring methods and instrumentation. Emphasis is placed on working with instruments such as pitot tube devices and velometers to illustrate the interaction of fluid systems curves. Course content also includes air psychometries, air and hydronic system balancing and measurement of sound. AA/AS; CSU.

128 Comfort Heating Systems Theory
4 hours lecture, 4 units

Corequisite: Air Conditioning, Refrigeration, and Environment Control Technology 129.
Limitation on Enrollment: This course is not open to students with previous credit for Air Conditioning, Refrigeration and Environmental Control Technology 112.
This course engages in the study, identification, and understanding of the safe operation of comfort heating equipment and systems. Instruction includes the use of combustion analyzers to evaluate the combustion process of various fuels, their heat output, analysis of bi-products, equipment capacity and combustion efficiency. The course includes discussions on equipment design, installation and maintenance in common types of comfort heating systems, including forced-air gas-fired and oil-fired furnaces, boilers, furnaces, heatpump fancoils, hydronic heating and integrated conventional and alternative energy systems. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

129 Comfort Heating Systems Lab
6 hours lab, 2 units

Corequisite: Air Conditioning, Refrigeration, and Environment Control Technology 128.
Limitation on Enrollment: This course is not open to students with previous credit for Air Conditioning, Refrigeration, and Environmental Control Technology 113.
This course involves a series of demonstrations and lab projects to provide identification, knowledge and understanding of the safe operation of comfort heating equipment and systems. Readings from combustion analyzers are used to evaluate the combustion process of various fuels, their heat output, analysis of bi-products, equipment capacity and combustion efficiency. The course includes design, maintenance training and practice on common types of comfort heating systems, including forced-air gas-fired and oil-fired furnaces, boilers, furnaces, heatpump fancoils, hydronic heating and integrated conventional and alternative energy systems. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

132 Advanced Refrigeration Theory
3 hours lecture, 3 units

Corequisite: Air Conditioning, Refrigeration, and Environment Control Technology 133.
Advisory: Air Conditioning, Refrigeration, and Environmental Control Technology 100 and 103, each with a grade of "C" or better, or equivalent.
This course is a comprehensive thermodynamic analysis of air conditioning and refrigeration systems using Mollier diagrams and mathematical system process calculations. Topics include heat exchanger design, condensers, evaporators, cooling towers, evaporative condensers, metering devices, compressor design and performance, system piping and lubrication. Studies include multi-evaporator vapor-compression, cascade, cryogenic, and absorption systems. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

133 Advanced Refrigeration Lab
6 hours lab, 2 units

Corequisite: Air Conditioning, Refrigeration, and Environment Control Technology 132.
Advisory: Air Conditioning, Refrigeration, and Environmental Control Technology 100 and 103, each with a grade of "C" or better, or equivalent.
This course is a rigorous series of projects in the functioning and service of heating, ventilating, air conditioning and refrigeration (HVACR) systems. Projects include taking pressure, temperature and airflow readings on normal and malfunctioning systems; air psychrometries; water treatment and air filtration fundamentals.
systems, thermodynamic analyses using Mollier diagrams, troubleshooting, diagnosis and repair. Tasks involve the use of various refrigerants and secondary control devices such as pressure regulators and head pressure controls and the use of modern industry-standard tools and test equipment. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

138 HVAC/Refrigeration System Design
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: This course is not open to students with credit for Environmental Control Technology 138. An intensive course on the theory of design for heating, refrigeration, air conditioning, and solar energy systems. Includes building envelope heat load calculations, equipment selection criteria, system selection and optimization. Energy conservation techniques in design and hydronic system design applications are included. AA/AS; CSU.

139 HVAC/Refrigeration System Design Lab
6 hours lab, 2 units
Grade Only

Limitation on Enrollment: This course is not open to students with credit for Environmental Control Technology 139. Applied design techniques for the development of complete "HVAC" refrigeration and solar designs in an occupationally similar environment. A series of design projects includes applied heat load estimation; applied psychrometries; system and equipment selection criteria; and use of design manuals, tables, and manufacturers catalogs. Applied energy conservation techniques are included. AA/AS; CSU.

144 Direct Digital Controls Theory
4 hours lecture, 4 units
Grade Only

Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 145 with a grade of "C" or better, or equivalent.
Advisory: Computer Business Technology 161 and 180, each with a grade of "C" or better, or equivalent. This course is a study of Direct Digital Control (DDC) theory: rationale, DDC system design, DDC system sensors, DDC controllers and advanced heating, ventilation and air conditioning (HVAC) controls, network architecture, Internet protocol (IP) addressing and interoperation, open and non-proprietary systems, American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE) BACnet, and the LonWorks platform. The course examines BACnet DDC hybrid control strategies using various analog and binary system actuators. Specific emphasis is placed on developing student skills using networks that are built into the AIRE Program DDC lab equipment and utilized throughout the world, including the SDCCD campuses and buildings. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

145 Direct Digital Controls Lab
6 hours lab, 2 units
Grade Only

Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 144 with a grade of "C" or better, or equivalent.
Advisory: Computer Business Technology 161 and 180, each with a grade of "C" or better, or equivalent. This course applies Direct Digital Control (DDC) theory to laboratory projects: system design, American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE) BACnet DDC controller selection and integration with heating, ventilation and air conditioning (HVAC) system components, BACnet network architecture, development of graphical views and hierarchical database tree, logical BACnet program development, and construction of DDC system operator machine interface graphics. Course projects include the development of a facility graphical view and control hierarchy tree, setup of a control logic diagram using blocks, symbols and wires, and construction of an operator graphical interface. Laboratory training simulations are compared to actual DDC HVAC control strategies used by the San Diego Community College District’s BACnet DDC system, and throughout the world. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.
160 Solar Energy Utilization Theory
3 hours lecture, 3 units
Grade Only
Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 161.
Advisory: Air Conditioning, Refrigeration, and Environmental Control Technology 100 and 124, each with a grade of “C” or better, or equivalent. This course studies solar-thermal and photovoltaic (PV) systems, siting considerations, types of collectors and systems, operating efficiencies, building codes and solar rights. Topics include: passive and active solar thermal systems; residential and commercial systems for water heating, space heating, space cooling, process heating, swimming pool heating, and hybrid systems. Study of photovoltaic technologies includes the solar cell, independent and grid-connected systems and electric bill reduction strategies. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

161 Solar Energy Utilization Lab
6 hours lab, 2 units
Grade Only
Corequisite: Air Conditioning, Refrigeration, and Environmental Control Technology 160.
Advisory: Air Conditioning, Refrigeration, and Environmental Control Technology 100 and 125, each with a grade of “C” or better, or equivalent. This course includes a series of solar thermal and photovoltaic (PV) laboratory projects. Solar collector and system performance data are recorded and analyzed and efficiencies calculated. Topics include collector/module azimuth and tilt, thermal open and closed loop systems, freeze protection, stagnation; stand-alone and grid-connected photovoltaic systems are studied. This course is intended for students who are majoring in Air Conditioning, Heating and Solar Energy. (FT) AA/AS; CSU.

270 Work Experience in Air Conditioning, Refrigeration, Environmental Control Technology
Hours by Arrangement (One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.), 1-4 units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from Work Experience Coordinator for registration. A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

290 Independent Study in Air Conditioning, Refrigeration, Environmental Control Technology
Hours by Arrangement, 1-3 units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from instructor for registration. This course is not open to students with credit for Environmental Control Technology 290. For students who wish to study special problems. AA/AS; CSU.
This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Computer Technical Illustration
Description
Provides an opportunity to develop the theory and techniques necessary for employment as a technical illustrator in the fields of engineering, manufacturing, publishing and scientific industries. Students will plan and produce drawings from specific data, blueprints and prototypes. Production methods, visual skills, technical documentation procedures and developments, as they apply to the technical illustration industry, will be studied.

Faculty Office Telephone
David Fierro A-107E 619-388-3731
Farnaz Khoromi A-107C 619-388-3527
Fred Julian A-107D 619-388-3720

Career Options
Technical Illustrator, graphic specialist, technical publications specialist, manager technical publications, CAD drafter, CAD illustrator, CAD designer, engineering technician, computer graphics specialist.

Student Learning Outcomes
Students who complete the program will be able to:
• Plan and produce drawings from specific data, blueprints and prototypes.
- Construct two and three-dimensional models of an engineering design using available engineering software.
- Demonstrate knowledge of print reading and symbology.

**Academic Programs**

Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

**Certificate of Performance: Computer Technical Illustration***

Prepares students with drafting and Computer Aided Design (CAD) experience to obtain entry-level Technical Illustration positions.

Courses

Technical Illustration (TECI)

50 Bridging to Technical Illustration
1 hour, 1 unit
Grade Only
This course is designed to assist students in exploring the possibility of pursuing a career in the field of technical illustration. This introductory course, outlines career options within the field, places of employment, overview of the current technology, areas of specialization, testing requirements and professional organizations. (FT) AA/AS.

101 Basic Technical Illustration
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
This course covers the basics of technical illustration as it applies to the technical publications industry. Emphasis is placed on visualization skills, technical document analysis, and illustration development. Projects progress from technical illustration of mechanical details on CAD to pictorial procedures as required by industry. (FT) AA/AS; CSU.

102 Advanced Technical Illustration
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Technical Illustration 101 with a grade of “C” or better, or equivalent.
This course is a continuation of Basic Technical Illustration 101. This course is designed to emphasize advanced pictorial problems of complex mechanical assemblies as they apply to current technical illustration industrial standards. Projects will progress from CAD generated technical illustrations of exploded views in isometric, wireframe, and solids modes to exploring current procedures of pictorial development as required by industry. (FT) AA/AS; CSU.

Electricity

Description:
The electricity program is designed to provide the student with an opportunity to master the skills required for success in the electrical trades. Prior knowledge of the electrical trade is not required. Students in the program learn skills and knowledge needed to install, maintain and troubleshoot a variety of electrical systems, residential as well as commercial and industrial facilities, while adhering to the National Electrical Code (NEC), specifications and blueprints. The two-year curriculum leads to a Certificate of Achievement or an Associate in Science degree. Recommended electives are designed to introduce additional areas in the electrical field to students or working electricians. These courses may also be used to satisfy the State of California re-certification requirements for electricians.

Program Goals:
The goal and objective of this program is to provide students with hands-on skills and theoretical knowledge needed to meet the demands of an electrician entering the field.

Program Emphasis
The program begins with an introduction to basic electrical theory and continues through advanced electrical theory, installation and maintenance of industrial equipment, familiarization with electrical codes and blueprints, and the characteristics and uses of motor controls. Emphasis is also placed on electrical safety and application of the National Electric Code to residential and commercial electrical installations. The program also offers courses intended to satisfy the State of California re-certification requirements for electricians working for or as a C-10 Electrical Contractor.

Career Options:
Employment may be found as an electrician, electric lineman, maintenance electrician, electrical helper, electrical motor repairer, appliance repairer, or protective signal installer and repairer. Industries that hire electricians range from city and government agencies to commercial firms as well as homeowners.

Students interested in an Electrical Apprenticeship with Associated Builders and Contractors (ABC), Electric Meter Tester or Substation Electrician with (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.
SDG&E, are directed to Apprenticeship Information in this Catalog (see Index). The Electricity Program offers Electrician Trainees who have taken courses for the ABC Apprenticeship Program the opportunity to apply their courses toward earning a certificate or an associate degree in Electricity. (See the Professor in charge of the Electricity Program.)

Faculty
Mike Brown  T-205  619-388-3111

Career Options
Employment may be found as an electrician, electric lineman, maintenance electrician, electrical helper, electrical motor repairer, appliance repairer, or protective signal installer and repairer.

Student Learning Outcomes
Students who complete the program will be able to:

- Demonstrate knowledge of electrical codes and blueprints.
- Discuss and demonstrate knowledge of safety in the electrical field.
- Evaluate electrical wiring diagrams as they relate to implementation.
- Demonstrate a basic knowledge of generators and motors.
- Prepare and apply to take the State of California electrician certification exam.

Academic Programs
The certificates of achievement and associate degree, Electricity, require completion of the courses listed below.

Certificate of Performance: Electrical Recertification Preparation*

*Certificate of Achievement is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Certificate of Achievement: Electricity

Courses Required for the Major: Units
ELCT 111  Electrical Theory I 3
ELCT 111 L  Electrical Laboratory I 2
ELCT 121  Electrical Theory II 3
ELCT 121 L  Electrical Laboratory II 2
ELCT 131  Electrical Theory III 3
ELCT 131 L  Electrical Laboratory III 2
ELCT 141  Electrical Theory IV 3
ELCT 141 L  Electrical Laboratory IV 2

Total Units = 20

Certificate of Achievement: Electricity

Lineman

Completion of this program will not guarantee employment as a Lineman with San Diego Gas and Electric Company.

Courses Required for the Major: Units
ELCT 190  Electric Lineman IA 5
ELCT 191  Electric Lineman IB 5
ELCT 192  Electric Lineman IIA 5
ELCT 193  Electric Lineman IIB 5
ELCT 194  Electric Lineman IIIA 5
ELCT 195  Electric Lineman IIIB 5

Total Units = 30

Certificate of Achievement: Electricity

Electrical Control Systems Option

Electrical Control Systems Option emphasizes the study of electrical control system theory including standard motor controls, transducers, static control devices, programmed controllers, and remote electronic controls.

Courses Required for the Major: Units
Complete requirements for the Certificate of Achievement, Electricity 20

AND, in addition, complete:
ELCT 200  Electric Control Systems 3

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
ELCT 200L Electric Control Systems Laboratory 2

Total Units = 25

Recommended electives: Electricity 20, 30, 40, 270.

Associate in Science Degree: Electricity

Courses Required for the Major:

Total Units = 30

Complete the Certificate of Achievement, Electricity. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Recommended elective: Electricity 270.

Transfer Information

Common university majors related to the field of Electricity include: Industrial Engineering, Industrial Technology.

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Electricity (ELCT)

20 Blueprint Reading for Electricians

3 hours lecture, 3 units

Grade Only

This course is a practical survey of blueprint reading for electricians. Emphasis is placed on architectural considerations and electrical symbology for residential, commercial, and industrial blueprints. This course is intended for students in the Electricity Program as well as for working electricians who want to further their skills and/or fulfill state certification and accreditation requirements. (FT) Not Applicable to Associate Degree, Occupational/Vocational basic skills.

30 Modern Commercial Wiring

3 hours lecture, 3 units

Grade Only

This course is a study of modern commercial wiring systems. Emphasis is placed on practical application of the material through in-class projects. This course is intended for students in the Electricity Program as well as for working electricians who want to further their skills and/or fulfill state certification and accreditation requirements. (FT) Not Applicable to Associate Degree, Occupational/Vocational basic skills.

40 Data, Voice and Video Cabling for Electricians

3 hours lecture, 3 units

Grade Only

This course is a study of current data, voice and video cabling systems. Emphasis is placed on practical application of the material through in-class projects. This course is intended for students in the Electricity Program as well as for working electricians who want
to further their skills and/or fulfill state certification and accreditation requirements. (FT) Not Applicable to Associate Degree, Occupational/Vocational basic skills.

### 111 Electrical Theory I

**3 hours lecture, 3 units**

*Grade Only*

**Corequisite:** Electricity 111L.

**Advisory:** English 48 and Mathematics 96, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and M50.

This course is a study of the fundamentals of electrical theory including basic safety practices and a history of industrial electricity and electronics. Course topics include the theory and application of fundamental units of measurement, wire splicing, permanent magnets, electromagnets, and electrical/electronic symbols. This course includes a study of the theory of electricity sources including batteries, mechanical generators, photovoltaic, and thermocouples. In addition, Basic Ohm’s Law theory including calculations of DC voltage, DC current, resistance, DC power, inductance and capacitance in DC circuits is discussed. This course is designed as preparation for the major in Electricity. (FT) AA/AS; CSU.

### 111L Electrical Laboratory I

**6 hours lab, 2 units**

*Grade Only*

**Corequisite:** Electricity 111.

**Advisory:** English 48 and Mathematics 96, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and M50.

This course involves laboratory practice in basic electricity. Laboratory time includes instruction and laboratory assignments in the proper use and care of electrical tools, meters, instruments, and equipment with an emphasis on safe working habits. Laboratory assignments include the application of basic direct and alternating current theory and wattage of fabricated circuits. Students gain additional practice in the development of electrical diagrams using proper symbols and nomenclature. An introduction to inductance and capacitance in direct current or DC circuits is included. This course is designed as a preparation for the major in Electricity. (FT) AA/AS; CSU.

### 121 Electrical Theory II

**3 hours lecture, 3 units**

*Grade Only*

**Prerequisite:** Electricity 111 and 111L, each with a grade of “C” or better, or equivalent.

**Corequisite:** Electricity 121L.

This course involves a detailed study of the theory of alternating current including the generation of AC; electrical degrees, effective and average values; addition and subtraction of phasors; resistance, inductance, and capacitance in AC circuits; reactance, and impedance. This course also includes an in-depth study of single-phase series and parallel circuits, three-phase power generation, current and voltage relationships in wye and delta connected power sources and loads. A study of three-phase transformers with various connections and under various load conditions is also included. This course is designed as a preparation for the major in Electricity. (FT) AA/AS; CSU.

### 121L Electrical Laboratory II

**6 hours lab, 2 units**

*Grade Only*

**Prerequisite:** Electricity 111 and 111L, each with a grade of “C” or better, or equivalent.

**Corequisite:** Electricity 121.

This course involves laboratory practice in direct current and alternating current circuits. Activities include practice with basic DC motor circuits, power transmission lines, and instruction in the safe use of three-phase power supplies. This course also includes practice using AC voltmeters, AC ammeters, and AC wattmeters to measure phase angle, real power, apparent power, watts, vars, volt-amps, and power factor in single-phase and poly-phase circuits including three-phase circuits with wye and delta connections. This course is designed as preparation for the major in Electricity. (FT) AA/AS; CSU.

### 131 Electrical Theory III

**3 hours lecture, 3 units**

*Grade Only*

**Prerequisite:** Electricity 121 and 121L, each with a grade of “C” or better, or equivalent.

**Corequisite:** Electricity 131L.

This course involves practice in planning the installation of electrical circuits on construction.

---

### AA/AS = Associate Degree Applicable

### CSU = California State University Applicable

### UC = University of California Applicable
jobs according to the National Electrical Codes and Blueprints. This course also includes practice in making detailed drawings of electrical wiring circuits using standard symbols and estimating the wiring material required to complete a single-family dwelling. Planning the installation of communication circuits, heating systems, service entrance equipment, remote control systems, motor starting equipment, circuit protective devices, control components, and pilot devices is also included. This course is designed as preparation for the major in Electricity. (FT) AA/AS; CSU.

### 131L Electrical Laboratory III

**6 hours lab, 2 units**

**Grade Only**

**Prerequisite:** Electricity 121 and 121L, each with a grade of "C" or better, or equivalent.

**Corequisite:** Electricity 131.

This course involves laboratory practice in the installation of construction wiring materials including installation and connection of lighting circuits, receptacle circuits, special purpose circuits, communication circuits, heating systems, service entrance equipment, remote control systems, electric motor circuits, and pilot devices. Safety is emphasized through practice in the installation of electrical equipment according to blueprints and local and national codes. Instruction and practice in fire prevention and construction site safety habits are also included. This course is designed as preparation for the major in Electricity. (FT) AA/AS; CSU.

### 141 Electrical Theory IV

**3 hours lecture, 3 units**

**Grade Only**

**Prerequisite:** Electricity 131 and 131L, each with a grade of "C" or better, or equivalent.

**Corequisite:** Electricity 141L.

This course involves the advanced theory of the characteristics and uses of direct current generators, direct current motors, direct current motor controls, alternating current generators, and three-phase motors. This course also includes the advanced theory of the characteristics and uses of three-phase motors and three-phase controllers, single-phase motors and single-phase controllers, electronic devices, and static controls. Digital and logic controls are also investigated. This course is designed as preparation for the major in Electricity. (FT) AA/AS; CSU.

### 141L Electrical Laboratory IV

**6 hours lab, 2 units**

**Grade Only**

**Prerequisite:** Electricity 131 and 131L, each with a grade of "C" or better, or equivalent.

**Corequisite:** Electricity 141.

This course involves laboratory practice and experimentation with DC generators, DC motors, three-phase alternators, squirrel-cage induction motors, and wound rotor induction motors. This course also includes laboratory practice and experimentation with induction motors, synchronous motors, and single-phase motors, including split-phase, capacitor start, universal, and repulsion-start induction run motors. Additionally, experiments are conducted with phase sequence, frequency, selsyn systems, and SCR speed controls. This course is designed as preparation for the major in Electricity. (FT) AA/AS; CSU.

### 190 Electric Lineman IA

**5 hours lecture, 5 units**

**Grade Only**

**Advisory:** English 48 and English 49 and Mathematics 46, each with a grade of "C" or better or equivalent, or Assessment Skills Levels R5 and W5 and M40.

**Limitation on Enrollment:** This course is not open to students with credit for San Diego Gas and Electric 302.

This course provides an orientation in the power distribution and line construction industry. Basic electrical principles and safety on the job are emphasized. Topics include basic mathematical computations, including trigonometry fundamentals, electron theory and the fundamentals of magnetism. Students will combine electrical theory with laboratory and practical applications in the course of study. (FT) AA/AS.

### 191 Electric Lineman IB

**5 hours lecture, 5 units**

**Grade Only**

**Prerequisite:** Electricity 190, with a grade of "C" or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with credit for San Diego Gas and Electric 304.

This course involves the study of the power distribution and line construction industry. Topics include methods of producing electricity, A.C. and D.C. meters and circuitry and electric batteries. Students will also learn about Ohm’s Law and
Kirchhoff’s Law and electromagnetic induction. (FT) AA/AS.

192 Electric Lineman IIA

5 hours lecture, 5 units
Grade Only

Prerequisite: Electricity 191, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with credit for San Diego Gas and Electric 310.

This course is a study of alternating current circuits, A.C. and D.C. motors and generators, pole and overhead construction, and transformers and voltage regulators. Topics include schematics, shunt and series capacitors and safety issues outlined by the Occupational Safety and Health Act (OSHA). Calculating power used by electrical circuits is also covered. (FT) AA/AS.

193 Electric Lineman IIB

5 hours lecture, 5 units
Grade Only

Prerequisite: Electricity 192, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with credit for San Diego Gas and Electric 312.

This course is a continuation of pole and overhead line construction. Topics covered include state safety orders for line construction and maintenance, transmission and distribution systems and conductors and electrical systems faults. Students will also learn about short circuits, system protective concepts and how to identify control circuits from wiring diagrams. (FT) AA/AS.

194 Electric Lineman IIIA

5 hours lecture, 5 units
Grade Only

Prerequisite: Electricity 193, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with credit for San Diego Gas and Electric 320.

This course covers advanced theory of electrical distribution lines and systems. Other topics include phasing, system groundings, substations and the use of electrical instruments. Students will also learn how to connect transformers in accordance with the state code. Usage of fusing tables and reference tables, including technical symbols are also covered. (FT) AA/AS.

195 Electric Lineman IIIB

5 hours lecture, 5 units
Grade Only

Prerequisite: Electricity 194, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with credit for San Diego Gas and Electric 322.

This course is a continuation of advanced theory of electrical distribution lines and systems. Topics include the use of “hot sticks” and special equipment; repair and maintenance of poles and lines both cold and energized, safety practices and the local/state requirements. Students will be expected to master competencies such as those included in elements of electricity, overhead pole and electrical line construction, safety codes and applications, electric power system, transformer and meter installations, and exploration of underground electrical distribution. (FT) AA/AS.

200 Electrical Control Systems

3 hours lecture, 3 units
Grade Only

Prerequisite: Electricity 121 and Electricity 121L each with a grade of “C” or better, or equivalent.

Corequisite: Electricity 200L.

This course is a study of electrical control system theory emphasizing standard motor controls, transducers, static control devices, programmed controllers, and remote electronic controls. This course is intended for students majoring in Electricity as well as for working electricians who want to further their skills and/or fulfill state certification and accreditation requirements. (FT) AA/AS; CSU.

200L Electrical Control Systems Laboratory

6 hours lab, 2 units
Grade Only

Prerequisite: Electricity 121 and Electricity 121L each with a grade of “C” or better, or equivalent.

Corequisite: Electricity 200.

This course is a hands-on laboratory in electrical control systems. Emphasis is placed on standard motor controls, transducers, static control devices, programmed controllers, and remote electronic controls. This course is intended for students majoring in Electricity as well as for working

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
electricians who want to further their skills and/or fulfill state certification and accreditation requirements. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Electromechanical Engineering Technology

Description
The Electromechanical Engineering Technology course of study provides a comprehensive learning environment of both electronic and mechanical principles. Learning emphasis is placed upon the hands-on application and design of electromechanical systems that include analog & digital electronics, engineering design, and computer controlled mechanical systems.

Program Emphasis
The curriculum is based on integrated technical and core competencies (electronics, engineering design, engineering sciences), and it emphasizes a project-based learning format. Students work in teams to learn concepts, solve problems and make discoveries in a workplace-related environment. Students use traditional, Internet resources and industry supplied data as sources of information.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Electronics

Description
Electronics is a field of technology that is concerned with the installation, operation, repair, maintenance, calibration, modification and service of electronic circuitry, components and systems. Technicians are also trained to diagnose problems arising from
electro-mechanical malfunctions and to assist often work as part of a design team in industry under the guidance of engineers or technologists in preparing prototypes of electronic units or systems. Systems, determining if prototypes are safe and meet job-specific criteria.

**Program Goals**
The Electronics Program aids students in developing the knowledge, skills and abilities needed in order to become a proficient electronics technician in the student’s desired area of focus. The successful student is proficient with basic electronics measurement instrumentation and understands basic electronics circuitry. In addition to courses and labs, the Electronics Program provides an opportunity for interested students to take Electronics Technician Association (ETA) and International Association for Radio, Telecommunication and Electromagnetics (iNARTE) Certification tests.

**Program Emphasis**
The Electronics Program emphasis is on providing the fundamental knowledge needed by a general electronics technician. Ample opportunity for electronics skill development is provided in laboratory courses. Two major areas of emphasis are currently available to electronics student: microcontroller/microprocessor technology and electronic communication technology.

**Career Options**
Electronics Technician, Biomedical Electronics Technician, Electronics/Computer Technician, Electronics Technician-General Electronics Manufacturing, Consumer Electronics Technician, Design-Development Technician, Automation Technician, Instrumentation Technician, Electro-mechanical Technician, Engineering Aide, Research Technician, or Robotics Technician. Discuss other options with an Electronics Professor.

**Student Learning Outcomes**
Students who complete the program will be able to:

- Analyze and explain basic electronic theory including Ohm’s Law, the power formula, and calculation of voltage gain and power gain.
- Identify standard electronic components including resistors, capacitors, inductors, diodes, bipolar transistors, field effect transistors, and integrated circuits.
- Demonstrate the ability to prepare reports that include text, tables, and spreadsheets using productivity software on a computer.

**Certificate of Performance: Electronics Technician Level I**
Certificate of Performance for entry level electronics technician.

Associate in Science Degree: Electronics

Electronic Microprocessor/ Microcontroller Design Option

An Associate in Science Degree may be earned in Electronic Microprocessor/Microcontroller Design Option. Complete the appropriate Certificate of Achievement in Electronic Systems and adds: Electronic Systems 230, 230L, 231.

Courses Required for the Major: Units
Complete all the requirements for the Certificate of Achievement, Electronic Microprocessor/ Microcontroller Design Option, 38.5

Total Units = 38.5

Additional general education and graduation requirements for the associate degree are listed in the catalog ACADEMIC REQUIREMENTS section. The associate degree requires a minimum of 60 units.

Transfer Information
Common university majors related to the field of Electronics include: Industrial Engineering, Industrial Technology.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Electronic Systems (ELDT)

100 Electronic Assembly and Certification
2 hours lecture, 6 hours lab, 4 units
Grade Only

Advisory: English 42 and English 43 and Mathematics 38, each with a grade of “C” or better or equivalent, or Assessment Skills Levels W4 and R4 and M30.

Limitation on Enrollment: This course is not open to students with credit for Electronic Systems 110 or Digital Technology 100.

This is a combination electronic survey and electronic assembly course. Using a modular approach, students are systematically promoted from one electrical concept to the next. Topics include D.C. electronics, A.C electronics, semiconductors, power supplies, amplifiers, oscillators, digital gates, and fiber optics (FT) AA/AS; CSU.

123 Introduction to Digital Circuits
3 hours lecture, 3 units
Grade Only

Advisory: Concurrent enrollment in Electronic Systems 123L.
Limitation on Enrollment: This course is not open to students with credit for Electronic Systems 220, 223 or Digital Technology 223.

This course is an introduction to digital technology with an emphasis on understanding, constructing and troubleshooting integrated circuits. Course content includes number systems and codes, truth tables, Boolean functions, combinatorial logic, registers, counters and device characteristics. (FT) AA/AS; CSU.

123L Digital Circuits Laboratory
3 hours lab, 1 unit
Grade Only
Advisory: Concurrent enrollment in Electronic Systems 123.
Limitation on Enrollment: This course is not open to students with credit for Electronic Systems 222A, 223L or Digital Technology 223L.
This laboratory course is designed to demonstrate the concepts studied in Electronic Systems 123 and to familiarize students with a variety of digital electronic components and circuits. Emphasis is placed on developing students’ skills in designing, analyzing and constructing simple logic circuits including basic digital blocks, combinational networks, and sequential networks. (FT) AA/AS; CSU.

124 Basic DC Electronics
4 hours lecture, 4 units
Grade Only
Advisory: Mathematics 96 or 98, with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and Electronic Systems 124 and 124L, each with a grade of “C” or better, or equivalent.
Advisory: Concurrent enrollment in: Electronic Systems 125L
Limitation on Enrollment: This course is not open to students with previous credit for Digital Technology 125.
This course is a study of basic electricity and electrical circuit concepts. Course material includes Ohm’s and Kirchhoff’s Laws, mesh and nodal analysis, Superposition Theorem, Thevenin’s and Norton’s Theorems. Throughout the course, students apply the concepts of basic electronics to solve problems commonly found in industrial settings. This course is designed for students interested in learning DC electronics. (FT) AA/AS; CSU.

124L Basic DC Laboratory
3 hours lab, 1 unit
Grade Only
Advisory: Mathematics 96 or 98 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50.
Advisory: Concurrent enrollment in: Electronic Systems 124
Limitation on Enrollment: This course is not open to students with previous credit for Electronics 121A or Digital Technology 124L.
This laboratory course demonstrates the basic concepts of electricity and electrical circuits and familiarizes students with various electronic components and circuits. Course content is designed to develop students skills in reading schematic diagrams, fabricating simple circuits and safely using basic test equipment for measuring and troubleshooting. Equipment used in this lab includes voltmeter, ammeter, power supply, and digital multimeters (DMMs), and power supplies. This course is designed for students interested in acquiring laboratory skills in DC electronics. (FT) AA/AS; CSU.

125 AC Circuit Analysis
4 hours lecture, 4 units
Grade Only
Advisory: Mathematics 96 or 98, with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and Electronic Systems 124 and 124L, each with a grade of “C” or better, or equivalent.
Advisory: Concurrent enrollment in: Electronic Systems 125L
Limitation on Enrollment: This course is not open to students with previous credit for Digital Technology 125.
This course is a study of alternating current (AC) electronic concepts. Course material includes the study of inductor and capacitor transients in direct current (DC) circuits, alternating current (AC) electronic basics, impedance, phasors, power and energy in series, parallel and combination circuits, network theorems, transformers, passive filters and response curves. This course is designed for students interested in learning AC electronics. (FT) AA/AS; CSU.

125L DC/AC Circuit Analysis Laboratory with Pspice
3 hours lab, 1 unit
Grade Only
Advisory: Mathematics 96 or 98, with a grade of “C” or better, or equivalent, or Assessment Skill Level M50;
and Electronic Systems 124 and 124L, each with a grade of “C” or better, or equivalent. 
Advisory: Concurrent enrollment in: Electronic Systems 125
Limitation on Enrollment: This course is not open to students with previous credit for Digital Technology 125L.
This laboratory course demonstrates the basic concepts of hands-on and computer-assisted direct current and alternating current (DC/AC) circuit analysis. Equipment used in this course includes oscilloscopes, frequency counters, function generators, digital multimeters (DMM) and microcomputers utilizing industry standard software applications (PSpice). This course is designed for students interested in learning PSpice and acquiring laboratory skills in AC electronics. (FT) AA/AS; CSU.

126 Using C and C++ for Technology
3 hours lecture, 3 units
Grade Only
Advisory: Concurrent enrollment in Electronic Systems 126L.
This course is an introduction to the C and C++ programming languages as they apply to the analysis of the theoretical concepts of electronic technology. The course is structured around a variety of prepared programming assignments that emphasize problem solving techniques and use of the computer as a problem solving tool with applications in electronics. Students work with state of the art and industry standard microcomputers, hardware, software application programs, and compilers. This course is designed as preparation for majors in the field of Electronics. (FT) AA/AS; CSU.

126L Using C and C++ for Technology Laboratory
3 hours lab, 1 unit
Grade Only
Advisory: Concurrent enrollment in Electronic Systems 126.
This course provides the laboratory component to the study of C and C++ programming languages as they apply to the analysis of the theoretical concepts of electronic technology. The course is structured around a variety of prepared programming assignments that emphasize problem solving techniques and use of the computer as a problem solving tool with applications in electronics. Students work with state of the art and industry standard microcomputers, hardware, software application programs and compilers. This course is designed as preparation for majors in the field of Electronics. (FT) AA/AS; CSU.

143 Semiconductor Devices
3 hours lecture, 3 units
Grade Only
Advisory: Electronic Systems 124 and 124L, each with a grade of “C” or better, or equivalent; and Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 143L.
Limitation on Enrollment: This course is not open to students with credit for Electronics Technology 142A or Digital Technology 143.
This course is an introductory study of the characteristics and operation of semiconductor devices and their associated circuitry. Emphasis is placed on junction diodes, bipolar-junction transistors, power supplies, feedback, linear integrated circuits (ICs), multistage amplifiers, push-pull amplifiers, junction field-effect transistors (JFETs), metal oxide semiconductor field-effect transistors (MOSFETs) and PSpice analysis. (FT) AA/AS; CSU.

143L Semiconductor Devices Laboratory
4.5 hours lab, 1.5 units
Grade Only
Advisory: Electronic Systems 124 and 124L, each with a grade of “C” or better, or equivalent; and Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 143.
Limitation on Enrollment: This course is not open to students with credit for Electronics Technology 142A or Digital Technology 143L.
This laboratory course focuses on the theoretical concepts of electronic devices and circuits through practical experimentation, PSpice analysis and computer simulation. Course content and materials include circuit operation, testing, troubleshooting and measurement of diodes, transistors and field-effect transistors (FETs), the use of computer-aided engineering software, microcomputers, oscilloscopes, digital multimeters (DMMs), function generators, and power supplies. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
144 OP-AMPS, Sensors and Computers
3 hours lecture, 3 units
Grade Only
Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 144L; and completion of or concurrent enrollment in Electronic Systems 143 and 143L, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Digital Technology 144. This course is a study of operational amplifier theory and circuit applications. Course content emphasizes sensors, transducers, data conversions, and the associated circuitry necessary to condition outputs for interface to a computer. Applications to analog-to-digital and digital-to-analog conversions, optical sensors, displacement transducers and instrumentation devices are included. This course is designed as preparation for majors in the field of Electronics. (FT) AA/AS; CSU.

144L OP-AMPS and Sensors Laboratory
4.5 hours lab, 1.5 units
Grade Only
Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 144; and completion of or concurrent enrollment in Electronic Systems 143 and 143L, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Digital Technology 144L. This course provides the laboratory component to the study of operational amplifier theory and circuit applications. Course content emphasizes sensors, transducers, data conversions and the associated circuitry necessary to condition outputs for interface to a computer. Applications to analog-to-digital and digital-to-analog conversions, optical sensors, displacement transducers and instrumentation devices are included. This course is designed as preparation for majors in the field of Electronics. (FT) AA/AS; CSU.

198 Computer Applications in Electronics
2 hours lecture, 3 hours lab, 3 units
Grade Only
Limitation on Enrollment: This course is not open to students with credit for Digital Technology 198. This course is a presentation of computer applications in electronics through specific software and hardware currently utilized in local in electronics business and industry. (FT) AA/AS; CSU.

224 Microprocessor Design
3 hours lecture, 3 units
Grade Only
Advisory: Completion of or concurrent enrollment in Electronic Systems 123 and Electronic Systems 123L, each with a grade of “C” or better, or equivalent concurrent enrollment in Electronic Systems 224. This course is an applied study of digital circuits in microcomputer systems. Throughout the course, students examine the overall architecture of microcomputer systems, the interfacing of memory and input/output (I/O) devices, and machine language programming for the Z-80 microprocessor. (FT) AA/AS; CSU.

224L Microprocessor Design Laboratory
4.5 hours lab, 1.5 units
Grade Only
Advisory: Completion of or concurrent enrollment in Electronic Systems 123 and Electronic Systems 123L, each with a grade of “C” or better, or equivalent concurrent enrollment in Electronic Systems 224. This laboratory course demonstrates the application of digital circuits in microprocessor systems. Course content includes assembly of printed circuit boards, troubleshooting of microprocessor-based designs and software/firmware design and troubleshooting. (FT) AA/AS; CSU.

225 Microcontrollers
3 hours lecture, 3 units
Grade Only
Corequisite: Completion of or concurrent enrollment in: Electronic Systems 123, 124 and 225L, each with a grade of “C” or better, or equivalent.
Advisory: Mathematics 107 with a grade of “C” or better, or equivalent.
This course focuses on the fundamentals of both the hardware and software aspects of the microcontroller. Typical devices that are connected to the microcontroller are: switches, light emitting diodes, seven segment displays, stepper motors and a matrix keypad. An engineering evaluation board is used as the development system for the controller. Structured programming and flow charts are emphasized. Code is written in assembly language, compiled and then downloaded to the controller. This course is intended for students majoring in Engineering Technology. (FT) AA/AS; CSU.
225L Microcontrollers Laboratory
4.5 hours lab, 1.5 units
Grade Only

Corequisite: Completion of or concurrent enrollment in: Electronic Systems 123L, 124L and 225, each with a grade of “C” or better, or equivalent.
This laboratory demonstrates microcontroller applications. The course emphasizes microcontroller construction, design, programming and troubleshooting. Students conduct the laboratory with a software development kit (SDK) and microcontroller trainer equipment. (FT) AA/AS; CSU.

227 Introduction to Lasers and Fiber Optics
3 hours lecture, 3 units
Grade Only

Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 227L; and completion of or concurrent enrollment in Electronic Systems 124 and 124L, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Digital Technology 144.
This course is an introductory study of lasers, optical power meters, and laser systems designed to familiarize students with various industry supported lasers/fiber optics families. Emphasis is placed on providing students with a working knowledge of lasers and the ability to troubleshoot in the field. Topics covered include the properties of light, emission and absorption of light, lasing action, the temporal and spatial characteristics of lasers, optical energy, optical fibers, light sources, light receivers, fiber optic geometry, alignment and splicing techniques, communication links, and fiber optic system design. (FT) AA/AS; CSU.

227L Lasers and Fiber Optics Laboratory
3 hours lab, 1 unit
Grade Only

Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 227; and completion of or concurrent enrollment in Electronic Systems 124 and 124L, each with a grade of “C” or better, or equivalent.
This laboratory course is designed to familiarize students with the elements and operation of lasers, optical power meters, and laser and fiber optics systems through experiments and projects conducted individually and in groups. This course provides students with the opportunity to enhance and further investigate the concepts presented in Electronic Systems 227. (FT) AA/AS; CSU.

228 Communication Circuits
3 hours lecture, 3 units
Grade Only

Advisory: Mathematics 96 or 98, with a grade of “C” or better, or equivalent, or Assessment Skill Level M50.
Advisory: Concurrent enrollment in: Electronic Systems 228L.
Advisory: Completion of or concurrent enrollment in: Electronic Systems 143, 143L, 144 and 144L, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Digital Technology 228.
This course is a study of basic communication theory, circuitry, and troubleshooting including transmission and reception of Amplitude Modulated (AM), Frequency Modulated (FM), and digital signals. The course is intended for students seeking careers in radio, TV and digital data communication technology, and the telecommunication industry. (FT) AA/AS; CSU.

228L Communication Circuits and Certification Laboratory
3 hours lab, 1 unit
Grade Only

Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 228; and completion of or concurrent enrollment in Electronic Systems 143, 143L, 144, and 144L, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Digital Technology 228L.
This laboratory course is a verification of the theoretical concepts of communication theory and mastery of the basic electronic instruments used in industry. This course is designed to prepare students to take the Associate Electronics Technician (CET) and the 3rd Class Radio Telecommunications Technician (NARTE) examinations. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
229 Advanced Telecommunications Networks

3 hours lecture, 3 units
Grade Only

Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 229L; and completion of or concurrent enrollment in Electronic Systems 126, 126L, 228, and 228L, each with a grade of “C” or better, or equivalent.
This course is a project-oriented course that focuses on local, metropolitan, and wide-area network hardware system design, installation, maintenance and troubleshooting. Hardware topics presented include topologies, transmission media, access and interfacing techniques. Hardware technologies utilized include Fiber Distributed Data Interface (FDDI), Asynchronous Transfer Mode (ATM), Fast Internet and Token Ring. This course prepares students to take the Network Plus exam. (FT) AA/AS; CSU.

229L Advanced Telecommunications Networks Laboratory

3 hours lab, 1 unit
Grade Only

Advisory: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50; and concurrent enrollment in Electronic Systems 229; and completion of or concurrent enrollment in Electronic Systems 126, 126L, 228, and 228L, each with a grade of “C” or better, or equivalent.
This is a team project-oriented course that familiarizes students with the hardware and software needed to establish, run, and maintain advanced telecommunications networks at the local, metropolitan, and wide-area levels. (FT) AA/AS; CSU.

230 Advanced Computer Designs

3 hours lecture, 3 units
Grade Only

Advisory: Concurrent enrollment in Electronic Systems 230L; and completion of or concurrent enrollment in Electronic Systems 224 and 224L, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Digital Technology 231.
This course is a continuation of the study of microprocessors and their support families. Course material emphasizes peripheral chips and various microprocessors that work together to add intelligence to modern electronic equipment. This course is designed to expose students to common usage microprocessor devices in order to gain a working knowledge of I/O techniques and to be able to troubleshoot in the field. (FT) AA/AS; CSU.

230L Advanced Computer Designs Laboratory

3 hours lab, 1 unit
Grade Only

Advisory: Concurrent enrollment in Electronic Systems 230; and completion of or concurrent enrollment in Electronic Systems 224 and 224L, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Digital Technology 230L.
This is a practical course designed as a verification of the student’s understanding of the theoretical concepts of computer and microprocessor based designs through construction and testing of a complete microcomputer system. Throughout the course, students work with several pieces of electronic test equipment currently used in the industry in order to build and troubleshoot their projects. Students are expected to locate and purchase necessary components and breadboarding materials. (FT) AA/AS; CSU.

231 Advanced System Interfacing

3 hours lecture, 3 units
Grade Only

Advisory: Electronic Systems 224 and 224L, each with a grade of “C” or better, or equivalent; and concurrent enrollment in Electronic Systems 230 and 230L.
Limitation on Enrollment: This course is not open to students with credit for Digital Technology 231.
This course is a continuation of the study of microprocessors and their support families. Course material emphasizes peripheral chips and various microprocessors that work together to add intelligence to modern electronic equipment. This course is designed to expose students to common usage microprocessor devices in order to gain a working knowledge of I/O techniques and to be able to troubleshoot in the field. (FT) AA/AS; CSU.
Machine Technology

Description
The Machine Technology program offers a variety of instruction in the process of modern manufacturing. Emphasis is placed on CAD/CAM and C.N.C. technology.

Program Emphasis
The Machine Technology program prepares students for C.N.C. machining and is also ideal for students who need to upgrade prior machine shop training to comply with the current needs of industry.
MACT 172  Application of CNC Controlled
Vertical Machining and Electrical
Discharge Machining (EDM) II 2

Total Units = 16

*A Certificate of Performance is a departmental
award that does not appear on the student’s
transcript. All courses must be completed within the
San Diego Community College District.

Certificate of Performance:
C.N.C. Technology Option*

Courses: Units
MACT 140  Machine Technology 4
MACT 150  Intro/Computer Num Control (CNC)
and Elec Dis Mach 4
MACT 160M  Introduction to CAD/CAM 4

Total Units = 12

*A Certificate of Performance is a departmental
award that does not appear on the student’s
transcript. All courses must be completed within the
San Diego Community College District.

Certificate of Achievement:
Machine Technology

Computer Numerical Control (CNC)
Technology Option

Courses Required for the Major: Units
MACT 140  Machine Technology 4
MACT 150  Intro/Computer Num Control (CNC)
and Elec Dis Mach 4
MACT 170  Introduction to CNC Controlled
Vertical Machining 4
MACT 171  Application of CNC Controlled Vertical
and Electrical Discharge Machining (EDM) I 2
MACT 172  Application of CNC Controlled Vertical
Machining and Electrical Discharge
Machining (EDM) II 2

Complete the following additional courses
required for the major:
MACT 161M  Applications of CAD/CAM I 2
MACT 162M  Applications of CAD/CAM II 2
MACT 180M  Advanced CAD/CAM 4
MACT 181M  Application in Advanced CAD/CAM I 2
MACT 182M  Application in Advanced CAD/CAM II 2

and the following C.N.C. Technology Option
certificate of achievement course:
MACT 160M  Introduction to CAD/CAM 4

Total Units = 32

Recommended First Semester Enrollment:
MACT 140, Machine Technology
MACT 150, Intro to CNC & EDM
MACT 160M, Intro to CAD/CAM
MACT 161M, Applications of CAD/CAM I

Associate in Science Degree:
Machine Technology

Computer Aided Manufacturing (CAM)
Option

An Associate in Science Degree may be earned in
Computer Aided Manufacturing Option. Complete
the Computer Aided Manufacturing Option
Certificate of Achievement as specified above (32
units).

Courses required for the Major: Units
MACT 140  Machine Technology 4
MACT 150  Intro/Computer Num Control (CNC)
and Elec Dis Mach 4

Recommended First Semester Enrollment:
MACT 140, Machine Technology
MACT 150, Intro to CNC & EDM
MACT 160M, Intro to CAD/CAM
MACT 161M, Applications of CAD/CAM I
MACT 170  Introduction to CNC Controlled Vertical Machining  4
MACT 171  Application of CNC Controlled Vertical and Electrical Discharge Machining (EDM) I  2
MACT 172  Application of CNC Controlled Vertical Machining and Electrical Discharge Machining (EDM) II  2

Complete the following additional Computer Aided Manufacturing Option certificate of achievement courses:
MACT 161M  Applications of CAD/CAM I  2
MACT 162M  Applications of CAD/CAM II  2
MACT 180M  Advanced CAD/CAM  4
MACT 181M  Application in Advanced CAD/CAM I  2
MACT 182M  Application in Advanced CAD/CAM II  2

and the following C.N.C. Technology Option certificate of achievement course:
MACT 160M  Introduction to CAD/CAM  4

Total Units = 32

Recommended First Semester Enrollment:
MACT 140, Machine Technology
MACT 150, Intro to CNC & EDM
MACT 160M, Intro to CAD/CAM
MACT 161M, Applications of CAD/CAM I

Courses

Machine Technology (MACT)

MACT 140 Machine Technology  
3 hours lecture, 3 hours lab, 4 units  
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; and completion of or concurrent enrollment in Mathematics 46 with a grade of “C” or better, or equivalent, or Assessment Skill Level M40.

This course is an introduction to the Machine Technology field. Emphasis is placed on safety, measurements, common formulas, machining applications, drawings, and career opportunities in the field. This course is designed for students planning to major in the occupational field of machine technology. (FT) AA/AS; CSU.

MACT 150 Introduction to Computer Numerical Control (CNC) and Electrical Discharge Machining (EDM)  
3 hours lecture, 3 hours lab, 4 units  
Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.

This course is a study of advanced machining techniques including numerically controlled mills and lathes and electro-discharging machining. Emphasis is placed on introducing the student to Computer Numerical Control (CNC) programming using “G” and “M” codes. This course is designed for students majoring in Machine Technology and with previous machine laboratory experience. (FT) AA/AS; CSU.

MACT 160M Introduction to CAD/CAM  
3 hours lecture, 3 hours lab, 4 units  
Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and concurrent enrollment in Machine Technology 161M. This course is an introductory, hands-on study of Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) theory and applications using Mastercam software. Emphasis is placed on generating programs at a basic level for both the Computer Numerical Control (CNC) Mill and CNC Lathe. (FT) AA/AS; CSU.

MACT 161M Applications of CAD/CAM I  
6 hours lab, 2 units  
Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 160M with a grade of “C” or better, or equivalent.

This course presents students with intermediate-level Computer Aided Design/Computer Aided Manufacturing CAD/CAM projects dealing with Computer Numerical Control (CNC) program generation for the CNC Mill and CNC Lathe using Mastercam software. Students at this level work

| AA/AS = Associate Degree Applicable |
| CSU = California State University Applicable |
| UC = University of California Applicable |
under moderate instructor supervision to increase efficiency and quality of work. (FT) AA/AS; CSU.

162M Applications of CAD/CAM II
6 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 161M with a grade of “C” or better, or equivalent.
This course presents students with advanced-level Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) exercises dealing with Computer Numerical Control (CNC) program generation for the CNC Mill and CNC Lathe using Mastercam. Students at this level work with minimal instructor supervision to increase efficiency and quality of work. (FT) AA/AS; CSU.

170 Introduction to CNC Controlled Vertical Machining
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 150 with a grade of “C” or better, or equivalent.
This course is an introductory, hands-on study Computer Numerical Control (CNC) Vertical Machining theory and techniques. Emphasis is placed on Vertical Machining basic operations and Electrical Discharge Machining (EDM). (FT) AA/AS; CSU.

171 Application of CNC Controlled Vertical and Electrical Discharge Machining (EDM) I
6 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 170 with a grade of “C” or better, or equivalent.
This laboratory course provides exercises in Computer Numerical Control (CNC) Vertical Machining techniques and Electrical Discharge Machining (EDM) at an intermediate level. Students at this level work under moderate instructor supervision to increase efficiency and quality of work. (FT) AA/AS; CSU.

172 Application of CNC Controlled Vertical Machining and Electrical Discharge Machining (EDM) II
6 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 171 with a grade of “C” or better, or equivalent.
This laboratory course provides exercises in Computer Numerical Control (CNC) Vertical Machining techniques and Electrical Discharge Machining (EDM) at an advanced level. Students at this level work under minimal instructor supervision to increase efficiency and quality of work. (FT) AA/AS; CSU.

180M Advanced CAD/CAM
3 hours lecture, 3 hours lab, 4 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 160M with a grade of “C” or better, or equivalent.
This course is an advanced, hands-on study of Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) theory and applications using Mastercam software. Emphasis is placed on generating programs using advanced modeling surface techniques for both the Computer Numerical Control (CNC) Mill and CNC Lathe at a beginning level under direct instructor supervision. (FT) AA/AS; CSU.

181M Application in Advanced CAD/CAM I
6 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 180M with a grade of “C” or better, or equivalent.
This course is an advanced, hands-on study of Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) theory and applications
using Mastercam software. Emphasis is placed on generating programs using advanced modeling techniques for both the Computer Numerical Control (CNC) Mill and CNC Lathe at an intermediate level under moderate instructor supervision. (FT) AA/AS; CSU.

182M Application in Advanced CAD/CAM II
6 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40; and completion of or concurrent enrollment in Machine Technology 181M with a grade of “C” or better, or equivalent.
This course is an advanced, hands-on study of Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) theory and applications using Mastercam software. Emphasis is placed on generating programs using advanced surface modeling techniques for both the Computer Numerical Control (CNC) Mill and CNC Lathe at an advanced level under minimal instructor supervision. (FT) AA/AS; CSU.

290 Independent Study in Machine Technology
Hours by Arrangement, 1 - 3 units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
For advanced students in machine technology who wish to pursue problems and projects relating to their particular subject area. The student meets with the instructor at specific intervals and is expected to do primary research, analyze problems and submit reports. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Manufacturing Engineering Technology

Description
Manufacturing Engineering Technology (MFET) program provides students the opportunity to acquire highly valued skills in an innovative, hands-on learning environment. The program features integrating experiences through which students participate in all aspects of a manufacturing enterprise, from materials and processes to safety, design, automation, quality and lean manufacturing. Armed with these skills, MFET graduates can pursue rewarding, growth-oriented careers in such diverse industries as plastics, automotive, biomedical, electronics, aerospace, machining and other high-value manufacturing sectors.

Program Emphasis
MFET program has two options: Electronics and Fabrication. Upon successful completion of the program, students will be able to: A) For the Electronics Option: (1) Utilize and operate various test equipment, and use measurement results to support product development; (2) Demonstrate the knowledge of design tools used in electronics industry for product development; (3) Identify and apply quality control tools used in electronics manufacturing industry; (4) Explain and apply the fundamentals of electronics applications and theory; (5) Describe different types of materials, process flows, equipment and techniques used to manufacture electronics products. B) For the Fabrication Option: (1) Identify and utilize CAD/CAM (Computer-Aided Design/Computer-Aided Manufacturing) applications in various manufacturing processes; (2) Explain product design to optimize manufacturing efficiency; (3) Identify and apply quality control tools and instruments used in a manufacturing environment; (4) Demonstrate proficiency in programming and operation of NC/CNC (Numerical Control/Computer Numerical Control) equipment; (5) Describe different types of materials, process flows, equipment and techniques used in manufacturing.

Statement of Goals
The Manufacturing Engineering Technology (MFET) program is developed with two specific goals: 1)
To train students with a high level of technical and non-technical skills, and prepare them for the highly competitive world of today’s manufacturing. 2) To provide a continuous path for students to acquire a firm foundation of skills and knowledge in the field of manufacturing, transfer successfully to a 4-year college or university.

Faculty  Office  Telephone
David Fierro  A-107E  619-388-3731

Career Options
Areas of employment include manufacturing engineering or engineering technician, manufacturing operation management, equipment maintenance and troubleshooting, quality and production control, production planning, and automation. All MFET major courses are transferable to 4-year colleges/universities. MFET graduates may also further their education by transferring to a number of four-year colleges and universities.

Student Learning Outcomes

MFET Option 1: Electronics Manufacturing
Upon successful completion of the Manufacturing Engineering Technology program with the option in Electronics Manufacturing, the student will be able to:

- Utilize, operate and measure the results of various test equipment to support product development.
- Demonstrate the knowledge of design tools used in electronics industry for product development.
- Identify and apply quality control tools used in electronics manufacturing industry.
- Explain and apply the fundamentals of electronics applications and theory.
- Describe different types of materials, process flows, equipment and techniques used to manufacture electronics products.

MFET Option 2: Fabrication Manufacturing
Upon successful completion of the Manufacturing Engineering Technology program with the option in Fabrication Manufacturing, the student will be able to:

- Identify and utilize CAD/CAM applications in various manufacturing processes.
- Explain product design to optimize manufacturing efficiency.
- Identify and apply quality control tools and instruments used in a manufacturing environment.
- Demonstrate proficiency in programming and operation of NC/CNC equipment.
- Describe different types of materials, process flows, equipment and techniques used in manufacturing.

Academic Programs
The certificates of performance and achievement and associate degree require completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Certificate of Performance: Introduction to Manufacturing*
This certificate prepares students with necessary skills, knowledge and experience to continue on with the coursework and projects in MFET program.

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Certificate of Performance: Manufacturing Fundamentals*
The Certificate of Performance on Manufacturing Fundamentals provides fundamental knowledge for students to enter the workforce in a manufacturing field.
Courses:  
MFET 101  Introduction to Manufacturing Engineering Technology or  
MFET 101A  Introduction to Manufacturing I and  
MFET 101B  Introduction to Manufacturing II and  
MFET 101C  Introduction to Manufacturing III  

Units:  
3

Courses:  
MFET 105  Print Reading and Symbology or  
MFET 105A  Print Reading I and  
MFET 105B  Print Reading II or  
ENGN 130  Introduction to Engineering Design and  
MFET 105B  Print Reading II  

Units:  
3 - 4.5

Total Units = 13 - 14.5

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Certificate of Performance: Advanced Manufacturing*

The Certificate of Performance in Advanced Manufacturing furthers student’s knowledge with the innovative experience and exposure to modern manufacturing practices.

Courses:  
MFET 110  Industrial Safety  
MFET 150  Manufacturing Automation or  
MFET 150A  Manufacturing Automation I and  
MFET 150B  Manufacturing Automation II  
MFET 210  Statistical Process Control  
MFET 230  Lean Manufacturing  

Units:  
2  
3  
3  
3  

Total Units = 11

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Certificate of Performance: Lean Six Sigma*

This certificate covers topics in quality, lean and six sigma, with both theoretical and hands-on training contents. The certificate prepares students for quality-related jobs, and also for taking the six sigma green belt or other quality-related certification.

Courses:  
MFET 210  Statistical Process Control  
MFET 230  Lean Manufacturing  
MFET 240  Six Sigma and Lean Implementation  

Units:  
3  
3

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.
The courses for this certificate include the courses which make up the Certificate of Performance in Advanced Manufacturing and the Certificate of Performance in Manufacturing Fundamentals as well as additional courses.

**Certificate of Achievement: Manufacturing Engineering Technology**

**Fabrication Manufacturing**

The Certificate of Achievement in Fabrication Manufacturing focuses in the manufacturing of non-electronic devices and related products.

Courses

Manufacturing Engineering Technology (MFET)

55 Metal Cutting Processes for Welding
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course is a practical study of metal cutting processes for the welding trades. Emphasis is placed on instruction in oxygen/fuel and plasma arc cutting techniques used in the field of welding. This course is designed for students planning to enter the welding field. (FT) AA/AS.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
60 Shielded Metal Arc Welding Process (SMAW)

3 hours lecture, 3 units
Pass/No Pass Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course provides instruction on the process and principles of Shielded Metal Arc Welding (SMAW). Emphasis is placed on the use of electrodes and basic joints in the welding trades according to the American Welding Society standards. This course is designed for students working or planning on working in the welding trades. (FT) AA/AS.

101 Introduction to Manufacturing Engineering Technology

3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering Technology 101A or 101B or 101C.

This course is designed for students who are interested in the field of Manufacturing Engineering Technology (MFET). The course introduces manufacturing principles, including manufacturing systems, design concepts, process and material selection, computer-integrated manufacturing, quality control and management, global competitiveness and manufacturing costs, safety and environmental concerns. It also provides an overview of the MFET program structure, job perspectives for graduates, salary ranges and various career options in manufacturing. (FT) AA/AS; CSU.

101A Introduction to Manufacturing I

1 hour lecture, 1 unit
Grade Only

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering Technology 101 or Engineering Technology 120.

This project-based module is designed for high school and entry college students who might be interested in the field of Manufacturing Engineering Technology (MFET). The module discusses common manufacturing terminologies, current business trends, and design process involved with product and process development. It also provides an overview of the MFET program, job perspectives for graduates, salary ranges and various career options in manufacturing. (FT) AA/AS; CSU.

101B Introduction to Manufacturing II

1 hour lecture, 1 unit
Grade Only

Prerequisite: Manufacturing Engineering Technology 101A or Engineering Technology 120, each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering Technology 101.

This project-based module is designed for high school and entry college students who might be interested in the field of Manufacturing Engineering Technology. The module introduces manufacturing principles in a product realization process, automation, quality control and management, and lean manufacturing. (FT) AA/AS; CSU.

101C Introduction to Manufacturing III

1 hour lecture, 1 unit
Grade Only

Prerequisite: Manufacturing Engineering Technology 101B with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering Technology 101.

This project-based module is designed for high school and entry college students who might be interested in the field of Manufacturing Engineering Technology. The module introduces environmental and safety rules, regulations and practices in manufacturing enterprises. In this module, students also apply previous knowledge and training in manufacturing engineering technology to work in teams, build robots that are capable of performing various challenging tasks and compete at the end of the module. (FT) AA/AS; CSU.

105 Print Reading and Symbology

3 hours lecture, 3 units
Grade Only

Advisory: English 49 and Mathematics 38, each with a grade of “C” or better, or equivalent or Assessment Skill Level W5 and M30.

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering 105A or 105B, or Engineering 108.

This course is a study of the types of symbols and engineering notations used for mechanical, electrical, electronic, hydraulic and pneumatic diagrams, as well as precision sheet metal drawings and welding specifications. Other topics include scales, precision measurement instruments, geometric dimensioning and tolerancing (GD&T).
Actual drawings are used to demonstrate concepts and practice in interpreting the symbols and notations. This course is designed for students who are currently working in a manufacturing plant or pursuing a career in an engineering or technology field. (FT) AA/AS; CSU.

**105A Print Reading I**

1.5 hours lecture, 1.5 units  
Grade Only

*Advisory:* Mathematics 38 with a grade of "C" or better, or equivalent, or Assessment Skill Level M30.  
*Limitation on Enrollment:* This course is not open to students with previous credit for Manufacturing Engineering Technology 105 or Engineering Technology 124 or 130. This project-based module teaches student basic sketching techniques, print layout, views, and fundamentals of working and pictorial drawings. Students also learn drawing and annotation standards for different mechanical parts, the principles of dimensioning and tolerancing and their applications and practices in industrial prints. The module is designed for students who are interested in studying manufacturing. (FT) AA/AS; CSU.

**105B Print Reading II**

1.5 hours lecture, 1.5 units  
Grade Only

*Prerequisite:* Manufacturing Engineering Technology 105A or Engineering Technology 124 or 130, each with a grade of "C" or better, or equivalent.  
*Limitation on Enrollment:* This course is not open to students with previous credit for Manufacturing Engineering Technology 105. This project-based module teaches student different types of scales, precision measurement instruments, methods for geometric tolerancing. Students also learn to interpret symbols and notes on electrical and electronic diagrams, precision sheet metal drawings and welding specifications. Module includes a final project in which students work in teams to generate a print for a part using different drafting symbols, notes, specifications and standards learned throughout the print reading modules. This module is designed for students who are interested in studying manufacturing. (FT) AA/AS; CSU.

**107 Introduction to Manufacturing Project**

0.5 hours lecture, 1.5 hours lab, 1 unit  
Letter Grade or Pass/No Pass Option

*Prerequisite:* Manufacturing Engineering Technology 101 or 101C, each with a grade of "C" or better, or equivalent; and Manufacturing Engineering Technology 105 or 105B, with a grade of "C" or better, or equivalent.

This course provides students the opportunity to apply a combination of skills and knowledge acquired in Manufacturing Engineering Technology (MFET) 101 and 105 courses to solve an industrial manufacturing problem. Students work together in groups to address an integrated, technical problem selected by industry and/or program faculty. Topics cover the fundamental principles of manufacturing, such as production stages, design, quality, lean manufacturing, automation and manufacturing prints. This course is designed for students as preparation to enter the manufacturing engineering technology field. (FT) AA/AS; CSU.

**110 Industrial Safety**

2 hours lecture, 2 units  
Letter Grade or Pass/No Pass Option

*Advisory:* English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5. The course is a study of safety fundamentals in an industrial environment and their relationship to accident prevention. It introduces students to the Occupational Safety and Health Administration (OSHA) policies, procedures and standards for industries. Course topics include electrical safety, hazardous materials and conditions, fire protection, tools and machines, welding and cutting, personal protective equipment, hazard communication, construction, ergonomics and industrial hygiene. This course is designed for students who are currently or will be working in construction or general industries. Upon successful course completion, students may receive an OSHA 30-hour Construction or General Industry Outreach Training Completion Card. (FT) AA/AS; CSU.

**115 Properties of Materials**

2.5 hours lecture, 1.5 hours lab, 3 units  
Grade Only

*Advisory:* English 48 and English 49 and Mathematics 46, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5, W5 and M40; Engineering Technology 110 with a grade of "C" or better, or equivalent.

CSU = California State University Applicable  
UC = University of California Applicable
This lecture/lab course is a study of the chemical, physical and mechanical properties of industrial materials including metals, ceramics, polymers and composites. The course emphasizes the processes and tests used with different industrial materials during the manufacturing cycles. It also discusses function and structure as they relate to specific design considerations. This course is designed for students who are currently working in a manufacturing plant or pursuing a career in engineering and technology fields. (FT) AA/AS; CSU.

120 Manufacturing Processes
3 hours lecture, 3 hours lab, 4 units
Grade Only

Corequisite: Completion of or concurrent enrollment in: Manufacturing Engineering Technology 115 or Engineering 210, with a grade of “C” or better, or equivalent.

Advisory: Completion of or concurrent enrollment in: Engineering 111 or 151 or Technical Illustration 101 or Engineering Technology 130, with a grade of "C" or better, or equivalent.

This lecture/lab course provides basic understanding of how raw materials, including metals, polymers, ceramics and composites, are converted to finished products. In this course, students study commonly used and advanced manufacturing processes, understand the pros & cons of different industrial techniques. Students also learn key terms in manufacturing, and identify various types of equipment in common manufacturing processes. This course is designed for students who are pursuing a career in engineering or engineering technology fields, or working in a manufacturing industry. (FT) AA/AS; CSU.

150 Manufacturing Automation
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Manufacturing Engineering Technology 120 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering Technology 150A or Engineering Technology 126.

This project-based module introduces students to the principles of manufacturing automation, computer-integrated manufacturing (CIM) which includes process and machine control, programmable logic controllers and robotics. Students also learn different applications of automation to improve quality and productivity in manufacturing industries. This module is designed for students who are interested in modern manufacturing. (FT) AA/AS; CSU.

150A Manufacturing Automation I
1 hour lecture, 1.5 hours lab, 1.5 units
Grade Only

Prerequisite: Manufacturing Engineering Technology 101 or 101C or 120 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering Technology 150 or Engineering Technology 126.

This project-based module covers additional automation topics and applications in manufacturing industry, including sensors and actuators, part handling and assembly. Students also learn the concepts of group technology, flexible manufacturing systems and their applications. This module is designed for students who like to gain further knowledge and experience in modern manufacturing practices. (FT) AA/AS; CSU.

150B Manufacturing Automation II
1 hour lecture, 1.5 hours lab, 1.5 units
Grade Only

Prerequisite: Manufacturing Engineering Technology 150A or Engineering Technology 126, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Manufacturing Engineering Technology 150.

This project-based module covers additional automation topics and applications in manufacturing industry, including sensors and actuators, part handling and assembly. Students also learn the concepts of group technology, flexible manufacturing systems and their applications. This module is designed for students who like to gain further knowledge and experience in modern manufacturing practices. (FT) AA/AS; CSU.

210 Statistical Process Control
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49 and Mathematics 96, each with a grade of “C” or better, or equivalent,
or Assessment Skill Level R5 and W5 and M50; and completion of Mathematics 119 or Psychology 258 with a grade of “C” or better, or equivalent. This lecture/lab course familiarizes students with the applications of statistics in process and quality control function. Students learn to acquire, analyze and interpret data from a process to determine if it is in statistical control and capable of meeting customer’s requirements. Statistical techniques include the use of basic graphs and diagrams, control charts, process mean and variability, process capability, sampling and normal distribution. The course also introduces students to the concepts of Six Sigma and design of experiments as part of quality control and improvement. This course is designed for students who are interested in process control, quality improvement and industrial management. (FT) AA/AS; CSU.

220 Programmable Logic Controllers
2 hours lecture, 3 hours lab, 3 units
Advisory: English 48 and English 49 and Mathematics 96, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M50. This course assists students in developing and building fundamental knowledge of the operation, construction, interfacing and programming of programmable logic controllers (PLCs). Students learn different hardware components, input and output devices associating with PLCs, and PLC applications in various manufacturing systems. Students also acquire hands-on experience on constructing, operating, configuring and programming PLCs. The course is designed for students, technicians, technologists and engineers from industry who are interested in automation and the integration of PLCs in manufacturing. (FT) AA/AS; CSU.

225 Introduction to Photovoltaic Manufacturing and Applications
3 hours lecture, 3 hours lab, 4 units
Advisory: English 48 and Mathematics 46 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and M40; Electricity 111 or Electronic Systems 124 with a grade of “C” or better, or equivalent. This lecture/lab course is a study of solar photovoltaic (PV) cell manufacturing, the types of cells and the advantages and applications of solar PV cells. Emphasis is placed on the underlying physical and chemical characteristics of solar cells, the types of manufactured cells and modules, their fabrication processes and applications. This course is designed for students pursuing a career in engineering and technology fields and anyone interested in understanding solar photovoltaics and their applications. (FT) AA/AS; CSU.

230 Lean Manufacturing
2 hours lecture, 3 hours lab, 3 units
Advisory: Manufacturing Engineering Technology 210 and 150 or 150A and 150B, each with a grade of “C” or better, or equivalent. This overview course focuses on the terminology, tools, techniques, concepts and principles of Lean Manufacturing. Students are introduced to different Lean tools including value stream mapping, 5-S process, seven deadly wastes, standardized work flow, error proofing, setup reduction, integrated reliability, and production and inventory control. This course uses a project-based approach; provides students with theories, guided discussions, hands-on exercises and industrial case-studies. Course is open to all students who are planning to join industry or currently working in a company instituting Lean Manufacturing. (FT) AA/AS; CSU.

240 Six Sigma and Lean Implementation
2 hours lecture, 3 hours lab, 3 units
Advisory: Manufacturing Engineering Technology 210 and 230, each with a grade of “C” or better, or equivalent. This course concentrates on six sigma concepts and implementation of lean in a business organization. Students learn the principles of six sigma and the utilization of six sigma tools in project application. The course also covers DMAIC (Define, Measure, Analyze, Improve, Control) problem solving methodology, team building and project management skills. This course is designed for those who are interested in participating in and/or implementing lean/six sigma at their organization. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
250 Manufacturing Capstone Course
1 hour lecture, 9 hours lab, 4 units
Grade Only

Prerequisite: Manufacturing Engineering Technology 101, 105 and 115, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Manufacturing Engineering Technology 110 and 230, each with a grade of “C” or better, or equivalent.

This is a capstone course for the Manufacturing Engineering Technology program. It provides students the opportunity to apply a combination of skills and knowledge to solve an industrial manufacturing problem. Students work together in groups to tackle an integrated, technical problem selected by industry and approved by program faculty. Topics include, but are not limited to, manufacturing materials and processes, design, quality, lean manufacturing and automation. This course is intended solely for students enrolled in the last semester of the Manufacturing Engineering Technology program, and is a major requirement. (FT) AA/AS; CSU.

270 Work Experience

Hours by Arrangement (One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.), 1-4 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from Work Experience Coordinator for enrollment. A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

Mechanical Design Technology

Description:
Mechanical Design Technology graduates pursue careers in industry in the areas of industrial machinery, consumer products, construction, automotive, power transmission, automation, and other mechanical machinery related fields. Related areas of employment include sales, manufacturing and testing mechanical products. Graduates create designs as well as analyze and specify the components and systems of machinery and products.

Program Goals:
Provide local and regional industry with skilled workers in the field of Mechanical Design.

Program Emphasis:
The curriculum is based on integrated technical and core competencies (machine technology, engineering design, engineering sciences), and it emphasizes a project-based learning format. Students work in teams to learn concepts, solve problems and make discoveries in a workplace-related environment. Students use traditional, internet and industry supplied data as sources of information.

Career Options:
Mechanical Designer, CAD Designer, Machinery Field Technician, Tool and Die Designer

Certificate of Performance:
Mechanical Design*

Engineering Technology
Mecomtronics

Description
MECOMTRONICS (MEchanics + COMputers + Telecommunications + elecTRONICS) is defined as an Engineering Technology discipline that combines the areas of mechanical and electronics technology, and computer hardware and software systems. This discipline has been created to respond to the specialized demands for the multifunctional engineering technician. MECOMTRONICS technicians are prepared with the knowledge and skills to work in a technologically diversified business environment. These technicians will be able to participate on a team to specify, trouble-shoot, develop, design, and prepare for production of cost-efficient, state-of-the-art products which can compete for value in a global economy.

Program Emphasis
The MECOMTRONICS curriculum is based on integrated technical and core (English, Math and Physics) competencies, and it emphasizes project-based learning using a just-in-time instructional delivery. Students will work in teams to learn concepts, solve problems and make discoveries in a workplace-related environment. Students will use traditional, as well as online electronics resources and industry supplied data as sources of information.

Career Options
R & D technician, electronics technician, engineer-in-training

Transfer Information

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Mecomtronics (MCTR)

90 Science for Technical Applications
2 hours lecture, 3 hours lab, 3 units Grade Only

Prerequisite: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50. This science course presents basic vocabulary, concepts and scientific techniques that are used to analyze and understand technical applications. Topics of study include the measurement of velocity and acceleration, the laboratory study of conductivity, Ohm’s law, resistors in series and in parallel, the investigation of gas laws, capacitance bridge, Kirchoff’s laws, AC voltage measurements, and the study of mass density and viscosity. The laboratory focuses on the specific current physical science needs of the Engineering Technology/ MECOMTRONICS program. Analytical reading and problem solving are required for success in this course. The lectures address theory, concepts and problems required for a solid comprehension of basic physical science and for rapidly bringing the student’s knowledge to a level where modern ideas can be understood. AA/AS.

102A DC Circuits
2 hours lecture, 3 hours lab, 3 units Grade Only

Corequisite: Mathematics 181.
Advisory: Mathematics 96 with a grade of “C” or better or equivalent, or Assessment Skill Level M50.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
This course, the first semester of a two-semester sequence in electric circuits, introduces DC electronics principles and practices through integration of theory, application, and structured discovery activities. Emphasis is placed on activity-based learning through a variety of hands-on projects. Topics include but are not limited to fundamental aspects of DC circuits and passive devices, Kirchhoff’s voltage and current laws; mesh and nodal analysis; DC network theorems; applications using P-Spice, Electronics Workbench, or equivalent software; DC measurements and instrumentation; magnetism. This course is intended solely for the students enrolled in the Engineering Technology/Mecomtronics program. (FT) AA/AS; CSU.

120A Basic Physics for Technical Applications I
3 hours lecture, 3 hours lab, 4 units
Grade Only
Prerequisite: Mecomtronics 90 and Mathematics 181, each with a grade of “C” or better, or equivalent. Corequisite: Mathematics 182.
This course is an introduction of physics presenting tools that are used in technical applications. Topics of study include measurement standards, scalar and vector quantities, kinetics in one, two and three dimensions, Newton’s laws of motion, the gravitational force, the harmonic oscillator, work and energy, and momentum. The course centers on “hands-on” approaches to analysis of physical phenomena, without neglecting conceptual and calculation rigor. This course is intended for students in the Engineering Technology/MECOMTRONICS program. (FT) AA/AS; CSU.

120B Basic Physics for Technical Applications II
3 hours lecture, 3 hours lab, 4 units
Grade Only
Prerequisite: Mecomtronics 120A and Mathematics 182, each with a grade of “C” or better, or equivalent. Corequisite: Mathematics 183.
This course is the second in a sequence of three introductory technical physics courses intended for the Engineering Technology/MECOMTRONICS program.
This sequence of courses presents the tools that are used in technical applications. The topics of study include angular momentum and torque, solids and fluids, waves, temperature, heat transfer, the first and second laws of thermodynamics, and kinetic theory. Emphasis is placed on the conceptual and calculational nature of physical principles and on experimental studies that demonstrate the use of the equations discussed in the theory. Analytical reading and problem solving are required for success in this course. (FT) AA/AS; CSU.

Military Electronics Technology
Description
The Military Electronics Technology Program provides the military and civilian student the opportunity to utilize their technical training and related theoretical instruction to earn an Associate Degree. The length of the program depends on the students training and can range from two to three years. The program encourages the development of theory, principles and health and safety knowledge to give the student a complete understanding of Military Electronics at the Associate Degree level. The courses recognize learning acquired through work outside a collegiate setting and will be offered in such a way that military or civilian students may complete their degree without staying at one educational institution.

Program Emphasis
The program begins by using the student’s technical training and adds, through a series of theory courses in basic direct circuit, alternating current, analog circuits, digital circuits, mathematics and health and safety, necessary information to meet the educational need for the Associate degree.

### Courses

**Military Electronics Technology (MLET)**

**50 Basic Direct Current**

3 hours lab, 1 unit  
Grade Only

This is a course on the basics of direct current (DC), including basic and complex circuit analysis. Emphasis is placed on the practical application of concepts in DC to calculate and measure voltage, current and resistance and to troubleshoot series, parallel, series-parallel, branch and bridge circuits. This course is designed for the military and civilian student. AA/AS.

**51 Working With Direct Current**

3 hours lecture, 3 units  
Grade Only

*Prerequisite:* Military Electronics Technology 50 with a grade of “C” or better, or equivalent.

This is a course on direct current (DC) electronics designed to develop a practical familiarity with the concepts of conductance, voltage, resistance, current, capacitance, and inductance. Emphasis is placed on a common sense approach to using the measurement equipment and Mathematics skills used in the study of direct current. This course is designed for the military and civilian student. AA/AS.

**52A Basic Alternating Current I**

3 hours lab, 1 unit  
Grade Only

*Prerequisite:* Military Electronics Technology 50 with a grade of “C” or better, or equivalent.

This is a course on the basics of alternating current (AC), power, capacitance, and inductance. Emphasis is placed on providing students with a solid understanding of AC test equipment and steady-state circuit analysis. This course is designed for the military and civilian student. AA/AS.

**52B Basic Alternating Current II**

3 hours lab, 1 unit  
Grade Only

*Prerequisite:* Military Electronics Technology 50 with a grade of “C” or better, or equivalent.

This is a course on the basics of alternating current (AC), power, capacitance, and inductance. Emphasis is placed on providing students with a solid understanding of the fundamentals of transient and resonant AC circuit analysis, transformers, relays and switches. This course is designed for the military and civilian student. (FT) AA/AS.

**53A Working With Non Resonant Alternating Current**

2.5 hours lecture, 2.5 units  
Grade Only

*Prerequisite:* Military Electronics Technology 50 with a grade of “C” or better, or equivalent.

This is a course on non resonant alternating current (AC) electronics designed to develop a practical familiarity with the concepts of impedance, AC voltage, current, and power, and includes basic filter circuits. This course emphasizes a common sense approach to using the measurement equipment and Mathematics skills used in the study of non-resonant alternating current. This course is designed for the military and civilian student. AA/AS.

AA/AS = Associate Degree Applicable  
CSU = California State University Applicable  
UC = University of California Applicable
53B Working with Resonant Alternating Current
2 hours lecture, 2 units
Grade Only

Prerequisite: Military Electronics Technology 52B with a grade of “C” or better, or equivalent.
This is a course on resonant alternating current (AC) electronics designed to develop a practical familiarity with the concepts of bandwidth, Quality factor (Q), center frequency, and resonance, and includes basic filter circuits. This course emphasizes a common sense approach to using the measurement equipment and Mathematics skills used in the study of resonant alternating current. This course is designed for the military and civilian student. AA/AS.

54A Basic Analog Circuits I
3 hours lab, 1 unit
Grade Only

Prerequisite: Military Electronics Technology 50 with a grade of “C” or better, or equivalent.
This is a course on the basics of analog circuits, including diodes and diode circuits, transistor circuits, and power supplies. Emphasis is placed on identifying normally operating circuits and troubleshooting circuit faults. This course is designed for the military and civilian student. AA/AS.

54B Basic Analog Circuits II
3 hours lab, 1 unit
Grade Only

Prerequisite: Military Electronics Technology 50 with a grade of “C” or better, or equivalent.
This is a course on the basics of analog circuits, including transistor circuits, oscillators and pulse circuits, trigger device circuits, operational amplifiers, and radio frequency (RF) electronics. Emphasis is placed on identifying normally operating circuits and troubleshooting common faults. This course is designed for the military and civilian student. AA/AS.

55A Working With Basic Analog Circuits I
3.5 hours lecture, 3.5 units
Grade Only

Prerequisite: Military Electronics Technology 54A with a grade of “C” or better, or equivalent.
This is a course on the basics of diode and Bipolar Junction Transistor (BJT) circuits and power supplies designed to develop a familiarity with their operation. Emphasis is placed on a practical approach to using the measurement equipment and Mathematics tools employed in the study of electronic devices. This course is designed for the military and civilian student. AA/AS.

55B Working With Basic Analog Circuits II
3.5 hours lecture, 3.5 units
Grade Only

Prerequisite: Military Electronics Technology 54B with a grade of “C” or better, or equivalent.
This is a course on the basics of Field Effect Transistors (FETs), Thyristors, Multivibrators, Operational Amplifiers, and Optical Semiconductor Devices. The course is designed to develop an understanding and familiarity with their operation. Emphasis is placed on a practical approach to using the measurement equipment and Mathematics tools employed in the study of electronic devices. This course is designed for the military and civilian student. AA/AS.

56A Basic Digital Electronics I
3 hours lab, 1 unit
Grade Only

Prerequisite: Military Electronics Technology 50 with a grade of “C” or better, or equivalent.
This is a course on the basics of digital electronics. Emphasis is placed on providing students with an overview of the development of digital electronics, digital and combinational logic functions, a variety of flip-flop, conversion and data circuits. This course is designed for the military and civilian student. AA/AS.

56B Basic Digital Electronics II
1.5 hours lab, 0.5 units
Grade Only

Prerequisite: Military Electronics Technology 50 with a grade of “C” or better, or equivalent.
This is a course on the basics of digital electronics. Emphasis is placed on providing students with an overview of arithmetic counting and microprocessor operation. This course is designed for the military and civilian student. AA/AS.

57A Working With Digital Electronics
3 hours lecture, 3 units
Grade Only

Prerequisite: Military Electronics Technology 56A with a grade of “C” or better, or equivalent.
This is a course on the basics of digital electronics designed to develop a practical familiarity with digital combinational logic circuits including flip-flops, and data conversion circuits. Emphasis is placed on a common sense approach to developing and testing practical digital circuits. This course is designed for the military and civilian student. AA/AS.
57B Working With Digital Electronics II
2.5 hours lecture, 2.5 units
Grade Only

Prerequisite: Military Electronics Technology 56B with a grade of “C” or better, or equivalent.
This is a course on the basics of digital electronics designed to develop a practical familiarity with data control, arithmetic logic circuits, counter applications, data multiplexing and basic microprocessor operation. Emphasis is placed on a common sense approach to developing and testing practical digital circuits. This course is designed for the military and civilian. AA/AS.

Courses

Radio Frequency Technology (RAFT)

Faculty Office Telephone
Fred Julian A-107D 619-388-3720
Robert Pruitt A-107E 619-388-3875

51 Introduction to the Radio Frequency Technology Industry
2 hours lecture, 3 hours lab, 3 units
Grade Only

This course is a study of the San Diego Radio Frequency (RF) Microwave Technology industry. Emphasis is placed on understanding the current needs of the San Diego RF job market and gaining those skills in follow-on courses to obtain gainful employment. Course content includes identifying several RF companies in the San Diego area, discovering common job titles, defining the range of salaries and understanding common RF skill sets required for RF Technician positions. This course is designed for students seeking employment in the Wireless Telecommunication Industry. (FT) AA/AS.

52 RF Microwave Technology I
2 hours lecture, 3 hours lab, 3 units
Grade Only

This course is a basic study of basic Radio Frequency (RF) Microwave Technology. Emphasis is placed on the assembly process related to RF Technology, including the testing and tuning of RF circuits. This course is designed for students seeking employment in the Wireless Telecommunications Industry. (FT) AA/AS.

53 RF Microwave Technology II
2 hours lecture, 3 hours lab, 3 units
Grade Only

This course is an intermediate study of Radio Frequency (RF) Microwave Technology. Emphasis is placed on the assembly processes related to RF, including common circuits and test measurement methods. This course is designed for students seeking employment in the Wireless Telecommunications Industry. (FT) AA/AS.

54 RF Microwave Technology III
2 hours lecture, 3 hours lab, 3 units
Grade Only

This course is an advanced study of RF Microwave Technology. Emphasis is placed on the use and care of RF test equipment. This course is designed for students seeking employment in the Wireless Telecommunication Industry. (FT) AA/AS.

English

English, English as a Second Language, Humanities

Award Type Units
Associate in Arts Degree:
English 18*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
The English program provides a breadth of course work designed to improve reading, writing, listening, speaking, and critical thinking skills. Reading courses focus on academic reading and study skills. The English for Speakers of Other Languages (ESOL) program offers four levels of academic English instruction including reading, listening/speaking, and composition. Writing classes range from developmental writing to transfer-level courses in reading and composition, composition and literature, and intermediate composition and critical thinking, as well as a two-semester sequence in creative writing. Literature

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
offerings include an introductory course and specialized courses such as British and American Literature and women in literature. Humanities courses explore cultural achievements of world civilizations. English department courses meet English Composition requirements for the associate degree and for University of California, and California State University, Communications in the English Language and Critical Thinking requirements. Literature courses may also meet general education, humanities, multicultural studies requirements and preparation for transfer.

Program Emphasis
The English major at the lower-division level emphasizes learning to read more critically and to write more effectively using strategies of narration, exposition and argument. The English major primarily serves students transferring to colleges and universities where the focus is on academic writing, research and criticism.

Career Options
Most careers require education beyond the associate degree. Strong linguistic, analytical and imaginative skills developed in English help to prepare students for employment in many fields including law, education, communications, governmental affairs or business.

Academic Programs
The associate degree in English requires completion of the courses listed for the degree. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Student Learning Outcomes
Students who complete the program will be able to:

- Read and comprehend texts, recognize author strategies, purpose, perspective and argument, and use critical thinking to evaluate a variety of writing.
- Organize ideas and information and express them clearly and effectively in writing for both academic and workplace contexts for different communicative purposes.
- Apply appropriate research strategies and citation formats.
- Describe, explain and analyze multiple perspectives on issues in ways that demonstrate global awareness and appreciation of diversity in its many manifestations.
- Apply strategies both inside and outside the classroom that reflect an understanding of the reading and writing processes in order to become life-long learners, critical thinkers, and active citizens.

Students will be assessed through a combination of evaluations which may include projects, written assignments, presentations, tests, quizzes, and group or collaborative activities.

**ENGL 211 American Literature II** 3
ENGL 245A Writing Creative Nonfiction 3
ENGL 247 Writing Seminar-Poetry 3
ENGL 249 Introduction to Creative Writing 3
ENGL 252B Intermediate Fiction Writing 3

**Total Units = 18**

*Meets SDSU/CSU critical thinking requirement.

**Recommended sequences for UC transfer.

**Note:** English 205 meets SDSU/CSU critical thinking requirement.

**Note:** English 215 and 216 are required by SDSU and UCSD. Other course electives are available at Mesa and Miramar Colleges.

For graduation requirements see **Requirements for the Associate Degree** on page 79.

Electives as needed to meet minimum of 60 units required for the degree:

**Recommended Electives:** English 202, 209, 238, 240, 245A, 247, 249, 252A, 252B; Humanities 101, 102, 201, 202; Journalism 200, 210A/B/C/D.

Courses designed to support this and other majors: ESOL 19, 20, 21, 22, 30, 31, 32, 40.

Transferable Units as Prep for the Major at SDSU
SDSU will accept a total of 12 units of literature and creative writing as preparation for the English Major. This includes any combination of lower division literature courses and up to six units of creative writing courses.

**Transfer Information**

Common university majors related to the field of English include: Creative Writing, Comparative Literature, English, Humanities, Language Studies, Linguistics, Literature.

**Course Requirements for Transfer Students**

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

**Courses**

**English for Speakers of Other Languages (ESOL)**

The English for Speakers of Other Languages Program is designed to prepare students to read, write, speak and listen at a level that enables them to succeed in college courses.

The program consists of four levels and the student is assigned a level based on the result of his/her placement test.

The first level, L19, is a combined skills class in a lecture/lab format. Students who successfully complete this course are at the intermediate-low level. Some students at the beginning level may find ESOL 19 difficult. For these students, counselors are available to discuss options and resources, including classes at Continuing Education.

The second and third levels, L20 and L30, are made up of three courses. The grammar-writing component is a six-unit course; the reading and listening/speaking components are three units each.

The fourth level, L40, is a single course in reading and writing. Students who successfully score at the assessment skill level L40 on the ESOL placement exam and successfully complete ESOL 40 can read and write at an advanced level, and are prepared to take English courses one level below transfer (ENGL 48 & 49). Students who score lower than level L40 on the placement exam must complete ESOL 40 and ESOL 32 to be able to read and write at an advanced level and be prepared to take English courses one level below transfer (ENGL 48 & 49).
**19 Transitional English For ESOL Students**  
*3 hours lecture, 6 hours lab, 5 Units*  
*Letter Grade or Pass/No Pass Option*  
*Advisory: Assessment Skill Level L19.* Students are advised to take the English for Speakers Other Languages placement test prior to enrollment and perform at level 19.  
*Limitation on Enrollment:* This course is not open to students with credit for English 007 or 58. This course prepares students to read, write, listen and speak at the intermediate-low ESOL level to facilitate successful participation in a college setting. This course will emphasize development of reading and writing skills in academic contexts, focusing heavily on the production of complete sentences with minimal errors and basic paragraph and composition development. *(FT)* Not applicable to the Associate Degree.

**20 Writing for Non-native Speakers of English I**  
*6 hours lecture, 6 units*  
*Letter Grade or Pass/No Pass Option*  
*Prerequisite: English for Speakers of Other Languages 19 with a grade of “C” or better, or equivalent or Assessment Skill Level L20.*  
*Limitation on Enrollment:* This course is not open to students with previous credit for English 8 or 60. This course in writing and grammar prepares students to write at the intermediate-mid ESOL level. Students learn to write compositions which may include paragraphs, essays, and other types of texts. Other topics include critical reasoning in writing, critical reading and understanding for a variety of texts, academic study skills, and grammatical structures in the production and editing of compositions so that errors will not obscure meaning or distract the reader. This course is intended for non-native speakers of English preparing for college-level coursework. *(FT)* Not applicable to the Associate Degree.

**21 Reading for Non-native Speakers of English I**  
*3 hours lecture, 3 units*  
*Letter Grade or Pass/No Pass Option*  
*Prerequisite: English for Speakers of Other Languages 19 with a grade of “C” or better, or equivalent, or Assessment Skill Level L20.*  
*Limitation on Enrollment:* This course is not open to students with previous credit for English 007 or 58. This course prepares students to read at the intermediate-mid ESOL level. In this course, students practice identifying text organization, vocabulary and grammar to facilitate comprehension. Students also begin to use information from class readings in discussion, critical thinking and writing. *(FT)* Not applicable to the Associate Degree.

**22 Listening and Speaking for Non-native Speakers of English I**  
*3 hours lecture, 3 units*  
*Letter Grade or Pass/No Pass Option*  
*Prerequisite: English for Speakers of Other Languages 19 with a grade of “C” or better, or equivalent or Assessment Skill Level L20.*  
*Limitation on Enrollment:* This course is not open to students with previous credit for English 8 or 60. This course prepares students to understand spoken English and to speak at the intermediate-mid ESOL level. In this course, students continue to develop communicative competence through listening to and participating in a variety of communicative activities. Topics include grammatical structures specifically related to oral/aural course work to make connections between structure and communicative needs. In addition, students discuss, write about and critically analyze information from oral and written sources. This course is intended for non-native speakers of English preparing for college-level coursework. *(FT)* Not applicable to the Associate Degree.

**30 Writing for Non-native Speakers of English II**  
*6 hours lecture, 6 units*  
*Letter Grade or Pass/No Pass Option*  
*Prerequisite: English for Speakers of Other Languages 20 and 21, each with a grade of “C” or better, or equivalent or Assessment Skill Level L30.*  
*Limitation on Enrollment:* This course is not open to students with previous credit for English 9 or 6. This course in writing and grammar prepares students to write at the intermediate-high ESOL level. In this course, students learn to write paragraphs, essays and other types of texts that communicate a basic awareness of critical reasoning and the components of the academic essay and other types of writing. To achieve these goals, students learn and apply knowledge of syntax and grammatical structures in the production and editing of compositions so that errors will not obscure meaning or distract the reader. Students also read academic texts and apply study skills necessary for success in further academic studies. This course is intended for non-native speakers of English who wish to improve their writing skills. Not applicable to the Associate Degree.
31 Reading for Non-native Speakers of English II

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English for Speakers of Other Languages 21 with a grade of "C" or better, or equivalent or Assessment Skill Level L30.

This course prepares students to read at the intermediate-high ESOL level. In this course, students continue to develop reading skills needed for academic and workplace success. To achieve these goals, students read a variety of texts and apply appropriate reading strategies to facilitate comprehension. In addition, students engage in activities to build background knowledge as well as knowledge of text structure, grammar and vocabulary. Students also use information from class reading in class discussion, critical thinking and writing. (FT) Not applicable to the Associate Degree.

32 Listening and Speaking for Non-native Speakers of English II

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English for Speakers of Other Languages 22 with a grade of "C" or better, or equivalent or Assessment Skill Level L30.

This course prepares students to understand spoken English and speak at the intermediate-high English for Speakers of Other Languages (ESOL) level. Students continue to develop communicative competence through listening to and participating in a variety of communicative activities. Students also continue to develop knowledge of grammatical structures specifically related to oral/aural course work as well as discuss, write about, and think critically about information from oral and written sources. This course is intended for speakers of other languages pursuing basic skills English instruction. (FT) Not applicable to the Associate Degree.

40 Reading and Writing for Non-native Speakers of English III

6 hours lecture, 6 units
Letter Grade or Pass/No Pass Option

Prerequisite: ESOL 30 and ESOL 31, each with a grade of "C" or better or Assessment Skill Level L40.

Corequisite: Students who met the prerequisite by completion of ESOL 30 and 31 each with a grade of "C" or better must complete ESOL 32 with a grade of "C" or better or be concurrently enrolled in ESOL 32.

Limitation on Enrollment: This course is not open to students with previous credit for English 10 or English 62.

This course prepares students to read and write at the advanced ESOL level. In this course students write essays and other types of texts that have some complexity of expression, contain relatively few mechanical and grammatical errors and illustrate evidence of critical reasoning. Students also read academic texts and apply study skills necessary for success in further academic studies. This course is intended for non-native speakers of English who wish to improve their reading and writing skills. (FT) Not applicable to the Associate Degree.

Courses

English (ENGL)

Basic Skills Courses

All courses at this level are offered for college credit. Credit for these courses will not apply toward the associate degree, but will count toward the determination of a student's workload and eligibility for financial aid.

12A Basic English Review

0.5 hour lecture, 1.5 hours lab, 1 unit
Grade Only

This self-paced course is intended for students who need to review their English skills in order to succeed in college classes and/or their career. Students begin with an evaluation of their skills. Activities include assigned individualized reading and writing practice, mastery tests, and meetings with the instructor. This is an individualized course designed to develop student mastery in specific basic skills. (FT) Not Applicable to Associate Degree, pre-collegiate basic skills, English as a Second Language.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
12B Basic Composition Across the Curriculum
0.5 hours lecture, 1.5 hours lab, 1 unit
Pass/No Pass

This course is designed for students enrolled in transfer level courses in disciplines other than English who need additional instruction in critical reading and composition in order to complete the courses successfully. Students begin with the evaluation of their skills. Activities include assigned individualized reading and writing practice, mastery tests, and meetings with the instructor. This is an individualized course designed to develop student mastery in essential basic skills. (FT) Not applicable to the Associate Degree.

12E Basic Composition Review
0.5 hour lecture, 1.5 hours lab, 1 unit
Grade Only

This self-paced course is intended for students enrolled in English 49 who would like additional instruction in order to complete the course successfully. Students begin with an evaluation of their skills. Activities include assigned individualized reading and writing practice, mastery tests, and meetings with the instructor. This is an individualized course designed to develop student mastery in specific basic skills for English 49. (FT) Not Applicable to Associate Degree, pre-collegiate basic skills, English as a Second Language.

12F Basic Composition Review
0.5 hours lecture, 1.5 hours lab, 1 unit
Pass/No Pass

This course is designed for students enrolled in English 43 who would like additional instruction in order to complete the course successfully. Students begin with the evaluation of their skills. Emphasis is placed on assigned individualized reading and writing practice, mastery tests, and meetings with the instructor. This is an individualized course designed to develop student mastery in specific basic writing skills for English 43. (FT) Not applicable to the Associate Degree.

Reading

42 College Reading and Study Skills I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: Assessment Skill Level R3. This course is designed for native speakers of English. ESL students should enroll in English for Speakers of Other Languages 19, 20, 21, 22, 30, 31, 32 or 40 as recommended by the placement test for non-native English speakers. Limitation on Enrollment: This course is not open to students with previous credit with a "C" or better in English 265B or English 47A. Limitation on Enrollment: This course is not open to students with previous credit for English 55. This course is designed for students who need to improve their reading skills in order to succeed in college courses. In this course, students practice the reading process by reading extensively and intensively, and develop confidence and enjoyment in reading. Students also read and respond to a variety of materials, including non-fiction and textbook assignments, and learn strategies for reading difficult material to facilitate comprehension and critical thinking. In addition, students develop reading, vocabulary, discussion, and study skills. (FT) Not applicable to the Associate Degree.

48 College Reading and Study Skills II
(Formerly English 56)

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Assessment Skill Level L40 and completion of ESOL 40 with a grade of "C" or better; or completion of ESOL 40 and ESOL 32 each with a grade of "C" or better; or ENGL 42 with a grade of "C" or better; or Assessment Skill Level R4. Limitation on Enrollment: This course is not open to students with previous credit for English 56. This course is not open to students with a "C" or better in English 265B or English 47A.

This course is designed for students who need to develop advanced reading skills to succeed in transfer level courses. In this course, students focus on academic reading and study skills and practice strategies to improve reading comprehension and critical thinking. Students also build writing, vocabulary, discussion and study skills to accurately express information and reflect the meaning of class readings. (FT) Not applicable to the Associate Degree.

Writing

37A Persuasive Writing
3 hours lecture, 3 units
Pass/No Pass Only

Limitation on Enrollment: This course is not open to students with previous credit for English 92A. In this course, students read persuasive texts and integrate the ideas of multiple authors and their
own into argumentative essays. The course stresses paragraph and essay development and reviews sentence structure, mechanics, and grammar as needed. (FT) Not Applicable to the Associate Degree, pre-collegiate basic skills - reading, writing, computation.

37B Persuasive Writing II

3 hours lecture, 3 units
Pass/No Pass Only

Limitation on Enrollment: This course is not open to students with previous credit for English 92B. In this course, students read persuasive texts and integrate the ideas of multiple authors and their own into argumentative essays. The course stresses paragraphs and essay development and reviews sentence structure, mechanics, and grammar as needed. (FT) Not Applicable to the Associate Degree, pre-collegiate basic skills - reading, writing, computation.

43 English Review

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: Assessment Skill Level W3 or English 42 with a grade of “C” or better, or equivalent or Assessment Skill Level R4. This course is designed for native speakers of English. ESL students should enroll in English for Speakers of Other Languages 19, 20, 21, 22, 30, 31, 32, or 40 as recommended by the placement test for non-native English speakers. Limitation on Enrollment: This course is not open to students with previous credit with a “C” or better in English 265B or English 47A. Limitation on Enrollment: This course is not open to students with previous credit for English 50. This course is designed for students who need review of and practice with writing unified paragraphs and purposeful basic compositions. In this course students develop knowledge of the writing process as well as knowledge of grammatical structures to compose clear and complete sentences, paragraphs, and basic compositions (which may include short essays). Students also read texts as the basis for writing and develop critical thinking skills necessary for success in college courses. (FT) Not applicable to the Associate Degree.

49 Basic Composition

(Formerly English 51)

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Assessment Skill Level L40 and completion of ESOL 40 with a grade of “C” or better; or completion of ESOL 40 and ESOL 32 each with a grade of “C” or better; or ENGL 43 with a grade of “C” or better; or Assessment Skill Level W4.

Limitation on Enrollment: This course is not open to students with previous credit for English 51. This course is not open to students with a C or better in English 265B or English 47A. This course is designed to prepare students to write successfully at the transfer level. In this course students practice the writing process in the production and editing of essays. Students also review grammatical and mechanical structures as needed to support the successful expression of meaning. In addition, students read and think critically using a variety of texts which are the basis for writing and class discussion. A District-wide, timed-writing examination, holistically graded by English instructors, is part of the final course grade. (FT) Not applicable to the Associate Degree.

English 101 Preparatory Courses

All courses at this level are offered for college credit. Three units of course work at this level may be applied to the associate degree. Credit for courses at this level will count toward the determination of a student's workload and eligibility for financial aid.

47A Accelerated Reading, Writing and Reasoning

4 hours lecture, 4 units
Grade Only

Advisory: Assessment Skill Levels R3 and W3.

Limitation on Enrollment: This course is not open to students with previous credit for English 42, English 43, English 48, English 49, English 265B or students with R5 and W5 assessment levels or higher. This course is designed to prepare students who require minimal preparation to produce successful college-level papers in all subject areas. Emphasis is placed on the presentation of a thematic perspective within which students develop arguments and
strengthen critical thinking, reading, organizing, and writing skills at an accelerated pace. This course is intended for students who want to prepare themselves to read, write and analyze texts at the transfer level. (FT) Not applicable to the Associate Degree.

97 College Writing Skills

3 hours lab, 1 unit
Pass/No Pass Only

Advisory: English 43 with a grade of “C” or better, or equivalent, or Assessment Skill Level W4. This course provides the application of college writing skills for all disciplines. Emphasis is on the writing of organized, clear, concise, coherent, and carefully reasoned essay exams, book reports, research papers, technical reports, expository and argumentative essays, and other college writing assignments. The course is individualized, with students working on specific learning outcomes tailored to their needs. (FT) AA/AS.

English Courses
(Also see Humanities)

101 Reading and Composition

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English 48 and English 49 or English 47A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5 or English 37A, English 37B or English 64 with a grade of “C” or better, or equivalent. This course is designed for transfer-level students or for those who want to develop competence in college level reading and composition. Students read, analyze, discuss and think critically using a variety of works and sources. Based on these activities, students write essays, fully documented research projects, and other types of texts for various purposes and audiences. This written work, which demonstrates effective, logical, and precise expression of ideas, totals at least 6000 graded words. Designated sections of this course may be taught from a specific cultural perspective. (FT) AA/AS; CSU; UC.

105 Composition and Literature

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English 48 and English 49 or English 47A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5 or English 37A, English 37B or English 64, English 37A or English 37B, each with a grade of “C” or better, or equivalent. This is a composition course using literature as a background for improving writing skills. Students discuss the general nature and elements of literature and literary criticism by reading and analyzing representative works of fiction, drama, and poetry. Based on this subject matter, students are required to write a variety of critical papers, including a research paper, comprising at least 6,000 graded words. This course is intended for students majoring in English or those interested in literature and in developing strong critical and analytical writing skills. Designated sections of this course may be taught from a specific cultural perspective. (FT) AA/AS; CSU; UC.

202 Introduction to Linguistics

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English 48 and English 49 or English 47A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5. Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6 or English 105 with a grade of “C” or better, or equivalent. This course is designed to introduce students to the field of Linguistics. In this course, students develop an understanding of the nature of language through the study of core areas in linguistics including phonetics, phonology, morphology, syntax, semantics and pragmatics. Students also read, write and think critically about related fields such as psycholinguistics, sociolinguistics, historical linguistics, and animal communication. This course is intended for students majoring in English or those with a general interest in Linguistics. (FT) AA/AS; CSU; UC.

205 Critical Thinking and Intermediate Composition

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6 or English 105 with a grade of “C” or better, or equivalent. This course is designed to help students who are planning to transfer to a four-year college or university to develop critical thinking, reading, writing, and research skills beyond the level of English 101 and English 105; it is a required course
within many curricula. Assignments require a total of at least 8,000 words of graded writing. The course focuses on writing argumentative prose and critically evaluating arguments. A majority of the written assignments require some research and documentation, including library research. (FT) AA/AS; CSU; UC.

208 Introduction to Literature
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 48 and English 49, or English 47A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 or English 105 with a grade of “C” or better, or equivalent.
This course provides an inquiry into the basic nature of literature and is designed for students with a general interest as well as for those majoring in the field. Students read and analyze representative literary works in fiction, non-fiction, poetry, and drama from various cultures and periods, applying practical critical techniques in essays, reports, and exams. (FT) AA/AS; CSU; UC.

209 Literary Approaches to Film
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 48 and English 49 or English 47A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 or English 105 with a grade of “C” or better, or equivalent.
This course is a study of film from a literary perspective. Emphasis is placed on reading and writing about film, film analysis, and cultural impact. Topics include film composition, genre, and literary criticism. This course is designed for English majors and all students interested in literature and/or film. (FT) AA/AS; CSU; UC.

210 American Literature I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of “C” or better, or equivalent.
This course is a survey of American literature from its beginning to the late 19th Century including representative works from the Colonial Period (1588-1765), and the New Republic (1765-1829). In this class students read and discuss the authors of these periods, addressing relevant social, political, cultural, and religious issues. The students critically analyze in essays, exams, and research papers the authors, specific works, and other topics as assigned. Classroom activities include lectures and discussions of the principal authors and works. Selected representative readings are required. (FT) AA/AS; CSU; UC.

211 American Literature II
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of “C” or better, or equivalent.
A survey of American Literature from the late 19th Century to the present which includes representative works from the Age of Realism (1865-1914), the Modernist Period (1914-1945), and the Postmodern Era (1950-present). In this class students read and discuss the authors of these periods, addressing relevant social, political, cultural, and religious issues. The students critically analyze in essays, exams, and research papers the authors, specific works, and other topics as assigned. Classroom activities include lectures and discussions of principal authors and their works. Selected representative readings are required. (FT) AA/AS; CSU; UC.

215 English Literature I: 800-1799
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course offers a survey of British literature from the Anglo-Saxon period to the pre-Romantic period (approximately 800 to 1799), including representative works from the Old and Middle English periods, the Renaissance and the Elizabethans, the Cavalier, Metaphysical, and Puritan periods, the Restoration and the Neoclassical
periods. Students read and discuss the major authors of these periods, addressing relevant social, political, cultural, and religious issues. Students critically analyze, in essays and research papers, authors, specific works, and other topics as assigned. This course is intended for English majors and all students interested in literature. (FT) AA/AS; CSU; UC.

216 English Literature II: 1800-Present
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of "C" or better, or equivalent.
This course offers a survey of British literature from the Romantic period to the 20th century (approximately 1800 to the present) including representative works from the pre-Romantic and Romantic periods, the Victorian and later Victorian period and the Modern period. Students read and discuss the major authors of these periods, addressing relevant social, political, cultural, and religious issues. Students critically analyze, in essays and research papers, authors, specific works, and other topics as assigned. This course is intended for students majoring in English and those interested in English Literature. (FT) AA/AS; CSU; UC.

221 Masterpieces of World Literature II: 1600 - Present
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 48 and English 49 or English 47A, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6 or English 105 with a grade of "C" or better, or equivalent.
This course offers a survey of world literature in translation, from the close of the European renaissance through the present time, including the literature of Asia, Europe, North America, Central America, South America, Africa and the Islamic world. Students read and discuss a variety of authors from these regions, and address relevant social, religious, and cultural issues. Students critically analyze, in essays and papers, specific authors, works, themes, and other topics as assigned. This course is intended for English majors and anyone interested in World Literature. (FT) AA/AS; CSU; UC.

220 Masterpieces of World Literature I: 1500 BCE - 1600 CE
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 48 and English 49 or English 47A, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6 or English 105 with a grade of "C" or better, or equivalent.
This course offers a survey of world literature in translation, from the ancient world through the European renaissance (approximately 2150 BCE - 1600 CE), including the established classic literature of the Near East, Tibet, Greece and Rome, India, China, Japan, Africa, the Islamic world, and Europe. Students read and discuss a variety of authors from these regions, and address relevant social, cultural, and religious issues. Students critically analyze, in essays and papers, specific authors, works, themes, and other topics as assigned. This course is intended for English majors and anyone interested in World Literature. (FT) AA/AS; CSU; UC.

237 Women in Literature
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 48 and English 49 or English 47A, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: English 101 or English 105, each with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6.
This course is an introduction to images of women in literature and to women writers. Students read from a variety of genres including stories, poetry, novels, and essays, written by women and men from a range of social, cultural, and ethnic backgrounds. This course is intended for students majoring in English or anyone interested in literature. (FT) AA/AS; CSU; UC.

238 Evaluating Children's Literature
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 48 and English 49 or English 47A, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6 or English 105 with a grade of "C" or better, or equivalent.
This course is a survey of children’s literature from folktales to current works. The course compares works from a variety of authors, cultures, and historical periods while emphasizing current American works. Principles of literary criticism are applied in evaluating the themes, language, and structure of works studied. This class is suitable for students interested in literature as well as for students who are preparing to teach. (FT) AA/AS; CSU.

240 Shakespeare

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English 48 and English 49, or English 47A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6 or English 105 with a grade of “C” or better, or equivalent.

This course is a survey of William Shakespeare's work. Emphasis is placed on analyses of representative plays and poems from the perspectives of theme, character, structure, and language in historical and contemporary contexts. This course is designed for students majoring in English and those with a general interest in the author or the period. (FT) AA/AS; CSU; UC.

245A Writing Creative Nonfiction

3 hours lecture, 3 units
Grade Only

Prerequisite: English 101 or English 105, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.

This is an intensive course in writing creative nonfiction. Emphasis is placed on the principles and methods of creative nonfiction and the critical analysis of student and master works addressing personal, social, political, and/or cultural issues. Students submit original creative nonfiction for class discussion and are introduced to the workshop format to further their work. This course is intended for students majoring in English and those preparing for writing-related careers in areas, such as publishing, journalism, communications, and education. (FT) AA/AS; CSU; UC.

245B Advanced Creative Nonfiction

3 hours lecture, 3 units
Grade Only

Prerequisite: English 245A with a grade of “C” or better, or equivalent.

This course is an intensive course advanced creative nonfiction. Emphasis is placed on advanced techniques in character, point of view, narrative, plot, language, style, and structure. The creative process includes meetings with the professor to set goals. Students use fictional techniques of character development, plotting, setting, language, verb tense, and theme to compose nonfiction at an advanced level. This course is intended for students majoring in English and those preparing for writing-related careers in areas, such as publishing, journalism, communications, and education, and those desiring to develop a writing portfolio. (FT) AA/AS; CSU.

247 Writing Seminar - Poetry

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English 101 or English 105 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.

This introductory course provides instruction in the study and creation of poetry. Students read and critique traditional, contemporary and multicultural poems that provide models for their original work. In addition, students create poetry which is discussed and analyzed by the class. Students learn to identify the basic elements and techniques of poetry, use invention strategies, understand different forms, analyze poems, examine published and unpublished poems as models for writing poetry, use constructive criticism, identify current poetic values, and explore potential markets for publishing poems. (FT) AA/AS; CSU; UC.

249 Introduction to Creative Writing

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: English 101 or English 105, with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.

Limitation on Enrollment: This course is not open to students with previous credit for English 249A and 249B.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
This is an introductory course in creative writing which focuses on the study of fiction and poetry. Students analyze technique in the works of professional writers and in their own original works. After submitting writing, students participate in informal discussion of their work, which includes helpful criticism from the class and the instructor. Increased writing skills help students prepare for careers in communication, education, writing, advertising, selling, journalism, law, business, and government. (FT) AA/AS; CSU; UC.

252A Fundamentals of Fiction Writing
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
Limitation on Enrollment: This course is not open to students with previous credit for English 253. This is an intensive course in fiction writing techniques at the beginning level. Students read and evaluate master works of fiction based on the basic elements of fiction writing introduced in class. Students write original fiction for submission to the class for discussion and integrate criticism offered by the instructor and peers through the editing process. This course is intended for students interested in a better understanding of literature and/or use of language as well as students interested in a writing-related career, such as publishing, journalism, communications, or education. (FT) AA/AS; CSU.

252B Intermediate Fiction Writing
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 252A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for English 254. This is an intensive course in fiction writing techniques at the intermediate level. Students read and evaluate master works of fiction that address personal, social, political and cultural issues and integrate such elements into their original pieces of fiction. Students are expected to articulate, accept, and incorporate criticism through an increasingly sophisticated editorial process. This course is intended for students interested improving their creative writing skills and/or developing a portfolio prior to transferring to a four-year institution. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Student Learning Outcomes
Students who complete the Humanities Program will be able to:

- Understand how the artistic and intellectual achievements of people living in other eras help them to imagine their lives and understand their culture's ideas, aesthetics, and values;
- Understand how the artistic and intellectual achievements of people in other parts of the world reflect their ideas, aesthetics, and values;
- Articulate ways in which the arts today reflect the ideas, aesthetics, and values of their own culture; and
- Compare and contrast the ideas, aesthetics, and values of several cultures.

101 Introduction to the Humanities I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This interdisciplinary course is designed for students interested in meeting general education requirements in humanities. The course develops students’ understanding and appreciation of humankind’s cultural heritage from the Upper Paleolithic (ca. 40,000 BCE) to approximately 1400 CE. A survey is made of the literature, philosophy, music, painting, architecture, and sculpture of both Western and non-Western civilizations. (FT) AA/AS; CSU; UC.
102 Introduction to the Humanities II
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This interdisciplinary course is designed for students interested in meeting general education requirements in humanities. The course develops students’ understanding and appreciation of humankind’s cultural heritage from approximately 1400CE to the present time. A survey is made of the literature, philosophy, music, painting, architecture, and sculpture of both Western and non-Western civilizations. (FT) AA/AS; CSU; UC.

103 Introduction to the New Testament
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course provides an introduction to the history and culture of the New Testament period (First Century C.E.), methods of critical analysis of Biblical materials, and the content of the New Testament. It also examines the impact of the New Testament on western culture. This course may be of interest to students of history, literature, anthropology or those with a general interest in biblical studies. (FT) AA/AS; CSU; UC.

106 World Religions
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6. This course is an introduction to the basic elements of the religions of the world, their similarities and differences, and their impact on believers and society. The course includes a study of the historical development, doctrines, rituals, sects, and scriptures of the major religions of the world. Some analysis of ancient religious traditions and tribal religious beliefs and practices may be included. This course is intended for all students interested in humanities and the study of world religions. (FT) AA/AS; CSU; UC.

201 Mythology
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course introduces students to the major images and themes of the myths of widely separated peoples of the world throughout history. By analyzing various archetypal patterns found in the great civilizations and tribal cultures of the world, students understand both the uniqueness of each culture’s world view and the commonality of human mythological conceptions. Literature and the arts are used to demonstrate these cultures’ mythic ideas. This course is meant for students in the Humanities and for those interested in the myths of the world. (FT) AA/AS; CSU; UC.

202 Mythology: Hero’s Journey
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. Analysis of the hero’s journey, internal and external, as reflected in myths of the world, with consideration of such phenomena as the “shadow,” the “double,” the “other.” Also, exposure to art in which the hero’s journey is thematic. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Futures Studies

Award Type Units
Certificate of Performance: Futures Studies Certificate 16-17
Associate in Arts Degree: Futures Studies 23-25*

Description
The Futures Studies program offers practical skills, theory and methods to strategically identify and analyze trends that affect the world on a social, cultural, political, economic and environmental level. Through Futures Studies theory and methods, students learn to postulate possible, probable and preferable futures. The opportunity to gain professional experience in the field of Futures Studies is offered through participation in a one-unit service learning capstone course.

Program Goals:
Students will learn to:

• envision possible, probable and preferable futures
• apply methods of visioning, strategic planning and simulations to case studies
• assess and evaluate trends forecasted on a national and international level.
• critically analyze positive and negative factors that may influence the future of the world
• identify and explore just, equitable and sustainable solutions to social, environmental, political and economic issues

Program Emphasis:
A focus is placed upon the interdisciplinary nature of the application of Futures Studies to anthropology, political science, sociology, technology and computer science, economics and environmental science. Students will be encouraged to think critically about the future in a responsible manner taking into consideration just and equitable solutions to challenges facing the world.

Faculty Office Telephone
Larry Forman A-17-F 619-388-3666

Career Options
This Certificate prepares students to enter into academic and professional fields related to Futures Studies. Available career tracks include working as a strategic planner, demographer, futurist, sociologist, pollster, researcher, political analyst, educator, anthropologist, industrial psychologist, business leader, consultant or a change agent.

Certificate of Performance: Futures Studies Certificate*
The Futures Studies certificate will provide students the tools to identify and analyze trends that impact the future of our world on a social, cultural, political, economic and environmental level.

Courses: Units
FUTR 101 Introduction to Futures Studies 3
ANTH 103 Introduction to Cultural Anthropology 3
SOCO 223 Globalization and Social Change 3
POLI 103 Comparative Politics 3
CISC 181 Principles of Information Systems 4
FUTR 103 Emerging Technologies 3
FUTR 250 Field Experience in Futures Studies 1

Total Units = 16-17

* A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Associate in Arts Degree: Futures Studies

This Associate Degree will provide students the tools to identify and analyze trends that impact the future of our world on a social, cultural, political, economic and environmental level.

Required Courses: Units
FUTR 101 Introduction to Futures Studies 3
FUTR 102 Creating Futures: Methods and Tools 3
FUTR 103 Emerging Technologies 3
ANTH 103 Introduction to Cultural Anthropology 3
POLI 103 Comparative Politics 3
CISC 181 Principles of Information Systems 4
SOCO 223 Globalization and Social Change 3
FUTR 250 Field Experience in Futures Studies 1-3

Total Units = 23-25

The following groups are recommended electives and will not lead to an individual certificate or emphasis but may meet the required 60 units for the Associate Degree in Futures Studies.
Recommended electives for students interested in an environmental perspective:
BIOL 101 Issues in Environmental Biology
SUST 101 Introduction to Sustainability
PEAC 201 Environmental Sustainability, Justice and Ethics
GEOL 104 Earth Science

Recommended electives for students interested in a political perspective:
POLI 101 Introduction to Political Science
POLI 102 The American Political System
POLI 140 Contemporary International Politics
BLAS 135 Introduction to Black Politics

Recommended electives for students interested in peace studies:
PEAC 101 Introduction to Peace Studies
PEAC 102 Nonviolence and Conflict Resolution
PEAC 201 Environmental Sustainability, Justice and Ethics
POLI 140 Contemporary International Politics

Recommended electives for students interested in a gender perspective:
GEND 101 Introduction to Gender Studies
BLAS 150 Black Women in Literature, Film and the Media
CHIC 170 La Chicana
ENGL 237 Women in Literature
PHIL 125 Philosophy of Women
PHIL 126 Introduction to Philosophy of Contemporary Gender Issues

Recommended electives for students interested in a cultural perspective:
ANTH 103 Introduction to Cultural Anthropology
ANTH 210 Introduction to California Indians
SOCO 110 Contemporary Social Problems
BLAS 100 Introduction to Black Studies
BLAS 104 Black Psychology
CHIC 110A Introduction to Chicano Studies
CHIC 210 Chicano Culture
COMS 180 Intercultural Communication
GEOG 102 Cultural Geography

Recommended electives for students interested in a technological perspective:
CISC 114 Introduction to Computer Graphics and Web Media
CISC 150 Introduction to Computer and Information Sciences
CISC 220 Fundamentals of Computer Game Programming
ENGE 101 Introduction to Engineering
BIOL 109 Introduction to Applied Biology
RTVF 100 Introduction to Radio and Television
DMPR 151 Introduction to Multimedia
DMPR 154 Game Design
DMPR 157 Advanced Multimedia Production

Recommended electives for students interested in a business perspective:
BUSE 100 Introduction to Business
BUSE 158C Students in Free Enterprise - Community Projects
ECON 120 Principles of Macroeconomics
MARK 100 Principles of Marketing

Recommended electives for students interested in visual arts:
ARTF 151 Three-Dimensional Design
ARTG 100 Basic Graphic Design
ARTG 120 Illustration
ARTG 125 Digital Media
ARTG 144 Web Page Graphic Design
PHOT 180 Digital Imaging

Recommended electives for students interested in performing arts:
DRAM 103 Acting for Non-majors
DRAM 108 Playwriting
DRAM 109 Theatre and Social Issues
MUSI 100 Introduction to Music
MUSI 206A Projects in Composition

**Courses**

**Futures Studies (FUTR)**

**101 Introduction to Futures Studies**
3 hours lecture, 3 units
Grade Only

*Advisory:* English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Levels R6 and W6. This course is an overview of the field of Futures Studies. Emphasis is placed on identifying and analyzing trends which impact the world on an anthropological, political, technological, sociological, and environmental level. Topics include strategies and planning for successful participation in society.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
In addition, students explore ways to create a more just, sustainable and equitable world for future generations. This course is designed for all students interested in exploring possible, probable and preferable futures. (FT) AA/AS; CSU; UC.

102 Creating Futures: Methods and Tools  
3 hours lecture, 3 units  
Grade Only

Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; Futures Studies 101 with a grade of “C” or better, or equivalent.

This course is a survey of the methods and tools used within the field of Futures Studies. Emphasis is placed on scanning, trend analysis and trend projection, visioning, gaming, and strategic planning. Students are encouraged to envision probable, possible and preferable futures, while considering the effects of their personal futures on the futures of their local and global environment. This course is intended for students interested in the practical applications of Futures Studies. (FT) AA/AS; CSU; UC.

103 Emerging Technologies  
3 hours lecture, 3 units  
Grade Only

Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; Futures Studies 101 with a grade of “C” or better, or equivalent.

This course examines the intersection of technology and the future. Students identify state of the art developments in emerging technologies and examine how technologies can aid us in the pursuit of a more just, equitable and sustainable future world. Emphasis is placed on the impact of communication technologies, biotechnologies, and emerging energy technologies on the future of society. Students track trends in specific areas of interest and use futures studies methods and tools to forecast possible, probable and preferable futures. This course is intended for anyone interested in Futures Studies and emerging technologies. (FT) AA/AS; CSU; UC.

250 Field Experience in Futures Studies  
1-3 hours lecture, 2-6 hours other, 1-3 units  
Grade Only

Prerequisite: Futures Studies 101 with a grade of “C” or better, or equivalent.

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. Students in this course develop and implement field experience projects under the supervision of college faculty. In cooperation with the staff of community organizations and agencies, students design these projects to assist the college’s neighborhood communities. Students gain hands-on experience in project planning, development, implementation and evaluation. Students meet regularly with faculty and peers to receive feedback, support and guidance in their community projects. This course is intended for students interested in Futures Studies. (FT) AA/AS; CSU.

General Education

Award Type | Units
---|---
Certificate of Performance: Honor Global Competencies Certificate | 15-17
Certificate of Achievement: General Education CSU Transfer Pattern | 39-40*
General Education Intersegmental General Education Transfer Curriculum (IGETC) | 37-40*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

The Certificate of Achievement in CSU General Education - Breadth and the Certificate of Achievement in Intersegmental General Education Transfer (IGETC) are designed for students who intend to complete university general education requirements prior to transfer to a California State University (CSU) or University of California (UC) campus.

General education (GE) is a set of courses from a variety of different subject areas that every student must complete in order to earn a degree, regardless of major. The goal is to provide a well-rounded or “liberal” education and to develop the knowledge, skills, and attitudes that together help make up an educated person. The completion of GE prior to transfer is not required for admission to most universities. However, it is usually in the students’ best interest to complete an appropriate transfer GE pattern at the community college. This is because GE requirements that are not fulfilled prior to transfer must be completed later at the university, which often extends the time and expense of a university education.
Certificate of Achievement:
CSU General Education - Breadth
The student will select courses that fulfill the CSU GE certification pattern detailed on page 93 of this catalog. CSU GE is accepted by all CSU campuses and some private / independent or out of state universities. CSU GE is not accepted by the UC system.

Total Units = 39-40

Certificate of Achievement:
Intersegmental General Education Transfer (IGETC)
The student will select courses that fulfill the IGETC certification pattern detailed on page 84 of this catalog. IGETC is accepted by all CSU campuses and most UC campuses and majors. It is also accepted by some private / independent or out of state universities.

Total Units = 37-40

Honors Global Competencies Certificate

Description
The Honors Global Competencies Certificate provides an interdisciplinary and systemic approach in order to prepare students for the highly diverse, technologically-rich, and multilingual global society in which we live. The Certificate offers students the opportunity to gain a global perspective through completion of coursework in intercultural competencies, communication skills, technology skills, and coping skills. This certificate helps students to transfer to four-year institutions in concert with the Honors designation. It prepares students for study and work in the world as a whole in professional fields such as international studies, intercultural studies, language studies, international business, international law, political science, comparative literature, environmental studies, history, technology, social sciences, humanities, teaching, and more.

Program Emphasis
The Honors Global Competencies certificate has an international emphasis.

Career Options
The Honors Global Competencies certificate might lead to careers in the following areas: International relations, international business, politics, international law, technology professions, teaching, translating, travel and tourism, and intercultural communications, among others.

Certificate of Performance:
Honors Global Competencies Certificate
The Honors Global Competencies Certificate offers you the opportunity to gain a global perspective through completion of coursework in intercultural competencies, communication skills, technology skills, and coping skills.

Courses:                  Units
ENGL 205 Critical Thinking and Intermediate Composition 3

GEOG 102 Cultural Geography 3
HEAL 101 Health and Life-Style 3
PSYC 101 General Psychology 3

Total Units = 15-17

This certificate will be offered through the Honors Programs at City, Mesa, and Miramar Colleges. All coursework except for foreign language must be done as an honors class or as an honors contract.

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student's specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Health Education
See “Physical Education” on page 405.

Health Sciences
There is currently no program in Health Sciences. The following courses are offered and may be used as associate degree electives.

Courses

Health Sciences (HEAN)

93 Residential Services Specialist I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
Limitation on Enrollment: This course is not open to students with credit for Health Sciences 265, Residential Services Specialist I.
This course is a study of the theories and skills needed by persons involved in residential care for the developmentally disabled. Course content emphasizes the history and trends in service provision in the United States. This includes current principles of normalization and assessment procedures as well as an overview of common developmental disabilities. The interdisciplinary team process and basic counseling techniques are included. AA/AS.

94 Residential Services Specialist II
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.
Limitation on Enrollment: This course is not open to students with credit for Health Sciences 265, Residential Services Specialist II.
This course is a study of the theories, knowledge and practical skills needed by persons involved in residential care for the developmentally disabled. Course content emphasizes hands-on behavior management techniques, health and developmental
needs, program planning and implementation, and approaches to developing social adaptation and other life skills. AA/AS.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

History

Award Type Units
Associate in Arts Degree:
History 18*
History for Transfer 18-20*
*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
History is the study of human experience from the dawn of time to the present. It examines people, institutions, ideas and events of the past and the present. The primary objectives of the History program are: to meet general education requirements for American Institutions, Humanities and Social Sciences; completion of the Associate in Arts degree; and preparation for transfer to a four-year institution and completion of general education requirements for the student enrolled in a four-year institution.

Program Emphasis
The study of history develops cultural literacy, critical thinking, and other useful skills. San Diego City College offers the two-semester World History survey sequence along with the two-semester American History survey sequence. Completion of these two sequences provides the student with the necessary lower division preparation for a baccalaureate degree in History at San Diego State University.

Student Learning Outcomes
Students who complete the program will be able to:

• Critically analyze primary and secondary sources in college-level essays, written assignments, and research papers.
• Identify and describe historic periods, movements, trends, people, and events important in the study of World, U.S., Asian and Latin American history, and Western Civilization.

Academic Programs
The associate degree in History requires completion of three of the four course sequences in History listed for the degree. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Associate in Arts Degree: History

Courses Required for the Major: Units
Select three of the six-unit course sequences or 18 units
HIST 100 World History I and HIST 101 World History II or 6
HIST 105 Introduction to Western Civilization I and

**Associate in Arts Degree: History for Transfer**

**Program Description:**
The Associate in Arts in History for Transfer is intended for students who plan to complete a bachelor's degree in History or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor's degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree. Students who plan to complete this degree should consult a counselor for additional information about participating CSU campuses as well as university admission, degree and transfer requirements.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

**Note:** It is recommended that students intending to transfer to San Diego State University (SDSU) in the History major should complete the courses marked with a “#”. Students intending to transfer into this major at other CSUs should consult a counselor and visit www.assist.org for guidance on appropriate coursework.

*Course also fulfills general education requirements for the CSU GE or IGETC pattern.

# This course fulfills SDSU’s lower division preparation for the major in History under the TMC.

## It is recommended that students intending to transfer to SDSU should complete the third level of a foreign language as part of their AA-T in History degree.

**General Education:** In addition to the courses listed above, students must complete one of the following general education options:

- The IGETC pattern (page 102) is accepted by all CSU campuses and most UC campuses and majors. It is also accepted by some private/independent or out of state universities.

- The CSU GE pattern (page 109) is accepted by all CSU campuses and some private/independent or out of state universities. It is not accepted by the UC system.

**Electives as needed to meet maximum of 60 CSU-transferable units required for the degree.**

**Career Options:**
Careers related to this field typically require education beyond the associate degree level and some may require a graduate degree.

**Courses Required for the Major:**

Transfer Information

Common university majors related to the field of History include: Art History, History, International Studies, Liberal Studies, Social and Behavioral Studies, World Cultures and History.

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

100 World History I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course examines the growth of civilizations and the interrelationships of peoples of Europe, Asia, Africa and the Americas from the birth of civilization to the eve of the Modern Era. Topics in social, intellectual, economic, and political history are covered. This course is intended for history majors and all students interested in a global historical perspective. (FT) AA/AS; CSU; UC.

101 World History II
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course examines the comparative history of the world’s civilizations in Africa, the Americas, Asia, and Europe from the dawn of the modern era (1600) to the present. Topics in social, intellectual, economic, and political history are covered. This course is intended for history majors as well as anyone seeking a global historical perspective. (FT) AA/AS; CSU; UC.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
105 Introduction to Western Civilization I  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.  
This course is an historical survey of Western Civilization from the early human communities through early modernism. The course is designed to further students' general education by introducing the ideas, attitudes, and institutions basic to Western Civilization. It may be of interest to history majors as well as any student seeking a broad historical perspective. (FT) AA/AS; CSU; UC.

106 Introduction to Western Civilization II  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6.  
This course is an historical survey of Western Civilization from early modernism to the present. Students are introduced to the ideas, attitudes, and institutions basic to Western Civilization. Topics include the political structures, social structures, forms of cultural expression, and patterns of change during key periods of Western history. This course is intended for history majors as well as any student seeking a broad historical perspective. (FT) AA/AS; CSU; UC.

109 History of the United States I  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.  
This course, which covers the history of the United States from its colonial origins through the period of Reconstruction, provides an overview of the diverse peoples who interacted, settled, and influenced the history of the nation and its developing economic, social, and political institutions. The course requires students to analyze a variety of materials, think critically, and write thesis-based essays. AA/AS; CSU; UC Transfer Limitation: History (HIST) 109-110, 141-142, 150-151, Black Studies (BLAS) 140A-140B, and/or Chicano Studies (CHIC) 141A-141B combined: maximum credit, one series.

110 History of the United States II  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.  
This course, which covers the history of the United States from Reconstruction to the present, provides an overview of the diverse peoples who influenced the history of the nation and its maturing economic, social, and political institutions. The course requires students to analyze a variety of materials, think critically, and write thesis-based essays. AA/AS; CSU; UC Transfer Limitation: History (HIST) 109-110, 141-142, 150-151, Black Studies (BLAS) 140A-140B, and/or Chicano Studies (CHIC) 141A-141B combined: maximum credit, one series.

115A History of the Americas I  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6.  
This course is a history of the Americas from 1500 through 1870. Emphasis is placed on a comparison of the cultural forms, political institutions, social relations, and economic structures that resulted from the interactions among people of different socially defined cultures, races, ethnicities, and social classes. Topics include the emergence of the independence movements in the Americas, political conflict and civil war in the newly independent countries, and the consolidation of stable nation states by 1870. The United States Constitution and subsequent political institutions in the United States are compared to the other newly independent countries in the Americas. This course is intended for students majoring in History and those interested in the history of the Americas. (FT) AA/AS; CSU; UC.

115B History of the Americas II  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Levels R6 and W6.  
This course is a history of the Americas from 1865 to the present. Emphasis is placed on the application of classical liberalism during the late nineteenth century, construction of corporist states during the mid-twentieth century, and the advent of neo-liberalism in the late twentieth century. Topics include the development of the California State Constitution, the expansion of commerce, and
international relations among nations in the Western Hemisphere. This course is intended for students majoring in History and those interested in the history of the Americas. (FT) AA/AS; CSU; UC.

120 Introduction to Asian Civilizations
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course examines the social, cultural, and political evolution of distinct civilizations in East, South, and Southeast Asia from prehistory to the end of the sixteenth century. Emphasis is placed on topics such as the development of indigenous religions/philosophies, the rise and decline of regional kingdoms/dynasties, cultural achievements, and gender roles. This course is intended for transfer students planning to major in history, business, or other social science. (FT) AA/AS; CSU; UC.

121 Asian Civilizations in Modern Times
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course examines the evolution of the distinct cultures, thought, and institutions in East, South, and Southeast Asia from the sixteenth century to the present through critical investigations into the impact of modernization on the political, social, economic, and cultural dimensions of these societies. Emphasis is placed on topics such as the first encounters with Western powers, the evolution of Western imperialism, the rise of nationalist movements and independent nation states, and their evolution and progress to the present. (FT) AA/AS; CSU; UC.

123 U.S. History from the Asian Pacific American Perspective
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
This course is a review of Asian Pacific Americans in the social, economic, political, and cultural development of the United States from the 1850s to the present. The emphasis is on the Chinese, Japanese, Korean, Asian Indian, Filipino, Vietnamese, Cambodian, Lao, Hmong, and Native Hawaiian experiences. Topics include immigration and settlement patterns of diverse Asian groups, family formation and community development, American overseas expansion, and California constitutionalism. This course is intended for all students interested in history, ethnic studies, and Asian American studies. (FT) AA/AS; CSU; UC.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

### Description

The Labor Studies program provides students a sound foundation in the law, history, culture, politics, institutions, and contemporary issues of American work life. Students will gain a comprehensive introduction to the role and contributions of

| AA/AS = Associate Degree Applicable |
| CSU = California State University Applicable |
| UC = University of California Applicable |
organized labor to American society, a thorough
grounding in the rights of employees on the job, and
specialized training in the skills necessary to be an
effective leader in labor unions or in other contexts
for labor-management relations.

Program Emphasis
The Labor Studies program offers a Certificate of
Achievement in Labor Studies which provides shop
stewards as well as union organizers and officers the
skills needed to qualify for and to be effective in their
positions. Students can also pursue the Associate of
Science degree in Labor Studies.

Faculty Office Telephone/Email
Kelly Mayhew C-204 619-388-3136

Career Options
The program is designed to train union
representatives, members of unions, labor leaders,
industry coordinators and others interested in
pursuing a career in labor relations.

**Course Requirements for Transfer Students**

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

### Courses

#### 90 Organizing

| 3 hours lecture, 3 units | Letter Grade or Pass/No Pass Option |

*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course is a practical study of organizing skills. Emphasis is placed on labor and community activism and leadership, organizing techniques and building a culture and capacity for labor and community organizing through analyses of successful campaigns. This course is designed for labor studies majors, union members and all members of the community interested in organizing. (FT) AA/AS.

#### 100 American Labor Movement

| 3 hours lecture, 3 units | Letter Grade or Pass/No Pass Option |

*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

*Limitation on Enrollment:* This course is not open to students with credit for Labor Studies 101.

This class provides an historical overview of the struggles and philosophy of American workers and their unions. Over the course of the semester the students examine the historical roots of unions, define and discuss different varieties of unionism, and analyze how unions function in both the private and public sectors. This survey of American labor history begins with early American class and race conflicts and the fight against slavery, and ends with an analysis of globalization and labor in the 21st century. This course helps students investigate and seek to understand how class in the United States has intersected with race and gender in the American workplace and American politics. It explores how the American labor movement has suffered from disunity and helped expand the meaning of equality in American society when workers of different backgrounds have stood together to fight for basic rights. This course is intended for anyone interested in the American labor movement, including students who are employees and/or union members, and workers who are in leadership roles or are preparing for leadership positions in their workplace or unions. (FT) AA/AS; CSU.

#### 102 Labor Law

| 3 hours lecture, 3 units | Letter Grade or Pass/No Pass Option |

*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

*Limitation on Enrollment:* This course is not open to students with previous credit for Labor Studies 105. Labor Law provides an overview of the legal framework and doctrines governing labor-management relations and the workplace.

**AA/AS = Associate Degree Applicable**

**CSU = California State University Applicable**

**UC = University of California Applicable**
rights of minorities and other individual employees. While “Labor Law” generally refers to the National Labor Relations Act or equivalent public sector laws, this class also covers laws that are sometimes referred to as “employment” laws. They include the various discrimination, retaliation, wage, and safety laws that may be enforced by individuals or unions. These laws offer additional ways to facilitate organizing and contract campaigns, as well as grievance handling. Designed to provide practical legal background for the study and practice of labor relations, this course focuses on real problems brought to the class by the students, and it aims to stimulate ways of using the law to build your local unions, as well as to support broader efforts such as organizing temporary workers, coalition work with human rights and environmental groups, and political lobbying campaigns. This course is intended for anyone interested in Labor Law including students who are employees and/or union members, and individuals who are in leadership roles or are preparing for leadership positions in the workplace or in unions. (FT) AA/AS; CSU.

104 Collective Bargaining  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  
This course covers major collective bargaining issues including the right to organize, employer/employee rights and the union, the structure of bargaining, bargaining strategies, the organizing component for setting the “climate” for bargaining, negotiating written agreements, public sector bargaining, impasse and arbitration procedures and mock negotiations. This course is intended for workers who are in leadership roles or are preparing for leadership positions in their workplace or unions. (FT) AA/AS; CSU.

106A Grievance Handling  
3 hours lecture, 3 units  
Grade Only  
Advisory: Labor Studies 104 with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with credit for Labor Studies 106. A practical, problem-solving approach to grievance handling. Investigating, preparing and presenting cases using role-plays. Includes public and private sector procedures in handling grievances. (FT) AA/AS; CSU.

106B Arbitration Procedure  
3 hours lecture, 3 units  
Grade Only  
Advisory: Labor Studies 106A with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with credit for Labor Studies 106. A continuation of the grievance process with emphasis on the arbitration process. A practical, problem-solving approach in preparing and presenting cases. Includes mock arbitration and the preparing of pre and post briefs. (FT) AA/AS; CSU.

108 Labor and Politics  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  
Limitation on Enrollment: This course is not open to students with previous credit for Labor Studies 135. This course provides a “how-to” approach to labor’s involvement in political campaigns and elections. It covers the requirements under Political Action Committees (PACs), and the impact of U.S. Labor policies on foreign national employment and politics. It covers the establishment of legislative priorities and discusses the development of alternative political strategies for labor. This course is intended for anyone interested in the political strategy and tactics of the labor movement, including students who are employees and/or union members, and workers who are in leadership roles or are preparing for leadership positions in their workplace or unions. (FT) AA/AS; CSU.

110 Administrative Practices  
3 hours lecture, 3 units  
Grade Only  
Advisory: Labor Studies 108 with a grade of “C” or better, or equivalent.  
Designed to present the concepts of business organization and management for a labor organization including finance, operation, and personnel practices of the labor organization as an employer and its role with their unionized employees. (FT) AA/AS; CSU.
112 California Workers Compensation
3 hours lecture, 3 units
Grade Only
Advisory: Labor Studies 110 with a grade of “C” or better, or equivalent.
An introduction to the basic California Workers’ Compensation law: the rights of the employee, including the right to obtain medical treatment and be compensated for any disability as a result of the injury, and the role of an attorney in a Workers’ Compensation case. (Does not include Longshoreman or Federal Workers Compensation Laws.). (FT) AA/AS; CSU.

122A Shop Steward, Level I
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This hands-on course covers the rights and responsibilities of shop stewards. It emphasizes development of communication and informal problem-solving skills, investigation and preparation of grievances, and interpreting and explaining the contract for members. The class addresses the current or past concerns and issues that students deal with in their workplace. This course is designed for shop stewards, union members, and employees who want to learn basic workplace rights and problem-solving skills. (FT) AA/AS; CSU.

122B Shop Steward, Level II
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
The course covers skills and knowledge needed for more advanced shop steward responsibilities, such as recruiting new members, providing new member orientations, and educating members on political and workplace issues. It focuses on organizing members to address workplace issues as a group, helping with contract negotiations, and developing the communication and interpersonal skills to deal with difficult individuals. This course is designed for shop stewards, union members, and employees who want to have a leadership role in their union or place of employment. (FT) AA/AS; CSU.

123 California Occupational Safety and Health
1.5 hours lecture, 1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This hands-on course studies the relationship between work and health through a variety of perspectives, beginning with the history of workplace injury, illness and death in the United States. Students learn the Occupational Safety and Health legislation and its implementation at the federal and state level as well as employer and employee rights and responsibilities; the elements of a successful injury and illness prevention program in the workplace; and how to identify and evaluate hazards and control measures. Students apply the topics covered in the course to problem-solving based on workplace experience and case studies. This course is intended for students who are employees and/or union members interested in improving workplace health and safety. (FT) AA/AS; CSU.

124 California Labor Law
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course provides a basic knowledge of the California Labor Code and Wage Orders and the Industrial Welfare Commission. Examples of the uses of Labor Code and Employment Laws are studied. Students learn to apply their knowledge of the laws-how they are violated and how they are enforced-to case studies as well as to their current or past workplace experiences. This course is designed for students who are employees and/or union members, as well as workers who are in leadership roles or are preparing for leadership positions in their workplace or unions. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
127 Labor Law for the Public Sector
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course covers legal issues affecting public employee relations on the federal, state, and local levels, including development of public sector unionism, recent collective bargaining legislation, and dispute resolution in the public sector. This course is designed for students who are public sector employees and/or union members, and workers who are in leadership roles or are preparing for leadership positions in their workplace or unions. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Description
The study of languages provides communication skills, provides exposure to the richness of cultural variety, increases transfer options to universities with language requirements, opens new career opportunities, enriches global travel, and provides personal enrichment. The program is designed to prepare students for transfer to a baccalaureate institution and for proficiency in a language in a variety of settings.

Program Emphasis
The Language program provides transfer level courses in Arabic, French, German, Italian, Spanish and Russian. Students develop skills of understanding, speaking, reading and writing, culture and increase familiarity with basic features of the English language. They also have opportunities to become acquainted with the literature, culture, history and current events of other countries through films, videotapes, field trips and campus and community international events.

Career Options
Knowledge of another language is required or highly desirable for consular and junior foreign service, import, export, and international business and travel, health and missionary fields, overseas teaching, translating and interpreting, and travel and tourism industries. Learning another language is an asset in broadening communication skills and in the travel and tourism industry.

Student Learning Outcomes
Students who complete the program will be able to:

- Demonstrate preparedness for successful transition to the language program of four year institutions.
- Demonstrate accurate foreign language grammar including writing, speaking, and listening in the target language.
- Discuss the social and cultural life of Foreign Language speakers in the target language.
- Read and analyze writings in Foreign Language target areas.
- Accept and value other peoples.

Academic Programs
The associate degree in French, German, Italian, or Spanish requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.
Associate in Arts Degree: Languages

French

Courses Required for the Major: Units
FREN 101 First Course in French 5
FREN 102 Second Course in French 5
FREN 201 Third Course in French 5
FREN 202 Fourth Course in French 5
FREN 210 The Grammar of Spoken French I 3
FREN 211 The Grammar of Spoken French II 3

Total Units = 26

Associate in Arts Degree: Languages

German

Courses Required for the Major: Units
GERM 101 First Course in German 5
GERM 102 Second Course in German 5
GERM 201 Third Course in German 5
GERM 210 The Grammar of Spoken German I 3
GERM 211 The Grammar of Spoken German II 3

Total Units = 21

Associate in Arts Degree: Languages

Italian

Courses Required for the Major: Units
ITAL 101 First Course in Italian 5
ITAL 102 Second Course in Italian 5
ITAL 201 Third Course in Italian 5
ITAL 210 The Grammar of Spoken Italian I 3
ITAL 211 The Grammar of Spoken Italian II 3

Total Units = 21

Student Learning Outcomes
Students who complete the program will be able to:

- Accurately use the language mechanics in the five spheres of Foreign Language learning.
- Apply critical thinking skills.
- Develop writing processes in Spanish.
- Demonstrate intermediate-high comprehension and language production.
- Demonstrate cultural fluency and awareness.

Associate in Arts Degree: Languages

Spanish

Courses Required for the Major: Units
SPAN 101 First Course in Spanish 5
SPAN 102 Second Course in Spanish 5
SPAN 201 Third Course in Spanish 5
SPAN 202 Fourth Course in Spanish 5
SPAN 210 Conversation & Composition Spanish I 3
SPAN 211 Conversation & Composition Spanish II 3

Total Units = 26

Recommended electives: American Sign Language 115, 116, 215, 216; Arabic 101, 102, 296; French 280, 290, 296; German 290, 296; Italian 296; Spanish 290, 296.

Courses Offered in Support of Other Majors:
Spanish 85.

Transfer Information

Common university majors related to the field of History include: Arabic, French, German, Italian, Language Studies, Literature, Modern Languages, Spanish, Translation and Interpretation.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
### Courses

**American Sign Language/Interpreting (AMSL)**

**115 American Sign Language Level I**

4 hours lecture, 4 units  
Grade Only

*Corequisite:* American Sign Language/Interpreting 115L.  
*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.  
*Limitation on Enrollment:* This course is not open to students with previous credit for American Sign Language/Interpreting 100.  
This is an entry-level course designed to introduce students to American Sign Language (ASL) and Fingerspelled Signs as it is used within Deaf Culture. Students are taught to use American Sign Language by signing, fingerspelled signing, using facial grammar at the novice level. Emphasis is placed on the development of ASL and receptive skills. The course is designed for students who want to explore the basic language structure of ASL and Deaf Culture. (FT) AA/AS; CSU; UC Transfer Limitation: Corresponds to two years of high school study.

**115L American Sign Language I (Lab)**

3 hours lab, 1 unit  
Grade Only

*Corequisite:* American Sign Language/Interpreting 115.  
*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.  
*Limitation on Enrollment:* This course is not open to students with previous credit for American Sign Language 101.  
This laboratory course provides students with the opportunity to apply their American Sign Language (ASL) skills through an individualized program, small groups and large group environment. Students utilize interactive media to express their comprehension of basic to intermediate ASL sentences and stories as well as to hone their signing skills. Lab activities are designed to provide students the opportunity to practice vocabulary and syntax at the intermediate level. This course is designed for students and/or professionals interested in working and interacting with Deaf people. (FT) AA/AS; CSU.

**116 American Sign Language Level II**

4 hours lecture, 4 units  
Grade Only

*Prerequisite:* American Sign Language/Interpreting 115 with a grade of “C” or better, or equivalent.  
*Corequisite:* American Sign Language/Interpreting 116L.  
*Limitation on Enrollment:* This course is not open to students with previous credit for American Sign Language 101.  
This course is a continuation of the study of American Sign Language (ASL) at the beginning intermediate level. Emphasis is placed on increasing development of students’ receptive and expressive skills through ASL vocabulary, fingerspelled signs and knowledge of Deaf Culture. Instruction includes a natural approach to teaching a second language by exposing students to authentic conversations in the classroom. This course is designed for students and/or professionals interested in working and interacting with Deaf people. (FT) AA/AS; CSU; UC.

**116L American Sign Language II (Lab)**

3 hours lab, 1 unit  
Grade Only

*Corequisite:* American Sign Language/Interpreting 116.  
*Limitation on Enrollment:* This course is not open to students with previous credit for American Sign Language 101.  
This laboratory course provides students with the opportunity to apply their American Sign Language (ASL) skills through an individualized program, small groups and large group environment. Students utilize interactive media to express their comprehension of basic to intermediate ASL sentences and stories as well as to hone their signing skills. Lab activities are designed to provide students the opportunity to practice vocabulary and syntax at the intermediate level. This course is designed for students and/or professionals interested in working and interacting with Deaf people. (FT) AA/AS; CSU.

**215 American Sign Language Level III**

4 hours lecture, 4 units  
Grade Only

*Prerequisite:* American Sign Language/Interpreting 116 with a grade of “C” or better, or equivalent.  
*Corequisite:* American Sign Language/Interpreting 215L.  
*Corequisite:* Completion of or concurrent enrollment in: American Sign Language/Interpreting 214 with a grade of “C” or better, or equivalent.
**Languages**

**AA/AS = Associate Degree Applicable**
**CSU = California State University Applicable**
**UC = University of California Applicable**

**Limitation on Enrollment:** This course is not open to students with previous credit for American Sign Language 200.

This third course in American Sign Language (ASL) is designed to enhance students' receptive and expressive skills at an advanced intermediate level. Emphasis is placed on the ASL syntax, facial grammar, vocabulary, and fingerspelling skills that enable students to participate in increasingly more complex conversations with Deaf community members. Instruction utilizes a natural approach to teaching a second language by engaging students in authentic conversations within the classroom environment. This course is intended for students or professionals interested in working and/or interacting with Deaf people. (FT) AA/AS; CSU; UC.

**215L American Sign Language III (Lab)**
3 hours lab, 1 unit
**Grade Only**

**Corequisite:** American Sign Language/Interpreting 215.

This laboratory course provides students with the opportunity to apply their American Sign Language (ASL) skills through an individualized program. Students utilize interactive media to express their comprehension of intermediate to advanced ASL sentences and narratives as well as to hone their signing skills. Lab activities are designed to provide students the opportunity to practice vocabulary and syntax at the intermediate to advanced level. This course is designed for students and/or professionals interested in working and interacting with Deaf people. (FT) AA/AS; CSU.

**216 American Sign Language Level IV**
4 hours lecture, 4 units
**Grade Only**

**Prerequisite:** American Sign Language/Interpreting 215 with a grade of “C” or better, or equivalent.  
**Corequisite:** American Sign Language/Interpreting 216L.

This fourth course in the study of American Sign Language (ASL) continues to build upon students’ receptive and expressive skills at the advanced level while expanding their knowledge of Deaf culture and the influences of other sign language systems. Emphasis is placed on advanced fingerspelling, ASL structure and vocabulary. Instruction utilizes a natural approach to teaching a second language by

**Arabic (ARAB)**

**101 First Course in Arabic**
5 hours lecture, 5 units
**Letter Grade or Pass/No Pass Option**

**Advisory:** English 48 with a grade of “C” or better, or equivalent or Assessment Skill Level R5.  
This course is an introduction to the sound and writing system of the Arabic language. The course also provides students with the basic structural and lexical knowledge to enable them to communicate orally and in writing in Arabic at a beginning level. Emphasis is placed on developing the students’ ability to perform language functions in real-life situations through structured activities and grammatical exercises and on providing students with an overview of Arabic culture. This course is for all students interested in learning Arabic. (FT) AA/AS; CSU; UC Transfer Limitation: Corresponds to two years of high school study.
102 Second Course in Arabic
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option

Prerequisite: Arabic 101 with a grade of “C” or better, or equivalent.
This interactive course builds upon the structural and lexical base of the Arabic language to move students from a beginning to a beginning-intermediate communication level through the introduction of a variety of noun and verb forms including the present and past tenses. Emphasis is placed on developing the student’s ability to perform language functions in real-life situations through structured activities and grammatical exercises and on providing students with an overview of Arabic history, customs and culture. This course is for students in their second semester of Arabic. (FT) AA/AS; CSU; UC.

105 Elementary Spoken Egyptian Arabic
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 48 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5.
This course focuses on Spoken Egyptian Arabic, the spoken language of Cairo. It is the most understood Arabic dialect of the Arab World. Emphasis is placed on oral comprehension, fluency and writing skills through verbal and written communication based on everyday situations, current events and culture. An introduction to basic grammar and syntax of Egyptian colloquial Arabic is included. This course is intended for students who are majoring in Arabic or those who want to learn Spoken Egyptian Arabic. (FT) AA/AS; CSU.

201A Third Course in Arabic
5 hours lecture, 5 units
Grade Only

Prerequisite: Arabic 102 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Arabic 201.
This course is an interactive study of Arabic at the intermediate level. Students use increasingly complex Arabic language structures and vocabulary to listen, speak, read and write at the intermediate level. This course is designed for all students interested in the Arabic language. (FT) AA/AS; CSU.

101 First Course in French
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option

Advisory: English 43 with a grade of “C” or better, or equivalent, or Assessment Skill Level W4.
Limitation on Enrollment: This course is not open to students with credit for French 100.
This is an entry-level course designed to introduce students to the French language and cultures of the French-speaking world. In this interactive course, students use the language by speaking, listening, reading, and writing at the novice level. Basic language structures and vocabulary for communication are examined and explored in French. (FT) AA/AS; CSU; UC. Transfer Limitation: Corresponds to two years of high school study.

102 Second Course in French
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option

Prerequisite: French 101 or two years of high school French, with a grade of “C” or better, or equivalent.
This course is a continuation of French 101 and is intended for students interested in further study of the French language and cultures of the French-speaking world. In this interactive course, students use listening, reading, speaking and writing at a more complex level than in the first course. The students further develop their receptive and productive competencies to the low or mid-intermediate level. Additional language structures and vocabulary for communication are examined and explored in French. (FT) AA/AS; CSU; UC.

201 Third Course In French
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option

Prerequisite: French 102 or three years of high school French with a grade of “C” or better, or equivalent.
This is an intermediate course in French. Language structures and vocabulary for communication are examined and explored through speaking, listening, reading and writing at the intermediate level. Students explore in more depth than in previous courses the history and the culture of the French-speaking world. This course is appropriate for students preparing for a major in French as well as
for those who wish to continue their studies of the French language and culture. (FT) AA/AS; CSU; UC.

202 Fourth Course in French
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option

Prerequisite: French 201, or four years of high school French, with a grade of “C” or better, or equivalent.
This is an advanced-intermediate course and is the fourth course in the French language sequence.
In this interactive course, language structures and vocabulary for communication are examined and studied through speaking, listening, reading and writing at the high-intermediate level. Students continue to explore the history and the culture of the French-speaking world. Readings of literary and culturally relevant authentic materials are examined in depth. This course is designed for students preparing for a major in French as well as for those who have a strong interest in the French language and culture. (FT) AA/AS; CSU; UC.

210 The Grammar of Spoken French
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: French 102 with a grade of “C” or better, or equivalent, or successful completion of three years of high school French.
Advisory: Concurrent enrollment in French 201.
This course further develops oral comprehension and fluency as well as written communication at a mid-intermediate level in French through culturally relevant materials. Students develop spoken and written vocabulary, dramatize everyday topics of conversation, interpret and describe materials, and compare and contrast the cultures of the French speaking world with U.S. culture both orally and in writing. Writing strategies are emphasized and literature is introduced. This course is intended for students who want to enhance their skills in the French language. Students who intend to major or minor in French are advised to take French 211 concurrently with French 202. (FT) AA/AS; CSU; UC.

211 The Grammar of Spoken French II
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: French 210 with a grade of “C” or better, or equivalent, or successful completion of three years of high school French.
This course develops oral comprehension and fluency as well as written proficiency in French at an advanced-intermediate level through reading, analyzing, discussing, and reporting on culturally relevant materials. Students develop oral and reading vocabulary skills, study the cultures of the French-speaking world, and further develop the reading strategies introduced in French 210 through reading literature. This course is intended for students who want to further enhance their skills in the French language. Students who plan to major or minor in French are advised to take French 211 concurrently with French 202. (FT) AA/AS; CSU; UC.

280 French Reading Seminar
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option

Guided reading in French literature adapted to individual interests and needs: novels, short stories, poetry, newspapers and magazines. Discussed in French by students during class. AA/AS; CSU.
This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

German (GERM)

101 First Course in German
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option

Advisory: English 48 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5.
Limitation on Enrollment: This course is not open to students with previous credit for German 100.
This is an introductory course designed to teach students to understand, speak, read and write German, and become familiar with recent German culture and history. Emphasis is placed on learning the fundamentals of grammar, speaking in simple sentences using correct pronunciation, responding to questions regarding everyday life, and reading short selections about everyday activities. Fundamentals of oral and written grammar and a
correct reading of simple German are practiced. This course is appropriate for students who are preparing to major in German as well as those who are interested in developing proficiency in the language. (FT) AA/AS; CSU; UC Transfer Limitation: Corresponds to two years of high school study.

102 Second Course in German
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: German 101 with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for German 100
This course is a continuation of German 101 and is designed to teach students to speak, read and write German at a low-intermediate level and enhance students’ familiarity with recent German culture and history. Emphasis is placed on improving students’ knowledge of fundamental grammar, reading more complex texts and speaking with moderate proficiency. This course is appropriate for students who plan to major in German as well as for those who are interested in developing proficiency with the language. (FT) AA/AS; CSU; UC.

201 Third Course in German
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: German 102 with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for German 200.
This course is a continuation of the basic fundamentals of German pronunciation, grammar, composition and reading covered in German 102. Emphasis is placed on further developing listening, speaking, reading and writing skills through course content based on everyday life as well as German history and culture at the advanced-beginning level. (FT) AA/AS; CSU; UC.

210 German Conversation and Composition I
3 hours lecture, 3 units
Grade Only
Prerequisite: German 201 with a grade of "C" or better, or equivalent.
This course develops oral comprehension, fluency and writing skills at an intermediate level in German through verbal and written communication based on everyday situations, current events and culture. Emphasis is placed on increased vocabulary through class discussions, prepared talks and short compositions in German. This course is intended for students who want to further enhance their skills in German. (FT) AA/AS; CSU; UC.

211 German Conversation and Composition II
3 hours lecture, 3 units
Grade Only
Prerequisite: German 210 with a grade of "C" or better, or equivalent.
This course further develops oral comprehension, fluency and writing skills at an advanced-intermediate level in German through verbal and written communication based on culturally relevant material. Emphasis is placed on increased vocabulary through written and oral dramatizations, descriptions and interpretations of everyday life situations and of German, Swiss-German and Austrian culture. This course is intended for students who want to further enhance their skills in German. (FT) AA/AS; CSU; UC.

Italian (ITAL)

101 First Course in Italian
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 with a grade of "C" or better, or equivalent, or Assessment Skill Level R5.
Limitation on Enrollment: This course is not open to students with credit for Italian 100.
This is the first course in the sequence of study of the Italian language and culture. In this interactive course, students use Italian in speaking, listening, reading, and writing at the novice level. Basic language structures and vocabulary for communication are examined and explored in Italian. Students with two years of high school Italian are eligible to enroll in Italian 101. (FT) AA/AS; CSU; UC Transfer Limitation: Corresponds to two years of high school study.

102 Second Course in Italian
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Italian 101 with a grade of "C" or better, or equivalent. Students with two years of high school Italian are eligible to enroll in this course.
Advisory: concurrent enrollment in Italian 296
Limitation on Enrollment: This course is not open to students with credit for Italian 100.
This is a continuation of Italian 101. In this interactive course, students use listening, reading, speaking and writing at a more complex level. The students further develop their receptive and productive languages competencies at the low- to mid- intermediate level. Additional language structures and vocabulary for communication are examined and explored in Italian. (FT) AA/AS; CSU; UC.

201 Third Course in Italian
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Italian 102 with a grade of “C” or better, or equivalent or three years of high school Italian or equivalent.
Advisory: Concurrent enrollment in Italian 296 with a grade of “C” or better, or equivalent. This is an intermediate course in Italian. In this interactive course, students use the language through speaking, listening and writing at the intermediate level. More complex language structures and vocabulary for communication are examined and explored through cultural material. This course is intended for students interested in continuing the study of Italian. (FT) AA/AS; CSU; UC.

210 The Grammar of Spoken Italian I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Italian 210 is designed to give students abundant practice in developing oral and written fluency in the language. Topics providing basis for discussion and prepared talks will include everyday life situations, current event, and culture. (FT) AA/AS; CSU; UC.

211 The Grammar of Spoken Italian II
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Italian 211 is a continuation of Italian 210 at a more advanced level. Topics providing basis for discussion and prepared talks will include everyday life situations, current events, and culture. (FT) AA/AS; CSU; UC.

290 Independent Study
Hours by Arrangement, 1-3 units
Letter Grade or Pass/No Pass Option
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
For intermediate students who wish to work on special projects. AA/AS; CSU.

Russian (RUSS)

101 First Course in Russian
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5. This is an entry level course designed to introduce students to the Russian language and cultures of the Russian-speaking world. In this interactive course, students learn and use the language by speaking, listening, reading, and writing at the novice level. Basic language structures and vocabulary for communication are examined and explored in Russian. (FT) AA/AS; CSU; UC. Transfer Limitation: Corresponds to two years of high school study.

Spanish (SPAN)

86A Spanish for Law Enforcement Officers
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: Spanish 201 with a grade of “C” or better, or equivalent. Students are recommended to have some previous knowledge of the Spanish language before enrolling in Spanish 086A.
This course is open to any student that may or may not be pursuing a career in law enforcement. It is a practical study of Spanish for students employed in the field of law enforcement, especially those enrolled in the San Diego Police Department Language Certificate Program. Emphasis is placed on developing Spanish language skills and cultural understanding through activities and role play related to application in the field of law enforcement. In addition to students enrolled in the San Diego Police Department Language Certificate Program, this course is open to those working in other areas of law enforcement, such as the County Sheriff’s Department and the Border Patrol. (FT) AA/AS.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
101 First Course in Spanish
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Advisory: English 43 with a grade of “C” or better, or equivalent or Assessment Skill Level W4.
Limitation on Enrollment: This course is not open to students with previous credit for or concurrent enrollment in Spanish 100.
This entry level course introduces students to the Spanish language and cultures of the Spanish-speaking world. In this interactive course, students learn and use the language by speaking, listening, reading, and writing at the novice level. They also examine and explore basic Spanish language structures and vocabulary. This course is intended for beginning students who seek basic proficiency in the Spanish language, students who want to take other Spanish courses and students who want to learn Spanish for their personal enrichment. (FT) AA/AS; CSU; UC Transfer Limitation: Corresponds to two years of high school study. Spanish (SPAN) 100, 101-102 combined: maximum credit, 10 units.

102 Second Course in Spanish
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Spanish 101 with a grade of “C” or better, or equivalent or two years of high school Spanish with a grade of ‘C’ or better, or equivalent.
Advisory: English 43 with a grade of “C” or better, or equivalent or Assessment Skill Level W4.
Limitation on Enrollment: This course is not open to students with previous credit for or concurrent enrollment in Spanish 100.
In this interactive continuation of first-semester Spanish, students develop listening, reading, speaking, and writing skills at a more complex level. Students further develop their receptive and productive competencies to the intermediate low/mid level. The course explores additional Spanish language structures and vocabulary for communication. This course is intended for students who want to further their basic proficiency in the Spanish language, students who want to take a third-semester Spanish course, and students who want to continue learning Spanish for their personal enrichment. (FT) AA/AS; CSU; UC Transfer Limitation: Spanish (SPAN) 100, 101-102 combined: maximum credit, 10 units.

201 Third Course in Spanish
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Spanish 102 with a grade of “C” or better, or equivalent, or three years of high school Spanish. This course is an interactive study of Spanish at the intermediate level with increased emphasis on reading and writing while listening and speaking skills continue to develop. The course material emphasizes formal study of the language structure and further development of vocabulary and functional competence. The course also provides for increased awareness of cultural norms, values, and culturally relevant and appropriate customs and events. The content is expanded beyond “survival” needs in the immediate environment and deals in greater detail in areas such as the arts, the environment, social interactions, careers and professions and general feelings. This course is intended for students who are planning to major in Spanish as well as those who are interested in studying the language. (FT) AA/AS; CSU; UC Transfer Limitation: Spanish (SPAN) 201-202 and Chicano Studies (CHIC) 203-204 combined: maximum credit, one series.

202 Fourth Course in Spanish
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Spanish 201 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Spanish 200.
This course is offered as an advanced intermediate level course. It reviews and furthers grammatical features in Spanish through oral and written communication within a cultural background. Readings of literary and/or culturally relevant authentic materials are examined in depth. (FT) AA/AS; CSU; UC Transfer Limitation: Spanish (SPAN) 201-202 and Chicano Studies (CHIC) 203-204 combined: maximum credit, one series.

210 Conversation and Composition Spanish I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Spanish 102 with a grade of “C” or better, or equivalent.
This course further develops oral comprehension and fluency as well as written communication at a mid-intermediate level in Spanish through culturally relevant materials. Students increase vocabulary, dramatize everyday topics of conversation, interpret
and describe materials, and compare and contrast Latin American and Spanish cultures with U.S. culture both orally and in writing. Writing strategies are emphasized and literature is introduced. This course is intended for students who want to enhance their skills in the Spanish language. (FT) AA/AS; CSU; UC.

### 211 Conversation and Composition
#### Spanish II

*3 hours lecture, 3 units*

**Letter Grade or Pass/No Pass Option**

**Prerequisite:** Spanish 210 with a grade of “C” or better, or equivalent.

This course further develops oral comprehension and fluency as well as written communication at an advanced intermediate level in Spanish through culturally relevant materials. Students further increase vocabulary, dramatize everyday topics of conversation, interpret and describe materials, and compare and contrast Latin American and Spanish cultures with U.S. culture, both orally and in writing. Pre-reading strategies introduced in Spanish 210 are used as a basis upon which to build course emphasis in reading. More literature is introduced. This course is intended for students who want to further enhance their skills in Spanish. (FT) AA/AS; CSU; UC.

### 215 Spanish for Spanish Speakers I

*5 hours lecture, 5 units*

**Letter Grade or Pass/No Pass Option**

**Limitation on Enrollment:** This course is not open to students with previous credit for Spanish 201.

This course is designed for students who are fluent in spoken, informal Spanish and who need to improve their writing, reading, and grammar skills. Emphasis is placed on formal, written communication skills in Spanish at the intermediate level, and the study of Hispanic and Chicano culture through contemporary reading materials. The course focuses on language challenges particular to Spanish speakers such as orthography, the inappropriate mix of English and Spanish, and contrasts between standard Spanish and regional variations. This course is conducted entirely in Spanish. (FT) AA/AS; CSU; UC.

### 216 Spanish for Spanish Speakers II

*5 hours lecture, 5 units*

**Letter Grade or Pass/No Pass Option**

**Prerequisite:** Spanish 215 or Spanish 201 with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** This course is not open to students with previous credit for Spanish 202, or to Spanish speakers who have received the equivalent of a high school degree in a Spanish speaking country.

This course is the continuation of Spanish 215. It is designed for students who are fluent in spoken, informal Spanish and who need to improve their writing, reading, and grammar skills. It furthers the mastery of formal, written communication in Spanish at the intermediate-advanced level, while integrating instruction in Hispanic and Chicano culture through increased practice in intermediate-advanced level readings, relevant, and authentic materials. The course focuses on language challenges that Spanish speakers still encounter at intermediate-advanced level, such as orthography, the inappropriate mix of English and Spanish in specific contexts, and standard Spanish as contrasted with regional variations. This course is conducted entirely in Spanish. (FT) AA/AS; CSU; UC.

### 290 Independent Study

*Hours by Arrangement, 1-3 units*

**Letter Grade or Pass/No Pass Option**

**Limitation on Enrollment:** Must obtain an Add Code from instructor for registration.

For intermediate students who wish to work on special projects. AA/AS.

### 296 Individual Instruction in Spanish

*1.5 - 6 hours lab, 0.5 - 2 units*

**Pass/No Pass Only**

**Limitation on Enrollment:** Concurrent enrollment in a designated Spanish course is required. The instructor of the related course will supply Add Code to the student, which permits registration in the course.

This is a supplementary course designed to reinforce student achievement of the learning objectives and is offered concurrently with a designated Spanish course. Learning activities may employ a variety of self-paced multimedia systems or laboratory or field research arrangements to assist students in reaching the specific learning objectives in the concurrent Spanish course. AA/AS; CSU.

**CSU = California State University Applicable**  
**UC = University of California Applicable**
Legal Assistant (Paralegal)

There is currently no program in Legal Assistant or Paralegal at City College. The following courses are offered and may be used as Associate Degree electives.

100A Introduction to Paralegalism
1 hour lecture, 1 unit
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.
Limitation on Enrollment: This course is not open to students with previous credit for Legal Assistant 100.
This introductory course for students entering the paralegal program provides an overview of the paralegal’s role in the workplace and legal system. Topics include controversies within the profession, ethics and responsibilities, sources of law, legal-research technology, and an introduction to federal and state court systems. (FT) AA/AS; CSU.

100B Legal Procedures
2 hours lecture, 2 units
Grade Only
Prerequisite: Legal Assistant 100A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Legal Assistant 100, Administration of Justice 105, or Business 180.
This core course provides an overview of the various legal specialties offered within the paralegal program. Topics include litigation, torts, bankruptcy, family law, contract law, corporate law, trusts and wills, federal court practices and procedures, legal writing, immigration and legal research. Students learn specialized legal terminology and technology. This course is intended for students majoring in Paralegal. (FT) AA/AS; CSU.

105 Legal Research
3 hours lecture, 3 units
Grade Only
Prerequisite: Legal Assistant 100B with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Administration of Justice 107 or Business 181.
This core course introduces students to legal research. Topics include an overview of research methods used, the primary and secondary sources available, an understanding of official and unofficial opinions, a review of binding and persuasive authority, the Shepard’s system of validating cases and statutes, use of Internet research, and an introduction to LexisNexis and Westlaw. This course is intended for students majoring in Paralegal. (FT) AA/AS; CSU.

110 Legal Writing & Communications
3 hours lecture, 3 units
Grade Only
Prerequisite: Legal Assistant 105 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Administration of Justice 108 or Business 182.
This core course covers legal writing and oral communication. Topics include case analysis, legal reasoning, brief writing, legal memoranda, reports, and correspondence. This course is intended for students majoring in Paralegal. (FT) AA/AS; CSU.

115 Civil Litigation - Procedures
3 hours lecture, 3 units
Grade Only
Prerequisite: Legal Assistant 100B with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Legal Assistant 109 or Business 183.
This course introduces students to the civil litigation process. Students examine the basic principles of civil procedures as applicable to both plaintiffs and defendants in the California court system. Other topics include jurisdiction, venue, discovery and preparation of pleadings. This course is intended for students majoring in Paralegal. (FT) AA/AS; CSU.
120 Tort Law

3 hours lecture, 3 units
Grade Only

Corequisite: Completion of or concurrent enrollment in Legal Assistant 100B with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Administration of Justice 110 or Business 184.

This core course introduces students to the broad area of civil wrongs and their appropriate remedies. Topics include tort law principles in the traditional areas of intentional torts, negligence, strict liability, product liability, nuisance, and commonly employed defenses. This course is intended for students majoring in Paralegal. (FT) AA/AS; CSU.

180 Contract Law

3 hours lecture, 3 units
Grade Only

Corequisite: Completion of or concurrent enrollment in Legal Assistant 100B with a grade of “C” or better, or equivalent.

This course provides students with the knowledge and skills for drafting and interpreting different types of contracts. Topics include elements of a contract, performance and breach issues, defenses to formation and enforcement, contract remedies, and third party contracts. This course is intended for students majoring in Paralegal. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Associate in Arts Degree:
Area of Emphasis in Visual and Performing Arts 18*
Area of Emphasis in Language Arts and Humanities 18*

Area of Emphasis in Scientific Studies:
Biological Sciences Specialization 18*
Mathematics and Pre-Engineering Specialization 18*
Physical and Earth Sciences Specialization 18*
Area of Emphasis in Elementary (Multiple Subject) Teaching Preparation 33*
Area of Emphasis in Social and Behavioral Sciences 18*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description

The Liberal Arts and Sciences Degree is designed to enable students to complete the requirements for an Associate in Arts Degree with a minimum of 18 units in an area of emphasis and transfer to a University of California, a California State University or an independent/private college and university.

To meet the Liberal Arts and Sciences Degree requirements a student must complete the following:

1. One of the following four general education options
   - San Diego Community College District General Education and District Requirements. This GE pattern may fulfill all lower division general education requirements at an independent/private college or university. (See City College catalog page 80.)
   - CSU General Education - Breadth (CSU GE Pattern). This GE pattern will fulfill all lower division general education requirements

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Area of Emphasis in Visual and Performing Arts:

These courses emphasize the study of artistic activities and artistic expression of human beings. Students evaluate and interpret the ways in which people through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments.

Common university majors in this emphasis include: Applied Design, Art, Art History, Arts and Crafts, Dance, Drama, Graphic Communications, Graphic Design, Industrial Arts, Painting and Printmaking, Photography, Sculpture, Studio Arts, Theatre Arts, Performing Arts.

This degree is designed to accommodate the differing requirements of a wide variety of transfer institutions and major options. Because admission and major preparation requirements vary at each transfer institution, courses used to complete this major should be selected with the assistance of a San Diego City College counselor.

Associate in Arts Degree: Liberal Arts and Sciences with an Emphasis in Visual and Performing Arts

Students should complete a minimum of 18 units in Visual and Performing Arts courses. Courses can only be counted once toward the major.

### Area of Emphasis in Language Arts and Humanities:

These courses emphasize the study of cultural, literary, and humanistic activities of human beings. Students evaluate and interpret the ways in which people through the ages in different cultures have responded to themselves and the world around them in cultural creation. Students also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments.

Common university majors in this emphasis include: Advertising, American Studies, Broadcast Media, Classics, Communication, Comparative Literature, Creative Writing, English, Ethics, Foreign Languages, Humanities, Journalism, Language Studies, Linguistics, Literature, Media Studies, Mass Communications, Philosophy, Public Relations, Religious Studies, Speech Communication, Television and Film, Women's Studies.

This degree is designed to accommodate the differing requirements of a wide variety of transfer institutions and major options. Because admission and major preparation requirements vary at each transfer institution, courses used to complete this major should be selected with the assistance of a San Diego City College counselor.

### Associate in Arts Degree: Liberal Arts and Sciences with an Emphasis in Language Arts and Humanities

#### Description

Area of Emphasis in Scientific Studies:
These courses emphasize the study of mathematical and quantitative reasoning skills and impart knowledge of the facts and principles that form the foundations of living and non-living systems. Students recognize and appreciate the methodologies of science as investigative tools, as well as the limitations of scientific endeavors. This area is divided into the following specializations: Biological Science, Mathematics and Pre-engineering, Physical and Earth Sciences.

Associate in Arts Degree: Liberal Arts and Sciences with an Emphasis in Scientific Studies Biological Sciences Specialization
The specialization in Biological Science is intended for students who plan to complete a bachelor’s degree at a transfer institution in a biology-related major.

Common university majors in this field include: Agricultural Science, Biochemistry, Bioengineering, Bioinformatics, Biological Sciences, Biophysics, Biotechnology, Botany, Cell Biology, Conservation, Developmental Biology, Ecology, Entomology, Life Science, Genetics, Marine Biology, Medical Sciences, Microbiology, Molecular Biology, Natural Sciences, Neuroscience, Psychobiology, Toxicology, and Zoology/Animal Sciences.

This degree is designed to accommodate the differing requirements of a wide variety of transfer institutions and major options. Because admission and major preparation requirements vary at each transfer institution, courses used to complete this major should be selected with the assistance of a San Diego City College counselor.

Courses Required for the Major:
Students should complete a minimum of 18 units in Biological Science courses:

Biol 101  Issues in Environmental Biology (C)
Biol 107  General Biology - Lecture and Laboratory
Biol 110  Introduction to Oceanography (C, M)
Biol 111  Cancer Biology
Biol 115  Marine Biology
Biol 130  Human Heredity
Biol 135  Biology of Human Nutrition
Biol 180  Plants and People
Biol 200  Biological Statistics (C, M) or  Math 119  Elementary Statistics or  Psyc 258  Behavioral Science Statistics
Biol 205  General Microbiology
Biol 210A  Introduction to the Biological Sciences I
Biol 210B  Introduction to the Biological Sciences II
Biol 215  Introduction to Zoology
Biol 230  Human Anatomy
Biol 235  Human Physiology
Chem 200  General Chemistry I - Lecture
Chem 200L  General Chemistry I - Laboratory
Chem 201  General Chemistry II Lecture
Chem 201L  General Chemistry II Laboratory
Cisc 190  Java Programming
Cisc 192  C/C++ Programming
Phys 125  General Physics
Phys 126  General Physics II
Phys 180A  General Physics I
Phys 180B  General Physics II
Phys 181A  General Physics Lab I
Phys 181B  General Physics Lab II
Phys 195  Mechanics
Phys 196  Electricity and Magnetism
Phys 197  Waves, Optics and Modern Physics

Total Units = 18

Associate in Arts Degree: Liberal Arts and Sciences with an Emphasis in Scientific Studies Mathematics and Pre-Engineering Specialization
The specialization in Mathematics and Pre-Engineering is intended for students who plan to complete a bachelor’s degree at a transfer institution in a mathematical, computer science or engineering related major.

Common university majors in this field include: Aerospace Engineering, Applied Mathematics, Civil Engineering, Cognitive Science, Computer

This degree is designed to accommodate the differing requirements of a wide variety of transfer institutions and major options. Because admission and major preparation requirements vary at each transfer institution, courses used to complete this major should be selected with the assistance of a San Diego City College counselor.

### Courses Required for the Major:

**Students should complete a minimum of 18 units including both Mathematics and Pre-Engineering courses:**

Area of Emphasis in Elementary (Multiple Subject) Teaching Preparation:

These courses are intended for students who plan to complete a bachelor’s degree at a transfer institution in preparation for a California Multiple Subject
Teaching Credential. Most students pursue this credential with the goal of becoming an elementary school or special education teacher.

**Common university majors in this field include:** Liberal Studies, Human Development, Interdisciplinary Studies, and Teacher Preparation.

This degree is designed to accommodate the differing requirements of a wide variety of transfer institutions and major options. Because admission and major preparation requirements vary at each transfer institution, courses used to complete this major should be selected with the assistance of a San Diego City College counselor.

**Associate in Arts Degree: Liberal Arts and Sciences with an Emphasis in Elementary (Multiple Subject) Teaching Preparation**

**Courses Required for the Major:**

Students should complete a minimum of 33 units in Elementary (Multiple Subject) Teaching Preparation courses:

- AMSL 116 American Sign Language Level II
- ARAB 102 Second Course in Arabic
- ARTF 100 Art Orientation
- BIOL 107 General Biology-Lecture and Laboratory
- BIOL 210A Introduction to the Biological Sciences I
- BLAS 140A History of the U.S., Black Perspectives
- BLAS 140B History of the U.S., Black Perspectives
- CHEM 111 Chemistry in Society
- CHEM 111L Chemistry in Society Laboratory
- CHIC 141A United States History from a Chicano Perspective
- CHIC 141B United States History from a Chicano Perspective

**Total Units = 33**
Area of Emphasis in Social and Behavioral Sciences:
These courses emphasize a multidisciplinary approach to the understanding and study of human behavior. Students evaluate and interpret human societies; the institutions, organizations and groups that compose them; and the way individuals and groups relate to one another. Students develop an appreciation of the various approaches and methodologies of the disciplines.

The area of Social and Behavioral Science is intended for students who plan to complete a bachelor’s degree at a transfer institution in a social and behavioral science-related major.

Common university majors in this field include:

This degree is designed to accommodate the differing requirements of a wide variety of transfer institutions and major options. Because admission and major preparation requirements vary at each transfer institution, courses used to complete this major should be selected with the assistance of a San Diego City College counselor.

Associate in Arts Degree: Liberal Arts and Sciences with an Emphasis in Social and Behavioral Sciences

Courses Required for the Major:
Students should complete a minimum of 18 units including both Social and Behavioral Science courses:

**Library Science**

There is currently no program in Library Science. The following course is offered and may be used as an associate degree elective.

**Courses**

**Library Science (LIBS)**

101 Information Literacy and Research Skills
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; or English 37A, English 37B, or English 64 each with a grade of “C” or better, or equivalent.

This course is an overview of information resources and the skills required to use them effectively. Students learn how to use library resources such as electronic indexes and databases, online services, and the Internet, as well as learn to develop strategies for conducting research. This course is intended for students who wish to acquire skills that enable them to find information for academic research, career demands, and/or lifelong learning. (FT) AA/AS; CSU; UC.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

**Life Sciences**

Mathematics

Award Type | Units
--- | ---
**Associate in Arts Degree:**
Mathematics | 22-23*
Applied Mathematics | 23*

**Associate in Science Degree:**
Mathematics for Transfer | 19-21*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
Mathematics is the study of numbers, structures, and associated relationships using rigorously defined literal, numerical and operational symbols. Given certain conditions about systems of numbers or other structures mathematicians derive conclusions based on logical arguments. Basic mathematical skills enable a person to solve numerical problems encountered in daily life, and more advanced skills have numerous applications in the physical, social and life sciences.

Program Emphasis
The mathematics curriculum includes courses that range from basic skills through differential equations. The basic skills and associate degree level courses provide students with the mathematical preparation necessary for study in other disciplines, as well as for degree and transfer requirements. Successful completion of a mathematics degree will develop competence in mathematics through differential and integral calculus, providing an adequate background for employment in many technological and scientific areas. Furthermore, it provides a firm foundation for students planning to study mathematics, engineering, economics, computer science, physical, social or life sciences.

Career Options
Most of these occupations require education beyond the associate degree, and some may require a graduate degree. The following list is not intended as a comprehensive list of career options in mathematics: actuary, appraiser, assessor, auditor, biometrician, budget analyst, controller, computer analyst, computer programmer, demographer, econometrician, engineering analyst, epidemiologist, financial analyst, investment analyst, management scientist, operations researcher, research mathematician, statistician, surveyor, systems analyst, teacher, technical writer, and urban planner.

Student Learning Outcomes
**Math Developmental Program**
Students who complete the program will be able to:

- Provide examples of on-campus resources for math support.
- Perform mathematical operations on various structures, including fractions, without the use of technology.
- Translate word problems into mathematical expressions or equations.
- Solve equations properly, logically and with written explanations.

**Math Transfer Program**
Students who complete the program will be able to:

- Analyze, model, and clearly and effectively communicate a solution to a math problem.
- Apply mathematical skills to solve real-world situations relevant to their major.
• Analyze functions by several means and incorporate these into the use of problem solving.
• Apply technology to enhance mathematical thinking and understanding and to solve mathematical problems.

Academic Programs
The associate degree in Mathematics requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Associate in Arts Degree: Mathematics

Courses Required for the Major: Units
MATH 150 Calculus & Analytical Geometry I 5
MATH 151 Calculus & Analytical Geometry II 4
MATH 245 Discrete Mathematics 3
MATH 252 Calculus & Analytical Geometry III 4
MATH 254 Introduction to Linear Algebra 3
Select three to four units from:
MATH 107 Introduction to Scientific Programming 3
MATH 107L Introduction to Scientific Programming Lab 1
MATH 119 Elementary Statistics 3
MATH 255 Differential Equations (for University of California transfer) 3
PHIL 101 Symbolic Logic 3

Total Units = 22-23

Associate in Science Degree: Mathematics for Transfer

Program Description:
The Associate in Science in Mathematics for Transfer is intended for students who plan to complete a bachelor’s degree in Mathematics or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree. Students who plan to complete this degree should consult a counselor for additional information about participating CSU campuses as well as university admission, degree and transfer requirements.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

Note: It is recommended that students intending to transfer to San Diego State University (SDSU) Mathematics, Emphasis in Science major should complete the courses marked with a “#”. Students intending to transfer into this major at other CSUs should consult a counselor and visit www.assist.org for guidance on appropriate coursework.

*Course also fulfills general education requirements for the CSU GE or IGETC pattern.

** Both courses must be completed prior to completing the degree to receive credit for SDSU.

# This course fulfills SDSU’s lower division preparation for the major in History under the TMC.

General Education: In addition to the courses listed above, students must complete one of the following general education options:
• The IGETC pattern (page 102) is accepted by all CSU campuses and most UC campuses and majors. It is also accepted by some private/independent or out of state universities.

• The CSU GE pattern (page 109) is accepted by all CSU campuses and some private/independent or out of state universities. It is not accepted by the UC system.

Electives as needed to meet maximum of 60 CSU-transferable units required for the degree.

Career Options:
Careers related to this field typically require education beyond the associate degree level and some may require a graduate degree.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Mathematics (MATH)

Basic Skills Courses
All courses at this level are offered for college credit. Credit for these courses will not apply toward the associate degree but will count toward the determination of a student’s workload and eligibility for financial aid.

15A Prealgebra Refresher
3 hours lab, 1 unit
Pass/No Pass

This course is intended for students who have completed the math assessment with a level of M20 (prealgebra) and wish to improve their placement level; students who have successfully completed Prealgebra but need more review; or students who unsuccessfully attempted Beginning Algebra and need review of Prealgebra skills. The course consists of personalized computer assisted instruction to refresh those concepts identified as needed for each student. Successful completion of this course may serve as a basis for a petition to challenge a Prealgebra prerequisite. This course will not replace a failing grade in Prealgebra. Not Applicable to Associate Degree.

15B Elementary Algebra and Geometry Refresher
3 hours lab, 1 unit
Pass/No Pass

This course is intended for those students who have completed the math assessment with a level of M30 (beginning algebra and geometry) and wish to improve their placement level; students who have successfully completed Beginning Algebra but need more review; or students who unsuccessfully attempted Intermediate Algebra and need review
of Beginning Algebra and Geometry skills. The course consists of personalized computer assisted instruction to refresh those concepts identified as needed for each student. Successful completion of this course may serve as a basis for a petition to challenge a Beginning Algebra prerequisite. This course will not replace a failing grade in Beginning Algebra. Not Applicable to Associate Degree.

15C Intermediate Algebra and Geometry Refresher

3 hours lab, 1 unit
Pass/No Pass

This course is intended for those students who have completed the math assessment with a level of M40 (intermediate algebra and geometry) and wish to improve their placement level; students who have successfully completed Intermediate Algebra but need more review; or students who unsuccessfully attempted a transfer level math class and need review of Intermediate Algebra and Geometry skills. The course consists of personalized computer assisted instruction to refresh those concepts identified as needed for each student. Successful completion of this course may serve as a basis for a petition to challenge an Intermediate Algebra prerequisite. This course will not replace a failing grade in Intermediate Algebra. Not Applicable to Associate Degree.

15D Geometry Refresher

3 hours lab, 1 unit
Pass/No Pass

This course is intended for those students who have completed a high school geometry course or for those students who have completed Intermediate Algebra and Geometry and need to review geometric principles prior to taking Math for Elementary Teachers or Trigonometry. The course consists of personalized computer assisted instruction to refresh those concepts identified as needed for each student. (FT) Not Applicable to Associate Degree.

15E Trigonometry Refresher

3 hours lab, 1 unit
Pass/No Pass

This course is intended for those students who have completed the math assessment with a level of M50 who need to review their Trigonometry knowledge prior to taking Precalculus or Calculus. Students begin at the level of their original placement and, working at their own pace, may improve their placement up to M60 (precalculus level). The course consists of personalized computer assisted instruction to refresh those concepts identified as needed for each student. (FT) Not applicable to the Associate Degree.

15F College Algebra Refresher

3 hours lab, 1 unit
Pass/No Pass

This course is intended for those students who have completed the math assessment with a level of M50 and need to review their College Algebra skills prior to taking a Calculus sequence. The course consists of personalized computer assisted instruction to refresh those concepts identified as needed for each student. Successful completion of this course may serve as a basis for a petition to challenge a College Algebra prerequisite. Students wishing to challenge Pre-calculus must also show competence in Trigonometry. (FT) Not applicable to the Associate Degree.

34A Basic Mathematics and Study Skills

4 hours lecture, 4 units
Letter Grade or Pass/No Pass Option
(Formerly Mathematics 32)
Advisory: English 42 or English for Speakers of Other Languages 31, with a grade of "C" or better, or equivalent, or Assessment Skill Levels R4 or L40.
Limitation on Enrollment: This course is not open to students with previous credit for Mathematics 32.
This course is an introduction to fundamental concepts of arithmetic. Emphasis is placed on addition, subtraction, multiplication, division and exponentiation on whole numbers, fractions, and decimals. Topics also include simple percents and ratios, systems of measurement, and applications of these topics. Students learn basic study skills necessary for success in mathematics courses. This course is intended for students preparing for Pre-algebra. (FT) Not applicable to the Associate Degree.

38 Pre-Algebra and Study Skills

4 hours lecture, 4 units
Letter Grade or Pass/No Pass Option
(Formerly Mathematics 35)
Advisory: English 42 or English for Speakers of Other Languages 31 and Mathematics 34A, with a grade of
“C” or better, or equivalent, or Assessment Skill Levels R4 or L40 and M20.

Limitation on Enrollment: This course is not open to students with previous credit for Mathematics 35. This course is a study of the fundamentals of arithmetic operations with signed numbers, including fractions and decimals as well as an introduction to some elementary topics in beginning algebra. Topics also include ratios and proportions, perfect squares and their square roots, elementary topics in geometry, systems of measurement, and monomial arithmetic. Students learn basic study skills necessary for success in mathematics courses. This course is intended for students preparing for Beginning Algebra. (FT) Not Applicable to the Associate Degree.

42 Fundamentals of Mathematics
3 hours lecture, 3 units
Pass/No Pass Only

Limitation on Enrollment: This course is not open to students with previous credit for Mathematics 54, 90, 91 or 95.
This course is intended for students who have not passed the California State University Entry-Level Mathematics Examination (ELM). This course reviews arithmetic and geometric concepts, and covers topics in elementary algebra including operations with polynomials, factoring, rational expressions, expressions involving radicals, solving non-linear equations, graphing linear equations, and solving linear systems of equations in two variables. Not Applicable to Associate Degree, pre-collegiate basic skills - reading, writing, computation.

43 Algebra for Math Placement
3 hours lecture, 3 units
Pass/No Pass Only

Advisory: Mathematics 42 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Mathematics 96, 100 or 91.
This course is a continuation of Mathematics 042 and is intended for those students who have not passed the California State University Entry-Level Mathematics Examination (ELM). This course is designed to prepare students for college algebra and consists of a review of intermediate algebra concepts. Topics for the class include set and function notation, simplifications and solutions to equations involving rational and radical expressions, quadratic equations and functions, complex numbers, exponential and logarithmic functions and applications. Not Applicable to Associate Degree, pre-collegiate basic skills - reading, writing, computation.

46 Elementary Algebra and Geometry
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
(Formerly Mathematics 95)
Prerequisite: Mathematics 38 with a grade of “C” or better, or equivalent, or Assessment Skill Level M30.
Advisory: Completion of or concurrent enrollment in: English 43 and English 48, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels W4 and R5.
Limitation on Enrollment: This course is not open to students with previous credit for Mathematics 95 with a grade of “C” or better.
Elementary algebra and geometry serves as the foundation for the other math courses and is the first of a two-course integrated sequence in algebra and geometry intended to prepare students for transfer level mathematics. This course covers the real number system; writing, simplifying, solving and graphing of linear equations in one variable; solving linear inequalities in one variable; solving systems of linear equations in two variables; algebraic operations with polynomial expressions and factoring; functions; operations involving rational expressions and related equations; and geometric properties of lines, angles, and triangles. This course is intended for students preparing for higher-level geometry and algebra courses. (FT) Not Applicable to Associate Degree, basic skills.

AA/AS Courses

85 Practical Career Mathematics
3 hours lecture, 3 units
Grade Only

Prerequisite: Mathematics 46 with a grade of “C” or better, or equivalent, or Assessment Skill Level M40.
Advisory: English 43 with a grade of “C” or better, or equivalent, or Assessment Skill Level W4.
This course is a study of the practical applications of linear, quadratic and exponential growth models. Topics also include statistical methods, geometry, right triangle trigonometry and finance math. This course will develop math literacy through the use of current events and real life applications. This course is designed for students who are earning an associate’s degree and who are not planning to transfer to a four-year institution. (FT) AA/AS.
96 Intermediate Algebra and Geometry
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option

Prerequisite: Mathematics 46 with a grade of “C” or better, or equivalent or Assessment Skill Level M40.
Advisory: English 48 and English 43, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W4.
Intermediate algebra and geometry is the second of a two-course integrated sequence in algebra and geometry. This course covers systems of equations and inequalities, radical and quadratic equations, quadratic functions and their graphs, complex numbers, nonlinear inequalities, exponential and logarithmic functions, conic sections, sequences and series, and solid geometry. The course also includes application problems involving these topics. This course is intended for students preparing for transfer-level mathematics courses. (FT) AA/AS.

98 Technical Intermediate Algebra and Geometry
4 hours lecture, 4 units
Letter Grade or Pass/No Pass Option

Prerequisite: Mathematics 46 with a grade of “C” or better, or equivalent or Assessment Skill Level M40.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course introduces an applied technology approach to problem solving in Intermediate Algebra and Geometry, and it is intended to support the curriculum required in the Engineering and applied technologies majors. Students are expected to apply problem solving techniques to technology-based situations in their technical physics and applied technology courses. Topics include scientific notation, algebra of functions, linear systems of equations, graphing using log and semi-log paper, technology applications of quadratic, exponential and logarithmic functions, right triangle trigonometry, applications in electronics of vectors and phasors. Special emphasis will be placed on the use of the graphing calculator and mathematical software packages to solve application problems. (FT) AA/AS.

Statistical Pathway

Math 47A, and Math 115 are a two-course sequence of courses that take a student with a Math skill level of 30 or placement into Math 46, from Beginning Algebra through a transfer level statistics course. Math 47A is a basic skills class, while Math 115 is a transfer level class that focus on statistics, data analysis, and quantitative reasoning. These are mathematics skills that are essential for a growing number of occupations and professions. This is the math that will help students understand the world around them and it is math you can use immediately. This path of courses is referred to as Statistics Pathway, (or Statway for short), and is designed for liberal arts, non-STEM social science majors (STEM = Science, Technology, Engineering and Mathematics). This pathway of courses will not satisfy any requirements for students that are planning on studying science or science related fields. Students need to make an appointment with their counselors to determine if this sequence is appropriate for them.

47A Beginning Algebra and Practical Descriptive Statistics
3 hours lecture, 3 hours lab, 4 units
Grade Only

Prerequisite: Mathematics 38 with a grade of “C” or better, or equivalent or Assessment Skill Level M30.
Advisory: Completion of or concurrent enrollment in English 43 and English 48 each with a grade of “C” or better, or equivalent or Assessment Skill Levels W4 and R5.
This course is the first of a two course sequence in the study of statistical methods integrated with algebraic tools to prepare students to analyze processes encountered in society and the workplace. The course covers an introduction to algebra and descriptive statistics in an integrated approach. Topics include data collection, organizing and interpreting data graphically, qualitative and quantitative data sets, measures of central tendency and measures of dispersion, bivariate data and scatter plots, linear functions and their graphs, nonlinear functions and their graphs, and applying technology to calculate various types of regressions. Students are expected to implement technology

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
to perform calculations to organize data in order to make statistical conclusions. This sequence of courses is intended for students that are not planning on majoring in a science, technology, engineering, or mathematics related disciplines. (FT) Not applicable to the Associate Degree.

**115 Gateway to Experimental Statistics**  
3 hours lecture, 3 hours lab, 4 units  
Grade Only
Prerequisite: Mathematics 47A with a grade of "C" or better, or equivalent Statway I.  
Advisory: Completion of or concurrent enrollment in English 43 and English 48, each with a grade of "C" or better, or equivalent or Assessment Skill Levels W4 and R5.
This course is a second in the study of statistical methods integrated with algebraic tools to prepare students to analyze these processes encountered in society and the workplace. The course covers a review of functions, their geometric properties, counting principles and probability rules, probability distribution functions, sampling, and inferential statistics of one and two variable data sets. Students are expected to implement technology to perform calculations to analyze data and make statistical conclusions. This sequence of courses is intended for students that are not planning on majoring in a science, technology, engineering or mathematics related discipline. (FT) AA/AS; CSU.

**Transfer Level Courses**

**104 Trigonometry**  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 96 with a grade of "C" or better, or equivalent or Assessment Skill Level M50.
This course is a study of the numerical, analytical, and geometric properties of right and oblique triangles, trigonometric and inverse trigonometric functions, and their applications. The course content includes right angle trigonometry, radian measure, circular functions, graphs of circular functions and their inverses, trigonometric identities, equations involving trigonometric and inverse trigonometric functions, an introduction of the complex plane, vectors and their operations, and the trigonometric form of complex numbers. This course is designed as a preparation for calculus and it is intended for the transfer student planning to major in mathematics, engineering, economics, or disciplines included in the physical or life sciences. (FT) AA/AS; CSU.

**107 Introduction to Scientific Programming**  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 47A with a grade of "C" or better, or equivalent, or Assessment Skill Level M50.  
Corequisite: Mathematics 107L.
Advisory: English 48 with a grade of "C" or better, or equivalent, or Assessment Skill Level R5.
This course is an introduction to mathematical and scientific problem-solving on a computer; focusing on designing algorithms of a high level programming language. Extensive programming is required. Students are expected to plan and write programming projects with documentation. This course is recommended for students transferring to majors in Computer Science and/or mathematics. (FT) AA/AS; CSU; UC.

**107L Introduction to Scientific Programming Lab**  
3 hours lab, 1 unit  
Letter Grade or Pass/No Pass Option
Corequisite: Mathematics 107.
Extensive programming is required. Students are expected to plan and write programming projects with documentation. This course is recommended for students transferring to majors in Computer Science and/or mathematics. (FT) AA/AS; CSU.

**116 College and Matrix Algebra**  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 96 with a grade of "C" or better, or equivalent, or Assessment Skill Level M50.
This course is designed to strengthen the algebra skills of students seeking Business or Natural Science degrees who are required to take an applied calculus course. Topics in the course include the theory of functions; graphing functions; exponential and logarithmic functions; solving equations involving algebraic, exponential and logarithmic functions; solving systems of linear equations; matrix algebra; linear programming; modeling; and applications problems. Analytical reading and problem solving skills are required for success in this course. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 116 and 141 combined: maximum credit, one course.
118 A Survey of Modern Mathematics
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
*Prerequisite:* Mathematics 96 with a grade of "C" or better, or equivalent, or Assessment Skill Level M50.
*Advisory:* English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Levels R6 and W6.
This course covers topics in probability, statistics, logical reasoning, quantitative literacy, the history of mathematics, and applications of mathematics to the real world. This course is designed for students who do not intend to prepare for a career major in science, business, math, technology, and engineering. Analytical reading and problem solving are required for success in this course. (FT) AA/AS; CSU.

119 Elementary Statistics
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
*Prerequisite:* Mathematics 92 or Mathematics 96, each with a grade of "C" or better, or equivalent or Assessment Skill Levels M45 or M50.
This course covers descriptive and inferential statistics. The descriptive portion analyzes data through graphs, measures of central tendency and spread. Other statistical practices utilize basic probability, binomial and normal distributions, estimation of population parameters, hypothesis testing, linear regression and correlation. Analytical reading and problem solving are required for success in this course. This course is intended for students interested in statistical analysis or need a transfer math course. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 119, Biology (BIOL) 200, or Psychology (PSYC) 258 combined: maximum credit, one course.

121 Basic Techniques of Applied Calculus I
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
*Prerequisite:* Mathematics 116 with a grade of "C" or better, or equivalent.
This course examines the study of calculus using numerical, graphical, and analytical methods to analyze calculus problems encountered in real-world applications in business, natural/life sciences, and social sciences. Topics include limits, derivatives, and integrals of algebraic, exponential, and logarithmic functions, curve sketching, optimization, and areas under and between curves and partial derivatives and optimization of multivariable functions. This is the first course in a sequence of mathematics courses for students intending to major in business, economics, or natural and social sciences. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 121 and 150 combined: maximum credit, one course.

122 Basic Techniques of Calculus II
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
*Prerequisite:* Mathematics 121 with a grade of "C" or better, or equivalent.
This second course in a math sequence covers methods of integration, multivariable functions and optimization problems, differential equations, Taylor series development and application, derivatives and integrals of trigonometric functions, and their usage in solving problems encountered in real-world applications in business, life and social sciences and economics. It is intended for students majoring in business, natural science, social science and economics. AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 122 and 151 combined: maximum credit, one course.

141 Precalculus
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
*Prerequisite:* Mathematics 104 with a grade of "C" or better, or equivalent.
This course is a study of numerical, analytical, and graphical properties of functions. The course content includes polynomial, rational, irrational, exponential, logarithmic, and trigonometric functions. Additional topics include: inverse functions, complex numbers, polar coordinates, matrices, conic sections, sequences, series and the binomial theorem. This course is designed as a preparation for calculus and is intended for the transfer student planning to major in mathematics, engineering, economics, or disciplines included in the physical or life sciences. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 116 and 141 combined: maximum credit, one course.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
150 Calculus with Analytic Geometry I
5 hours lecture, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 141 with a grade of “C” or better, or equivalent.
This course is an introduction to university-level calculus requiring a strong background in algebra and trigonometry. The topics of study include analytic geometry, limits, differentiation and integration of algebraic and transcendental functions, and applications of derivatives and integrals. Emphasis is placed on calculus applications involving motion, optimization, graphing, and applications in the physical and life sciences. This course incorporates the use of technology. Analytical reading and problem solving are strongly emphasized in this course. This course is intended for students majoring in mathematics, computer science, physics, chemistry, engineering, or economics. AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 121 and 150 combined: maximum credit, one course.

150L Calculus I Laboratory
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 141 with a grade of “C” or better, or equivalent.
Corequisite: Mathematics 150.
This course is a workshop, project-oriented course dealing with exploration and development of the calculus topics introduced in Calculus and Analytic Geometry I. This course directly supports the calculus lectures by having hands-on, collaborative assignments where technology is strongly incorporated throughout all the in-class assignments. Students work individually and in small groups on explorations and applications thus extending the material presented in Mathematics 150. Topics including geometric, analytic and numeric applications of limits, derivatives and integrals as well as calculus applications found in the physical and life sciences. This course is intended for all students currently enrolled in Mathematics 150. (FT) AA/AS; CSU; UC.

151 Calculus with Analytic Geometry II
4 hours lecture, 4 units
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 150 with a grade of “C” or better, or equivalent.
This is the second course in the calculus and analytic geometry sequence. This course covers more advanced topics in analytic geometry, differentiation and integration of algebraic and transcendental functions, infinite series, Taylor series, and parametric equations. This course also covers a general introduction to the theory and applications of power series, techniques of integration, and functions in polar coordinates, as it serves as a basis for multivariable calculus and differential equations, as well as most upper division courses in mathematics and engineering. This course is intended for the transfer student planning to major in mathematics, computer science, physics, chemistry, engineering or economics. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 122 and 151 combined: maximum credit, one course.

181 Meomtronics College Algebra and Trigonometry I
3 hours lecture, 3 units
Grade Only
Prerequisite: Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Level M50.
Advisory: This course is intended for students enrolled in the first semester Engineering Technology/Meomtronics program.
This course is the first semester of a four-semester sequence in applied college algebra and trigonometry, and applied technical calculus. Students are expected to apply the mathematical problem solving techniques developed in this course in the real world situations presented and discussed in the program's technology and science courses. Topics include the algebra of functions, graphing algebraic functions, exponential and logarithmic functions, linear systems of equations, matrices and matrix operations, trigonometric functions and their graphs, trigonometric identities, complex numbers, vector algebra, descriptive statistics, an introduction to series and summation notation, an introduction to Boolean algebra and symbolic logic, and the use of the graphing calculator to solve application problems. (FT) AA/AS; CSU.

182 Meomtronics College Algebra and Trigonometry II
3 hours lecture, 3 units
Grade Only
Prerequisite: Mathematics 181 with a grade of “C” or better, or equivalent.
Advisory: This course is intended for students enrolled in the second semester Engineering Technology/Meomtronics program.
This course is the second semester of a four-
semester sequence in applied college algebra and trigonometry, and applied technical calculus. Students are expected to implement the mathematical problem solving techniques developed in this course in the real world situations presented and discussed in the Mecontronics technology and science courses. Topics covered are a continuation of those introduced in Mathematics 181. Topics include applications of exponential and logarithmic functions, graphs of trigonometric functions, inverse trigonometric functions, Riemann sums, polynomial approximations of special transcendental functions, vector algebra, spherical and cylindrical coordinates, conic sections, the binomial theorem, an introduction to Boolean algebra and symbolic logic, and the use of the graphing calculator to solve application problems. (FT) AA/AS; CSU.

183 Mecontronics Calculus I
3 hours lecture, 3 units
Grade Only
Prerequisite: Mathematics 182 with a grade of "C" or better, or equivalent.
Advisory: This course is intended for students enrolled in the third semester Engineering Technology/Mecontronics program.
This course is the third semester of a four-semester sequence in applied college algebra and trigonometry, and applied technical calculus. Students are expected to implement the mathematical problem solving techniques developed in this course in the real world situations presented and discussed in the Engineering Technology/Mecontronics program's technology and science courses. Topics include limits, continuity, differentiation of algebraic and transcendental functions, an introduction to multivariable functions and their partial derivatives, Riemann sums, integration by substitution and by parts, separable and linear first order differential equations, applications in technology and physics, and the use of the graphing calculator to solve application problems. (FT) AA/AS; CSU.

210A Concepts of Elementary School Mathematics I
3 hours lecture, 3 units
Grade Only
Prerequisite: Mathematics 96 with a grade of "C" or better, or equivalent or Assessment Skill Level M50.
Advisory: English 101 with a grade of "C" or better, or equivalent or Assessment Skill Level R6 and W6 or English 105 with a grade of "C" or better, or equivalent.
This course is the second course in a one-year sequence in the study of the mathematical concepts needed for teaching elementary school mathematics with emphasis on geometry, transformational geometry, and measurement. This course also promotes an appreciation of the importance of logical thinking and applications of mathematics in problem solving and critical thinking. It studies the understanding and explanation of the basic mathematical concepts and the connections between them. It is designed especially for students preparing for credentials in elementary education. Analytical reading and problem solving are required for success in this course. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 210A and 210B combined: maximum credit, one course.

210B Concepts of Elementary School Mathematics II
3 hours lecture, 3 units
Grade Only
Prerequisite: Mathematics 210A with a grade of "C" or better, or equivalent.
Advisory: English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Level R6 and W6 or English 105 with a grade of "C" or better, or equivalent.
This course is a study of the mathematical concepts needed for teaching elementary school mathematics with emphasis on number and function. This course promotes an appreciation of the importance of logical thinking and applications of mathematics in problem solving and critical thinking. It studies the basic computational skills, but also requires the understanding and explanation of the basic mathematical concepts and the connections between them. It is designed especially for students preparing for credentials in elementary education. Analytical reading and problem solving are required for success in this course. (FT) AA/AS; CSU; UC Transfer Limitation: Mathematics (MATH) 210A and 210B combined: maximum credit, one course.
212 Children's Mathematical Thinking  
1 hour lecture, 1 unit  
Grade Only  

Corequisite: Completion of or concurrent enrollment in: Mathematics 210A with a grade of “C” or better, or equivalent.  
Advisory: English 101 or English 105, with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.  
This course focuses on children’s mathematical thinking and includes an in-depth study of place-value, fractions and how children solve mathematical problems. Students observe children and evaluate the problem strategies that are used. This course is intended for students pursuing a Multiple Subject Credential. (FT) AA/AS; CSU.

245 Discrete Mathematics  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  

Prerequisite: Mathematics 122 or Mathematics 151, each with a grade of “C” or better, or equivalent.  
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.  
This course is an introduction to the theory of discrete mathematics and introduces elementary concepts in logic, set theory, and number theory. The topics covered include propositional and predicate logic, methods of proof, set theory, Boolean algebra, number theory, equivalence and order relations, and functions. This forms a basis for upper division courses in mathematics and computer science, and is intended for the transfer student planning to major in these disciplines. (FT) AA/AS; CSU; UC.

252 Calculus with Analytic Geometry III  
4 hours lecture, 4 units  
Grade Only  

Prerequisite: Mathematics 151 with a grade of “C” or better, or equivalent.  
The content of this course includes the algebra and geometry of 2 and 3 dimensional Euclidean vectors, limits, continuity, partial differentiation, extremes of vector-valued and multivariable functions, higher order derivatives, the chain rule, Lagrange's theorem, multiple integrals, integrals over paths and surfaces, and integral theorems of vector analysis. This course is intended as a general introduction to the theory and applications of multivariable calculus. It is essential for most upper division courses in mathematics and forms part of the foundation for engineering and physics. It is intended for the transfer student planning to major in mathematics, physics, engineering, computer science, physical chemistry, operational research, or economics. (FT) AA/AS; CSU; UC.

254 Introduction to Linear Algebra  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  

Prerequisite: Mathematics 151 with a grade of “C” or better, or equivalent.  
This course serves as an introduction to the theory and applications of elementary linear algebra, and is the basis for most upper division courses in mathematics. The topics covered in this course include matrix algebra, Gaussian Elimination, systems of equations, determinants, Euclidean and general vector spaces, linear transformations, orthogonality and inner product spaces, bases of vector spaces, the change of basis theorem, eigenvalues and eigenvectors, the rank and nullity of matrices and of linear transformations. This course is intended for the transfer student planning to major in mathematics, physics, engineering, computer science, operational research, economics, or other sciences. AA/AS; CSU; UC.

255 Differential Equations  
3 hours lecture, 3 units  
Grade Only  

Prerequisite: Mathematics 252 and Mathematics 254, each with a grade of “C” or better, or equivalent.  
This course covers first order and higher order equations and their applications. Topics include linear first order and higher order equations, homogeneous and nonhomogeneous equations with constant or variable coefficients, and systems of ordinary differential equations. Methods used to solve equations include substitution methods, integrating factors, reduction of order, variation of parameters, power series solutions, and Laplace transforms. This course is intended as an introduction to the theory and applications of differential equations and is the basis for many upper division courses in engineering, physics, and mathematics. It is intended for the transfer student planning to major in mathematics, engineering, operational research, physics, or other physical science. (FT) AA/AS; CSU; UC.

290 Independent Study  
Hours by Arrangement, 1-3 units  
Letter Grade or Pass/No Pass Option  

Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
This course is for advanced students who wish to pursue special investigations. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Description
Nursing is a profession which provides health care to individuals of all ages. Nursing encompasses many activities including health promotion, health maintenance, health care during illness and injury and rehabilitation. Nurses apply knowledge from the biological, physical, behavioral and nursing sciences to care for clients in varied settings. The purpose of the San Diego City College Nursing program is to provide an educational opportunity for qualified individuals interested in a career in nursing.

Admission to the program is by special application. Information is available on the nursing website at: http://www.sdcity.edu/AcademicPrograms/ProgramsOfInstruction/NursingEducation.aspx. Applications for the nursing program are also available on the Nursing website at: http://www.sdcity.edu/AcademicPrograms/ProgramsOfInstruction/NursingEducation/ApplicationProcedure. Prospective students are responsible for obtaining these materials in order to acquaint themselves with the admission policies and procedures. Information is also available at the Nursing workshops, held once a month. Schedule found on Nursing website.

The San Diego City College Nursing Education program is fully accredited by the California Board of Registered Nursing (BRN) and the National League for Nursing Accrediting Commission (NLNAC). Inquiries regarding accreditation may be made by contacting the BRN at 400 R Street, Suite 4030, Sacramento, CA 94244, 916-322-3350 or NLNAC at 3343 Peachtree Road NE, Suite 500, Atlanta, GA 30326. 404-975-5000

Directed Clinical Practice Requirement
Students accepted into this program will be required to successfully complete Directed Clinical Practice/clinically-based courses held in health care facilities. These facilities require background checks and urine drug screening as a condition of placement. Refusal to submit to a background check, or failure to meet clearance criteria established by the health care facility, may prevent placement in the Directed Clinical Practice/clinically-based course and thus, it may not be possible to successfully progress in or complete the program.

Health care facilities also require adherence to strict standards of conduct. Facilities may refuse educational access to any person who does not adhere to the facility’s standards of safety, health and ethical behavior. This may be cause for removal from the program.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Program Goals:
Upon completion of the ADN program the nursing graduate will be able to:

1. Apply nursing concepts and skills to be successful on the National Council Licensure Examination for Registered Nurses (NCLEX-RN).
2. Make clinical judgments and management decisions to ensure accurate and safe client care.
3. Practice within the ethical, legal and regulatory frameworks of professional nursing practice.
4. Use standards of nursing practice to perform and evaluate client care in entry-level practice.
5. Participate in life-long learning.

Program Emphasis:
Curriculum and course sequence progress from simple to complex knowledge and skills with emphasis on nursing process, caring, problem solving and critical thinking. The ADN graduate is prepared as a clinician to think critically, using the nursing process, to safely perform nursing care, teach individuals, families, communities and members of the health care team, function as a client advocate, provide leadership, manage resources, delegate and supervise within the legal scope of practice of the Registered Nurse. The student who completes the ADN program will meet the standards of competency, delineated by the Board of Registered Nursing for the State of California.

Career Options:
The Registered Nurse cares for clients of all ages and may be employed at the entry level in a variety of settings such as hospitals, skilled nursing facilities, clinics and home health agencies. Some careers in nursing require education beyond the associate degree.

Student Learning Outcomes
Students who complete the program will be able to:

- Apply concepts and skills to successfully pass the NCLEX-RN (National Council Licensure Exam for Registered Nurses)
- Make clinical judgments and management decisions to ensure accurate and safe client care.
- Practice within the ethical, legal and regulatory frameworks of professional nursing practice.
- Use standards of nursing practice to perform and evaluate client care in entry-level practice.
- Participate in life-long learning.

Academic Programs
The Associate in Science degree in Nursing requires completion of the nursing courses. Additional general education and graduation requirements for the associate degree are listed in the catalog.

Associate in Science Degree: Nursing Education

Registered Nurse: Generic

The Associate of Science Degree in Nursing (ADN) curriculum prepares entry-level Registered Nurses (RN) as providers of care across the health/illness continuum and as members within the profession. The curriculum respects the individuality of the student and aims to provide a positive, innovative learning model that fosters the development of critical thinking and problem solving skills so that the graduate nurse is equipped to deliver care to a culturally diverse population in a variety of healthcare settings. Graduate nurses collaborate with members of the health care team, are effective communicators, are politically aware, and demonstrate a commitment to lifelong learning. Upon successful completion of program requirements, graduates are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

Total Units = 49

Award Notes:
The Board of Registered Nursing (BRN) requires 6 units of Communication, verbal, written and group; satisfied by ENGL 101 and SPEE 103; and 16 units of Natural, Behavioral and Social sciences; satisfied by the BIOL 205, 230 and 235 prerequisites, PSYC 101 & ANTH 103 or SOCO 101 or 110.

*It is strongly recommended that part or all of the general education requirements (including two Physical Education activity and American Institutions courses) be completed prior to admission to the nursing education program or during summer sessions.

Associate in Science Degree: Nursing Education

Licensed Vocational Nurse to Registered Nurse (Advanced Placement)
The Associate of Science Degree in Nursing (ADN) LVN to RN step-up program curriculum prepares entry-level Registered Nurses (RN) as providers of care across the health/illness continuum and as members within the profession. The curriculum respects the individuality of the student and aims to provide a positive, innovative learning model that fosters the development of critical thinking and problem solving skills so that the graduate nurse is equipped to deliver care to a culturally diverse population in a variety of healthcare settings. Graduate nurses collaborate with members of the health care team, are effective communicators, are politically aware, and demonstrate a commitment to lifelong learning. Nursing Education

Licensed Vocational Nurse to Registered Nurse, Thirty-Unit Option - Licensure Only (No paper award given)

Award Description:
It is strongly recommended that part or all of the general education requirements be completed prior to admission to the nursing education program.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Award Notes:
Note: Other states may not recognize the LVN Thirty Unit Option as a method to satisfy the requirements for licensure as a Registered Nurse. Interested candidates are urged to contact the respective Boards of Nursing for additional information.

Program Description:
The LVN to RN 30 Unit Option program curriculum prepares entry-level Registered Nurses (RN) as providers of care across the health/illness continuum and as members within the profession. The curriculum respects the individuality of the student and aims to provide a positive, innovative learning model that fosters the development of critical thinking and problem solving skills so that the graduate nurse is equipped to deliver care to a culturally diverse population in a variety of healthcare settings. Graduate nurses collaborate with members of the health care team, are effective communicators, are politically aware, and demonstrate a commitment to lifelong learning. Upon successful completion of program requirements, graduates are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

Admission to the program is by special application. Information is available on the nursing website at: http://www.sdcity.edu/AcademicPrograms/ProgramsofInstruction/NursingEducation.aspx. Applications for the nursing program are also available on the Nursing website at: http://www.sdcity.edu/Portals/0/AdmissionsRecords/NursingAdmissions/RN_APP_updated_01-13-11.pdf. Prospective students are responsible for obtaining these materials in order to acquaint themselves with the admission policies and procedures. Information is also available at the Nursing workshops, held once a month. Schedule found on Nursing website.

The San Diego City College Nursing Education program is fully accredited by the California Board of Registered Nursing (BRN) and the National League for Nursing Accrediting Commission (NLNAC). Inquiries regarding accreditation may be made by contacting the BRN at 400 R Street, Suite 4030, Sacramento, CA 94244, 916-322-3350 or NLNAC at 3343 Peachtree Road NE, Suite 500, Atlanta, GA 30326, 404-975-5000

Program Goals:
Upon completion of the LVN to RN 30 Unit Option the nursing student will be able to:

1. Apply nursing concepts and skills to be successful on the National Council Licensure Examination for Registered Nurses (NCLEX-RN).
2. Make clinical judgments and management decisions to ensure accurate and safe client care.
3. Practice within the ethical, legal and regulatory frameworks of professional nursing practice.
4. Use standards of nursing practice to perform and evaluate client care in entry level practice.
5. Participate in life-long learning.

Program Emphasis:
Curriculum and course sequence progress from simple to complex knowledge and skills with emphasis on nursing process, caring, problem solving and critical thinking. The person who completes the LVN to RN 30 Unit Option is prepared as a clinician to think critically, using the nursing process, to safely perform nursing care, teach individuals, families, communities and members of the health care team, function as a client advocate, provide leadership, manage resources, delegate and supervise within the legal scope of practice of the Registered Nurse. The student who completes the LVN to RN 30 Unit Option will meet the standards of competency, delineated by the Board of Registered Nursing for the State of California.

Career Options:
The Registered Nurse cares for clients of all ages and may be employed at the entry level in a variety of settings such as hospitals, skilled nursing facilities, clinics and home health agencies. Some careers in nursing require education beyond the associate degree.

Transfer Information

Common university majors related to the field of Nursing include: Nursing

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Nursing Education (NRSE)

The hours listed in the catalog are based on a 16 week session. Nursing courses are scheduled in 8 week blocks, doubling weekly lecture and lab hours listed.

108 Nursing Skills Laboratory I

0.5 hour lecture, 1.5 hours lab, 1 unit
Pass/No Pass Only

Corequisite: Current enrollment in the Nursing Education program.
This course is intended for first year students pursuing an Associate of Science Degree in Nursing. It provides students an additional opportunity for practice and mastery of designated psychomotor skills. There is a review of related theoretical concepts and supervised practice of basic client care skills that are concurrently presented in the regular program. AA/AS; CSU.

140 Foundations of Nursing

2 hours lecture, 7.5 hours lab, 4.5 units
Grade Only

Prerequisite: Biology 205, 230 and 235, each with a grade of “C” or better, or equivalent.

Corequisite: Completion of or concurrent enrollment in: Nursing Education 141 with a grade of “C” or better, or equivalent.
Advisory: English 101 and Mathematics 96, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6, W6 and M50.
Limitation on Enrollment: Special Admission - must be admitted to program.
This course introduces basic concepts of pharmacology. Legal, ethical, psychological, cultural and age-specific aspects of drug therapy are presented. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the first semester of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

141 Pharmacology for Nursing

1 hour lecture, 1 unit
Grade Only

Corequisite: Completion of or concurrent enrollment in: Nursing Education 140 with a grade of “C” or better, or equivalent.
Advisory: English 101 and Mathematics 96, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6, W6 and M50.
Limitation on Enrollment: Special Admission - must be admitted to program.
This course introduces basic concepts of pharmacology. Legal, ethical, psychological, cultural and age-specific aspects of drug therapy are presented. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the first semester of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.
142 Medical Surgical Nursing I
2 hours lecture, 7.5 hours lab, 4.5 units
Grade Only
Prerequisite: Nursing Education 140 and 141, each with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Special Admission - must be admitted to program.
The course is an introduction to nursing concepts and practices as they relate to the young adult through geriatric adult in the medical surgical environment. Through utilization of the nursing process, the student begins to recognize alterations in physical and physiological functioning or illness and formulates age-appropriate nursing interventions. Selected psychomotor skills associated with the basic human needs, medication administration and intravenous therapy are studied and practiced. This course is offered to students enrolled in the first semester of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

143 Pharmacology for Nursing II
1 hour lecture, 1 unit
Pass/No Pass
Corequisite: Completion of or concurrent enrollment in: Nursing Education 142.
This course provides supplementary instruction on pharmacologic intervention for medical surgical disorders. Emphasis is placed on drug categories and medications used in medical surgical nursing care environments. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

144 Medical Surgical Nursing II
2 hours lecture, 7.5 hours lab, 4.5 units
Grade Only
Prerequisite: Nursing Education 142 with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Special Admission - must be admitted to program.
This course develops the first year nursing student's knowledge and skills as they relate to the adult non-critical moderately complex medical-surgical client. Through utilization of the nursing process, the student recognizes alterations in functioning or illness and formulates age-appropriate nursing interventions. Psychomotor skills associated with moderately complex needs, medication administration and intravenous therapy are studied and practiced. The impact of multiple nursing diagnoses on client outcomes is introduced. This course is offered to nursing students enrolled in the second semester of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

145 Pharmacology for Nursing III
1 hour lecture, 1 unit
Pass/No Pass
Corequisite: Completion of or concurrent enrollment in: Nursing Education 144.
This course emphasizes drug categories and medications used in acute medical/surgical environments. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the Associate of Science Degree in Nursing program. AA/AS; CSU.

146 Maternal-Child Health Nursing
2.25 hours lecture, 6.75 hours lab, 4.5 units
Grade Only
Prerequisite: Nursing Education 142 with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Special Admission - must be admitted to program.
This course focuses on integration and application of the nursing process as it relates to the nursing care of the childbearing family, children and their families. Emphasis is on the concepts and skills related to age-appropriate, family centered care. Clinical experiences provide opportunities for students to participate in therapeutic activities in a variety of pediatric and obstetrical settings. This course is offered to nursing students enrolled in the second semester of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

147 Pharmacology for Nursing IV
1 hour lecture, 1 unit
Pass/No Pass
Corequisite: Completion of or concurrent enrollment in: Nursing Education 146.
This course emphasizes drug categories and medications used in Reproductive Health, Obstetrics and Pediatrics. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the Associate of Science Degree in Nursing program. AA/AS; CSU.
206 Nursing Skills Laboratory II
0.5 hour lecture, 1.5 hours lab, 1 unit
Pass/No Pass Only

Corequisite: Current enrollment in the Nursing Education program.
This course is intended for first year students pursuing an Associate of Science Degree in Nursing. It provides students an additional opportunity for practice and mastery of designated psychomotor skills. There is a review of related theoretical concepts and supervised practice of advanced client care skills that are concurrently presented in the regular program. AA/AS; CSU.

235 LVN to RN Transition
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Prerequisite: Biology 205, 230, and 235, each with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50.
Limitation on Enrollment: This course is not open to students with previous credit for Nurse Education 201. Special Admission - must be admitted to program.
This course focuses on the theory and application of the concepts of physical assessment, nursing process, critical thinking, disease processes and nursing competencies in the professional roles of clinician, teacher, leader and advocate. Emphasis is on assisting the Licensed Vocational Nurse (LVN) to integrate into the Associate Degree Nursing program. This course is offered to students accepted into the LVN to Registered Nurse (RN) step up program. (FT) AA/AS; CSU.

240 Medical/Surgical Nursing III
2 hours lecture, 7.5 hours lab, 4.5 units
Grade Only

Prerequisite: Nursing Education 144, 146 and 235, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Special Admission - must be admitted to program.
This course assists the learner to synthesize and correlate nursing knowledge and skills in providing care to multiple clients who have complex, multi-system illnesses. Focus is for the learner to predict client needs and priorities, and evaluate outcomes of care. Associated psychomotor skills are integrated and practiced. This course is offered to students enrolled in the second year of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

241 Pharmacology for Nursing V
1 hour lecture, 1 unit
Pass/No Pass

Corequisite: Completion of or concurrent enrollment in Nursing Education 240.
Limitation on Enrollment: Special Admission - must be admitted to program.
This course is an elective supplement to NRSE 240, Medical Surgical Nursing III. Emphasis is placed on drug categories and medications introduced in NRSE 240, used in treatment of acute Medical/Surgical pathologies. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the Associate of Science Degree in Nursing program. AA/AS; CSU.

242 Mental Health & Gerontological Nursing
2.25 hours lecture, 6.75 hours lab, 4.5 units
Grade Only

Prerequisite: Nursing Education 144 or Nursing Education 146 or Nursing Education 235 each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Nursing Education 203. Special Admission - must be admitted to program.
This course is an introduction to Mental Health/ Psychiatric and Gerontological Nursing using the nursing process to promote psychosocial and physiological integrity. Emphasis is on therapeutic interaction and communication, bio-psychosocial rehabilitation and therapeutic use of self. Clinical experiences provide opportunities for students to participate in therapeutic activities in a variety of settings. The student also explores interventions to increase the client’s functional abilities with emphasis on lifestyle and physical changes. This course is offered to students enrolled in the second year of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
243 Pharmacology for Nursing VI  
1 hour lecture, 1 unit  
Pass/No Pass  

Corequisite: Completion of or current enrollment in Nursing Education 242.  
Limitation on Enrollment: Special Admission - must be admitted to program.  
This course is an elective supplement to NRSE 242, Mental Health and Gerontological Nursing. Emphasis is placed on drug categories and medications introduced in NRSE 242, used in psychiatric/mental health and gerontological environments. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the Associate of Science Degree in Nursing program. AA/AS; CSU.

244 Medical Surgical Nursing IV  
2.25 hours lecture, 6.75 hours lab, 4.5 units  
Grade Only  

Prerequisite: Nursing Education 240 with a grade of “C” or better, or equivalent; Nursing Education 242 with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: Special Admission - must be admitted to program.  
Medical Surgical Nursing IV focuses on advanced application of the nursing process in the care of critically ill adult and geriatric clients. The student organizes and discriminates data to establish priorities of care. Correlated clinical experiences emphasize refinement of clinical decision-making, psychomotor skills and management of client care in professional nursing practice. This course is offered to students in the final semester of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

245 Pharmacology for Nursing VII  
1 hour lecture, 1 unit  
Pass/No Pass  

Corequisite: Completion of or concurrent enrollment in: Nursing Education 242 with a grade of “C” or better, or equivalent; Nursing Education 244.  
Limitation on Enrollment: Special Admission - must be admitted to program.  
This course is an elective supplement to Nursing Education 244, Medical Surgical Nursing IV. Emphasis is placed on drug categories and medications introduced in Nursing Education 244, used in critical care environments. A nursing process approach to the principles of medication administration and dosage calculation is included. This course is offered to students enrolled in the Associate of Science Degree in Nursing program. AA/AS; CSU.

246 Leadership in Nursing  
2.25 hours lecture, 6.75 hours lab, 4.5 units  
Grade Only  

Prerequisite: Nursing Education 240 with a grade of “C” or better, or equivalent; Nursing Education 242 with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: This course is not open to students with previous credit for Nursing Education 205. Special Admission - must be admitted to program.  
The course focuses on the transition from student to staff nurse, emphasizing the responsibilities of planning, organizing, directing, and coordinating client care. Principles of leadership, delegation, time management, decision-making, collegial communication, group dynamics, conflict resolution, and change are included. The clinical preceptorship experience requires the application of all previously learned concepts and skills. Acute care, long-term care or community settings are utilized. This course is offered to the students in the final semester of the Associate of Science Degree in Nursing program. (FT) AA/AS; CSU.

270 Occupational Work Experience in Nursing Education  
60 - 300 hours other, 1-4 units  
Grade Only  

Prerequisite: Nursing Education 144 and Nursing Education 146, each with a grade of “C” or better, or equivalent.  
Limitation on Enrollment: Special Admission - must be admitted to program.  
A work-experience course authorized by the Board of Registered Nursing whereby a student is employed by or volunteers at a clinical site with which the Nursing Education Program has a current affiliation agreement. The clinical site supports the objectives of the course and provides direct supervision of students through RN mentors and preceptors. The student applies previously learned nursing theory and clinical skills to the performance of client care. The combined maximum credit for all Work Experience courses from all disciplines may not exceed 16 units. (FT) AA/AS; CSU.
Peace Studies

Award Type Units
Certificate of Performance: Peace Studies 17

Associate in Art Degree: Peace Studies 26-28*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
The Peace Studies Certificate and Associate Degree offer an interdisciplinary, theoretical, and practical approach for students to enter into the academic and/or professional field of Peace Studies. Students gain skills to critically analyze current affairs related to peace and conflict. Students evaluate global consequences of events leading to violent conflict to offer alternative solutions to create more peaceful, just and equitable societies. The Peace Studies program allows students to gain professional experience with an organization working within a related field through participation in the required one-unit capstone course in field experience.

Program Goals
To provide the opportunity for the student to contemplate, analyze, and discuss issues related to peace and conflict on all levels; to apply theory in academic disciplines such as literature, anthropology, environmental science and philosophy to the field of peace studies; to critically think about their role in the world and their possible contributions to a more peaceful world; to demonstrate theories related to both positive and negative peace; to gain an understanding of the role of human rights and other moral and ethical concepts.

Program Emphasis
The four main pillars of the Peace Studies program are human rights, conflict studies, peace processes and the concept of justice in relation to peace. The program explores issues related to these four pillars on an inter/intra personal, communal, and global level. An emphasis is placed upon 1) the interdisciplinary nature of addressing issues related to peace and conflict, 2) active participation and involvement in the service learning component of the required capstone course, and 3) affective and analytical responses to concepts related to the four pillars.

Faculty Office Telephone/Email
Catherine Harlow C-224A 619-388-3013

Career Options:
This Associate Degree prepares students to enter into academic and professional fields related to peace studies. Available career tracks include working for non-profit agencies, international organizations, governmental agencies, public institutions and educational institutions. Students may select a professional or academic focus such as peace building, conflict management, mediation, international law, international relations, political science, history, environmental science, anthropology, comparative literature, peace psychology or philosophy. Most career options directly related to Peace Studies require a four year degree; however, some examples of career options may include: Program Coordinator, Human Rights Advocate, Community Liaison, Relief / Aid Worker, Peace Activist, Mediator, Resource Developer,

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Educator, Philanthropist, Environmentalist, Anthropologist, Event Coordinator, and Board Member for a Non-Profit Organization.

**Student Learning Outcomes**
- Define and discuss positive peace, negative peace and structural violence.
- Identify, apply and critically analyze, from an interdisciplinary perspective, theories related to Peace Studies per current events on a personal, communal, national and/or global level.
- Propose specific strategies to achieve positive peace appropriate to a current event on a person, communal, national and/or global scale.
- Identify, discuss and critically analyze non violent movements as a method of conflict resolution.

**Certificate of Performance: Peace Studies***
This certificate will provide students the tools to critically analyze issues related to peace, justice, and conflict.

| 101 Introduction to Peace Studies | 3 hours lecture, 3 units | Letter Grade or Pass/No Pass Option |

Advisory: English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Level R6 and W6. This course provides an overview of the field of peace studies and offers an in-depth look into theories related to peace, conflict studies and non-violence. Students gain an understanding of the various tools and processes that are used internationally in working towards a more equitable, just and peaceful world. Contemporary case studies
are explored offering students an interdisciplinary approach to the field in order to address the four main pillars of the Peace Studies program which are human rights, conflict studies, peace processes and the concept of justice in relation to peace. (FT) AA/AS; CSU; UC.

102 Nonviolence and Conflict Resolution
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6. This course explores nonviolence and conflict resolution through an analysis of theory and application of both strategies. Students are able to contemplate the relationship between nonviolence and conflict resolution and how these techniques may be applied. Emphasis is placed on the history of nonviolent leaders and social movements nationally and internationally which have resulted in the promotion of peace, the application of justice and the preservation of human rights. This course is intended for all students interested in peace studies, conflict resolution and international relations. (FT) AA/AS; CSU; UC.

201 Environmental Sustainability, Justice and Ethics
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; Philosophy 102B and Biology 101, each with a grade of “C” or better, or equivalent.
Advisory: Completion of or concurrent enrollment in: English 205 with a grade of “C” or better, or equivalent.
This course analyzes environmental issues related to sustainability, justice and ethics. Environmental sustainability theories are examined by addressing economic, cultural, social, political and ecological issues. The philosophical basis of environmental ethics provides a framework of the various worldviews and theoretical orientations. Students apply theories learned to assess international and national environmental justice case studies. This course is intended for students interested in Peace Studies, Sustainability and Environmental Ethics. (FT) AA/AS; CSU; UC.

250 Field Experience In Peace Studies
16-54 total hours lecture,
32-108 total other hours, 1-3 units
Grade Only
Prerequisite: Peace Studies 101 with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
Students in this course develop and implement field experience projects under the supervision of college faculty. In cooperation with the staff of community organizations and agencies, students design these projects to assist the college's neighborhood communities. Students gain hands-on experience in project planning, development, implementation and evaluation. Students meet regularly with faculty and peers to receive feedback, support and guidance in their community projects. This course is intended for students interested in Peace Studies. (FT) AA/AS; CSU.

Personal Growth
Description
The Personal Growth program is designed for the first-time student at San Diego City College. The primary focus of the program is to help students develop critical thinking skills in relation to career, academic and life-planning goals.

Program Emphasis
Students are exposed to a variety of career assessment instruments which lead to greater self-understanding in relation to the decision making process in career and educational planning. Students become well versed in learning styles and theories, multicultural issues, and academic, community and campus resources.

#### 25 Student Government

**1 hour lecture, 3 hours lab, 2 units**

**Letter Grade or Pass/No Pass Option**

*Limitation on Enrollment:* This course is not open to students with credit for Speech Communications 126A, B, or C.

The fundamentals of Student Government with emphasis on technique or democratic action among groups. Actual practice in various phases of Student Government will be provided. (FT) AA/AS.

#### 30 Career Planning

**1-3 hours lecture, 1-3 units**

**Letter Grade or Pass/No Pass Option**

This course is designed to assist students in making career choices. Topics include self-concept, values, interests, skills assessment, understanding the data/people/things orientation of work, job satisfiers, exploration of career information, and the decision-making process. (FT) AA/AS.

#### 32 Academic and Financial Planning

**0.44 - 0.5 hours lecture, 0 units**

**Pass/No Pass Only**

*Limitation on Enrollment:* This course is open only to students who have completed the Mathematics and English Assessment Skill Level tests.

This course is designed to familiarize students with financial aid resources available to help them meet educational expenses. These resources include college and financial aid satisfactory academic progress policies; federal/state regulations for determining and maintaining eligibility for financial aid; student rights and responsibilities in receiving aid; strategies on becoming responsible consumers; money management; and accessing outside student aid resources. Emphasis is placed on effective use of all available on-campus resources and the development and implementation of a Student Educational Plan to meet educational objectives. (FT) Not applicable to the Associate Degree.

#### 120 College Success and Lifelong Learning

**3 hours lecture, 3 units**

**Letter Grade or Pass/No Pass Option**

*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

*Limitation on Enrollment:* This course is not open to students with previous credit for Personal Growth 127.

This course teaches success strategies to enhance academic and lifelong learning skills. Students explore topics such as motivation and attitudes, values, goal setting, decision-making processes, critical and creative thinking, personal health topics, interpersonal communication, developmental psychology, and learning and personality theories, as well as other techniques for maximizing their abilities to succeed as lifelong learners. Students apply these topics as they relate to their self-development as integrated physiological and psychological entities and acquire strategies to effectively deal with issues in their personal lives and educational and career plans. (FT) AA/AS; CSU; UC.

#### 127 College Success Skills

**3 hours lecture, 3 units**

**Letter Grade or Pass/No Pass Option**

*Advisory:* English 48 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5; and completion of or concurrent enrollment in English 49 with a grade of “C” or better, or equivalent, or Assessment Skill Level W5.

This course examines the techniques used to enhance academic skills in order to achieve subject matter mastery and develop strategies for success in a diverse society. Critical thinking skills are interwoven throughout the course by exploring areas such as motivation and attitudes, stress management, creativity, interpersonal communication, and personal health. Topics from developmental psychology, learning theory and personality theory are presented as a foundation for this course. The course is designed for new or re-entry students and others who can benefit. (FT) AA/AS; CSU; UC.

#### 130 Career - Life Planning

**3 hours lecture, 3 units**

**Letter Grade or Pass/No Pass Option**

*Advisory:* Completion of or concurrent enrollment in: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Personal Growth 30. This course is designed to assist students with self-exploration, career transitions and career-life planning in order to achieve success in a diverse society. Critical thinking skills will be utilized through a systematic approach to career development by examining values, interests, skills, life roles, personality type, personal self-management, decision-making and goal-setting throughout the life span. The course is designed for new and re-entry students and others who can benefit. (FT) AA/AS; CSU.

140 Life Skills and Personal Adjustment
1-3 hours lecture, 1-3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is designed for students who want to learn and acquire effective ways for developing their emotional, social, educational, and professional life skills. This course is a practical study of the principles and application of strategies that assist in the development of coping and life skills. Topics include self-esteem and compassion, self-discipline, self-responsibility, self-assertion, and living a consciously balanced life in pursuit of defined educational, career, and life goals. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Philosophy

Award Type                      Units
Associate in Art Degree:
Philosophy                     18*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
The first objective of the philosophy program is to teach students how to think critically emphasizing analytic reasoning. In addition, students are prepared for university-level philosophy courses. The study of philosophy acquaints students with the nature of philosophical activity and helps them increase critical thinking skills about fundamental philosophic concerns such as the nature of correct reasoning, the scope and limits of human knowledge, characteristics of reality and questions of value and obligation. Philosophy relates to many other academic disciplines and stresses systematic and abstract thought.

Program Emphasis
The Philosophy curriculum meets general education Humanities requirements for both the associate degree and universities, and prepares for transfer to university majors

</table>

Career Options:
Most careers in this list require education beyond the associate degree. A sample list of careers in which background knowledge of philosophy is appropriate include: education, human service vocations, law, management, medicine, publishing, scientific research, teaching, and theology.

Academic Programs
The associate degree in philosophy requires completion of the courses listed for the degree. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Student Learning Outcomes
• To increase the student’s critical thinking skills in considering fundamental philosophical concerns such as the nature of correct reasoning, the scope and limits of human knowledge, characteristics of reality and questions of value and obligation.

Transfer Information

Common university majors related to the field of Philosophy include: Human Communication, Liberal Studies, Philosophy, Religious Studies, Pre-Law.

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

100 Logic and Critical Thinking  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6 or English 105 with a grade of “C” or better, or equivalent.
This course explores the relationship of communications and critical thinking with a focus on good reasoning and impediments to its mastery. It emphasizes the development of skills in logical analysis including familiarity with the more common fallacies. This course is designed for students learning to apply principles of critical thinking to the practical problems of everyday life. (FT) AA/AS; CSU; UC.

101 Symbolic Logic  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option

Prerequisite: Philosophy 100 with a grade of “C” or better, or equivalent.
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6 and Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50.
This course is a study of the elements of symbolic logic, sentential calculus and quantification theory. Topics include identity, definite descriptions, natural deduction and structure of language. This course is intended for philosophy majors and students pursuing studies in computer science. (FT) AA/AS; CSU; UC.

102A Introduction To Philosophy: Reality and Knowledge  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option

Advisory: English 101 or English 105, with a grade of “C” or better, or equivalent.
This course is an introductory study of the aims, methods, types and problems of philosophy and philosophical inquiry. Emphasis is placed on the
nature of reality and knowledge. Materials for this survey of philosophy may draw from classical and contemporary thinkers. Students are encouraged to articulate, analyze, and evaluate their own beliefs/positions in the context of meaningful philosophical inquiry. This course is intended for anyone concerned with human existence and humanity’s place in the universe. (FT) AA/AS; CSU; UC.

102B Introduction To Philosophy: Values
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 or English 105 with a grade of “C” or better, or equivalent.
This course provides an introductory study of the aims, methods, types and problems of philosophy focusing on values and their place in an individual’s daily life. Materials for this survey may be drawn from classical and contemporary thinkers. Students are encouraged to articulate, analyze, and evaluate their own beliefs/positions in the context of meaningful philosophical inquiry regarding value theory. This course is for anyone interested in the origin and justification of values and their application to everyday life. (FT) AA/AS; CSU; UC.

104A History Of Western Philosophy
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
This course is an introduction to the issues and problems exemplified in the process of meaningful philosophical activity related to the history of western philosophy from the pre-Socratics to the close of the Medieval age. Students in this course survey representative theories and philosophical reflections related to the history of early western philosophy. Students are encouraged to engage in independent research, analysis and formulation. This course is intended for students pursuing studies in History and Humanities, and anyone interested in the history of western philosophy. (FT) AA/AS; CSU; UC.

104B History of Western Philosophy
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
This course is an introduction to the issues and problems exemplified in the process of meaningful philosophical activity related to the history of western philosophy from the Renaissance period through the 19th Century. Students in this course survey representative theories and philosophical reflections related to the history of philosophy in the Renaissance and/or Modern periods. Students are encouraged to engage in independent research, analysis and formulation. This course is intended for students pursuing studies in History and Humanities, and anyone interested in the history of western philosophy. (FT) AA/AS; CSU; UC.

105 Contemporary Philosophy
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of “C” or better, or equivalent.
This course explores the issues and problems associated with philosophy in the 20th and 21st centuries. Emphasis is placed on the representative thinkers of the modern and post-modern eras. Students are encouraged to engage in independent research, analysis and formulation. This course is designed for students interested in contemporary society and current events. (FT) AA/AS; CSU; UC.

106 Asian Philosophy
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of “C” or better, or equivalent.
This course explores the aims, methods, issues and problems exemplified in Asian philosophy and philosophical activity. Studies in this course survey significant inquiries, orientations and perspectives exemplified in Asian philosophy as well as Asian

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
perspectives on perennial questions relating to the nature of the universe, the status and meaning of mankind, and the qualities characterizing the good life. Students are encouraged to engage in independent research, analysis and formulation. This course may be of special interest to students pursuing Pacific Rim or International Studies. (FT) AA/AS; CSU; UC.

107 Reflections on Human Nature
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 or English 105 with a grade of “C” or better, or equivalent.
This course is an introductory study of the issues and problems exemplified in the process of meaningful philosophical activity relating to the topic of human nature. Students in this course survey representative theories and philosophical reflections relating to the notions of human nature, the individual person, and human characteristics in general. Material for this survey may be drawn from classical and contemporary thinkers or scientific and religious orientations. Students are encouraged to engage in independent research, analysis and formulation. This course is intended for students pursuing studies in behavioral and/or social sciences. (FT) AA/AS; CSU; UC.

108 Perspectives on Human Nature and Society
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is an introduction to the issues and problems exemplified in the process of meaningful philosophical activity relating to the topics of human nature and human societal configurations. Students in this course survey representative theories and philosophical reflections related to the notions of human nature, the individual person, and human characteristics in general. Students are encouraged to engage in independent research, analysis and formulation. This course is intended for students pursuing studies in behavioral, social or political science, and anyone interested in philosophy of human nature. (FT) AA/AS; CSU; UC.

111 Philosophy In Literature
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
This course is an introduction to the issues and problems exemplified in the process of meaningful philosophical activity related to philosophy in literature. Students in this course survey representative theories and philosophical reflections related to the philosophical issues and themes in selected classical and/or contemporary literature such as the nature of reality, the notion of the self, the issue of choice and determinism, the problem of good and evil, the characteristics of good life. Students are encouraged to engage in independent research, analysis and formulation. This course is intended for students pursuing studies in literature or in the Behavioral and/or Social Sciences, and anyone interested in philosophy in literature. (FT) AA/AS; CSU; UC.

125 Philosophy of Women
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is an introduction to the issues and problems exemplified in the process of meaningful philosophical activity related to philosophy of women. Students in this course survey representative theories and philosophical reflections related to philosophy of women such as concepts of womanhood and feminism as they have found expression in mythic, classic, medieval and major modern philosophical traditions. Students are encouraged to engage in independent research, analysis and formulation. The course is intended for students pursuing women's studies and/or political, behavioral or social sciences, and anyone interested in philosophy of women. (FT) AA/AS; CSU; UC.

126 Introduction to Philosophy of Contemporary Gender Issues
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or
This course provides an introduction to the concepts of gender and gender relations for the student interested in the development of contemporary gender issues as they relate to philosophy. The images, roles, and beliefs about gender and gender relations as they vary across cultures will be explored with respect to their impact in our everyday lives and the larger societies within which we live. This course may be of special interest to students going into gender studies and women’s studies. (FT) AA/AS; CSU; UC.

130 Philosophy of Art and Music
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of “C” or better, or equivalent.
This course employs philosophical methods to explore the concepts, principles, and criteria used in the creation and evaluation of art and music. In addition to students interested in philosophy, this course is designed for any student seeking to gain a better understanding of why we appreciate art and music and how we develop standards for evaluating them. A variety of arts may be discussed including painting, sculpture, architecture, design, music, dance, theatre, and literature. (FT) AA/AS; CSU; UC.

205 Critical Thinking and Writing in Philosophy
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of “C” or better, or equivalent.
This critical thinking and writing seminar in Philosophy is designed to enhance the student’s critical thinking, writing, and research skills in preparation for upper division academic activity. Issues addressed in this class may involve various areas of human experience and aspiration: metaphysical, cosmological, scientific, political, ethical, aesthetic, and religious. Together with the application of basic principles of deduction and induction, special attention is given to identifying and avoiding fallacies in reasoning and to techniques and aids to research, reasoning, and writing. (FT) AA/AS; CSU; UC.

290 Independent Study
Hours by Arrangement, 1-3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
For students who wish to study special problems. AA/AS; CSU.

296 Individual Instruction in Philosophy
1.5 - 6 hours lab, 0.5 - 2 units
Pass/No Pass Only
Limitation on Enrollment: Enrollment in an approved related course; Must obtain an Add code from instructor for registration.
This course employs self-paced multimedia systems to assist students to reach specific learning objectives, and is intended to be supplementary to designated courses. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Description
Earth and physical sciences, including astronomy, chemistry, geography, geographic information systems, geology, and physics are disciplines classified as natural sciences. They generally involve nonliving materials and the principles of fundamental relationships and laws in the universe.

Program Emphasis
These programs are designed to prepare students with basic concepts in astronomy, chemistry, geography, geographic information systems, geology and physics which provide the foundation for upper division study in a baccalaureate institution and also satisfy general education requirements.

Faculty
James Covalt M-208 619-388-3355
Nancy Crispen M-207 619-388-3612
Ram Gurumurthy M-210 619-388-3641
Gerardo Scappaticci M-209 619-388-3356
Lisa Will M-207 619-388-3364

Career Options
Most careers in earth and physical sciences fields require education beyond the associate degree and many require a graduate degree. A brief list of career options in the physical sciences includes: astronomer, biophysicist, biochemist, chemist, earth scientist, environmentalist, geographer, geologist, geophysicist, meteorologist, oceanographer, paleontologist, physicist and physical science instructor.

Student Learning Outcomes
Upon successful completion students will be able to:

- Demonstrate an understanding and appreciation of the scientific method.
- Communicate an understanding of the connections between science and other human activities.
- Examine the universe in a variety of courses.
- Utilize critical thinking skills in a variety of scientific applications.

Academic Programs
The associate degrees in Physical and Earth Sciences, Astronomy, Chemistry, Geography, Geology and Physics, require completion of the courses listed for each degree. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Transfer Information
Common university majors related to the field of Physical and Earth Studies include: Astronomy, Biochemistry, Chemical Engineering, Chemical Physics, Chemistry, Earth Studies and Sciences, Environmental Chemistry, Geographic Information Systems, Geography, Geology, Hydrologic Science, Meteorology and Oceanography, Physical Sciences, Physics.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

### Associate in Science Degree: Physics for Transfer

**Program Description:**

The Associate in Science in Physics for Transfer is intended for students who plan to complete a bachelor’s degree in Physics or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree. Students who plan to complete this degree should consult a counselor for additional information about participating CSU campuses as well as university admission, degree and transfer requirements. It is recommended to take additional courses prior to transfer that may be articulated prep for the major to the transfer CSU.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

**Note:** It is recommended that students intending to transfer to San Diego State University (SDSU) BS in Physics, General Physics or BS in Physics, Modern Optics should complete the courses marked with a “#.” Students intending to transfer into this major at other CSUs should consult a counselor and visit [www.assist.org](http://www.assist.org) for guidance on appropriate coursework.

*Course also fulfills general education requirements for the CSU GE or IGETC pattern.

# This course fulfills SDSU’s lower division preparation for the major in BS in Physics, General Physics or the BS in Physics, Modern Optics, under the TMC.

**General Education:** In addition to the courses listed above, students must complete one of the following general education options:

- The IGETC pattern (page 102) is accepted by all CSU campuses and most UC campuses and majors. It is also accepted by some private/independent or out of state universities.
- The CSU GE pattern (page 109) is accepted by all CSU campuses and some private/independent or out of state universities. It is not accepted by the UC system.

**Electives as needed to meet maximum of 60 CSU-transferable units required for the degree.**

**Career Options:**

Careers related to this field typically require education beyond the associate degree level and some may require a graduate degree.

**Courses Required for the Major:**

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 48, English 49 and Mathematics 34A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5, W5 and M20.

This course is an introductory survey of contemporary astronomy. Topics covered include the solar system, stars and stellar evolution, the Milky Way galaxy and cosmology. This course is designed for students planning to take advanced courses in the physical and earth sciences and for transfer students planning to major in astronomy. (FT) AA/AS; CSU; UC.

109 Practice in Observing
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Corequisite: Completion of or concurrent enrollment in Astronomy 101 with a grade of “C” or better, or equivalent.

This is a laboratory field experience course in general astronomy. Emphasis is placed on the constellations, celestial cycle interpretation, and descriptive observations of astronomical objects and events with and without the use of telescopes. This course is for all students interested in field experience in general astronomy. (FT) AA/AS; CSU; UC Transfer Limitation: Astronomy (ASTR) 109 and 111 combined: maximum credit, one course.

111 Astronomy Laboratory
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Corequisite: Completion of or concurrent enrollment in: Astronomy 101 with a grade of “C” or better, or equivalent.

This laboratory course features exercises and experiments covering topics ranging across the spectrum of astronomy. The course deals with the foundations of astronomy, and may include telescopes, planetary astronomy, stellar astronomy and galactic astronomy. Indoor exercises may involve computer simulations. Outdoor exercises may be required. The course is designed to supplement Astronomy 101. (FT) AA/AS; CSU; UC Transfer Limitation: Astronomy (ASTR) 109 and 111 combined: maximum credit, one course.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Chemistry (CHEM)

100 Fundamentals of Chemistry
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Mathematics 46 or 92, each with a grade of “C” or better, or equivalent or Assessment Skill Levels M40 or M45.

Corequisite: Completion of or concurrent enrollment in Chemistry 100L with a grade of “C” or better, or equivalent.

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for or concurrent enrollment in Chemistry 200 or 152.

This course is an introductory study of the language and tools of chemistry. Basic concepts of the structure, properties, interactions of matter and energy are studied, both qualitatively and quantitatively. Emphasis is placed on matter, chemical changes, chemical conversions, chemical bonding, and acid-base chemistry. This course is intended for students majoring in nursing, nutrition, or animal health technology and provides a foundation for further coursework in chemistry, in particular for introductory organic chemistry. (FT) AA/AS; CSU; UC Transfer Limitation: Chemistry (CHEM) 100, 100L and 152, 152L combined: maximum credit, four units. No credit will be given for 100, 100L or 152, 152L if taken after CHEM 200.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
100L Fundamentals of Chemistry Laboratory
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Mathematics 46 or 92, each with a grade of “C” or better, or equivalent or Assessment Skill Levels M40 or M45.
Corequisite: Chemistry 100.
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This laboratory course is designed to illustrate the principles of inorganic and physical chemistry and to familiarize students with scientific reasoning, basic laboratory equipment and safe practices, scientific data collection methods and interpretation. This laboratory course is intended for students majoring in nursing, nutrition and allied health sciences, and provides a foundation for future lab work in chemistry. (FT) AA/AS; CSU; UC Transfer Limitation: Chemistry (CHEM) 100, 100L and 152, 152L combined: maximum credit, four units. No credit will be given for 100, 100L or 152, 152L if taken after CHEM 200.

111 Chemistry in Society
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Chemistry 111L with a grade of “C” or better, or equivalent.
This is an introductory chemistry course for non-science majors. The course emphasizes conceptual topics in chemistry and scientific thinking. Students learn to understand how society uses chemistry-based technologies and how to analyze current trends or news involving chemistry. Topics include a basic understanding of matter and energy, physical and chemical changes, the atom, nuclear chemistry, bonding, acids and bases, organic chemistry, and biochemistry. Current issues in environmental chemistry such as energy resources, air and water pollution are explored. Students discuss the effects and controversy surrounding the use of different forms of energy. In addition, current issues in organic and biochemistry are examined including trends in diets, certain medicines and drugs, and personal care items. Students planning on taking further courses in chemistry should take Chemistry 100 or Chemistry 152. (FT) AA/AS; CSU; UC.

111L Chemistry in Society Laboratory
3 hours lab, 1 unit
Grade Only

Corequisite: Completion of or concurrent enrollment in: Chemistry 111 with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This laboratory course is intended for non-science majors. It is designed to illustrate the principles of chemistry presented in Chemistry 111 in order for the student to understand how chemistry is used in our society. Experiments explore not only basic concepts in chemistry such as matter, energy, and the atom, but also explore real world applications of chemistry. This includes performing experiments related to the chemistry of the environment, household products, and biochemistry. Students learn how to work safely within the laboratory. Students who need to take further chemistry courses should enroll in Chemistry 152L or Chemistry 100L. (FT) AA/AS; CSU, UC.

130 Introduction to Organic and Biological Chemistry
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Chemistry 100 and 100L, or Chemistry 152 and 152L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 130L with a grade of “C” or better, or equivalent.
This is a one-semester course that introduces the basic physical, chemical and structural features of organic and biological compounds. Topics such as bonding, saturated and unsaturated hydrocarbons, the chemistry of organic functional groups, and the properties of important biological compounds such as carbohydrates, fats, and proteins are covered. The importance of these compounds in our daily lives is emphasized. This course is designed for nursing, nutrition, and allied health majors. (FT) AA/AS; CSU; UC Transfer Limitation: Chemistry (CHEM) 130, 130L and 231, 231L combined: maximum credit, one course (with lab).
130L Introduction to Organic and Biological Chemistry Laboratory

3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Chemistry 100 and 100L, or Chemistry 152 and 152L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 130 with a grade of “C” or better, or equivalent.

This is a one-semester laboratory course that illustrates the principles presented in Chemistry 130. Students are introduced to common organic chemistry laboratory equipment, fundamental organic and biochemical reactions, tests and techniques. Techniques covered include chromatography, recrystallization, and distillation. Tests and reactions of common organic functional groups, carbohydrates, fats, and amino acids are covered. Synthesis of a medicinal compound such as aspirin or a nitrogen-based analgesic is also covered. This course is designed for nursing, nutrition, and allied health majors. (FT) AA/AS; CSU; UC Transfer Limitation: Chemistry (CHEM) 130, 130L and 231, 231L combined: maximum credit, one course (with lab).

152 Introduction to General Chemistry

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50.
Corequisite: Completion of or concurrent enrollment in Chemistry 152 with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Chemistry 151. This course is a one-semester laboratory in the principles of inorganic and physical chemistry in preparation for General Chemistry. Topics include chemical measurement, significant figures, laboratory safety, laboratory techniques, chemical reactions and stoichiometry. Emphasis is placed on problem solving, data analysis and chemical calculations. This course is intended for students majoring in one of the natural sciences, engineering or related curricula who need to take General Chemistry. (FT) AA/AS; CSU; UC Transfer Limitation: Chemistry (CHEM) 100, 100L and 152, 152L combined: maximum credit, four units. No credit will be given for 100, 100L or 152, 152L if taken after CHEM 200.

200 General Chemistry I - Lecture

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Prerequisite: Chemistry 152 and 152L, each with a grade of “C” or better, or equivalent and Mathematics 96 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Corequisite: Completion of or concurrent enrollment in Chemistry 200L with a grade of “C” or better, or equivalent.

This is the first course in a two course sequence in general chemistry. Emphasis is placed on the principles and laws of inorganic chemistry, including quantitative, mathematical problem-solving. Topics include chemical equations, stoichiometry, atomic
theory, and its relationship to periodicity of the elements, bonding theories, molecular geometry, solution chemistry, liquids, solids, and the gas laws. This course is intended for science majors and all students interested in chemistry. (FT) AA/AS; CSU; UC.

200L General Chemistry I - Laboratory
6 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Corequisite: Completion of or concurrent enrollment in Chemistry 200 with a grade of “C” or better, or equivalent.

This is the first semester laboratory course in a two course sequence in general chemistry. Emphasis is placed on laboratory experiments that illustrate the fundamental principles and laws of chemical behavior and the properties of matter, including quantitative, mathematical problem-solving. Topics include techniques of data analysis, chemical formulas, equations, stoichiometry and maintenance of a laboratory notebook. This course is intended for science majors and all students interested in chemistry. (FT) AA/AS; CSU; UC.

201 General Chemistry II - Lecture
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Chemistry 200 and Chemistry 200L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 201L with a grade of “C” or better, or equivalent.

This course is the second course in two course sequence in general chemistry and is intended for students majoring in science or satisfying prerequisites for professional schools. The course covers the principles of physical and inorganic chemistry with an emphasis on quantitative, mathematical problem solving. Topics in the course include chemical kinetics, chemical equilibrium, acid base theory, thermodynamics, nuclear chemistry, coordination chemistry and molecular bonding. The course also includes an introduction to organic chemistry. (FT) AA/AS; CSU; UC.

201L General Chemistry II - Laboratory
6 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Corequisite: Completion of or concurrent enrollment in Chemistry 201 with a grade of “C” or better, or equivalent.

This is the second semester laboratory course of a two course sequence in general chemistry. It is intended for students majoring in science or satisfying prerequisites for professional schools. Emphasis is placed on the fundamental principles of physical and inorganic chemistry. Topics include techniques of data analysis, chemical kinetics, chemical equilibrium, acids, bases, and salts, thermochemistry, electrochemistry, coordination chemistry. Wherever appropriate and whenever possible, computer skills are introduced and applied to data analysis, laboratory simulations, and computer interfacing with laboratory equipment. (FT) AA/AS; CSU; UC.

231 Organic Chemistry I - Lecture
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Chemistry 201 and Chemistry 201L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 231L with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6 or English 105 with a grade of “C” or better, or equivalent.

This course is the first semester of a one-year course in Organic Chemistry. Major themes include, but are not limited to, bonding, molecular structure, isomerism, conformational analysis, nomenclature, reaction mechanisms, and synthesis. An emphasis is placed on the reactions of aliphatic compounds such as alkanes, cycloalkanes, alkenes, alkynes, alkyl halides, and alcohols. The organic chemistry literature, and spectral interpretation using techniques such as infrared and nuclear magnetic spectroscopies, are introduced to support the above topics. This course is designed for undergraduates pursuing a degree in the chemical sciences, training in chemical technology, and other transfer students who need organic chemistry as part of the formal preparation for their major; for example, molecular biology, premedical, preental, and pharmacy. (FT) AA/AS; CSU; UC Transfer Limitation: Chemistry (CHEM) 130, 130L and 231, 231L combined: maximum credit, one course (with lab).

231L Organic Chemistry I - Laboratory
6 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Prerequisite: Chemistry 201 and Chemistry 201L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 231 with a grade of “C” or better, or equivalent.
Advisory: English 105 or English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels W6 and R6.

This is a laboratory course designed to illustrate the principles presented in Chemistry 231. The emphasis is on the determination of physical properties and the separation, purification and identification of organic compounds. The course acquaints students with the equipment, glassware, techniques and safe practices specific to the organic chemistry laboratory. Techniques such as measurement of physical constants, recrystallization, extraction, distillation and chromatography are used in the synthesis and/or characterization of selected classes of organic compounds. These classes include, but are not limited to, alkanes, alkenes, alkynes, alkyl halides, and alcohols. The organic chemistry literature and spectral interpretation using techniques such as infrared and nuclear spectroscopies, are introduced to support the above topics. This course is designed for undergraduates pursuing a degree in the chemical sciences, training in chemical technology, and those students who need organic chemistry as part of the formal preparation for their major; for example, molecular biology, premedical, predental, and pharmacy. (FT) AA/AS; CSU; UC Transfer Limitation: Chemistry (CHEM) 130, 130L and 231, 231L combined: maximum credit, one course (with lab).

233 Organic Chemistry II - Lecture
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Chemistry 231 and Chemistry 231L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 233 with a grade of “C” or better, or equivalent.

This course is the second semester of a one-year sequence in Organic Chemistry Laboratory and is designed to illustrate the principles presented in Chemistry 233. The emphasis is on synthesis, purification and/or characterization of selected classes of organic compounds, including but not limited to aromatics, alcohols, aldehydes and ketones, carboxylic acids, amines, and simple examples of bio-organic molecules. Additional emphasis is placed on multi-step synthetic pathways and product identification using selected methods of qualitative organic analysis such as wet chemical and advanced spectroscopic techniques. Variation of scale from micro- to macro-quantities, and more advanced separation and analytical techniques, distinguish the level of this course from Organic Chemistry I Laboratory. This course is intended for students pursuing a baccalaureate degree in the chemical sciences or in majors such as premedical, predental or pharmacy; and for students training for careers in some chemical technology fields. (FT) AA/AS; CSU; UC.

233L Organic Chemistry II - Laboratory
6 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Prerequisite: Chemistry 231 and Chemistry 231L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Chemistry 233 with a grade of “C” or better, or equivalent.

This course is the second semester of a one-year sequence in Organic Chemistry Laboratory and is designed to illustrate the principles presented in Chemistry 233. The emphasis is on synthesis, purification and/or characterization of selected classes of organic compounds, including but not limited to aromatics, alcohols, aldehydes and ketones, carboxylic acids, amines, and simple examples of bio-organic molecules. Additional emphasis is placed on multi-step synthetic pathways and product identification using selected methods of qualitative organic analysis such as wet chemical and advanced spectroscopic techniques. Variation of scale from micro- to macro-quantities, and more advanced separation and analytical techniques, distinguish the level of this course from Organic Chemistry I Laboratory. This course is intended for students pursuing a baccalaureate degree in the chemical sciences or in majors such as premedical, predental or pharmacy; and for students training for careers in some chemical technology fields. (FT) AA/AS; CSU; UC.
251 Quantitative Analytical Chemistry
3 hours lecture, 6 hours lab, 5 units
Letter Grade or Pass/No Pass Option

Prerequisite: Chemistry 201 and 201L, each with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Mathematics 122 or 150, each with a grade of “C” or better, or equivalent.
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent. This is a course in quantitative analysis. Major topics include theory and practice of gravimetric and volumetric methods of chemical analysis and introduction to instrumental methods of analysis with a focus on precision and accuracy of experimental data. This course is intended for students majoring in chemistry or biochemistry and others who need the course for career advancement. (FT) AA/AS; CSU; UC.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

101 Physical Geography
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5. This course examines the major world patterns of the physical environment. The course covers the fundamental information and processes dealing with the earth’s atmosphere, climate, landforms, natural vegetation, water, and soils, along with the appropriate use of maps and charts. This course is of interest to anyone seeking an understanding of the Earth’s physical processes and mechanisms or social science majors. (FT) AA/AS; CSU; UC.

101L Physical Geography Laboratory
3 hours lab, 1 unit
Grade Only

Corequisite: Completion of or concurrent enrollment in Geography 101 with a grade of “C” or better, or equivalent. Advisory: English 48 and English 49 and Mathematics 34A, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M20. This course requires practical observations and applications of the geographic grid, atlases and topographic maps, weather and climate, natural vegetation and soils, and landforms. Exercises are designed to supplement Physical Geography 101. (FT) AA/AS; CSU; UC.

102 Cultural Geography
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 101 or English 105, with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6. This course is an introduction to thematic cultural geography. Emphasis is placed on population, race, language, religion, settlement patterns, political organization, economic activities, industry, and the regional distribution of these elements. This course is for students interested in thematic cultural geography or Social Science majors. (FT) AA/AS; CSU; UC.

104 World Regional Geography
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course provides students with a survey of the physical, cultural, political, and economic characteristics of the world’s major geographical regions. These regions include Europe, North America, Latin America, Africa, Australia, Oceania, and South, East, and Southeast Asia. The course focuses on historical, environmental, cultural, economic, and technological factors that impact the world’s main geographical areas. (FT) AA/AS; CSU; UC.

154 Introduction to Urban Geography
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a survey of urban geography. Emphasis is placed on the evolution, function and form of American and world cities. Topics include social, economic and technical forces that shape urban development and the role of urban planning in a variety of cities around the world. This course is designed for social science majors and all students interested in geography and urban planning. (FT) AA/AS; CSU; UC.

**This discipline may offer specialized instruction in one or more of the following areas:** Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

### Geology (GEOL)

#### 100 Physical Geology

3 hours lecture, 3 units

**Letter Grade or Pass/No Pass Option**

**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

**Advisory:** Concurrent enrollment in Geology 101 with a grade of “C” or better, or equivalent.

Physical Geology is the science of the Earth, the materials of which it is composed, and the processes that are acting upon it. Topics include plate tectonics and earth's internal structure, the formation and classification of minerals and rocks, geologic structures, and geologic processes of the earth's surface and subsurface. This course is intended for students with a general interest in the geological sciences as well as those majoring in geology, earth science, or geological engineering. (FT) AA/AS; CSU; UC.

#### 101 Physical Geology Laboratory

3 hours lab, 1 unit

**Letter Grade or Pass/No Pass Option**

**Corequisite:** Completion of or concurrent enrollment in Geology 100 with a grade of “C” or better, or equivalent.

**Advisory:** English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.

#### 104 Earth Science

3 hours lecture, 3 units

**Letter Grade or Pass/No Pass Option**

**Advisory:** English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

This course is a survey of Earth's major physical systems, including the lithosphere, hydrosphere, atmosphere, and Earth's place in the solar system. Emphasis is placed on a synthesis of pertinent topics in geology, physical geography, oceanography, meteorology, and astronomy. This course is intended for those with a general interest in the Earth sciences. (FT) AA/AS; CSU; UC.

#### 290 Independent Study

Hours by Arrangement, 1-3 units

**Letter Grade or Pass/No Pass Option**

**Advisory:** English 48 with a grade of “C” or better, or equivalent, or Assessment Skill Level R5. Geology 100 and 101, each with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** Must obtain an Add Code from instructor for registration.

For students who wish to study special problems. AA/AS; CSU.

**This discipline may offer specialized instruction in one or more of the following areas:** Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

AA/AS = Associate Degree Applicable

CSU = California State University Applicable

UC = University of California Applicable
104 Geographic Information Science and Spatial Reasoning  
2.5 hours lecture, 1.5 hours lab, 3 units  
Grade Only  
Prerequisite: Mathematics 96 with a grade of “C” or better, or equivalent or Assessment Skill Level M50.  
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.  
This course is an introductory survey of Geographic Information Systems (GIS), including cartography, remote sensing, spatial analysis, and global positioning systems (GPS). Emphasis is placed on the ways in which these technologies are applied to human and environmental problems. Students use spatial data to visualize information and identify spatial patterns and are introduced to map interpretation, georeferencing, and spatial data management. This course is designed for students and professionals who use GIS to better understand and analyze geographic data in their field. (FT) AA/AS; CSU; UC.

110 Introduction to Mapping and Geographic Information Systems  
2.5 hours lecture, 1.5 hours lab, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 101 or English 105, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. Computer Business Technology 101, 114 and 161, each with a grade of “C” or better, or equivalent.  
This course is a practical study of Geographic Information Systems (GIS). Emphasis is placed on the use of ArcGIS software to map, analyze, and model geographic information relevant to fields such as forestry, economics, cartography, city planning, and health. Topics include map making, GIS data creation and management, and map projections and coordinate systems. (FT) AA/AS; CSU.

100 Survey of Physical Science  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 42, English 43 and Mathematics 34A, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R4, W4 and M20.  
This course is an introductory survey of the fundamental concepts of astronomy, geology, chemistry and physics. Emphasis is placed on the interrelationships among these disciplines and the ways in which the physical sciences affect modern life. This course is intended for students with a general interest in the physical sciences. (FT) AA/AS; CSU; UC Transfer Limitation: No credit if taken after a college level course in Chemistry or Physics.

101 Survey of Physical Science Laboratory  
3 hours lab, 1 unit  
Letter Grade or Pass/No Pass Option  
Corequisite: Completion of or concurrent enrollment in Physical Science 100 with a grade of “C” or better, or equivalent.  
Advisory: Completion of or concurrent enrollment in English 48 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and M40.  
This course introduces students to the science laboratory and is designed to demonstrate the fundamental concepts of astronomy, geology, chemistry and/or physics as presented in Physical Science 100. Emphasis is placed on the application of the scientific method and collaborative learning. This course is intended for students with a general interest in the physical sciences. (FT) AA/AS; CSU; UC Transfer Limitation: No credit if taken after a college level course in Chemistry or Physics.  
This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.
100 Introductory Physics
3 hours lecture, 3 hours lab, 4 units
Letter Grade or Pass/No Pass Option
Advisory: Mathematics 46 with a grade of “C” or better, or equivalent or Assessment Skill Level M40. This course is intended for students who are interested in the basic knowledge of physics with a minimum preparation in mathematics. A comprehensive coverage of subject matter in physics is presented, including mechanics, wave motions, thermodynamics, optics, electromagnetism, atomic and nuclear physics. Emphasis is on the conceptual aspects, including explanation of natural phenomena. The learning of concepts is reinforced through laboratory work. (FT) AA/AS; CSU; UC Transfer Limitation: No credit for Physics (PHYS) 100 if taken after a college level course in Physics.

125 General Physics
4 hours lecture, 3 hours lab, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 104 or Mathematics 116 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Physics 120A, 124A, 125A, 181A or 195.
This course is an introductory survey of the concepts and principles of physics. Emphasis is placed on developing an understanding of the properties of matter, mechanics, heat and sound. This course is intended for students taking liberal arts and/or pre-professional courses that do not require physics with calculus. (FT) AA/AS; CSU; UC Transfer Limitation: Physics (PHYS) 120A-120B, 121A-121B, 124A-124B, 125-126, 180A-180B, 181A-181B, 195A-195B-195C and 195-196-197, combined: maximum credit, one series.

180A General Physics I
4 hours lecture, 4 units
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 116 with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in Mathematics 121 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Physics 120A and Physics 125A, or credit or concurrent enrollment in Physics 124A.
This course is an introductory survey of the concepts and principles of physics. Emphasis is placed on developing an understanding of the properties of matter, mechanics, heat and sound in order to make calculations and solve fundamental physics problems. (FT) AA/AS; CSU; UC Transfer Limitation: Physics (PHYS) 120A-120B, 121A-121B, 124A-124B, 125-126, 180A-180B, 181A-181B, 195A-195B-195C and 195-196-197, combined: maximum credit, one series.

180B General Physics II
4 hours lecture, 4 units
Letter Grade or Pass/No Pass Option
Prerequisite: Physics 180A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Physics 120B and Physics 125B, or credit or concurrent enrollment in Physics 124B.
This course is an introductory survey of the concepts and principles of physics. Emphasis is placed on developing an understanding of the properties of electricity, magnetism, light and modern physics in order to make calculations and solve fundamental physics problems. (FT) AA/AS; CSU; UC Transfer Limitation: Physics (PHYS) 120A-120B, 121A-121B, 124A-124B, 125-126, 180A-180B, 181A-181B, 195A, The second course in a two-part introductory survey explores the concepts and principles of physics. Topics include electricity, magnetism, light, and modern physics. This course is intended for students taking liberal arts and/or pre-professional courses that do not require physics with calculus. (FT) AA/AS; CSU; UC Transfer Limitation: Physics (PHYS) 120A-120B, 121A-121B, 124A-124B, 125-126, 180A-180B, 181A-181B, 195A-195B-195C and 195-196-197, combined: maximum credit, one series.
195B, 195C and 195-196-197 combined: maximum credit, one series.

181A General Physics Laboratory I
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Corequisite: Completion of or concurrent enrollment in: Physics 180A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Physics 121A.
This laboratory course is a hands-on study of the properties of matter, mechanics, heat and sound through laboratory experiments. This course is designed for students interested in the physical sciences. (FT) AA/AS; CSU; UC Transfer Limitation: Physics (PHYS) 120A-120B, 121A-121B, 124A-124B, 125-126, 180A-180B, 181A-181B, 195A-195B-195C and 195-196-197 combined: maximum credit, one series.

181B General Physics Laboratory II
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Physics 180A with a grade of “C” or better, or equivalent.
Corequisite: Completion of or concurrent enrollment in: Physics 180B with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Physics 121B.
This laboratory course is a hands-on study of the principles of electricity, magnetism, light and modern physics through laboratory experiments. This course is designed for students interested in the physical sciences. (FT) AA/AS; CSU; UC Transfer Limitation: Physics (PHYS) 120A-120B, 121A-121B, 124A-124B, 125-126, 180A-180B, 181A-181B, 195A-195B-195C and 195-196-197 combined: maximum credit, one series.

195 Mechanics
4 hours lecture, 3 hours lab, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Mathematics 150 with a grade of “C” or better, or equivalent.
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: Completion of or concurrent enrollment in Mathematics 151 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Physics 195A and Physics 196A.

196 Electricity and Magnetism
4 hours lecture, 3 hours lab, 5 units
Grade Only
Prerequisite: Physics 195 and Mathematics 151, each with a grade of “C” or better, or equivalent.
Advisory: Mathematics 252 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Physics 195B and 196B.
This is the second of a three-semester calculus-based general physics sequence. Topics include the basic principles and applications of electrostatics, magnetostatics, time-varying electric and magnetic phenomena, direct and alternating current circuits, elementary electronics, and electromagnetic waves. Emphasis is placed on the mathematical analysis of physical problems. Laboratory work on various aspects of electric and magnetic phenomena emphasizing direct current (DC) and alternating current (AC) circuits is included. This course is intended for students majoring in the physical sciences or engineering. (FT) AA/AS; CSU; UC Transfer Limitation: Physics (PHYS) 120A-120B, 121A-121B, 124A-124B, 125-126, 180A-180B, 181A-181B, 195A-195B-195C and 195-196-197 combined: maximum credit, one series.

197 Waves, Optics and Modern Physics
4 hours lecture, 3 hours lab, 5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Physics 196 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Physics 195C and 196C.
This is the third semester of a three semester calculus-based Physics course designed for prospective scientists and engineers. Topics include the fundamental principles of physics of waves, the

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Description
Physical Education/Exercise Science is a discipline which focuses on the process through which individuals develop optimal physical, mental and social skills through regular physical activity. Exposure to varieties of movement experiences nurtures the development of active lifestyles necessary to achieve wellness objectives which improve the quality of life.

Program Emphasis
The Physical Education/Exercise Science department offers a diverse curriculum which includes lower division theory courses designed for those who want to complete their Associate in Arts degree in the discipline and transfer to an institution of higher learning. An additional component includes a basic instruction program which provides students a wide variety of movement experiences for the development of physical activity skills and knowledge necessary for lifetime wellness. A third program focuses on a certificate program for fitness specialist. Finally, an intercollegiate program, offers performance-oriented students opportunities for competition.

Jennifer Aase  619-388-3485
Dede Bodnar  619-388-3544
Christopher Brown  619-388-3705
Mitch Charlens  619-388-3703
Paul Greer  619-388-3704
Andrea Milburn  619-388-3121
LeeAnn Taylor  619-388-3890
Ellen Turkel  619-388-3127

Career Options
Most career options directly related to physical education require baccalaureate degrees and some may require graduate degrees. Some of the career options in physical education include: athletic administrator; athletic trainer; coach; health/sport club manager; health and safety director; public, private or nonprofit organization recreation director; resort activities director; sports journalist and teacher. Students earning the Associate in Arts degree in Physical Education may find employment at assistant level positions in the K-12 school system, the fitness industry or recreational settings.

Student Learning Outcomes

ATHLETICS
Upon successful completion the student/athlete will be able to:

- Create an Educational Plan with the Athletic Counselor
- Develop a greater skill level in their sport
- Exhibit the qualities of teamwork as it relates to their sport
- Develop a player profile to be used as a recruiting tool for four year institutions
- Increase their levels of physical fitness

HEALTH
Upon successful completion the student will be able to:

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
• Learn that life is a balancing act and identify how the following components of wellness will aid in successfully navigating one's life.
  • Physical
  • Spiritual
  • Emotional
  • Cognitive
  • Social
  • Environmental

Physical Education
Upon successful completion the student will improve in one or more of the following fitness components:
  • Cardio-respiratory endurance
  • Muscular endurance
  • Muscular strength
  • Flexibility
  • Body composition

FITNESS SPECIALIST
Upon successful completion the student will be able to:
  • Demonstrate the ability to prescribe safe and effective exercise
  • Develop and implement group and individual exercise programs
  • Possess an applied understanding of human anatomy, physiology and nutrition as it applies to physical fitness
  • Develop specialized fitness programs to meet the needs of the targeted individual.

Associate in Arts Degree: Physical Education

Courses Required for the Major: Units
PHYE 241B  Introduction to Kinesiology  3
PHYE 166W  Weight Training I  1
Select four units from Physical Education courses numbered 103 through 167.(see catalog for course titles and descriptions).

Complete the following additional courses required for the major:
BIOL 107  General Biology-Lecture and Laboratory  4
BIOL 230  Human Anatomy  4
SOCO 101  Principles of Sociology  3
Total Units = 19

Recommended electives: Physical Education 240, Psychology 101, 258.

Other recommended electives: Any Physical Education (PHYE) activity course.

Transfer Information
Common university majors related to the field of Physical Education include: Athletic Administration, Athletic Training, Exercise Science, Health Administration, Health Education, Health Sciences, Kinesiology, Physical Education, Pre-Physical Therapy, Recreation, Sports Management.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor's degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student's specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Fitness Specialist

Certificate Program Description
Students in this program will be trained to be group exercise leaders and personal trainers. Students will learn the principles of exercise and physical conditioning, techniques of leading individual and group exercise classes, appropriate methods to establishing healthy behavior and the designing of personalized exercise prescriptions. They will be able to develop safe, effective exercise plans for a variety of clients.

Program Emphasis
The Fitness Specialist certificate program trains students for positions, entry-level or higher, in the growing fitness industry.
Career Options
Graduates will be qualified to be exercise testing technicians, fitness instructors, strength training instructors, aerobic instructors, and personal fitness trainers.

The fitness industry continued to experience growth and has an ongoing need for trained instructors and trainers in health clubs, fitness centers, and sports medicine clinics.

Please note that students enrolled in an occupational program must earn a grade of "C" or better in courses required for the major.

Certificate of Achievement: Physical Education

Total Units = 16

This program prepares candidates for American College of Sports Medicine (ACSM) or American Council of Exercise (ACE) certification exams.

Health Education (HEAL)

101 Health and Life-Style

3 hours lecture, 3 units

Advisory: English 47A or English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course covers aspects of mental, emotional, social, environmental, spiritual and physical health. Emphasis is placed on knowledge for development of attitude, understanding, and practice of a preventive lifestyle for healthy living and optimal wellness. Specific instructional areas include chronic diseases, physical activity, nutrition, weight management, birth control methods, human sexuality, alcohol, tobacco and illicit chemical use, stress, and factors that contribute to wellness and longevity. Experience in personal health assessment and the changing of health behaviors is stressed. This course is of interest to all students seeking a healthy lifestyle, and to those pursuing a teaching credential. Satisfies State of California Health Education requirement for teaching credential. (FT) AA/AS; CSU; UC.

195 Health Education For Teachers

2 hours lecture, 2 units

Advisory: English 47A or English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Health Education 190.

This course overviews health-related issues and problems in the kindergarten through 12th grade. Topic areas include behavior modification, stress symptoms and management, physical activity, nutrition, cardiovascular disease, sexually transmitted diseases, illicit substance abuse, alcohol and nicotine use and misuse. This course satisfies the

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
State of California Health Education requirement for the K-12 Teaching Credential. This course is intended for prospective K-12 teachers. AA/AS; CSU. *This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.*

**Physical Education (PHYE)**

Physical Education classes are offered at the beginning, intermediate and advanced levels.

**Aquatic Activities**

A program which offers the student a choice from a variety of courses. Instruction and conditioning in all aspects of aquatics to provide a carry-over value for leisure life.

**155W Swimming I**

1.5 - 3 hours lab, 0.5 - 1 unit  
Grade Only

*Advisory:* English 47A or English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.  
*Limitation on Enrollment:* This course is not open to students with previous credit for Physical Education 155.  
This course is the first in a series of swimming courses. Emphasis is placed on fundamental swimming technique and water safety skills. This course is intended for beginning level swimmers. When this course is offered for three hours per week, the additional time is utilized for skill development. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

**156 Water Exercise**

2-3 hours lab, 0.5 - 1 unit  
Letter Grade or Pass/No Pass Option

Instruction in the development of the fundamental elements of fitness through the application of water resistance and buoyancy. Progressive instruction includes the development of increasingly more strenuous exercises for cardiorespiratory fitness, muscular strength, endurance and flexibility. AA/AS; CSU; UC Transfer Limitation. See a Counselor.

**181A Adapted Swimming**

2-3 hours lab, 0.5 - 1 unit  
Letter Grade or Pass/No Pass Option

*Advisory:* English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.  
*Limitation on Enrollment:* A physician’s medical release form is required.  
This course is designed for students with disabilities to learn how to swim through modified swimming strokes based on their abilities. Emphasis is placed on practice in the fundamental swimming strokes, including water safety skills. Stroke analysis, conditioning and endurance is stressed in the progression of the class. When this course is offered for three hours a week, the additional time is utilized for enhanced musculo-skeletal and cardio-vascular fitness development. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

**Dance**

Dance courses may be used to fulfill the Physical Education graduation requirement. See page 81 in the Academic Requirements section of this catalog.

**103W Aerobic Dance I**

1.5 - 3 hours lab, 0.5 - 1 unit  
Grade Only

*Advisory:* English 47A or English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.  
*Limitation on Enrollment:* This course is not open to students with previous credit for Physical Education 103.  
This course is an introduction to all forms of Aerobic Dance and movement. Emphasis is placed on fundamental Aerobic Dance technique, vocabulary, and performance concepts. This course is the first in a series of four aerobic dance courses. It is designed for all students interested in Aerobics as a cardiovascular, movement-oriented sport. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

**Individual Activities**

A basic program which offers the student a choice of vigorous, competitive activity in individual sports and activities designed to provide carry-over value for leisure life. Instruction is in fundamental skills knowledge of rules and strategy, with emphasis on physical fitness.
### 104 Step Aerobics

**3 hours lab, 1 unit**  
**Grade Only**  

**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.  

Step Aerobics is a rigorous exercise course designed to increase both the fitness levels of participating students and their understanding of what constitutes a safe and effective exercise program. Instruction includes a balanced exercise program of step aerobics, toning, stretching, and relaxation along with discussion of related health topics. This class is designed for those who want to increase cardiovascular fitness and who are interested in understanding the importance of the fitness aspect of their life. AA/AS; CSU; UC Transfer Limitation. See a Counselor.

### 108 Badminton

**2-3 hours lab, 0.5 - 1 unit**  
**Letter Grade or Pass/No Pass Option**  

This course provides instruction and on-court experience in the skills, strategies, rules and behaviors necessary to play badminton at the beginning, intermediate or advanced level and is intended for novices and students currently playing at any of these levels. When this course is offered for three hours per week, the additional time is utilized for stroke development drills and application of strategies in playing situations. AA/AS; CSU; UC Transfer Limitation. See a Counselor.

### 123W Cardio Conditioning I

**1.5 - 3 hours lab, 0.5 - 1 unit**  
**Grade Only**  

**Advisory:** English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  

Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 132.  

This course provides instruction in the basic skills necessary to improve aerobic fitness, cardiovascular health, muscular endurance/strength, and static flexibility. Topics include fitness terminology, identifying individual fitness level and areas to improve, basic exercise programming, proper warm up/cool down and resting/exercise heart rate. When the course is offered three hours per week, the additional time is utilized for increasingly strenuous cardiovascular activities. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

### 132W Individual Conditioning I - Fundamentals

**1.5 - 3 hours lab, 0.5 - 1 unit**  
**Grade Only**  

**Advisory:** English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  

Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 132.  

This course provides individually programmed instruction in the fundamental skills and techniques of strength training and aerobic activity. The positive impact of physical education on health and wellness is explored and emphasized. This course is of particular interest to students wishing to enter the fields of sports medicine and athletics, as well as to students seeking to improve overall fitness. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

### 126 Golf

**2 - 3 hours lab, 0.5 - 1 unit**  
**Grade Only**  

**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.  

This course provides golf instruction and practice in the fundamentals of the grip, stance, alignment, backswing, and downswing. Topics also include stretching and principles of warm-up, golf club selection and use, player guidelines, scoring, game etiquette, and safety procedures. This course is intended for beginners, intermediate and advanced players. When this course is offered for three hours per week, the additional time is utilized for skill development and increased management of game strategies. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

### 133 Cardio Kickboxing

**2 - 3 hours lab, 0.5 - 1 unit**  
**Grade Only**  

**Advisory:** English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.  

This course is an introduction to cardiorespiratory fitness combined with basic kickboxing techniques, practices and principles. Instruction includes upper

---

**AA/AS = Associate Degree Applicable**  
**CSU = California State University Applicable**  
**UC = University of California Applicable**
body punching functions, kick techniques and combination series of both upper body and lower body kickboxing routines. The benefits of kickboxing include increased strength, flexibility, and balance as well as stress reduction. The class will have a pre-designed format along with choreographed music. Cardio Kickboxing is a unique form of non-contact cardiovascular exercise. This class is designed for those who want to increase cardiovascular fitness and who are interested in understanding the importance of the fitness aspect of their life. (FT) AA/AS; CSU; UC. See a Counselor.

142 Racquetball

1.5 - 3 hours lab, 0.5 - 1 unit
Letter Grade or Pass/No Pass Option

This course offers instruction and practice in racquetball at the beginning, intermediate and advanced recreational levels. Emphasis is placed on the skills of grip, strokes, footwork, court coverage and rules of the game. Singles and doubles strategies, offensive and defensive positioning and tournament play are incorporated at the intermediate and advanced levels. This course is intended for novices and students currently playing at any of these levels. When this course is offered for three hours per week, the additional time is utilized for skill development and court strategy. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

153W Aerobic and Core Conditioning I

1.5 - 3 hours lab, 0.5 - 1 unit
Letter Grade or Pass/No Pass Option

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 153.

This course provides students with introductory level knowledge and practice in attaining and maintaining aerobic and core conditioning fitness levels. Instruction will emphasize cardiovascular fitness as well as core fitness through individual and circuit training. This course is the first in a series of four aerobic and core conditioning courses. It is intended for students seeking to develop introductory physical fitness habits. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

157 Fitness Applications

2 - 3 hours lab, 0.5 - 1 unit
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: Completion of or concurrent enrollment in: Physical Education 153 with a grade of “C” or better, or equivalent.

This course is designed for students interested in increasing their fitness levels using a longer and more demanding aerobic circuit. Each student is assessed in the areas of cardiovascular efficiency, flexibility, muscular endurance and body composition. An individualized fitness program is prescribed utilizing goals established jointly by the student and instructor. When this course is offered for 3 hours per week, the additional time is utilized on individual analysis of performance. (FT) AA/AS; CSU; UC.

159W Tennis I

1.5 - 3 hours lab, 0.5 - 1 unit
Grade Only

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 159.

This course is the first in a series of four courses in tennis. Emphasis is placed on introductory level skills, strokes, strategies, rules and etiquette. This course is intended for kinesiology majors and all students interested in incorporating the game of tennis into an active lifestyle. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

166W Weight Training I

1.5 - 3 hours lab, 0.5 - 1 unit
Grade Only

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 166.

This course is an introduction to progressive resistive training. Instruction includes proper methods of weight training, use of weight training machines, cardio exercise equipment, lifting of free weights and warm up/cool down. Instruction also includes charting exercises, introduction to major muscle
groups and the weight training exercises to improve strength and range of motion. This class is designed for students interested in a healthy lifestyle as well as exercise science majors. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

168 Yoga

2-3 hours lab, 0.5 - 1 unit
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

This course is an introduction to basic yoga practices and principles. Instruction includes yoga postures, guided relaxations, and breathing practices. The benefits of yoga include increased flexibility, strength, balance, and body awareness as well as stress reduction. This course is designed for students interested in health and longevity. When this course is offered for three hours per week, the additional time is utilized for the practice of postures. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

182 Adapted Weight Training

2 - 3 hours lab, 0.5 - 1 unit
Letter Grade or Pass/No Pass Option

Limitation on Enrollment: A physician’s medical release form is required.

This course is designed for students with disabilities as an introduction to progressive resistance training. Emphasis is placed on developing cardiorespiratory and muscle endurance, muscle strength and flexibility and a healthy body composition through individualized safe and beneficial exercise programming. The course includes exercises that focus on relaxation, joint mobility, body maintenance, and activities for daily living. AA/AS; CSU; UC Transfer Limitation. See a Counselor.

184 Adapted Physical Fitness

2-3 hours lab, 0.5 -1 unit
Letter Grade or Pass/No Pass Option

Limitation on Enrollment: A physician’s medical release form is required.

This course is designed for students with disabilities to provide opportunities for exercise and activities to improve cardiorespiratory endurance, flexibility, muscular endurance, strength, stress management and coordination. Activities can include walking, dance, rhythm activities, wheelchair pushing, jogging, relaxation training and exercises for joint mobility. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

187 Outdoor Cycling

1.5 - 6 hours lab, 0.5 - 2 units
Grade Only

This course provides instruction in the skills required for outdoor cycling. Emphasis is placed on proper warm-up and warm down, cycling form and bicycle maintenance. Students design a personal fitness plan around outdoor cycling. This course is intended for all students interested in cycling and personal fitness. When this course is offered for two units, the additional time is utilized for skill development in the area of on-road group cycling leadership. (FT) AA/AS; CSU; UC.

188 Hiking for Fitness

1.5 - 6 hours lab, 0.5 - 2 units
Grade Only

This course provides instruction in the skills required for hiking. Emphasis is placed on proper warm-up and warm down, walking form and injury prevention and treatment. Students design a personal fitness plan around hiking. This course is intended for all students interested in hiking and personal fitness. When this course is offered for one or two units, the additional time is utilized for skill development in the group hiking leadership. (FT) AA/AS; CSU; UC.

232 Martial Arts

3 hours lab, 1 unit
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

This course is designed for students with an interest in martial arts. The course is geared toward International Okinawan Goju-Ryu Karate-Do Federation (IOGKF), and Tae Kwon Do Federation, with phrases and terms from other styles for general informational usage. Emphasis is placed on the fundamentals of martial arts, including martial arts safety skills and etiquette, punches, blocks, strikes, kicks, stances, vital points, tournament terminology, numbers and kata and forms,(Poomse) Kick/Strike analysis, flexibility, conditioning and endurance are stressed in the progression of the class. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
233 Kickboxing
2 - 3 hours lab, 0.5 - 1 unit
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is designed for students interested in developing kickboxing skills. The course includes solo training, partner training, equipment training, controlled sparring, and the art of Muay Thai kickboxing. Emphasis is placed on practice in the fundamentals of kickboxing, including kickboxing safety skills and etiquette. Kick/strike analysis, balance, flexibility, conditioning, muscular strengths and endurance are stressed in the progression of the class. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

Intercollegiate Athletics

200 Intercollegiate Badminton I
10 hours lab, 2 units
Grade Only
Advisory: Physical Education 108 with a grade of “C” or better, or equivalent, or previous competitive badminton experience.
This is a course for students competing in their first intercollegiate badminton season. The course is offered in the spring semester and may be taken two times for credit. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

201 Intercollegiate Badminton II
10 hours lab, 2 units
Grade Only
Advisory: Physical Education 200 with a grade of “C” or better, or equivalent.
This is a course for students competing in their second intercollegiate badminton season. The course is offered in the spring semester and may be taken two times for credit. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

202 Intercollegiate Baseball I
Spring, 10 hours, 2 units
Letter Grade or Pass/No Pass Option
Intercollegiate varsity baseball competition. AA/AS; CSU; UC Transfer Limitation. See a Counselor.

203 Intercollegiate Baseball II
Spring, 10 hours, 2 units
Letter Grade or Pass/No Pass Option
Intercollegiate varsity baseball. Second season of competition. AA/AS; CSU; UC Transfer Limitation. See a Counselor.

204 Intercollegiate Basketball I
Spring/Fall
5 - 7.5 hours lab, 1 - 1.5 units
10 hours, 2 units
Letter Grade or Pass/No Pass Option
This course is intended for the first season of intercollegiate competition. Basketball skills and game strategies are at a more advanced level of participation than those of the Basketball 112 class. This course may be taken two times for credit. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

205 Intercollegiate Basketball II
5-10 hours lab, 1-2 units
Letter Grade or Pass/No Pass Option
This course is intended for the second season of intercollegiate competition. Basketball skills and game strategies are at the advanced levels of participation. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

206 Intercollegiate Cross-Country I
10 hours lab, 2 units
Letter Grade or Pass/No Pass Option
This course is for students participating in their first season of intercollegiate varsity cross-country competition. This course may be taken two times for credit. Students must demonstrate increased proficiency and skill attainment with each repetition. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

207 Intercollegiate Cross-Country II
6 hours, 2 units
Grade Only
Advisory: Physical Education 206 with a grade of “C” or better, or equivalent.
Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is for students participating in their second season of intercollegiate varsity cross-country competition. This course may be taken two times for credit. Students must demonstrate increased proficiency and skill attainment with each repetition.
repetition. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

This course is for students competing in their first season of intercollegiate track and field. This course may be taken two times for credit. Students must demonstrate increased proficiency and skill attainment with each repetition. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
223 Intercollegiate Track and Field II  
10 hours lab, 2 units 
Letter Grade or Pass/No Pass Option 
This course is for students competing in their second season of intercollegiate track and field. This course may be taken twice times for credit. Students must demonstrate increased proficiency and skill attainment with each repetition. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

224 Intercollegiate Volleyball I  
160 - 180 hours lab, 2 units 
Grade Only 
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Physical Education 161 with a grade of “C” or better, or equivalent and/or previous competitive volleyball experience. 
This is the first course in intercollegiate volleyball competition. Topics include analyses of team offensive and defensive systems. This course is designed to prepare advanced volleyball students for intercollegiate competition. This course is offered in the fall and spring semester and may be taken two times for credit. Students must demonstrate increased proficiency and skill attainment with each repetition. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

225 Intercollegiate Volleyball II  
Fall, Spring, 10 hours lab, 2 units 
Letter Grade or Pass/No Pass Option 
Advisory: Physical Education 224 with a grade of “C” or better, or equivalent. 
This is the second course in intercollegiate volleyball competition. This course is offered in the fall semester for women and the spring semester for men and may be taken two times for credit. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

Team Sports  
111 Baseball  
2 - 3 hours lab, 0.5 - 1 unit 
Letter Grade or Pass/No Pass Option 
Instruction to develop the fundamental skills of throwing, catching, running, hitting, rules of play and strategy. Intermediate and advanced levels emphasize both individual and team skill development and strategies involved in competitive game situations. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

112 Basketball  
2-3 hours lab, 0.5 - 1 unit 
Grade Only 
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5. 
This course offers basic instruction in the fundamental skills of basketball and team offense and defense. Topics include terminology, rules, and strategy of the game. When this course is offered for three hours per week, the additional time is utilized on individual analysis of technique and performance. It is intended for students interested in the sport of basketball as well as those needing to satisfy the physical education graduation requirement. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

149W Soccer I  
1.5 - 3 hours lab, 0.5 - 1 unit 
Grade Only 
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5. 
Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 149. 
This course in beginning soccer is designed for all students interested in increasing both skill level and game experience. Instruction includes basic soccer techniques, skills, strategies, etiquette and rules necessary to play soccer at the beginning level. When this course is offered for three hours per week, the additional time is utilized for skills development and application of strategies to game situations. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

151 Softball  
2 - 3 hours lab, 0.5 - 1 unit 
Letter Grade or Pass/No Pass Option 
This course provides instruction in the fundamental skills of throwing, catching, running, hitting, and rules of play of softball as well as individual and team skill development and strategies involved in competitive game situations. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

161 Volleyball  
2 - 3 hours lab, 0.5 - 1 unit 
Grade Only 
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course provides instruction and on-court experience in fundamental skills, offensive and defensive strategies, rules and etiquette necessary to play volleyball. The ability to perform the basic fundamentals will be demonstrated in game situations as well as skills testing. When this course is offered for three hours per week, the additional time is utilized for skill development and court strategy. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

165 Pre-season Volleyball Conditioning for Elite Athletic Performance

2 - 3 hours lab, 0.5 - 1 unit
Letter Grade or Pass/No Pass Option

This course provides individually programmed coaching in the fundamental skills of volleyball specific training and aerobic conditioning. Through progressive inquiry and practice, students demonstrate more advanced levels of athletic performance. This course is of particular interest to students who want to improve their athletic performance through comprehensive sport specific strength and conditioning. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

Physical Education Theory Classes

240 Physical Education in the Elementary Schools

3 hours lecture, 1 hour lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course includes a brief study of the growth, development and characteristics of the elementary school child. The elements of written lesson plans, units, evaluations and various forms of testing are covered. The teaching of fundamental skills, rhythms, dance and games based on sound physiological principles for this age group is emphasized. The positive impact of physical education on health and wellness in addition to academic achievement is explored. Actual teaching situations are experienced in the lab sessions. This course is designed to fulfill lower division preparation for the major for students interested in elementary education. (FT) AA/AS; CSU

241B Introduction to Kinesiology

3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 241.

This is an introductory course covering the professional career options, history, basic philosophy and principles of Kinesiology. Additionally a nutritional component covers the current and emerging issues in foods and nutrition. This course is of interest to anyone exploring opportunities in the fields of health, wellness, physical activity, nutrition and sport. This course is required for Kinesiology majors. (FT) AA/AS; CSU; UC.

242B Care and Prevention of Injuries

3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Physical Education 242.

This course covers the theory and practice of emergency field care and basic athletic first aid. Topics include prevention and care of common athletic injuries, bandaging and/or taping techniques. This course is designed for students interested in athletic training, coaching of sports and majoring in Physical Education, Kinesiology and Exercise Science. (FT) AA/AS; CSU; UC.

248A Professional Activities/ Tennis

1 hour lecture, 3 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Corequisite: Physical Education 220.

This course covers the theoretical concepts necessary for students to compete successfully in their first intercollegiate tennis season. Topics covered include mechanical analysis of fundamental through advanced tennis skills, offensive and defensive strategies, statistics, and rules. This course is offered separately for men and women who

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
are interested in competing at the intercollegiate level. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

248B Professional Activities / Tennis II
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option

Advisory: Physical Education 248A with a grade of “C” or better, or equivalent.
This course further develops the theoretical and practical skills necessary for students to compete successfully in their second intercollegiate tennis season. Emphasis is placed on advanced offensive and defensive tennis skills and strategies. This course is offered separately for men and women who are interested in competing at the intercollegiate level. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

249A Professional Activities/Badminton
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option

Corequisite: Physical Education 200.
This is a course in which students competing in their first intercollegiate badminton season learn the theoretical concepts necessary for successful participation. Topics covered include mechanical analysis of fundamentals through advanced badminton skills, offensive/defensive strategies, statistics, rules and officiating. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

249B Professional Activities / Badminton II
1.5 hours lecture, 1.5 hours lab, 2 units

Grade Only

Prerequisite: Physical Education 201 with a grade of “C” or better, or equivalent.
This is a course in which students competing in their second intercollegiate badminton season learn advanced theoretical concepts for successful participation. Topics covered include mechanical analysis of fundamentals through advanced badminton skills, offensive/defensive strategies, statistics, rules and officiating. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

251A Theories and Strategies of Basketball I
1.5 hours lecture, 1.5 hours lab, 2 units

Grade Only

Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course covers the theoretical concepts necessary for students to compete successfully in their first intercollegiate basketball season. Topics include rules, game strategies, history, and game preparation. The physiological requirements for the intercollegiate athlete and importance of nutritional components for optimal performance are emphasized. Separate sections of this course are offered for men and women. The course is intended for intercollegiate athletes. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

251B Theories and Strategies of Basketball II
1.5 hours lecture, 1.5 hours lab, 2 units

Grade Only

Prerequisite: Physical Education 251A with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course covers advanced theoretical concepts and techniques for intercollegiate basketball competition. Topics include advanced team strategies, efficient basketball conditioning techniques, goals for game preparation, and leadership qualities for basketball. Concepts of team building and social skills necessary for success at the intercollegiate level are also emphasized. Separate sections of this course are offered for men and women. The course is intended for intercollegiate athletes. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

252A Professional Activities/Baseball I
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option

Competency development with emphasis on skills, strategy, tactics, rules, officiating, facilities film review, and organizational procedures as it relates to school or college baseball. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

252B Professional Activities/Baseball II
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option

Sophomore athletic eligibility status required.
A continuation of Physical Education 252A with emphasis on advanced skills, strategy, tactics, rules officiating, and organizational procedures in baseball. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.
253A Professional Activities/Softball I
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Corequisite: Physical Education 216.
This is a course which explores a variety of softball strategies and tactics focusing on the development of offensive and defensive strategies, rules, officiating, video review, and mechanical analysis of fundamentals through intermediate softball skills. The course is open to those interested in participating in the sport of softball at an intermediate level. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

253B Professional Activities/Softball II
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Corequisite: Physical Education 217.
This course develops both mental and physical competency with emphasis on advanced skill, tactics, rules, both offensive and defensive strategies, officiating, facilities, video review, organizational procedures and physiological aspects of the game as they relate to college softball. The course is open to students interested in the sport of softball at the advanced level. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

255A Theories and Strategies of Intercollegiate Volleyball I
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Advisory: Concurrent enrollment in Physical Education 224 or Physical Education 225.
This is a course in which students competing in their first intercollegiate volleyball season learn the theoretical concepts necessary for successful participation. Topics covered include mechanical analysis of fundamentals through advanced volleyball skills, offensive/defensive strategies, statistics, rules and officiating. Separate sections of this course are offered for men and women. The course is intended for intercollegiate athletes. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

255B Theories and Strategies of Volleyball II
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Prerequisite: Physical Education 255A with a grade of “C” or better, or equivalent.
Advisory: Concurrent enrollment in Physical Education 224 or Physical Education 225.
This course covers the theoretical concepts necessary for students to compete successfully in their first intercollegiate soccer season. Topics include mechanical analysis of fundamental through advanced soccer skills, offensive and defensive strategies, statistics, rules, and officiating. Separate sections of this course are offered for men and women. The course is intended for intercollegiate athletes. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

257A Theories and Strategies of Soccer I
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course covers the theoretical concepts and techniques for intercollegiate soccer competition. Topics include advanced team strategies, efficient conditioning techniques, goals for game preparation, and leadership qualities. Concepts for team building and social skills necessary for success at the intercollegiate level are emphasized. Separate sections of this course are offered for men and women. The course is intended for intercollegiate athletes. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

257B Theories and Strategies of Soccer II
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Prerequisite: Physical Education 257A with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49 each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course covers the theoretical concepts and techniques for intercollegiate soccer competition. Topics include advanced team strategies, efficient conditioning techniques, goals for game preparation, and leadership qualities. Concepts for team building and social skills necessary for success at the intercollegiate level are emphasized. Separate sections of this course are offered for men and women. The course is intended for intercollegiate athletes. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
258A Professional Activities/Cross Country I
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
This course introduces students to the development of skills for cross country running as well as biomechanics, exercise physiology, workout design, scouting, and procedures for administering a college cross country meet. The course is designed for students who are participating in this sport and for those who may be interested in coaching cross country teams. (FT) AA/AS; CSU; UC Transfer Limitation. See a Counselor.

258B Professional Activities/Cross Country II
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only
Prerequisite: Physical Education 258A with a grade of “C” or better, or equivalent.
This course covers the development of advanced skills in cross country running, including techniques of biomechanics, exercise physiology, workout design, and scouting. The course also focuses on procedures for administering college cross country meets and coaching techniques. The course is designed for second-year students who are participating in this sport and for those who are interested in coaching cross-country teams. (FT) AA/AS; CSU.

296 Individual Instruction in Physical Education
1.5 - 6 hours lab, .5 - 2 units
Pass/No Pass Only
Limitation on Enrollment: Concurrent enrollment in an approved course of the same discipline is required. The instructor of the related course will supply Add Code to the student, which permits registration in the course. This course provides supplemental instruction to reinforce achievement of the learning objectives of a course in the same discipline under the supervision of the instructor of the designated course. Learning activities may employ a variety of self-paced multimedia learning systems, language labs, print and electronic resources, laboratory, or field research arrangements, to assist student in reaching specific learning objectives. This open entry/open exit course is offered concurrently with designated courses. AA/AS; CSU

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Fitness Specialist Courses

270 Fitness Specialist Work Experience
60 - 300 hours other, 1-4 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
A program of on-the-job learning experiences for students employed in a job related to the Fitness Specialist Certificate program. This course may be taken for a maximum of 4 units. However, the combined maximum credit for all Work Experience courses from all disciplines may not exceed 16 units. (FT) AA/AS; CSU.

280 Applied Exercise Physiology
2 hours lecture, 2 units
Grade Only
Advisory: Mathematics 46 with a grade of “C” or better, or equivalent or Assessment Skill Level M40.
This course is designed for the student in the Fitness Specialist Certificate Program planning to study how the body functions under conditions of exercise stress and how fitness behaviors affect health and wellness. Emphasis is placed on muscular, cardiorespiratory, and other physiological processes that occur as a result of exercise conditioning, and the effect of disease. (FT) AA/AS; CSU.

281 Applied Kinesiology
2 hours lecture, 2 units
Grade Only
This course is designed for the student in the Fitness Specialist Certificate Program planning to study movement as it relates to exercise under both normal and injury conditions. Students learn the practical implications of bones, joints, nerves, and muscle actions. Emphasis is placed on applying body alignment, range of motion, stabilization, and acceleration principles to the development of exercise programs. (FT) AA/AS; CSU.
282 Techniques of Weight Training  
2 hours lecture, 2 units  
Grade Only
This course is designed for the student in the Fitness Specialist Certificate Program intending to teach weight training. Topics include anatomy, physiology, training sequences, equipment options, safety factors, and contraindications. (FT) AA/AS; CSU.

283 Exercise and Fitness Assessment  
1.5 hours lecture, 1.5 hours lab, 2 units  
Grade Only
This course is designed for the student in the Fitness Specialist Certificate Program to develop the skills necessary to assess and evaluate exercise and fitness parameters. Topics include cardiorespiratory endurance, muscular strength and endurance, flexibility, body fat, pulmonary function, and blood pressure and evaluate the results. Emphasis is placed on determining the appropriate test, conducting the test, evaluating the results, and creating an exercise program. (FT) AA/AS; CSU.

284 Fitness and Sports Nutrition  
2 hours lecture, 2 units  
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.  
This course is designed for the student in the Fitness Specialist Certification Program. Students study the basic principles of nutrition and the ramifications of nutrition on sports activities. (FT) AA/AS; CSU.

285 Exercise for Special Populations  
2 hours lecture, 2 units  
Grade Only
This course is designed for the student in the Fitness Specialist Certificate Program planning to study the exercise implications for special populations related to age, medical condition and level of fitness. Emphasis is placed on cardiac conditions, diabetes, obesity, physical disabilities, Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS), asthma, sensory impairments. Issues and barriers to exercise are included for each of the following groups: seniors, children, athletes, mentally impaired and pregnant and post partum women. (FT) AA/AS; CSU.

286 Techniques of Exercise Leadership  
1.75 hours lecture, 0.75 hours lab, 2 units  
Grade Only
This course is designed for the student in the Fitness Specialist Certificate Program planning to study the principles and techniques involved in teaching group exercise and developing a personal trainer/client relationship. Emphasis is placed on client assessment, communication skills, program design, exercise adherence, teaching strategies, and professional responsibility and liability. (FT) AA/AS; CSU.

287 Fitness Specialist Internship  
1 hour lecture, 6 hours lab, 2 units  
Grade Only
Prerequisite: Physical Education 280, 281, and 283, each with a grade of “C” or better, or equivalent.  
This course is designed to provide students in the Fitness Specialist Certificate Program with practical experience in the field of exercise and fitness. Emphasis is placed on participant screening, evaluation, and exercise program design, self marketing, fitness specialist/client relationships and professional responsibility in a fitness setting. (FT) AA/AS.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
The primary objectives of the Political Science program are to meet general education requirements for American Institutions and Social Sciences for the associate degree and to complete general education requirements for baccalaureate degrees. Political science is the study of human behavior as it relates to political situations. It involves the examination of institutions, processes, people, ideas and policies. The study of political science develops cultural literacy, critical thinking and other useful skills.

Program Emphasis
San Diego City College offers four courses in Political Science: Political Science 101, 102, 103 and 140. Completion of Political Science 101, 102 and 103 provides the student with lower division preparation for a baccalaureate degree in Political Science at San Diego State University.

Career Options
Most careers in political science require education beyond the associate degree and some require a graduate degree. This is not a comprehensive list but some of the most common career options with political science preparation include: public administrator, budget analyst, city planner, diplomatic corps member, elected official, legislative aide, journalist, lawyer, lobbyist, political scientist, public opinion surveyor, teacher and writer.

Student Learning Outcomes
Upon successful completion the student will be able to:

- Critically analyze the study of human behavior as it relates to political situations in college-level essays, written assignments, and research papers.
- Identify and describe main concepts in the study of political science including, but not limited to, political power, sovereignty, nation-state: legitimacy; authority, political culture, political socialization, political ideology; social contract; separation of powers; federalism; unitary system; rule of law and globalization.

Academic Programs
The associate degree in Political Science requires completion of courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Associate in Arts Degree: Political Science for Transfer

Program Description:
The Associate in Arts in Political Science for Transfer is intended for students who plan to complete a bachelor’s degree in Political Science or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree. Students who plan to complete this degree should consult a counselor for additional information about

Faculty Office Telephone
Sofia Laurein MS-437 619-388-3092 slaurain@sdccd.edu
participating CSU campuses as well as university admission, degree and transfer requirements.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

**Student Learning Outcomes:**
Upon successful completion the student will be able to:

- Critically analyze the study of human behavior as it relates to political situations in college-level essays, written assignments, and research papers.
- Identify and describe main concepts in the study of political science including but not limited to political power, sovereignty, nation-state; legitimacy; authority, political culture, political socialization, political ideology; social contract; separation of powers; federalism; unitary system; rule of law and globalization.

**Note:** It is recommended that students intending to transfer to San Diego State University (SDSU) in Political Science should complete the courses marked with a “#”. Students intending to transfer into this major at other CSUs should consult a counselor and visit www.assist.org for guidance on appropriate coursework.

*Course also fulfills general education requirements for the CSU GE or IGETC pattern.

# This course fulfills SDSU’s lower division preparation for the major in Political Science under the TMC.

**General Education:** In addition to the courses listed above, students must complete one of the following general education options:

- The IGETC pattern (page 102) is accepted by all CSU campuses and most UC campuses and majors. It is also accepted by some private/ independent or out of state universities.
- The CSU GE pattern (page 109) is accepted by all CSU campuses and some private/independent or out of state universities. It is not accepted by the UC system.

**Electives as needed to meet maximum of 60 CSU-transferable units required for the degree.**

**Career Options:**
Careers related to this field typically require education beyond the associate degree level and some may require a graduate degree.

**Courses Required for the Major:**

**Total Units = 18-19**

**Course Requirements for Transfer Students**
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the

**AA/AS = Associate Degree Applicable**
**CSU = California State University Applicable**
**UC = University of California Applicable**
Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

### Political Science (POLI)

#### 101 Introduction to Political Science
3 hours lecture, 3 units
**Letter Grade or Pass/No Pass Option**
*Advisory:* English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is an introduction to the field of Political Science. Emphasis is placed on the concepts and methodologies used in the study of political institutions, political participation, public opinion, and the international political system. Topics also include a survey of political theory and the history of American political ideology and culture. This course is intended for students majoring in Political Science and those interested in the field of Political Science. (FT) AA/AS; CSU; UC.

#### 102 The American Political System
3 hours lecture, 3 units
**Letter Grade or Pass/No Pass Option**
*Advisory:* English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This comprehensive survey course provides an in-depth study of the American political system. National and California systems of government are studied from the perspective of constitutional frameworks and political institutions, processes, issues, and policies. Other topics include political participation; political parties and interest groups; social movements and minorities; civil liberties; and the role of political ideology, culture, and the mass media in shaping public opinion and policymaking. This course is intended for transfer students, political science majors, or students interested in the American political system. (FT) AA/AS; CSU; UC.

#### 103 Comparative Politics
3 hours lecture, 3 units
**Letter Grade or Pass/No Pass Option**
*Advisory:* English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6.
*Limitation on Enrollment:* This course is not open to students with previous credit for Political Science 130.
This course is an introduction to comparative politics. Emphasis is placed on analyses of various political systems using the fundamental concepts and methodologies of comparative politics. This course is designed for political science majors and anyone interested in comparative and/or international politics. (FT) AA/AS; CSU; UC.

#### 140 Contemporary International Politics
3 hours lecture, 3 units
**Letter Grade or Pass/No Pass Option**
*Advisory:* English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a study of world politics including the various approaches to international relations and international political economy. Emphasis is placed on the roles of nationalism, nation-states, transnationalism and international organizations in the making of contemporary world politics as well as on issues of national security, power and diplomacy, economic competition, international law and the environment. This course is intended for students majoring in political science or anyone with an interest in world politics. (FT) AA/AS; CSU; UC.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Selected Studies

Description
Designed for students who are interested in a program of studies that will allow them to attain educational or career goals that are not satisfied by associate degrees offered in Programs of Instructions listed in this catalog.

Associate in Arts Degree: Selected Studies

Courses Required for the Major:
The student must earn a minimum of 18 required semester units in a single discipline or related disciplines. The approved course of study represents a cohesive and rigorous program of instruction related to a specific goal not met by other Programs of Instruction as found in this catalog. The student and a counselor will develop a Selected Studies program to be submitted to an academic standards committee for review and approval. The student is encouraged to meet with the counselor early in his or her educational career to review the student’s statement of justification for the Associate in Arts Degree: Selected Studies and to develop an education plan.

Only one course from the approved pattern for the Selected Studies major may be used to satisfy SDCCD general education requirements. Students must fulfill additional requirements for the Associate Degree as listed in this catalog.

For graduation requirements see Requirements for the Associate Degree on page 79.

Electives as needed to meet minimum of 60 units required for the degree:

Recommended Electives: Electives are particularly important in this program. They may be used by the student to strengthen the major, explore new fields of interest, and satisfy graduation requirements at a four-year institute.

The student who plans carefully may fulfill the requirements for the A.A. Degree and also complete most lower division requirements at the four-year institution of his/her choice in the major area and in general education. See generalized guide for transfer student located in this catalog.

Shipbuilding Technology

Award Type | Units
--- | ---
Certificate of Achievement: Shipbuilding Technology | 24
Associate in Science Degree: Shipbuilding Technology | 24*

*and courses to meet graduation requirements, general education and electives as needed to meet minimum of 60 units required for the degree.

Description
Shipbuilding Technology, a specific concentration within the broad range of today’s industrial manufacturing, was created as a cooperative effort between San Diego City College School of Math, Engineering & Technologies and National Steel and Shipbuilding’s Training and Organizational Development Department. Shipbuilding Technology represents a technological field requiring the application of a variety of applied skills in support of manufacturing in large shipyards and in smaller shipbuilding companies. The education of technologists tends to be less theoretical and less mathematical than that of engineers, but more hardware, process and application oriented.

Statement of Goals:
The primary goals of the program are:
1. Occupational: To prepare students for the changing technology associated with shipbuilding by giving them a fundamental understanding of the trade, skill and management technologies and how they apply to a globally competitive industry. To help students enhance skills so they can advance as technologists and managers of technologists in the shipbuilding industry. 2. Transfer: To enable students to transfer to a four-year baccalaureate degree program in industrial technology. The objectives of the program are: 1. To provide students with a strong foundation in the practical and academic AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
skills necessary for success in upper division study at a four-year college. 2. To give students a strong foundation in the skills necessary for success in current job positions or for promotional opportunities in the shipbuilding industry. 3. To develop students’ productivity, efficiency and creativity in the field of shipbuilding technology. 4. To provide students with the knowledge and ability to apply problem solving skills to real shipbuilding issues. 5. To offer students and local employers a complete certification program that can be used as a criterion in hiring processes. 6. To offer local shipbuilding employers and students a sequence of courses leading to a certificate that will improve the skill and abilities of their employees.

Program Emphasis
The program offers instruction in the specific trades, tools, techniques and processes involved in shipbuilding. Teamwork is emphasized, reflecting the interdisciplinary work environment emerging in the shipbuilding industry. The curriculum is project based and emphasizes the integration of technical knowledge with leadership skills to help shipyards achieve desired goals associated with global competition. An associate in science degree will be awarded upon completion of the common core courses and the San Diego City College graduation and general education requirements. In addition, a certificate of achievement may be awarded upon the completion of the courses required for the major.

Faculty Office Telephone
Fred Julian A-107D 619-388-3720

Career Options
Sheetmetal mechanic, Welder, Electrician, Machinist, Pipefitter, Multi-skilled technician/mechanic, Manufacturing Engineer, Quality Systems Engineer, Supervisor, Shipyard Administrator, CAD/CAM Operator, Vocational Trainer.

Student Learning Outcomes
Through a process of engagement with organizational management and technical shipbuilding curriculum, the student will be equipped to:

- Explain all facets of shipbuilding technology from supply chain management through final testing the delivery of a completed ship.
- Read, comprehend and apply best practices in trade design and incorporation of manufacturing techniques to meet specialty requirements in shipbuilding.
- Identify, explain and utilize methods and best trade practices to maximize safety in shipbuilding technologist worksites and effective management and implementation of trade safety processes.
- Apply and incorporate principles of effective organizational leadership, including management techniques to supervise technologists in milestone program staging to support standardized and timely manufacturing outcomes.

Academic Programs
The associate degree in Shipbuilding Technology requires completion of courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Certificate of Achievement: Shipbuilding Technology
The Certificate of Achievement in Shipbuilding Technology prepares for entry-level employment as a shipyard multi-trade technician. Additionally, it is designed to give technical, trade-specific knowledge to those working in other jobs in a shipyard, such as finance or supervision. The sequence of courses provides the basis for skills necessary to manage technicians in a globally competitive arena.

Recommended electives: Electricity 121, 121L; Electronic Systems 124, 124L; Mathematics 46, 96 or 98 118, 119, Communication Studies 103.

**Note:** Additional recommended electives -- Chemistry and Physics courses. Shipbuilding Technology recommended electives include major preparation transfer units for the Fresno State Industrial technology Bachelor of Science Degree as well as lower division transfer preparation for San Diego State and other colleges and universities. See TRANSFER INFORMATION for more information.

**Transfer Information**

Common university majors related to the field of Shipbuilding include: Industrial Engineering, Industrial Technology.

**Course Requirements for Transfer Students**

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

**Courses**

**Shipbuilding Technology (SHIP)**

50 Orientation to the Maritime Professions

3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option

This survey course provides students with an overview of the maritime industry. It provides a broad understanding of the waterfront community, its functions, terminology, and occupational choices in the various fields in maritime as well as the place of the industry in the American economy as a whole. (FT) AA/AS.

101 Introduction to Shipbuilding Technology I

3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This is a survey course that covers the history, standard business models, and current concepts, theories and methods related to manufacturing in the shipbuilding industry. (FT) AA/AS; CSU.

103 Introduction to Shipbuilding Technology II

3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This is a survey course designed to acquaint the student with the shipbuilding industry. The course
will focus on essential products and processes required in strategic departments and organizations throughout the shipyard. (FT) AA/AS; CSU.

110 Shipyard Safety and Safety Management
3 hours lecture, 3 units
Grade Only

Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course focuses on the principles of behavior-based safety as it relates to: safety legislations and organizations, management and employee responsibilities and attitudes, management systems, philosophy and issues, and the physical hazards associated with the shipyard environment. (FT) AA/AS; and transfer to CSU.

115 Shipbuilding Processes
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course will investigate how ships are built; focusing on how raw materials (primarily steel) are changed into a finished product. The course provides an overview of the theory behind the manufacturing and construction processes required in shipbuilding including forming (heating, cutting, bending), separating (burning, cutting, drilling), assembling (mechanical, welding) and corrosion control. (FT) AA/AS; CSU.

115L Shipbuilding Processes Lab
3 hours lab, 1 unit
Grade Only

Corequisite: Completion of or concurrent enrollment in Shipbuilding Technology 115 with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course involves laboratory practice in basic metal processes. Emphasis is placed on safety, measurements, common formulas, machine, tool and equipment applications, and project work. (FT) AA/AS; CSU.

201 Technological Issues: Organization and Effective Leadership in Shipbuilding
3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course introduces shipbuilding technology students to the unique issues, problems and challenges encountered in a rapidly changing manufacturing environment. The course will analyze internal and external factors such as environment, size, technology, politics, strategy, human resources, job design and organization culture as they relate to the technologist or manager of technology. The course focuses on the basic tools and techniques for the planning and scheduling of projects, as well as the techniques for effective communication. The course will also address leadership theories, including building and motivating effective teams and the application of those theories to the shipyard environment. (FT) AA/AS; CSU.

205 Culminating Project
3 hours lecture, 3 units
Grade Only

Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
The Shipbuilding Technology final project is intended to be the culminating scholastic effort or capstone experience providing the student with the opportunity to use knowledge and skills acquired in previous courses in problem solving, research, teamwork, and communication in a shipbuilding environment. The student, with the approval of the assigned faculty advisor, selects a topic, develops a problem statement and outlines the approach. Then the student - by investigating and recommending a solution to a topic typical of problems graduates must solve in their field of employment - completes the project under the guidance of the faculty advisor. Project results are presented in a formal report in both written and oral format. (FT) AA/AS; CSU.

<tr>
<td>Sustainability</td>
<td></td>
</tr>
</tbody>
</table>

Description
The Sustainability Program offers an interdisciplinary, theoretical and practical approach for students to enter into the academic and/or professional fields related to Sustainability. Students gain skills to critically analyze current global affairs in order to offer alternative solutions to create sustainable societies. The Sustainability program allows students to gain professional experience with an organization through participation in the required one-unit capstone course in field experience.

Program Goals:
Upon completion of the Sustainability program, students are able to:

- Analyze, discuss and evaluate issues related to sustainability on all levels;
- Apply theory in academic disciplines such as sociology, philosophy, economics, and environmental science to the field of sustainability;
- Critically think about their role in the world and their possible contributions to a sustainable global society;
- Understand the role of ethics in sustainability.

Program Emphasis:
The three main pillars of the Sustainability program are environmental issues, economics, and social and ethical issues. The program explores issues related to these three pillars on an inter/intra personal, communal, and global level. An emphasis is placed upon 1) the interdisciplinary nature of addressing issues related to sustainability, 2) active participation and involvement in the field experience component of the required capstone course, and 3) affective and analytical responses to concepts related to the three pillars.

Faculty
Erin Rempala
A-227
619-388-3712

Career Options:
Most career options directly related to Sustainability require a four-year degree. The Certificate may allow you to work in industry, consultancy, regulatory agencies, utilities, academia, local, state, or federal government, non-profits, or for a non-governmental organization depending on your interest and your desired academic and professional path. Some examples include: Sustainability Coordinator, Corporate Social Responsibility Officer, Project Coordinator / Manager, Environmental Planner, Policy Advocate, Community Organizer, Green Technology Consultant, Green Building Consultant, Environmental Engineer, Sustainability Advocacy Director, Environmental Economist, Green Restaurant Owner, Natural Resource Manager, Restoration Ecologist, Sustainable Development Specialist, Educator

Student Learning Outcomes
At the conclusion of the Sustainability Program the student will:

- Describe the interdisciplinary nature of key sustainability issues.
- Generate affective and analytical responses to barriers interfering with the achievement of sustainability.
- Actively engage and participate in the field of experience component.

Certificate of Performance: Sustainability
This certificate provides students the tools to critically analyze the environmental, social, and economic issues related to sustainability.

**Recommended Electives:** Sociology 223.

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

### Courses

#### Sustainability (SUST)

**101 Introduction to Sustainability**

3 hours lecture, 3 units  
Grade Only

**Advisory:** English 101 or English 105, with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.

This course introduces students to an interdisciplinary examination of the theory and practices of sustainability. Sustainability can be defined as meeting the needs of the present generation without compromising the ability of future generations to meet their own needs. Topics include restoring ecological and environmental health, creating economic welfare, and ensuring social justice. This course is intended for students interested in Sustainability, Environmental Ethics, and Peace Studies. (FT) AA/AS; CSU; UC.

**102 Environmental Ethics**

3 hours lecture, 3 units  
Grade Only

**Corequisite:** Completion of or concurrent enrollment in: Sustainability 101 with a grade of “C” or better, or equivalent.

**Advisory:** English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6; Philosophy 100 with a grade of “C” or better, or equivalent.

This course allows students to gain an understanding of the field of moral philosophy as it pertains to environmental issues. Ethical theories are analyzed through application to issues such as: population growth, future generations, biodiversity, animal rights, pollution, energy use and consumption. This course is intended for students interested in Sustainability, Environmental Science, Philosophy, Biology, Sociology, Geology, Ecology, and Peace Studies. (FT) AA/AS; CSU; UC.

**103 Ecological Commerce**

3 hours lecture, 3 units  
Grade Only

**Corequisite:** Completion of or concurrent enrollment in: Sustainability 101 with a grade of “C” or better, or equivalent.

**Advisory:** English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. This course examines sustainable business practices and their environmental, ethical, and economic impact. Students evaluate green business models to determine the effectiveness and assess the limitation of the model. Topics include ecological economics, business accountability, resource consumption and how to “green” a business. This course is intended for students interested in Sustainability, Business, Environmental Ethics and Peace Studies. (FT) AA/AS; CSU.

**250 Field Experience In Sustainability**

16-54 total hours lecture,  
32-108 total other hours, 1-3 units  
Grade Only

**Prerequisite:** Sustainability 101 with a grade of “C” or better, or equivalent.

**Advisory:** English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. Students in this course develop and implement field experience projects under the supervision of college faculty. In cooperation with the staff of community organizations and agencies, students design these projects to assist the college’s neighborhood communities. Students gain hands-on experience in project planning, development, implementation and evaluation. Students meet regularly with faculty and peers to receive feedback, support and guidance in their community projects. This course is intended for students interested in Sustainability. (FT) AA/AS; CSU.

101 Introduction to Technical Writing
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6. This course will cover how to evaluate and organize technical information, develop ideas, and establish good working relationships with technical experts. The course provides practice in technical writing formats and techniques, and offers an overview of career opportunities. (FT) AA/AS; CSU.

Visual and Performing Arts
Two- and Three-Dimensional Art

Program Description
This program provides fundamental training in fine arts enabling students to earn an associate degree while completing lower division preparation for a four-year degree. The curriculum is designed to maximize transferable course units and to provide basic skills required for employment in art-related fields.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Program Goals
This program provides the opportunity for students to develop fundamental skills in design, drawing, and art history, and to explore artmaking using a variety of media. The primary aim is to provide strong foundational skills for transferring to a four-year institution. The program also prepares students to create advanced artwork and pursue a career in related fields.

Program Emphasis
The Fine Arts program emphasizes critical thinking and perceptual awareness to enable students to develop their artistic skills. There are two areas of emphasis in the Fine Art major: Two Dimensional Art and Three Dimensional Art.

Career Options
Some careers listed require education beyond the associate degree: art critic, art dealer, educator, historian, arts administrator, advertising specialist, ceramicist, community or computer artist, computer graphics illustrator, computer publishing, design consulting, display designer, gallery director, graphic artist, illustrator, muralist, painter, printmaker, sculptor and visual information specialist.

Student Learning Outcomes
Students who complete the program will be able to:

- Utilize design principles to compose visually successful works.
- Compare and contrast, orally or in writing, the expressive goals, techniques, strategies and styles of past and present artists working in graphic media.
- Recognize and incorporate elements such as line, mass, light, and position while drawing the human figure.
- Identify certain historically significant art works and distinguish their salient characteristics, in written responses and in oral discussion.
- An effort to reach a personal understanding of the visual arts as consumers, custodians and creators of visual culture.

Academic Programs
The associate degree in Two- and Three-Dimensional Art requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Associate in Arts Degree: Visual and Performing Arts

Two-Dimensional Art Emphasis
The Associate Degree in Fine Art with a two-dimensional design (art) emphasis provides students with the skills and knowledge to continue artmaking at a four-year institution or as a practicing artist or designer.

Transfer Information

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor's degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student's specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.
art history, the humanities and culture. (FT) AA/AS; CSU; UC.

111 Art History: Renaissance to Modern
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6. This course is a survey of the visual arts in western civilization from the Renaissance to the Modern era. Emphasis is placed on representative art and architecture from the Renaissance, Mannerism, Baroque, Rococo, Neo-Classicism, Romanticism, Impressionism, Post-Impressionism, and Modernism eras. This course is intended for art majors and all students interested in art history, the humanities and culture. (FT) AA/AS; CSU; UC.

115 African Art
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a history of African art. Emphasis is placed on aesthetics, styles and iconography as they relate to African culture and society. This course is designed for all students interested in art, art history and the humanities. (FT) AA/AS; CSU; UC Transfer Limitation: Fine Art (ARTF) 115 and 120 combined: maximum credit, one course. Fine Art (ARTF) 115 and Black Studies (BLAS) 111 combined: maximum credit, one course.

125 Art History: Arts of the Asian Continent
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5. This course provides a survey of paintings, sculpture, architecture, and associated fine arts from India, China, Japan, and other countries throughout the Asian continent. It emphasizes the social, religious, and political highlights of each culture and their effects on art forms from prehistoric to modern times. This course is designed not only for art students, but also for those who are interested in history, religion, philosophy, humanities, and cultural enrichment. (FT) AA/AS; CSU.

150A Two-Dimensional Design
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is an introduction to two-dimensional space and form. Emphasis is placed on organizing visual space into vivid and coherent images. This course is designed for students beginning a study of art and/or related disciplines. (FT) AA/AS; CSU; UC.

150B Beginning Graphic Design
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Level R6 and W6; Art-Fine Art 150A with a grade of “C” or better, or equivalent.
This is an introductory class in graphic communication which uses the computer as a tool for building and editing images. Students address problems of visual form and organization, but with an emphasis in this course on visual constructions which convey information, and on type and text as graphic components of those constructions. This course would be useful for anyone interested in computer graphic design applications. (FT) AA/AS; CSU; UC.

151 Three-Dimensional Design
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 150A with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is an introduction to three-dimensional space and form. Emphasis is placed on organizing visual space into valid and coherent structures. This course is designed for students beginning the study of art and/or related disciplines. (FT) AA/AS; CSU; UC.

155A Freehand Drawing I
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This is an introductory course designed to develop the student’s ability to perceive and translate visual relationships from 3-dimensional (3-D) space into 2-dimensional (2-D) drawings. Emphasis is placed on the use of art theory, basic art elements and
compositional strategies to create pictorial space and compose original images based on observation. This course is intended for art majors and all students interested in learning freehand drawing whether or not they have previous art experience. (FT) AA/AS; CSU; UC.

155B Freehand Drawing II
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 and Art-Fine Art 155A with a grade of “C” or better, or equivalent.

This course is an intermediate course in which students apply art principles and theory to create solutions to particular problems of graphic representation and expression. Emphasis is placed on visual analysis and inquiry in creating pictorial space and applying drawing media. Students are introduced to the use of interdisciplinary art forms and image making and explore New Genres as a means of continued intellectual and artistic development. This course is intended for art and graphic art students. (FT) AA/AS; CSU; UC.

165A Composition in Painting I
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 155A with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6 and Art-Fine Art 150A and Art-Fine Art 152, each with a grade of “C” or better, or equivalent.

This course is an introduction to oil and acrylic painting methods and techniques. Emphasis is placed on composition, color, and application of general design principles. A variety of subject matter, such as still-life, landscape, portrait and non-objective subjects, and a variety of stylistic approaches such as cubism, collage, realism and expressionism are explored. This course is designed to develop students’ creative abilities and critical thinking in visual terms. This course is intended for students majoring in art and those who wish to improve their artistic skills. (FT) AA/AS; CSU; UC.

165B Composition in Painting II
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 165A with a grade of “C” or better, or equivalent.

This course is the second semester of introduction to oil and acrylic painting methods and techniques. Emphasis is placed on the concepts of pictorial space, composition, and color. The course is designed to further develop students’ creative abilities and critical thinking through the construction of images designed to address specific pictorial problems and goals. This course is intended for students majoring in art and those who wish to improve their artistic skills. (FT) AA/AS; CSU; UC.

165C Composition in Painting III
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 165B with a grade of “C” or better, or equivalent.

This course is the third semester of introduction to oil and acrylic painting methods and techniques. Emphasis is placed on composition, color, and application of general design principles at a more advanced level of creativity and sophistication. This course is designed to develop students’ creative abilities and critical thinking in visual terms through the use of individual assignments tailored to students’ skills. This course is intended for students majoring in art and those who wish to improve their artistic skills. (FT) AA/AS; CSU; UC.

165D Composition in Painting IV
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 165C with a grade of “C” or better, or equivalent.

This course is the fourth and final semester of introduction to oil and acrylic painting methods and techniques. Emphasis is placed on contemporary methods and theories related to conceptualism and new genre. Students produce large format and mural scale paintings. This course is designed to develop students’ creative abilities and critical thinking in visual terms through the use of individual assignments tailored to students’ skills. This course is intended for students majoring in art and those who wish to improve their artistic skills. (FT) AA/AS; CSU; UC.
170A Contemporary Crafts I
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6; Art-Fine Art 150A with a grade of “C” or better, or equivalent.
This course teaches students techniques, methods and processes to produce a variety of crafts. Students develop projects using various media including ceramics, wood, fibers, glass, plastic and metal. Students explore design principles, expressive quality and individual ideas. This course is intended for students pursuing careers or future studies in Studio Arts, Applied Design or Industrial Arts. (FT) AA/AS; CSU.

170B Contemporary Crafts II
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 170A with a grade of “C” or better, or equivalent.
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course continues the study of various crafts media at an intermediate level. Emphasis is placed on individual exploration and expression. This course is intended for students pursuing careers or future studies in Studio Art, Applied Design or Industrial Design. (FT) AA/AS; CSU.

174A Book Arts I
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Art-Fine Art 150A or Art-Graphic Design 100, each with a grade of “C” or better, or equivalent. Limitation on Enrollment: This course is not open to students with previous credit for Art-Graphic Design 174A.
This is an interdisciplinary course for art students and others who are interested in book arts. The course emphasizes visual form, physical structure, and expressive potential of the artist-made book, including essential elements, tools, and processes. Students construct books in Western and Asian traditions and use these concepts to create unique forms. This course is cross-listed as Art-Graphic Design (ARTG) 174A. (FT) AA/AS; CSU, UC.

175A Sculpture I
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Art-Fine Art 150A with a grade of “C” or better, or equivalent.
This course is an introduction to sculptural materials, processes, forms, contexts and content. Emphasis is placed on the basic forms and cultural functions of sculpture (past and present). Students produce sculptural artworks under direct guidance of the instructor. This course is intended for students majoring in art and for all students interested in producing three-dimensional art. (FT) AA/AS; CSU; UC.

175B Sculpture II
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Art-Fine Art 175A with a grade of “C” or better, or equivalent.
This course is an intermediate level course in sculptural materials, processes, forms, context and content. Emphasis is placed on articulation of sculptural goals and experimentation with materials and methods. Students plan and produce sculptural artworks based on original concepts. This course is intended for art majors and for all students interested in working in three-dimensional art. (FT) AA/AS; CSU; UC.

175C Sculpture III
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Art-Fine Art 175B with a grade of “C” or better, or equivalent.
This course is an advanced study in sculptural materials, processes, context and content. Emphasis is placed on the refinement of conceptual skills in their selection and pursuit of sculptural goals. Students experiment with advanced-level concepts and materials to create original sculptural artworks, including large scale pieces. This course is intended for art majors and for all students interested in working in three-dimensional art. (FT) AA/AS; CSU; UC.

195A Ceramics I
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introductory level ceramics course in which students design and construct hand-built and wheel-thrown ceramic objects. Students learn form and surface enrichment, use glazes, and load kilns. This course is intended for students majoring in art and for students interested in developing ceramic skills. (FT) AA/AS; CSU; UC.

195B Ceramics II
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 195A with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an intermediate level ceramics course in which students design and construct wheel thrown and handbuilt ceramic objects emphasizing form and surface enrichment, use molds, weigh, mix and use glazes, as well as load kilns and fire electric kilns. This course is intended for students majoring in art and for students interested in developing ceramic skills. (FT) AA/AS; CSU; UC.

195C Ceramics III
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 195B with a grade of “C” or better, or equivalent.
Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Continuation of Art-Fine Art 195A/B.
This course is an advanced level ceramics course in which students design and construct wheel thrown and handbuilt ceramic forms selecting an area of focus emphasizing form and surface enrichment. Student will develop, mix and use clay and glazes, as well as load and fire gas and electric kilns. This course is intended for students majoring in art and for students interested in designing objects in three dimension. (FT) AA/AS; CSU; UC.

196 Clay and Glaze Technology
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 195A with a grade of “C” or better, or equivalent.
Advisory: Art-Fine Art 195B or Art-Fine Art 197B with a grade of “C” or better, or equivalent.
This is a survey of technical processes in ceramics that introduces students to basic and advanced techniques of glaze formulation, mixing, and testing. The course also acquaints students with the composition of clays, stains, and engobes and how these respond to different kilns and firing conditions. This course is designed to help ceramics majors and other interested students understand the physical and chemical nature of ceramic materials. (FT) AA/AS; CSU; UC.

197A Handbuilding Ceramics I
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 195A with a grade of “C” or better, or equivalent.
Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course provides instruction in the design and construction of hand-built ceramic forms. Students create ceramic forms emphasizing form and surface enrichment, while gaining experience applying glazes and loading kilns. This course is designed for art majors and for students interested in developing ceramic skills. (FT) AA/AS; CSU; UC.

197B Handbuilding Ceramics II
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 197A with a grade of “C” or better, or equivalent.
Advisory: Completion of or concurrent enrollment in English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an intermediate level ceramics course in which students design and construct hand-built ceramic forms emphasizing form and surface enrichment, weigh, mix and use glazes, as well as load kilns and fire electric kilns. This course is intended for students majoring in art and for students interested in developing ceramic skills. (FT) AA/AS; CSU; UC.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
206 Art Entrepreneurship
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Art-Fine Art 150A with a grade of “C” or better, or equivalent and English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is an overview of current business and marketing practices related to being an artist. Students gain promotional and presentation skills and develop a business plan. This course is intended for students interested in art and creating a small art business. (FT) AA/AS; CSU.

210A Life Drawing I
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 155A with a grade of “C” or better, or equivalent.
Advisory: Art-Fine Art 150A with a grade of “C” or better, or equivalent; English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This is a basic course in drawing the human form as a sequence of studies from live models. Accurate and expressive translations of the mass as two-dimensional drawings are refined in a variety of achromatic media. This course is designed for students who are majoring in fine art and is also a relevant foundation for those that are interested in disciplines that use the human form such as animation and fashion design. (FT) AA/AS; CSU; UC.

210B Life Drawing II
2 hours lecture, 4 hours lab, 3 units
Grade Only
Prerequisite: Art-Fine Art 210A with a grade of “C” or better, or equivalent.
This course is an intermediate course in drawing the human form as a sequence of studies from live models. Students work with color and experiment with concepts related to figure drawing. This course is designed for students who are majoring in fine art and is also a relevant foundation for those that are interested in disciplines that use the human form such as animation and fashion design. (FT) AA/AS; CSU; UC.

210C Life Drawing III
2 hours lecture, 4 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Fine Art 210B with a grade of “C” or better, or equivalent.
This is an advanced course in drawing the human form as a sequence of studies from live models. Students work closely with the instructor to develop, create and present original artwork. This course is designed for students who are majoring in fine art. (FT) AA/AS; CSU; UC.

270 Work Experience
Hours by Arrangement
(One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.)
1-4 units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from Work Experience Coordinator for registration. A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU.

290 Independent Study
Hours by Arrangement, 1-3 units
Letter Grade or Pass/No Pass Option
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
Open only to those students who have exhausted departmental offerings in their areas of emphasis. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Visual and Performing Arts
Art: Graphic Design
Description
Living in an information-seeking society, we are surrounded by words and pictures. It is the task of the graphic designer to research, analyze, organize and make artistic order out of chaos. Graphic design students must learn to speak a global visual language and develop an awareness of the meanings and power of symbols and words. The products and services they design and promote will make a social and ecological impact.
Program Emphasis
Early emphasis is on the design process, form, color and typography. The elements and principles of design are applied to projects which include identity and branding, multi-page collateral, and packaging. Guided by instructors who are working designer professionals, students learn to design for the real world. They make decisions about issues of concept, format, imagery, type, printing and methodology. Computer and traditional methods are used to solve graphic problems. The program culminates in a professional portfolio which can be used to continue studies to a four-year university or to obtain employment. The portfolio is critiqued by professional designers at the American Institute of Graphic Arts San Diego portfolio review.

Program Goals
The main goal of the Graphic Design program is to provide students with the knowledge and skills required to produce a portfolio in design for employment or university admission requirements.

Faculty Office Telephone
Candice Lopez T-310A 619-388-3560
Andrea Singer T-309A 619-388-3933

Career Options
Some careers in graphic design-related work require education beyond the associate degree. This list is not all-inclusive: advertising designer, art director, environmental graphic designer, graphic designer, type designer, illustrator, magazine/editorial designer, multimedia designer, web page designer.

For additional information please visit our website: http://sdccgraphicdesign.blogspot.com

Student Learning Outcomes
Students who complete the program will be able to:

- Research, analyze, organize and formulate artistic order out of chaos.
- Recognize and speak a global visual language and demonstrate an awareness of the meanings and power of symbols and words.
- Design products and services that will make a social and ecological impact.
- Apply elements and principles of design to projects that include packaging, magazine production, and design and production of posters, logos and brochures.
- Formulate decisions about issues of concept, format, imagery, type, printing and methodology.
- Use Computer and traditional methods to solve graphic problems.
- Create a professional portfolio that can be used to pursue studies to a four-year university or obtain employment.

Academic Programs
The associate degree in Two- and Three-Dimensional Art requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Certificate of Achievement: Visual and Performing Arts

Graphic Design
Students are provided with skills for entry-level employment in the graphic design field while also developing a portfolio in design for jobs and/or specific university admission requirements.

# Transfer Information

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

---

### Courses

#### Art - Graphic Design (ARTG)

**100 Basic Graphic Design**

1.5 hours lecture, 4.5 hours lab, 3 units  
Grade Only

This course is an introduction to the fundamental principles of graphic communication. Instruction incorporates traditional hand-rendering methods as well as use of the computer. In this class the fundamental principles and elements of design are identified and applied to two and three dimensional projects. This course is intended for students majoring in graphic design and anyone interested in basic graphic design. (FT) AA/AS; CSU.

**106 Typography**

1.5 hours lecture, 4.5 hours lab, 3 units  
Grade Only

*Limitation on Enrollment:* This course is not open to students with previous credit for Art-Graphic Design 265A Typography.

This beginning course covers the selection, styles, terminology, classifications, spacing, layout, and history of typography. Emphasis is placed on problem solving skills and analyzing concepts to solve typographic problems. Traditional hand rendering skills and computer software are used to develop effective typographic design. This course is intended for students majoring in graphic design and anyone interested in typography. (FT) AA/AS; CSU; UC.

**118 Graphic Design History**

3 hours lecture, 3 units  
Grade Only

This course examines graphic design as a vital component of each culture and period in human history. Great minds in design, breakthrough technologies and important design movements are covered in their historical context. This course is intended for students majoring in graphic design and anyone interested in design history. (FT) AA/AS; CSU; UC.
120 Illustration
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5; and Art-Fine Art 150A and Art-Fine Art 155B, each with a grade of "C" or better, or equivalent.
This course addresses illustration methods, materials, and tools as related to the discipline of graphic design. Emphasis is placed on developing effective visual concepts and solutions through specific illustration assignments. Students explore a variety of media techniques utilizing both black and white and color. (FT) AA/AS; CSU.

124 Intermediate Graphic Design I (Page Layout)
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Advisory: Art-Graphic Design 125 or Art-Fine Arts 150A, or 150B, each with a grade of "C" or better, or equivalent.
This intermediate course covers the design and layout of multiple page documents such as annual reports, brochures, newsletters, and stationery packages. The primary tool is the computer, utilizing layout software, but traditional design media is also used. Emphasis is placed on the application of grids and principles and procedures of effective layout. This course is intended for students majoring in graphic design. (FT) AA/AS; CSU; UC.

125 Digital Media
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Art-Commercial Art 125.
This course is an introduction to the principles of digital media utilized for visual communication. Instruction incorporates the current hardware and software utilized in the graphic design industry. The specific hardware and software is announced for each course section, each semester. This course is intended for students majoring in graphic design and anyone interested in digital media. (FT) AA/AS; CSU; UC.

126 Intermediate Digital Media
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5; and Art-Graphic Design 125 with a grade of "C" or better, or equivalent.
This course is an intermediate level survey course which explores the principles of digital media utilized for visual communication. Instruction will incorporate the primary hardware and software utilized in the digital media industry today. (FT) AA/AS; CSU.

133 Intermediate Graphic Design II (Identity Systems)
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Advisory: Art-Graphic Design 125 or Art-Fine Arts 150A, or 150B, each with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Art-Commercial Art 110 or 133.
This intermediate course covers the application of design principles to the production of logos and marks. Students learn to use type in current marks, create design briefs, and use branding in the development of package designs. Traditional and computer approaches are covered. This course is intended for students majoring in graphic design. (FT) AA/AS; CSU.

144 Web Page Graphic Design
0.5 hour lecture, 4.5 hours lab, 2 units
Grade Only
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5; and Art-Graphic Design 124 and Art-Graphic Design 125, each with a grade of "C" or better, or equivalent.
Limitation on Enrollment: This course is not open to students with credit for Art-Graphic Art 265B, Web Page Design/Graphic Art.
This intermediate course explores the graphic elements of web page design. Emphasis is placed on the content, look and feel and navigational issues of web design. Instruction incorporates the
current hardware and software utilized in the web industry. The specific hardware and software will be announced for each course section each semester. This course is tailored to the student in graphic design. (FT) AA/AS; CSU.

148A Portfolio A
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment. Students must submit a portfolio for evaluation demonstrating advanced graphic design skills per department policy before an add code is issued.

Limitation on Enrollment: This course is not open to students with previous credit for Art-Graphic Design 155 or Art-Graphic Design 147.

This advanced course covers the design and layout of personal identity to a stationary package, resume, cover letter, library sheets and portfolio layout preparation for a book portfolio. Analysis of existing work, issues of format and content, and implementation of a portfolio development plan culminate in completed portfolio spreads. This course is designed for graphic design majors and students interested in advanced graphic design. (FT) AA/AS; CSU.

148B Portfolio B
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only

Limitation on Enrollment: This course is not open to students with previous credit for Art-Graphic Design 147. Must obtain an Add Code from the instructor for enrollment. Students must submit portfolio of graphic design work in order to obtain an add code from the instructor for registration.

This advanced course applies portfolio strategies to the creation of a complete professional portfolio of work. Students are required to formally present their portfolio for review and critical analysis by department faculty and advisors. This course is designed for graphic design majors and students interested in advanced graphic design. (FT) AA/AS; CSU.

148C Portfolio Building
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only

Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Art-Graphic Design 124 and 133, each with a grade of “C” or better, or equivalent.

This course is intended for advanced graphic design students to develop and build substantial portfolio projects. Emphasis is placed on assessment of current trends and the development of original packaging and typeface designs to reach target markets. This course requires students to spend considerable time outside of class to complete projects. (FT) AA/AS; CSU.

149 Studio Practices
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from the instructor for enrollment. Students must submit portfolio of graphic design work in order to obtain an add code from the instructor for registration.

This advanced course is designed to provide opportunities for professional practice in the field of graphic design. Whenever possible students will work on real jobs for non-profit organizations and San Diego City or Miramar College. Interfacing with clients, developing design briefs and graphic problem solving will result in printed portfolio samples. This course is intended for students majoring in graphic design. (FT) AA/AS; CSU.

151 Travel by Design
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only

Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.

This course is a practical study of creativity and global design through travel and the exploration of new people, places and cultures. Emphasis is placed on the application of innovative thinking and global competencies to design solutions for an increasingly interconnected world. Students expand their perspectives and develop global competencies through immersion into select geographic areas. Students may choose to travel to the select geographic area or experience it through online participation. This course is designed for graphic arts majors and anyone interested in developing creativity through global competencies. (FT) AA/AS; CSU.
174A Book Arts I
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Art-Fine Art 150A or Art-Graphic Design 100 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Art-Fine Art 174A. This is an interdisciplinary course for art students and others who are interested in book arts. The course emphasizes visual form, physical structure, and expressive potential of the artist-made book, including essential elements, tools, and processes. Students construct books in Western and Asian traditions and use these concepts to create unique forms. This course is cross-listed as Art-Fine Art (ARTF) 174A. (FT) AA/AS; CSU, UC.

206 Advanced Typography
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5; Art-Graphic Design 106 with a grade of “C” or better, or equivalent.
This advanced course covers techniques and conceptual strategies to solve complex typographic problems. Emphasis is placed on historical and contemporary letter forms and the expressive potential of typography to create meaning. This course is intended for graphic design majors and anyone interested in advanced typography. (FT) AA/AS; CSU.

225 Advanced Digital Media
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Art-Graphic Design 125 with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Art-Graphic Design 126 with a grade of “C” or better, or equivalent.
This course is an advanced study of the principles of digital media used for visual communication. Instruction incorporates current hardware and software utilized in the graphic design industry. Specific hardware and software is announced for each course section each semester. This course is designed for students majoring in graphic design and anyone interested in furthering their digital media skills. (FT) AA/AS; CSU.

270 Work Experience in Graphic Design
Hours by Arrangement
(One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.)
1-4 units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from Work Experience Coordinator for registration.
A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. AA/AS; CSU

290 Independent Study in Graphic Design
Hours by Arrangement, 1-3 Units
Grade Only
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
Open to advanced students interested in working on special problems in Graphic Design. (FT) AA/AS; CSU

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Visual and Performing Arts
Dance
Description
Dance is a vigorous and specialized area in the performing arts, and is unique in its ability to convey emotional and cultural values. Dance is physically demanding and requires a thorough understanding of aesthetic values. The Dance major at San Diego City College is one of six options in the Visual and Performing Arts Division. This program is primarily designed for the student who intends to transfer to San Diego State University, or to other universities that offer baccalaureate preparation in Dance. Additionally, the program provides an excellent foundation in dance for students interested in other performing arts fields or entry level into the workforce.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Program Emphasis
The focus of the Dance program at San Diego City College is on modern, ethnic dance forms and body modalities. Courses in choreography, dance history, dance performance and improvisation are among those required for the Associate in Arts degree in Dance. Dance students will work closely with the City College Theater and Musical Theater departments in production for public performance.

Faculty Office Telephone
Alicia Rincon C-108 619-388-3563
Terry Wilson C-214 619-388-3555

Career Options
Most careers related to Dance and other performing arts require education beyond the associate degree.

Student Learning Outcomes
Upon completion of a Certificate of Dance, a student will be able to demonstrate knowledge of:

- The history of dance as it relates to western culture, including Ballet, Modern, Jazz, Broadway/Musical Theater, and Ethnic forms of dance.
- Aesthetic perception of various dance forms, and critical analysis and response to performance.
- An understanding of choreographic, technical and improvisational elements of dance.

Academic Programs
The associate degree in Dance requires completion of the courses listed for the degree. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Certificate of Performance: Dance*
This certificate prepares the dance student with a solid foundation of kinesthetic training in one or more idioms, principles of choreography, movement education, along with the process of performance. Graduates will be qualified to work in regional dance theater; as a professional dancer in industrial work in areas such as Los Angeles, and as a certified dance instructor or independent choreographer.

Total Units = 26.5

Transfer Information
Common university majors related to the field of Dance include: Dance, Dance and Performance Studies, Kinesiology, Liberal Studies, Physical Education, Theater Arts, Visual and Performing Arts.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Dance (DANC)

110A Ballet I
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

115B Tap Dance II
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 115A with a grade of “C” or better, or equivalent.

115C Tap Dance III
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 115B with a grade of “C” or better, or equivalent.

115D Tap Dance IV
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 115C with a grade of “C” or better, or equivalent.

115A Tap I
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

115B Tap Dance II
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 115A with a grade of “C” or better, or equivalent.

115C Tap Dance III
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 115B with a grade of “C” or better, or equivalent.

115D Tap Dance IV
0.5 - 0.75 hours lecture, 1.5 - 2.25 hours lab, 1-1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 115C with a grade of “C” or better, or equivalent.
designed for dance majors and all students interested in Hip Hop dance. When this course is offered for three hours a week the additional time is utilized in the practice and perfection of combinations. (FT) AA/AS; CSU; UC.

120B Hip Hop II
0.75 hours lecture, 2.25 hours lab, 1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 120A with a grade of “C” or better, or equivalent.
This course is the second in a series of Hip Hop dance courses. Emphasis is placed on beginning Hip Hop technique, rhythms and styles. This course is designed for dance majors and all students interested in Hip Hop dance. (FT) AA/AS; CSU.

120C Hip Hop III
0.75 hours lecture, 2.25 hours lab, 1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 120B with a grade of “C” or better, or equivalent.
This is the third in a series of Hip Hop dance courses. Emphasis is placed on intermediate Hip Hop dance technique, rhythms, styles and choreography. This course is designed for dance majors and all students interested in Hip Hop dance. (FT) AA/AS; CSU.

120D Hip Hop IV
0.75 hours lecture, 2.25 hours lab, 1.5 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 120C with a grade of “C” or better, or equivalent.
This course is the fourth in a series of Hip Hop dance courses. Emphasis is placed on advanced Hip Hop dance technique, rhythms, styles and choreography. This course is designed for dance majors and all students interested in Hip Hop dance. (FT) AA/AS; CSU.

127 Body Modalities and Injury Prevention
1 hour lecture, 3 hours lab, 2 units
Letter Grade or Pass/No Pass Option
This course builds on basic concepts of anatomy, physiology, and kinesiology to introduce traditional and non-traditional approaches to movement and injury prevention. Emphasis will be placed on

130A Dance Repertoire
3 hours lab, 1 unit
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 110A 135A or 140A, each with a grade of “C” or better, or equivalent.

6 hours lab, 2 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 110A, 115A, 135A or 140A, each with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Dance 261.
Dance Performance I provides the opportunity for students to apply intermediate skills in ballet, jazz, tap, hip hop and modern dance in concerts and community performances. Emphasis is placed on student application of dance, staging, and performance techniques in faculty choreographed works for large ensembles. This course is designed for dance majors and students interested in dance performance. (FT) AA/AS; CSU; UC.

261B Dance Performance II

6 hours lab, 2 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 110A, 115A, 135A or 140A, each with a grade of “C” or better, or equivalent.
Dance Performance II provides the opportunity for students to apply intermediate skills in ballet, jazz, hip hop, tap, and modern dance in concerts and community performances. Emphasis is placed on student application of dance, staging, and performance techniques in student choreographed works for large ensembles. This course is designed for dance majors and students interested in choreography and dance performance. (FT) AA/AS; CSU.
261C Dance Performance III  
6 hours lab, 2 units  
Grade Only  
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 110B, 115B, 135B or 140B, each with a grade of “C” or better, or equivalent.  
Dance Performance III provides the opportunity for students to apply advanced skills in ballet, jazz, tap, hip hop and modern dance in concerts and community performances. Emphasis is placed on student application of dance, staging, and performance techniques in faculty choreographed works for solos and small groups. This course is designed for dance majors and students interested in dance performance. (FT) AA/AS; CSU.

261D Dance Performance IV  
6 hours lab, 2 units  
Grade Only  
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dance 110C, 115C, 135C or 140C, each with a grade of “C” or better, or equivalent.  
Dance Performance IV provides the opportunity for students to apply intermediate and advanced skills in ballet, jazz, hip hop, tap, and modern dance in concerts and community performances. Emphasis is placed on student application of dance, staging, and performance techniques in student choreographed works for solos and small groups. Students choreograph and produce all elements of performances in preparation to transfer to a university. This course is designed for dance majors and students interested in choreography and dance performance. (FT) AA/AS; CSU.

271A Stage Costuming for Dance  
3-6 hours lab, 1-2 units  
Grade Only  
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Mathematics 34A with a grade of “C” or better, or equivalent or Assessment Skill Level M20.  
Limitation on Enrollment: This course is not open to students with previous credit for Dance 271.  
This production oriented course introduces students to the techniques of costume construction and organization for a full dance production. Emphasis is placed on costume sewing, modification, and craft techniques, as well as on the organizational structure required for costume production for a staged dance performance. Students are required to serve as costume crew members for a full department dance production. This course is intended for dance majors and all students interested in costume production for the stage. (FT) AA/AS; CSU.

271B Makeup for Dance Productions  
3-6 hours lab, 1-2 units  
Grade Only  
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  
This production oriented course introduces students to the materials and techniques used in stage makeup design and application for a full dance production. Emphasis is placed on vocabulary pertinent to the use of dance makeup and participation in the makeup crew for a full dance department production. This course is intended for dance majors and all students interested in makeup for the stage. (FT) AA/AS; CSU.

271C Lighting Design for Dance Production  
3-6 hours lab, 1-2 units  
Grade Only  
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  
This production oriented course introduces students to the principles and practice of stage lighting. Emphasis is placed on design and drafting of lighting plots and the operation of basic lighting and electrical stage equipment. Students participate in lighting design and execution for a full department dance production. This course is intended for dance majors and all students interested in lighting for the stage. (FT) AA/AS; CSU.

271D Sound Design for Dance Production  
3-6 hours lab, 1-2 units  
Grade Only  
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.  
This production oriented course introduces students to the principles and practice of theater sound and its technical operation. Emphasis is placed on the basic aesthetic and technical aspects of sound design for the theater. Students participate in crew sound for a full department dance production. This
course is intended for dance majors and all students interested sound for the stage. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Visual and Performing Arts
Theater

Program Emphasis
The Theater Arts program provides an opportunity to gain practical experience in professional and community theater work and to prepare for continued higher education. Major theater productions are offered each year, allowing students to develop practical skills and talents while earning college credit for transfer to universities.

Faculty
Duane Gardella C-107 619-388-3594
June Richards C-110 619-388-3617
Katherine Rodda C-106 619-388-3088

Career Options
Most careers related to theatre require education beyond the associate degree; however, an understanding and mastery of technical theatre skills provides some preparation for work in local community theatre and professional theatre. A partial list of possible career options follows: set designer, model builder, makeup artist, lighting designer, stage manager, scenic artist, set builder, set carpenter, set painter, stage technician, sound technician, prop maker, lighting operator.

Program Learning Outcomes
Your education is grounded in a dynamic relationship to the history of theatre arts as a craft and an awareness of the conditions of the world around you. In addition, you will be able to work effectively within an ensemble. As a program we encourage students to present themselves and their personal artistic talents with clarity and confidence.

Student Learning Outcomes
Upon completion of the program, the student will be able to:

- Effectively practice the theatre arts through involvement in the creation and presentation of public performances in theatre.
- Develop a structural approach to interpretation of language in dramatic text.
- Explain and practice basic production processes such as acting, scenic, costume, and make-up design, and technical operation related to production.
- Identify the historical and cultural dimension of theatre, including the works of leading playwrights, actors, directors, and designers.
- Acquire inter-cultural and multi-cultural understanding, as well as perception of the universal and timeless human conflicts presented in dramatic works.
- Augment the discipline, cooperation, accountability, and perseverance necessary for positive self-identification and success in life.

Certificate of Performance: Technical Theatre
This is a certificate in Technical Theatre which the student will put into practice the skills necessary in scenery construction, scene painting, costume, and makeup in order to pursue a professional career in theatre, film, television, music, and/or dance.

Associate in Arts Degree: Visual and Performing Arts, Theatre
The theatre program offers transfer courses in preparation for university theatre majors as well as fundamental skills in acting and play production useful for employment or for participation in community theatre productions.

Student will be assessed through a combination of performance evaluations, written assignments, and written tests and quizzes.

Academic Programs
The associate degree in Theater requires completion of the courses listed for the degree. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable

Transfer Information

Common university majors related to the field of Drama include: Drama, Liberal Studies, Theater, Theater and Performance Studies, Theatre Arts, Visual and Performing Arts.

Course Requirements for Transfer Students

Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Visual and Performing Arts Musical Theater

Program Emphasis

This program provides some of the preparation for transfer to programs in dance, voice, acting, movement and provides basic training in musical theater and theater.

Career Options

Some career options listed require a baccalaureate degree: musical theater stage performer, actor, television actor/performer, choreographer, stage chorus actor, show dancer, stage movement instructor, high school and elementary movement and dance instructor, creative dramatics instructor.

Program Learning Outcomes

Musical Theatre is the most diversified area of the dramatic arts. Our focus in training students is to integrate three art forms: acting, singing and dancing into a single mode of expression. Our students explore the unique relationship that exists among these three disciplines, in order to compete as performers in a challenging job market.

Student Learning Outcomes

Students who complete the program will be able to:

- Effectively practice Musical Theatre arts through involvement in the creation and presentation of public performances in Musical Theatre.
- Explain and practice basic production processes such as acting, scenic, costume, make-up design, and technical operations related to production.
- Identify/describe the historical and cultural dimensions of Musical Theatre, including the
works of leading musical theatre playwrights and composers.

• Acquire the discipline, cooperation, accountability, and perseverance necessary for positive self-identification and success in life.

Academic Programs
The associate degree in Musical Theater requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Associate in Arts Degree: Visual and Performing Arts

Musical Theater
This program provides fundamental skills and theory in musical comedy, theater, and music both for transfer students and for persons interested in participating in theater and musical theater productions.

Courses Required for the Major: Units

Associate in Arts Degree: Theatre Arts for Transfer

Description
The Associate in Arts in Theatre for Transfer is intended for students who plan to complete a bachelor’s degree in Theatre or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree. Students who plan to complete this degree should consult a counselor for additional information about participating CSU campuses as well as university admission, degree and transfer requirements.

It is strongly recommended that students consult with a counselor to determine which general education option is most appropriate for their individual educational goals.

Student Learning Outcomes:
Upon completion of the program, the student will be able to:

• Effectively practice the theatre arts through involvement in the creation and presentation of public performances in theatre.

• Develop a structural approach to interpretation of language in dramatic text.

• Explain and practice basic production processes such as acting, scenic, costume, and makeup design, and technical operation related to production.

• Identify the historical and cultural dimension of theatre, including the works of leading playwrights, actors, directors, and designers.
• Acquire inter-cultural and multi-cultural understanding, as well as perception of the universal and timeless human conflicts presented in dramatic works.

• Augment the discipline, cooperation, accountability, and perseverance necessary for positive self-identification and success in life.

Note: It is recommended that students intending to transfer to San Diego State University (SDSU) in Theatre Arts-Emphasis in Youth Theatre, or into this major at other CSUs should consult a counselor and visit www.assist.org for guidance on appropriate coursework.

*Course also fulfills general education requirements for the CSU GE or IGETC pattern.

General Education: In addition to the courses listed above, students must complete one of the following general education options:

• The IGETC pattern (page 102) is accepted by all CSU campuses and most UC campuses and majors. It is also accepted by some private/independent or out of state universities.

• The CSU GE pattern (page 109) is accepted by all CSU campuses and some private/independent or out of state universities. It is not accepted by the UC system.

Electives as needed to meet maximum of 60 CSU-transferable units required for the degree.

Career Options

Careers related to this field typically require education beyond the associate degree level and some may require a graduate degree.

Courses

Dramatic Arts (DRAM)

103 Acting for Non-majors  3 hours lecture, 3 units  

Letter Grade or Pass/No Pass Option

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Dramatic Arts 130. This course introduces students to improvisational acting. The first phase of the course treats acting as process-centered. The instructor leads the participants using a variety of exercises to imagine, enact and reflect upon human experiences. The second phase of the course emphasizes problem-solving skills in group improvisational work. The group improvises action and dialogue appropriate to the content it is exploring, using elements of drama to give form and meaning to the experience. This course is intended for students majoring in Dramatic Arts. (FT) AA/AS; CSU.

105 Introduction to Dramatic Arts  3 hours lecture, 3 units

Letter Grade or Pass/No Pass Option

Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This survey course introduces fundamental practices and creative processes in the dramatic arts. Through experimentation and examination, students gain greater insight and appreciation of the dramatic arts as an agent of change that is vital to the humanities. Aspects of theatre production and collaboration are covered through lecture, group discussion and participation. This course is intended for students majoring in Dramatic Arts and all students interested in the dramatic arts. (FT) AA/AS; CSU; UC.

106 Acting for Radio/Voice-Over
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Radio, Television and Film 105 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 106, Radio, Television and Film 106, Dramatic Arts 265 or Radio and Television 265. This course is a practical study of the voice-over industry. Emphasis is placed on voice-over acting techniques for radio and television commercials, multimedia and other audio and video presentations. Students are expected to read aloud extensively as well as to record their voice for critique and self-evaluation. Topics also include an overview of the voice-over business, marketing, current technology, and professional work and studio etiquette. This course is intended for students majoring in drama or radio and television as well as for anyone interested in the voice-over business. This course is cross-listed with Radio, Television and Film (RTVF) 106. (FT) AA/AS; CSU.

107 Study of Filmed Plays
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a study of cinematic adaptations of plays, comparing stage and screen versions in the areas of form and structure, writing, and production. Emphasis is placed on developing students’ appreciation for dramatic art and providing practice in the art of theater criticism. This course is intended for students majoring in Dramatic Arts and any student interested in the Humanities. (FT) AA/AS; CSU; UC.

108 Playwriting
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course gives students an opportunity to write effective material for the theatre. Topics and exercises explore dialogue, monologue, exposition, autobiography, writing for the opposite gender and prismatic structure. Students are required to write scenes that explore issues of structure that facilitate the development of a technique that is both individual and based on traditional dramaturgical ideas. This course is intended for students majoring in Dramatic Arts and those students interested in the Humanities. (FT) AA/AS; CSU.

109 Theatre and Social Issues
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6. This course is a study of the role of theatre in society within its cultural, aesthetic, economic, and political manifestations. Emphasis is placed on increasing students’ understanding of politics in theatrical representation and theatre as a tool for social change. Topics include the nature and function of theatrical representation, moving to historical and contemporary issues in American and World cultures. This course is intended for students majoring in Dramatic Arts and those students interested in the Humanities and/or social and theoretical issues. (FT) AA/AS; CSU; UC.

119 Acting for Film and Television
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Radio and Television 119, Radio Television and Film 119, Dramatic Arts 265 or Radio and Television 265. This course introduces students to the skills required for on-camera performing techniques as used in the motion picture and television industry. Students

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
participate in the selection, rehearsal, and on-camera performance of material from television and motion picture scripts including drama, sitcoms, daytime dramas and commercials. Emphasis is placed on cold-reading taped audition skills, improvisational and interview techniques, and the fundamental acting techniques required for camera, scene, and monologue studies. This course is designed for theatre, television and film majors. This course is cross listed with Radio, Television and Film (RTVF) 119. (FT) AA/AS; CSU.

122 Makeup for the Stage
1 hour lecture, 3 hours lab, 2 units
Grade Only
This course is an introductory hands-on study of the materials and techniques used in stage makeup design and application. Emphasis is placed on the acquisition of a lexicon pertinent to the history and use of makeup in the theater as well as on the actual application of stage makeup in the classroom and as a member of the makeup crew for a theatrical production. This course is intended for students majoring in drama, theatre, film, radio and television and cosmetology as well as anyone interested in makeup for the stage. (FT) AA/AS; CSU, UC.

123 Beginning Stagecraft
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Limitation on Enrollment: This course is not open to students with previous credit for Drama 125. This course is a hands-on introduction to technical theatre production. Emphasis is placed on construction, painting, rigging, placement, and manipulation of stage scenery, lighting equipment, sound and properties, and the organization and management of stage activity and stagecraft technology. This course is intended for students majoring in Dramatic Arts and students interested in backstage production. (FT) AA/AS; CSU, UC.

126 Advanced Stagecraft
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Dramatic Arts 123 with a grade of “C” or better, or equivalent. This course is an advanced study of technical stage production and scene technology. Emphasis is placed on the methods and practices of technical theory and on practical, hands-on experience. Topics include theater design, stage decor and lighting, and the synthesis of all elements of stagecraft within an environment of actual stage production. Students develop crew leadership skills as they create and construct set designs and operate stage equipment for all Dramatic Arts productions throughout the semester. This course is intended for students majoring in Dramatic Arts. (FT) AA/AS; CSU; UC.

129A Beginning Scene Painting
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Drama 265 or 129. This course introduces students to basic techniques and materials used in the painting of scenery for the stage. Emphasis is placed on techniques in faux painting, murals, trompe l’oeil (trick the eye), and decorative motifs for theatre. Students experiment with color mixing, base, layout, ink, lay-in detail and the use of brushes and tools for application in theatre settings. This course is designed for drama majors and students interested in environmental art. (FT) AA/AS; CSU, UC.

129B Intermediate Scene Painting
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Dramatic Arts 129A with a grade of “C” or better, or equivalent. This course is an intermediate study in the art and practice of theatrical scene painting. Emphasis is placed on the creation of large scale projects designed to allow students the opportunity to apply basic scene painting skills while experimenting with intermediate techniques and tools, including liner and aerial perspective and a variety of spray guns. Students take on leadership roles in scene painting for theatrical productions while developing communication and collaboration skills. The course is designed for students majoring in drama or anyone interested in painting on a large scale. (FT) AA/AS; CSU.

132 Beginning Acting
2 hours lecture, 3 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Drama 131A. This course is a beginning level study, practice and execution of the fundamentals of acting designed to develop a foundation in basic acting technique. Emphasis is placed on the effective communication of ideas and emotions by a dramatic character to audience. Topics include staging techniques, improvisation, theater games, scenes, monologues, stage movement, and an introduction to the lexicon of acting for theater. This course is intended for students who are interested in developing basic acting techniques. (FT) AA/AS; CSU; UC.

133 Intermediate Acting
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Dramatic Arts 132 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Drama 131B. This course is an intermediate level study of the fundamentals of acting. Emphasis is placed on the use of scene work as a tool for sharpening the actor’s skill. Students work on scenes by a variety of playwrights as they increase vocal, physical and emotional flexibility as well as their stage presence. This course is intended for students majoring in Dramatic Arts and anyone interested in honing their acting skill. (FT) AA/AS; CSU; UC.

134 Beginning Voice for Actors
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a study of the foundations of vocal technique for actors. Emphasis is placed on breath, projection, resonator and diction. Students apply voice technique using monologues, modern and classical. This course is intended for students majoring in Dramatic Arts and anyone interested in honing voice and articulation skills. (FT) AA/AS; CSU; UC.

136 History of Canonized Theatre-Ancient Greece to the Restoration
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a survey of the history of Western theatre from ancient Greece through the Restoration in England. Emphasis is placed on the historical, political, cultural and religious contexts within which the canonized playwrights developed their plays. Topics include the development of the physical architecture of the theatre buildings and staging innovations. This course is intended for students majoring in Dramatic Arts and students interested in the history of theatre. (FT) AA/AS; CSU; UC.

137 History of Canonized Western Theatre-Restoration to the Present
3 hours lecture, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent or Assessment Skill Levels R6 and W6.
This course is a survey of the history of canonized Western theatrical experiences from the English Restoration to the present. Emphasis is placed on the historical, political, cultural and religious contexts within which the playwrights developed their plays. Topics include an examination of the physical theatre and methods of staging drama. This course is intended for students majoring in Dramatic Arts and students interested in the history of theatre. (FT) AA/AS; CSU; UC.

142 Drawing for the Theatre: Costume Illustration
1 hour lecture, 6 hours lab, 3 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 34A, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M20; Art-Fine Art 155A and 210A, each with a grade of “C” or better, or equivalent.
This course is a comprehensive hands-on study of costume illustration techniques for the theatre. Emphasis is placed on the visual development process for costume design. Students develop and research a costing concept based on the text of a play, draw design sketches, render a series of costume presentation boards and flat pattern costumes. Exposure to various media enhances personal style and expression. This course is
Visual and Performing Arts

143 Beginning Costuming
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48, English 49 and Mathematics 34A, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5, W5 and M20.
This is a lecture and laboratory course that emphasizes student involvement in the techniques and methodology of costume construction. Class material emphasizes practical experience in sewing, fabrics and their modification, costume craft techniques such as millinery, masks, footwear and accessories, and service on costumes crews. Students study costume production procedures in regards to time, budgets and labor. This course is intended for students majoring in Dramatic Arts or Technical Theatre. (FT) AA/AS; CSU, UC.

165 Introduction to Stage Movement
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Drama 165A. This course is an introduction to basic techniques of movement for the stage. Emphasis is placed on the actor's body as an expressive instrument. Students acquire flexibility, strength, and physical repertoire of stage movement. This course is intended for students majoring in Dramatic Arts and anyone interested in honing stage movement skills. (FT) AA/AS; CSU, UC.

172 Beginning Musical Theatre Audition
1 hour lecture, 3 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.
This course explores the role of the singing actor, including characterization and performance. Emphasis is placed on the functions of music, lyrics and script as integrated into one dramatic effort. Course content includes an introduction to the process of auditioning for musical theater within a professional context. Students are required to participate in in-class auditions and encouraged to attend auditions in the community. This course is designed for drama majors and anyone interested in musical theatre performance. (FT) AA/AS; CSU, UC.

173 Intermediate Musical Theatre Workshop
1 hour lecture, 3 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Prerequisite: Dramatic Arts 172 with a grade of "C" or better, or equivalent.
This course explores song interpretation for musical theatre. Emphasis is placed on musical theatre performance, movement and emotional discovery through script and scene analysis. Students are required to participate in in-class auditions and encouraged to attend auditions in the community. This course is intended for students majoring in Dramatic Arts and anyone interested in musical theatre performance. (FT) AA/AS; CSU.

240A Musical Theater Repertoire
12 hours lab, 4 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Drama 251. This course is an introduction to musical theatre repertoire. Emphasis is placed on the audition process and rehearsal protocol as students are introduced to working in collaboration with directors, cast members and the production crew members on a musical theatre production. This course is intended for students majoring in drama, dance or music and all students interested in participating in musical theatre production and performance. (FT) AA/AS; CSU; UC.

240B Musical Theatre Repertoire II
12 hours lab, 4 units
Grade Only
Prerequisite: Dramatic Arts 240A with a grade of "C" or better, or equivalent.
This course is the second level of musical theatre repertoire. Emphasis is placed on the synthesis of singing, dancing and acting throughout the rehearsal and performance processes. Students are expected to demonstrate consistent work ethic and professionalism in working with directors, cast members and crew members. This course is intended for students majoring in drama, dance or music and all students interested in participating in musical theatre production and performance. (FT) AA/AS; CSU.
240C Musical Theatre Repertoire III
12 hours lab, 4 units
Grade Only
Advisory: Dramatic Arts 240B with a grade of "C" or better, or equivalent.
This course is the third level of musical theatre repertoire. Emphasis is placed on refinement of the performance process through the development of one's own personal artistry and connection to the audience. Students are expected to demonstrate professionalism and consistent practice throughout the rehearsal process. This course is intended for students majoring in drama, dance or music and all students interested in participating in musical theatre production and performance. (FT) AA/AS; CSU.

240D Musical Theatre Repertoire IV
12 hours lab, 4 units
Grade Only
Advisory: Dramatic Arts 240C with a grade of "C" or better, or equivalent.
This course is the fourth level of musical theatre repertoire. Emphasis is placed on a rigorous audition process, professional decorum, adaptability and leadership throughout the rehearsal and performance processes. This course is intended for students majoring in drama, dance or music and all students interested in participating in musical theatre production and performance. (FT) AA/AS; CSU.

241A Musical Theatre Dance I
6 hours lab, 2 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course is an introduction to dance for musical theatre. Emphasis is placed on the practice and integration of basic dance combinations, choreography and singing through rehearsal and performance. This course is intended for students majoring in drama, dance or music and all students interested in participating in musical theatre dance performance. (FT) AA/AS; CSU.

241B Musical Theatre Dance II
6 hours lab, 2 units
Grade Only
Advisory: Dramatic Arts 241A with a grade of "C" or better, or equivalent.
This course is the second level of dance for musical theatre. Emphasis is placed on the replication of floor patterns with dynamic quality and rhythm, coordination of breath and timing to technical line and song, and the use of gesture and technical line in storyline development. This course is intended for students majoring in dance and all students interested in participating in musical theatre dance performance. (FT) AA/AS; CSU.

241C Musical Theatre Dance III
6 hours lab, 2 units
Grade Only
Advisory: Dramatic Arts 241B with a grade of "C" or better, or equivalent.
This course is the third level of dance for musical theatre. Emphasis is placed on the refinement of complex technical lines and floor patterns, coordination of song and dance, and experimentation with body movements to develop a personal artistry in creative storytelling for musical theatre. This course is intended for students majoring in dance and all students interested in participating in musical theatre dance performance. (FT) AA/AS; CSU.

241D Musical Theatre Dance IV
6 hours lab, 2 units
Grade Only
Advisory: Dramatic Arts 241C with a grade of "C" or better, or equivalent.
This course is the fourth level of dance for musical theatre. Emphasis is placed on the mastery of advanced complex technical lines and floor patterns, composition and improvisation, and character development through song and dance. This course is intended for students majoring in dance and all students interested in participating in musical theatre dance performance. AA/AS; CSU.

242A Rehearsal and Performance I
9 hours lab, 3 units
Grade Only
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Drama 250.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
This course is an introduction to the rehearsal and performance process of a departmental theatre production. Emphasis is placed on work ethic and collaboration throughout all phases of the production and performance. This course is intended for students majoring in drama and all students interested in participating in theatre production and performance. (FT) AA/AS; CSU; UC.

242B Rehearsal and Performance II
9 hours lab, 3 units
Grade Only
Advisory: Dramatic Arts 242A with a grade of “C” or better, or equivalent.
This course is the second level of the rehearsal and performance process of a departmental theatre production. Emphasis is placed on the development of a personal artistic process and skill set within the overall theory and practice of stage production. This course is intended for students majoring in drama and all students interested in participating in theatre production and performance. (FT) AA/AS; CSU.

242C Rehearsal and Performance III
9 hours lab, 3 units
Grade Only
Advisory: Dramatic Arts 242B with a grade of “C” or better, or equivalent.
This course is the third level of the rehearsal and performance process of a departmental theatre production. Emphasis is placed on the use of voice, movement, and technical elements to communicate character development. This course is intended for students majoring in drama and all students interested in participating in theatre production and performance. (FT) AA/AS; CSU.

242D Rehearsal and Performance IV
9 hours lab, 3 units
Grade Only
Advisory: Dramatic Arts 242C with a grade of “C” or better, or equivalent.
This course is the fourth level of the rehearsal and performance process of a departmental theatre production. Emphasis is placed on mentorship and direction of less experienced actors and the integration of theory and technique in character creation and development. This course is intended for students majoring in drama and all students interested in participating in theatre production and performance. (FT) AA/AS; CSU.

243A Technical Theatre Practicum - Costume and Makeup
6 hours lab, 2 units
Grade Only
Advisory: Dramatic Arts 122, 123, 129A and 143, each with a grade of “C” or better, or equivalent.
This technical theatre practicum is designed to provide students with hands-on training in the intricacies of running a theatre production, with special emphasis on costume and makeup. Students work as part of the costume and makeup crew during the rehearsal and production processes for main stage, dance or black box productions. This course is intended for students majoring in drama and all students interested in participating in the theatre production process. (FT) AA/AS; CSU.

243B Technical Theatre Practicum - Lighting and Sound
6 hours lab, 2 units
Grade Only
Advisory: Dramatic Arts 122, 123, 129A and 143, each with a grade of “C” or better, or equivalent.
This technical theatre practicum is designed to provide students with hands-on training in the intricacies of running a theatre production, with special emphasis on lighting and audio. Students work as part of the lighting and audio crew during the rehearsal and production processes for main stage, dance or black box productions. This course is intended for students majoring in drama and all students interested in participating in the theatre production process. (FT) AA/AS; CSU.

243C Technical Theatre Practicum - Scenic
6 hours lab, 2 units
Advisory: Dramatic Arts 122, 123, 129A and 143, each with a grade of “C” or better, or equivalent.
This technical theatre practicum is designed to provide students with hands-on training in the intricacies of running a theatre production, with special emphasis on scenic elements. Students work as part of the scenic crew during the rehearsal and production processes for main stage, dance or black box productions. This course is intended for students majoring in drama and all students interested in participating in the theatre production process. (FT) AA/AS; CSU.
243D Technical Theatre Practicum - Stage Management

6 hours lab, 2 units
Grade Only

Advisory: Dramatic Arts 122, 123, 129A and 143, each with a grade of “C” or better, or equivalent. This technical theatre practicum is designed to provide students with hands-on training in the intricacies of running a theatre production, with special emphasis on stage management. Students work as part of the stage management crew during the rehearsal and production processes for main stage, dance or black box productions. This course is intended for students majoring in drama and all students interested in participating in the theatre production process. (FT) AA/AS; CSU.

290 Independent Study

Hours by Arrangement, 1-3 units
Letter Grade or Pass/No Pass Option

Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
Advanced special work in dramatic arts: acting, design, lighting, film, business, makeup, costumes, direction, or play production. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Visual and Performing Arts
Digital Audio

Program Emphasis
The Digital Audio Certificate of Performance is a course of study in digital recording, mixing and mastering of musical projects. This is a hands-on program in which students utilize state-of-the-art software and plug-ins for Musical Instrument Digital Interface (MIDI) sequencing projects. The Digital Audio Certificate of Performance program prepares students for entry-level positions in a variety of fields in the music industry.

Faculty
June Richards
Office C-110
Telephone 619-388-3617

Career Options
Entry level employment options for graduates of the Digital Audio Certificate of Performance programs include positions in recording, mixing, mastering music for music compact discs, jingles or commercials, and radio and television station packages. This program also serves as a base for future career options such as digital art technician, recording studio engineer, synthesizer programer, and retail music equipment sales.

Academic Programs
The associate degree in Two- and Three-Dimensional Art requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Certificate of Performance: Digital Audio *

Courses: Units:
MUSI 150A Basic Musicianship 3
MUSI 190 Electronic Music Studio 3
MUSI 201 Recording Arts 3
MUSI 202 Computer Music 3
Total Units = 12

*A Certificate of Performance is a departmental award that does not appear on the student’s transcript. All courses must be completed within the San Diego Community College District.

Visual and Performing Arts
Recording Arts

Program Emphasis
The Certificate of Achievement in Recording Arts prepares Music students with a solid foundation in digital recording, mixing and mastering of musical projects using state-of-the-art software and plug-ins. Students produce musical projects using Musical Instrument Digital Interface (MIDI) sequencing, as well as music for multimedia projects, film and video. Combined with course work in basic musicianship, students are prepared for entry-level positions in a variety of fields in the music industry.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Career Options
Examples of entry level employment options after successful completion of the Certificate of Achievement in Recording Arts include: recording, mixing, mastering, composition and/or production of music for music CDs, film, video, music videos, jingles or commercials, radio and television station identification packages, and multimedia projects. This program also serves as a base for further education leading to careers such as digital audio technician, recording studio engineer, producer, sound re-enforcement engineer, synthesizer programmer, and retail music equipment sales.

Academic Programs
The associate degree in Two- and Three- Dimensional Art requires completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The associate degree requires a minimum of 60 units.

Digital Music Technology

Program Emphasis
The Digital Music Technology program provides an opportunity for students to gain specific hands-on skills in each of the technologies currently used in the music industry. Students will also gain practical experience for professional and community musical performance and preparation for continued higher education. Students will participate in various facets of music production for a variety of uses in the commercial marketplace which will allow them to develop practical skills and talents while earning college credit for transfer to universities or entry into the workplace.

Career Options
Examples of employment options available in entry level digital music technology after successful completion of the associate degree program include: composition and/or production of music for music CD’s, film, video, music videos, jingles or commercials, radio and TV station ID packages, and multimedia projects. Additional careers include digital audio technician, recording studio engineer, sound re-enforcement engineer, and synthesizer programmer. Some of these careers require education beyond the associate degree.

Student Learning Outcomes
Upon completion of the Digital Music Technology program:

- Students will be able to successfully operate ProTools software in the context of a recording studio; students will be able to pass a Digidesign training exam covering the use of this software.
- Students will have an understanding of MIDI technology and the operation of a MIDI based studio.
- Students will understand analog and digital signal flow as it pertains to a recording studio environment.
Students will be able to successfully utilize microphones/microphone placement in order to record live instruments with ProTools software.

**Transfer Information**

**Course Requirements for Transfer Students**

Students who plan to transfer to a four year college or university and earn a bachelor's degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student's specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

**Courses**

**Commercial Music (MUSC)**

50 Music Fundamentals for the Studio Engineer

2.5 hours lecture, 1.5 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course is a practical study of the musical fundamentals required to work in a professional recording studio or commercial music environment. Emphasis is placed on basic keyboarding skills and rudimentary Musical Instrument Digital Interface (MIDI) sequencing. Topics include meter, pitch, chords, and scales. This course is intended for students majoring in digital music technology. (FT) AA/AS.

80 Introduction to Digital Audio and MIDI

2.5 hours lecture, 1.5 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.

This course provides students with the fundamental skills required to operate a digital audio workstation (DAW) for recording, editing and mixing of audio and Musical Instrument Digital Interface (MIDI) data. Topics include digital audio, MIDI, signal flow in the professional studio, elastic audio and quantization, automation, signal processing, basic mixing and editing techniques, and audio file formats for delivery. This course is designed for students majoring in digital music technology and anyone interested in entry-level employment in the music industry. Students may take industry-based certification exams at the conclusion of the semester.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
This course is an industry-partner training course. (FT) AA/AS.

**82 Audio Recording**  
2.5 hours lecture, 1.5 hours lab, 3 units  
*Grade Only*  
*Prerequisite:* Commercial Music 80 with a grade of “C” or better, or equivalent.  
This course provides students with the fundamental skills required to work within a commercial studio environment as a studio engineer. Emphasis is placed on commercial music genres, such as rock, metal, pop, and hip hop. Topics include session setup and acoustical treatments, types and applications of microphones specific to commercial music genres, common microphone techniques related to commercial music production, the mixing console, mixing and editing, signal processing standards in commercial music production, session management and protocol in the professional studio environment, and common real-life situations encountered with recording clientele. This course is designed for students majoring in digital music technology and anyone interested in entry-level employment in the music industry. (FT) AA/AS.

**84 Fundamentals of MIDI Production**  
2.5 hours lecture, 1.5 hours lab, 3 units  
*Grade Only*  
*Prerequisite:* Commercial Music 50 and Commercial Music 80, each with a grade of “C” or better, or equivalent.  
This course is a study of the fundamentals of electronic music production as applied to Musical Instrument Digital Interface (MIDI) sequencing. Topics include basic principals of MIDI in music production, the history of MIDI, MIDI hardware and software applications, signal flow, sequencing, keyboard/controller mapping, and synthesizer programming. Students design and create special projects using the equipment and proper protocol. This course is designed for students majoring in digital music technology. (FT) AA/AS.

**95 Advanced Topics in Music Production**  
2.5 hours lecture, 1.5 hours lab, 3 units  
*Grade Only*  
*Prerequisite:* Commercial Music 82 with a grade of “C” or better, or equivalent.  
This course provides students with the ability to create a portfolio of original music and an electronic press kit to be used as a self-promotional tool. Topics include song forms, advanced topics in music production specific to stylistic genres, mastering techniques specific to stylistic genres, music’s application in multimedia formats, and self-promotional tools. This course is designed for students majoring in digital music technology, and for students who are interested in pursuing careers in music production, composition, and/or arranging. (FT) AA/AS.

---

**Courses**

**Music (MUSI)**

**100 Introduction to Music**  
3 hours lecture, 3 units  
*Letter Grade or Pass/No Pass Option*  
*Advisory:* English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Level R5 and W5.  
This course is designed to develop aural and analytical musical skills. Emphasis is placed on conceptual, contextual, and stylistic elements of music from various periods and cultures, and encompassing a range of genres and styles. This course is designed to support students in all majors who are interested in satisfying the general education requirements for Arts and Humanities. (FT) AA/AS; CSU; UC.

**108 The Business of Music**  
3 hours lecture, 3 units  
*Letter Grade or Pass/No Pass Option*  
*Advisory:* Completion of or concurrent enrollment in: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6.  
This course is a comprehensive survey of the music business. Course content emphasizes the various areas of the music business, the functions of each area and the relationships between the areas. Topics covered include songwriting, music publishing, copyright, music licensing, unions and guilds, agents and managers, artists and management, the record industry, artists’ recording contracts, studios and engineers, and music in radio, television and advertising. (FT) AA/AS; CSU.
109 World Music
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This music survey course explores the music cultures of Asia, the Middle East, Africa, Central and South America, the Caribbean and other areas with resident populations in San Diego. Musical practices and perspectives from several music cultures are studied with an emphasis on understanding and appreciation from non-ethnocentric viewpoints. Listening perception is developed through lectures and multimedia presentations. (FT) AA/AS; CSU; UC.

110 Music for Elementary School Teachers
2.5 hours lecture, 1.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course prepares students to teach music as part of the curriculum in the elementary school classroom, the preschool or day-care program. Students develop an understanding of musical concepts primarily by singing and playing an instrument, and practice using lesson plans for teaching these concepts to children. (FT) AA/AS; CSU.

111 Jazz - History and Development
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
This course is a survey of the history and development of jazz in the United States. Emphasis is placed on the origins of jazz, the variety of styles that developed throughout the twentieth century, current trends and outstanding performers and composers. (FT) AA/AS; CSU; UC.

115A Class Piano I
0.5 hours lecture, 1.5 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
This course introduces basic skills to music majors whose theoretical and practical keyboard skills are deficient, and to non-music majors who have had little or no experience at the piano. This course focuses on developing repertoire, sight reading, transposition, harmonization, creative composition, and modulation techniques. (FT) AA/AS; CSU; UC.

115B Class Piano II
0.5 hours lecture, 1.5 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Music 115A with a grade of “C” or better, or equivalent.
This course is a continuation of Music 115 A, with an emphasis on moderately difficult techniques in developing repertoire, keyboard techniques, sight-reading, transposition, harmonization, creative composition, improvisation, ensemble playing, and modulation techniques. This course is appropriate for music majors whose theoretical and practical keyboard skills are deficient as well as for non-music majors. (FT) AA/AS; CSU; UC.

120 Beginning Voice Class
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: This course is not open to students with previous credit for Music 120A. Beginning Voice Class is an introductory study of efficient vocal production and performance. Beginning exercises for breath management, extending the vocal range, increasing vocal resonance and volume, and singing in an expressive manner are introduced. Vocal exercises and solos are performed to demonstrate these skills. Choral singers, all music majors and students considering music as a major benefit from this class. (FT) AA/AS; CSU; UC.

121 Intermediate Voice
1.5 hours lecture, 1.5 hours lab, 2 units
Letter Grade or Pass/No Pass Option
Prerequisite: Music 120 or Music 130A, each with a grade of “C” or better, or equivalent.
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Limitation on Enrollment: This course is not open to students with previous credit for Music 120B.

Intermediate Voice is an in-depth study of specific elements of efficient vocal technique and performance. These include vowel purity, the International Phonetic Alphabet (IPA) to sing Italian songs, belt singing, and managing stage fright. Vocal exercises and songs from various music styles are performed, including selections made by students. Choral singers, all music majors, elementary education majors and students considering singing as a profession benefit from this class. (FT) AA/AS; CSU; UC.

130B College Chorus II  
1 hour lecture, 2 hours lab, 1.5 units  
Letter Grade or Pass/No Pass Option  
Advisory: Music 130A with a grade of "C" or better, or equivalent.

This course is an intermediate-level exploration of choral singing for potential music majors. Emphasis is placed on developing the musical ear, intonation, diction and independence within a choral section. Students rehearse and perform intermediate-level choral literature arranged for soprano, alto, tenor and bass with piano accompaniment, including but not limited to selections from Broadway musicals, popular and light classical genres. (FT) AA/AS; CSU; UC.

130C College Chorus III  
1 hour lecture, 2 hours lab, 1.5 units  
Letter Grade or Pass/No Pass Option  
Advisory: Music 130B with a grade of "C" or better, or equivalent.

This course is an intermediate to advanced level exploration of choral singing for potential music majors. Emphasis is placed on further developing the musical ear, sight-singing, and exploring a wider range of choral literature. Students rehearse and perform advanced-level contrapuntal "a cappella" choral literature arranged for soprano, alto, tenor and bass as both part of a larger ensemble and in solo quartets. (FT) AA/AS; CSU; UC.

130D College Chorus IV  
1 hour lecture, 2 hours lab, 1.5 units  
Letter Grade or Pass/No Pass Option  
Advisory: Music 130C with a grade of "C" or better, or equivalent.

This course is an advanced-level exploration of choral singing for potential music majors. Emphasis is placed on further developing the musical ear, identifying aspects of musical notation, sight-singing, and a wider range of choral literature. Students rehearse and perform advanced-level contrapuntal "a cappella" choral literature arranged for soprano, alto, tenor and bass. (FT) AA/AS; CSU; UC.

137 Singers in Ensemble  
1.5 hours lecture, 1.5 hours lab, 2 units  
Grade Only  
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.

Limitation on Enrollment: This course is not open to students with previous credit for Music 130A.

This course is an introduction to singing in ensembles. Emphasis is placed on developing basic vocal, aural and music-reading skills. Students rehearse and perform solo as well as in concert with others. This course is intended for both music and non-music majors. (FT) AA/AS; CSU; UC.

150A Basic Musicianship  
3 hours lecture, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent or Assessment Skill Levels R5 and W5.

This course is the study and practice of musical literacy. Emphasis is placed on the development of perceptions in sight and sound as related to the symbols of rhythmic, melodic, and harmonic notation. Topics include skill development in notating notes, intervals, scales, key signatures, rhythms, and chords. Students identify terms used to indicate navigation, tempo and dynamics. This course is designed for music majors and musicians. (FT) AA/AS; CSU; UC.
190 The Electronic Music Studio
2.5 hours lecture, 1.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5.
Advisory: Completion of or concurrent enrollment in Music 150A with a grade of “C” or better, or equivalent.
This course is a study of simple electronic and acoustic theory as it applies to sequencing Musical Instrument Digital Interface (MIDI), hard disk recording and other computer music applications. Students design and create projects using microphones, recorders, mixing boards, synthesizers, and samplers. This course is designed for all students interested in making electronic music in a recording studio. (FT) AA/AS; CSU.

201 Recording Arts
2.5 hours lecture, 1.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Music 190 with a grade of “C” or better, or equivalent.
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Advisory: Completion of or concurrent enrollment in Music 150A with a grade of “C” or better, or equivalent.
This course is a study of advanced acoustics and electronic theory as applied to recording, mixing, and sound processing. Emphasis is placed on the various applications of advanced recording, microphone use, and mixing, such as editing, effects processing, music concrete composition, and other techniques for music composition. This course is intended for advanced music students who work with recording equipment. (FT) AA/AS; CSU.

202 Computer Music
2.5 hours lecture, 1.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Music 190 with a grade of “C” or better, or equivalent.
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5; Music 150A with a grade of “C” or better, or equivalent.
This course is a study of the application of contemporary digital technology to the practice of music performance and composition. The emphasis of this course is on the acquisition of computer skills to access and manipulate musical data via MIDI and other digital formats. These skills allow students to digitally sample sounds, control synthesizers and samplers, synchronize computers to tape, sequence music, transcribe and print musical scores and conceive new techniques for music composition. This course is designed for students who are interested in continuing their education in the Electronic Music Studio. (FT) AA/AS; CSU.

205A Projects in Electronic Music
2.5 hours lecture, 1.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Music 190 with a grade of “C” or better, or equivalent.
In this course, students create a portfolio of music recordings and/or productions in an electronic music studio. Assigned projects incorporate composition, arranging, engineering, and/or production applications in a variety of media environments. Students analyze the nature of sound, sound production, sound enhancement, and the resulting music created. This course is intended for advanced music students working in the electronic music studio. (FT) AA/AS; CSU.

205B Projects in Electronic Music
2.5 hours lecture, 1.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Music 190 with a grade of “C” or better, or equivalent.
Advisory: Music 150A with a grade of “C” or better, or equivalent.
In this course, students expand their portfolio to include music projects/productions for various media applications. Students analyze the nature of sound, sound production, sound enhancement, and the resulting music and sound recordings created. This course is intended for advanced music students working in the electronic studio. (FT) AA/AS; CSU.

206A Projects in Composition
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Music 190 with a grade of “C” or better, or equivalent.
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Music 150A with a grade of “C” or better, or equivalent.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
Advisory: Completion of or concurrent enrollment in Music 190 with a grade of “C” or better, or equivalent. This course is a practical study of music composition for all styles and genres, classical and non-classical. Students analyze the nature of their musical creativity as they write original compositions and receive constant instructor feedback. Students self and peer critique in order to further develop their creative potential. This course is designed for music majors and all students with advanced musical knowledge who are actively composing music. (FT) AA/AS; CSU.

206B Projects in Composition
3 hours lecture, 3 units
Letter Grade or Pass/No Pass Option
Advisory: English 47A or English 48 and English 49, each with a grade of “C” or better, or equivalent or Assessment Skill Levels R5 and W5; Music 150A with a grade of “C” or better, or equivalent. 
Advisory: Completion of or concurrent enrollment in Music 190 with a grade of “C” or better, or equivalent. This course is a practical study of music composition for all styles and genres, classical and non-classical. Students analyze the nature of their musical creativity as they write original compositions and receive constant instructor feedback. Emphasis is placed on exploring boundaries of genre and style, evoking mood, and developing a portfolio of work. Students self and peer critique in order to further develop their creative potential. This course is designed for music majors and all students with advanced musical knowledge who are actively composing music. (FT) AA/AS; CSU.

215A Class Piano III
0.5 hours lecture, 1.5 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Music 115B with a grade of “C” or better, or equivalent. This course is an intermediate level of study of practical and theoretical keyboard techniques for music majors, credential applicants, and non-music majors with comparable skills. The course focuses on intermediate skill development of repertoire, keyboard technique, sight-reading, transposition, harmonization, creative composition, improvisation, ensemble playing, and modulation techniques. (FT) AA/AS; CSU; UC.

215B Class Piano IV
0.5 hours lecture, 1.5 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Music 215A with a grade of “C” or better, or equivalent. This course is an advanced level of study of practical and theoretical keyboard techniques for music majors, credential applicants, and non-music majors with comparable skills. The course focuses on advanced skill development of repertoire, keyboard technique, sight-reading, transposition, harmonization, creative composition, improvisation, ensemble playing, and modulation techniques. (FT) AA/AS; CSU; UC.

230A Jazz Improvisation
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Music 230B with a grade of “C” or better, or equivalent. A comprehensive study of the techniques and literature of improvisation with an emphasis of jazz improvisation and interpretation. Analysis and practical application of chord progressions used in jazz. (FT) AA/AS; CSU; UC.

230B Jazz Improvisation
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Music 230A with a grade of “C” or better, or equivalent. A comprehensive study of the techniques and literature of improvisation with an emphasis of jazz improvisation and interpretation. Analysis and practical application of chord progressions used in jazz. (FT) AA/AS; CSU; UC.

230C Jazz Improvisation
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Music 230B with a grade of “C” or better, or equivalent.
This course is a continuation of Music 230 A and B, Jazz Improvisation. Emphasis is placed on providing students with an ever-broadening repertoire of Jazz standards and theory as well as an introduction to the basics of commercial arranging. This course is intended for students majoring in Music, students planning on a career in commercial music, and anyone interested in honing their Jazz skills. (FT) AA/AS; CSU; UC.

230D Jazz Improvisation
3 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Music 230C with a grade of “C” or better, or equivalent.
This course is a continuation of Music 230 A, B and C, Jazz Improvisation. Emphasis is placed on providing students with an ever-broadening repertoire of Jazz standards as well as more contemporary Jazz tunes. Topics also include advanced Jazz theory and commercial arranging concepts. This course is intended for students majoring in Music, students planning on a career in commercial music, and anyone interested in honing their Jazz skills. (FT) AA/AS; CSU; UC.

290 Independent Study
Hours by Arrangement, 1-3 units
Letter Grade or Pass/No Pass Option
Advisory: English 48 and English 49, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5.
Limitation on Enrollment: Must obtain an Add Code from instructor for registration.
Course is designed to meet individual needs or interests of students who wish to work on special projects in music. Special projects include all aspects of music and may involve topics which are broad in scope along with those that are narrow in scope. Special projects may include an unlimited number of diversified phases of the music curricula. (FT) AA/AS; CSU.

296 Individual Instruction in Music
1.5 - 6 hours lab, 0.5 - 2 units
Pass/No Pass Only
Limitation on Enrollment: Concurrent enrollment in an approved related course. The instructor of the related course will supply Add Code to the student, which permits registration in the course. Individual instruction in music which employs self-paced audio and visual multimedia systems designed to assist students in reaching specific learning objectives related to other instructional course areas; hence, it is designed to supplement related courses as specified above. AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Visual and Performing Arts
Photography

Program Description
The photography program offers a wide range of theory, technique and skills course work from beginning through advanced levels. The program is structured to emphasize the development of creative expression, visual awareness, and technical skills required to enter the photography field or to prepare for transfer to four-year institutions.

Program Emphasis
The certificate of achievement program and the associate degree, Visual and Performing Arts, Photography Emphasis, is designed for students seeking employment in the photography field.

Career Options
This list is not all-inclusive. Some careers require education beyond the associate degree: advertising photographer, commercial photographer, fashion photographer, food photographer, editorial photographer/journalist, industrial photographer, portrait/wedding photographer, photo researcher, photographic artist, photographic printer, photography instructor, photo laboratory technician, stock photographer.

Academic Programs
The associate degree in Two- and Three-Dimensional Art requires completion of the courses listed below.

Transfer Information
Common university majors related to the field of Photography include: Art, Art and Design, Art Photography, Communication, Film and Electronic Arts, Photography, Visual and Public Arts.

Course Requirements for Transfer Students
Students who plan to transfer to a four year college or university and earn a bachelor’s degree in this discipline should consult with a counselor or visit the Transfer/Career Center to determine the appropriate major preparation courses for their specific transfer institution and major. Transfer students may also earn an Associate of Arts degree in Liberal Arts and Sciences with an emphasis. This degree may be individually tailored to each student’s specific transfer requirements in order to provide the most efficient path to transfer. More information on transfer programs and procedures is available in the Transfer Programs section of the catalog.

Courses

Photography (PHOT)

100 Basic Black-and-White Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Advisory: English 101 with a grade of “C” or better, or equivalent, or Assessment Skill Levels R6 and W6; or English 105 with a grade of “C” or better, or equivalent.
This course is an introduction to basic camera handling skills and the aesthetics of photography. Emphasis is placed on how to use cameras, lenses, exposure meters, flash, enlargers, related equipment and compositional skills to create original images. Laboratory practice includes Black and White film processing, printing and presentation. This course is intended for students majoring in Photography. (FT) AA/AS; CSU.

102 Directed Photo Lab Studies
3 hours lab, 1 unit
Pass/No Pass Only
Corequisite: Completion of or concurrent enrollment in: Photography 100 or 143, with a grade of “C” or better, or equivalent.

103 Intermediate Directed Photo Lab Studies
3 hours lab, 1 unit
Pass/No Pass
Prerequisite: Photography 102 with a grade of “Pass” or better, or equivalent.
This course is a supervised laboratory in darkroom and/or digital photography. Emphasis is placed on refinement of personal photographic skills. AA/AS; CSU.

105 Introduction to Photography
3 hours lecture, 3 units
Grade Only
Advisory: English 101 or English 105 each with a grade of “C” or better, or equivalent, or Assessment Skill Level R6 and W6.
This is a basic photography course for non-photo majors covering how to use cameras, lenses, exposure meters and similar equipment using flash and available light. Use of various films including black and white, color slide, color negative, and digital image acquisition are covered. (FT) AA/AS; CSU.

109 Photographic Composition and Design
2 hours lecture, 3 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Advisory: Completion of or concurrent enrollment in: Photography 100 or Photography 143 each with a grade of “C” or better, or equivalent.
This course is a study of composition as applied to photography. Emphasis is placed on identifying and isolating compositional elements for a photograph. Topics include the Golden Rectangle/Golden Mean and the Rule of Thirds as applied to photographic arts. This course is intended for students majoring in photography and anyone pursuing a career in photography. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
125 Photo Business Operations
2 hours lecture, 2 units
Prerequisite: Photography 100 or 143, each with a grade of "C" or better, or equivalent.
Advisory: English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Levels R6 and W6 or English 105 with a grade of "C" or better, or equivalent.
This course covers basic business organization and planning techniques appropriate for media and photographic production businesses, including pre-production planning, budgeting and scheduling. Topics include an exploration of a variety of current photography related business operations, portfolio development and presentation skills. This is a course for photography majors and those seeking career opportunities in photography. (FT) AA/AS; CSU.

135 Intermediate Black-and-White Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Prerequisite: Photography 100 with a grade of "C" or better, or equivalent.
This course provides students with intermediate-level instruction and practice in black and white film exposure and development procedures and printing. Emphasis is placed on various techniques for enhancing black and white negative and print quality. Topics also include composition, visual communication skills, use of light, lighting control and equipment. Instruction includes use of 35 mm format and an introduction to medium format cameras. This course is intended for students majoring in Photography and as preparation for higher level courses in the program. (FT) AA/AS; CSU.

126 Legal Issues for Photographers
2 hours lecture, 2 units
Advisory: English 101 with a grade of "C" or better, or equivalent, or Assessment Skill Levels R6 and W6. This course is designed to introduce the student to the legal rights and liability facing professional photographers, including situations that require releases or agreements to make photographs and how to legally protect their intellectual property rights. The course addresses legal issues associated with the photography industry, how to develop an appropriate business structure, and how to establish legal and financial resources. This course is appropriate for the intermediate or advanced photo student desiring a career in photography. (FT) AA/AS; CSU.

143 Introduction to Digital Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Prerequisite: Photography 100 with a grade of "C" or better, or equivalent.
Advisory: Completion of or concurrent enrollment in Photography 105 with a grade of "C" or better, or equivalent. This course is an introduction to the methods and processes involved in photographic image acquisition, optimization and output used in Digital Photography. Emphasis is placed on the evolution from traditional, analog/wet darkroom to digital approaches to photography and the relationship between these approaches. This course is designed for students who wish to pursue a career in photography. Students should provide digital or film camera with manual controls. (FT) AA/AS; CSU.

127 Self Promotion for Professional Photographers
2 hours lecture, 2 units
Prerequisite: Photography 100 or Photography 143 each with a grade of "C" or better, or equivalent. This course is designed to cover techniques and approaches used to promote a professional photography business and/or the sales of photographs for display or stock agencies. Emphasis is placed on strategies, promotional campaigns, personal and business resources available, and photo-specific sales techniques. This course is designed for the serious intermediate or advanced photography student intent upon earning revenue with their photography. (FT) AA/AS; CSU.

145 Color Transparency Photography
2 hours lecture, 2 units
Prerequisite: Photography 100 with a grade of "C" or better, or equivalent
This course is an introduction to color photography. Emphasis is placed on color perception, color theory, and the principles of color as they apply to transparency/slide films. This includes a comparison of color negative and Black & White (B/W) materials. Topics include exposure techniques, camera filters, composition, and the types and characteristics of light. This course is designed for intermediate-level photography students. AA/AS; CSU.
150 History of Photography
3 hours lecture, 3 units
Grade Only
Advisory: English 48 and English 49, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5 and W5.
This class is a survey of the history and development of photography and traces the various scientific and aesthetic issues involved in creating the 'light-based' image. It traces its progress from being a tool of fine art mediums through its involvement in the digital revolution. The course examines photography's social/cultural/economic impact, its impact on the study of history, and discusses present and future directions. This course is intended for students majoring in Photography. (FT) AA/AS; CSU; UC.

155 Color Photography, Negative
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Photography 100 with a grade of "C" or better, or equivalent.
Advisory: Photography 135 with a grade of "C" or better, or equivalent.
This course will explore the concepts of using color negative photography materials with the emphasis on proper film exposure, printing procedures, and color composition. The topics covered will include the theory of color, color perception, visual concepts, and lighting control. The student will be shown the proper techniques for exposing and processing color negatives, printing from color negative materials, print finishing and presentation and understanding and using various light sources with color negative materials, both in the studio and on location. (FT) AA/AS; CSU.

156 Color Photography Positive
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Photography 100 with a grade of "C" or better, or equivalent.
Advisory: Photography 135 and Photography 145, each with a grade of "C" or better, or equivalent.
This course will cover the concepts and techniques of using color positive/reversal photography materials, with the emphasis on proper film exposure, printing procedures, and color composition. The topics covered will include: the theory of color; color perception; visual concepts; and light and lighting control. The student will be shown the proper techniques for exposing and processing color positive materials, printing with color positive materials, print finishing and presentation, and the use of various light sources both in the studio and on location. (FT) AA/AS; CSU.

160 Book Publishing for Photographers
1 hour lecture, 1.5 hours lab, 1.5 units
Letter Grade or Pass/No Pass Option
Prerequisite: Art-Graphic Design 100 or Photography 100, 105 or 143, with a grade of "C" or better, or equivalent.
This course is a hands-on study of book publishing for photographers. Emphasis is placed on concept creation, layout, design and assembly strategies, and publishing and promotion options. This course is designed for intermediate-level photography students with an interest in creating photographic books for portfolio, monograph or self-promotion purposes. (FT) AA/AS; CSU.

165 Electronic Portfolios for Photographers
1 hour lecture, 6 hours lab, 3 units
Grade Only
Prerequisite: Photography 143 with a grade of "C" or better, or equivalent.
Advisory: Photography 180 with a grade of "C" or better, or equivalent Student needs photo/image editing skills to produce internet ready files.
This course is a hands on study in the development of an electronic portfolio to showcase work and/or function as a sales tool for their work and professional services. Emphasis is placed on the special layout and design needs of photographic web sites for showing and selling images. The course is designed for intermediate and advanced photo students ready to put one's own work and creative services online for sale. (FT) AA/AS; CSU.

180 Digital Imaging
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Photography 143 with a grade of "C" or better, or equivalent.
This course is an introduction to the theories and methods of computer use in image making utilizing both traditional photography and advanced technology. The course provides hands on experience in using computer technology as a digital darkroom. Emphasis is on the use of

industry standard photo editing software. Focus is on the applications and principles of image creation, manipulation, and enhancement for visual expression and communication using digital technology. This course is for photography students who can demonstrate a basic level skill with Photoshop. (FT) AA/AS; CSU.

181 Intermediate Digital Imaging  
1.5 hours lecture, 4.5 hours lab, 3 units  
Grade Only
Prerequisite: Photography 180 with a grade of “C” or better, or equivalent.
This course presents the theory and practice required for an intermediate level of image creation and visual communication utilizing traditional and digital photography methods. Students explore a variety of creative techniques for producing, editing and altering images using computers, software and digital tools. Emphasis is placed on the skills required by technical assistants in the world of commercial photography. The course is designed for intermediate and advanced Photo students. (FT) AA/AS; CSU.

200A Photographic Lighting Techniques  
2.1 hours lecture, 5.7 hours lab, 4 units  
Grade Only
Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Photo 200. 
This course is the study of the lighting concepts, techniques, and equipment used in all phases and types of film and digital photography. Emphasis is on the understanding, control, and manipulation of lighting and lighting equipment using both additive and subtractive lighting techniques. This includes the use of studio and portable lighting equipment, and the techniques of mixing natural and man-made light. Other topics include: related special shooting techniques; multiple exposure; matte-boxing; using a shooting light-table; painting with light and advertising/product-specific lighting considerations. This course is designed for advanced students in photography. (FT) AA/AS; CSU.

203 Intermediate Lighting Techniques  
2.25 hours lecture, 5.5 hours lab, 4 units  
Grade Only
Prerequisite: Photography 200A with a grade of “C” or better, or equivalent.
This course is designed for intermediate level photo students to add higher level techniques and skills to the student’s repertoire. Emphasis is placed on increasing the student’s repertoire to include the use of mixed light, location lighting, painting with light, Green/Blue screen sets and the use of a light table. (FT) AA/AS; CSU.

204 Creative Photographic Techniques  
0.67 hours lecture, 0.99 hours lab, 1 unit  
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 100 or 143, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for maximum credit for Photography 265G.
This course is designed for intermediate and advanced photo students and provides a broad base of creative photographic techniques involving digital, traditional, and artistic methods such as canvas printing, image transfers, high contrast/litho imaging, Photoshop filters, large format Polaroid, specialty films, and more. (FT) AA/AS; CSU.

205 Travel Photography  
1.5 hours lecture, 4.5 hours lab, 3 units  
Letter Grade or Pass/No Pass Option  
Advisory: Completion of or concurrent enrollment in: Photography 100, 105, or 143, each with a grade of “C” or better, or equivalent.
This course provides photography students with the necessary concepts and techniques to improve their image-making while traveling to prepare them for careers in photojournalism or commercial travel imaging. The course covers film and digital, color and black and white, infrared, tripod and night shooting, lens selection, filters, darkroom work, printing, luggage, X-ray, and much more. This course is designed for students planning a career in stock, editorial, travel, or assignment photography. (FT) AA/AS; CSU.

206 Advanced Creative Techniques  
0.6 hours lecture, 1.2 hours lab, 1 unit  
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
This course for advanced photography students covers a broad range of creative photographic techniques involving digital, traditional, and artistic methods. Topics may include canvas printing, image transfers, high contrast/litho imaging, Photoshop filters, large format Polaroid, and/or specialty films. (FT) AA/AS; CSU.
211 Analog Creative Photographic Techniques
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Photography 100 with a grade of “C” or better, or equivalent.
This course for intermediate level photography students covers a range of specialty techniques using non-traditional camera types, including “toy” and pinhole cameras. (FT) AA/AS; CSU.

212 Creative Digital Techniques
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
This short course for intermediate and advanced photography students covers High Dynamic Range Imaging (HDRI) techniques used to expand the capture range of digital imaging chips and/or to push processing into impressionistic or surreal output. (FT) AA/AS; CSU.

213 Intermediate Analog Creative Techniques
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Photography 100 or Photography 143, each with a grade of “C” or better, or equivalent.
This course for intermediate and advanced photography students covers the use of infrared film and modified digital cameras to capture a part of the spectrum unseen by human eyes. (FT) AA/AS; CSU.

214 Intermediate Digital Creative Techniques
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
This course for intermediate photography students covers the equipment and techniques used for macro and close up photography. (FT) AA/AS; CSU.

215 Photo Journalism and Documentary Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only

Prerequisite: Photography 100 or Photography 143, each with a grade of “C” or better, or equivalent.

Limitation on Enrollment: This course is not open to students with previous credit for Digital Journalism 215.
This class covers the use of photographs to illustrate news stories, feature stories, and other narrative content. It explores the equipment used by professional photojournalists in this field, and their interaction with the photo editor/buyer. It examines the approaches to the creation of their images from the objective news photo to the persuasive documentary image. The course is designed for intermediate to advanced photo and journalism students with an interest in pictorial media. This course is cross listed with Digital Journalism 215. (FT) AA/AS; CSU.

216 Advanced Analog Techniques
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Photography 135 with a grade of “C” or better, or equivalent.
This course for advanced photography students introduces historical and alternative photographic processes used in both the fine art and commercial world. (FT) AA/AS; CSU.

217 Advanced Digital Techniques
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
This course for advanced photography students covers the creation of quality darkroom prints (silver, cyanotype, etc.) from digital files, including digital single lens reflex (DSLR), iPhone, or scanned negatives. (FT) AA/AS; CSU.

218 Intermediate Photographic Techniques
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option

Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
This course for intermediate photography students covers the equipment and techniques used for macro and close up photography. (FT) AA/AS; CSU.
219 Printing on Canvas or Other Materials
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
This course for intermediate photography students covers the techniques and materials involved in printing on canvas or other unusual surfaces. (FT) AA/AS; CSU.

220 Portraiture
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Photography 200A with a grade of “C” or better, or equivalent.
This course covers camera types and formats, lenses, films, and accessory equipment used for portrait photography. Emphasis is placed on different types and sources of light, both in the studio and on location, use of black and white (B/W) and color films and digital capture, posing techniques and proper use of cosmetics, clothing, etc. Topics also include the physical, psychological, and compositional aspects and characteristics of different portrait styles. This course is intended for intermediate and advanced photography students. (FT) AA/AS; CSU.

221 Fine Art and Photography
1 hour lecture, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
Advisory: Photography 150 with a grade of “C” or better, or equivalent.
This course for intermediate and advanced photography students covers the definitions and characteristics of fine art photography. Various fine art photographers are examined with an emphasis in the visual tools they use to create fine art work. (FT) AA/AS; CSU.

224 Color Management for Digital Photography
0.6 hours lecture, 1.2 hours lab, 1 unit
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 243 with a grade of “C” or better, or equivalent.
This highly technical course for advanced photography students covers the implementation of a precise color management system to allow accurate color to flow from capture to output. (FT) AA/AS; CSU.

230 Advertising Photography
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Photography 100, Photography 143 and Photography 200A, each with a grade of “C” or better, or equivalent.
This advanced photography course emphasizes production of photographs to sell a client’s product or service using film and digital materials. Students explore the photographer’s role in the advertising industry through course assignments. Topics include terminology used in the advertising field, layout production, working to layouts, the psychology of ad design, use of color, and lighting equipment and lighting techniques. This course is designed for advanced photography students. (FT) AA/AS; CSU.

235 Advanced Black and White Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Photography 135 with a grade of “C” or better, or equivalent.
This course concentrates on advanced theory and practice of black and white (B&W) photography including professional applications, specialized processes, and mastery of dark room skills with an emphasis on individual expression. Topics include advanced printing techniques, film, paper types, toners, and archival processing. This course is designed for advanced photography students. (FT) AA/AS; CSU.

237 Historic & Alternative Photo Processes
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Photography 135 with a grade of “C” or better, or equivalent.
This class introduces and demonstrates many of the historic and non-traditional photo processes that are still being used to create unique images. These may include cyanotypes, tintypes, Van Dykes, Platinum and Palladium prints as others. It is designed for advanced photo students exploring new ways to express their photographic vision. (FT) AA/AS; CSU.

240 Large Format Photography
2 hours lecture, 3 hours lab, 3 units
Grade Only
Prerequisite: Photography 100 with a grade of “C” or better, or equivalent.
Advisory: Photography 135 with a grade of “C” or better, or equivalent.
This course offers instruction and practice in view-camera techniques used in architecture, advertising, product, landscape, and other commercial and artistic applications in black and white (B&W), color film and digital. Emphasis is placed on using the camera’s optical movements for perspective, depth of field, and distortion control and image manipulation. Topics include processing sheet film, close-up and copy work. This course is designed for intermediate and advanced photography students. (FT) AA/AS; CSU.

243 Advanced Digital Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 143 with a grade of “C” or better, or equivalent.
This course further hones the skills learned in the Introduction to Digital Photography course. Emphasis is placed on capturing, retouching, and printing digital files. Topics include High Dynamic Range and Enhanced Depth of Field imaging, single- and multi-row stitching for unlimited resolution, and shooting tethered for professional photo sessions. This course is designed for advanced photography students who have a solid foundation in basic digital acquisition and editing. (FT) AA/AS; CSU.

245 Landscape and Nature Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Photography 100 or Photography 105 or Photography 143, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: This course is not open to students with previous credit for Photography 265C. This course explores the application of film and digital photography in the natural outdoor setting. From images of the “Grand Landscape” to details and abstracts drawn from nature, the class studies effect of light, exposure, composition, concepts of isolation and context, color theory, and various camera shooting techniques along with the work of major landscape and nature photographers. The class is designed for intermediate level photo students who have basic film or digital skills. (FT) AA/AS; CSU.

250 Fashion Photography
1.5 hours lecture, 4.5 hours lab, 3 units
Grade Only
Prerequisite: Photography 200A with a grade of “C” or better, or equivalent.
This advanced course is a hands-on study of fashion photography. Emphasis is placed on the use of photographic equipment and lighting techniques specific to the creation of professional photographs suitable for publication in fashion magazines and advertisements. Students assemble a photographic team, create promotional collateral and prepare a portfolio for use in the field. This course is designed for advanced photography students and photographers currently working in the field. (FT) AA/AS; CSU.

257 Wedding and Event Photography
2 hours lecture, 2 units
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 100 or 143, with a grade of “C” or better, or equivalent.
Advisory: Photography 180 with a grade of “C” or better, or equivalent.
This course covers the techniques, equipment, and approaches used by wedding and event photographers. It identifies the “must have” shots, the use of assistants, digital equipment, check lists, working with clients. This course is for advanced level photo students. (FT) AA/AS; CSU.

258 Production for Commercial Photography
2 hours lecture, 2 units
Grade Only
Prerequisite: Photography 200 with a grade of “C” or better, or equivalent.
Advisory: Photography 125 or 230, with a grade of “C” or better, or equivalent.
This course introduces the role of the Commercial Photography Producer and covers the tasks and skills needed such as identifying and obtaining locations, wardrobe, talent, stylists and props as well as special equipment. It is designed for advanced photo students with a good knowledge of professional equipment and skills. (FT) AA/AS; CSU.

259 The Photographic Portfolio
1.5 hours lecture, 4.5 hours lab, 3 units
Letter Grade or Pass/No Pass Option
Prerequisite: Photography 100 or 143, with a grade of “C” or better, or equivalent.
This course covers the design, fabrication, editing, sequencing, assembly, and presentations of
portfolios of work for professional photo students wanting to sell their photographic services or products and for art photographers seeking to show their work in galleries or museums. It is designed for intermediate and advanced students to create and polish their portfolios. (FT) AA/AS; CSU.

290 Independent Study in Photography

3-9 hours lab, 1-3 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from instructor for enrollment.
Advanced individual projects in Photography. Open only to those photo students who have exhausted departmental offerings in their area of emphasis. Independent Study contract between student and professor required. (FT) AA/AS; CSU.

This discipline may offer specialized instruction in one or more of the following areas: Supervised Tutoring (044), Experimental Topics (265), Independent Study (290), Individualized Instruction (296), Service Learning (277), or Work Experience (270). Detailed course descriptions are listed on page 120. Please refer to the class schedule and/or see the dean or department chair for availability.

Courses

Work Experience (WORK)

270 Occupational Work Experience

Hours by Arrangement
(One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.)
1-4 units
Grade Only

A program of on-the-job learning experiences for students employed in a job related to their major or their educational goals. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU

272 General Work Experience

Hours by Arrangement
(One unit of credit is earned for each 75 hours of paid employment or 60 hours of volunteer work.)
1-3 units
Grade Only

Limitation on Enrollment: Must obtain an Add Code from Work Experience Coordinator for enrollment.
A program of on-the-job learning experiences designed to assist the student in developing occupational effectiveness. Employment need not be related to a vocational or occupational major. This course may be taken for a maximum of six units. However, the combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS; CSU
Program will provide the trainee with an opportunity to acquire additional skills, expand career options, workplace skill competencies, subject mastery skills and California State Board examination strategies.

Student Learning Outcomes for all Occupational Work Experience

Students will be able to:
• Apply critical thinking, research, analysis and resolution for work-related objectives.
• Convert classroom instruction to the employment environment through the development and attainment of three (3) learning objectives.
• Develop and apply competencies in the workplace and within course-related activities.

Occupational Work Experience

Occupational work experience is a program of on-the-job learning experiences for students employed in a job related to an occupationally oriented major. The goals and assignments for completion of the courses are formulated with industry under the direction of the college instructor assigned to teach Work Experience 270. The grading system is the same as for other subjects offered by the college and the time spent for preparation and training is also comparable. Adequate records are maintained to determine satisfactory progress and attendance. Students in the Cosmetology program will be required to comply with and maintain standards of dress and grooming. Excessive absences may result in exclusion from the program. All prospective students are required to attend an orientation program.
necessary for acquiring their State Cosmetology Instructor’s license. A total of 300 hours of lecture/demonstration and laboratory training to include technical and practical aspects of cosmetology science. This course is offered as a non-degree/credit for a specialized certificate. AA/AS.

Description
The apprenticeship training program provides an opportunity for a balanced approach of on-the-job training and related technical instruction to achieve the position of journeyperson in one of the state-approved programs. The length of the program depends on the trade selected and can range from two to five years. The program encourages the transfer of skills and knowledge from master journeymen and journeywomen to apprentices to further employment potential in their trade. The California state system was established in 1939 with the passage of the Shelley-Malone Apprenticeship Labor Standards Act. This act established the California Apprenticeship Council as the policy-making body; named the State Director of Industrial Relations as the administrator of apprenticeship; authorized the Division of Apprenticeship Standards (DAS) to approve training standards and provide assistance in the development of apprenticeship programs; and assigned responsibility for related and supplemental training to state and local boards responsible for vocational education.

Affirmative Action Statement
The Apprenticeship Committees for whom the District provides related and supplemental instruction have indicated they do not and will not discriminate against any employee or against any applicant for employment because of age, race, color, religion, handicap, ancestry, sex or national origin.

Admission To The Program
Indenture in a state-approved apprenticeship program is a required prerequisite to enroll in the apprenticeship related and supplemental classes. Applicants for apprenticeship should contact the employer, program coordinator or labor union listed before each program in the apprenticeship course description section of the catalog. Each of the individual programs listed in the apprenticeship course description section of this catalog is administered by an apprenticeship committee made up of member representatives from the respective trades or industries. This committee serves as the approval body for all apprenticeship matters relating to the particular trade. See our Website for more information: http://sdcity.edu/Apprenticeship.

Completion Requirements
In addition to the academic requirements listed below, each apprentice must complete the prescribed number of hours of training during the period of the apprenticeship program as approved by the apprenticeship committee to receive the certificate of achievement or two-year degree.

Certificate of Achievement Requirements:

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

Recommended electives: English 101.

Associated Builders and Contractors

Construction Electronic Systems Technician Apprenticeship

This is a three-year electrical apprenticeship program in the low-voltage electrical trade. Applications for this program should be directed to Associated Builders and Contractors, 13825 Kirkham Way, Poway, CA 92064; 858-513-4700. Only students accepted as apprentices under Associated Builders and Contractors are eligible for enrollment in the following Construction Electronic Systems Technician courses.

ABC Electrical Apprenticeship Student Learning Outcomes:

- Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards in Construction Electronic Systems as a Technician.
- Illustrate procedures utilized for ABC Construction Electronic Systems Technician specific practices in use of tools, techniques and hands-on skills and competencies for Journeyman-level practices in

ABC Construction Electronic Systems Technician Apprenticeship.

- Identify and utilize equipment and related components of ABC Electronic Systems Technician profession to meet target standards for measurement, calibration, and Construction Electronic Systems Technician practices at Journeyman levels.
- Read, comprehend and apply ABC Construction Electronic Systems Technician instructions and design standards for construction or production outcomes as required by ABC trade practices and industry standards.

Courses

Construction Electronic Systems Technician (CEST)

301A Introduction to Construction Electronic Systems Technician I

2 hours lecture, 3 hours lab, 3 units

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.

Limitation on Enrollment: Student must be a state registered apprentice in this trade.

This course provides the Construction Electronic Systems Technician apprentice with instruction in general construction site safety, measurements and formulas, use of hand and power tools, interpretation of blueprints, basic rigging techniques and methods used to move equipment and materials. (FT) AA/AS.

301B Introduction to Construction Electronic Systems Technician II

2 hours lecture, 3 hours lab, 3 units

Limitation on Enrollment: Student must be a state registered apprentice in this trade.

This course provides the Construction Electronic Systems Technician apprentice with instruction in industry standards and building codes, residential and commercial construction methods, basic electrical theory, electrical meters, OSHA safety standards, and ladders and rigging. (FT) AA/AS.
302A Intermediate Construction Electronic Systems Technician I  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Limitation on Enrollment: Student must be a state registered apprentice in this trade.  
This course provides the Construction Electronic Systems Technician with instruction in mathematics related to the trade and electronic theory. Also includes electronic measurement tools and techniques, Alternating Current (AC) and Direct Current (DC) electrical systems and grounding, and blueprint reading related to the trade. (FT) AA/AS.

302B Intermediate Construction Electronic Systems Technician II  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Limitation on Enrollment: Student must be a state registered apprentice in this trade.  
This course provides the Construction Electronic Systems Technician with instruction in types of cabling, switches and relays, terminating conductors, low-voltage codes and standards, and computer cabling applications. (FT) AA/AS.

303A Advanced Construction Electronic Systems Technician  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Limitation on Enrollment: Student must be a state registered apprentice in this trade.  
This course provides the Construction Electronic Systems Technician with instruction in wire and cable selection, advanced buses and networks, fiber optic installation, cable and satellite television systems, and wireless communications. (FT) AA/AS.

303B Advanced Construction Electronic Systems Technician II  
2 hours lecture, 3 hours lab, 3 units  
Grade Only  

Limitation on Enrollment: Student must be a state registered apprentice in this trade.  
This course provides the Construction Electronic Systems Technician with instruction in site survey, job planning and documentation, maintenance and repair, supervision, and fire and security alarm systems. (FT) AA/AS.

349 Construction Electronic Systems Technician Work Experience  
Hours by Arrangement, 300 hours total, 4 units  
Pass/No Pass Only  

Limitation on Enrollment: Student must be a state registered apprentice in this trade and concurrently enrolled in a related apprenticeship class.  
This course consists of on-the-job learning experiences in the Construction Electronic Systems Technician occupational field. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS.

Associated Builders and Contractors Electrical Apprenticeship  
This is a four-year electrical apprenticeship program in the electrical trades (inside wireman). Applications for this program should be directed to Associated Builders and Contractors, 13825 Kirkham Way, Poway CA 92064; 858-513-4700. Only students accepted as apprentices under Associated Builders and Contractors are eligible for enrollment in the following electrical courses.

Student Learning Outcomes:  
• Demonstrate preparedness for successful transition to the journeyman level designation and professional certification by the CA Division of Apprenticeship standards for ABC Electrical Apprenticeship.  
• Illustrate procedures used in ABC Electrical practices in the use of tools, techniques and hands-on skills and competencies for Journeyman-level work in Electrical  
• Identify and utilize equipment and related electrical components to meet ABC standards for measurement, calibration and Electrical practices at Journeyman levels.  
• Read, comprehend and apply ABC Electrical constructions and design standards for construction on production outcomes as required by ABC Electrical practices and industry standards.

**Total Units = 24**

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

**Recommended electives:** English 101.
302A Intermediate Electrical Apprenticeship I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Electricity 60B, 160B or 301B, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Electricity 65A or 165A.
This course is an intermediate study of electrical techniques for Electrical Apprentices. Topics include the principles of alternating currents, the characteristics of circuits, transformers, motor theory applications, grounding purposes and methods, National Electrical Code (NEC) requirements for conduit bending, types of bends, specifications for boxes and fittings, and location considerations. (FT) AA/AS; CSU.

302B Intermediate Electrical Apprenticeship II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Electricity 65A, 165A or 302A, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Electricity 65B or 165B.
This course provides the electrical apprentice with study and practice in the installation of connections for conductor termination and splices. Topics include the use of cable pulling instruments, National Electrical Manufacturers Association (NEMA) and National Electrical Code (NEC) standards for cable trays, installation of electrical service, components and equipment, the use of manual take-off methods and troubleshooting techniques, identification of ratings for current breakers and fuses, regulations for sizing, use, and installation of relay switches, conductors and overrides, and electrical lighting principles, types and applications. (FT) AA/AS; CSU.

303A Advanced Electrical Apprenticeship I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Electrical 302B or 165B (formerly ELEC 65B) with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Building Construction Technology 212 or Electrical 70A or 170A.
This course is an advanced study of electrical techniques. Topics include branch load calculations for circuits and varied electrical appliances, electrical conductors, devices used for overprotection of loads, currents, circuits and fuses, fill requirements for boxes/raceways, principles of wiring devices, switches and receptacles, requirements for distribution equipment, settings for voltage, switch gear, circuits and components, distribution system transformers, National Electrical Code (NEC) requirements, and troubleshooting. This course is designed for students in the Electrical Apprenticeship program. (FT) AA/AS; CSU.

303B Advanced Electrical Apprenticeship II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Electrical 303A or 170A (formerly Electrical 70A) with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Building Technology 213 or Electrical 70B or 170B.
This course provides the electrical worker with instruction in basic lighting and National Electrical Code (NEC) requirements for indoor and outdoor lighting. Topics include introductory motor basics, including calculations, transformers, instruments for testing, wiring, protection, maintenance, and troubleshooting for various types of motors and motor controls. This course also covers an introduction to heating, ventilation, and air conditioning (HVAC) systems and refrigeration theory, including compressors, operating systems and system maintenance equipment, and safety requirements. The principles of combustion, hazardous materials, their reactions in varied locations, and the use of safety equipment is also included in this course. (FT) AA/AS; CSU.

304A Electrical Apprenticeship Specialties I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Electrical 304B or 170B (formerly ELEC 70B) with a grade of “C” or better, or equivalent.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Building Construction Technology 222 or Electrical 75A or 175A.

This course provides the electrical apprentice with instruction in calculations for wiring commercial and residential dwellings and National Electrical Code (NEC) requirements for lighting and specialty fixtures. Topics include the standby emergency electrical systems and system applications, disconnect switches, feeder and branch circuits for direct current (DC) systems, theory and operating principles for solid-state devices, operational amplifier circuits, transformers and components of fire alarm and security systems, and installation methods for smoke and heat detectors. (FT) AA/AS; CSU.

**304B Electrical Apprenticeship Specialties II**
2 hours lecture, 3 hours lab, 3 units
Grade Only

**Advisory:** Electrical 304A or 175A (formerly Electrical 75A) with a grade of “C” or better, or equivalent.

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Building Construction Technology 223 or Electrical 75B or 175B.

This course is designed to provide the electrical apprentice with advanced instruction in controls for motors, starters, relays, switches and transformers as well as in the installation and connection of gas burner controls and commercial and industrial Heating Ventilation and Air Conditioning (HVAC) control systems. Topics also include National Electrical Code (NEC) and Occupational Safety and Health Administration (OSHA) requirements for connecting and grounding varied welding machines; installation and protection of heat-tracing and freeze protection equipment, principles and maintenance of motors, and selection of materials and tools required for high voltage termination/splices according to manufacturer’s specifications. (FT) AA/AS; CSU.

---

**Associated Builders and Contractors**

**Heating, Ventilation & Air Conditioning Apprenticeship**

A four-year Heating, Ventilation and Air Conditioning (HVAC) apprenticeship program. Applications should be directed to Associated Builders and Contractors, 13825 Kirkham Way, Poway CA 92064; 858-513-4700. Only students accepted as apprentices under Associated Builders and Contractors are eligible for enrollment in the following HVAC courses.

**Student Learning Outcomes:**

- Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards for ABC HVAC.

- Illustrate procedures utilized for ABC HVAC practices in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in the HVAC field.

- Identify and utilize equipment and related components of HVAC to meet ABC standards for measurement, calibration and HVAC practices at Journeyman levels.

- Read, comprehend and apply HVAC instructions and design standards for construction or production outcomes as required by ABCA HVAC practices and industry standards in HVAC.

**Courses**

**Heating, Ventilation & Air Conditioning (HVAC)**

**301 Introduction to HVAC I**
2 hours lecture, 3 hours lab, 3 units
Grade Only

**Advisory:** English 48 and Mathematics 38, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and M30.

**Limitation on Enrollment:** Student must be a state registered apprentice in this trade.

In this course, trade mathematics and drawings, the tools of the trade, blueprint terminology and basic rigging equipment and procedures as applicable to
HVAC are covered. This course is designed to give the HVAC apprentice student an understanding of copper and plastic piping practices. (FT) AA/AS.

302 Introduction to HVAC II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Heating, Ventilation & Air Conditioning 301 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Student must be a state registered apprentice in this trade.
This course introduces the HVAC trainee to the basic concepts and environmental concerns related to heating, ventilation, and air conditioning including soldering, brazing, ferrous metal piping practices, basic electricity, heating and cooling. This course also describes the HVAC program and the career opportunities available in the HVAC trade. (FT) AA/AS.

303 Intermediate HVAC I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Heating, Ventilation & Air Conditioning 302 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Student must be a state registered apprentice in this trade.
This course instructs the HVAC trainee in the properties of air and covers chimneys, flues and vents. Students are introduced to basic mechanical procedures commonly performed in HVAC service work such as the operation, installation and servicing of electric furnaces. This course also introduces the student to alternating current and electronic components and circuits used in HVAC systems. (FT) AA/AS.

304 Intermediate HVAC II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Heating, Ventilation & Air Conditioning 303 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Student must be a state registered apprentice in this trade.
This course instructs the HVAC trainee in HVAC controls and metering devices and introduces the trainee to control circuit analysis. This course also covers compressors and heat pumps and instructs the student in leak detection, evacuation, recovery and charging service procedures used to troubleshoot, repair and/or maintain proper operation of the mechanical refrigeration system. (FT) AA/AS.

305 Advanced HVAC I
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Heating, Ventilation & Air Conditioning 304 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Student must be a state registered apprentice in this trade.
This course instructs the HVAC trainee in preventive maintenance and provides an introduction to troubleshooting applying to all types of HVAC equipment. This course also covers troubleshooting electronic controls, gas heating, electric heating and oil heating. (FT) AA/AS.

306 Advanced HVAC II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Heating, Ventilation & Air Conditioning 305 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Student must be a state registered apprentice in this trade.
This course instructs the HVAC trainee in troubleshooting cooling, accessories, heat pumps and commercial heating and cooling systems. This course also covers water and air balance, steam systems and customer relations. (FT) AA/AS.

307 HVAC Specialties
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Heating, Ventilation & Air Conditioning 306 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Student must be a state registered apprentice in this trade.
This course offers advanced blueprint reading and specifications as they relate to HVAC, indoor air quality and energy conservation equipment commonly used in HVAC systems. This course also covers energy management systems and the methods of water treatment and water treatment equipment used with HVAC systems. (FT) AA/AS.

308 HVAC Specialties II
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Heating, Ventilation & Air Conditioning 307 with a grade of “C” or better, or equivalent.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
**Apprenticeship**

*Limitation on Enrollment:* Student must be a state registered apprentice in this trade. This course covers commercial heating and cooling systems, maintenance of these systems and system start-up and shut down. This course also covers commercial and industrial refrigeration systems, equipment, refrigerated warehouses, walk-in coolers display cases, etc. (FT) AA/AS.

**349 HVAC Work Experience**

**Hours by Arrangement, 300 hours total, 1-4 units**

**Pass/No Pass Only**

*Advisory:* English 42 and English 43, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R4 and W4.

*Limitation on Enrollment:* Student must be a state registered apprentice in this trade and concurrently enrolled in a related apprenticeship class. This course consists of on-the-job learning experiences in the occupational field of HVAC. Student must be an indentured HVAC apprentice and be currently enrolled in a related apprenticeship class. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. (FT) AA/AS.

**Associated Builders and Contractors**

**Pipefitting Apprenticeship**

A four-year apprenticeship program. Applications should be directed to Associated Builders and Contractors, 13825 Kirkham Way, Poway CA 92064; 858-513-4700. Only students accepted as apprentices under Associated Builders and Contractors are eligible for enrollment in the following pipefitting courses

*Prerequisite:* Pipefitting apprentices must complete Plumbing (PLBG) 305, 310, 315 and 320 with a grade of “C” or better or equivalent prior to enrolling in the Apprenticeship Pipefitting program.

Proficiency in oxy-fuel cutting of straight, curved and bevel cuts, and shielded metal arc welding of mild steel plate is required for completion of the apprenticeship program. Welding proficiency can be achieved through non-credit courses offered through the San Diego Community College District Continuing Education division.

**Pipefitter Student Learning Outcomes:**

- Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards in Pipefitting.
- Illustrate procedures utilized for Pipefitting practices in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in Pipefitting.
- Identify and utilize equipment and related components of Pipefitting to meet Plumbing standards for measurement, calibration and Pipefitting practices at Journeyman levels.
- Read, comprehend and apply Pipefitting instructions and design standards for Pipefitting production outcomes as required by Plumbing practices and industry standards.

**Certificate of Achievement:**

**Pipefitting (Construction Trades) Apprenticeship**

*Prerequisite - Pipefitting apprentices must complete the following courses with a grade of “C” or better, or equivalent, prior to enrolling in the Apprenticeship Pipefitting program:*

*Note:* Proficiency in oxy-fuel cutting of straight, curved and bevel cuts, and shielded metal arc welding of mild steel plate is required for completion of the Pipefitting Apprenticeship program. Welding proficiency can be achieved through non-credit courses offered through the San Diego Community College District Continuing Education division.
Associate in Science Degree
Pipefitting (Construction Trades)
Apprenticeship:

Associate in Science Degree Requirements:
The Associate in Science degree is conferred upon successful completion of the required apprenticeship program of Associated Builders and Contractors. Proficiency in oxy-fuel cutting of straight, curved and bevel cuts, and shielded metal arch welding of mild steel plate is required for completion of the Pipefitting Apprenticeship program. Welding proficiency can be achieved through non-credit courses offered through the San Diego Community College District Continuing Education division. For fourth year, second semester, Apprentices may choose between Advanced Pipefitting 335 or increasing their proficiency with oxy-fuel equipment to scarf metal and cut bevels; and shielded metal arc welding of mild steel plates, tee, lab and square butt joints and fillet welds.

Prerequisite - Pipefitting apprentices must complete the following courses with a grade of “C” or better, or equivalent, prior to enrolling in the Apprenticeship Pipefitting program:

<table>

Total Units = 21

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

Recommended electives: English 101.

Courses

Pipefitting (PLPF)

325 Introduction To Pipefitting
2 hours lecture, 4 hours lab, 3 units

Advisory: Plumbing (Construction Trades) 165B or Plumbing (Construction Trades) 320 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Pipefitting (Construction Trades) 080 or Pipefitting (Construction Trades) 180.

This course is designed to give the Pipefitting student an introduction to blueprint drawings and detail sheets, piping systems, standards and specifications. The course content includes advanced blueprint reading and trade math as well as motorized equipment and aboveground pipe installation. (FT) AA/AS; CSU

330 Intermediate Pipefitting
2 hours lecture, 4 hours lab, 3 units

Advisory: Pipefitting (Construction Trades) 325 or Pipefitting (Construction Trades) 180 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Pipefitting (Construction Trades) 085 or Pipefitting (Construction Trades) 185.

This course is designed to give the Pipefitting Apprentice student instruction in pipe hangers and supports, identifying and installing valves, field routing and vessel trim, spring can supports. Emphasis is placed planning work activities and performing non-destructive examination testing. (FT) AA/AS; CSU.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
335 Advanced Pipefitting
2 hours lecture, 4 hours lab, 3 units
Grade Only
Advisory: Pipefitting (Construction Trades) 330 or Pipefitting (Construction Trades) 185 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Pipefitting (Construction Trades) 090 or Pipefitting (Construction Trades) 190. This course is designed to give the Pipefitting Apprentice student instruction in advanced pipe fabrication, aligning pipe to rotating equipment, steam traps, in-line specialties, special piping, hot taps and maintaining valves. (FT) AA/AS; CSU.

340 Advanced Pipefitting II
2 hours lecture, 4 hours lab, 3 units
Grade Only
Advisory: Pipefitting (Construction Trades) 335 or Pipefitting (Construction Trades) 190 with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Pipefitting (Construction Trades) 195. This course is designed to give the Pipefitting Apprentice student an introduction to aboveground pipe installation, field routing and vessel trim. Topics include pipe hangers and supports, and piping system testing and related equipment. (FT) AA/AS; CSU.

Associated Builders and Contractors
Plumbing Apprenticeship
A four-year apprenticeship program. Applications should be directed to Associated Builders and Contractors, 13825 Kirkham Way, Poway CA 92064; 858-513-4700. Only students accepted as apprentices under Associated Builders and Contractors are eligible for enrollment in the following plumbing courses.

Student Learning Outcomes:
ABC Plumbing Apprenticeship students will:
• Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards for Plumbing.
• Illustrate procedures utilized for ABC Plumbing Apprenticeship in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in ABC Plumbing Apprenticeship.
• Identify and utilize equipment and related components of plumbing to meet ABC Plumbing standards for measurement, calibration and ABC Plumbing practices at Journeyman levels.
• Read, comprehend and apply plumbing instructions and design standards for construction or production outcomes as required by plumbing practices and industry standards.

Certificate of Achievement:
Plumbing (Construction Trades) Apprenticeship

Total Units = 24

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

Recommended electives: English 101.

Courses

Plumbing (PLBG)

305 Introduction to Plumbing I  
  2 hours lecture, 3 hours lab, 3 units  
  Grade Only

Advisory: English 48 and English 49 and Mathematics 38, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5, W5 and M30.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 60A, 105 or 160A.

This course is designed to give the plumbing apprentice student introductory information regarding OSHA (Occupational Safety & Health Administration) standards of safety and precautions for working on the construction site; a review of math as it relates to plumbing, hand and power tool usage, basic plumbing blueprint reading and basic rigging. This course is designed for students planning a career in the plumbing trade. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

310 Introduction to Plumbing II  
  2 hours lecture, 3 hours lab, 3 units  
  Grade Only

Advisory: Plumbing (Construction Trades) 160A or 305, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 65A, 115 or 165A.

This course is designed to provide the intermediate plumbing apprentice student the knowledge of introductory plumbing math, the identification of various commercial drawings, the installation of Drain, Waste & Vent (DWV) piping components and systems for commercial properties utilizing local and National Plumbing Codes. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

315 Intermediate Plumbing I  
  2 hours lecture, 3 hours lab, 3 units  
  Grade Only

Advisory: Plumbing (Construction Trades) 160B or 310, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 65A, 115 or 165A.

This course is designed to give the intermediate plumbing apprentice student the ability to perform testing of water supply piping and systems, installation of the components of a water supply system, and the ability to read and interpret commercial plumbing drawings for project requirements according to local and national codes. The application of advanced trade math concepts and interpreting the International Association of Plumbing and Mechanical Officials (IAPMO) uniform plumbing codes and residential plumbing drawings, identifying various types of pipe and the procedures for working with the pipe. This course also includes identification of various plumbing lines and their components. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

320 Intermediate Plumbing II  
  32 - 36 hours lecture, 48 - 64 hours lab, 3 units  
  Grade Only

Advisory: Plumbing (Construction Trades) 165A or 315, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 65B, 120 or 165B.

This course is designed to give the intermediate plumbing apprentice student the ability to perform testing of water supply piping and systems, installation of the components of a water supply system, and the ability to read and interpret commercial plumbing drawings for project requirements according to local and national codes. The application of advanced trade math concepts...
is further developed. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

325 Advanced Plumbing I
2 hours lecture, 3.5 hours lab, 3 units
Grade Only
Advisory: Plumbing (Construction Trades) 165B or 320, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 70A, 125 or 170A.
This course is designed to provide the advanced plumbing apprentice student with the ability to perform applications of advanced math for plumbers and methods of handling waste. This course also provides information relating to water softening measures, methods of locating buried lines, the installation and maintenance of waste pressure booster systems, and the prevention of backflow. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

330 Advanced Plumbing II
2 hours lecture, 3.5 hours lab, 3 units
Grade Only
Advisory: Plumbing (Construction Trades) 175B or 340, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 70B, 130 or 170B.
This course is designed to provide the advanced plumbing apprentice student with the ability to organize job tasks, clean and disinfect potable water systems, thaw frozen pipes, install main to meter water services and solar systems. This course also covers the ability to rough-in fixtures for residential, commercial and handicapped settings and install natural gas and storm drainage systems. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

335 Plumbing Construction Specialties
32 - 36 hours lecture, 48 - 64 hours lab, 3 units
Grade Only
Advisory: Plumbing (Construction Trades) 170B or 330, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 75A, 135 or 175A.
This course is designed to introduce the plumbing apprentice student to specialty topics such as swimming pool installation, medical gas systems, mobile home and mobile home park plumbing systems, and private water waste and treatment systems. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

340 Plumbing Code
32 - 36 hours lecture, 48 - 64 hours lab, 3 units
Grade Only
Advisory: Plumbing (Construction Trades) 170A or 325, with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Plumbing (Construction Trades) 75B or 175B.
This course is designed to prepare the advanced plumbing apprentice student to apply plumbing codes to correctly design and build plumbing systems. Primary topics include coverage of codes pertaining to plumbing fixtures and fittings, water heaters and fuel piping, drainage, waste and vent systems, sewage and reclaimed water systems, sizing and standards, shielded metal arc welding and alternate plumbing systems. This course is designed for students planning a career in the plumbing trade. (FT) AA/AS; CSU.

Associated Builders and Contractors
Sheet Metal Apprenticeship
A four-year sheet metal apprenticeship program. Applications should be directed to Associated Builders and Contractors, 13825 Kirkham Way, Poway CA 92064; 858-513-4700. Only students accepted as apprentices under Associated Builders and Contractors are eligible for enrollment in the following sheet metal courses.
Proficiency in oxy-fuel cutting of straight, curved and bevel cuts, and shielded metal arc welding of mild steel plate and thin gauge metal is required for completion of the apprenticeship program. Welding proficiency can be achieved through non-credit courses offered through the San Diego Community College District Continuing Education division.
**Student Learning Outcomes:**

Sheet Metal Apprenticeship students will:

- Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards for Sheet Metal.
- Illustrate procedures utilized for Sheet Metal practices in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in Sheet Metal.
- Identify and utilize equipment and related components of the Sheet Metal profession to meet standards for measurement, calibration and Sheet Metal practices at Journeyman levels.
- Read, comprehend and apply Sheet Metal instructions and design standards for Sheet Metal outcomes as required by Sheet Metal practices and industry standards.

**Certificate of Achievement: Sheet Metal Apprenticeship**

**Courses Required for the Major:**

**Courses**

**Sheet Metal (SHEE)**

**301A Level 1 Sheet Metal/HVAC Apprenticeship**

2 hours lecture, 3 hours lab, 3 units

**Grade Only**

**Advisory:** English 48 and English 49 and Mathematics 38, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5, W5 and M30.

**AA/AS = Associate Degree Applicable**

**CSU = California State University Applicable**

**UC = University of California Applicable**
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 60A or 105.
This course is an introduction to the Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) trades. Topics include the tools of the trade, safety practices, trade mathematics, blueprints and drawings, and basic rigging. This course is designed for apprentices in Sheet Metal/HVAC. (FT) AA/AS.

301B Level 1 Sheet Metal/HVAC Apprenticeship
2 hours lecture, 3 hours lab, 3 units Grade Only
Advisory: Sheet Metal 301A or 60A, with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 60B or 110.
This course is a continuation of Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) trades at the introductory level. Topics include intermediate math, duct and air distribution theory and installation, welding concepts, insulation, and electricity related to the HVAC trade. This course is designed for apprentices in the Sheet Metal and HVAC fields. (FT) AA/AS.

302A Level 2 Sheet Metal/HVAC Apprenticeship
2 hours lecture, 3 hours lab, 3 units Grade Only
Advisory: Sheet Metal 60B or 301B, with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 65A or 115.
This course is an intermediate level study of cooling and sheet metal layout. Topics include layout and line development, mathematics and measurements used in the trade, bend allowances and triangulation. This course is designed for apprentices in the Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) fields. (FT) AA/AS.

302B Level 2 Sheet Metal/HVAC Apprenticeship
2 hours lecture, 3 hours lab, 3 units Grade Only
Advisory: Sheet Metal 65A or 302A, with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 65B or 120.
This course is an intermediate study of heating and metering for the Sheet Metal and Heating, Ventilation and Air Conditioning (HVAC) trades. Topics include basic electronics, metering devices, compressors, heat pumps, and leak detection, evacuation, recovery and charging. This course is designed for apprentices in the Sheet Metal/HVAC fields. (FT) AA/AS.

304A Level 3 Sheet Metal/HVAC Apprenticeship
2 hours lecture, 3 hours lab, 3 units Grade Only
Advisory: Sheet Metal 65B or 302B, each with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 70A or 125.
This course is an intermediate level study of blueprints and specifications for Heating, Ventilation and Air Conditioning (HVAC) ductwork. Topics include Sheet Metal and Air Conditioning Contractors of North America (SMACNA) Manuals, duct and fabrication standards, gutters and downspouts, roof flashing, and principles of air flow. This course is designed for apprentices in the sheet metal and HVAC trades. (FT) AA/AS.

304B Level 3 Sheet Metal/HVAC Apprenticeship
2 hours lecture, 3 hours lab, 3 units Grade Only
Advisory: Sheet Metal 70A or 304A, with a grade of "C" or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 70B or 130.
This course is an advanced study of blueprint reading and system design for the sheet metal and Heating, Ventilation and Air Conditioning (HVAC) trades. Topics include indoor air quality, types of duct
systems, and field measuring and fitting. This course is designed for apprentices in the sheet metal and HVAC trades. (FT) AA/AS.

305A Level 4 Sheet Metal/HVAC Apprenticeship

2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Sheet Metal 70B or 304B, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 75A or 135.

This course covers advanced Heating, Ventilation and Air Conditioning (HVAC) and Sheet Metal applications. Topics include system start-up and shut-down, commercial and industrial refrigeration systems, hydronic heating and cooling systems, and how to design fume and exhaust systems per Occupational Safety and Health Administration (OSHA) and American Conference of Governmental Industrial Hygienists (ACGIH) standards. This course is designed for apprentices in Sheet Metal/HVAC. (FT) AA/AS.

305C Level 4 Sheet Metal/HVAC Apprenticeship

2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: Sheet Metal 75A or 305A, with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Sheet Metal 75B.

This course covers advanced Heating, Ventilation and Air Conditioning (HVAC) troubleshooting and Sheet Metal roofing. Topics include troubleshooting and repair of gas and electric heating systems, cooling systems, heat pumps, and electronic controls, as well as system balancing. Sheet Metal topics include metal roof system applications and installation. This course is designed for apprentices in Sheet Metal/HVAC. (FT) AA/AS.

Honeywell Tool and Die Apprenticeship

A four-year apprenticeship in the tool and die and mold maker trades at Honeywell Corporation. Applications for the program are accepted at

Honeywell Controls Corporation, 2055 Dublin Drive, San Diego, CA 92154.

This program will prepare the student for a career in machining as a Tool and Die Maker or Mold Maker. Upon completion of the apprenticeship program the student will receive a Journeyman certificate in the trade from the State of California.

Career options include Tool and Die Maker, Mold Maker. The Journeyman certificate will prepare the student for all aspects of the trade, promotion into supervisory and management positions may be possible upon completion of the Associate or Bachelor’s degree.

Certificate of Achievement: Honeywell Tool and Die Apprenticeship

This program is accepted at

Honeywell Controls Corporation, 2055 Dublin Drive, San Diego, CA 92154.

This program will prepare the student for a career in machining as a Tool and Die Maker or Mold Maker. Upon completion of the apprenticeship program the student will receive a Journeyman certificate in the trade from the State of California.

Career options include Tool and Die Maker, Mold Maker. The Journeyman certificate will prepare the student for all aspects of the trade, promotion into supervisory and management positions may be possible upon completion of the Associate or Bachelor’s degree.

Certificate of Achievement: Honeywell Tool and Die Apprenticeship

Courses Required for the Major: Units
MATH 104 Trigonometry 3
ENGL 101 Reading and Composition 3
COMS 103 Oral Communication 3
ENGE 151 Engineering Drawing 2
MACT 140 Machine Technology 4
MFET 105 Print Reading and Symbology 3

Total Units = 18

Associate in Science Degree: Honeywell Tool and Die Apprenticeship

Courses Required for the Major: Units
MATH 104 Trigonometry 3
ENGL 101 Reading and Composition 3
COMS 103 Oral Communication 3
ENGE 151 Engineering Drawing 2
MACT 140 Machine Technology 4
MFET 105 Print Reading and Symbology 3

Total Units = 18

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.
Operating and Maintenance Engineers

A four-year apprenticeship program for Operating and Maintenance Engineers. Applications for this program should be directed to Operating and maintenance Engineers Trade, Local 501, 2501 Wester Third Street, Los Angeles, CA 90057.

Completion Requirements: In addition to the academic requirements listed below, each apprentice must complete the prescribed number of hours of training during the period of the apprenticeship program as approved by the apprenticeship committee to receive the certificate of achievement or two-year degree.

Certificate of Achievement: Operating and Maintenance Engineers

Courses Required for the Major: Units
ELCT 111 Electrical Theory I 3
ELCT 111L Electrical Laboratory I 2
ELCT 121 Electrical Theory II 3
ELCT 121L Electrical Laboratory II 2
AIRE 100 Basic Refrigeration Theory 4
AIRE 103 Basic Refrigeration Lab 2
AIRE 122 Construction Drawings and Estimating 3
AIRE 123 Construction Drawings and Estimating Lab 1
AIRE 124 Control Systems Theory 3
AIRE 125 Control Systems Lab 2
AIRE 126 Fluid Flow Dynamics 3
AIRE 127 Fluid Flow Dynamics Lab 2
AIRE 132 Advanced Refrigeration Theory 3
AIRE 133 Advanced Refrigeration Lab 2

Total Units = 35

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

Recommended electives: English 101

Pipefitting (PIPF)

304 Heating I, Steam
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course provides an introduction to hot water steam heating, gravity hot water systems, forced hot water heating systems, problems caused by air in the systems, hot water piping connections, and installation of equipment safety devices for hot water boilers. (FT) AA/AS; CSU.

308 Pneumatic Controls
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is a review of the fundamentals of pneumatics, controllers, controlled devices and auxiliary devices. The course includes day-night and heat-cooling thermostats, ventilation, heating, and cooling controls, humidity control, year-round air conditioning, and master-submaster systems. (FT) AA/AS; CSU.

310 Refrigeration and Air Conditioning
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade.

Courses

Associate in Science Degree: Operating and Maintenance Engineers

Courses Required for the Major: Units
ELCT 111 Electrical Theory I 3
ELCT 111L Electrical Laboratory I 2
ELCT 121 Electrical Theory II 3
ELCT 121L Electrical Laboratory II 2
AIRE 100 Basic Refrigeration Theory 4
AIRE 103 Basic Refrigeration Lab 2
AIRE 122 Construction Drawings and Estimating 3
AIRE 123 Construction Drawings and Estimating Lab 1
AIRE 124 Control Systems Theory 3
AIRE 125 Control Systems Lab 2
AIRE 126 Fluid Flow Dynamics 3
AIRE 127 Fluid Flow Dynamics Lab 2
AIRE 132 Advanced Refrigeration Theory 3
AIRE 133 Advanced Refrigeration Lab 2

Total Units = 35
This course covers refrigeration and air conditioning systems. Emphasis is placed on the components in refrigeration and air conditioning systems, theories of electricity relevant to the trade, operation of evaporative condensers, maintenance on refrigeration systems, and pipe and line layout and installation in a refrigeration system. (FT) AA/AS; CSU

314 Heating II Hydronics
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This Hydronics course introduces the technical aspects of the design, calculation and installation of hydronics heating and cooling systems. Emphasis is placed on residential, commercial, institutional and industrial hydronics applications. (FT) AA/AS; CSU.

318 Fitting Fabrication
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course provides the student with basic pipefitting skills; taking accurate measurements, cutting pipe and calculating fitting “take off”. Topics include the difference between screw and welded pipe and their uses; proper and safe use of copper and plastic pipe as well as pipe hangers and supports. Students learn to apply pipe layout and fitting fabrication principles/procedures for elbows, tees and laterals used in the industrial piping industry. In addition the student learns to use welding experience and mathematics to design, lay out and fabricate fittings used in the pipefitting trade. (FT) AA/AS; CSU

320 TIG Welding
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is designed to provide the apprentice with a working knowledge of the welding process known as TIG (Tungsten Inert Gas)/GTAW (gas tungsten arc welding). Students learn the fundamentals, the process, equipment, techniques, preparation, shielding gas and electrodes. Guided bend testing and quality weld inspection are also covered. Emphasis is on performing TIG/GTAW welding in a safe manner. (FT) AA/AS.

322 Instrumentation and Automated Systems
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course introduces the operation, installation and testing of instruments and automated systems. Emphasis is placed on pressure measuring instruments, liquid level instruments, density measuring instruments, temperature and humidity measuring instruments, speed and position transmitters, automatic force balance controllers, pneumatic control valves, control valve accessories and instrumentation systems. (FT) AA/AS; CSU

324 Pipe Drafting and Blueprint Reading
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is an introduction to blueprint reading and drafting pertaining to domestic water systems and piping layout. Emphasis is placed on the use of drawing tools and appropriate pipefitting diagrams to draw waste vent systems and to diagram water and gas lines using mock-ups. (FT) AA/AS; CSU

326 Advanced Piping Mathematics
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. Advanced Piping Mathematics is designed to introduce and develop the applied piping and calculating skills necessary in the piping industry. Topics include the application of trigonometry, offset problems, and pipe and tube bending mathematics. (FT) AA/AS.

328 Pipefitters Code
3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course reviews the fundamentals of pipefitting. Topics include isometric drawing interpretation, tools and tool safety, hydronics, plan reading, and

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
trigonometry tables. The foundations of hydraulics, pneumatics, refrigeration, arc welding and rigging are introduced and explored. (FT) AA/AS.

330 Pipefitting Certification
3 hours lecture, 3 units
Pass/No Pass Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course covers the application of the most current codes and state regulations governing piping, mechanical installations and excavating operations. Upon completion, the apprentice will be prepared to take the Journeyman P.I.P.E. exam and Cal/OSHA Excavation Competent Person exam. (FT) AA/AS.

331 Arc Welding I
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.

Limitation on Enrollment: Student must be a state registered apprentice in this trade. This course is not open to students with credit for Pipefitting (PIPF) 302.

In this course the student is introduced to arc welding, intensive pipe and plate welding, safe welding practices, personal protection and fire protection. Basic electricity, the types of arc welding machines, arc welding consumables, and arc welding symbols are covered. This course is designed to give the apprentice student a basic understanding of arc welding. (FT) AA/AS.

332 Arc Welding II
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Advisory: Pipefitting (PIPF) 331 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Student must be a state registered apprentice in this trade.

In this course the student is introduced to the safety procedures for arc welding, arc welding equipment and equipment maintenance. Students learn how to weld trial beads. Additional instruction on basic electricity is covered. This course is designed to build on the students’ basic understanding of arc welding. (FT) AA/AS.

333 Arc Welding III
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Advisory: Pipefitting (PIPF) 332 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Student must be a state registered apprentice in this trade.

This is an advanced Arc Welding course. In this course the student studies Federal OSHA rules and regulations related to arc welding. The student is introduced to and begins to prepare for the SMAW/GTAW United Association Arc Welding certification test. (FT) AA/AS.

334 Arc Welding IV
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Advisory: Pipefitting (PIPF) 333 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Student must be a state registered apprentice in this trade.

This is an advanced Arc Welding course. In this course the student is introduced to the fundamentals of metallurgy, mechanical properties of metals, non-ferrous metals, shielding gases, and heat-treating. Welding low-, medium- and high-carbon steel is also covered, as well as welding alloy steels, stainless steels and high-chromium alloys. In addition, this course covers the use of computer-assisted arc welding machines for the high-tech industry. (FT) AA/AS.

335 Arc Welding V
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Advisory: Pipefitting (PIPF) 334 with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Student must be a state registered apprentice in this trade.

This is an advanced Arc Welding course and is the last in a series of five welding courses required for a Pipefitting Apprenticeship. In this course students take the FED OSHA 10-hour course on confined space entry as related to arc welding and receive a certificate from FED OSHA. All procedures and techniques required for the SMAW/GTAW United Association welding certification are reviewed. The student takes the required arc-welding test at the end of this course for this certification. (FT) AA/AS.
349 Pipefitting Work Experience

300 hours per semester, 4 units
Pass/No Pass Only

Limitation on Enrollment: Student must be a state registered apprentice in this trade and concurrently enrolled in a related apprenticeship class. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. See note preceding Apprenticeship listing. (FT) AA/AS;

Courses

Plumbing (PMBG)

301 Pipe Trades Orientation

3 hours lecture, 3 units
Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5, W5 and M40.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course introduces the fundamentals of the pipe trades and includes OSHA regulations, tool safety, first-aid and prevention, proper use and care of tools, workplace habits and attitudes, business practices and employer-employee relationships as they apply to the pipefitting trades. (FT) AA/AS; CSU

303 Piping Mathematics

3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course introduces Piping Mathematics and its practical application to the trade. Topics include basic math, piping formulas, symbols and terms, and the metric system of measurement. Content is explored and developed through problem solving. (FT) AA/AS;

305 Pipe Bending and Rigging

1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course introduces pipe bending and rigging principles as they apply to plumbing jobs. Topics include principles, mathematics, and methods of pipe bending. Rigging hardware, slings, signal systems, and knot tying are a sampling of the course rigging topics. (FT) AA/AS; CSU

307 Drawing I

3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course introduces drawing concepts used in the pipetrades and includes preliminary drawings, isometric and plan flat symbols, applied drawing and blueprint reading, plans used in the trade, and architects scale. (FT) AA/AS; CSU

309 Supervision and Leadership

3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. Students learn leadership skills as defined by the United Association (UA) and the Mechanical Contractors’ Association (MCA) in the field of plumbing. In addition, students are introduced to the theory and installation of domestic hot water energy systems, and the design of plumbing modules including waste vents, water and gas lines using mock-ups. (FT) AA/AS; CSU

311 Basic Science

3 hours lecture, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course reviews the fundamental science and mechanics of the piping trade. Topics include industry applications of the properties of water, hydraulics, pneumatics and metals. (FT) AA/AS.

313 Copper and Gas Welding

1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course provides hands-on use of soldering, brazing, welding and metal cutting procedures. Topics include safety practices, equipment needs.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
filler materials, types of pipe welds, oxyacetylene cutting, cutting defects, flame straightening, and use of templates. (FT) AA/AS.

**315 Metallic Arc Welding**

1.5 hours lecture, 1.5 hours lab, 2 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course provides instruction on arc welding, pipe and plate welding, and operation of oxyfuel cutting equipment. Students learn how to set up equipment, perform trial beads and maintain equipment. Topics also include types of welds, preheating and stress relieving and quality control and codes. This course also covers welding procedure qualifications, vee welds, pipe welds, piping materials, a basic electricity review, and pipe welding processes. Emphasis is on the safe use of equipment. (FT) AA/AS.

**317 Drainage Systems**

3 hours lecture, 3 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course focuses on the application of the waste and vent section of the Plumbing Code. Topics include sewage disposal and safety and the installation and testing of plumbing drainage systems, traps, vents, municipal and private sewers, and plumbing fixtures. (FT) AA/AS; CSU

**319 Gas Distribution**

3 hours lecture, 3 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course focuses on the application of the gas section of the Plumbing Code with respect to the operation and installation of gas vent systems and controls. Emphasis is placed on the implications of the laws of gases and the safe design and lay out of a gas system to code specification. (FT) AA/AS; CSU

**321 Math/Builder Level-Transit**

3 hours lecture, 3 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course focuses on advanced math applied to science and mechanics problems in the field. Topics include piping and offset calculations, basic flow problems and use of the builders level-transit to determine elevation differentials and simple tangents. (FT) AA/AS; CSU

**323 Water Distribution Systems**

3 hours lecture, 3 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course is a study of the principles which govern the method of water supply and distribution. Topics covered include water treatment, pipeline materials, pipe losses, cross connectors and backflow prevention. The focus is on the construction of a hot water supply in accordance with the Uniform Plumbing Code and sizing charts. Safety is emphasized. (FT) AA/AS; CSU

**325 Fixtures and Controls**

3 hours lecture, 3 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course emphasizes plumbing fixtures and controls. Topics covered include institutional fixtures and design, fixture controls, appliances, accessories, standard abbreviations and standard specifications. Safe use of tools and equipment is emphasized. (FT) AA/AS; CSU

**327 Plumbing Code**

3 hours lecture, 3 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course is a survey of the Plumbing Code emphasizing special areas requiring knowledge of large multiple installations of plumbing. Emphasis is placed on a working knowledge of applicable plumbing codes for layout and installation in the field. (FT) AA/AS; CSU

**329 Advanced Drawing and Plan Reading**

3 hours lecture, 3 units  
Grade Only

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This course provides the student with advanced level plan reading and drawing skills related to plumbing systems. Emphasis is placed on the ability to independently develop drawings and sketches and accurately interpret building plans and specifications for all primary building systems. (FT) AA/AS; CSU
### 330 Fifth Year Specialties

**Limitation on Enrollment:** Apprenticeship - Student must be a state registered apprentice in this trade. This is a piping course designed for plumbing apprentices wishing to expand their knowledge of the plumbing industry and the “state of the art” medical gas systems used in the trade. Topics include the necessary information and skills needed to pass the Medical Gas Installation Certification Examination recognized by the San Diego Plumbing and Pipefitter Joint Apprenticeship Committee. Apprentices also utilize computers and software to plan, diagnose, and layout plumbing projects. (FT) AA/AS.

### 335 Solar Systems and Plumbing Modules

**Limitation on Enrollment:** Student must be a state registered apprentice in this trade and concurrently enrolled in a related apprenticeship class. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS.

### San Diego City Civil Service Communications Technician Apprenticeship

A four-year apprenticeship program in the installation, maintenance and repair of communications equipment offered through the City of San Diego. This is a promotional opportunity for City of San Diego employees only and applicants must meet criteria specified by the city. For information about employment through the City of San Diego, call 619-682-1011.

This apprenticeship program combines classroom instruction in Electronic Systems with on-the-job training to prepare City of San Diego Communication Technicians in the areas of installation, maintenance and repair of communications equipment in City facilities and vehicles.

Upon successful completion of the program, the student will receive a Journeyman certificate from the State of California, and will be eligible for employment in the field of communication equipment maintenance and repair.

**AA/AS = Associate Degree Applicable**  
**CSU = California State University Applicable**  
**UC = University of California Applicable**
Certificate of Achievement: San Diego City Civil Service Communications Technician Apprenticeship

Prepares student for employment as a Communications Technician with the City of San Diego.

Courses Required for the Major: Units
ELDT 123 Introduction to Digital Circuits  3
ELDT 123L Digital Circuits Laboratory  1
ELDT 124 Basic DC Electronics  4
ELDT 124L Basic DC Laboratory  1
ELDT 143 Semiconductor Devices  3
ELDT 143L Semiconductor Devices Laboratory  1.5
ELDT 144 OP-AMPS, Sensors and Computers  3
ELDT 144L OP-AMPS and Sensors Laboratory  1.5
ELDT 224 Microprocessor Design  3
ELDT 224L Microprocessor Design Laboratory  1.5
ELDT 228 Communication Circuits  3
ELDT 228L Communication Circuits and Certification Laboratory  1
ELDT 229 Advanced Telecommunications Networks  3
ELDT 229L Advanced Telecommunications Networks Laboratory  1
ELDT 230 Advanced Computer Designs  3
ELDT 230L Advanced Computer Designs Laboratory  1

Total Units = 34.5

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

Recommended electives: ELDT 126, 126L, 198, 227, 227L.

Student Learning Outcomes:
San Diego City Civil Service Communications Technician Apprenticeship students will:

- Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards for the Communications Technician.
- Illustrate procedures utilized for Communication Technician practices in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in Communication Technician Apprenticeship.
- Identify and utilize equipment and related components of Communications Technician to meet standards for measurement, calibration and Communications Technician practices at Journeyman levels.
- Read, comprehend and apply Communications Technician instructions and design standards for Communications Technician outcomes as required by Communications Technician practice and industry standards.

Associate in Science Degree: San Diego City Civil Service Communications Technician Apprenticeship

Prepares student for employment as a Communications Technician with the City of San Diego.

Courses Required for the Major: Units
ELDT 123 Introduction to Digital Circuits  3
ELDT 123L Digital Circuits Laboratory  1
ELDT 124 Basic DC Electronics  4
ELDT 124L Basic DC Laboratory  1
ELDT 143 Semiconductor Devices  3
ELDT 143L Semiconductor Devices Laboratory  1.5
ELDT 144 OP-AMPS, Sensors and Computers  3
ELDT 144L OP-AMPS and Sensors Laboratory  1.5
ELDT 224 Microprocessor Design  3
ELDT 224L Microprocessor Design Laboratory  1.5
ELDT 228 Communication Circuits  3
ELDT 228L Communication Circuits and Certification Laboratory  1
ELDT 229 Advanced Telecommunications Networks  3
ELDT 229L Advanced Telecommunications Networks Laboratory  1
ELDT 230 Advanced Computer Designs  3
ELDT 230L Advanced Computer Designs Laboratory  1

Total Units = 34.5

San Diego Gas and Electric Company Apprenticeship

A three-year apprenticeship program in various electrical trades at the San Diego Gas and Electric Company. Applications for the following trades are accepted at SDG&E, 8306 Century Park Court, San Diego, CA 92123: 1.) Lineman; 2.) Electric Meter Tester; and 3.) Electric Repair Shop Mechanic.
All applicants must be company employees. COMPLETION REQUIREMENTS: In addition to the academic requirements listed below, each apprentice must complete the prescribed number of hours of training during the period of the apprenticeship program as approved by the apprenticeship committee to receive the certificate of achievement or two-year degree.

A three-year apprenticeship program in various electrical trades at the San Diego Gas and Electric Company. Applications for the following trades are accepted at SDG&E, 8306 Century Park Court, San Diego, CA 92123.

1. Lineman
2. Electric Meter Tester
3. Substation Electrician

All applicants must be company employees. Apprentices in all three trades will complete the following courses:

Student Learning Outcomes:

SDGE Company Apprenticeship students will:

- Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the SDGE Apprenticeship Standards.
- Illustrate procedures utilized for SDGE trade and industry specific practices in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in SDGE occupations.
- Identify and utilize equipment and related components of SDGE professions to meet SDGE standards for measurement, calibration and SDGE practices at Journeyman levels.
- Read, comprehend and apply SDGE instructions and design standards for SDGE construction or production outcomes as required by SDGE practices and industry standards.

Certificate of Achievement: San Diego Gas and Electric Company Apprenticeship

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units. Recommended electives: English 101.
This course is not open to students with previous credit for Electricity 190.
This course provides an orientation in the power distribution and line construction industry. Basic electrical principles and safety on the job are emphasized. Topics include basic mathematical computations, including trigonometry fundamentals, electron theory and the fundamentals of magnetism. Students will combine electrical theory with laboratory and practical applications in the course of study. (FT) AA/AS.

304 Electric Lineman IB
5 hours lecture, 5 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Electricity 191. This course involves the study of the power distribution and line construction industry. Topics include methods of producing electricity, A.C. and D.C. meters and circuitry and electric batteries. Students will also learn about Ohm’s Law and Kirchhoff’s Law and electromagnetic induction. (FT) AA/AS.

310 Electric Lineman IIA
5 hours lecture, 5 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Electricity 192. This course is a study of alternating current circuits, A.C. and D.C. motors and generators, pole and overhead construction, and transformers and voltage regulators. Topics include schematics, shunt and series capacitors and safety issues outlined by the Occupational Safety and Health Act (OSHA). Calculating power used by electrical circuits is also covered. (FT) AA/AS.

312 Electric Lineman IIB
5 hours lecture, 5 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Electricity 193. This course covers state safety orders for line construction and maintenance, transmission and distribution systems and conductors and electrical systems faults. Students will also learn about short circuits, system protective concepts and how to identify control circuits from wiring diagrams. (FT) AA/AS.

320 Electric Lineman IIIA
5 hours lecture, 5 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Electricity 194. This course covers advanced theory of electrical distribution lines and systems. Other topics include phasing, system groundings, substations and the use of electrical instruments. Students will also learn how to connect transformers in accordance with the state code. Usage of fusing tables and reference tables, including technical symbols are also covered. (FT) AA/AS.

322 Electric Lineman IIIB
5 hours lecture, 5 units
Grade Only
Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is not open to students with previous credit for Electricity 195. This course is a continuation of advanced theory of electrical distribution lines and systems. Topics include the use of “hot sticks” and special equipment; repair and maintenance of poles and lines both cold and energized, safety practices and the local/state requirements. Students will be expected to master
competencies such as those included in elements of electricity, overhead pole and electrical line construction, safety codes and applications, electric power system, transformer and meter installations, and exploration of underground electrical distribution. (FT) AA/AS.

**San Diego Transit Electronic Technician Apprenticeship**

The San Diego Transit apprenticeship program is a four-year program designed to prepare the student for a career as a bus Electronics Technician. For application to the program, please contact San Diego Transit Corporation, 100 16th Street, San Diego, CA 92101. More information is available at: [www.sdcommute.com](http://www.sdcommute.com).

**Program Goals:**
This program will provide training for apprentice bus Electronics Technicians for San Diego Transit.

**Program Emphasis:**
This program provides related instruction in electronic systems for apprentices working at San Diego Transit.

**Career Options:**
Bus Electronic Systems Technician.

**Certificate of Achievement:**
**San Diego Transit Electronic Technician**

**Courses Required for the Major:**

ELCT 200L Electrical Control Systems Lab 2

Total Units = 30

Additional general education and graduation requirements for the associate degree are listed in the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

Recommended electives: Electronic Systems 123, 123L, 124, 124L, 125, 125L, 126, 126L, 143, 143L, 144, 144L; English 101;

Student Learning Outcomes:
The San Diego Trolley Apprentice student will:

• Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards.

• Illustrate procedures utilized for trolley practices in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in trolley occupations.

• Identify and utilize equipment and related components of the trolley profession to meet San Diego Trolley standards for measurement, calibration and trolley practices at Journeyman levels.

• Read, comprehend and apply Trolley trade instructions and design standards for construction or production outcomes in Trolley work as required by San Diego Trolley practices and industry standards.

Courses

San Diego Trolley (TROL)

301 San Diego Trolley Light Rail Vehicle I
1.5 hours lecture, 1.5 hours lab, 2 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course is an introduction to the San Diego Trolley Light Rail Vehicle apprenticeship program. Topics include organization of the company, on-the-job safety, use of tools and test equipment, lubrication and maintenance, and vehicle layout and component identification. (FT) AA/AS.

AA/AS = Associate Degree Applicable
CSU = California State University Applicable
UC = University of California Applicable
302 San Diego Trolley Light Rail Vehicle II
1 hour lecture, 2 hours lab, 1.5 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course covers beginning levels of maintenance and inspection of Light Rail Vehicles in the San Diego Trolley Light Rail Vehicle apprenticeship program. Topics include mechanical concepts, planned and unplanned maintenance, component inspections, and use of support equipment. (FT) AA/AS.

303 San Diego Trolley Light Rail Vehicle III
2 hours lecture, 3 hours lab, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course covers intermediate levels of maintenance and inspection of Light Rail Vehicles in the San Diego Trolley Light Rail Vehicle apprenticeship program. Topics include electrical theory, electrical measurement, schematic drawings, control systems, and system troubleshooting. (FT) AA/AS.

304 San Diego Trolley Light Rail Vehicle IV
2 hours lecture, 3 hours lab, 3 units
Grade Only

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course covers advanced levels of maintenance and inspection of Light Rail Vehicles in the San Diego Trolley Light Rail Vehicle apprenticeship program. Topics include electrical component and circuit theory, number systems, logic, small to large scale circuit integration, and analysis and troubleshooting of vehicle controls. (FT) AA/AS.

Solar Turbines Incorporated Apprenticeship

A four-year indentured apprenticeship program in a number of manufacturing or technical trades is available. Applications for the following trades are accepted at Solar Turbines, Incorporated. 2200 Pacific Coast Highway, P.O. Box 85376 MZ-M1, San Diego, CA 92186-5376.

1. Master Machinist
2. Tool and Die Maker
3. Sheet Metal Experimental Mechanic
4. Precision Machine Tool Mechanic

Enrollment in classes other than those listed will be allowed with the approval of the Solar Turbines Incorporated Apprenticeship Coordinator.

Certificate of Achievement: Solar Turbines, Incorporated Apprenticeship

Additional general education and graduation requirements for the associate degree are listed in...
the Academic Requirements section of catalog. The associate degree requires a minimum of 60 units.

Student Learning Outcomes:

The Solar Turbine Apprentice student will:

- Demonstrate preparedness for successful transition to the Journeyman level designation and professional certification by the California Division of Apprenticeship Standards.
- Illustrate procedures utilized for Solar Turbine industry specific practices in use of tools techniques and hands-on skills and competencies for Journeyman-level practices in Solar Turbine.
- Identify and utilize equipment and related components of the Solar Turbine profession to meet standards for measurement, calibration and Solar Turbine practices at Journeyman levels.
- Read, comprehend and apply Solar Turbine instructions and design standards for construction or production outcomes as required by Solar Turbine practices and industry standards.

Courses

Heavy Equipment Operator (HEOP)

301A Construction Equipment Operator IA
2 hours lecture, 3 hours lab, 3 units
Grade Only

Advisory: English 48 and English 49 and Mathematics 46, each with a grade of “C” or better, or equivalent, or Assessment Skill Levels R5 and W5 and M40.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course familiarizes apprentices with the heavy equipment operator (HEO) trade. There is an emphasis on safety training relevant to working around equipment and others. Course participation includes opportunities to apply knowledge and develop skills in the operation of track-type equipment including bulldozers, backhoes, paving machines and trenching equipment. Basic project procedures are introduced. (FT) AA/AS.

301B Construction Equipment Operator IB
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Heavy Equipment Operator 301A with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course introduces the apprentice to soils. Basic project procedures are introduced. Course components offer the opportunity to apply knowledge and develop skills in the operation of dump trucks and tractors. Site-preparation, set-up and grade checking skills are also developed. (FT) AA/AS.

302A Construction Equipment Operator IIA
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Heavy Equipment Operator 301B with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade.

Courses

Solar Turbines (SOLR)

349 Solar Work Experience
300 hours per semester, 4 units
Pass/No Pass Only

Limitation on Enrollment: Student must be a state registered apprentice in this trade and concurrently enrolled in a related apprenticeship class. The combined maximum credit for all work experience courses from all disciplines may not exceed 16 units. AA/AS.
This course provides an overview of earth moving operations including clearing and grubbing, excavation, embankment construction, and backfilling and compaction. Safety training relevant to working with scrapers, bulldozers, front-end loaders and backhoes is emphasized. Students apply knowledge and develop skills in the use of rubber tire type earth moving equipment including scrapers and bulldozers. Project procedures and related math concepts are introduced and reinforced. (FT) AA/AS.

302B Construction Equipment Operator IIB
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Heavy Equipment Operator 302A with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade.
This course builds on the apprentice’s basic knowledge of earth moving operations. Students apply knowledge and develop skills in the operation of rubber tire type earth moving equipment including front-end loaders and backhoes. Safety training relevant to working around equipment and other workers is reinforced. Soil characteristics and standards for working with soils and aggregates are introduced. Students learn to follow contract plans and properly grade a construction site. Project procedures and related math concepts are introduced and reinforced. (FT) AA/AS.

303A Construction Equipment Operator IIIA
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Heavy Equipment Operator 302B with a grade of “C” or better, or equivalent.
Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade.
This course reinforces and further develops basic project procedures. Students apply knowledge and develop skills necessary to leadership role of the finish operator and the operation of telescoping excavators. Advanced safety training relevant to working around equipment and other workers is emphasized. Relevant math concepts and safety procedures are developed. (FT) AA/AS.

303B Construction Equipment Operator IIIB
2 hours lecture, 3 hours lab, 3 units
Grade Only

Prerequisite: Heavy Equipment Operator 303A with a grade of “C” or better, or equivalent.

Limitation on Enrollment: Apprenticeship - Student must be a state registered apprentice in this trade. This course reinforces and further develops the student’s understanding of basic project procedures. Crusher operations and grade setting and checking skills are developed. Safety training relevant to working around equipment and other workers is emphasized. Relevant math content and topics related to soil such as backfilling, stabilization, erosion, geotextiles, and moisture and density tests are developed. (FT) AA/AS.

SAN DIEGO CITY COLLEGE
Faculty
2013-2014

AASE, Jennifer
Associate Professor, Counseling/Athletic Academic Advisor
B.A., M.S., California State University, Fullerton

AKERS-CHACON, Justin
Associate Professor, Chicano Studies
B.A., M.A., Ed.D., San Diego State University
Teaching Credential, University of Phoenix

ALVAREZ, Guillermo
Associate Professor, Mathematics

ALVAREZ, Rafael
Professor, MESA Program Director
B.S., Harvey Mudd College
M.S., University of Southern California

ARMSTRONG, Dometrices
Associate Professor, Nursing Education
A.S., San Diego City College
B.S., University of Phoenix
M.S., University of San Diego

BARON, Chris
Professor
B.A., M.F.A., San Diego State University

BARNES, Randy
Vice President, Instruction
B.A., University of California, San Diego
M.B.A., National University
Ed.D. San Diego State University

BELL, Jacquelin C.
Vice President of Administrative Services
B.A., Spelman College
M.B.A., Clark Atlanta University

BERG, Deborah Jo
Director, Nursing Education
B.S.N., University of Michigan
M.S.N., San Diego State University

BERHANU, Salem
Assistant Professor, EOPS Counselor
B.A., M.A., San Diego State University

BERNAL, Juan Manuel
Professor, Spanish
B.A., M.A., San Diego State University

BODNAR, Dede
Professor, Physical Education
B.S., M.S., California Polytechnic State University, San Luis Obispo

BOLLINGER, John C.
Professor, Machine Technology
15 years experience

BOOTS, Jennifer
Associate Professor, ESOL
A.A., Grossmont College
B.A., M.A., San Diego State University

BRADY, Leroy
Professor, Business
B.A., San Diego State University
M.A., University of California, Santa Barbara

BREAY, Audrey
Professor, English
B.A., Rhodes College
M.A., University of Washington

BROWN, Christopher
Professor, Health & Exercise Science
B.A. Mt. Vernon Nazarene, Mt. Vernon, Ohio
M.S., Cal State University Fullerton

BROWN, Michael
Professor, Electricity
A.S., City College
B.S., Pacific Western University

CALHOUN, Constance
Professor, Cosmetology
A.A., B.A., National University
M.A., University of Phoenix

CAMARENA, Misael
Professor, Mathematics
M.A., San Diego State University

CASTANEDA, Laura
Professor, Radio & TV
B.A., University of Illinois, Urbana

CHARLENS, Erin
Associate Professor, Counseling
A.A., Cabot College
B.A., San Francisco State University
M.A., Golden Gate University
Ed.D., San Diego State University

CHARLENS, Mitch
Professor, Physical Education/Head Men's Basketball Coach
B.A., San Francisco State University
M.A., California State University, Chico

CHEUNG, Cecilia Y.K.
Professor, Librarian
B.A., University of Hong Kong
M.L.S., State University of New York at Albany
M.B.A., Adelphi University

COLE, Kristen
Associate Professor, Psychology
A.A., Los Angeles Harbor College
B.A., University of California, Santa Barbara
M.A., Loyola Marymount University
Ph.D., California School of Professional Psychology

COOPER, Sherry
Associate Professor, Nursing Education
CORDPELL, Dotti  
Professor, Director of Student  
Health Services  
B.S., University of California,  
Irvine  
B.S.N., M.P.H., University of  
California, Los Angeles  

COVA LT, James  
Associate Professor, Chemistry  
B.S., University of Chicago  
M.S., Ph.D., University of  
California, San Diego  

CRISPEN, Nancy  
Professor, Chemistry  
B.S., M.S., M.A.T. University of  
Chicago  

DAVALOS, Enrique  
Associate Professor, Chicano  
Studies  
B.A., M.A., Autonomous  
National University of Mexico  

DAVIES, Thomas  
Professor, Air Conditioning  
A.A., Palomar College  
A.A., Miramar College  
B.S. Cal. State San Marcos  

DE LA LAMA, Carlos  
Professor, Mathematics  
B.A., M.A., University of  
California, San Diego  

DELGADO, Maria Elena  
Counselor, Price Scholars  

DEATON, Merilyn S.  
Professor, Business Studies  
B.S., M.S., San Diego State  
University  

EASTON, Leslie  
Associate Professor/Director  
Mental Health Counseling  
B.A., University of California,  
San Diego  
M.S.W., San Diego State  
University  
Licensed Clinical Social Worker  

EICHINGER, David  
Professor, Photography  
B.A., M.A., California State  
University, Long Beach  

ELIAS, Helen R.  
Dean, Student Development  
B.A. Ed., University of Michigan  
M.A. Ed., Boston College  

ENGSTROM, Erin  
Associate Professor,  
Communication Studies  
B.A., University of Washington  
M.A., Colorado State University,  
Fort Collins  

ENRIGHT, Gwyn  
Professor, English  
B.A., University of California,  
Santa Barbara  
M.A., University of Washington  
Ph.D., University of California,  
Los Angeles  

ERRECA, Lorraine  
Dean, School of Behavioral &  
Social Sciences, and Consumer &  
Family Studies  
A.A., Chaffey College  
B.A., M.A., San Diego State  
University  

ESCALANTE, Virginia  
Professor, English  
B.A., University of Arizona,  
Tucson  
M.A., University of California,  
San Diego  

ESTRADA-OLALDE, Jaime  
Professor, Spanish  
A.A., Palomar College  
B.A., Escuela Normal, Mexico  
B.A., California State University,  
San Marcos  
M.A., San Diego State University  

EWELL, Robbi L.  
Dean, Information and Learning  
Technology  
B.S., M.A., Cornell University  

FIERRO, David  
Professor, Engineering  
B.S., M.S., Ed.D., San Diego State  
University  

FONTANA, Susan  
Professor, Child Development  
B.A., California State University,  
Northridge  
M.S., National University  

FORMAN, Lawrence  
Professor, Computer Science  
B.S., Brown College  
Ph.D., University of California,  
Berkeley  

GAIPA, Brenda  
Associate Professor, Mathematics  
B.A., University of California,  
San Diego  
M.A., San Diego State University  

GALLO, Theresa  
Professor, Mathematics  
B.A., Catholic University of  
America  
M.A., Ph.D., University of  
California, San Diego  

GARDELLA, Duane  
Professor, Drama and Radio and  
Television  
B.A., M.F.A., University of  
California, Los Angeles  

GERALD, Trudy  
Dean, Arts, Humanities, and  
Communications  
B.A., University of Phoenix  
M.A., California State University,  
Northridge  

GONZALES, Yesenia  
Associate Professor, Counseling  
A.A., Cuyamaca College  
B.A., University of California,  
San Diego  
M.A., San Diego State University  

GREER, Paul  
Professor, Physical Education  
B.A., San Diego State University  
M.A., Azusa Pacific University  

GROOMS-JONES, Patricia  
Professor, Cosmetology  
A.S., Hawaii Pacific University  
B.A., San Diego State University  

SAN DIEGO CITY COLLEGE • 2013-2014  513
GUM, Aileen
Professor, English and English as a Second Language
B.A., University of Minnesota
M.A., University of Colorado
M.A. Monterey Institute of International Studies (TESOL)

GURUMURTHY, Ram
Professor, Chemistry
B.S., M.S. Madras University
Ph.D., Iowa State University

HALE, Kris
Professor, Nursing Education
A.D.N., Del Mar College, Corpus Christi, TX
B.S.N., M.S.N., California State University, Dominguez Hills

HARO, Pete
Associate Professor, History
B.S., University of California, Berkeley
M.S., Northwestern University

HARRIS, Berta
Professor, Child Development
B.S., M.S., San Diego State University

HARVEY, Marilyn
Transfer Center Director
B.A., Point Loma Nazarene University
M.A., Point Loma Nazarene University
Ed.D., University of Southern California

HASEGAWA, Susan
Professor, History
B.A., Colorado College
M.P.I.A., University of California, San Diego
M.A., San Diego State University

HIEL, Edwin Ramon
Professor, Counselor
B.S., M.S. Cal Poly San Luis Obispo
M.A. San Diego State University

HONG, Lan
Professor, Mathematics
B.A., University of California, San Diego
M.A., Ph.D., University of California, Davis

HOWELL, Catherine
Professor, Nursing Education
A.D.N., Sierra College
B.S.N., M.S.N., Azusa Pacific University

HUGHES-OELRICH, Terri
Associate Professor, Fine Art
B.A., University of California, Santa Barbara
M.F.A, San Diego State University

HULGIN, Wayne
Professor, Art-Fine Arts
B.F.A., M.F.A., Arizona State University

JARRELL, Janet
Associate Professor, English/ESOL
B.A., M.A., San Diego State University

JULIAN, Fred
Professor, Engineering
M.S.E.E., Georgia Institute of Technology
Ph.D., University of California, San Diego

KEESEY, Miriam E. A.
Professor, Mathematics
B.A., M.A., San Diego State University

KERSEY, Pam
Professor, Nursing
B.S.N., M.S.N. California State University, Dominguez Hills
Ed.D., San Diego State University

KIM, Yoonchung Park
Professor, Fine Art
B.F.A., M.F.A., Seoul National University
M.A., University of California, Berkeley

KIMM, Jenny
Professor, Mathematics
B.S., University of California, Los Angeles
M.A., University of California, San Diego

KING, David
Professor, Photography

KLIPPLE, Karon
Associate Professor, Mathematics
B.A., Trinity University
Ph.D., Texas A&M University

KOENIG, Roman
Associate Professor, Journalism
B.A., CSU San Marcos
M.A., San Diego State University

KORSEDAL, Susan
Associate Professor
Nursing Education

KRAFFERT, Katheryn
Professor, Counselor
A.B., M.S., San Diego State University
M.S., National University

LAHIJANI, Roya
Associate Professor, Biology
B.S., M.S., University of Oklahoma
Ph.D., University of Nevada, Reno

LAMURAGLIA, Rose
Professor, Computer Science
A.A., San Diego City College
B.A., San Diego State University
M.A., National University

LAUREIN, Sofia
Associate Professor, History
B.A., M.A., Odessa State University
Ph.D., Moscow Humanities University
LE, Hoat
Professor, Mathematics
B.A., Pomona College
M.S., Ohio State University
LEBOFFE, Michael J.
Professor, Biology
B.S., M.S., San Diego State University
D.A., Idaho State University
LEON, Sylvia
Professor, Cosmetology
B.S., University of Southern Illinois, Carbondale
LIM, Karen
Professor, English
B.A., University of Arizona
M.S. Ed., Elmira College

M.S.N., Northern Illinois University
F.N.P., University of California, San Diego
ORTEGA, Veronica
Professor, Psychology
B.A., San Diego State University
M.A., Ph.D., University of California, Los Angeles

PATO, Philippe
Associate Professor, French
B.A., College De Dieppe, France
B.A., M.B.A., Indiana University of Pennsylvania
M.A., San Diego State University

PELLETIER, Richard
Professor, Computer Information Systems
A.A., San Diego City College
B.S., San Diego State University

PEREZ, Jose Luis
Associate Professor, Counseling
B.A., University of California, San Diego
M.A., San Diego State University
Ed.D., San Diego State University

PESE, Sandra
Professor/Librarian
B.A., Tufts University
Professional Certificate in Business, University of Cincinnati
M.L.S., Kent State University
Ph.D., Capella University

PETERS, Bonnie
Professor/Director, First Year Services
B.A., University of the West Indies
M.S., University of Connecticut

PHILLIPS, Sudabeh
Professor, Cosmetology
B.S., University of Missouri, Kansas City
M.S., University of Fresno
M.Ed., National University

PITCHER, Sarah
Professor, Sociology
B.A., California State University Fresno
M.A., Ph.D., Syracuse University

PLUDOW, Julie
Professor, Disability Support Programs and Services
B.A., CSU Northridge
M.S., San Diego State University

PORCH, Rhonna
Associate Professor, Nursing Education
B.S.N., M.S.N., California State University, Dominguez Hills

PRECIADO, Oscar
Associate Professor, English
B.A., M.A., University of California, San Diego

PRUITT, Robert L.
Associate Professor, Electronics Engineering Technology
B.A., Northwest Missouri State University
M.S., University of Missouri, Columbia, Missouri
M.S., National University

RANGUS, Joseph
Associate Professor, Business Studies
B.A., San Diego State University
M.S., University of Southern California

REMPALA, Erin
Professor, Biology
B.S., Southampton College of Long Island
M.A., San Francisco State University

REYES, Rodrigo
Professor, Counseling
B.A., Fresno State
M.A., Harvard University
M.A., San Diego State University

RICHARDS, June
Professor, Theatre
A.A., Santa Rosa Jr. College
B.A., Sonoma State University
M.A., San Jose State University

RINCON, Alicia
Professor, Dance
B.A., M.A., United States International University

RING, Barbara
Professor, Librarian
B.A., San Diego State University
M.A., San Diego State University
MLIS, San Jose State University

RIVA, Barbara
Professor, Computer Business Technology
A.A., B.S., M.S., University of Nebraska, Omaha
